☞ *It is particularly requested that applications for copies of the* Army and Navy Gazette, *and Advertisements, should* not *be sent to the Editor, but to* Mr. Richard James Wood, AT THE OFFICE, 16, WELLINGTON STREET, STRAND, W.C., *to whom all business communications should be addressed and remittances made payable.*

The subscription to the paper is 7s. per quarter, or 28s. per annum PAYABLE IN ADVANCE, *inclusive of postage to any part of the United Kingdom; to India, £1 10s. 4d. per annum;* viâ *Brindisi, £1 14s. 8d.*

THE general condemnation which the experimental system of attack has received leaves the British Army in the face of a very possible European war, into which we may unfortunately be plunged, without any recognised development of modern Infantry tactics, and general and regimental commanding officers may, perhaps, under these circumstances, be left to use their own judgment and discretion in dealing with the question when some great emergency arises. But, fortunately, there seems no reason why they should have any great or real difficulty in so modifying our old system as effectually to meet the developments of modern firearms, and to place again our Infantry in the front rank of the foot-soldiers of Europe. The successes which have of late years attended the Prussian arms have led too many of our military theorists to forget the peculiar instincts and capacities of British troops, and in their attempts to graft Prussian ideas and Prussian evolutions on to our system they have ignored the traditions of that "thin red line" which has hitherto triumphed on so many fields, and which we should on no account part with, if only it can in any way be adapted to modern requirements. Yet, probably, our old line formation is, after all, the fittest base from which to develope an advance to the attack by the simple expedient of forming "fours deep" and then pushing forward the several ranks thus formed at distances of one or two hundred yards apart. Ever since the general introduction of the rifle, nearly a quarter of a century ago (long before the first Prussian success was achieved), this system of advance was over and over again urged by thoughtful English officers, who foresaw that the advance of even our two-deep line would be quite impossible in the face of the long range and accurate "Minie" and "Enfield." In this way, however, they urged, we could still advance in a thin line at a minimum of loss, and at the proper moment, when sufficiently close to the enemy for the final charge, the fighting line could be strengthened by the whole or by one or more of the supporting lines, and thus reformed—without the confusion arising from the intermingling of companies, and with the advantage that those who have been comrades in quarters, in camp, or on the march, would be again shoulder to shoulder—the line would rush to the final attack. If there were good reasons for urging these considerations before the introduction of the breech-loader, they have become overpowering since. But somehow the simple advantages of this ready method of advance seem to have been overlooked, probably because a more complicated system found favour with the successful Prussian Army. Yet, should we enter upon hostilities before any new system has been definitely fixed upon by authority, this one, fortunately for us, is ready to our hands, and in adapting it to our requirements no new system of drill will be needed to confuse us, and a few days' practice would teach a battalion of the youngest soldiers in this formation, guided to the front by the right or left hand men of companies as scouts, how to advance by the alternate rushes of the parts of companies in the leading line. In wooded or broken country, when little exposed to Artillery fire, the second or supporting line, and at a still greater distance in rear the third and fourth lines, either together or separately, could move forward by what the Americans in their late war called the "end-on" formation, in which their troops threaded their way to the front through the Virginian forests, and which our own "field exercise" would call the "advance in file from the right or left of companies or half-companies." From this formation the original loose line can be rapidly resumed by the whole or any especially-exposed portion of the force. In thus executing the advance of a battalion with our present regimental organization, the Captains would command the front or fighting line, the Majors the wings of the supporting line, the responsibility of reinforcing the front line at the proper time resting with them, while the third and fourth lines, in rear of all, would be under the immediate control of the Lieutenant-Colonel of the battalion. If commanding officers are left to choose between the system of attack thus sketched, and which has been so often advocated, and the one lately tried and found so unsuitable, there is very little doubt as to which in an emergency they would select. If, however, time were given us for a radical change, not only in our organization but in our drill, the very great advantages of a single rank formation could not be overlooked. A battalion deployed into a single-rank line would cover a greater extent of front, and still, in these days of powerful fire, be sufficiently dense for all requirements. Numbered in threes from the right of companies, three lines would be formed by Nos. 2 and 3 of each, three stepping back two and four paces respectively, and covering off; and thus formed, it would advance in three successive lines instead of four. All loose formations will, however, undoubtedly give greater opportunities for Cavalry than they have ever before had, and in future wars Infantry must probably expect to suffer from the attacks of resolute and dashing horsemen; but in the above formations the risk will not be greater than that to which all scattered Infantry are liable. In too close formations they will be liable to be annihilated by Artillery fire, and if much scattered they must be prepared for Cavalry attacks. Of the two evils, it will be well for them to choose the less.

The news of a death from yellow fever, contracted on board the Aboukir at Port Royal, calls to mind the eminently unsatisfactory condition of this vessel from a sanitary point of view. To speak of her as a floating fever-den may, by some, be deemed extravagant, yet we believe we are right in stating that it is now some two years since, if not more, she was condemned owing to her rottenness. Those who have recently returned from a term of service in the West Indies state that at times the smells arising from her hold are most offensive. She is rotten from stem to stern and totally unfit for Europeans to live in. Such was the opinion long ago; but, notwithstanding condemnation, she still lies sweltering in Port Royal Harbour, flying the broad pendant of the Commodore and rated as a receiving-ship. After a shower of rain it is no unusual thing to see the old ship's sides variegated with long streaks of dark-coloured or almost black ooze which filters out from between her decayed planking; and so tender is she that many an ugly piece has been knocked out of her by boats going alongside. But whitewash covers a multitude of evils, and it is by its unsparing application that the vessel has been kept at all sweet. It is true that she has escaped any great epidemic since she was condemned, but it is also true that those on board would hear of any outbreak on shore with the most serious misgivings, knowing full well how ill-prepared they are to resist the attack of that awful disease, "Yellow-jack," should it make its appearance in the island. The character the Aboukir has borne for some years has been enough to make an appointment to her a subject for anything but congratulation, and we may rest assured that many who have been drafted to this "receiving-ship" have rejoiced when other employment on the station has been found for them. The death which has just occurred on board her is that of a fresh arrival. His service in the ship scarcely covered two months when he was struck down and was taken to hospital only to die. His duties as steward's assistant were such as naturally kept him below, and it seems probable that to this circumstance may be attributed his illness. This is strengthened by the fact that there is, or was at the departure of the last mail, no fever either at Port Royal or Kingston, and so convinced do those on shore appear that the disease was actually generated on board the Aboukir that, we understand, orders have been given by the officer in command of the troops for no communication to take place with the ship, officers even being prohibited from dining on board her. The Commodore at once directed a board of medical officers to report upon her sanitary condition; and, since the vessel was condemned long ago and has been rotting ever since, it may readily be imagined that the result of the medical inquiry is not too reassuring. Still, as there were no additional cases at the time of our report, nothing has been done by the Commodore, who seemed inclined to avoid the responsibility of landing the ship's company and deserting the old hulk on account of one fatal case of yellow fever. Let us hope that this delay may be accompanied by no fresh outbreak of fever, but there are not a few who would gladly have received the order to clear out of the ship. Many valuable lives were lost during the last epidemic through tardiness of action on the part of those then on the spot, and we trust that the Admiralty—who have by this time probably received the report of those who have inquired into the condition of the Aboukir—will not hesitate to order her to be vacated should that report confirm the idea that the disease was actually contracted on board her. For should there be further loss of life, the public will expect to hear some very good reason given for the retention of a rotten and foul-smelling hulk as a receiving-ship in the tropics, even for as much as two or three years after she was condemned, and we fear it would not be easy to find a satisfactory explanation for so very unsatisfactory a proceeding. It is true that an unexpected amount of work has been thrown upon the dockyards during the past year, and that Portsmouth, at which yard the Aboukir's relief, the Urgent, is preparing, has been exceptionally busy; but it is very questionable whether much of the work for which the Urgent has been thrown aside can be shown to be of greater importance than that of preparing a suitable and healthful receiving-ship for such a station as Port Royal. Whether the Urgent, an iron troopship, is a likely vessel to give satisfaction to those who may be fated to be cooped up in her under a broiling sun is a matter upon which we entertain grave doubts. Yet, while we question the wisdom of the selection, there is this to be said in her favour, that, hot as she may be, she will at least be free from such poisonous vapours as arise from the hold of a wooden ship which, it is no exaggeration to say, is in a state of decay from truck to keelson, from stem to stern.

The value of statistics has only lately been fully recognised by students of the art of war, yet they are not only interesting, but highly instructive. By their aid the solution of many difficult problems in organization, tactics, and armament is facilitated. Mr. Fisher, an official in the Ministry of Justice at Berlin, has recently published some tables of the killed and wounded in the German Army during the war of 1870-71. These—partly based on official

Wbg.65/447

statistics, partly on private information—are well worth studying, and throw much new light on the conditions of modern war. It would appear at first sight that the number of officers killed and wounded was 4,688, and of men 84,209. Many of these were however, wounded on several occasions. The actual number of officers killed and wounded is, therefore, really 3,919, and of men 60,978. Of these, 1,374 officers and 16,867 men were killed on the spot, or subsequently died of their wounds. The proportion of deaths to wounds was, approximately, officers 1 to 3·44, and men 1 to 5. Of course this result is only approximate, because many of those killed had been wounded on previous occasions. Of the total killed and wounded, the large majority of course belonged to the Infantry, the number of killed and wounded in that arm being 57,943, while in the Cavalry the loss was 2,236, and in the Artillery 4,266. Of the total killed and wounded of whose injuries particulars are known, only 5,084 were wounded by shells, while of those who were struck by shot the number is 55,862. Never perhaps was artillery more freely employed than in the Franco-German war, yet out of every 23 casualties in the German Army caused by bullets and shells about 21 were produced by the former. These figures are extremely instructive, for they prove what several Infantry officers have of late not hesitated to assert, that the effect of artillery in the field is chiefly moral; in short, that the arm in question frightens more than it hurts. Of course as long as it *does* frighten men, commanders are right to attach importance to it; but it cannot be too strongly impressed upon Infantry that, save when in masses, they have little real cause to dread this over-rated arm. It will astonish some of those glib theorists who maintain that Cavalry are useless on the field of battle, and the bayonet an anachronism, to learn that, besides the cases concerning which no details are given, 218 of all ranks were injured by sabre cuts or blows from the butt-end of a musket, while through bayonet and lance wounds 595 of all ranks were added to the list of casualties. No doubt many more were wounded by the cold steel, for in 23,454 cases the nature of the injury is not stated. Enough, however, has been said to show that neither the sword nor the bayonet are harmless weapons. Of those wounds attributed to bayonet or lance, the former may claim the largest share; for, save at Mars-le-Tour, we fancy the lance was little, if at all, used by the French. Still, we should be glad of a monograph on the part played by the bayonet in the Franco-German war, and to know under what circumstances and with what effect on each occasion that weapon was used. As to the sabre, it is a remarkable fact that only 51 Cavalry officers were killed on the spot by any weapon, and only 14 are expressly stated to have been wounded by sabre or butt-end. They would not have come off so well if they had been engaged with some of our sowars on anything like equal terms. Some instructive facts can be gleaned from the tables which state the seat of the wound. Out of 64,897 of all ranks killed or wounded, 12,717 were wounded in the head or neck, a circumstance which tends to the inference that the French aimed very high. Twenty-six men are put down as having suffered from *nervenerschuttering*, or nervous shock. It is worthy of notice that among the French wounded in the Crimea the highest percentage of wounds was in the thigh, the head coming only second. This is singular, considering how many men must have been hit whilst in the trenches.

The *Echo*, it appears, has been much exercised by some remarks of ours on "a blatant and conceited" manifesto, signed by a few gentlemen who are, according to their evening organ, leaders of the working men of England. We are threatened with a terrible punishment in the good time coming when these working men rule the land because we were rash enough to hint that their manifesto was not worth an ounce of gunpowder, and the angry *Echo* goes on to say that their patrons—or protégés—have more power than the Army or the Navy, and that it is owing to their spirited declaration that there must be no war between Turkey and Russia, that there is—and that there will be—no war. Now, if we could suppose for one moment that the obscure people who issued "the address" were accepted, first—by all the industrious and worthy classes who contribute so largely to the wealth, greatness, and commerce of the country—they do not certainly create it all by themselves—as their leaders and spokesmen; next, that the voice of Great Britain is quite omnipotent and decisive in settling all the issues of war or peace; and, finally, that the Cabinets of all the great European States take it as a fact that Brown, Jones, and Robinson, or whatever their names be—for we have not the manifesto before us—are the actual and undoubted exponents of British policy, we should humbly ask pardon and beg of our wrathful contemporary to insert a confession of our guilt and a supplication for forgiveness. But we are hardened enough in our faith to adhere to our original sin in the matter, and to reiterate our belief that the manifesto was a document which, in reference to the Eastern Question, had no importance whatever, and that it was a production which did not and will not influence Midhat Pasha, General Ignatieff, or Prince Bismarck in the slightest degree, even if it be translated out of English and be sent to the next sitting of the Conference, if there be one. Even should there be no war, we will persist until we are borne off to the guillotine by the Editor of the *Echo* and his friends then in power in our declaration that the peaceful result was not due to the Tooley-street manifesto.

We understand that Prince George of Mecklenburg is about to marry a Princess of the house of Anhalt-Dessan. His Royal Highness, who is nearly related to our Royal Family, served on the Staff of the Crown Prince in the war of 1870-71, and is deservedly popular.

It would seem to be the custom now-a-days at the Admiralty to promote the junior Commanders over the heads of the senior ones. With but few exceptions, this system has been persistently carried out all the past year. Surely it is not justice if promotions are made for "sea-time" only, as amongst the senior Commanders there are some who were not fortunate enough to be personally acquainted or related to the First Sea Lords of former years, and, consequently, were kept unemployed, and unable, therefore, to acquire "sea-time," which their more fortunate but junior officers have gained. An officer's aim whilst in the Service is for employment, and, therefore, to be debarred from service afloat, and to see his juniors promoted over his head, is as unjust as these facts are true.

Some weeks since we stated that it was proposed to obtain an Order in Council under which the Admiralty would have power to grant compassionate allowances to the families of officers who were dismissed the Service, or resigned their commissions to avoid court-martial. Of course it was only intended to seek this power as a means of lending a helping hand to those cases in which actual destitution was staring the ex-officer and his family in the face, and the amounts to be granted were framed on a most economical basis. Her Majesty has been most graciously pleased to approve of the suggestion as placed before her by the Admiralty, and already one unfortunate officer who had brought himself and those belonging to him to the brink of ruin through an act of intemperance, has received some relief. It is but £10 each quarter that he will draw, but even that is much to him at this moment. The following is the text of the memorial presented by the Admiralty and the Order in Council:—"Whereas we have had under our consideration certain cases in which officers of your Majesty's Naval and Marine Forces have been dismissed from your Majesty's Service by court-martial for misconduct, or have been allowed to resign their commissions to avoid trial by court-martial: And whereas such officers are, in some cases after good service for many years, rendered destitute by being thus deprived of all professional resources: We do therefore most humbly submit that we be empowered at our discretion to grant compassionate allowances from this date, both to such officers and also to those who may hereafter be so removed from the list of your Majesty's Naval or Marine Forces, provided that such allowance shall in no instance exceed one-third of the amount of half pay to which the officer was entitled at the time of such removal, and provided also such allowance shall not in any case exceed £100 per annum. The Lords Commissioners of your Majesty's Treasury have signified their concurrence with these proposals." Her Majesty having taken the said memorial into consideration, was pleased, by and with the advice of her Privy Council, to approve of what is therein proposed.

The Naval Service will be pleased to learn that among the guests who had the honour of taking part in the new year festivities at Sandringham were Captain the Hon. Henry C. Glyn, Commander, Lord Charles Beresford, and Dr. Alexander Watson, Fleet Surgeon.

Because the Admiralty declined to furnish the papers with the reports of the medical officers of the Arctic Expedition, in which particulars of the outbreak of scurvy were given, it was said that an attempt was being made to shelve the question and to stifle enquiry. As may well be supposed, the Admiralty was not one whit behind the public in recognizing the importance of the matter, and seeing that opinion was so divided as to the origin of the outbreak, the advisability of having the reports duly digested before taking action was apparent. This process, however, has not settled the point satisfactorily; and now a small committee, with Admiral Sir James Hope as chairman, will be appointed to enquire into the whole question and make a report. Few will be inclined to deny the wisdom of this course, for, although there might have been no deliberate intention of throwing the blame upon the leader of the expedition, yet it cannot be lost sight of that, with the public mind much agitated respecting the unexpected appearance of scurvy, and with a portion of the Press prepared to condemn Sir George Nares, there would have been a small chance of fair and impartial judgment. Sir George Nares has not for a moment attempted to shirk the responsibility which rests upon him in this lime-juice affair. All he desires is that the motives which prompted him in the issue of his orders on the subject may be well and fairly weighed. The course now adopted by the Admiralty will ensure justice being done, and if anyone has blundered there will be no hesitation in saying so. All that the public requires is that the great controversy shall be settled, and that the "reason why" shall be made known, but from the tone in which the argument was lately conducted by some journals it was plain that they were bent upon hanging somebody, and we fear they were not too particular who that somebody might be. We congratulate the Admiralty in having withstood the popular clamour.

There is no denying the fact that the boilers on Admiral Cochrane's plan, as supplied to the Danae, are a complete failure. Ever since the ship was commissioned, September 20, she has been vainly endeavouring to get steam with these boilers, and, notwithstanding the vast amount of time, material, and labour bestowed upon these efforts, they have been unattended with success. It has now been decided to order new boilers to be built for the Danae, and as their construction and placing on board is a matter which will occupy some considerable time, the ship will have to lie idle although intended for immediate service on the East Indies Station. The question that naturally arises is—How did it happen that such abortive efforts at boiler construction were so far entertained as to admit of a corvette being supplied with them? In experimenting with the designs of an amateur engineeer a smaller vessel might surely have been chosen.

Lieutenant R. A. Ramsay has been selected to relieve Lieutenant Lecky as Assistant-Instructor of Musketry at the Portsmouth Division of Royal Marines; and Lieutenant W. P. Wright will assume those duties at Chatham, vice Champion.

Orders have been given for a court-martial to assemble at Portsmouth for the trial of four boys of the Black Prince for perjury, they having recently brought an unfounded charge of a most disgraceful character against the boatswain of that ship.

An application lately made by the Westminster Aquarium, that a number of articles of Arctic equipment might be exhibited at that establishment, has not been complied with by the Admiralty, but we hear that there is some prospect of an exhibition of this nature being opened at the South Kensington Museum if the necessary space is available.

We understand that there is some probability that the number of Engineers and Assistant-Engineers received at the Royal Naval College for study will shortly be very considerably increased.

Captain Waddilove, of the Steam Reserve at Portsmouth, has, we are glad to hear, been giving attention to the system under which steam trials are now made. We have long been convinced that the existing arrangements are far from perfect, and we are pleased to find that those who are best able, from their position, to bring the weak points to light, are moving in the matter. The suggestions of Captain Waddilove have been forwarded to the Steam Reserves at the other ports to be acted upon.

Captain Beamish of the Pallas has been granted an extension of leave, and is not due to return to duty until January 29.

The Training Brig Squadron which has been cruising on and off Lisbon under the supervision of Vice-Admiral Seymour is about to make a run to the Cape de Verde Islands.

It has been decided to allow the officers of the late Arctic Expedition six weeks leave of absence on full pay. This is the amount usually granted in cases where the absence on foreign service has extended over three years; and as double time is counted for Arctic service, this entitles the late officers of the Alert and Discovery to six weeks' leave.

After six years' service under a foreign flag, Lieutenant Fagan, R.M.L.I., has returned to duty, and in the next "Navy List" will appear un-italicised, on being restored to the strength of the corps from the Seconded List. We wish we could congratulate this officer on having returned just in time for promotion, for as a subaltern of fourteen years' service his company ought to be almost within reach. But he stands even now twenty-ninth on the List, and those who know the Royal Marines can form a fair idea of the chances of promotion now enjoyed by this officer. But what shall be said of the prospects of that young officer, the latest entry, who holds the proud position of number one hundred and forty-ninth on the Subalterns' List?

There is no immediate intention of relieving Vice-Admiral Beauchamp Seymour of his command on promotion. He will shift his flag to the fore on board the Minotaur and remain in sole command of the Channel Squadron.

Commander Nelson Spencer has lately been turning his attention to the value of Milford Haven as a port for trade. He has for many years resided in the neighbourhood, and has devoted much time in forming a conclusion as to its value. In a pamphlet which he has written on the subject, he deals with the objections which have been raised against Milford, and as far as we can judge answers them. The new docks and ship-building works are now begun after many years of stagnation, and those interested in Milford Haven owe Commander Spencer a debt of gratitude for his advocacy.

As the Vulture is intended for service in the East Indies, and will spend a considerable portion of her time in the Persian Gulf, the Admiralty has considerately ordered her to be provided with an ice-making machine. How great a boon this will prove, and its value in preserving the health of the ship's crew, will be fully recognised by all who have undergone a stewing in the Gulf.

Rear-Admiral Phillimore is engaged in a tour of inspection of the Coast Guard and Reserves before settling down to work at Spring-gardens. We hear that the Second Class Naval Reserve is in a flourishing condition, and nearly up to its full strength.

The Thunderer will probably be fully commissioned for sea service in the course of next month.

In consequence of a growing habit amongst our seamen of adopting a sort of long-shore rig when on leave of absence, some cases of which have doubtless come under their Lordships' notice in the streets of London, an Admiralty order has been promulgated at the home ports expressly forbidding the wearing of civilian clothes by petty officers and seamen unless they have the permission of their commanding officer for so doing. This may be rather unpopular amongst a certain class of men, but they must all be ready to admit that nothing can look much worse, or bring royal naval seamen into greater disrepute, than their appearing slummily dressed, half-civilian half-sailor.

On the supersession of Dr. Bremner, R.N., as medical officer in charge at the Marine Depôt at Walmer, the Colonel commanding and officers entertained him at a farewell dinner. Colonel Stewart then took the opportunity of expressing his appreciation of the efficient manner in which Dr. Bremner had executed his duties, and his opinion that the condition of the hospital had been greatly improved by him in its sanitary and zymotic arrangements.

Orders were received at Portsmouth yesterday for the Dwarf to be paid off at that port, and not to proceed to Sheerness, as had been anticipated. She was commissioned at Woolwich in April, 1868, and left England during the following month. In July, 1871, she was recommissioned at Hong-Kong, but her present Commander did not join her until May, 1874. The Assistant-Paymaster in charge is the only officer on board who has served throughout the commission.

It will be heard by many persons with regret that Count Redern, *Attaché* to the German Embassy here, is about to be removed to Stockholm on promotion.

The undermentioned retired naval officers have been awarded pensions of £50 a-year:—Commander Richard E. Bullen, vice H. N. Atkinson, deceased on September 27, 1876; Commander Goldolphin J. Burslem, vice C. Autridge, deceased on August 14, 1876; Commander Henry B. Davis, vice W. Y. Gill, deceased on October 5, 1876; Commander William Boyse, vice R. E. Pym, deceased on August 4, 1876; Commander Nilson G. Spencer, vice G. Coleman, deceased on November 8, 1876.

It has been finally arranged that Rear-Admiral Arthur Hood, C.B., will take the seat at the Admiralty Board which will become vacant by the appointment of Vice-Admiral Hornby to the Mediterranean command.

Vice-Admiral Sir J. Drummond, K.C.B., with the squadron under his command, arrived at Smyrna on the 4th inst.

The 15th instant is named as the probable date of Vice-Admiral Hornby hoisting his flag in the Alexandra as Commander-in-Chief of the Mediterranean Station.

The Navy has not been overlooked in the bestowal of honours on the proclamation of her Majesty's Indian title, Rear-Admiral Reginald Macdonald, Commander-in-Chief in the East Indies, having been gazetted a Kight Commander of the most exalted Order of the Star of India. He entered the Navy May 11, 1833, obtained flag rank April 1, 1870, and has been Commander-in-Chief in the East Indies since March, 1875.

An important alteration has been made in the plans of the Committee of the Palestine Exploration Fund. By the new arrangements, Lieutenant H. H. Kitchener, R.E., will start for the East on Tuesday next to take the command of the Survey in the field. He will have with him four non-commissioned officers of Royal Engineers, including Sergeant Armstrong, who has been on the Survey from the commencement. The programme of work for the year includes the survey of the northern district, the levelling of the Lake of Galilee, the survey of 250 miles still left in the south, and the revision of the whole country for the map. Lieutenant C. R. Conder, R.E., meantime remains at home and continues his valuable services to the Committee in the reduction to shape of his notes for the memoirs which will accompany the sheets. The delay in the publication of the "Quarterly Statement" for January is due to the deliberations of the Committee over these arrangements.

In the Cavalry of the Line there are thirteen officers holding certificates from the Staff College, viz.:—Lieutenant-Colonels Blundell, 3rd Hussars, and Arbuthnot, 14th Hussars; Majors Butler, 13th Hussars; Gonne and Boulderson, 17th Lancers; and Montgomerie, 20th Hussars; Brevet Majors the Hon. H. J. L. Wood, 12th Lancers, and Russell, 14th Hussars; Captains Buchanan, 5th Dragoon Guards; Salis-Schwabe, 6th Dragoon Guards; Campbell, 7th Dragoon Guards; Hozier, 2nd Dragoons; and Gardner, 14th Hussars. Of these, Colonels Blundell and Arbuthnot, Major Butler, and Captain Gardner have held no Staff employment. Major Gonne is Military *Attaché* at Vienna, Major Russell fills an Instructorship at the Royal Military College, Captain Salis-Schwabe is Brigade-Major at Aldershot, and Captain Hozier is well employed on the Intelligence Staff. Major Gonne was for some time Cavalry Brigade-Major in Ireland, an appointment held afterwards by Major Boulderson. Major Montgomerie was a Deputy-Assistant Quartermaster-General in India, Captain Buchanan was for five years Brigade-Major at Malta, and Captain Campbell has only just completed six years' service as Garrison Instructor. It will be evident from this that the Horse Guards is not as blameable as it has been made to appear for the selection we announced last week of Captain Barrow as Brigade-Major of Cavalry in Ireland. The only officers unemployed at the present moment whose rank does not disqualify them are Major Russell, Captains Buchanan, Campbell, and Gardner. Brevet Major Russell's regiment being in India, his appointment could only have been made in direct contravention of the letter of the law, and for the same reason Captain Gardner was rendered ineligible. So that there were but two officers who had any shadow of a claim—Captains Buchanan and Campbell—and as each of these has enjoyed a spell of the Staff, it can scarcely be said that any great injustice has been done them. We are ever ready to plead the cause of those we feel have a grievance; but we hope we may never be led into reckless criticism. In the present instance the Horse Guards deserves to be supported. Captain Barrow's appointment has been the signal for an outburst of indignation. Yet the facts we have published should show that this annoyance has been caused rather by ignorance than anything else.

With reference to Captain Barrow's selection, another difficulty promises to arise shortly. Already Captain Salis-Schwabe is the senior Captain in the Carabiniers, and he might at any time receive promotion. But, even if he does not, it is plain he will have to vacate his appointment next year, when his regiment embarks for India, and then there will be no Staff College officer available to relieve him unless it be decided to appoint one of those who have already been employed. There is evidently a field open to Cavalry officers of a studious turn of mind. In the class which has just left the Staff College there does occur the name of one Cavalryman, and Captain Carmichael, 5th Lancers, is the sole representative of the mounted arm in the list, headed by Lieutenant D. F. Jones, R.A., of those who "passed in" in February last. It is satisfactory to know that there will be three Cavalry representatives in the class commencing its studies on the 1st proximo, viz., Captain Stewart, 3rd Dragoon Guards, and Lieutenants Watson, 1st Dragoon Guards, and Lloyd, 20th Hussars. Where the prospects are so encouraging there ought to be no lack of Cavalry candidates at the entrance examination announced for July next.

We stated a fortnight since that it was probable Colonel R. M. Laffan, Commanding Royal Engineer at Gibraltar, would be offered the Governorship of Bermuda, which Major-General J. H. Lefroy, R.A., is about to vacate on the expiration of his six years. We are now informed that Colonel Laffan's assumption of the duties may be regarded as a certainty.

Captain T. H. Anstey, Royal Engineers, the officer some time since deputed by the War Office to superintend the works for the repair of the British graveyards in the Crimea, has now returned to England, and has been placed in charge of a company of Royal Engineers—the 36th—at Chatham. It may be remembered that Parliament, in 1875, voted £5,000, and last year £1,400, with the view of the graveyards being put in proper repair. It was of these sums that Captain Anstey undertook to superintend the disbursement, and the manner in which he has carried out the duty has met with hearty approval.

Captain J. Pennycuick, Royal (late Madras) Engineers, promoted on Friday last to his substantive Majority, obtained his Captain's commission October 13, 1870; the senior Line Captain on the list for his Brevet Majority is Captain J. Stanley, 47th Regiment, who has had his company since November 21, 1862. The difference between these two officers' service as Captains is therefore eight years, whilst Captain Stanley joined the Army two years before the newly-promoted Major of Engineers, and purchased his Lieutenancy and company. Verily the supersession question presents innumerable difficulties, and these will be greatly increased if it be determined to cease extending to the Linesmen the privilege of brevets, which have hitherto done something, if not much, to equalise promotion.

TBE ANNUAL NAVAL PROMOTION.

Owing to the number of promotions made during the past year in vacancies that arose from various causes, and for special services, such as were called forth in the Malay and Congo struggles and in the Arctic Expedition, the annual promotion of December 31 was decidedly limited. The following is a slight sketch of the services of those who were included in the annual gazette:—

"Rear-Admiral the Right Hon. Lord Gilford, A.D.C., entered the Navy in 1845. He obtained the rank of Lieutenant September, 1852, and served in the Imperieuse in the Baltic until the close of the Russian war, and in the Raleigh and Calcutta, on the East India and China Station, from September, 1856, until promoted to Commander, February, 1858. In the following month he obtained command of the Hornet, also at China, and brought her to England in July, 1859, when he was posted. Lord Gilford lost the use of his left arm from a wound received at the taking of Canton, and was granted a pension for wounds. He commanded the Tribune in the Pacific from March, 1862, until paid off in May, 1866; was appointed to the Hercules, for service with the Channel Squadron, in June, 1868; was transferred to the Asia, guardship, at Portsmouth, in December, 1871, which post he relinquished in March, 1874, on being appointed one of the Lords Commissioners of the Admiralty. He has therefore been in continuous employment for the past eight and a-half years, and has the distinction of being by far the youngest Rear-Admiral in the Service, being nearly ten years younger than his next junior on the list. He has more than sixteen years' sea-time as a commissioned officer, and bids fair to attain the highest rank, being now only forty-four years of age.

Rear-Admiral the Hon. Fitzgerald Foley entered the Service in 1837, and was midshipman of the Castor on the coast of Syria, and at Acre in 1840, in the Cambrian, having much boat work in 1842-43. He was promoted to Lieutenant in 1846, and served in the Raleigh on the South-East Coast of America from February, 1846, till 1850, and from October, 1853, until promoted to Commander in 1855, in the Royal Yacht Victoria and Albert. He commanded the Coquette from July, 1858, until posted in 1860; was Captain of the Edgar from July, 1862, until May, 1863, when he was transferred to the Revenge, and in April, 1865, removed into the Caledonia. He commanded the Cambridge gunnery-ship at Devonport from May, 1867, till May, 1871; the Britannia training-ship from August, 1871, till August, 1874; and since January, 1875, has been Captain-Superintendent at Sheerness Dockyard. From July, 1862, to the end of 1876 it has been this officer's exceptionally good fortune to be constantly employed, successive Boards of Admiralty never allowing him to go upon half pay, and, as might naturally be supposed, he was rewarded with a Captain's Good Service Pension. Thus it is that while he has eighteen years' sea-time as a commissioned officer, he has passed no fewer than fourteen years on full pay as a Captain. He is now fifty-three years of age, and will probably be retired for age while on the Vice-Admirals' List.

Rear-Admiral his Serene Highness Ernest, Prince of Leiningen, G.C.B., entered the Navy in 1849, and obtained the rank of Lieutenant April, 1855. As Lieutenant he served in the Cossack in the Baltic towards the close of the Russian war and in the Victoria and Albert from December, 1856, until promoted to Commander, February 1, 1858. He was then reappointed to the Royal Yacht from July, 1858, till posted, October 25, 1860. In March, 1862, he obtained command of the Magicienne in the Mediterranean, from which ship he was appointed to the command of the Royal Yacht, April 1, 1863. Prince Leiningen has received a gold medal from the Turkish Government for distinguished service in the field with the Ottoman Army under Omar Pasha in the summer of 1854, and the Order of the Medjidie of the Fifth Class. Of the whole twenty-eight years passed by this officer in the Service, only two have been on half pay, and although he counts nearly twenty years' service as sea-time, it appears that some seventeen years of that time have been passed in the Royal Yacht. The services of the three flag officers now promoted may certainly be looked upon as exceptional, no selection being made, but strict seniority being adhered to.

Of the selections for advancement to post rank, Captain Guy Twiss stood ninth upon his list, and was employed in the Hibernia at Malta. He entered the Navy in 1848, became a Lieutenant in 1856, and Commander in 1866. Of his twenty-eight years in the Service, only three have been passed on half pay, and he held command of a sea-going ship for three years. He is a gunnery officer, has gone through a torpedo course, and has now reached the Captains' List at the reasonable age of forty-two years.

Captain Thomas Royse stood thirty-sixth on the Commanders' List. He entered the Navy in 1849, became Lieutenant in 1857, and Commander in 1868, and is now in command of the Hart, on the China Station. Of his twenty-seven years in the Service, only two have been passed on half pay, and he has held a command at sea for nearly four years and a-half. His age is forty-one years.

Captain Alfred Dale, who has been promoted out of the Britannia, was no higher than number seventy-two on the Commanders' List. He entered the Navy in 1854, became Lieutenant in 1860, and Commander in 1870. Of his twenty-two years in the Service, not one has been spent upon half pay, and he has held a command at sea for nearly four and a-half years. He obtained his Lieutenant's commission by carrying off the Beaufort Testimonial. He is a gunnery officer, and being now but thirty-six years of age, will be one of the youngest Captains in the Service.

Lieutenant Hubert Grenfell, who has been promoted to Commander's rank, should, in the ordinary course of events, have obtained this step more than a year since, on the expiration of his term of service as senior Staff officer of the gunnery-ship Excellent.

THE STAFF COLLEGE.

The following General Order has been promulgated from the Horse Guards :—

The subjoined list of officers who have passed the final examination of the Staff College is published for the information of the Army, the names being arranged in regimental order. These officers will join their respective regiments (or depôts should the regiments be abroad) on Feb. 1 next—up to which date they will be considered as on leave of absence—and they will do duty therewith until May 1, when they will report themselves to the general officer commanding at Aldershot with a view to their completing the course prescribed by para. 26 of the Staff College Regulations, contained in G. O. 28 of 1876 :—

Capt. G. E. Grover (1), Royal Engineers, specially mentioned for military administration.

Lieut. H. Pilkington (2), Royal Engineers (Honours), specially mentioned for reconnaissance.

Capt. Hon. G. P. H. Villiers, Grenadier Guards.

Capt. E. J. Lynch, 3rd Regt. (Honours), specially mentioned for military drawing, &c., reconnaissance, and military art, history, &c.

Lieut. E. C. Milner, 18th Regt., specially mentioned for military drawing, &c., and military administration.

Lieut. A. J. Milner (3), 18th Regt.

Capt. A. B. Morgan (4), 19th Regt. (Honours), specially mentioned for military art, history, &c., and military administration.

Lieut. L. Marshall (5), 20th Regt.

Lieut. H. M. E. Brunker, 26th Regt. (Honours), specially mentioned for military drawing, &c.

Lieut. A. H. Fraser, 33rd Regt.

Capt. A. D. Currie (6), 41st Regt.

Lieut. F. T. C. Du Vernet, 56th Regt.

Capt. J. C. Fife (7), 65th Regt.

Capt. F. E. Lloyd (8), 76th Regt.

Capt. H. M. Bengough (9), 77th Regt.

Capt. E. C. Money (10), 87th Regt., specially mentioned for military art, history, &c.

Capt. K. D. Murray (11), 89th Regt.

Lieut. Hon. W. F. Elliot (12), 93rd Regt.

Capt. E. L. Clarke, 103rd Regt.

(1.) Capt. Grover passed a good examination in photography, and a very good examination in geology and experimental sciences as voluntary subjects.

(2.) Lieut. Pilkington passed a good examination in French as a voluntary subject, and a good examination in Russian as an extra subject.

(3.) Lieut. A. J. Milner passed a very good examination in French as a voluntary subject.

(4.) Capt. Morgan passed a very good examination in French and a good examination in German as voluntary subjects.

(5.) Lieut. Marshall passed a very good examination in French and a good examination in geology as voluntary subjects, and a good examination in Russian as an extra subject.

(6.) Capt. Currie passed a good examination in German and Hindostanee as voluntary subjects.

(7.) Capt. Fife passed a good examination in French as a voluntary subject.

(8.) Capt. Lloyd passed a very good examination in photography as a voluntary subject.

(9.) Capt. Bengough passed a good examination in French as a voluntary subject, and obtained special mention in Persian and Arabic as extra subjects.]

(10.) Capt. Money passed a good examination in photography as a voluntary subject.

(11.) Capt. Murray passed a good examination in French and photography as voluntary subjects, and obtained special mention in Dutch as an extra subject.

(12.) Lieut. the Hon. W. F. Elliot passed a good examination in German as a voluntary subject.

The Army.

1st Life Guards. The word "Lord" was omitted by accident before Reidhaven.

1st (Royal) Dragoons. Surg-Major Muschamp has vacated his appointment as medical officer, and has sailed for India for employment on the Staff in that country.

3rd Dragoon Guards. The following officers have leave to March 14:—Capts. Stevenson, Bolitho, and Gray, and Lieuts. Cole, Parke, Pryce and Dundas. The following have rejoined from leave :—Capts. Davison, Stewart, and Fitzgerald, and Lieuts. Bellwood, Wardrop, Yatman, and Barber.

4th Dragoon Guards. The *Whitehall Review* hears that "the vacancy about to be caused in the 4th Dragoon Guards by the retirement on half pay of Col. Chaplin will be filled by Brevet Lieut.-Col. Craigie, 19th Hussars. Col. Craigie entered the Service in 1848, and has seen a deal of service in India. During the mutiny he raised and commanded a regiment of Irregular Horse in the North-West Provinces. He is a regimental major of 1863."

6th Dragoon Guards (Carabiniers). Lieut. Rasch, on his retirement, has presented the regiment, of which he was always a most popular officer, with a pair of silver kettle-drums. The drums, which are of exquisite workmanship, have been manufactured by Messrs. H. Potter and Co., of Charing-cross, a firm which has long enjoyed a world-wide reputation. Col. Napier and the officers gave a ball at York on Monday evening, for which about 400 invitations were issued. Mr. Rasch's gift was given a conspicuous place in the ball-room, and was much admired by the company.

3rd Hussars. Lieuts. Berkeley and Matthews have passed the special examination for promotion, after undergoing a course of garrison instruction in India.

4th Hussars. Capt. Montague is on passage home from India in H.M.S. Jumna. Lieut. Bracker has sailed for India in H.M.S. Crocodile, to join head-quarters on appointment from the Armagh Militia.

9th Lancers. Capt. Cleland has sailed for India in H.M.S. Crocodile, to join head-quarters from the depôt. Various accounts are given of the cause of the accident which resulted in the death of Capt. Clayton. One attributes it to a collision with another player; another statement is that the pony, rearing, threw his rider, who, when picked up, was found to have sustained severe injury to the spine. Capt. Clayton lingered in a state of unconsciousness for some hours, and died during the night. He was buried with military honours on the 27th ult. In consequence of his death, the levée and entertainment, which had been originally fixed for the 26th, were postponed to the 28th.

10th Hussars. Capt. Bulkeley sailed for India on Saturday last in H.M.S. Crocodile, to rejoin head-quarters from leave.

11th Hussars. The Simla paper says :—"A letter from Umballa says that the right wing of the 11th Hussars returned to quarters from camp on Nov. 29, followed by the left wing on the 30th. Those horses which still exhibit symptoms of farcy are to remain in camp until a clean bill of health can be established. The Hussars expect to start *en route* for the great gathering on Dec. 8. Col. Annesley joins the corps from England before it marches." Lieuts. Robarts, Hardy, and Hon. H. A. O. Gore sailed for India in H.M.S. Crocodile on Saturday last—Lieut. Roberts to join from the depôt, Lieut. Hardy on appointment from the Tower Hamlets Militia, and Lieut. Gore on appointment from the Shropshire Militia.

12th Lancers. The following officers sailed for India in H.M.S. Crocodile on Saturday last with head-quarters, viz :—Lieut.-Col. Le Quesne, Major Tait, Brevet Major Hon. J. L. Wood; Capts. L. Martin, Hon. W. J. Stewart, Hornby, Poole, and G. M. Martin: Lieuts. Mansel-Pleydell, Archdale, Case, Dean, Mack, Colquhoun, Banks (adjt.), Hill, Benson, Fulcher, Hon. A. F. H. Campbell, Nelson, and Quicke, Qrmr. Denyer, and Vet.-Surg. Wilson, with 451 non-commissioned officers and men, fourteen women, and seventy-nine children.

13th Hussars. A correspondent writes :—"No doubt you were not aware of it, but the officers of the 13th Hussars were entertained by the old officers of the regiment in London prior to their embarkation for India. A dinner was also given by the regiment to the old officers at Colchester, at which many of them appeared, and, foremost among the number was the much-esteemed Col. Gen. Lawrenson, who has always been a father to the 13th. With regard to the statement that the above custom originated with the 10th Hussars, I beg leave to state that the officers of the 13th Hussars entertained the 16th Lancers in London prior to the embarkation of the gallant 16th for India in 1864, and I believe if the 13th were now in England they would give the 16th a similar welcome home. I trust, sir, you will pardon me for calling your attention to this slight omission in your paper of Saturday last, but having passed the best and happiest days of my life in the dear old 13th, I like to see the regiment receive its due share of credit." Capt. Gifford has been employed in the Qrmr.-Gen.'s Department at the Imperial Assemblage at Delhi. Lieut. Doyne and Vet.-Surg. Garratt sailed for India on Saturday last in H.M.S. Crocodile.

14th Hussars. Capt. Hickman sailed for India in H.M.S. Crocodile on Saturday last, to join head-quarters on promotion from the 8th Hussars. Lieut. Heron-Maxwell is *en route* to England in H.M.S. Jumna. Lieut. Tuthill has passed the special examination for promotion.

15th Hussars. Lieut. Holland has sailed for India in H.M.S. Crocodile to join head-quarters from the depôt.

16th Lancers. The following officers are on passage home with head-quarters in H.M.S. Jumna, viz. :—Lieut.-Col. Wilkinson; Major Whigham and Brevet Major Renshaw; Capts. Maillard and Graham; Lieuts. Wynter, Hill, M'Causland, Evetts, Chadwick, Taaffe, Howard, Blair, Aylmer, and Maudsley; Sub-Lieut. Beech, Rdgmr. Perry, Qrmr. O'Donnell, and Surg-Major Innes, M.D. With reference to the departure of the regiment from Secunderabad, a correspondent writes :—"The regiment is followed by the good wishes and regret of everyone at this station. It is a regiment every officer and man may well be proud of belonging to, ever ready to join in any sort of amusement, always to the fore in all kinds of sport, with their gallant and very popular colonel leading the way, whether it be dancing, riding, shooting, or polo. They have done a deal to enliven and amuse the station generally during their stay of five years. Though smitten a great deal with sickness on first arrival from being quartered in the unhealthy barracks at Secunderabad, since the move to the new barracks at North Trimulgherry no regiment could have enjoyed better health. The regiment has lately been entertained by those in the station who have often enjoyed the many festive little gatherings got up by the Lancers, and right well do both officers and men deserve the return of hospitality. It is long since any corps left so deservedly popular and so generally regretted by the inhabitants of the station." Lieut. Howard has passed the special examination for promotion, after undergoing a course of garrison instruction in India.

17th Lancers. Capt. W. G. Walmesley, late of the regiment, died at Westwood-Hall, Lancashire, on the 2nd inst., aged thirty-five years. The deceased entered the Army as cornet in the 11th Hussars, Sept. 17, 1861; became lieut., Jan. 24, 1865; exchanged to the 17th in the same year; was promoted capt., June 23, 1869; and retired in the same year by sale of his commission.

19th Hussars. Col. Jenkins has leave to March 14, Lieut.-Col. Craigie commanding in the meantime. Surg.-Major Burland, M.B., is under orders of readiness to embark for India.

Royal Artillery.

We regret to learn from Gibraltar of the sudden death which has occurred there of Capt. T. Mulrenan, 17th Brig. Capt. Mulrenan entered the Army Dec. 22, 1859, and became capt. July 10, 1872.

The gold medal for the Royal Artillery Institution prize essay has been awarded to Col. H. A. Smyth. The subject proposed and treated by Col. Smyth is with reference to the considerations affecting the positions to be taken up and the time of opening fire by Artillery in the field under various circumstances. Col. Smyth, although himself an Artillery officer, denies that the Royal Artillery have a claim to independent predominance over every other arm of the Service, and raises numerous objections to the tactical method which appeared to be bound up in it.

Major H. L. Armstrong, 5th Brig. (late Madras), died at Cannes on the 23rd inst., aged thirty-eight years. He joined the Service Dec. 12, 1857; became first lieut., Aug. 27, 1858; capt., Oct. 3, 1866; and major, Oct. 8, 1873. Capt. P. M. Rolland, 20th Brig., will obtain his battery consequent upon Major Armstrong's decease.

When the mail left India Lieut. C. H. Atchison was under orders to proceed from Ferozepore to Umballa, to join B Bat. B Brig. R.H.A.

A Bat. B Brig. R.H.A. sailed for India on Saturday last in H.M.S. Crocodile. The officers who embarked were Major H. Thornhill, Capt. T. Le Marchant, Lieuts. F. C. Ord and E. Blaksley, and Vet.-Surgs. A. E. Queripel and J. Mills.

Capt. and Adjt. J. E. Gubbins, 5th Brig., has obtained leave from India to England for twelve months, on private affairs.

C and E Bats. A Brig. R.H.A., consisting of Major A. T. G. Pearse, Capt. F. G. Gyll, Lieuts. P. H. Hammond, J. D. Legard, and B. F. Domvile, and Vet.-Surg. J. J. Ferris will arrive home from India in H.M.S. Jumna, which sailed from Bombay on the 5th ult.

Lieut. N. Maxwell, 4th Brig., and Vet.-Surg. G. A. A. Oliver, C Brig., sailed for India on Saturday in H.M.S. Crocodile.

Lieut. E. G. Osborne, 11th Brig., has been employed in the Qrmr.-Gen.'s Department at the Delhi Assemblage.

Gunner Charlton, who lost his toes by frostbite in Millbank Prison about two years ago while undergoing a sentence of court-martial for a military offence, was found dying in the streets at Woolwich late on Sunday night, and expired on Monday morning at the union infirmary, whither he had been conveyed by the police. Charlton, who was discharged from the Army, disappeared two months ago from his home at Plumstead, and on Sunday he sent a note to his friends to inform them that he was in the neighbourhood, but warned them not to seek him under a threat of personal violence.

The Woolwich correspondent of the *Morning Post* says :—"Major E. Maitland, R.A., whose five years' period of Staff service as Assist. Superintendent of the Royal Gun Factories, Royal Arsenal, Woolwich, will terminate on Feb. 1, is directed to retain his office until April 1, when he will be succeeded in his appointment by Capt. J. F. Owen, R.A., whose present position as captain instructor in the same department will be conferred upon Capt. M. L. Porter, R.A., now serving with his battery, No. 3 of the 12sh Brig. at Malta. Capt. Porter has passed the Advanced Class."

The following exchanges of brigades of officers have been sanctioned by the authorities at the Horse Guards :—Between Lieut.-Col. L. F. Hall, 2nd Brig., Hong Kong, and Lieut.-Col. W. Denis de Vitre, 22nd Brig.; between Major Hon. R. Hare, F Bat., 9th Brig., Ahmednuggur, and Major A. Swinton, No. 3 Bat., 17th Brig., Gibraltar; between Lieut. G. A. Norton, of E Bat., 4th Brig., Neemuch, and Lieut. W. A. Smith, No. 2 Bat., 6th Brig., Aden.

The following transfers have been made :—Brevet Col. C. H. Smith, C.B., from A Brig., on sick leave, to 7th Brig., Halifax, vice Lieut.-Col. C. B. Le Mesurier; Lieut.-Col. A. H. Williams, from the 14th Brig., Newbridge, to the A Brig., Umballa, vice Col. Smith, C.B.; Lieut.-Col. J. H. Peile, from the 8th Brig., Meerut, to 9th Brig., Kirkee, vice Lieut.-Col. Torriano, transferred to the 14th Brig.; Capt. J. E. Gubbins, from adjutant, 5th Brig., St. Thomas's Mount, to No. 4 Bat., 13th Brig., Peshawur; Capt. A. Swinton, from No. 4 Bat., 21st Brig., Lucknow, to F Bat., F Brig., Rawul Pindi, vice Capt. J. F. Meiklejohn, placed upon the Supy. List; Capt. J. F. Free, from Supy. List, to A Bat. F. Brig., Mean Meer, vice Taylor, placed on the Supy. List; Capt. B. L. Tolner, from the Supy. List, to B. Bat. 8th Brig., Meerut, vice O. F. Le Mottee, placed on the Supy. List; Capt. H. W. Rooke, from F. Bat., 9th Brig. Ahmednuggur, to No 4. Bat. Depôt Brig., Sheerness, vice Greenfield, deceased; Lieut. R. C. North, from G. Bat. 24th Brig., Woolwich, to C Bat. C Brig., Bangalore, vice Robinson, placed on the Supy. List; Lieut. E. de Boulay, from No. 4 Bat. 3rd Brig., Plymouth, to A Bat. 1st Brig., Aldershot; Lieut. R. M. Brady, from No. 7 Bat. 12th Brig., Malta, to C. Bat. 14th Brig., Kilkenny; Lieut. J. S. Quayle, from No. 1 Bat. 5th Brig., Tonghoo, to No. 7 Bat. Depôt Brig., Woolwich.

In the annual report of the Royal Artillery Institute, its affairs are stated to be in a very satisfactory condition. It has now 1,498 members, and a general credit balance of £2,598. The committee has retained the services of a Russian instructor through the winter, even though the class is less than the established minimum, in order that officers who may wish to study this language may have no fear of being inconvenienced by the dissolution of the class.

ROYAL ENGINEERS.

Lieut. T. R. Henn has been appointed adjutant and superintendent of instruction to the Bombay Sappers and Miners.

Lieuts. C. Maxwell, J. G. Day, G. M. Porter, and G. K. Scott-Moncrieff have sailed for India in H.M.S. Crocodile.

Lieut. H. S. F. Haynes has applied for leave from India to England.

Brevet Col. R. D. Kerr, R.E., has been appointed commanding Royal Engineer at Jersey.

The following changes have taken place in the corps:—Col. W. J. Stuart, from leave, to Hong Kong; Brevet Col. C. G. Gordon, C.B., from Egypt to England, on leave; Capts. P. White, from Portsmouth to Malta; R. H. Vetch, from Malta to Chatham; J. A. Lyon-Campbell, from Chatham to Weymouth; R. H. Beaumont, from Leicester to Lichfield; W. E. Peck, from Chatham to Portsmouth; Sir A. W. Mackworth, Bart., from leave to Chatham; and H. L. Lewis, from Chatham to Dublin; Lieuts. H. P. Kirkwood, from Chatham to Southampton; J. B. Lindsell, from leave to Chatham; F. P. Washington, from Southampton to Bedford; J. E. Broadbent, from Allahabad to Europe, on leave; A. O. Green, from Calcutta to Lahore; St. G. M. Kirk, from Kirkee to Portsmouth; A. T. Preston, ordered home from Gibraltar; R. M. Hyslop, from Saharanpore to Bareilly; S. Smith, from Malta to Portsmouth; F. T. Maxwell, from Rajputana to Ajmere; H. W. Renny-Tailyour, from Dublin, on leave, and ordered to Gibraltar; W. F. Noel, from Portsmouth to Malta; P. Cardew, from Portsmouth to Chatham; F. H. MacDowell, from Aldershot to Chatham; A. H. Bagnold appointed to A Troop, R.E. Train, Chatham; W. V. Constable, from Rajputana to Ajmere; R. Jennings, from Punjab to Peshawur; R. F. Rawson, from Chatham to Gravesend; G. H. Sim, from Roorkee to Umballa; J. A. Ferrier, from Roorkee to Lucknow; C. R. Hoskyn, from Kurrachee to Mooltan; C. Maxwell, from leave to Roorkee; G. S. Shute, from Dover, on leave, and ordered to Madras; J. G. Day, G. M. Porter, and G. L. Scott-Moncrieff, from leave to Roorkee; H. M. Sinclair and E. R. Kenyon, from Chatham, on leave; S. C. Grant, from Cork, on leave, and ordered to Madras; and C. M. Bate, from leave to Cork Harbour. Late Bengal.—Brevet Col. H. W. Gulliver, from Lahore to Europe, on leave; Lieut.-Cols. H. A. Brownlow, from Amritsar to Allahabad; and W. Hichens, from leave to Calcutta; Brevet Lieut.-Col. H. Perkins and Major G. Swinton, from leave to Europe to Calcutta. Late Madras.—Lieut.-Col. J. O. Mayne, from leave to Europe to Madras; Major H. R. R. Faber, from Gujrat to Peshawur. Late Bombay.—Col. J. T. Walker, from leave to Europe to Bombay; Brevet Lieut.-Col. J. Bonus, from leave to Europe to Agra; Major C. A. Goodfellow, V.C., from Karwar to Europe, on leave; Major K. A. Jopp, from leave to Europe to Bombay.

1st or Royal Scots. Col. McGwire, 1st Batn., has leave to March 14, Major Hill commanding in his absence. Qrmr. Turnley, 1st Batn., has been noted for transfer to a Brigade Depôt.

2nd Queen's. Surg.-Major Tate, M.D., has vacated his appointment as medical officer of the 2nd Batn., and has sailed for India to join the Staff in that country.

3rd Buffs. Major Jones, who recently retired by sale of his commission, has arrived in England from Mauritius, to which station he some time since proceeded in command of the left wing of the 2nd Batn.

4th King's Own. The *Irish Times* says:—"Capt. Lugard is, I notice, joining the 2nd Batn. 4th King's Own at the Curragh; but his connection with the battalion will be of short duration, for I hear he is likely to be appointed to the Staff shortly, or at any rate he is to be offered a Staff appointment. Capt. Lugard was for some time employed under the Qrmr.-Gen.'s Department, engaged in surveying duties, and worked in a manner which proved him to be possessed, not only of ability, but of that important desideratum, zeal. Many an officer has abundance of the one, but, lacking the other qualification, is little or no use on the Staff."

7th Fusiliers. Lieut. Dive, 2nd Batn., has passed the special examination for promotion, after undergoing a course of garrison instruction in India. Lieut. Daunt has been appointed assist.-instr. of musketry to the 2nd Batn. Sub-Lieut. Giles, 2nd Batn., a probationer for the Indian S.C., has been posted to the 5th Bombay N.I.

9th Regiment. Brevet Major Daunt, 2nd Batn., is expected home from India in H.M.S. Jumna. Capt. Butler, 2nd Batn., has sailed for India in H.M.S. Crocodile to join head-quarters on appointment from the Half-Pay List.

12th Regiment. Local rank in India has been assigned to the following officers of the 1st Batn., viz:—Lieut.-Col. Foster to be col. from May 2, 1873; Brevet Lieut.-Col. Walker to rank as lieut.-col. from April 14, 1872; Major Bagnell to be lieut.-col. from Oct. 20, 1872; Capt. Lowry to be major from Aug. 31, 1875; Lieut. Townshend to be capt. from Dec. 9, 1874; and Lieut. M. J. Sawyer to be capt. from Sept. 9, 1876. Lieut. Pike, 2nd Batn., is expected home in H.M.S. Jumna, which left Bombay on the 5th ult.

14th Regiment. Lieut. de Trafford, 1st Batn., is expected home from India in H.M.S. Jumna, which sailed from Bombay on the 5th ult. Lieut. Morris, 1st Batn., is a candidate for the Indian S.C., and has been appointed officiating first wing subaltern of the 16th Bengal N.I. on probation.

15th Regiment. Major Dashwood is under orders of readiness to embark for India to join the 2nd Batn., on his recent promotion. Capt. Le Mottee, 2nd Batn., is expected home from India in H.M.S. Jumna. Lieut. Ward, Paymr.-Sergt. W. Speak, Sergt. S. Whitney, Corpl. C. Lascelles, and Privates J. Ford and G. Melville, 2nd Batn., have passed the lower standard examination in Hindostanee.

16th Regiment. Lieuts. Lloyd and Lamb, 2nd Batn., have passed the special examination for promotion. Lieut. Shreiber, 2nd Batn., sailed on Saturday for India in H.M.S. Crocodile, to join on appointment from the 2nd Royal Middlesex Militia.

21st Fusiliers. Major Hazlerigg, 2nd Batn., has been told off for duty with the Brigade Depôt at Ayr. "Hussar" writes to the *Whitehall Review*:—"Till 1874, both the 1st and 2nd Batns. of the 21st maintained, whilst serving in the Madras Presidency, regimental pipers. They had no official right to do so, but the officers paid for and equipped the men, and in India no objection was raised to the innovation. In course of time, however, the 2nd Batn. returned to England, and all went well until the regiment was quartered with a Highland corps, when the usurpation of their 'sacred music' by a regiment not entitled to the honour of pipers proved more than the kilted warriors could stand. A protest was made, and an order from the Horse Guards promptly suppressed the Fusilier pipes. The 1st Batn. was at that time quartered in Fort St. George, Madras, and an intimate friend of mine was deputy-assistant quartermaster-general on the district Staff; and one day a letter from the adjutant-general was received ordering the 1st Batn. to discontinue their pipes also (in 1874). It is nevertheless very easy to understand that official sanction for pipers has been prayed for, and obtained, for in point of fact the 21st are the 'Royal Scots Fusiliers,' and fought under that designation in their earliest campaigns. The words 'Royal North British' were subsequently given to the regiment, it is believed, on account of the frequent mistakes made in the transmission of correspondence—the old title being too like that of the 'Scots Fusilier Guards.'"

22nd Regiment. Capt. Straton, 2nd Batn., has been appointed station Staff officer at Raneekhet, vice Lieut. Oakes, proceeding home with his battalion, the 2nd Batn. 19th Foot.

23rd Fusiliers. Writing from Gibraltar on the 24th ultimo, a correspondent says:—"On Wednesday evening the 23rd R. W. F. gave their second monthly entertainment in the Recreation-room, Casemate Barracks. The room was densely crowded, although the number of reserved seats were limited to fifty, to allow of more room for the men, for whom these entertainments are specially got up. Mr. Morris, R.W.F., sang 'Tommy make room for your Uncle' in capital style; and was followed by Mrs. Millet, who gave a 'Daisy' song in a most charming manner, and as an encore, which was loudly demanded, graciously gave 'Home, Sweet Home.' Mrs. Connell played a beautiful arrangement of Scotch airs on the pianoforte, and the first part was brought to a most successful and laughable conclusion by Byron's domestic drama, entitled 'The Rosebud of Stinging-Nettle Farm,' the characters including Farmer, Sergt. Bolstridge, R.W.F.; Squire, Mr. Archdale; Giles, Mr. Palk, R.W.F.; Hugly, Mr. Bridgman; and Rose, Mr. Morris, R.W.F. The second part consisted of a stump oration, songs, quips, puns, and jokes of the minstrel troupe of the regiment, who acquitted themselves remarkably well, especially in the choruses, the pianissimo parts of which sounded most effective."

25th Regiment. The following officers of the 1st Batn. have leave to March 14, viz.:—Capts. Norman and Knox, Lieuts. Mahew, Whiting, Griffiths, Evans, and Sir R. A. W. Colleton, Bart.

34th Regiment. Capt. Treeve is officiating as station Staff officer at Ferozepore. Capt. Boggs is expected home from India in H.M.S. Jumna. Sub-Lieut. Marriott has qualified for promotion.

39th Regiment. Col. Currie has applied for leave from India to England. Capt. Wynen, on being relieved of his appointment of officiating brigade-major, Morar, was ordered to proceed to Jhansi, there to await the arrival of his regiment.

43rd Light Infantry. Lieut. Sawyer has passed the special examination for promotion.

44th Regiment. Lieut. Morrell is *en route* to England from India in H.M.S. Jumna. Lieut. Wynyard has been granted leave to England for twelve months, on private affairs. Lieut. Kelly has passed the special examination for promotion.

45th Regiment. Lieut. Bulpett has passed the special examination for promotion.

ROYAL MARINES.

Leave of absence has been granted the following officers, viz.:—Capt. R. Woollcombe, six weeks; Capt. and Brevet Major G. Brydges, one month in extension; Lieut. A. E. Chapman, one month; Lieut. C. H. Powell, two months; Capt. W. H. Wroot, two months; Lieut. A. E. Sparshott, fourteen days in extension; Capt. and Musketry Instructor A. H. Ozzard, six weeks; Capt. E. O. B. Gray, two months; Lieut. H. H. Morgan, 7th to 31st inst. in extension; Lieut. F. M. Eden, 1st to 31st inst.

Medals for long service and good conduct have been awarded to Sergt. Chas. Walker, 7th Company; Colour-Sergt. Wm. Wood, 30th Company; Private Elijah Pain, 30th Company; and Private Wm. Ellard, 6th Company.

Lieut. and Adjt. Henry Fuller, Paymaster of the Chatham Division (borne for service at the depôt), has been promoted to captain at the Portsmouth Division, Dec. 15, 1876, vice Carrington, appointed barrack-master.

Capt. J. W. Scott to be musketry instructor at the Chatham Division (for service at the depôt, Deal), dated Dec. 15, 1876, vice Carrington, appointed barrack-master.

Lieut. A. St. L. Burrowes to be adjutant at the Chatham Division (for service at the depôt, Deal), dated Dec. 15, 1876, vice Fuller promoted.

Lieut. R. A. D. Ramsay to be assistant musketry instructor at the Portsmouth Division, dated Jan. 7, 1877, vice Lecky, period of service expired.

Lieut. W. P. Wright to be assistant musketry instructor at the Chatham Division, dated Jan. 1, 1877, vice Champion, period of service expired.

Lieut. C. S. F. Fagan, R.M.L.I., who, since 1870, has been employed in the Civil Service of Japan, has been reappointed to the Chatham Division from the Seconded List, his engagement with the Japanese Government having terminated.

Detachments of non-commissioned officers and men of the R.M.A. and R.M.L.I., to the number of 105, embarked on board the Alexandra on Monday at Chatham. The detachments were under the command of Capt. Welch, R.M.A., Lieut. Noble, R.M.A., and Lieut. Wilkinson, R.M.L.I.

The following appeared in General Orders, at Walmer, upon Dr. Bremner having completed his term as principal medical officer of the depôt:—"The colonel-commanding, on taking leave of him, cannot but express his appreciation of the valuable services rendered by him, and he feels assured that Dr. Bremner has, by his jovial and kindly manner and readiness to attend to those in need of him, endeared himself to all ranks, married or single, and that he carries with him their wishes for his future welfare."

51st Light Infantry. Brevet Major Trydell is expected home from India in H.M.S. Jumna. Lieut. Gartside-Tipping has leave to Calcutta to April 20, to study the native languages.

54th Regiment. Brevet Major Tighe is expected home from India in H.M.S. Jumna.

59th Regiment. Capt. Frampton is expected home from India in H.M.S. Jumna. Lieut. Kennedy contemplates retirement.

60th Rifles. Lieut. Lovett, 2nd Batn., is expected home from India in H.M.S. Jumna. Lieut. Hope was appointed to officiate as instructor of musketry to the 2nd Batn., vice Lieut. Okeden, appointed temporary aide-de-camp to the Lieutenant-Governor of the North-Western Provinces.

62nd Regiment. Lieut. A. L. Dennis died at Chukrata on Nov. 26. The deceased entered the Service June 12, 1869; and became lieut., Oct. 28, 1871. Lieut. Hayne is expected to arrive home from India in H.M.S. Jumna, which sailed on the 5th ult.

63rd Regiment. Lieut. Studdy is expected home from India in H.M.S. Jumna, which sailed from Bombay on the 5th ult.

64th Regiment. The London correspondent of the *Irish Times* writes:—"I was much pleased when I noticed in the *Standard* an announcement that Lieut.-Col. Barker, 64th Regt., had been selected for the office of Assistant Director of Military Education, as I am sure all must have been who have at any time met the very genial little officer, and know how able he is, and in what a quiet and unostentatious manner he invariably conducts whatever duties he may have assigned to him. 'Hart' records the services the colonel performed in Persia in 1857, and in India during the campaign of 1857-58. But General Hart's list, comprehensive though it may be, fails in one respect—it gives no particulars of the capacity of the many officers of whose services before the enemy it takes full notice. Could the general undertake so large a task, and one which would earn for him so many friends—and if the truth must be written, so many enemies too—he could not fail to speak flatteringly of the officer who has been selected as successor to the lamented Major Greentree on the staff of the Director of Military Education."

65th Regiment. Brevet Major Gordon has been appointed to act as interpreter, vice Lieut. Westmorland.

72nd Highlanders. Lieut. Swiney sailed for India on Saturday in H.M.S. Crocodile, to join head-quarters on appointment from the Royal Pembroke Artillery Militia.

81st Regiment. Lieut. Farrant is to be appointed adjt., vice Lieut. Brereton, resigned.

83rd Regiment. Capt. Cartwright is about to retire from the Service, and will arrive in England in the course of a few days from India to arrange with the Army Purchase Commission. Sub-Lieuts. Anson and Marling have passed the lower standard examination in Hindostanee. Sub-Lieuts. Beville and Warden have qualified for promotion.

85th Light Infantry. Capts. Galbraith and Atkinson and Lieut. Langford have been appointed to act as a committee of paymastership, Capt. Galbraith carrying out the duties on the responsibility of the committee.

87th Fusiliers. The regiment was conveyed from Halifax, N.S., to Bermuda in H.M.S. Tamar.

88th Connaught Rangers. The following officers have leave to March 14:—Brevet Major Moore, Capt. Bowen, and Lieuts. Maher, Mann, Kell, and Moore.

92nd Highlanders. Lieut. Grant is expected to arrive home from India in H.M.S. Jumna, which sailed from Bombay on the 5th ult.

94th Regiment. Capt. Tribe is on passage home from India in H.M.S. Jumna.

97th Regiment was conveyed from Bermuda to Nova Scotia in H.M.S. Tamar, which has just arrived at Portsmouth with the 1st Batn. 60th Rifles.

102nd Fusiliers. Capt. Stevens has joined the depôt for two years' duty.

108th Regiment. Lieut. Starr is on passage home from India in H.M.S. Jumna. Lieut. Foulger obtains the company vacant by Capt. Hifferman's retirement.

Rifle Brigade. Lieut.-Col. H.R.H. the Duke of Connaught, 1st Batn., has leave from Dublin to March 14, Major Lord E. Clinton commanding the battalion in the meantime. The following officers of the 1st Batn. have leave to March 14, viz.:—Major Bunbury, Capt. Fryer, Lieuts. Lord E. Clanmorris, Russell, Burn, and Lane, and Sub-Lieut. Lamb. Lieut. Lord Clanmorris has been appointed to the Staff of his Excellency the Lord-Lieutenant of Ireland as an extra aide-de-camp. Brevet Major Seymour obtains the majority vacant in consequence of Major Musgrave's retirement.

61st Brigade Depot (Ayr). The officers entertained the men on Christmas Day. The sergeants held their annual reunion in the sergeants' mess, where a large party of friends, civil and military, were entertained.

Medical Department. Surgs.-Major W. H. Muschamp, R. Tate, M.D., J. Landale, M.D., D. C. Grosse, J. M'N. Beatty, and J. Wallace, and Surg. J. E. Purdon sailed for India on Saturday last in H.M.S. Crocodile. The following officers are expected home in H.M.S. Jumna, which sailed from Bombay on the 5th ult., viz.:—Surg.-Major G. D. N. Leake and Surgs. W. B. Major, R. C. Parkinson, A. H. Stokes, and G. Duncan. Surg. W. B. Slaughter has been granted leave from India to England, on medical certificate.

Chaplains' Department. The Rev. G. C. Williams, D.D., has been appointed chaplain to his Grace the Duke of Marlborough, Lord-Lieutenant of Ireland. The *Dublin Express* thus refers to the departure of Rev. C. J. Hort, M.A., who has taken up duty at Chatham:—"The soldiers of the Dublin garrison of all ranks have sustained a serious loss in the removal of the Rev. Mr. Hort, their able and popular chaplain, to England. Mr. Hort filled the office of Chaplain to the Forces during two distinct periods, embracing several years, and won the hearts of the men as well as the officers by his genial manner, his indefatigable zeal and energy in the discharge of his ministerial duties, and the kindly interest he took in everything which related to the moral and religious improvement of the soldiers. When leaving Dublin in 1855 he was presented with a valuable testimonial, and in his second term of service he has proved himself worthy of the popularity he enjoyed. He possesses rare qualifications for such an office from his long experience in the Service, his thorough acquaintance with various phases of military character, and his wonderful tact. No minister of the Church has ever been more devoted to his sacred trust, or more successful. He did a very large amount of useful and permanent work in an unobtrusive way, and we are not surprised to learn that in all ranks of the Service his removal to a different sphere of duty is regretted."

THE AUXILIARY FORCES.

MILITIA.

2nd (East) Norfolk. New barracks have been purchased at Great Yarmouth by the county of Norfolk as head-quarters for the regiment.

Oxford. The change of facings from yellow to white, in order to assimilate the uniform to that of the 52nd Light Infantry, with which the regiment is affiliated under the localization system, has been officially sanctioned, and is to be carried out forthwith.

1st Royal Surrey. Orders are issued for the establishment of the regiment to be reduced by two companies.

3rd Royal Surrey. The establishment has been reduced from ten to eight companies.

The following medical officers have applied to be placed on the new departmental list, viz.:—Surgs. J. L. Gaussen, M.D., Antrim; E. Rawson, M.D., Carlow; H. P. Franklin, M.D., Leitrim; G. D. Mansfield, Fermanagh; and E. D. Dickson, M.B., Dublin City; and Assist.-Surgs. D. Taggart, M.D., Antrim Artillery; and D. Jacob, M.D., Queen's Co.

VOLUNTEERS.

Purchase in the Army has been abolished, but not in the Volunteers. We (*Whitehall Review*) hear that a landed proprietor in the North of England, desiring to obtain command of a local battalion, had to pay into the funds of the corps several thousand pounds. In the metropolitan district an ex-Linesman recently paid £700, and another £500, for his commission as lieutenant-colonel. The fact is that the Government capitation grant is, even where the strictest economy is observed, quite inadequate; heavy expenses, therefore, devolve upon the officers, who, in some cases, are for ever putting their hands into their pockets.

THE INDIAN ARMY.

5th Bengal N.I. Capt. H. F. Woodlock, qrmr., has been appointed an assistant military accountant on probation, with effect from Oct. 23.

8th Bengal N.I. The name of Col. T. A. Carey, commandant, has been placed on the Indian Gradation List of major-generals from July 22 last, in consequence of the death of Gen. H. C. M. Cox, Bengal Infantry.

16th Bengal N.I. Lieut. C. H. Morris, 14th Foot, having become a candidate for the Indian S.C., has been appointed first wing subaltern on probation.

21st Bengal N.I. The *Times of India* correspondent at Rawul Pindee, writing on the 1st ult., says:—"It is seldom that one witnesses such consternation and grief as were displayed here last Tuesday morning when intelligence was brought in that poor Lieut. W. Harris, of the 21st Punjab N.I., had been shot dead by a murderous, bloodthirsty Afghan sepoy of his own regiment. The scene of the catastrophe was at the regimental butts, where a section of recruits were going through a preliminary course of ball practice under Lieut. Harris' command. It appears the section had done very badly, and Lieut. Harris censured the worst shots. The slight and well-merited censure administered seems to have incensed the Afghan, who in a momentary fit of passion stepped suddenly forward, and after aiming at the target wheeled round and deliberately discharged his rifle at Lieut. Harris, who fell mortally wounded. The sepoy endeavoured to effect his escape, and accordingly made way towards an adjoining field, the whole section firing after him, without, however, hitting him. Once under cover the assassin discharged five rounds at his pursuers, happily without hitting anyone, when, having expended all his ammunition, he surrendered, and was immediately removed into custody. Lieut. Harris was buried on Wednesday morning amidst the universal grief of all who knew him. The *cortège* that followed his remains was an imposing one, consisting of almost every European officer, civil and military, in the station, and the whole of the native officers and men of the 21st P. N. I. Great sympathy is felt for Major Harris, brother of the deceased, who commands the 11th N.I., stationed here. The murderer has been tried by court-martial, and the proceedings sent up to Army head-quarters for confirmation. There is little doubt as to what the sentence will be, but it is to be regretted that any delay should have been allowed to take place in the execution of the miscreant. Summary punishment in cases of this sort is the only effectual means of making an impression on the natives. There are, of course, many wild opinions expressed in connexion with this unfortunate occurrence, some tending to establish a parallel between it and events which preceded the mutiny of 1857; but, from the closest enquiry, there seems to be no room for believing that a spirit of insubordination or disloyalty exists among the men of the 21st P. N. I. or any of the other native corps located in these parts. At any rate, it is satisfactory to feel that the blind confidence reposed in the native soldiery prior to 1857, which resulted so disastrously, no longer exists, and that the first signs of disloyalty on their part will be visited with prompt, and there is little doubt effectual punishment."

27th Bengal N.I. Capt. G. H. Jackson, adjt., has obtained furlough to England for two years.

33rd Bengal N.I. The services of Lieut. C. T. Bingham, adjt., have been placed temporarily at the disposal of the Department of Revenue, Agriculture, and Commerce in India.

34th Bengal N.I. Surg.-Major F. Odevaine, M.D., has returned to India from England, and resumed medical charge.

36th Bengal N.I. Capt. C. H. Forster, Bengal General List, doing duty with the 39th N.I., has, at his own request, been transferred to the 36th.

40th Bengal N.I. Surg.-Major H. F. Williams, M.D., officiating depty. surg.-gen., Lucknow Circle, on being relieved by Depty. Surg.-Gen. H. M. Cannon, M.B., was to proceed to Delhi to await the arrival of his regiment, to resume medical charge.

42nd Bengal N.I. Lieut. H. FitzG. Stevens, first wing subaltern, has returned to India from England, and resumed duty from leave.

5th Punjab Cavalry. The following appointments have been made:—Capt. F. S. Carr, adjt., to officiate as second squadron officer during the period Major F. Hammond may officiate as second in command and squadron officer, vice Capt. J. C. Stewart, proceeded on furlough—Capt. W. J. Vousden to officiate as adjt., Capt. J. B. Watts to officiate as third squadron officer, and Lieut. C. F. Gambier to officiate as first squadron subaltern.

1st Punjab Infantry. Capt. R. H. Campbell, first wing subaltern, has been granted leave from India to England on medical certificate.

2nd Punjab Infantry. Capt. A. H. Turner, wing officer, has returned to India from England and resumed duty from leave. Capt. A. D. Strettell, adjt., has applied for furlough to England on medical certificate.

4th Punjab Infantry. Major F. T. Bainbridge, commandant, has returned to India from England and resumed command.

6th Punjab Infantry. Major B. R. Chambers, commandant, has obtained furlough to England for one year on private affairs.

Central India Horse. Capt. J. Colledge, third squadron officer, has passed the special examination for promotion on the termination of a course of garrison instruction.

1st Sikh Infantry. Capt. A. F. Lambe, adjt., has returned to India from England and resumed duty from leave.

2nd Madras Cavalry. Lieut.-Col. C. R. Stainforth, commandant, obtains the rank of col. from Nov. 30, 1876.

3rd Madras N.I. Lieut. E. A. E. Wylly, second wing subaltern, has passed the special examination for promotion.

4th Madras N.I. Surg.-Major D. Kearney, in medical charge, has been granted leave to the eastern coast, Bangalore, and the Neilgherries for one year.

9th Madras N.I. Lieut. M. E. Welch, second wing subaltern, has passed the special examination for promotion.

10th Madras N.I. Major G. Rowlandson, wing officer, has passed the special examination for promotion, after undergoing a course of garrison instruction.

25th Madras N.I. Lieut. A. W. Carter, adjt., has passed the special examination for promotion.

37th Madras N.I. A jamadar has been brought before a court of inquiry, charged with having been drunk at regimental drill. This is the third occasion of his having got into trouble. He was tried by court-martial for his first offence on the score of inebriety. The second occasion of his being brought to trial resulted in a sentence of six months' suspension, connected with which trial was an additional charge for breaking his arrest, in consequence of having been refused leave to attend his father's funeral while under confinement—a circumstance which enlisted the sympathy of Sir Neville Chamberlain for the offender, and led to the remission of the sentence, while it involved the removal of the late Col. Macaulay from the command of the regiment. The present is, therefore, the third instance of alleged misconduct.

1st Bombay Light Cavalry. Capt. A. Currie, adjt., has been confirmed in his appointment as commandant of the Governor of Bombay's Body Guard from Sept. 11. Lieut. E. L. Elliot, second squadron subaltern, has passed the special examination for promotion.

3rd Bombay Cavalry. Capt. M. W. Stevens, adjt., has passed the special examination for promotion on the termination of a course of garrison instruction.

Poona Horse. Lieut. H. Hay, second squadron subaltern, has passed the special examination for promotion.

Sind Horse. Lieut. F. Abbott, second squadron subaltern, has passed the special examination for promotion.

8th Bombay N.I. Surg.-Major E. Morton has been appointed medical officer.

21st Bombay N.I. Lieut. R. S. Simpson, adjt., has passed the special examination for promotion.

23rd Bombay N.I. Capt. J. T. Watling, adjt., has passed the special examination for promotion after undergoing a course of garrison instruction in India. Lieut. E. C. Kellie, second wing subaltern, has been appointed station Staff officer at Indore.

27th Bombay N.I. Capt. M. H. Nicolson, first wing subaltern, has passed the special examination for promotion on the termination of a course of garrison instruction. Capt. Nicolson has been employed in the Political Department during the Imperial Assemblage at Delhi. Lieut. W. G. W. Macbay, adjt., has passed the special examination for promotion.

28th Bombay N.I. Capt. F. C. Singleton, adjt., has passed the special examination for promotion on the termination of a course of garrison instruction.

The Navy Gazette.

ADMIRALTY, December 30, 1876.

Royal Naval Artillery Volunteers—Liverpool Brigade: George Augustus Coombe, Esq., M.D., F.R.C.S., to be Hon. Surg.

January 1, 1877.

In accordance with the provisions of H.M.'s Order in Council of Aug. 5, 1875, the undermentioned promotions, to date Dec. 31, 1876, have been made:—Rear-Admiral F. B. P. Seymour, C.B., to be Vice-Admiral in H.M.'s Fleet. Capts. the Right Hon. R. James, Lord Gilford, the Hon. F. A. C. Foley, and his Serene Highness Ernest Leopold Victor Charles Auguste Joseph Emich, Prince of Leiningen, G.C.B., to be Rear-Admirals in H.M.'s Fleet.

Consequent on the foregoing, the following promotions, on the Retired List, have also taken place, from the same date:—Capts. D. McL. Mackenzie, J. Seccombe, V. F. F. E. G. A. C. Friedrich, Count Gleichen, J. G. Pickford, W. E. A. Gordon, C.B., R. D. Aldrich, and H. Trollope to be Rear-Admirals on the Retired List.

The following promotions have also been made, from the same date:—Coms. G. O. Twiss, T. H. Royse, and A. T. Dale to be Capts. in H.M.'s Fleet. Lieut. H. H. Grenfell to be Commander in H.M.'s Fleet.

In accordance with the provisions of H.M.'s Order in Council of Feb. 22, 1870, Staff-Com. T. W. Sulivan has been placed on the Retired List from the 31st ult., with permission to assume the rank and title of Retired Capt.

Royal Marines—The undermentioned promotion has taken place in the Royal Marine Light Infantry—Lieut. and Adjt. H. Fuller to be Capt., vice Carrington, appointed Barrack-master; Dec. 15, 1876.

January 3, 1877.

Nav.-Lieut. J. J. Covey has been promoted to the rank of Staff Com. in H.M.'s Fleet, with seniority of this date.

In accordance with the provisions of H.M.'s Order in Council of Feb. 22, 1870, Nav.-Lieut. C. W. McConachy has been placed on the Retired List from this date.

The Army Gazette.

WAR OFFICE, PALL MALL, January 5, 1877.

85th Foot—Lieut.-Gen. A. C. Errington to be Col., vice Lieut.-Gen. G. Campbell, C.B., deceased; Dec. 23, 1876.

The Militia Gazette.

WAR OFFICE, January 2, 1877.

2nd Royal Cheshire—Capt. E. A. Carey, 22nd Foot, to be Adjt., vice Major W. H. Paul, whose term of service in that appointment has expired; Jan. 1, 1877.

West Kent—Lieut.-Col. and Hon. Col. R. T. G. G. Monypenny resigns commission, also is permitted to retain his rank, and to continue to wear the uniform of the regiment on his retirement; Jan. 1, 1877.

THE INDIA GAZETTE.

(From *London Gazette* Extraordinary.)

War Office, Pall Mall, Jan. 1.

The Queen has been graciously pleased, on the occasion of the proclamation this day at Delhi of the addition of Empress of India to her Majesty's royal style and titles, to approve of the honorary rank of General in the Army being conferred on his Highness Jioji Rao Sindia, Maharaja of Gwalior, G.C.S.I., and his Highness Ranbir Singh, Maharaja of Jammu and Cashmere, G.C.S.I.; dated Jan. 1, 1877.

The Queen has been graciously pleased, on the occasion of the proclamation this day at Delhi of the addition of Empress of India to her Majesty's royal style and titles, to give orders for the appointment of Gen. his Highness Jioji Rao Sindia, Maharaja of Gwalior, G.C.S.I., to be an honorary member of the Military Division of the First Class, or Knights Grand Cross of the Most Honourable Order of the Bath.

India Office, Jan. 1.

The Queen has been graciously pleased, on the occasion of the proclamation this day at Delhi of the addition of Empress of India to her Majesty's royal style and titles, to nominate his Royal Highness Arthur William Patrick Albert, Duke of Connaught and Strathearn, K.G., K.T., K.P., G.C.M.G., an Extra Knight Grand Commander of the Most Exalted Order of the Star of India, and to make the following appointments to the First, Second, and Third Classes of the said Most Exalted Order:—

To be Knights Grand Commanders.—His Highness Ram Singh Maharao, Raja of Bundi; his Highness Jaswant Singh, Maharaja of Bhurtpore; his Highness Ishri Prasad Narain Singh, Maharaja of Benares; and his Highness Azim Jar Zahir-ud-dowla Bahadur, Prince of Arcot.

To be Knights Commanders.—His Highness Shivaji Chatrapati, Rajah of Kolhapore; James Fitzjames Stephen, Esq., one of her Majesty's Counsel, late Member of the Council of the Governor-General of India; his Highness Raja Anand Rao, Puar of Dhar; Arthur Hobhouse, Esq., one of her Majesty's Counsel, Second Ordinary Member of the Council of the Governor-General of India; his Highness Man Singjee Raj Sahib of Drangdra; Edward Clive Bayley, Esq., C.S.I., Bengal Civil Service, Third Ordinary Member of the Council of the Governor-General of India; his Highness The Jam Shri Vibhajee of Naunagar; Sir George Ebenezer Wilson Couper, Bart., C.B., Bengal Civil Service, Lieut.-Governor of the North-Western Provinces; and Rear-Admiral Reginald John Macdonald, Commander-in-Chief of her Majesty's Naval Forces in the East Indies.

A War Game was played at the Club-house, Aldershot, on Thursday, of which the following was the general idea:—An invading army, investing Oxford, has detached a force (blue) to collect supplies in the Thames Valley between Wallingford and Reading. A force (red) for the relief of Oxford is assembling at Aldershot. No signallers or carriage for Infantry allowed. Players.—Red—Capt. Traill, 19th Foot. Blue—Capt. Hart, B.M. Umpire—Col. Fox-Strangways, R.A. Assist.-Umpires—Major Haldane, 64th Foot; Capt. Cardew, D.A.Q.M.G.; and Capt. Hood, B.M.

The following sub-lieuts. sailed for India on Saturday last in H.M.S. Crocodile to join the head-quarters of their regiments, on appointment, viz.:—Baker, 1st Batn. 3rd Foot; Adams and Carpendale, 1st Batn. 12th Foot; Hyslop, 1st Batn. 17th Foot; Turner, 1st Batn. 25th Foot; Arnot, 34th Foot; Watson, 39th Foot; Eccles, 43rd Foot; Bowring, 54th Foot; Legh, 2nd Batn. 60th Foot; Ramsden and Arbuthnot, 67th Foot; and Maxwell, 89th Foot.

STATIONS OF THE BRITISH ARMY.

[Where two places are mentioned, the last-named is that at which the depôt is stationed.]

Corrected up to January 6.

	Year in which the corps last went on or returned from foreign service.	*Foreign Station to or from which it last changed.*

COLONIAL CORPS.

1st WestIndia Regt.—Sierra Leone
2nd—Jamaica
Malta Fencibles—Malta

ARMY SERVICE CORPS

Head-quarters—109, Victoria-street, Westminster.

The London correspondent of the *Irish Times* writes:—"There is perfect truth in what a military journal says—the War Office is undecided as to its course of action *apropos* of the Royal Commission on Army Promotion and Retirement; and there is foundation likewise for the rumour that the Treasury will not evince the disposition too generally attributed to it, to set aside the half million necessary to start the new system. It is one thing for Lord Penzance, assisted by a body of "commissioners," to sit in council in a room at the War Office, to take evidence, call for actuarial returns, and make their deductions; to convince Parliament that increased estimates are a necessity is another matter. The prospect is not a particularly bright one for those whose interests are at stake; but it is the result every thinking man knew full well would follow upon the ruthless act of Mr. Gladstone and his Government, by which purchase was abolished, before steps had been taken for building up regulations of any kind in supersession of those the action of those vigorous politicians had in an unguarded moment doomed. The officers of the Army are deserving at this moment of the sympathies of the nation, and it is the duty of the Press to lend them its utmost support in the reasonable demands they make. The justice they ask is not excessive—it is only that the regulations annulled in 1871 may be substituted by others, such as will ensure a healthy flow of promotion. Surely no time should be lost in acceding to so modest a request. The interests of the nation ought to be considered identical with those of the Army. If they are, would it not be policy to force the War Office into action should it not show a disposition to move itself?"

It is expected, says the *Times*, that during the ensuing year great progress will be made with the chain of forts which is to be built in the vicinity of Chatham for the defence of the dockyard, the Medway, and the London approaches. Estimates have been made, and it is expected that a large sum will be voted in the Estimates for the ensuing year for carrying on the works, which will be under the direction of the Commanding Royal Engineer of the Chatham District. One of the forts is already under construction at Borsted, near Rochester, and another will be built at Cookham-hill, also near Rochester, the work being carried out by convicts. There will be seven forts altogether, but it will be seven years before they are completed, as they will be very massive, and will be armed with heavy artillery.

A trial was recently made of the Gatling gun by a board of officers at Sandy Hook, New York. The report states that, although the gun was worked by soldiers unfamiliar with its operations, 1,000 rounds were fired in 1min. 18sec., and subsequently in 1min. 12sec. Gen. Benet, chief of the United States Ordnance, was present at the experiments.

In future all recruits at Aldershot, on completion of their course of musketry, will be put through a course of cooking in the field, to be carried out under instructions that will be communicated by the Assistant Quartermaster-General. They are also to be instructed in the methods of pitching and striking marquees and bell-tents.

APOLLINARIS.

"The Queen of Table Waters."—British Medical Journal.

"Incomparable for mixing with Wines and Spirits."—H. Vizetelly, "Wines of the World."

"More wholesome and refreshing than Soda Water."—C. Macnamara, F.R.C.S., Westminster Hospital.

"The Vogue in the Clubs."—The World.

Prices in London:—26s per 50 quarts; 42s per 100 pints; bottles included and allowed for.

MESSES AND CLUBS SUPPLIED ON REDUCED TERMS.

THE APOLLINARIS Co., Limited: 19, Regent Street, London, S.W.

LIFEBOAT SERVICES.—During the Storms of the pas year the National Lifeboat Institution contributed to the saving of 598 lives from various shipwrecks and 19 vessels from destruction. It also expended £32,170 in the same period on its Lifeboat Establishments, including payments to its Lifeboat Crews.

The Institution has now 256 Lifeboat Stations under its management.

Contributions will be thankfully received by the London and Country Bankers, and by the Secretary, Richard Lewis, Esq., at the Institution, 14, John Street, Adelphi, London.

MAYNARD, HARRIS, & GRICE,

MILITARY, NAVAL, and EAST INDIA AGENTS and ARMY CONTRACTORS,

126, LEADENHALL STREET, LONDON.

The ENCORE WHISKY
Is recommended by the Medical Profession throughout the kingdom as the pure and safe alcoholic stimulant.

ST. THOMAS'S HOSPITAL,
ALBERT EMBANKMENT, S.E., 28th February, 1876.

THE THANKS of the MEDICAL PROFESSION are due to Messrs. BERNARD and CO., LEITH DISTILLERY, SCOTLAND, for producing the ENCORE WHISKY—a Spirit more Wholesome and less Irritating than any Spirit extant, being especially useful for patients suffering from Kidney Disease.

R. W. JONES, F.C.S., M.R.C.S., L.R.C.P.E.

ROYAL CAMBRIDGE ASYLUM FOR SOLDIERS' WIDOWS, KINGSTON, SURREY.
OFFICE: 40, Charing Cross, S.W.

This Asylum was opened in February, 1854, to provide a home for the widows of non-commissioned officers and privates of the Army.

There are 57 widows in the Asylum.

Each widow has a furnished room, and receives six shillings weekly, besides a monthly allowance of two shillings and sixpence for coals.

The funded income of the charity yields only £556, with an additional £50 from the Princess Mary's Fund for Nurses, to meet an estimated expenditure of £2,100 per annum.

An annual subscription of half-a-guinea, or a donation of five guineas, entitles to one vote at each election, with the right of nominating a candidate.

A regiment can purchase a vote in perpetuity by paying five guineas. J. A. STEWART, Colonel, Secretary.

Office, 40, Charing Cross, S.W.

SPECIAL NOTICE.—MARCOVITCH and CO., Manufacturers of the celebrated PELLEGRINI, VANITY FAIR, and CZAREWITCH (mouthpiece) CIGARETTES (by appointment to H.R.H. the Prince of Wales and H.I.H. the Czarewitch of Russia), beg to inform their numerous customers and the public in general that they have received the finest Turkish Dubec growth of Yenidge that has ever been imported into this country. It is only owing to the want of money by the Turkish merchants that MARCOVITCH and CO. have been enabled to get this tobacco.
Sole address—11, AIR STREET, REGENT STREET, LONDON, W.

SPECIAL NOTICE.

TO THE NOBILITY AND GENTRY.

WM. PUGH (many years coat cutter at Messrs. Poole's, Savillerow), having succeeded to the old-established first-class business of Jackson and Co., 5, CORK STREET, BOND STREET, W., solicits the patronage of the nobility and gentry.

Best trade only at fixed fair prices, and 10 per cent. allowed for prompt cash.

N.B.—All first-class tailors give credit, and it is only by the discount system noblemen and gentlemen who pay cash get the full value ready money entitles them to.

WM. PUGH (from Poole's), 5, CORK STREET, BOND STREET, W.

SCHWEITZER'S COCOATINA

Anti-Dyspeptic Cocoa or Chocolate Powder

Guaranteed Pure Soluble Cocoa, Without Sugar, Spice or any Admixture.

Specially adapted for Ships, Camps, Sportsmen, &c., being in a concentrated form, made with BOILING Water. Keeps in all climates, and palatable without milk.

Being all Cocoa, it is four times the strength of preparations mixed and therefore *weakened* with arrowroot, &c., and is in reality cheaper a Tea-spoonful to a Breakfast Cup costing less than a halfpenny.

The Faculty pronounce it "The most nutritious, perfectly digestible Beverage for Breakfast, Luncheon, or Supper," and invaluable for Invalids and Children.

Highly commended by the entire Medical Press.
In air-tight canisters at 1s. 6d., 3s., &c., by Chemists and Grocers.

GEORGE CORDING,
WATERPROOFER,
125, REGENT STREET, AND 199, STRAND.
VENTILATED SHOOTING COATS,
KNEE AND ANKLE BOOTS FOR SHOOTING.
Require no Dressing to keep them Waterproof.

NOTICES TO CORRESPONDENTS.

No communications can be published which are not accompanied by the name of the writer, given in confidence to the EDITOR.

Letters cannot be received in answer to Advertisements.

Remittances should be made payable to Mr. RICHARD JAMES WOOD, to whom all business communications should be addressed.

SPECTATOR.—If intended for use at sea or from ships, send statement to the Secretary of the Admiralty, Whitehall; if solely for harbour defence, communicate with the War Office.

G. D., Besika Bay.—As the much-wished for move has been ordered, the publication of your woes and growl is unnecessary.

NAVY LIST—We can sympathise with you in your trouble at finding pages 494 to 511 missing in the Navy List you purchased, but cannot see that the Editor is in any way to be held responsible. Doubtless, if you represent the case to the publisher, he will readily give you a complete copy.

HOLD THE FORT.—Your communication shall receive our attention.

A GRENADIER BEARSKIN.—Four officers only, throughout the whole Service, have this exceptional qualification.

J. D.—We fully agree in the view you take, and will give the subject early attention.

LONDON, SATURDAY, JANUARY 6, 1877.

That the descendant of Ranojee Sindia should be a British General must seem very strange to the class of old Indians who only remember old India. The story of the rise of the slipper-bearer of the Peishwa, who became one of the most famous of Mahratta Chiefs, has been discredited by recent writers; but there can be no doubt that before 1725 very little was known of Ranojee, and that, at the best, his family belonged to the Chumbi, or cultivator class. But these were fine times for daring men, and the Mahratta sword was busy cutting slices off the Empire of the Mogul and carving them into kingdoms. When Ranojee died, in 1750, he had founded a dynasty. His legitimate sons did not succeed; but Madhajee, an illegitimate son, by craft as much as by courage, established himself in such a position that he became the master of the Peshwa, and restored Rah Alum to his throne in Delhi. He it was who inflicted one of the greatest blows and most bitter disgrace ever endured by a British force in India at Wargaum, baffled Goddard's attempt to force him to give battle by masterly manœuvres, and, forcing him to seek the seaboard, secured at his leisure a large part of Central India. In a subsequent campaign he forced Carnac to retreat and ratified a treaty with the British, by which he was recognized as an independent Prince, secured all Gwalior except the fortress, and bound us to recross the Jumna. His usurpation at Delhi, with which we did not interfere, was one of the boldest acts of his extraordinary career. He was neutral in our first war with Tippoo. Finding we were too busily engaged to interfere with his ambitious projects, he conceived the idea of becoming master of the Peshwa himself, and of establishing himself at Poona, but he died just as he was about to realize his magnificent conception, which would have brought him into collision with our growing power under circumstances which would place the greatest strain on all our resources and power. The conflict came when we were able to dictate terms, and well for our rule was it that Lord Ellenborough in 1844 rose superior to the instincts of conquest and annexation, for it was the gratitude and attachment of the present ruler of Gwalior which in 1857 exercised a most potent influence on the course of the insurrection. His fidelity can only be appreciated at its true value by those familiar not so much with the facts as with the local colour and all the material incidents of the crisis. He had been well rewarded, and now there is an increment to his honours, but we fear he would freely give up ribands, medals, uniform, Army rank and all, for that rock from which British sentries look down on his city, and British guns point at his palace. Above all things, however, he is fond of soldiering, and when the Prince of Wales asked him to ride down the line at the Delhi Review, it was said that the act was worth a million of money. Sindia was once a splendid horseman—now he has lost his nerve. His manners are uncouth, his voice harsh and vulgar, but he has a fine eye and a very earnest, honest look, nor has he any power of dissimulation. Therefore we should like to know how he received his appointment. The other General is a man of very different type. He is essentially of a British-made dynasty, but it is said that he rules his people with much severity, and that, seat of pleasure as it is, Cashmere is inhabited by a very wretched population. It would be very interesting to learn what the new officers think of their honours.

Those who agree with the old adage that "a little knowledge is a dangerous thing" will not regret that, on some pretext or another, the attention of the public is daily called to occurrences on board her Majesty's ships. The Navy—its government, its *personnel*, its *matériel*—is on its trial; and, while we have no doubt that when our critics have attained to a thorough knowledge of the Service, the Navy will be pronounced to be in an efficient state, some weak points will be discovered and professional reforms will be facilitated. This week the Triumph, Dromedary, and Goshawk have all been before the public. Let us take the last first, and it is satisfactory to hear that, in compliance with the supposed pressing Admiralty telegram, she was despatched to sea in less than twenty-four hours, though we trust that there may be some way of discovering and punishing the perpetrator of a silly hoax which has cost the country some hundreds of pounds, besides risking valuable lives. Still, we may learn something even here. Are Admirals in the habit of acting as such mere automatons that they do not take any steps to seek for confirmation when receiving an unusual order? We venture to think that this points to some necessity for decentralization, and that an Admiral should not be held to be simply a gold-laced official holding one end of a telegraphic wire. In the case of the Dromedary, we have no doubt that the Admiralty have already called upon the Commander to explain how it was that he abandoned the three men who put off in the dingy by his orders to rescue their drowning shipmate. The case of the Triumph requires more attention. If the story as reported be true, she had a narrow escape from the Monarch's ram, and it points to the tenderness of our ironclads; for in former days, with the old line-of-battle ships, there would have been little or no danger in ships coming into collision under similar circumstances, although figure-heads, cut-waters, boats, stern, and quarter-galleries might have been ground to atoms. Here, at least, we can see no neglect of ordinary precautions. The Triumph is commanded by "one of the best sailors in the Navy," and many of our naval readers will agree with him that a single anchor with a whole cable out is at least as secure as having two anchors down. Probably, as she had but just arrived in Besika Bay, her anchor had not got "holt," as seamen call it, and her Captain did wisely in keeping steam up for emergencies. It would be interesting to know whether her anchors were of the ordinary much-abused Admiralty pattern, or whether they were Rodgers's, Trotman's, or any other patent. It is certain that there is a prevalent opinion in the Navy that the Trotman, although proving itself infinitely superior to the old Admiralty anchor on official trials, on special occasions may fail to "bite" when first let go, and any *bonâ fide* experience of anchors is in the highest degree valuable. No doubt Besika Bay is an exposed anchorage, and as her Majesty's ironclads are expensive yet somewhat tender machines, which cannot grind against each other with impunity, we are glad to hear that the Fleet has sailed for the Piræus and Malta. We believe that much misconception exists with regard to the Navy, which further information would tend to dissipate. Her Majesty's ships are thrown open to the public on gala days, when little work is going on, and the natural conclusion is drawn that in popular phrase it is "all beer and skittles," and that officers and men have a good time of it. We have no wish to stifle discussion of the proceedings of her Majesty's ships. That there will be accidents and hair-breadth escapes we have no doubt, and most of these will be from preventible causes; but these things are taken more note of now than formerly, as being of less usual occurrence, whereas they were scarcely noticed in the Navy one hundred years ago. One word as to facts. We have shown that the average loss per annum of her Majesty's ships is something under one-half per cent. at the present time. If we turn to "Allen's Naval History," we shall find that in the War of Independence—1776 to 1883—we lost by "accident" ninety-three ships, seventeen of which were of the line, and at the close of the war we had 282 ships in commission, which would show an average of about five per cent. of total losses; or, in other words, men-of-war are now ten times as safe as they were one hundred years ago.

The removal of the Fleet from Besika Bay had no connection whatever with Lord Salisbury's assumed attitude towards the Sultan's Government. It is well known that Admiral Drummond has been for some time past urging the authorities to let him leave such an exposed and ungrateful winter anchorage, and that his representations were backed up by most potent facts.

There has been a very satisfactory—almost an extraordinary—impetus given to recruiting within the last few weeks, and, as we had a little "croak" over the matter lately, we are all the more ready to sing a palinode. The Guards are so far over their strength that there is an idea of raising the standard again, and there is a general improvement in the recruiting—and in the recruits for all branches of the Service. "It is an ill wind that blows nobody good." They say that the general depression and the time of year have something to do with the change for the better in the number of candidates for the Queen's commission through the ranks who are coming to the recruiting officers. There have been about 30,000 men entered in the year—at least so it is said.

M. L. Patry, Captain and Adjutant-Major of the 67th Regiment, has published one of the most instructive and interesting works on the war of 1870-71 which we have yet seen; and when it is remembered how the Press in Germany and France have teemed with official and unofficial accounts of that remarkable campaign, it may be imagined that such praise is of the very highest character. He calls it an "Etude d'Ensemble de la Guerre Franco-Allemande." It is brought out by the printing and lithographic establishment of L. Conturier of Soissons, and is in large folio. As yet two livraisons only have appeared. The first sheet of No. 1 gives the distribution of the two armies on July 24 on a fine map, accompanied by descriptive letterpress. Similar sheets illustrate the events of each day to August 17, every movement being so clearly marked that the military student can march with the troops on the map as if he were in the field with them. The industry and care displayed in these are prodigious, and as the work progresses there is no sign of any diminution in Captain Patry's skill, devotion, and diligence. The letterpress is precise and clear, and the technical indication of corps, &c., unmistakeable. From August 18, with which the 2nd livraison begins, we are led day by day through the operations which culminated on September 1 at Sedan. The labour and the expense of preparing this work must have been very great, and we heartily wish that Captain Patry may be compensated in whatever way he desires for such a splendid enterprise. We understand that he has presented one copy to the War Office and another to the Army and Navy Club. There could not be a more suitable album for a mess-room table, and conclude this brief notice with a hearty recommendation of the "Etude" to our military readers, and to those who are interested in the history of that great war which is so full of lessons for all the arms, replete with instruction, abounding in surprises and grand scenes, almost unequalled in the grandness of its proportions and the vastness of its results.

We some weeks since announced that there was a probability of Colonel Martin Dillon, C.B., C.S.I., Rifle Brigade, succeeding Colonel A. A. Nelson, C.B., as Assistant Adjutant-General and Quartermaster-General at Gibraltar. Colonel Dillon has since accepted the appointment, and is on the point of leaving England to assume the duties.

Captain H. S. S. Watkin, Royal Artillery, has been appointed an Assistant-Superintendent of Experiments at the School of Gunnery, vice Captain D. D. F. O'Callaghan, R.A., whose period of service has expired. Captain Watkin joined the Army March 1, 1864, and became Captain September 8, 1876. Previous to his promotion he was employed with the 15th Brigade, to which he for some years acted as Gunnery Instructor.

A paragraph has appeared in the *Standard* which it is to be hoped may not pass unnoticed at the War Office. "A Bedfordshire Magistrate" has written to our contemporary drawing attention to the proposal of the local authorities to erect a small-pox hospital in close proximity to the new Brigade Depôt barracks, which have been put up at considerable expense. Now, it is evident there must be some alteration in the arrangements of one or the other party. Either the War Office must find other quarters for its Brigade Depôt, or the Bedfordshire people will have to select a fresh site for their hospital, as it would never do to quarter a number of men, women, and children within stone's-throw of a building maintained for the distinct purpose of receiving patients suffering from a dangerous contagious disease. The subject should be taken up at once. Whilst yet no building operations have been commenced it may be an easy matter to influence the local authorities; after the hospital has been completed negotiations might prove of a less satisfactory nature. It not unfrequently happens that such warnings as those of "A Bedfordshire Magistrate" are unheeded until damage is actually done. The War Office has been given ample warning this time, and we trust we may hear of its having taken measures promptly to ascertain how far the statements of our contemporary are borne out by facts.

It may interest old students of the Royal Military and Staff Colleges to know that "Cambridge Town" will in future disappear from all maps of the neighbourhood around Sandhurst, the name of Camberley having been substituted.

The first regimental command falling vacant under the five years' rule will be that of the 80th Regiment, to which Brevet Lieutenant-Colonel H. C. Smith was gazetted January 10, 1872. There is naturally some anxiety as to whether or not Colonel Smith will be summarily removed. He has thirty-two years' service, and is now with head-quarters in the Straits Settlements. The 4th Dragoon Guards was the first regiment filled under the non-purchase arrangement; but Colonel Chaplin, it is said, saved the authorities trouble by sending in his papers of his own accord, though we believe they have not been received by the Commissioners.

The case of Lieutenant-Colonel Alexander, who has just obtained command of the King's Dragoon Guards, is an instance of the misfortunes which will occasionally follow upon "reduction." Colonel Alexander served in the Crimea with the 10th Hussars, and, obtaining his troop February 1, 1856, was placed upon half pay as a Supernumerary Captain on the return of the regiment to England. He afterwards joined the Military Train, and was subsequently appointed to his present regiment, with which he has since done duty. But for the severance of his connection with the 10th Hussars, he would, doubtless, have obtained command of that regiment sixteen years ago, and have been close now upon his promotion as Major-General, a rank, as it is, it is improbable that he will ever obtain.

The junior Captain of the 5th Lancers is to be congratulated on his exceptional good fortune. A troop having fallen vacant in his regiment by the retirement of Captain Green, Lieutenant Norton, who only obtained his Cornetcy on April 9, 1870, has been promoted, though holding the eighty-second place on the seniority list of Cavalry Cornets, and over the heads, too, of officers of more than double his service.

Major R. N. Dawson-Scott, Royal Engineers, assumed duty on Monday as Deputy-Assistant Adjutant-General for the Royal Engineers, in succession to Major R. Grant, who has held the appointment since January 1, 1871, when the office was constituted in lieu of that of Assistant Adjutant-General. On vacating his appointment Major Grant is provided for at Aldershot, where he is to be employed as second in command of the Royal Engineer Train.

Major-General Sir E. B. Johnston, K.C.B., Royal Artillery, has made arrangements to leave England about the 8th proximo for India, to enter upon his new duties as Military Member of the Council of the Governor-General, vice Major-General Sir H. W. Norman, K.C.B., Bengal Staff Corps, who vacates after seven years' service.

Captain C. O'Callaghan, 2nd West India Regiment, having completed six years' service as Aide-de-Camp to Sir Arthur Kennedy, K.C.M.G., Governor of Hong Kong, is vacating his appointment.

The letter of an "Army Schoolmaster," appearing elsewhere, gives particulars of a hardship which steps ought at once to be taken to remove. Whilst these unfair distinctions are permitted, it is in the nature of things that there will be discontent. If either body of schoolmasters deserves liberal treatment, it is certainly that which has earned its position through the legitimate channel, and the favouring of the civilian is an injustice such as ought not on any account to be allowed.

REVIEWS.

A Recent View of Turkey. By Sir George Campbell, M.P. (John Murray, London.)

This Handy-Book on the Eastern Question has met with a well-earned success; for the author, in as few words as possible, has told us just what most people wanted to know about Turkey and her dependencies. He has cleared up much doubt and removed many popular and erroneous ideas of Turkish character and life. The lawful wife of a Mahommedan is vulgarly credited in this country with being little better than her husband's slave, yet the most advanced advocate of women's rights can have little to complain of here—"A marriage with a free Mahommedan woman is a pure and simple civil contract of partnership; the woman gives up none of her property and none of her rights, but retains them just as intact as if she had never been married. She may, and constantly does, sue her husband." Again of the Tartars, "They are a very good, industrious, well-to-do people, quite superior to most of the other Mahommedans, and quite capable of living in amity with Christians." The truth of this statement Mr. Barkly, in his book on Bulgaria, recently reviewed in these columns, fully endorses. Yet the word "Tartar" in this country has been, and is, a synonym for all that is ferocious and savage. Comparing the practical religion of the Mahommedans with ours, Sir George Campbell says:—"Their prayerfulness, and what I may call active belief in God, much exceeds the sort of easy-going religion so common among us. . . . The Mahommedans miss the vital principles of Christianity, the humility, mercy, charity, and love of our neighbour; but, then, very few Christians have practised these parts of their faith, while the Mahommedans, taking a lower standard, more easily accepted by weak and corrupt man, have better carried their religion into practice." Of the Circassians, Sir George Campbell remarks that the sole object and dream of their life may be summed up in the one word—"loot." In the chapter on the "Character and Social Institutions of the People of Turkey," we are shown that there is much to be admired in the Turkish character, more especially amongst the rural population. Of their diplomatic skill Sir George Campbell does not think much, believing that their clever dispatches are usually written by Frenchmen, Armenians, and Greeks. He is unsparing in his condemnation of the bureaucratic oligarchy in Constantinople, with its "hopeless rottenness and inefficiency." He strongly urges decentralization and giving self-government to the races now subject, and he ridicules the notion of the Bulgarians being unequal to the task. In measured terms he condemns both Sir Henry Elliot and his policy; but he could scarcely do so more strongly or more effectually. After a careful summary of recent events, Sir George Campbell goes to England's relation with Russia in the East, and concludes with what he considers the best remedy for the Turkish disease. When we consider that all these decided opinions are delivered on the experience of a few weeks' "run" through part of Turkey in Europe, we must admire the aplomb and self-confidence of the model Indian civilian.

Adventures in New Guinea; the Narrative of Louis Trégance. Edited by the Rev. Henry Crocker. (Sampson Low and Co., London.)

This is an extraordinary account of a French sailor who fell into the hands of the Orangwoks, a savage tribe of cannibals inhabiting the interior of New Guinea. Adopted by the tribe, he was made a chief and married a brother chieftain's daughter, stained his skin the prevailing colour in deference to the wishes of his new relations, and in every way became a pattern "nigger." If his adventures are true they are indeed marvellous; but the embellishment of the outside of the book, representing an alligator and boa constrictor engaged in swallowing one another, is suggestive of the believing reader's capacity in that direction.

Woman and her Work in the World. By C. N. Cresswell. (Hardwicke and Bogue, London.)

It would indeed be well for women if their rights were, as a rule, advocated in the temperate tone of this little book, which contains much matter of interest, more especially in accounts of the treatment of women by the Buddhists, Chinese, and other people. His views of the degrading position of Mahommedan women are old-fashioned and scarcely correct. The law of divorce in China is one that would be hailed even in this country by many with no little satisfaction, for a Chinaman can, we are told by Mr. Cresswell, obtain a divorce from his wife on the ground of her "excessive talkativeness" or of "inveterate ill-temper."

Triviata; or, Cross-road Chronicles. By M. O'Connor Morris. (Chapman and Hall, London.)

These chronicles consist of hunting notes from Ireland during the season of 1875-76. They are lightly and pleasantly written, and they will, doubtless, be read with much interest by those who know the different packs of hounds and the country.

He Would be a Soldier! By R. Mounteney Jephson. (Bentley and Son, London.)

Although it is difficult to restrain downright laughter at many humorous parts of this book, it is scarcely worthy of the author of "Tom Bullkeley," which led us to expect better things.

Boy Mill. By Captain Rice, R.E. (Hatchards, London.)

Though an extremely improbable story, this is, nevertheless, an interesting one. Here and there the author exhibits capabilities which, unless we are mistaken, indicate the power of writing a far better novel.

Cosmopolitan Masonic Calendar, Diary, &c. (G. Kenning, 198, Fleet-street.)

As far as we can pretend to form an opinion from an inspection of the contents of this little pocket-book, it fully deserves its title, and merits, the praise of being not only a comprehensive Masonic book of reference, but of containing "full particulars of every grand Masonic body throughout the globe." We fail to find the references to the lodges in India which greeted the Prince of Wales, but we have but "tried our 'prentice hand."

THE MAGAZINES.

Fraser contains a quaint autobiography of a modern Icelander, who died about eight years ago. It was originally written in self-taught and imperfect English, which is printed uncorrected. A paper on "Fields and Field Sports in Madras" is somewhat disappointing; but a short story, entitled "Mariuccia," is cleverly written, faithfully depicting the excitable character of the Italian peasant, and conveying literally into English their passionate and extravagant form of speech.

Some of the "Anecdotes of an Epicure," in the *Cornhill*, are amusing, They chiefly relate to Brillat-Savarin, the celebrated *gourmet*, author of the famous "Physiologie du Gout," which work opens with a few aphorisms, one of which—"To invite anyone to dinner is to make yourself responsible for his happiness during the time he is under your roof"—is, unfortunately, not always borne in mind. This magazine has also an interesting paper on "Dual Consciousness."

Belgravia commences with a short story by Wilkie Collins; and the *Gentleman's Magazine* is an unusually good number, containing many interesting articles. *Baily* has a short paper on "The Decline of the English Horse," showing a startling increase in our importation of horses, the number of which in 1875 amounted to 25,757, against 3,135 exported. "Stud Gossip" is brightly written, as are most articles by the same author; while we commend "Amateur or Gentlemen Huntsmen" to the attention of any aspirants in that direction.

The Navy.

APPOINTMENTS.

Captains—T. Brandreth, to the Duncan, additional, for duty as Superintendent at Sheerness Dockyard; F. A. Herbert, to the Excellent, vice Brandreth; and C. T. Curme, to the Indus, vice Herbert.

Lieutenants—E. R. Mathias, to the Duke of Wellington; C. S. Bewicke, to the Vulture; and C. T. Turner, to the Valiant; W. T. Morgan, to the Achilles, as additional, for service in the Coastguard at Padstow; W. H. B. Graham and R. B. Sayce, to the Seagull, when commissioned on the 9th inst.; Hon. R. Bingham, to the Minotaur.

Sub-Lieutenants—J. M. Caulfield and Hon. H. Lambton, to the Alexandra; G. F. Glennie and A. Evans, to the Eclipse; G. L. B. Bennett and S. B. Hesketh, to the Encounter; A. W. Carter, to the Sheldrake; Hon. H. A. Denison, to the Mosquito; A. H. Shirley and W. V. Anson, to the Audacious; L. G. F. Tippinge and J. C. Faire, to the Defence; H. G. F. Berkeley, to the Seaflower; A. H. Smith-Dorrien, to the Shah.

Midshipmen—S. C. Legh and B. Currey, to the Alexandra; and J. C. Gaisford, D. E. C. Smyth, and E. H. Currey, to the Minotaur.

Naval Cadets—R. Nugent and F. H. Peyton, to the Minotaur; G. A. Ballard, to the Resistance; A. H. Tarleton, to the Sultan; G. W. Cornish, E. G. F. M. Cradock, and G. J. Taylor, to the Pallas; H. W. R. Boothy and E. G. Barton, to the Triumph; C. W. Ashby, C. H. Umfreville, and A. C. H. Pearson, to the Undaunted; A. G. Moore, B. C. Barber, and P. D. M. Henderson, to the Bellerophon; J. R. Bridson and J. W. Pochin, to the Shah; R. A. Allenby and T. S. Guppy, to the Volage; J. W. M. Webb, H. H. Philip, and L. O. Browning, to the Audacious; H. P. Barton, W. P. Dawson, and A. F. Gardiner, to the Wolverine; A. W. Howe, E. G. Greenway, and H. W. Thierins, to the Tourmaline; A. W. Ewart, T. J. Fellows, G. H. J. Greville, H. G. K. Hall, C. A. Radcliffe, C. N. Napier, V. Maud, and W. Nicholson, to the Alexandra.

Surgeon—J. W. Scott, to the Plymouth division of Royal Marines.

ROYAL NAVAL RESERVE.

Honorary Lieutenant—T. Hargreaves.

Alexandra, 12, armour-plated, 9,492 tons, 8,000 horse-power, was on Monday commissioned by Capt. R. O'B. Fitz Roy, at Chatham Dockyard. As previously announced, the Alexandra is intended as the flagship of Vice-Admiral G. T. P. Hornby, who is appointed second in command of the Mediterranean Squadron. Admiral Hornby will hoist his flag on board about the middle of the month. Meanwhile the work of fitting her out is being executed under the command of Capt. Fitz Roy, who has previously served with Admiral Hornby. The work on board is proceeding very satisfactorily. It is intended that she shall be ready for sea by the middle of February. The Alexandra received her Marines on Tuesday. A large body of sailors also joined the ship during the day from the Royal Naval Barracks at Sheerness, and others will follow. The ship will have a complement of 663 officers and men.

Boxer, 4, composite gunvessel, Com. A. H. Alington, left Sheerness yesterday for Devonport on her way to the West Coast of Africa.

Black Prince, 28, armour-plated, Capt. T. B. Lethbridge, during the recent gales with the Channel Squadron lost her jibboom, sprung her foretopmast, and had part of her figure-head carried away by a heavy sea. None of the other ships suffered any severe damage.

Charybdis, 17, screw-corvette, Capt. T. E. Smith, was to leave Shanghai on Nov. 19, taking coals for the gunboats at Chefoo and Tientsin.

Clio, corvette, which has supplied the place of the Warspite since the destruction of that vessel by fire twelve months since, has left Woolwich, the boys having been transferred to the Conqueror, which will in future be known as the Warspite. It is in contemplation to place a training-ship at Carnarvon, South Wales, and it is probable that the Clio will be lent by the Government for temporary use until a more suitable one is available.

Coquette, 4, gunboat, Lieut.-Com. W. E. Darwall, was to be docked at Malta on Dec. 27 last, and her crew turned over temporarily to the Hibernia.

Cruiser, 4, sloop, Com. J. Hext, was at Malta on the 26th ult.

Danae, 12, corvette, Capt. J. C. Purvis, will, it is stated, be removed from Portsmouth to Chatham in a few days, and her officers and crew turned over to the Turquoise, after which she is to have new boilers.

Daphne, 5, sloop, Com. G. B. Evans, was still in dock at Bombay on Dec. 11.

Dasher, 2, paddle-vessel, Com. E. C. Drummond, left Portsmouth on Thursday for the Channel Islands.

Decoy, 4, gunboat, Lieut.-Com. J. Hayes, on Dec. 10 was at Jamaica, having returned from the Caymans.

Devastation, 4, turret-ship, Capt. F. W. Richards, was expected to arrive at Malta this week from Besika Bay.

Dromedary, iron-screw troop and storeship. A telegram was received on Monday morning by the Admiralty from the French Consul at Calais to the following effect:—"Three men belonging to her Britannic Majesty's ship Dromedary have been picked up in an exhausted condition in the German Ocean by a French lugger and brought to Calais. They will leave for England by the first mail steamer." The Dromedary having left Portsmouth on Friday, the 29th ult., and nothing having been heard of her until the receipt of the French telegram, the Admiralty officials not unnaturally concluded that she had been lost at sea. The arrival on Monday at Deptford of three men referred to only confirmed the supposition. The seamen told a harrowing tale of their sufferings, but could give no information as to the fate of their ship. They stated that at 10 o'clock on Friday night the Dromedary, Capt. Stephens, laden with dockyard and victualling stores, was on her way from Portsmouth to the Royal Victualling Yard at Deptford. A hurricane coming on, the Dromedary put into Ramsgate roads and lowered anchor for the night. The wind blew a large steamer athwart her bows, and in the efforts of the two vessels to get clear of each other one of the crew of the Dromedary, named Compton, fell overboard. A lifebuoy was thrown to him, and he was seen to grasp it, but nothing more has since been seen or heard of him. Thinking that he might possibly be floating about with the lifebuoy, Capt. Stephens ordered three of his crew into the dingy, and they put out to try to find their mate. The wind and waves were so high that they could not get near the spot, and they were driven, in the darkness and without food, into the German Ocean. Their clothes were almost literally blown from their bodies, and after a lapse of twenty-four hours, with the dingy in a sinking condition, they were rescued in an exhausted state by a French fishing-boat. As the last of the three men was taken out the dingy went down. They were landed at Calais on Sunday. The Consul sent them to a *café*, and telegraphed to the English Admiralty. The three men were sufficiently recovered to proceed by the mail steamer which left Dover at 1 o'clock on Monday morning. They landed at Dover at 4, and reached Deptford at half-past 9. Being unable to state what had become of their ship, it was still thought that the Dromedary had gone down. In the course of Monday afternoon, however, the Dromedary arrived in safety at Deptford, and with the exception of the man who fell overbard, none of the crew are lost.

Dwarf, 4, composite gunvessel, Com. the Hon. E. Dawson, arrived at Spithead on Monday night from China, having been delayed by stress of weather. She was commissioned at Woolwich in 1868, and on July 18, 1871, she was recommissioned at Hong Kong. Not one of the officers who came home in her served through the commission. She will pay off at Sheerness and be placed in the fourth division of the steam reserve.

Enchantress, 1, paddle yacht, Staff Com. E. H. Hills, having had her worn-out boilers removed, has been placed in dock at Portsmouth to undergo a survey for the purpose of ascertaining her condition and the cost of putting her into a thorough state of repair. The Enchantress is about fifteen years old, and her inner timbers and wooden frames are believed to be in such an utter state of decay as to render the expediency of renovating her at least questionable. As the ship, however, is built upon the diagonal system, and has two inner and an outer strake of planking, her true condition cannot be seen until she has been opened out.

Encounter, 14, corvette, Capt. R. Bradshaw, senior officer, was at Antigua up to Dec. 1, having arrived there on Nov. 16.

Euphrates, 3, Indian troopship, Capt. W. H. Cuming, has had her starting gear repaired at Birkenhead, and arrived at Portsmouth on the 4th inst.

Euryalus, 16, iron corvette, in Chatham Dockyard, is preparing for being launched on the 31st inst.

Falcon, 3, composite gunvessel, was on Thursday launched at Birkenhead from the yard of Messrs. Laird. Her guns are one 4½-ton 100-pounder muzzle-loading rifle gun amidships, and one 64-pounder muzzle-loading rifle gun at the bow and stern. She is framed of iron, and planked with two thicknesses of teak planking. Her length is 157ft., breadth of beam 29ft. 6in., displacement 774 tons. The vessel will be finally rigged for steam or sail, and is fitted with a horizontal direct-acting compound engine of 700-horse power. The usual form of prayer was said, and the "christening" of the vessel was performed by Miss Pritchard, of L'Esgol, Anglesea.

Goshawk, 4, composite gunboat, Lieut. A. T. Bagge. About a month ago a telegram purporting to be from the Secretary of the Admiralty, London, was received at the Admiralty Office, Queenstown, ordering the Goshawk to proceed immediately to Gibraltar. The terms of the order were such as to cause no suspicion of its genuineness. It was directed that the full crew should proceed, and that as much coal and stores as could be stowed should be laid. There was a little delay in departure owing to the absence of some of the crew, who were on leave, but they were all mustered with despatch, and in less than twenty-four hours after the receipt of orders the Goshawk was on its way to Gibraltar with sixty-three souls on board. The weather at the time was very bad, and, as these gunboats are not designed for sea-going, there was much misgiving as to her safety. Very soon after she sailed another telegram was received from the same source, asking to be advised if the Goshawk had proceeded to Galway. A reply was at once sent back from the Admiral's Office, Queenstown, stating that, in accordance with the first telegram, she had gone to Gibraltar. It was then ascertained for the first time that the telegrams were a hoax, and that the lives of the sixty-three persons on board were placed in jeopardy by the heartless conduct of some practical jokers. The Admiralty at once took steps to have the Goshawk intercepted at the earliest possible moment. Telegrams were forwarded to numerous ports on the French and Spanish coasts with this object, and the Himalaya, troopship, which left for the same destination, was directed to have a close look out for her. She does not, however, seem to have come across the Goshawk, which was first heard of at Vigo Bay, where she had put in through stress of weather. A telegram was there in waiting for Lieut. Bagge intimating that he had been made the victim of a hoax, and that the gunboat should return immediately. The weather continued to be very bad, and on three several occasions the Goshawk was obliged to put back to the Bay. Finally she got away, and arrived in Cork Harbour on Friday morning last week. She had a tempestuous passage, the wind being after her and accompanied by a most dangerous following sea, which often threatened to completely overwhelm her. The Admiralty authorities are making strenuous efforts to discover the perpetrators of this hoax, which, for a lengthened period, was the source of the gravest anxiety to the friends and relatives of the officers and crew of the Goshawk, several of whom are married. There appears to be an idea that it originated in Cork, and for some days past a detective from Scotland-yard has been investigating the affair. It is alleged that he has obtained some clue, and colour is given to the idea from the fact that an official of the Admiralty Department in London arrived in Cork on Saturday for the purpose doubtless of assisting in tracing it out.

Helicon, 2, despatch-vessel, Lieut.-Com. R. W. Stopford, was to be docked at Malta on Dec. 28 last.

Hotspur, 3, armour-plated ram, Capt. T. M. Jones, was to be docked at Malta on Dec. 26 last, her officers and crew being temporarily in the Hibernia.

Himalaya, 3, troopship, Capt. E. White, arrived on the 1st inst. at Port Said, all well.

Lapwing, 3, double-screw gunvessel, Com. Sir W. Wiseman, Bart. The *North China Herald* gives the following particulars of the stranding of the Lapwing in a gale on the night of Nov. 10:—"Her Majesty's gunvessel Lapwing, Com. Sir W. Wiseman, left Chefoo at four o'clock on Friday afternoon, Nov. 10, for Tientsin, to relieve the Frolic, but during the night, at half-past ten, during a gale of wind which rose suddenly, she got out of her course and ran ashore on the beach of the east side of Chang-shan-tau Island, about two miles and a-half north of the point marked Island Head on the chart of the Misu-tau group. The violence of the gale hove her right upon the beach. News of the disaster reached Chefoo on Monday, Nov. 13, and H.M.S. Mosquito, Lieut. Paul, R.N., immediately started to assist the Lapwing. Mr. George Jamieson, acting consul, went with the Mosquito, taking with him a Wei-yeun from the Taotai of Chefoo to assist in hiring native workmen to get the Lapwing out of danger. By the last accounts it appears that none of the crew have been lost or hurt. Everything had been cleared out of the vessel except her machinery, and all had been stored in houses. Coolies were working to clear everything. The Mosquito endeavoured to tow the Lapwing off, but did not succeed the first day. She was going to have another try when the last news left. The hull of the Lapwing was not damaged, and as the Frolic was on her way to the rescue, and the spring tides are flowing, it is to be hoped that she may get off. Should a north-east gale set in, however, the vessel will be broken up."

Lynx, 4, composite gunvessel, Com. F. Ommanney, was at Mozambique on Oct. 26.

Midge, 4, composite gunvessel, Capt. H. Salmond, would be ordered to Hong Kong when the probable date of arrival of her new crew was known.

Nassau, 4, surveying vessel, Com. R. H. Napier, was refitting at Hong Kong on Nov. 3.

Orwell, 2, gunboat, Lieut.-Com. R. H. Cornwall, relieved the Gipsy at Dunkettle on the 1st inst., in protection of River Lee Fisheries.

Pert, 4, composite gunvessel, Com. H. C. Aitchison, was at Nassau on Dec. 10.

Plover, 3, gunvessel, Com. H. B. Stewart, would leave Jamaica on Dec. 14 for Turk's Island.

Rapid, 3, sloop, Com. A. A. F. FitzGeorge, left Malta on Dec. 26 last for Syra.

Royal Alfred, 18, armour-plated, in dock at Portsmouth, is being examined to ascertain her condition. She has been relieved of her 4½-inch plating, so that the backing may be exposed. This has been bored through in several places, and much unsoundness has been discovered. Her cutwater and bow timbers are very rotten, and although as much as £72,000 was mentioned by Mr. Ward Hunt as the first estimate of the sum which would be required to effect her repair, it is now believed that her reconstruction, if determined upon, will necessitate a much larger outlay.

Rover, 18, corvette, Capt. T. Barnardiston, was making good defects at Jamaica on Dec. 10, and would visit the coast of Cuba.

Ringdove, 3, double-screw gunvessel, Com. U. C. Singleton, was, on Nov. 3, in consequence of nothing having been heard of the Magpie, detained on the China Station.

Rupert, 4, iron-clad ram, Capt. W. J. Grubbe, C.B., was to be taken out of dock at Malta on the 26th ult., and would proceed to Salonica probably to-day.

Salamis, 2, despatch-vessel, Com. F. W. Egerton, left Lisbon on the 28th ult., and, after a run of seventy-four hours, arrived at Plymouth on Sunday afternoon, and left again for Portsmouth, where she arrived on Monday. She brings stores and prisoners from the Black Prince for trial by court-martial. The Salamis will require to be docked again before leaving England on account of her leaking.

Serapis, 3, Indian troopship, Capt. D. G. Davidson, arrived at Suez on the 3rd inst. in the forenoon. She left Port Said on the night of the 4th inst. for Portsmouth.

Swinger, 4, composite gunboat, Lieut.-Com. E. A. Bolitho, would be ordered to Hong Kong when the probable date of arrival of her crew was known.

Sylvia, 3, surveying-vessel, Com. B. W. Bax, was, on Nov. 3, on the coast of Japan surveying.

Tamar, 2, troopship, Capt. W. H. Liddell, arrived at Spithead on Monday morning from Halifax, with troops, time-expired men, and the crew of the sloop Argus, paid off on the North American Station.

Thetis, 14, corvette, Capt. T. Le H. Ward, was at Bombay on Dec. 11.

Thunderer, 4, turret-ship, underwent a satisfactory trial of her machinery in the Solent on Tuesday. The engines were in the sole charge of the contractors. The run was chiefly for the purpose of testing bearings, but although the engines were not pressed, seventy-five revolutions were reached, and the bearings answered admirably. On Thursday the official trial of her engines was made on the measured mile in Stokes Bay. All the boilers have had sentinel valves fitted to them in addition to the ordinary safety-valves, as a further protection against explosion. The ship had lain at Spithead since Tuesday, being anchored in nine-fathom water by one of Martin's 5-ton double-fluke anchors. The ship got under way a little before 12, the sea at the time being rather lumpy, and a fresh breeze blowing from the direction of S.W. by W.S.W., with the force of 3. The engines were under the superintendence of Mr. Robert Humphrys, of the contractors' firm, and Capt. Waddilove, of the Steam Reserve, commanded. About 1 o'clock the ship began the first run with seventy-six revolutions. The result of the official runs against and with the tide were as follows:—First Run.—Time, 4min. 35sec.; speed, 13·091 knots; horse-power, 6,205 52; revolutions, 77·23 per minute. Second Run.—Time, 4min. 24sec.; speed, 13·676 knots; horse-power, 6,128 56; revolutions, 75·90. Third Run.—Time, 4min. 40sec.; speed, 12·857 knots; horse-power, 6,284 90; revolutions, 75·57. Fourth Run.—Time, 4min. 11sec.; speed, 14·343 knots; horse-power, 6,326·38; revolutions, 76 97. Fifth Run.—Time, 4min. 51sec.; speed, 12·371 knots; horse-power, 6,351·62; revolutions, 77·52. Sixth Run.—Time, 4min. 7sec.; speed, 14·575; horse-power, 6,326·36; revolutions, 77·24. The mean of all the means of speed was 13 405 knots, and the general mean 13·479 knots per hour. The safety-valves were loaded to 30lb. on the square inch; the pressure on the boiler, 29·87lb.; the vacuum in the condensers, 26 28lb. starboard, and 26·70lb. port; the highest mean of revolution per minute was 78 3, the mean per minute 77·4, and the mean per mile 346; the mean pressure in the cylinders, 20·57lb. starboard, and 20·34lb. port. The mean indicated horse power was 6,270 horses, being 760 in excess of the contract power, notwithstanding the fact that five years have elapsed since the machinery was put on board. The engines were stopped from full speed from the moving of telegraph in 15sec.; being stopped, they were started full speed astern in 18sec.; and from full speed astern to full speed ahead in 18sec. Two full-speed circles were made with the result that with the helm over to starboard 31deg., she made the circle in 4min. 2sec., the diameter being 330 yards; and with the helm over to port at the same angle, she made the circle in 4min. 10 sec., the diameter being 300 yards. The circles were remarkably small for the character of the ship, and the rapidity with which she travelled them, and the ease with which she answered her helm, proved that she could be easily manœuvred in action. The trial was eminently satisfactory in every respect. There were no signs of heated bearings from first to last, and the only sign of priming was in the auxiliary boiler, which, in consequence, was not used. Everything having passed over so successfully, the Thunderer will proceed on her six hours' trial to-day.

Triumph, 14, armour-plated ship, Capt. G. H. Parkin. The *Western Daily Mercury* of Tuesday contains the following account:—"Her Majesty's ship Triumph left Malta on Dec. 19 to join the Fleet, under Admiral Drummond, near the Dardanelles, and at noon on Dec. 22, after a splendid run of seventy hours, anchored in Besika Bay, where she found the rest of the ships lying at single anchor. The position she took up was about half a-mile ahead of the Monarch, thus forming with that ship the outer of the three lines in which the Fleet was placed. It was blowing very fresh when the Triumph arrived. The wind soon increased to a furious gale from the south and south-west. As the barometer was still falling and the wind increasing, all the ships let go a second anchor at 2 p.m., thereby making themselves pretty secure, but the Triumph, having her steam still up ready for use, continued to trust to the one anchor only. At sunset there was a slight lull in the storm, and it seemed as if the worst was over, more especially as the sky was unclouded and the moon and stars shone out clearly. It was a delusive pause, however, in the conflict of the elements, during which the gale seemed to gather greater fury, for about 8 p.m. it burst over the Fleet again with tremendous force. At 9.30 a terrific squall struck the Triumph, and quite overcame the holding power of her anchor, though no less than 100 fathoms of cable were out. In a moment she began to drift with fearful rapidity straight towards the Monarch. It soon became evident that in a few minutes she would fall right upon the other's ram, and that the career of both ships would come to an untimely end unless something effectual was done at once. The Triumph's second anchor was let go as speedily as possible; but the effect it produced was only slightly to check the rate of progress. It never stopped it for a moment. On went the noble ship, as if bent upon self-destruction, and dragging both her anchors after her as if they were mere playthings. Presently the jibboom of the Monarch was over the stern of the Triumph, and everybody on board the latter ship was expecting a midnight swim; but, fortunately, just when a few seconds would have sealed the fate of the two finest vessels afloat, steam came to the rescue, and began to make the Triumph move ahead. Both her anchors were weighed, and she started in search of better quarters. Such was the fury of the storm, however, that she was driven back, though under full steam, and at about 10.30 p.m. found herself close alongside the Monarch—being so close, indeed, that anyone might have gone from one ship to the other. Everybody on board expected momentarily to hear the ironclads crushing to bits, but, marvellous to relate, they did not actually touch, so no damage of any consequence was done. The Triumph was steaming ahead at full power all the time. At last, during a lull, she managed to sheer off from the other, and once more got ahead of her about a mile and a-half. Then both anchors were let go, but again the squalls came on in greater force than ever, and again she dragged them both. Of course, there was nothing for it but to get them up once more and go through the whole performance again. This was repeated altogether three times before it was found where the anchors would hold, but at last, about 3 a.m., on the 23rd, the ship was securely moored, though even then it was considered necessary to keep the screw going in order to take some strain off the cables. The captain of the Triumph, who is one of the best sailors in the Navy, was quite equal to the emergency, and no man could have done more for the safety of the ship than he did. He did not leave the deck for a moment from the first alarm until things were quite safe."

Tourmaline, 12, corvette, Capt. F. W. Sulivan, C.B., arrived at St. Vincent, Cape de Verde, on Dec. 17, and would proceed to Sierra Leone after coaling.

Undaunted, 31, frigate, Capt. H. W. Brent, flagship of Rear-Admiral Macdonald, was at Bombay up to the 11th ult.

Valorous, 6, frigate, Capt. L. F. Jones, with four gunboats in company, anchored at Yarmouth on the morning of the 30th ult., all well. She arrived at Portsmouth on Thursday afternoon.

Vigilant, 2, despatch-vessel, Lieut.-Com. H. C. Ryder, with Vice-Admiral Ryder on board, would make a short stay in Japan, and then go to Hong Kong.

Wye, store-ship, Staff Com. W. W. Vine, was to leave Malta on the 1st inst. with stores for the fleet in Besika Bay.

On the eve of the completion of the 81-ton gun a mishap has occurred, but not of sufficient importance to prevent the carrying out of the programme. It should be mentioned to the credit of the gun that it has fired 166 rounds, in which it has consumed no less than twenty-three tons of powder, and discharged 130 tons of projectiles. To this must be added the fact that the charges fired in the later stages of the trials have been much heavier than contemplated when the gun was originally designed. The authorities still regard with satisfaction the unimpaired condition of the main structure, while they admit that the steel tube or lining of the gun is its one weak part. In this steel tube a crack has been discovered. It is considered somewhat remarkable, although not surprising, that the 81-ton gun should have followed so closely the example of the original Woolwich Infant, the first 35-ton gun, which in a similar manner endured some enormous pressures and then cracked its steel lining; after which mishap it, however, fired many more very heavy rounds, and proved that a defect in the steel tubing was scarcely to be regarded as any serious detriment to the weapon. The thickness of the steel at the place where the crack has occurred is about 4in., and it is situated at some distance from the powder chamber, and is at present scarcely perceptible. It is calculated that the gun is as fit for work as ever it was, and the trial against the armour-plated target will, therefore, probably be made, as arranged, at Shoeburyness before it is retubed. The early removal of the gun from its present position facing the Maplin Sands may, therefore, be expected. Five impressions of the bore of the 80-ton gun were taken on Thursday, without the alleged flaw being discovered. The fracture, which is almost infinitesimal in dimensions, is probably due to the gun having been bored too fine. Col. Fraser, R.A., had the gun loaded with unstudded shell on Thursday morning, with a view to ascertaining whether the automatic gas checks would fit in the grooves tight enough to prevent windage. The gas checks appeared to answer their purpose admirably; but there was a great difference of opinion manifested as to whether, owing to the enormous length of the gun, an unstudded projectile would not score the barrel.

It was intended to have tried the 38-ton gun with heavy charges on Thursday morning, but owing to the non-arrival of the shears from Woolwich the experiments were postponed, and practice took place with the 9-inch, 10-inch, and 11-inch guns, for the purpose of testing the efficacy of Mr. Gould Adams' gas check for guns of this calibre. The gas checks hung on close to the base of the shells, but the results were not very satisfactory, as the flight of the projectiles was extremely wild.

A very favourable report has been made to the Admiralty of the jury-rudder invented by Rear-Admiral Sir J. E. Commerell, K.C.B. The rudder was, in the first place, fitted to the surveying-ship Fawn, at Chatham Dockyard, when various experiments were made with it, all of which proved satisfactory. The Admiralty directed that it was to be further tested when the Fawn was at sea, and the report sent home by the commander of the ship is as favourable as that made by the officials of Chatham Dockyard. The rudder is intended to be used in the event of the ordinary rudder being disabled, and it can be brought from the store-room and placed in position in about twenty-five minutes. The Admiralty also directed the superintendents of the different dockyards to make experiments with the rudder; this has been done, and it is recommended that the rudder should be supplied to ships of the Navy to be used in case of accident to their rudders.

The Secretary for War has just issued new instructions relative to the first-class Army Reserve. All men serving on April 1, 1876, and all enrolled subsequently are to have their pay increased by 2d. a-day. Deferred pay will only be issuable on the production of a certificate that twelve days' training or twenty drills have been undergone, but this certificate will not be required for the year ending March 31, 1877. The annual issue of £1 is abolished. The men of the Reserve are to attend every year for medical examination. Men of the Reserve serving in any police force or as prison warders will not attend drill unless summoned specially. Pay is in future to be issued in arrear instead of in advance.

Rossetter's Hair Restorer.—This unrivalled preparation has now been before the public for many years, and as its success has led to several spurious imitations, the public should be on their guard. Rossetter's preparation is the only one that will with certainty restore grey hair to its original colour, remove dandruff, prevent the hair from falling off, promote its growth, and give it the lustre of youth.

STATIONS OF THE ROYAL NAVY IN COMMISSION.

With the dates of Commission of the Officers in Command.

ABOUKIR, 23, sc. receiving-ship, Commodore Algernon McLennan Lyons, 1862, Jamaica.

Boxer, 4, double-screw composite gunvessel, Com. A. H. Alington, 1870, Cape of Good Hope and West Coast of Africa.
Britannia, training-ship, Capt. W. Graham, 1863, Dartmouth.
Britomart, 2, gunboat, Lieut. J. Sulivan, Devonport.
Bullfinch, 3, double-screw gunvessel, Com. R. M. Lloyd, 1870, North America and West Indies.

Cambridge, 29, gunnery-ship, Capt. the Hon. W. J. Ward, Devonport.
Castor, 13, Naval Reserve drill-ship, Commander A. C. Curtis, 1866, North Shields.
Challenger, 4, screw-corvette, Capt. E. Hardinge, 1863, Vice-Admiral Sir J. Walter Tarlton, K.C.B., Coast-guard ship, Harwich, *pro tem.*
Charybdis, 17, screw-corvette, Capt. T. E. Smith, 1868, China.
Cherub, 3, screw gun-boat, Lieut.-Com. F. R. Kemp, 1867, tender to Penelope, Harwich.
Clyde, 15, Royal Naval Reserve drill-ship, Com. H. C. Best, 1869, Aberdeen.
Cockatrice, 1, sc.-gunboat, Com. A. J. W. Musgrave, 1870, Mediterranean.
Conflict, schooner, Lieut.-Com. W. M. Carey, 1867, Australia.
Contest, 4, composite gun-boat, Lieut.-Com. G. W. Allen, 1863, Cape of Good Hope and West Coast of Africa.
Coquette, 4, screw composite gunboat, Lieut. W. E. Darwall, 1863 Mediterranean.
Cracker, 4, double-screw composite gun-vessel, Commander C. H. Hawkins, 1872, South-east Coast of America.
Crocodile, 3, Indian troopship, Capt. P. R. Sharpe, 1870, Portsmouth.
Cromer, 2, screw-gunboat, Lieut. V. E Von Donop, 1866, tender to Achilles, Birkenhead.
Cruiser, 4, sailing-sloop, Com. John Hext, 1874, Mediterranean.
Curlew, 3, double-screw gun-vessel, Com. E. J. Church, 1868, China.
Cygnet, 4. screw composite gunboat, Lieut.-Com. R. F. Hammick, 1864, Cape of Good Hope and West Coast of Africa.

Dædalus, 13, Naval Reserve drill-ship Com. W. H. St. Clair, 1868, Bristol.
Danae, 12, screw corvette, Capt. J. C. Purvis, 1872, Portsmouth.
Daphne, 5, screw-sloop, Com. G. B. Evans, 1870, East Indies.
Dapper, 2, sc. gunboat, Lieut. and Com. T. E. Miller, 1865, tender to Britannia, Dartmouth.
Daring, 4, composite screw-sloop, Com. J. G. J. Hanmer, 1870, Pacific.
Dasher, 2, paddle-vessel, Com. E. C. Drummond, 1867, Channel Islands.
Decoy, 4, composite screw gun-boat, Lieut.-Com. J. Hayes, 1865, North America and West Indies (ordered home).
Defence, 16, iron screw-ship, armour-plated, Capt. R. P. Cator, 1866, Channel Squadron.
Devastation, 4, armour-plated turret-ship, Capt. F. W. Richards, 1866, Mediterranean.
Diamond, 14, screw corvette, Capt. G. S. Bosanquet, 1870, East Indies.
Dryad, 9, screw-sloop, Com. R. D. King, 1867, North America and West Indies.
Duke of Wellington 25, screw, flagship of Admiral George Elliot, Capt. Hon. W. C. Carpenter, 1866, Portsmouth.
Duncan, 31, screw-ship, Captain St. G. D'Arcy-Irvine, 1867, flagship of Vice-Admiral Henry Chads, Sheerness.
Durham, 17, Naval Reserve drill ship, Commander W. Howorth, 1867, Sunderland.
Dwarf, 4, double-screw composite gun-vessel, Com. Hon. E. S. Dawson, 1869, Portsmouth.

Eagle, 12, Naval Reserve drill-ship, Com. A. F. M. Meyer, 1869, Liverpool.
Eclipse, 12, screw corvette, Capt. J. E. Erskine, 1868, North America and West Indies.
Egeria, 4, composite screw-sloop, Com. A. L. Douglas, 1872, China.
Elfin, paddle yacht, tender to Victoria and Albert, StaffCom. A. Balliston, 1867, Portsmouth.
Enchantress, 1, paddle yacht, Staff-Com. E. H. Hills, 1870, tender to Asia, Portsmouth.
Encounter, 14, screw-corvette, Capt. R. Bradshaw, 1868, North America and West Indies.
Endymion, 22, screw-frigate, Captain J. Moresby, 1864, Coast guard, Hull.
Euphrates, 3, Indian troopship, Capt. W. H. Cuming, 1870, Birkenhead.
Excellent, 13, gunnery-ship, Capt. F. A. Herbert, 1864, Portsmouth.
Express, 4, screw composite gunboat, Lieut.-Com. Hon. A. C. Littleton, 1865, Gibraltar.

Fantôme, 4, composite screw-sloop, Com. T. M. Macquay, 1867, Pacific.
Fawn, 5, screw-sloop, Com. W. J. L. Wharton, 1872, East Coast of Africa.
Fervent, 2, screw gunboat, Lieut. F. G. Dundas, 1867, tender to Dædalus, Bristol.
Fire Queen, iron paddle vessel, Staff-Com. T. Pounds, 1868, tender to Duke of Wellington, Portsmouth.
Fisgard, 22, stationary ship, Staff-Com. W. H. Sharp, 1867, Greenwich.
Flirt, 4, double-screw composite gun-vessel, Lieut. A. O'Rorke, 1866, tender to Aurora, Greenock.
Flora, 12, store ship, Commander C. Mitchell, 1869, Cape of Good Hope.
Fly, 4, double-screw composite gun-vessel, Com. John Bruce, 1871, China.
Flying Fish, 4, composite screw-sloop, Com. H. F. Crohan, 1873, East Indies.
Foam, 4 sc. composite gunboat, Lieut.-Com. R. W. Hope, 1866, South East Coast of America.
Fox, 2 sc. store-ship, Staff-Com. J. G. Dathan, 1867, part. service.
Frolic, 4, double-screw composite gun-vessel, Com. A. E. Dupuis, 1870, China.

Ganges, 19, training-ship, Commander R. L. Byng, 1870, Falmouth.
Goshawk, 4, composite gunboat, Lieut. A. T. Bagge, 1869, tender to Revenge, Queenstown.
Growler, 4, double-screw composite gun-vessel, Com. W. Stewart, 1869, China.
Hart, 4, double-screw composite gun-vessel, Commander T. H. Royse, 1868, China.
Hector, 18, sc. armour-plated ship, Capt. C. M. Buckle, 1866, Coastguard, Southampton Water.
Helicon, 2, paddle despatch-ves., Lieut.-Com. R. W. Stopford, 1865, Mediterranean.
Hercules, 14, armour-plated iron screw-ship, flagship of Vice Admiral the Hon. Sir J. Drummond, K.C.B., Capt. N. Bowden-Smith, 1872, Mediterranean.
Hibernia, 12, receiving-ship, Com. G. O. Twiss, 1866, flagship of Rear-Admiral Luard, C.B., Malta.
Himalaya, 3, iron-screw troop-ship, Captain E. White, 1872, particular service.
Hornet, 4, double screw gun-vessel, Com. H. N. Hippisley, 1866, China.
Hotspur, 3, iron armour-plated ram, Capt. T. M. Jones, 1866, Mediterranean.
Immortalité, 28, screw-frigate, Captain F. A. Hume, 1865, Detached Squadron, ordered home.
Implacable, 16, training-ship, Com. C. S. Cardale, 1868, Devonport.
Impregnable, 22, training-ship for boys, Capt. W. H. Edye, 1865, Devonport.
Indus, guardship of Reserve, and flagship of Rear-Admiral Willes, C.B., Capt. C. T. Curme, 1864, Devonport.
Iron Duke, 14, armour-plated, double-screw ship, Capt. Rowley, 1866, Kingstown.
Jackal, 2, iron paddle vessel, Lieut.-Com. H. A. Digby, 1865, West Coast of Scotland.
Juno, 8, screw-corvette, Capt. Poland, 1871, China.
Jumna, 3, iron-screw troop-ship, Capt. John D'Arcy, 1869, Portsmouth.
Kestrel, 4, double-screw composite gun-vessel, Com. C. B. Theobald, 1865, China.
Lapwing, 3, double screw gun-vessel, Com. Sir W. Wiseman, 1871, China. (Reported wrecked at Chefoo)
Liberty, 8, sailing-brig, Lieutenant C. Johnstone, 1865, Lisbon.
Lily, 3, composite screw gun-vessel, Com. B. E. Cochrane, 1872, China.
Lion, 12, screw-ship, Lieut. E. H. Clarke, 1872, tender to Implacable, Devonport.
London, 72, screw-ship, Capt. T. B. M. Sulivan, 1865, Zanzibar.
Lord Warden, 18, screw-ship, armour-plated, Capt. N. B. Bedingfeld, 1862, Coast-guard, Queensferry.
Lynx, 4, composite gun-vessel, Com. F. M. Ommanney, 1869, East Indies.
Magpie, 3, double-screw gun-vessel, Com. C. V. Anson, 1871, China.
Malabar, 3, Indian troopship, Capt. E. Kelly, 1870, Portsmouth.
Mallard, 4, screw composite gun-boat, Lieut.-Com. A. W. Warry, 1833, Cape of Good Hope and West Coast of Africa.
Martin, 10, sloop, Lieut. E. Hicks, 1865, Lisbon.
Midge, 4, double screw composite gun-vessel, Com. H. Salmond, 1870, China.
Minotaur, 17, armour-plated, iron screw ship, Capt. Lord Walter Kerr, 1872, flagship of Rear-Admiral F. T. B. Seymour, C.B., Channel Squadron.
Modeste, 14, screw-corvette, Capt. A. Buller, 1869, China.
Monarch, 7, armour-plated screw turret-ship, Capt. M. Culme-Seymour, 1865, Mediterranean.
Moorhen, 4, screw composite gunboat, Lieut.-Com. J. Hope, 1864, China.
Mosquito, 4, composite screw gun-vessel, Lieut.-Com. R. H. Paul, 1866, China.
Myrmidon, screw gun-vessel, Com. the Hon. R. Hare, 1868, Pacific (ordered home).
Nankin, 50, stationary ship, Captain R. V. Hamilton, 1862, Pembroke.

Wye, iron screw storeship, Staff Com. W. W. Vine, 1874, particular service.
Zephyr, 4, composite gunboat, Lieut.-Com. W. G. Le Cocq, 1865, North America and West Indies.

The following divisional order has been issued from the Assistant Adjutant-General's Office, at Aldershot, viz.:—"Her Majesty has been graciously pleased to appoint Col. the Hon. F. A. Thesiger, C.B., to serve on the Staff of the Army in Great Britain as a brigadier-general, with a view to his commanding a brigade at Aldershot, in succession to Major-Gen. Primrose, C.S.I., appointed to command a division in India."

The following subscriptions are thankfully acknowledged by the governors of the Drummond Institution, viz.:—F. M. S. L., per Surg.-Gen. M'Illree, £1; S. Hutchinson, Esq., £2; Major-Gen. the Hon. L. Smyth, C.B., £5; 1st Batn. 20th Foot, per Col. Meares, £10 10s.; his Grace the Duke of Abercorn, K.G., for half year ended Dec. 31, £5; Messrs. W. Drummond and Sons, three dozen gooseberry trees, presented to the institution. The Government have admitted (conditionally) Augusta, daughter of the late Sergt. W. Johnston, 1st Batn. Rifle Brigade; this child being a total orphan. This will leave forty-nine girls in the institution.

The Woolwich correspondent of the *Morning Post* writes:—"Two thousand newly-invented horse-hammocks are being placed in store in the transport department of the Royal Dockyard at Woolwich. In the shipping and transport of horses in war time a mortality of 17 to 20 per cent. has hitherto occurred by the animals injuring their heads and getting off their feet during the rolling of the ship. When once a horse gets down under the circumstances it often struggles itself to death (if not previously killed) in vainly attempting to get up again. The new hammock is fixed under the body of the horse in such a manner that if in a rough sea the animal is unable to keep on its legs it becomes suspended until it recovers its proper status, the hammock remaining slack when it recovers its feet. It is anticipated that these new hammocks will effect a saving of nearly £1,000 for every 100 war horses sent abroad."

At Woolwich Police-court on Monday William Lee, an Artilleryman, was charged on remand with entering the Army under false pretences. His attestation paper, which was produced in evidence against him, showed that in answer to Question 8: "Have you ever served in the Army, Marines, Militia, or Navy?" he answered "Yes; in the Forfar Militia." It was proved however, that he had been previously in the 71st Regt., and discharged therefrom for misconduct. Mr. Balguy now informed an officer who represented the military authorities that he had decided to discharge the prisoner, for his answer, though it had possibly been a wilful suppression of the whole truth, might have been a perfectly innocent one. The first part was certainly true, and the second part partially so, and although there was a note on the attestation paper directing that the recruit should give full particulars of former services, he was afraid that it was seldom read or understood. He had the greatest satisfaction in discharging the prisoner because he heard that he was to be punished for a military offence under the Articles of War.

FURNISH ON THE NEW HIRE SYSTEM.—The "New Hire System' is quite distinct from anything yet attempted. Houses furnished throughout. 20 Wholesale Houses to select goods from. "An excellent idea."—"Army and Navy Gazette." Prospectus, with Press opinions, post-free. General Furnishing Company—Offices, 9, Southampton-street, Strand.

INDIA.

The London correspondent of the *Irish Times* writes:—"People are incredulous with reference to the statement of promotions which have been furnished by the military papers as resulting from the deaths of Gens. Hawkes, Prescott, and Hodson, of the Indian Army. The Royal Commission on Army Promotion and Retirement has recommended that Imperial officers shall cease to derive benefit from vacancies created by Indian generals; and, on the strength of that, it is argued that it would only be disturbing the lists unnecessarily were Cols. Payn, Ross, and Weare advanced. This reasoning is good so far as it goes. But there is this to be said in opposition to it—up to the present date the War Office is quite undecided as to how far it intends to act upon the Royal Commission's report. Such being the case, it would be impolitic—it would most certainly be unfair—to deny the officers who have become entitled to their promotion the steps they have anticipated. Before promotions cease, some intimation will have to be given that it is proposed they should do so; and in the absence of any warrant or general order making it known that the Indian and War Offices have come to the conclusion that it is desirable to separate the lists, as the Royal Commission has suggested, it is reasonable to conclude matters will run on in the ordinary groove."

In consequence of the death of Gen. H. C. M. Cox, Bengal Infantry, on July 22, the name of Major-Gen. H. Pritchard, Madras S.C., has been placed on the list of lieutenant-generals, that of Col. T. A. Carey, Bengal S.C., on the list of major-generals, and that of Major H. A. Little, Bengal S.C., on the list of lieutenant-colonels on the Indian Gradation List.

Major H. P. Peacock, Bengal Cavalry, Commandant of the Governor-General's Body Guard, is to be promoted a brevet major, with effect from July 23, vice Gen. H. C. M. Cox, Bengal Infantry, deceased.

The services of the following sub-lieutenants have been placed at the disposal of the Government of Fort St. George for appointment to regiments in that Presidency as probationers for the Staff Corps, viz.:—Keary, 12th Foot: Wyllie, 16th Foot; Teversham, 21st Foot; Poynder, 33rd Foot; Hobart, 43rd Foot; Gray, 44th Foot; Wilson, 48th Foot; Jones, 54th Foot; Mason, 51st Foot; Vansittart, 63rd Foot; Willmer, 65th Foot; Deane, 67th Foot; Goate, 81st Foot; and Cook, 89th Foot.

The undermentioned officers are about to retire from the Madras Staff Corps, viz.—Brevet Cols. J. E. Mayne, W. Weldon, T. Neild, and C. E. J. Skottowe, from Nov. 2, and C. C. Mason from Nov. 29.

Capt. C. Wodehouse, Bombay S.C., has been appointed private secretary to Sir P. Wodehouse, Governor of Bombay, vice Capt. W. Lee Warner, resigned.

The following officers have returned to duty from leave in England:—Lieut.-Cols. C. W. R. Chester, Bengal S.C., assistant adjutant-general, Allahabad Division, and J. Johnstone, Bengal Infantry, 2nd Grade assistant commissioner, Kamrup, Assam; Majors J. Stewart, Royal Artillery, superintendent, Harness and Saddlery Factory, Cawnpore, and C. V. Conway-Gordon, Bengal S.C., assistant adjutant-general, Hyderabad Contingent; Capt. E. F. Cambier, Royal Artillery, commandant, No. 3 Horse Light Field Battery, Hyderabad Contingent, and Surg. A. S. Lethbridge, M.D., superintendent, Bhagalpur Central Jail.

The following promotions have been made in the Madras S.C., subject to her Majesty's approval:—2nd Madras Light Cavalry—Major W. C. Clarke to be lieut.-col., Nov. 30, 1876; Capt. and Brevet Lieut.-Col. R. St. J. Prendergast, to be major, Nov. 30, 1876, vice Stainforth, promoted. 3rd Madras Light Cavalry—Major C. H. Abdy, to be lieut.-col.; Capt. F. L. Magniac to be major, Nov. 30, 1876, vice Clarke, promoted and removed. 4th Madras Light Cavalry—Major and Brevet Lieut.-Col. W. J. Morris to be lieut.-col.; Capt. and Brevet Major C. S. Steward to be major, Nov. 30, 1876, vice Abdy, promoted and removed.

The Mutiny Act and Articles of War for 1876 will come into force in India on Jan. 1, 1877, as provided in Section 108 of the said Mutiny Act.

Capt. H. B. Sanderson, Bengal S.C., cantonment magistrates Allahabad, has passed the examination qualifying for the Judge Advocate-General's Department.

Lieut.-Col. C. W. R. Chester, assist. adjt.-gen., Bengal S.C., recently returned to India from furlough, has been posted to the Meerut Division.

Brigdr.-Gen. T. Wright, C.B. commanding Hyderabad Contingent, has been appointed Lay Trustee of the Chaplaincy of Bolarum; Col. G. C. Finlay, Madras S.C., Lay Trustee of the Church at Quilon, vice Col. Stevens; and Col. E. J. Lawder, Madras S.C., Lay Trustee of St. John's Church, Secunderabad, vice Major-Gen. H. W. Blake, retired.

Writing from Rawul Pindee on the 1st ult., the *Times of India* says:—"The Commander-in-Chief is expected here in a few days, when we shall know something definite about the measures contemplated in connection with the Afridis; at present all that is known is that an expedition will be sent against them in January next, in which several of the regiments in this station and Peshawur will take part."

The following order has been issued:—"With reference to paras. 13 and 15 Horse Guards G. O. No. 16, 1876, commanding officers are recommended to commence the annual course of judging distance practice, which may now be carried out separately from the target practice, on any days during the rains or otherwise when the weather is cool enough, without reference to the time for executing target practice. Should it be found difficult to carry out the judging distance practice of officers separately, as required by para. 15, it may be dispensed with; the cause of such suspension is, however, to be explained when forwarding the annual return."

The propriety of remodelling the fortifications of Aden was taken a few years ago into serious consideration. Col. Sir W. F. D. Jervois drew up a report, which lay some time before the Government; and at last, in November, 1875, the fortification works were actually started. By the end of the financial year a temporary battery, with magazines, &c., for four 9-inch muzzle-loading rifled guns, had been built at West Cliff, another temporary battery for two guns of the same kind at Seera Hill. Part of the Ras Morbut Fort had been altered to hold two heavy rifled guns, and the adaptations of the Ras Tarshyne Fort to the remaining two guns was nearly finished. In every case the Secretary of State had not yet supplied the racers. The same kind of neglect, says our Allahabad contemporary, had been shown about the tiles for the new guard-room at the Main Pass Gate.

A SOLDIER SOVEREIGN.

The *Times* correspondent at Berlin telegraphed on the 31st ult.:—

To-morrow the German Emperor, who will be an octogenarian three months hence, celebrates the seventieth anniversary of his entering the Prussian Army. He was appointed ensign Jan. 1, 1807, at Konigsberg, whither his parents had gone when the French occupied Berlin. Six years later the Prince, meanwhile promoted to a lieutenancy, fought his first battle at Leipsic, when the power of Napoleon I. was broken. He subsequently distinguished himself in the battle of Bar sur Aube, on Feb. 27, 1814, and, after the fall of Paris, returned home as major, decorated with the Iron Cross of Prussia and the Russian Order of St. George. His Majesty's second campaign occurred in 1849, when he was appointed to the command of the Prussian troops in the South, and scattered the Revolutionary Army assembled in the Grand Duchy of Baden. After the capitulation of Rastadt, his Majesty, who then bore the title of Prince of Prussia, received the *Ordre pour la Merite*, the highest military decoration in this country. His Majesty, who was created Regent in Nov., 1858, and ascended the Throne Jan. 2, 1861, has carried on three wars during his reign. In the Danish war of 1864 his army gained the battles of Düppel, Alsen, and Missunde, fought ten victorious engagements, and took forty-seven colours and 219 cannon. In the Austrian war of 1866 fifteen battles and twenty-four engagements were recorded. Except one, all were victorious. Thirteen colours and 208 guns were captured in this brief but decisive campaign. The French war of 1870-71 brought on thirty-four battles and forty-three engagements, nearly all victorious, the trophies consisting of ninety-four colours and 3,300 cannon. These great successes were not obtained without a considerable increase of the troops. Of the 148 regiments of Infantry, ninety-three regiments of Cavalry, and fifty-one regiments of Artillery now forming the German Army, fifty-two regiments of Infantry and twenty-nine regiments of Cavalry were organized by or at the instigation of the present Monarch.

The same correspondent telegraphed on the 1st inst.:—

New Year's Day being the seventieth anniversary of the commencement of the Emperor William's military career, his Majesty held a reception of all the commanding officers of the German Army. The Crown Prince, congratulating the Emperor on the occasion, addressed him in a speech in which he described his Majesty as the type of all soldierly virtues and the creator of the military organization which had contributed to once more firmly consolidate Prussia for the purpose of raising Germany to her former greatness. Ten years ago, on a similar occasion, his Majesty had received the congratulations of the Army and people of Prussia, but to-day it was the Army and the united races of Germany that paid him honour as a victorious general and her restorer. A retrospective glance at the commencement of his military career recalled times of the most profound distress, but it also brought to their memory the restoration which had come at last, and deeds which in the history of the world would ever be inseparably united with the name of the Emperor William. The German Army, firmly united for the defence of the Fatherland, was the guardian of freedom and unity; and since the introduction by the Emperor of the organization which had enabled the Prussian Army to fulfil its mission it had become in the last terrible war the common property of the nation. As in those anxious days, when a hostile attack was threatening, the German princes and people had flocked round the King willing and eager to fight to the death under his leadership until the German Empire rose again in new splendour and the hereditary Imperial Crown was presented to his Majesty on the field of battle, so to-day the German people, firmly united and prepared for defence, were inspired by ardent wishes for the preservation and protection of peace. The Emperor William delivered the following reply:—If all the gentlemen whose presence here to-day affords me especial pleasure agree with the sentiments expressed by my son, I may esteem myself all the more happy, and I first tender you my thanks on that account. When I look back upon the day when I entered the Army I cannot but remember the state of affairs which then existed, and, therefore, from the moment when my father's hand led me into the Army, and throughout my life up to the pleasurable occasion afforded me to-day my first thought has been to give humble thanks to the Arbiter of our destinies. My position has led to the greater part of my life being devoted to the Army. My gratitude is consequently due to all those who have accompanied me in my military career and seconded my efforts. I always remember them with pleasure. I have to thank the valour, devotion, and constancy of the Army for the position which I now occupy. From Fehrbellin to the last gloriously-ended war, the deeds of the Brandenburg-Prussian Army are enrolled imperishably in the annals of the world's history. Prussia has become what she is chiefly through the Army. I beg those who represent the Army in my presence to-day to convey to all those whom they represent my personal thanks, which they well merit, as I have been able to convince myself for a long time past of the sentiments and spirit by which the Army is animated—a spirit which, in conjunction with that of the German troops, has been successful in creating a united Germany and a united Army.

The *Morning Post* is informed that the occasion was taken advantage of to present his Imperial Majesty with a very valuable "sword of honour." The sword was made by Messrs. Sy and Wagner, of Berlin, after a design by Herr A. Wagner. The hilt, the scabbard, and the belt and chain are of massive gold. The ornaments are in the Romanic style of the 13th century, the emblematical figures introduced purely classical. The hilt is of considerable thickness, just capable of being grasped. It has on either side a niche lined with blue enamel, and setting off the figures of "Germania" and "Borussia" placed within them. Nearer the top end are four medallions representing emblematically the four cardinal virtues—Strength, with a club and a bull; Justice, with balance and sword; Perseverance, with a stone wall; and Magnanimity, with a lion. The figures are designed by Calendrelli. The pommel is embellished on either side with the triangle emitting rays of light, symbolical of the eye of God; the rays are represented by strings of brilliants. The scabbard is gold fretwork and crimson velvet; the metal work, which is solid gold, representing garlands of laurel leaves. The blade is of the best Damascus steel, manufactured at Solingen. The names of the twenty-six battles in which the Emperor has taken part are engraved upon it, surrounded by laurel wreaths. The belt and chain are embellished with figures of knights and dragons set off by blue enamel.

The *Morning Post* says:—"Princes Frederick William and Henry of Prussia, both grandsons of Queen Victoria, are about to pass their examination of 'maturity' before quitting the gymnasium of Cassel, in the present month. The princes on this account left Berlin immediately after the Emperor's *fête*. Prince Frederick William, the elder of the two, is about to serve with the 'body company' of the 1st Prussian Regiment of Foot Guards, in order to make himself practically acquainted with military service. The Prince will be stationed at Potsdam. He is to have a separate establishment. Prince Henry, being destined for the Naval Service, is about to pass through a course of instruction at the Naval Academy at Kiel."

Previous to the departure of the Crocodile for Bombay, says the *Times*, the recently-appointed Committee on Troop Baggage took the opportunity on Thursday week of going over the ship at Portsmouth in company with Lieut.-Col. Lord William Seymour, Assist. Qrmr.-Gen., and Major Lascelles, Depty. Assit. Qrmr.-Gen. of the Southern District, and took evidence on the subject of these inquiries. The committee consists of Col. Elkington, 6th Foot, chairman; Assist. Comy.-Gen. Robinson, Horse Guards; and Commander Brownlow, of the Transport Department; and they are empowered to investigate the whole question of military baggage in connection with the Indian troop service. Under existing arrangements a general is allowed to embark 40 cwt. of personal baggage; a lieut.-gen. and a major-gen., 36 cwt.; a brigadier-gen. and a Staff col., 30 cwt.; a col. of Artillery, 25 cwt.; a col. of Engineers, 27 cwt.; a lieut.-col. on the Staff, 20 cwt.; a lieut.-col. of Cavalry, Artillery, or Infantry, 18 cwt.; a lieut.-col. of Engineers, 20 cwt.; a major on the Staff, 18 cwt.; of Engineers, 17 cwt.; of Cavalry, Artillery, or Infantry, 15 cwt.; a capt. on the Staff, or belonging to the Engineers, 12 cwt.; of Cavalry, Artillery, and Infantry, 10 cwt.; the baggage allowed to lieutenants, sub-lieutenants, doctors, quartermasters, and other officers being in accordance with their rank. It is also made a condition that each cwt. of baggage must be packed so as not to exceed five cubic feet in measurement, the regulation limit of weights and capacity not being alternative. It frequently happens, however, notwithstanding the stringency of the standing order, that when an officer's baggage is forwarded to Portsmouth for embarkation there is no space for its accommodation, and he is compelled to leave his effects on the dockyard jetty until they can be sent after him. This is a cause of great personal inconvenience, and the object of the committee is to ascertain whether the present allowance of baggage is excessive, and in the event of its not being too large whether it can be better disposed of on board, or whether the number of troops embarking should be reduced. They are required to define generally what constitutes the regulated personal baggage and military equipment of officers' and sergeants' messes; to recommend any alteration in the size and shape of the packages containing articles which are likely to prove advantageous, and particularly with a view to their stowage on board ship; to suggest means by which the sea measurement of the packages could be recorded on them for the guidance of the officers at the port of embarkation; and to report generally on the question of troop baggage. They are empowered to meet occasionally at Aldershot, Portsmouth, and London; and should any of their recommendations involve expenditure, either on the part of regiments or the public, the committee are ordered to annex an approximate estimate to their report.

Lieut.-Gen. A. C. Errington, who has been gazetted to the colonelcy of the 85th Regiment, served with the 51st during the war in Burmah from April to December, 1852, and was on board the East India Company's steam-sloop Sesostris during the naval action and destruction of the enemy's stockades on the Rangoon River; served during the succeeding three days' operations in the vicinity, and commanded the regiment at the storm and capture of Rangoon; he also commanded the troops engaged at the assault and capture of Bassein, May 19 (wounded), and received the special approbation of the Governor-General in Council for his services upon this occasion (medal with clasp and brevet of lieut.-col.) He joined the Army Feb. 4, 1826, and became a general officer April 9, 1868.

The *Whitehall Review* says:—"Much annoyance is being caused by reason of a report that all medical officers are forthwith to be withdrawn from their regiments and to be placed on the Staff establishment of the Army Medical Department. From commanding officers downwards, one hears nothing but complaints in regard to the working of the regulations promulgated in 1873. Now that the system inaugurated at that time is to be extended, it is expected that the condemnation of the present arrangements will assume a tangible form, and that unification, the failure of which is placed beyond dispute, will have to give way to the old regimental system, the return to which will be hailed with satisfaction throughout the entire Army, but by none more than by poor 'Tommy Atkins,' whose treatment under the existing system is deserving of the severest censure."

"Sphinx," writing in the *Times of India*, says:—"Very many officers are, I see, memorializing the Marquis of Salisbury on the subject of the rate at which furlough pay is to be given in England. As the matter stands at present, officers who took furlough under the 1868 rules before July 1, 1871, will be paid at the rate of two shillings the rupee; those who took furlough after that date will be paid according to the rate of exchange fixed by the Secretary of State for the year during which they may happen to be at home. This curious order will, I am sure, be cancelled and all officers placed on the same footing, but every officer concerned should lose no time in memorializing."

EPPS'S COCOA.—GRATEFUL AND COMFORTING.—"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.* Made Simply with Boiling Water or Milk.—Sold only in Packets labelled—"JAMES EPPS & Co. Homœopathic Chemists, London."

ASSISTANT-PAYMASTERS, R.N.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—The writer of a letter signed "Old Piercy" treats the grievances of the above-named officers in a somewhat jocose manner. As one of the class myself, I can see nothing in their treatment to make merry about; on the contrary, I think it reflects lasting disgrace on the Admiralty. And as I am of your opinion that something must be done in time, I venture to propose the following as a solution of the difficulty there is at present in deciding what the "something" should be. Rank: Assistant-paymasters, after five years' seniority, to rank with lieutenant under eight years' seniority; surgeons, chief engineers, &c., to be ward-room officers, with respect to choice of cabins, &c.; their widows to have pensions, and in every respect they should be placed on the same footing as officers of equivalent ranks in the other branches. Pay: Under two years' seniority, 6s. per day; under five years, 7s. 6d.; under seven, 9s.; after seven, 10s. The pay of assistant-paymasters in charge to remain as at present, but these officers, no matter what their seniority may be, to rank with lieutenants, &c. Retirement: All assistant-paymasters who may reach the age of thirty-two without being promoted to be compulsorily retired on the full pay of their rank. All paymasters, secretaries, &c., to be compulsorily retired at fifty-five. College, &c.: A number of assistant-paymasters, not exceeding ten, to be allowed to go through a course of study at the Royal Naval College at Greenwich, in order to prepare themselves for interpreters, and to study naval law. They would not, however, be confined to these subjects, and certificates should be granted to them if they pass a creditable examination, the same as it is to officers of other branches. In putting forward this scheme for consideration in your valuable paper, I do not wish it to be inferred that I am in any way the spokesman of the class to which I belong. The suggestions are entirely my own, and I invite expressions of opinion on them from others of my own class. There is one thing very certain, Sir, and that is that assistant-paymasters do not find the Navy such an El Dorado that they will much longer submit to have their just claims overlooked and themselves snubbed and slighted when they venture to propose any settlement of them. Many of them will, I have no doubt, like myself, retire to a more genial atmosphere, and look back upon the days spent in her Majesty's Service as the most miserable period of their existence.—Yours truly,

ONE WHO DOES NOT BELIEVE IN THE ADMIRALTY.

THE SPIRIT RATION.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—The effects of the extreme cold on the human constitution have been much discussed since the return of the late Arctic Expedition, and I think it is the duty of everyone who has experienced the extremes of heat and cold to give his ideas as to the means of enduring them with impunity, and without loss of health. It is said the abstainers from spirits held out well during the great trials of endurance with the sledges on the Polar ice. I found in North America and in Russia entire abstinence from alcoholic drinks was the safest plan in winter. Deer-hunting in the Canadian forests and sleeping out in a temperature of 52° below freezing-point was not pleasant, but we had no frost-bites with tea, and not grog, as our drink. Again, when sent a prisoner to St. Petersburg in January, 1830, after being with the Russian fleet in the Black Sea and the army of Diebitch, and confined in the north fort of Sebastopol (I was suspected of being an emissary of the British Government), I was not frost-bitten as an abstainer, though the soldiers of the Guard, drinking vodki spirits, were constantly frost-bitten. Lastly, in the extremes of heat in India, in the interior of Africa, and exploring in the blackfly-infested American woods, avoiding spirits we avoided suffering. This is my experience. A word on scurvy. I have seen on board of American whalers, and on the West Coast of Africa, the captains give slices of raw potatoes to their men for scurvy. This treatment soon changes their white gums to a natural colour.—I am, Sir, yours obediently,

J. E. ALEXANDER, Major-General.

Jan. 1, 1877.

THE EXPERIMENTS AT SPEZZIA.

The more recent series of experiments with the Italian great gun seem to have established some important facts. It is now placed beyond doubt that a given thickness of armour offers greater resistance when solid than if divided into plates with wooden layers between them. A 2,000lb. shot, fired from the 100-ton gun, with an initial velocity of 1,050ft. a second, penetrated nearly 31in. into a sandwich target, composed of an outside plate 12in. thick, a wooden layer of 12in., and an inner plate 10in. in thickness. But when fired under precisely the same conditions against a solid plate of 22in. in thickness, it only penetrated 15·6in. Omitting the wooden layer from consideration, the shot overcame nearly 19in. of iron in the first experiment, and no more than 15·6in. in the second. From this it seems safe to infer that, other things being equal, solid armour opposes more effectual resistance to projectiles than the sandwich pattern. Another fact of some importance was proved by accident. Owing to a fresh wind, the pontoon on which the great gun was fixed oscillated considerably, and one shot, instead of striking the centre of the target, hit it on the lower edge, and at once broke in pieces. Its destructive power had not, however, ceased. The fragments were deflected downwards from the true line of fire, and made an immense hole in the ground under the target. This shows what would result if an ironclad happened to be struck by a monster projectile on the lower edge of her armour band. The shot, turned downwards from its initial direction, would tear its way through the unfortunate ship from side to side below water mark, and her sinking could be but a question of so many minutes, more or less. It might be as well if experiments were carried on against targets immersed in deep water to the same depth as the armour of the heavier class of our ironclads. It would be both interesting and useful to know whether a shot striking the water close to the vessel would be at once deflected upwards. Should this not take place, there would be every probability of such a result as happened from the accident at Spezzia.—*Globe.*

FOREIGN MILITARY.

The military contributor of the *Cologne Gazette* reviews the different stages to which warlike preparations have matured in the countries most directly interested in the present political crisis, and, on comparing them, comes to the conclusion that while Turkey is so well prepared as to force a reluctant but unqualified admission of the fact even from the lips of its adverse critics in Russia, the northern empire, whose hostility has called forth those armaments, is most inadequately provided for a serious struggle. The precautionary measures taken by England are, the writer considers, far more to the purpose. From this circumstance he apprehends that, were war really to break out, England would not under all circumstances remain neutral. Turkey is supposed to have 644,512 men ready for war. Russia has three divisions of her Caucasian army mobilised, numbering, probably, 48 battalions—that is, 960 officers and 48,668 men. It is not known what is the strength of the Artillery, the Cavalry, and the Engineer force of this army, nor of the four battalions of Caucasian Rifles, and of any irregular troops attached to it or held in reserve. There is, in truth, so much vagueness apparent in the newspaper statement about this force, which is to grapple with the Turks in Asia Minor, that it would be rash to form or to accept any estimate of its strength. The Russian Army of the South ought to number 216,000 men, with 49,000 horses and 648 guns. But of that force only 144,000 men, with 32,800 horses and 432 guns, could be available for active operations abroad. It is evident that this army, now in its full strength, is insufficient to cope with the more numerous Turkish force in its own country. Austria has three army corps of 30,000 men each ready to march. Roumania disposes of a force of 32 000 men and 96 guns, the efficiency of which it is impossible to estimate. The same remark must apply to the contingents of Servia and Montenegro, on which no Russian general could at present place much reliance.

The *Eastern Budget's* Bucharest correspondent says that thirty men in each company of the Regular Army, and fifteen in each of the Reserve, have been granted a ten days' furlough to enable them to assist in tilling the fields, the country districts having been almost entirely deprived of their able-bodied male inhabitants in consequence of the mobilisation ordered by the Roumanian Government.

Capt. F. C. Gavegan, 49th Regt., writes from Portsmouth:—"During the annual course of musketry this year a man of my company made the astonishing score at 600 yards (ten rounds) of thirty-eight points, viz.—first eight shots, bull's-eyes; ninth shot, an outer; tenth shot, bull's-eye. I should feel obliged by your giving this publicity, as some of our musketry instructors may furnish a similar instance of good shooting for general information."

BIRTH.

BOXER.—Jan. 3, at 3, Redcliffe Street, South Kensington, the wife of Captain Charles R. Fox Boxer, R.N., of a son.

MARRIAGE.

GRAHAM.—RAMOS.—Tuesday, Dec. 5, at the Parish Church, Kingston, Jamaica, by the Rev. G. Downer, Lionel Frederick Graham, Assistant Commissary Ordnance Department, to Susie, youngest daughter of Mathew Ramos, Esq., Kingston, Jamaica.

DEATH.

HARRIS.—Nov. 28, at Rawul Pindee, Lieut. William Harris, of the 21st Punjaub Native Infantry, late of the 37th Regt., second son of the late Major-General Philip Harris, aged 27 years. Beloved by all who knew him.

Advertisements.

THEATRE ROYAL DRURY LANE.—Every evening, THE FORTY THIEVES. The Vokes Family. Premiere danseuse, Mdlle. Bossi. Double Harlequinade: Clowns, C. Lauri and F. Evans. Preceded by BOX AND COX. Prices from 6d. to £4 4s. Doors open at 6.30. Commence at 7. Box Office open from 10 till 5 daily. MORNING PERFORMANCES every MONDAY, WEDNESDAY. and SATURDAY. Doors open at 1.30. Commence at 2. Children and schools admitted at half price to all parts of the house, upper gallery excepted.

ROYAL POLYTECHNIC.—Entire change of Entertainment. HYLDEMOER, a Fairy Story, with a ghost effect. COLT'S NEW GOVERNMENT ARMY REVOLVER,

after a severe competitive trial by the U. S. Ordnance Department in 1873 and 1876, has been exclusively adopted by the United States Government, and the whole of the United States Cavalry is now armed with them. It is now made to take the English Government Boxer cartridge. Length of barrel 5½ and 7½ inches.

In the trial of 1869, advertised by another maker, the Colt's pistol used was a muzzle-loader adapted to the use of metallic cartridges, which pistol has not been made or sold after that year.

COLT'S NEW 41-CAL. FIVE-SHOT DERINGER REVOLVER,

Depôt at Messrs. REILLY AND CO.,
3, RUE SCRIBE, PARIS.

ROYAL NAVAL BENEVOLENT SOCIETY.—The next GENERAL QUARTERLY COURT of this Corporation will be held at WILLIS'S ROOMS, King Street, St. James's, London, on MONDAY, the 15th January, 1877, at 12 o'clock precisely. Offices, 18, Adam Street, Adelphi, W.C. J. WAGSTAFFE, R.N., Secretary.

HULL SEAMEN AND GENERAL ORPHAN ASYLUM, Spring Bank, Hull.—WANTED, as ORGANIZING AGENT and to assist the Hon. Secretary, a gentleman of energetic habits and good address. He must be a member of the Church of England, and it would be a recommendation to have been in the Navy or Mercantile Marine. Applications, stating age, qualifications, and salary expected, to be sent to the undersigned on or before the 10th Jan., 1877.

R. MIDDLEMISS, Hon. Sec.
11, Parliament Street, Hull.

THE SOLDIERS' DAUGHTERS' HOME, Hampstead. Instituted 8th March, 1855.
Chairman—
Major-General J. T. Boileau, R.E., F.R.S.
Inmates, 178; vacant beds, 22; candidates, 110.

Owing to the loss, by death, of several of the largest annual subscribers, and to the great falling in donations, the funds are at present unequal to support the increased number of girls (26) who have been added to the Foundation during the last two years.

Further aid is earnestly solicited to meet the increased call upon the funds. Remittances to be made to C. R. Low, Esq., Secretary, No. 7, Whitehall, London, S.W. A guinea yearly gives 1 vote; five guineas, 2 votes for life.

ASSISTANT ENGINEERS FOR HER MAJESTY'S NAVY.

My Lords Commissioners of the Admiralty, having decided to offer twenty vacancies for 2nd Class Assistant Engineers in her Majesty's Navy to be competed for,

NOTICE IS HEREBY GIVEN that a COMPETITIVE EXAMINATION for the above mentioned vacancies will be held on MONDAY, 22nd January, 1877, at the Royal Naval College, Greenwich.

Candidates will have to produce certificates of at least five years servitude in a factory, one year of which must have been in a well-known establishment for the manufacture of marine engines, and of their practical abilities as mechanics, as well as testimonials of character and good conduct. The certificates must state that they are at least fair workmen. Age to be not less than 21 or more than 25 years on the first day of the examination.

For further particulars apply, by letter only, to the Secretary of the Admiralty, Whitehall, London. No application to be permitted to compete will be considered after 15th January, 1877.

WILLS' BEST BIRD'S-EYE.

This Tobacco is now put up in
ONE OUNCE PACKETS
in addition to the other sizes, the Label being a reduced fac-simile of that used for the Two-Ounce Packets.

W. D. & H. O. WILLS, Holborn Viaduct, London, E.C., and Bristol.

NAVAL CADETS, ASSISTANT CLERKS, HOPE HOUSE, SOMERSET-PLACE, SOUTHSEA.

Principal—Mr. T. H. VICKERY.

In addition to the general course of study pursued at this long-established School, pupils are specially prepared for the examination required for the above.

At the competitive examination in November, 1875, and at the recent examination in June, of candidates for Assistant Clerkships, all the pupils sent up from this Establishment were successful.

TRURO SCHOOL. Founded A.D. 1549.—Special preparation of a limited number for Woolwich, the Line, Navy, and Cooper's Hill. Five experienced and energetic resident masters in mathematics and geometrical drawing, the classics, and English, French, science, and German; besides visiting masters in drawing and English composition.

NAVAL CADETSHIPS, &c. "EASTMAN'S" R.N. ACADEMY, SOUTHSEA. Principal, G. EASTCOTT SPICKERNELL, since 1860.

At the last two Naval Cadet Examinations pupils took the first place.

More than 1,000 pupils have entered H.M. Service. For every information address the Principal, Burgoyne House, Burgoyne Road, of late called Eastern Parade.

THE GRANGE, W. COWES.—The Rev. ARTHUR WATSON, M.A., Graduate in Honours, Second Scholar and Prizeman of Caius College, Cambridge, having carried on his school for 12 years at Egypt House, has recently built the above residence, and has now more accommodation for pupils, who are prepared for the Public Schools, Universities, Naval Examinations, &c. All his naval candidates have passed into the Britannia. This June candidates took the 4th and 12th places.

NEWTON COLLEGE, S. DEVON.—President of Council, EARL of DEVON.—This College is for gentlemen's sons only, on very moderate terms. Officer's nomination, £60 per annum. One Woolwich Scholarship of £20 per annum open this Christmas. Candidates under 15. Papers forwarded January 1st to boys' homes. The situation is healthy and elevated; gravel soil; good cricket ground; racquet and fives court, &c. Apply, Rev. G. TOWNSEND WARNER, Head Master.

MALVERN COLLEGE.

The First Term for 1877 will begin on MONDAY, JANUARY 29th.

ARCHDEACON JOHNSON'S SCHOOL, OAKHAM. Founded 1581.

First class MODERN SCHOOL, with classical departments. Exhibitions of £50 a-year each for boys preparing for Army or Navy examinations. Other exhibitions, direct or preferential, of £20, £35, and £45 a-year, to the annual value of £1,000.

Laboratory, library, fives courts, cricket field. Terms very moderate. Address, Rev. Head Master.

ROYAL MILITARY ACADEMY, Woolwich, Cooper's Hill College, or First Appointments to the Cavalry and Infantry.

MR. MULCASTER, F.R.A.S., prepares gentlemen for the above competitive examinations. During a period of nine years, Mr. Mulcaster has passed 117 gentlemen into the Service; his pupils have repeatedly taken first place in mathematics, and in each of the above examinations have been first in the list of successful candidates.

Of Militia candidates, thirteen have been sent up for examination, and only one has failed.

36 and 37, Woolwich Common, S.E.,
December 18th, 1876.

SCHOOL SHIP "CONWAY," LIVERPOOL, established for training young gentlemen with a view to their becoming officers in the Mercantile Marine. Terms, 50 guineas per annum, including uniform and all other extras. The sons of Officers of the Navy and Mercantile Marine are received at the reduced rate of 40 guineas.

Quarter days when Pupils can be admitted:—Feb. 1, April 10, Aug. 1, and Oct. 10.

Apply to Captain E. B. H. FRANKLIN, R.N., Rock Ferry, Birkenhead.

LITTLE ST. JOHN'S, Hurstpierpoint, in connection with St. Nicolas College, Lancing, and St John's College, Hurstpierpoint, is established with the sanction and under the inspection of the Provost and Fellows of St. Nicolas College, for the education of little boys from six years of age preparatory to their entering either of the above, or other public schools. For particulars apply to the Lady Principal, Little St. John's, Ditching, Hurstpierpoint, Sussex. Boys are prepared to pass the examination for Naval Cadets.

SHOOTER'S HILL PREPARATORY MILITARY SCHOOL, 1, Brunswick Villas, S.E., under the direction of THOS. JONES, F.G.S., F.R.A.S., formerly Assistant-Master in Stony Stratford Grammar School, and in the Woolwich and Oxford Military Colleges.

MILITIA.—A Captain in a Metropolitan Regiment desires an EXCHANGE or TRANSFER to a Southern County. A. B., care of Messrs. Smith and Sons, West Croydon Station.

RUPTURES (BY ROYAL LETTERS PATENT)

WHITE'S MOC-MAIN LEVER TRUSS is allowed by upwards of 200 medical gentlemen to be the most effective invention for the curative treatment of hernia. The use of a steel spring, so often hurtful in its effects, is here avoided, a soft bandage being worn round the body, while the requisite resisting power is supplied by the MOC-MAIN PAD and PATENT LEVER, fitting with so much ease and closeness that it cannot be detected, and may be worn during sleep. A descriptive circular may be had, and the Truss (which cannot fail to fit) forwarded by post, on the circumference of the body, two inches below the hips, being sent to the manufacturer,

MR. WHITE, 228, PICCADILLY, LONDON.

Price of a single truss, 16s., 21s., 26s. 6d., and 31s. 6d.; post free. Double ditto, 31s. 6d., 42s., and 52s. 6d.; post free. An umbilical ditto, 42s. and 52s. 6d.; post free. Post-Office Orders to be made payable to JOHN WHITE, Post Office, Piccadilly. Every description of RIDING BELTS, ELASTIC STOCKINGS to draw on, and ELASTIC SILK SUSPENDERS, on new and improved principles.

JOHN WHITE, Manufacturer, 228, Piccadilly London,

CABINET EDITION.

MR. KINGLAKE'S HISTORY

Wholesale only at the Company's Offices,

8, BUCKLERSBURY, E.C.

And to be had Retail and in Cartridges from most respectable Dealers.

THE PERFECT SUBSTITUTE FOR SILVER.—The REAL NICKEL SILVER introduced more than thirty years ago by WILLIAM S. BURTON, when plated by the patent process of Messrs. Elkington and Co., is the best article next to silver that can be used as such, either usefully or ornamentally, as by no test can it be distinguished from real silver.

Patterns.	Fiddle or Old Silver	Bead or Thread	King's or Shell.
	£ s. d.	£ s. d.	£ s. d.
Table Forks or Spoons, per doz.	1 10 .	2 1 .	2 5 .
Dessert do., per doz.	1 2 .	1 9 .	1 11 .
Tea Spoons	. 14 .	1 . .	1 2 .

These are as strongly plated, and in every respect equal to what other houses are selling as their first quality at very much higher prices.

A second quality of Fiddle Pattern:—Table Spoons and Forks, 23s. per doz.; Dessert, 17s. per doz.; Tea Spoons, 12s. per doz.

Tea and Coffee Sets, from £3 15s. to £25; Dish Covers, from £9 to £26 the set of four; Corner Dishes, from £7 10s. to £18 18s. the set of four; Warmers, £7 2s. 6d. to £15 15s.; Biscuit Boxes, 14s. to £5 10s.; Cruet and Liquor Frames, &c., at proportionate prices.

The largest stock in existence of Plated Dessert Knives and Forks, and Fish-eating Knives and Forks, and Carvers.

All kinds of re-plating done by the patent process

WILLIAM S. BURTON, General Furnishing Ironmonger, by appointment to H.R.H. the Prince of Wales, sends a Catalogue, containing upwards of 850 Illustrations of his unrivalled Stock, with Lists of Prices and Plans of the 30 large Show-Rooms, free.—39, Oxford-street, W.; 1, 1A, 2, 3, and 4, Newman-street; 4, 5, and 6, Perry's-place; and 1, Newman-yard; Manufactories, 84, Newman-street and Newman Mews, London, W. The cost of delivering goods to any part of the United Kingdom is trifling. WILLIAM S. BURTON will always undertake delivery at a small fixed rate.

HOLLOWAY'S PILLS.—This medicine has been constantly increasing in public estimation for many years, and is now acknowledged to be the most wonderful remedy in the world. It acts directly on the system, removes all obstructions from the stomach, tempers the springs of life, purifies the blood, and totally eradicates liver complaint (that mainspring of so many diseases), indigestion, loss of appetite, pain in the side, &c. It is also a remedy on which the asthmatic may place the greatest dependence, the debilitated the greater reliance, that they will therefore obtain perfect restoration to health. These Pills maintain functional regularity, and, as a consequence, dispel low spirits common to human nature at all ages in untoward circumstances.

ESTABLISHED 1864.

TIMEWELL,
SPECIAL TAILOR & MILITARY OUTFITTER TO GENTLEMEN WHO REQUIRE NO CREDIT
8, SACKVILLE STREET,
PICCADILLY, LONDON, W.

A large private trade of highest class and character, yielding to its patrons the full advantages o their position.

E. LAZENBY and SON'S PICKLES, Sauces, and Condiments—E. Lazenby & Son, sole proprietors of the celebrated receipts and manufacturers of the pickles, sauces, and condiments so long and favourably distinguished by their name, beg to remind the public that every article prepared by them is guaranteed as entirely unadulterated.—92, Wigmore Street, Cavendish Square (late 6, Edward's Street, Portman Square), and 18, Trinity Street, London, S.E.

HARVEY'S SAUCE.—CAUTION.—The admirers of this celebrated sauce are particularly requested to observe that each bottle prepared by E. LAZENBY and SON bears the label used so many years, signed, "Elizabeth Lazenby.'

In consequence of Spurious Imitations of

LEA and PERRINS' SAUCE, which are calculated to deceive the Public, LEA and PERRINS have adopted A NEW LABEL, bearing their Signature—

LEA AND PERRINS,
which signature is placed on every bottle of
WORCESTERSHIRE SAUCE,

and without which none is genuine.

Sold Wholesale by the Proprietors, Worcester. Crosse and Blackwell, London; and Export Oilmen generally.

Retail, by dealers in Sauces throughout the World.

COCKS' READING SAUCE is the best and most economical Sauce ever manufactured for FISH, ENRICHING SOUPS, GRAVIES, &c. It only requires a trial to convince the purchaser of its excellence.

CAUTION.—The genuine is protected by Trade Mark, viz., CHARLES COCKS' Signature on a white ground across the Reading Arms.

Finest Meat-Flavouring Stock for Soups, Made-Dishes, and Sauces. Caution.—Genuine ONLY with facsimile of Baron Liebig's signature across Label.

HENRY BRETT and CO., Holborn, London.—LIQUEUR GINGER BRANDY, a fine stomachic; good for indigestion; corrective after bathing; agreeable with aërated waters; invaluable for the flask of sportsman, tourist, or traveller. Of most merchants. 45s. per doz. Trade mark Negro's Head.

FALKNER'S "REAL MALT" WHISKEY.

The same as supplied to the principal Clubs and Regimental Messes. Has been esteemed in Ireland for the last century as the FINEST IRISH WHISKEY procurable, being pure as distilled, and refined by age only.

LONDON, 40, CHARING CROSS.
DUBLIN, 83, GRAFTON STREET.

KINAHAN'S LL WHISKY.

KINAHAN & Co. finding that, through the recommendation of the Medical Profession, the demand for their CELEBRATED OLD LL WHISKY for purely medicinal purposes is very great, submit with pleasure the following ANALYSIS by DR. HASSALL:—

"I have very carefully and fully analysed Samples of this well-known and popular Whisky. The samples were soft and mellow to the taste, aromatic and ethereal to the smell. The Whisky must be pronounced to be pure, well-matured, and of very excellent quality. The medical Profession may feel full confidence in the purity and quality of this Whisky." 20, GT. TITCHFIELD ST., LONDON, W

LANE'S PRIVATE HOTEL (Nos. 1, 2, and 3, ST. ALBAN'S PLACE, CHARLES STREET, St. James's, S.W.), for Officers in the Army and Navy, Members of Clubs, and others. Most eligibly situated in the immediate vicinity of the principal Club Houses. Gentlemen requiring sleeping accommodation only, are respectfully informed every attention will be paid to their comfort and convenience. A trustworthy porter in attendance all night.

LIEBIG'S INVIGORATIVE NERVINE ESSENCE.—The most scientifically prepared and most powerfully nutritive cordial ever introduced, restoring to their normal condition the secretions, on the integrity of which perfect health depends. It is a specific for debility, and from its containing, among other ingredients, PEPSINE and PHOSPHATE of SODA, will prove highly beneficial to the nervous and dyspeptic. Price, 8s. per bottle, or four quantities in one, 24s. Sole agents—The English and Foreign Pharmacy, late Schoenemann and Co., No. 8, Cullum Street, Fenchurch Street, City. MISS THOMPSON'S PICTURES.

THE ROLL CALL.
QUATRE BRAS.
BALACLAVA.

THE ROLL CALL is now at the Engraver's. The Artist's Proofs of the Engraving, which will shortly be published, are all subscribed for, but other Proofs can still be obtained.

QUATRE BRAS is now on exhibition at Edinburgh. The list of subscriptions for Artist's Proofs is now closed.

BALACLAVA is now on exhibition at Huddersfield.

PRICES OF PROOFS:—

Roll Call and Quatre Bras.—Artist's Proofs, £26 5s., all sold.

Roll Call.—Before letters, £15 15s.; India, £10 10s.

Balaclava.—Artist's Proofs, £15 15s.

Quatre Bras and Balaclava.—Before letters, £10 10s.; India, £7 7s.

Prints of each picture, £5 5s.

Subscriptions received by the Publishers,
THE FINE ART SOCIETY, LIMITED,
148, NEW BOND STREET, LONDON.

RODRIGUES.—MONOGRAMS, ARMS, CRESTS, and ADDRESSES Designed, and Steel Dies Engraved as Gems.

RUSTIC, GROTESQUE, and ECCENTRIC MONOGRAMS artistically designed for any combination of letters.

NOTE PAPER and ENVELOPES stamped in colour, relief, and brilliantly illuminated in gold, silver, and colours, in the highest style of art.

A VISITING CARD-PLATE, ELEGANTLY ENGRAVED, and 100 SUPERFINE CARDS PRINTED for 4s. 6d.

BAND CARDS, BALL PROGRAMMES, and DINNER CARTES of new designs arranged, printed, and stamped with Arms, Crests, or Address in the latest fashion.

At HENRY RODRIGUES', Heraldic Stationer to the Royal Family, 42, PICCADILLY, LONDON, W

JUNIOR ARMY AND NAVY CLUB.

At an extraordinary general meeting of this Club, held at the Club House, Grafton Street, on the 28th inst., Sir Norman Pringle, Bart., presiding, it was moved by the chairman, seconded by Major-General Hunter, and resolved—That the Club should cease to be conducted on the proprietary system, and should become a members' Club, with effect from the 1st January, 1877.

The entrance fee is ten guineas; the annual subscription is seven guineas.

The entrance fee will remain as at present until a limited number of new members have been elected, when it will be raised.

Members joining during the remainder of the year will not be called upon for their subscription till the 1st January next, when the annual subscription for 1877 will become due.

Membership of this Club is restricted to commissioned officers of the Regular Army, Royal Navy, Royal Marines, and Royal Indian Forces, and those who may have retired from the same.

By order of the Committee,
R. J. FYERS, Secretary.
28th October, 1876.

WANDERERS' CLUB

PALL MALL.

Members joining this Club on and after the 15th December will be admitted on payment of ONE-HALF the Annual Subscription, which extends to the 1st May, 1877.

At a Meeting of the Committee held on the 20th November, Lord Brougham and Vaux in the Chair, the Report stated that since the issue of the Annual Report in May last, 160 New Members had joined the Club, and that the total strength is now 1,302, as follows:—

Town Members	426
Country Members	663
Officers on Foreign Service	104
Members Resident Abroad	109
	1,302

There now remain about 200 vacancies to fill up, when the strength of the Club will be completed, and the Entrance Fee, which is now Ten Guineas, will then be raised.

The Annual Subscription is—

Town Members	Eight Guineas.
Country Members	Four Guineas.
Officers on Foreign Service	One Guinea.
All members resident abroad	Two Guineas.

For all further information, address to
Major T. H. P. KENNAN, Secretary.
Pall Mall, S.W.

UNITED MILITARY AND NAVAL CLUB,

for gentlemen who hold or have held her Majesty's Commission in the Army, Navy, Royal Marines, or Auxiliary Forces. Annual Subscription for original members, two guineas, without entrance fee; officers on foreign service, one guinea. Temporary premises, with use of reading, writing, and dining-room, have been taken at 17, St. James's Place, St. James's Street, S.W., where prospectus, &c., can be obtained.

THE ENGLISH CLUB, PARIS.

HALF-YEARLY MEETING.

The regular Half-Yearly Meeting of the Members of the English Club took place at the Club House, No 3 bis, Chaussée d'Antin, Paris, on Saturday, the 16th of December, Colonel Johnston (of the United Service Club) in the chair.

The Manager's Report stated that up to this date there were five hundred and twenty-three Members belonging to the Club; that relations had been established with sixty seven London, Provincial, and Colonial Clubs; that since the last regular meeting additional accommodation had been secured, and that a second billiard-room, with an English billiard table, had been added; and, further, the Proprietors were so encouraged by the success which had attended the Club, that they had the intention of building a new Club House for the Members. Plans of a proposed building were then submitted to the meeting.

The Chairman, in his address, expressed his high satisfaction at the manner in which the different arrangements towards the comfort of the Members had been carried out, adding that, taking into consideration the present standing and prosperous condition of the Club, he had pleasure in moving the following resolution:—

Resolved, that the Entrance Fee and Annual Subscription of new members be increased, on and after the 1st of March next, to:—

Resident Members, £10 Entrance and £5 Subscription; Foreign and Country Members, £3 Entrance and £3 Subscription.

As requested by the Proprietors.

The Meeting terminated with a vote of thanks to the Chairman and Manager.

B. J. FERDINANDO, Secretary.

ARMY MEDICAL DEPARTMENT,
1st January, 1877.

AN EXAMINATION of CANDIDATES for COMMISSIONS in the MEDICAL DEPARTMENT

of her Majesty's ARMY will be held in London on the 12th February, 1877, and following days:—

1. Candidates having two qualifications—one to practice medicine, and the other surgery—under the Medical Act, and who are not under 21 nor above 32 years of age at the date of the London examination, are eligible to attend.

2. Those gentlemen who may be selected for appointment will receive £250 per annum and allowances in addition, after passing the examination at the Army Medical School at Netley.

3. The tenure of appointment will be limited to ten years, and on the completion of that period of commissioned service, surgeons, unless they be specially selected for further employment in the Department, will be entitled to receive, in lieu of all pension on retirement (pension for wounds excepted) the sum of £1000.

4. Application for admission to the examination should be made in writing, without delay, to the Director-General of the Army Medical Department, London, by whom a printed schedule containing further particulars will be furnished.

5. There will be 50 appointments offered for competition.

(Signed) W. M. MUIR, Director-General.

EMANUEL,

3, THE HARD, PORTSEA,

By appointment to H.R.H. the Duke of Clarence, 1827; H.R.H. the Duke of Edinburgh, 1872.

LOOKING back over the past year many an officer of the Naval Service cannot but be filled with a feeling of bitter disappointment that the expectations of 1876 have been so generally unfulfilled. As regards the executive, there is, perhaps, not much to complain of, for, governed as the Navy is, by that class, it would be strange if that line did not meet with due attention. The Order in Council of August, 1875, framed so as to ensure a reasonable amount of promotion, has been carried out in its entirety, but no other branch has ever been so fortunate as to share in such special privilege. But even such—shall we call it favouritism?—has its disadvantages, for those who lean this way scarcely know where to stop. Seven Rear-Admirals have been added to the list, although there were but three actual vacancies; but these promotions have been made in accordance with strict seniority. It is, however, quite another matter as regards the promotions to the Captains' List. Of those which occurred before December 31 last, only one or two bear an unmistakable appearance of anything like favour. The majority have been advanced for special services, such as the Malay war, the Challenger, and Arctic Expeditions, and some on account of the Royal visit to India. But why their Lordships should deem it necessary to go seventy-two down on the Commanders' List in order to find one worthy of promotion at the end of the year is a question for which it would be difficult to find an answer satisfactory either to the Service or the public. The Navy is too well aware that in acting thus, many good and deserving Commanders have been passed over, and such a system of selection, unaccompanied by discretion, or indeed by a proper sense of justice, is not likely to encourage the Service or lead to a feeling of confidence in the Admiralty. There is but one opinion, and that is that the action of the Admiralty in this matter cannot be considered just. We regret exceedingly that this should be so, for we have believed that it had hitherto been the aim of the Admiralty to act in all fairness to the Service, but to see selection carried to the extent of favouritism is enough to shake the faith of the warmest admirers of the present Board. And now to turn to the other branches. The navigating officers have witnessed and felt the great change with which their line has been so long threatened. That all of them have not received that which they expected is true enough; but, on the other hand, some have benefitted to a greater extent than they anticipated. In this case the standing rule of the Service has been reversed, for it is the seniors who have gone to the wall, while the juniors have gained by amalgamation with the executive. Thus it has happened that many a navigating officer has lived to see himself become junior to those of his own line who were in the nursery when he entered the Navy. Still it was a most difficult question to deal with, and partial amalgamation necessarily led to some unpleasant results to those who could not well be included in the scheme. The medical officers gained so much by the regulations issued at the end of 1875, that possibly there was little left for them to expect in the past year. With the Paymasters, however, the state of affairs is very different, for they have been hoping for "something to be done" for so many years that they have almost given up indulging in any expectations. No additional or intermediate rank has been instituted as in other branches, but this line alone remains confined to two grades. The junior Assistant-Paymaster of 1875 is to be congratulated in having actually advanced twenty places during the whole year, and should fortune favour him, it is just possible that he may become a real Paymaster somewhere about 1890. He will then be a staid, middle-aged man, and their Lordships will doubtless have every confidence in giving him the supreme charge of some small gun-vessel suited to the junior Paymaster. With the Royal Marines, too, things are in just as melancholy a state, with the exception that they have actually been listened to, and have engaged the attention of Parliament. Yet throughout the whole year there have been no more than half-a-dozen subalterns promoted in the Light Infantry, and No. 131 of December, 1875, stands No. 123 in December, 1876. This is progress indeed. It can scarcely be supposed that the expectations of this branch of the Naval Service have been fulfilled, and we believe that, like the Assistant-Paymasters, the Marines are thoroughly weary of anticipating any change for the better after the many long years they have vainly believed that "something must be done." To compare the "Navy List" just published with that of January, 1876, is a mournful occupation for officers of these two branches in particular, for they find they have by no means kept pace with time. Age is gradually coming upon them, and they neither see any prospect of reaching the higher grades of the Service, or of earning a sufficient retirement when compulsorily shelved. And there is yet another class which has been on the tiptoe of expectation for months past, and still sees no sign of its fulfilment. The Engineers have had their case referred to a commitee; the report has been made to their Lordships; everything seemed ripe for execution. But "things are not what they seem," and nothing is done—unless it be the Engineers. All this is not satisfactory, and it would appear that either the Navy expects too much, or the Admiralty does too little. We think we have shown by the position of juniors at the end of 1875 with their present places on their lists that they cannot be accused of needlessly looking to the Admiralty for some help out of their difficulty. But if some should yet imagine that all these officers had a right to expect has been fulfilled, we would ask whether it can possibly be believed that they would ever have entered the Service had they known the many years of junior service, with its accompanying drawbacks, that awaited them? There can be but one answer, and we sincerely trust that at the close of the present year it may not be our duty to call attention to such a long list of unfulfilled expectations.

Great attention has for several years past been paid in India to musketry instruction. In England a vague and pretentious theory has subsided into a very mechanical practice. In India, on the contrary, musketry instruction, while daily becoming more practical, is rapidly assuming the position of a science. One of the most important features in the case is the introduction of a system of "field firing" as a substitute for "range skirmishing." "Field firing" consists of employing all the troops at a station in the attack on strange ground, and at unknown ranges an enemy represented by dummies and screens placed as they would be on active service. The assailants are also as far as possible to observe the conditions to which they would in action be compelled to submit. It is impossible to reproduce on the practice-ground all the conditions of actual combat, but every endeavour has in India been made to bring about as close an approximation as is practicable. The results of the different experiments which preceded the institution of the new system, therefore, though valuable up to a certain point, cannot be considered as conclusive. Of the experiments in question, Colonel Gordon, Chief Inspector of Musketry in India, writes a very able review. The chief advantage of the "field firing" is that—to use Colonel Gordon's own words—"it will increase the attention of officers generally, especially of those of the more responsible grades, to the best mode of developing and controlling the fire of large bodies of men, which the blank firing of ordinary parades has failed to do." Hitherto, officers have been contented if their men, with careful aim and a just estimate of distance, fired at any good object in their front. Colonel Gordon points out the importance of concentrating fire, obliquing it, and making use of curved fire. By the concentration of fire, Colonel Gordon is of opinion that a direct attack would be much facilitated, and we venture to assert that his idea is perfectly sound. He gives several instances in support of his views. At Rawul Pindee, in 1874, forty Infantry firing at 800 yards' distance made 30 hits on the concealed gunners of two field pieces. In the following year similar experiments, though under circumstances more unfavourable for the defence, were made. The guns fired at were placed behind the crest of a hill on one occasion, and in pits on another, the gunners in both cases representing men on their knees. The limbers, drivers, horses, and waggons were not represented. On the first occasion the ranges were 800 and 700 yards, and the percentage of hits was ·87; on the second occasion the ranges were 750 and 600 yards, and the percentage of hits was ·43. As Colonel Gordon remarks, 200 Infantry soldiers firing for ten minutes would have inflicted in the first case 87, and in the second 43 hits. In short, a battery of six guns would in either case have been silenced. In the same year Sir Charles Reid, by oblique Infantry fire, struck all the dummies representing gunners in pits. At Rawul Pindee, also, in 1875, the firing of 60 men at 800 and 700 yards destroyed all the gunners of three guns placed behind the crest of a hill in ten minutes, 15 men being struck by 22 bullets. At Jubbulpore 15 marksmen of the 1st Battalion 11th Regiment, firing 20 rounds each obliquely at 770 yards at a gun in a gun-pit, placed 28 hits on the five targets representing the gunners. We might cite other instances of the effect of musketry on Artillery, but it must be borne in mind that the men were not exhausted by a long march, or out of breath from a rapid advance; and, above all, the Artillery was not firing at them. Few, very few, even of the bravest men can aim as steadily and deliberately when shells are bursting around them and bullets striking down comrades as when no danger is incurred. Hence, experiments such as those which we have cited are much less valuable than they at first sight seem to be. The experiments near Delhi at the commencement of last year were conducted in as practical a manner as possible, and the dummies and screens which represented the defenders were so well posted on and behind the crest of a strong position that the assailants had some difficulty in distinguishing the objects to be fired at. The ground was strange, the ranges unknown and undetermined beforehand. The Artillery opened fire at various distances, the greatest being 1,800 yards, but these were gradually diminished. The Infantry attack was divided into three stages, the first from 900 or 1,000 yards to 600 yards, the second from 600 to 300 yards, and the third from 300 yards close up to the position. The Artillery percentage of hits at all stages was 19·8. The percentage of Infantry hits to rounds was—First stage, 1·57; second stage, 4·74; third stage, 8·97. The above results induce Colonel Gordon to observe that the present practice of employing in the first stage of Infantry fire a thin line of skirmishers is faulty. He considers that more effect should be given to Infantry fire at long ranges, "when the troops can fire with comparatively little loss, and can be more easily reinforced and supplied with ammunition." He points out that Artillery can co-operate in the first stage, and that only at long ranges can Infantry curved fire be employed to strike troops under cover behind a crest. In support of his views he also quotes Von Scherff. He likewise remarks that during the Delhi experiments the proportion of hits from Artillery to hits from Infantry was—Artillery 19·8 per cent., and Infantry 80·2. At Gravelotte, as he reminds us, the French made an unusually free use of their Artillery. The Prussians owed 94 per cent. of their loss to Infantry fire, 5 per cent. to Artillery fire, and 1 per cent. to cold steel. From these facts he concludes that Infantry is far more effective than Artillery fire, and considers that "the power of Infantry fire is not properly applied if it does not compel Artillery to be withdrawn at the distance of 1,000 yards, unless under conditions of ground peculiarly favourable to the latter; and it has been shown that even batteries in gun-pits, or concealed by the crest of a hill, if not silenced, would, at all events, very severely suffer from a concentrated fire of a couple of companies of well-directed riflemen in the very first stage of a battle."

We regret to find the Admiralty are once more very much behindhand in providing ships for relief on foreign stations. The following men-of-war have not only completed three years' service abroad, but no arrangements, except in two cases, have been made either for their recommissioning or for others to supply their places, viz.:—Argus, 6 guns, paddle-wheel sloop, West Indies; Cracker, 4 guns; Beacon, 4 guns, screw gun-vessel, Brazil; Philomel, 3 guns, screw gun-vessel, East Indies; Spiteful, 6 guns, paddle-wheel sloop, West Coast of Africa; Charybdis, 17 guns, screw-corvette, China; Fantôme, 4 guns, screw-sloop, Pacific; Amethyst, 14 guns, screw-corvette, Pacific; and the Encounter, 14 guns, and Eclipse, 12 guns, screw-corvettes, West Indies—all these vessels were commissioned during 1873. The following ships were placed in commission in 1874, and, were there any system at all at the Admiralty, should look for their relief during the course of the present year:—Modeste, 14 guns, screw-corvette, China, commissioned in January, 1874; Albatross, 4 guns, screw-sloop, Pacific, commissioned in February; Flying Fish, 4 guns, screw-sloop, commissioned in June for the East Indies; Bullfinch, 3 guns, screw gun-vessel, West Indies, and Volage, 18 guns, screw-corvette, Brazils, commissioned in July; Sappho, 4 guns, screw sloop, Australia, and Dryad, 9 guns, screw-sloop, West Indies, commissioned in August; Daring, 4 guns, screw-sloop, Pacific, commissioned in September; and Egeria, 4 guns, screw-sloop, China, commissioned in November. In addition, the iron-clads Hercules and Monarch, now in the Mediterranean, will both require new boilers and extensive refit during the ensuing summer.

The gold medal of the Royal United Service Institution will this year be awarded to the writer of a prize essay on a naval subject. The following is the form in which the subject is to be treated, as arranged by the Council:—"Great Britain's maritime power: how best developed as regards—First. Fighting ships. Second. Protection of commerce. Third. Naval Volunteer, or supplemental force. Fourth. Colonial and home defence: the classes, armament, and description of the vessels needed, and the organization required to secure a powerful and economic Imperial naval force."

The Squadron on the East Coast of Africa is to be permanently strengthened by the addition of a composite gunboat. This decision has been arrived at on the report of the commanding officer of the London, that the efficiency of that ship for checking the traffic in slaves would be materially increased if she were provided with a sea-going tender. Anxious to leave nothing undone that might tend to totally abolish the slave-carrying trade, their Lordships at once determined to comply with this suggestion, and we believe the Merlin is likely to be selected for this service.

We regret to hear of the death by accident of Lieutenant E. B. Wallace, of the Minotaur. This unfortunate officer was killed while in the execution of his duty by the falling of a spar from aloft.

"Across Africa"—the narrative of Commander Cameron's journey from the East to the West Coast—will, we believe, be published on Wednesday next.

As we conjectured would be the case, the threatened difficulty which arose through the premature exhaustion of the dockyard wages vote has been overcome. There will be no "wholesale discharges" from the Royal dockyards, for, seeing that the money had been spent owing to a demand altogether unexpected at the time when the Estimates were framed and laid before Parliament, the Treasury has fallen in with the view taken by the Admiralty, and has sanctioned further expenditure necessary to keep the established hands at work until the end of the financial year. Portsmouth is the only home yard that has any need of this additional assistance, as the greater portion of the equipment of ships for the Mediterranean was thrown upon that port; but Malta has felt the strain considerably. We believe that the supplementary expenditure approved by the Treasury is about £20,000, and of that amount nearly one-half will be required by Malta.

We stated recently that the misconduct of an Acting Sub-Lieutenant while studying at the Royal Naval College resulted in his dismissal from the Service. Since that course was taken their Lordships have been induced to reconsider their determination, and they have sanctioned the return of this officer to the Active List, but with the loss of seniority.

The Geographical Society of Lisbon has conferred its gold medal upon Commander V. L. Cameron, C.B.

A case of scarlet fever having appeared on board the Helicon, her crew has been landed and placed in temporary quarters at French Creek, while the ship has undergone painting and fumigating.

Captain John C. Soady, who has been awarded the Good Service Pension of £150 per annum, vice Rear-Admiral Foley, on promotion, has fully twenty-one years' sea-time as a commissioned officer. It is probable that he will hold this pension for the next four years, as, according to the present arrangements, it is not likely that he will be advanced to flag rank earlier than 1881.

The death of another officer occurred before the Fleet left Besika Bay, Mr. James, Engineer of the Hercules, having died on December 30.

We remarked last week, in alluding to the extraordinary escape of the three men of the Dromedary who were left to their fate after attempting to save a man who had fallen overboard, that the master of the vessel would probably be called upon for an explanation. This, we understand, has now been done, and the wisdom of lowering the dingy in such a sea, and thus risking the lives of three men in a vain effort to save that of one, is also called into question.

Staff-Commander G. Tomlin, who has been studying at the Royal Naval College, has, we hear, been permitted to withdraw at his own request.

Lieutenant Henry S. Lake, of the Danae, has been awarded the Beaufort Testimonial for 1876, he having obtained the highest marks at the Naval College through the whole year.

At the last examination at the Royal Naval College twelve Acting Sub-Lieutenants passed successfully, and have been confirmed in their rank.

The death is announced of Commander St. Leger Aldworth, who entered the Service in 1819 as a volunteer on board the Phaeton. He obtained his commission as Lieutenant in 1831, and was advanced to the rank of Commander in 1866.

Some of the inhabitants of Sheerness have begged Rear-Admiral the Hon. F. A. Foley to accept a slight testimonial as a mark of the esteem in which he is held at that port and a token of regret that his service there has now terminated.

We understand that her Majesty has presented his Serene Highness the Prince of Leiningen with a painting of the Royal yacht on his being promoted out of the command which he held for so very many years.

The "Scurvy Committee"—consisting of Admiral Sir James Hope, G.C.B. (Chairman); Admiral Sir R. Collinson, K.C.B.; Vice-Admiral E. A. Inglefield, C.B.; Dr. Donnet, R.N.; and Dr. Fraser—is sitting at 13, Delahay-street. Mr. Vansittart Neale, of the Admiralty, will act as Secretary.

Honours and promotions have lately been bestowed with an unsparing hand amongst the officers and men of our latest Arctic Expedition, and we think this may be a fitting moment to call attention to the services of a former Arctic voyager. We allude to Admiral E. J. Bird, who has made four Arctic and one Antarctic voyages, and was wrecked in the Fury. For fifteen years he served as Midshipman and Mate, and for another fifteen as Lieutenant, and now, at the age of seventy-eight years, is retired on 25s. a-day. He is the only surviving officer of those who reached 82 deg. 45 min. N, but, beyond his Arctic medal, he has neither decoration nor reward to mark his services. Cannot some Greenwich Hospital Pension be found available for this officer?

The Army seems to be systematically neglected in all distributions of the Star of India, and the rule was not departed from on the occasion of the proclamation of her Majesty as Empress. It is true that some half-dozen or so officers came in for the Third Class of the Order, but these were all, or almost all, rewarded for purely civil services. There appears to be a want of harmony with facts in thus ignoring military achievements, seeing that the Empire of India has been won and is retained entirely by the sword. Yet, both as regards the bestowal of decorations and precedence, steel is invariably slighted unless in the shape of a pen. Withdraw our troops, and all the minute-writers in Government employ would not be able to maintain our rule for three months.

At the quarterly meeting of the Directors of the Naval Medical Compassionate Fund, held on the 9th inst., Dr. J. W. Johnston, Inspector-General, in the chair, the sum of £100 was distributed amongst the various claimants.

In another column we insert a letter in reference to the recent court-martial upon Sergeant Hill, of the Marines. From comments which have been made on the case in the daily papers, there seems to be a feeling that there has been a miscarriage of justice. We have satisfied ourselves, by reference to the prisoner's counsel, that the statements contained in the letter are "perfectly correct."

The *Gazette* of last night contained the following notice:—"The Queen has been pleased to direct Letters Patent to be passed under the Great Seal of the United Kingdom of Great Britain and Ireland constituting and appointing the Right Honourable George Ward Hunt; Admiral Sir Hastings Reginald Yelverton, G.C.B.; Rear-Admiral Arthur William Acland Hood, C.B.; Rear-Admiral Richard James Meade (commonly called Lord Gilford); and Sir Lopes Massey Lopes, Bart., to be her Majesty's Commissioners for executing the office of Lord High Admiral of the said United Kingdom of Great Britain and Ireland, and the Dominions, Islands, and Territories thereunto belonging."

Captain H.R.H. the Duke of Edinburgh has been pleased to appoint the Rev. William V. Lloyd, M.A., R.N., now serving on board the Sultan, to be Chaplain in Ordinary to his Royal Highness.

The following are the names of the committee appointed by the Admiralty to inquire into the cause of the outbreak of scurvy in the recent Arctic Expedition:—Admiral Sir James Hope, G.C.B. (president); Admiral Sir R. Collinson, K.C.B.; Vice-Admiral E. A. Inglefield, C.B.; Dr. James Donnet, Inspector of Hospitals, R.N.; Dr. F. R. Fraser, F.R.S.E. Mr. Vansittart Neale has been appointed secretary. The committee commenced its sittings on Thursday.

The Good Service Pension of £150 a-year, vacant by the promotion of Captain the Hon. F. Foley to the rank of Rear-Admiral, has been conferred on Captain J. C. Soady.

The announcement made at the Delhi Durbar, regarding the officers of the Native Army, possesses a deep significance, and we shall await with some anxiety further information on the subject. We are told that in future all officers attached to Native regiments will, if appointed to the military or personal Staff, be seconded and retained on the rolls of their corps, still preserving their claims to regimental promotion. It is possible—nay, probable—that the intention of Government may be to create a purely regimental system, and also either to diminish the number of the Staff Corps, or to abolish that misnamed body altogether. That promotion will in future go as a rule in regiments we think—judging from the above—likely. There is much to be said both for and against such a change. Against it is the fact that regimental promotion and promotion by merit are incompatible. On the other hand, the advantage of avoiding constant changes and of creating a permanent tie between officers and men is so great as to outweigh almost every other consideration. As regards the Staff Corps, there would seem to be no reason for retaining that cumbrous expedient if all military officers performing purely military functions are to be borne on the rolls of some regiment. As to the host of military officers in civil employ and semi-civil departments, the sooner they are required to choose between the sword and the pen the better. Nothing can be more ridiculous and objectionable than a host of Generals and Colonels who, after the first year or two of their service, have never worn uniform or done a single day's soldier's duty.

Some weeks ago we drew attention to the prevailing dissatisfaction in the Commissariat and Transport Department, and it is to be hoped that military and other members in the House will interest themselves to obtain for the department such consideration of their grievances as has been granted to other branches of the Service. The more it is considered, the more evident it must be to all that it is of the first importance to have an efficient Commissariat. As the department exists, nearly all the senior officers—representatives of the late department—have their grievances, whilst the juniors, in addition to being dissatisfied with their present position, have a quite hopeless prospect before them. Would not such a state of things very materially affect the efficiency of any branch of the Service? Such being the state of the Commissariat and Transport Department, every effort should be made to remedy it. In reply to Sir Henry Havelock at the end of last Session, the Secretary of State said that pending the Report of a committee on the reorganization of the department the grievances must stand over. That committee has, it seems, reported, but so far its recommendations have not been published, and it is rumoured they will not be acted upon. There is the probability that when, on the assembly of the House, Sir Henry Havelock and others renew their questions, the reply will be that the Report is still under consideration. If so, we think that the appointment of a committee of General officers, as suggested in our former number, should be pressed, for if the grievances are not dealt with, reorganization of a dissatisfied material will be but aggravating them; and, moreover, we understand that in the department there is a strong feeling that little consideration will be obtained from any committee within the War Office. From that source their grievances have emanated. They naturally do not look there for the cure.

The letter of an "Army Schoolmaster," appearing elsewhere, gives particulars of a hardship which steps ought at once to be taken to remove. Whilst these unfair distinctions are permitted, it is in the nature of things that there will be discontent. If either body of schoolmasters deserves liberal treatment, it is certainly that which has earned its position through the legitimate channel, and the favouring of the civilian is an injustice such as ought not on any account to be allowed.

Lieutenant N. J. A. Coghill, 24th Regiment, has been appointed Acting Aide-de-Camp to Lieutenant-General Sir A. A. T. Cunynghame, K.C.B., at the Cape of Good Hope, vice Lieutenant E H. Studdy, 32nd Light Infantry, who has reverted to regimental duty.

The War Office has refused to entertain the applications of Adjutants of Auxiliary Forces who have requested an extension of their terms of appointment, on the expiration of their five years. Only in the most exceptional cases will the ordinary rule be set aside.

The appointment of Head of the Statistical Branch of the Army Medical Department, Whitehall-yard, which has been open since the retirement of Surgeon-General W. Rutherford, M.D., C.B., has been accepted by Deputy Surgeon-General J. Irvine, M.D. Dr. Irvine served throughout the operations with Havelock's column in 1857 in medical charge of the Royal Artillery (Maude's), including the actions of Futtehpore, Aoung, Pandoo Nuddee, Cawnpore, Oonoo, Busserut Gunge, Mungawarra, and Alumbagh; relief and defence of the Residency at Lucknow (mentioned in despatches); with Outram's Force in the Alumbagh, from November, 1857, to March, 1858, and at the siege and capture of Lucknow by Lord Clyde (medal with two clasps). He joined the Army March 15, 1850; became Surgeon, October 2, 1857; Surgeon-Major, November 16, 1860; and Deputy Surgeon-General, November 8, 1876.

Lieutenant T. M. G. Thackeray, 1st West India Regiment, has been appointed Fort-Adjutant at Sierra Leone, vice Lieutenant T. Bell, of the same regiment.

Major-General R. C. H. Taylor, C.B., has been appointed a Commissioner of the Royal Military Asylum, Chelsea.

The whole of the unattached Sub-Lieutenants studying at the Royal Military College, Sandhurst, numbering over two hundred, are, we are pleased to hear, about to be appointed to regiments, their names having already been struck off the books of the Military College. What glad news this will be to many a hard-worked subaltern, and what satisfaction will the announcement occasion to painstaking commanding officers who have been vigorously opposed to the Sub-Lieutenancy system from the very first!

Assistant Commissary-General A. C. Molony, lately employed in Woolwich Arsenal, has been appointed to the charge of the Ordnance Department in the South-Eastern District, vice Deputy Commissary-General H. H. Scott, transferred to Devonport.

The following appointments and transfers have been sanctioned among the Quartermasters of Sub-Districts, viz.:—Quartermasters T. M. Chadwick, from 8th Foot to 24th Brigade Depôt, Cardiff; J. R. Atkins, from 11th Foot to 34th Brigade Depôt, Exeter; A. Macqueen, from 98th Foot to 37th Brigade Depôt, Bristol; T. Muir, from half pay to 31st Brigade Depôt, Great Yarmouth; A. Yeatts, from 31st Brigade Depôt to 45th Brigade Depôt, Canterbury; and E. C. Hicks, 1st Royal Cheshire Militia, from 59th Brigade Depôt to 48th Brigade Depôt, Guildford.

Surgeon-Major W. S. Oliver, who has just arrived in England from Nova Scotia with the 1st Battalion 60th Rifles, attended at the Horse Guards on Thursday by order and exhibited his new magazine equipment to his Royal Highness the Field-Marshal Commanding-in-Chief. His Royal Highness—who was attended by Lieutenant-General Sir Charles Ellice, Lieutenant-Colonel T. D. Baker, and Lieutenant-Colonel H. G. Deedes—expressed himself so well satisfied as to the merits of the invention that he expressed to Dr. Oliver his intention of ordering the equipment to be at once issued for trial, with a view of reports being drawn up as to its adaptability to our Army.

Colonel C. K. Pearson, 3rd Buffs, has been appointed to the command of the troops on the eastern frontier of the Cape of Good Hope, vice Lieutenant-Colonel J. Edmonstoune, 32nd Light Infantry, proceeding to England.

Staff Veterinary-Surgeon T. P. Gudgin, from the Curragh, has been appointed Principal Veterinary-Surgeon at Aldershot, the duties of which appointment have been temporarily fulfilled by Veterinary-Surgeon R. W. Murray, Army Service Corps, since the death of Mr. Varley.

What is the meaning of the intended absorption of some 180 Second Lieutenants? We are told that it will be the accompaniment of a change of organization. Is it possible that Mr. Hardy has overcome the opposition of the Horse Guards and resolved on adopting either Captain Keays-Young's or General Herbert's scheme for a more economical and tactically efficient regimental organization? If no change of a similar nature is intended, the reduction in the number of officers will prove, we fear, sadly detrimental to the interests of the Army.

Major-General A. J. Herbert, C.B., who was appointed to the Dublin command from a brigade at Aldershot in April last, has expressed a wish to be transferred to an English district, and is understood to have set his eye on Devonport, which Lieutenant-General Smyth will vacate at the end of the financial year. At such a place as Devonport, where soldiers and sailors are brought constantly in contact, it is most important to have a popular commander as well as one who will display hospitality. The character General Herbert bears in both these respects will go far to recommend him.

There were on the 1st instant no fewer than forty-one Militia Captains who had left their Line regiments for the Half-Pay List, under the conditions framed by Lord Cardwell, with a view of producing a friendly understanding between the Regular Army and its auxiliaries. Has the desired object been attained? We should imagine not, judging by the complaints not alone of the Militiamen, but of the Captains too, whom the regulations are intended specially to benefit. Lord Cardwell hoped to please both, but he would seem to have satisfied neither.

Notwithstanding the indignation with which the recent Royal Warrant was received, the majority of Militia medical officers are expressing themselves desirous of joining the department into which it is the intention to pass those who are willing to continue their services. In some few instances we are sorry to hear that the new arrangement means utter ruin. This is in the case of officers who have devoted themselves entirely to their military duties, and who are now too old to compete for private practice. In theory the new system is defensible enough; most reforms are. We doubt, though, whether the new system will work as smoothly as it is hoped it may do.

There can be no greater mistake than to allow invidious distinctions, and it would be an appreciable act were steps taken next Session for extending to the Ridingmasters, Veterinary-Surgeons, and Commissariat officers the privileges granted to Chaplains, Surgeons, and Paymasters in the matter of Distinguished Service Rewards. No wonder there are complaints; it would be strange were it otherwise. It is to us unaccountable that the anomaly should have remained so long without a remedy.

We continue to receive letters complaining of the hardship to which, it is said, senior subalterns have been subjected lately by reason of the large number of companies filled by transfers from the Half-Pay List. This grievance, we may state, is a purely sentimental one, and though much ill-feeling has been created, we are sure that this is the result of ignorance. It was last year decided to offer special retirement to all Militia Adjutants appointed under the old system. This was done for two reasons—first, because the localization arrangement rendered it desirable; and, secondly, in order that a means might be provided for restoring to full pay those many half-pay men who had been for years asking in vain to be brought into regiments. It may at first sight appear hard that old subalterns should have been disappointed of promotion. Yet we are not at all disposed to sympathise with the complainers, for to us it seems that the Horse Guards has acted with commendable fairness in not recognising exceptions to the general rule. Had it done so, there would have been grounds for complaint; but seeing that all have been treated alike, we cannot well understand how anybody should feel aggrieved. The abolition of the purchase system fell on none more heavily than on those officers who happened at the time to be in receipt of half pay, as it cut away from them all hope of their being able to make provision for themselves, it being distinctly laid down that exchanges between the Full and Half-Pay Lists were to cease. There was, therefore, but one hope—that extraordinary means might be adopted whereby those might be helped who had been forbidden to help themselves. The removal to the Supernumerary List of a number of Captains who were accepting Militia Adjutancies offered a favourable opportunity, and to a person who is able to take an unprejudiced view, we are convinced that, far from being unjust, the action of the military authorities in this matter will be considered highly commendable.

The Editor of the "Army List" will doubtless be able to furnish replies to the following: By what Royal Warrant is the King's Dragoon Guards to be deprived of its only Major, whilst all other Cavalry regiments are allowed one officer of the rank? In what gazette was the commission as Captain of Captain T. E. S. Hickman, 14th Hussars, antedated to the day upon which he was promoted to his Lieutenancy? What offence has Brevet Major Fairbrother, 19th Hussars, committed that he should have been robbed of fourteen years' seniority as a Captain? These questions are suggested by the December "Army List."

LIEUTENANTS' NAVAL PENSIONS.

The following is a slight summary of the services of those officers who were last week awarded Naval Pensions of £50 per annum:—

Commander R. E. Bullen became a Lieutenant in 1830, and was shortly afterwards appointed to the Columbine, in the West Indies, and then to the Hastings, flagship of Sir W. Hall Gage. He also served in the Dee, Madagascar, and Belvidera, on the North American and Mediterranean Stations. He was promoted to the rank of Commander in 1865.

Commander G. J. Burslem entered the Navy in 1823 as a volunteer, and obtained a medal for service on the coast of Portugal during the disturbances caused by Don Miguel. In December, 1826, he was serving in the Satellite, and received a severe injury from the natives of an island which he visited in search of deserters from Sydney. In 1829 he joined the Cruiser, and was actively engaged in the Swan River. He was then appointed to the Britomart, and served on the West Coast of Africa in suppressing the slave trade, and was engaged in a brush with the Appolonians. From this station he was invalided home, but returned to the Coast a year later in the Dolphin. He was promoted to Lieutenant in 1838, and was given the command of the Viper, on the Cape Station. He was afterwards employed on the Lisbon and Irish Stations, but a return of African fever compelled him to invalid. He obtained employment in the Coast-guard, and in 1875 was awarded a Coast-guard Pension, which he now holds.

Commander H. B. Davis obtained his Lieutenant's commission in 1838, and served on the Mediterranean and South American Stations. He afterwards accepted employment in the Coast-guard, and in 1873 was awarded a Coast-guard Pension.

Commander W. Royse entered the Navy in 1819 as a volunteer on board the Active, and served on the Mediterranean, North American, Cape, and Home Stations. He attained the rank of Lieutenant in 1829, and after some service afloat accepted charge of a Coast-guard station, and obtained a pension in that Service in 1871. He became Commander in 1862.

Commander Nelson Spencer passed his examination in 1846, and became Mate of the Brilliant in November of that year. On promotion to Lieutenant in 1847 he was appointed additional to the President, flag-ship of Admiral R. Dacres at the Cape. After further service as Lieutenant he became a Retired Commander in 1870.

The following is a programme of the lectures to be delivered at the Royal United Service Institution before Easter:—At 3 o'clock—Friday, Jan. 19 (Lieut.-Col. C. E. Howard Vincent, F.R.G.S., 40th Middlesex Rifle Volunteers, late 23rd Royal Welsh Fusiliers)—On "The Military Geography of European Turkey." Friday, Feb. 2 (Major-Gen. Sir Frederic J. Goldsmid, C.B., K.C.S.I.)—On "Islám from Constantinople to Calcutta." Friday, Feb. 9 (Major-Gen. T. B. Collinson, R.E.)—On "The present facilities for the invasion of England, and for the defence thereof." Part I. Friday, Feb. 16 (Major-Gen. T. B. Collinson, R.E.)—On "The present facilities for the invasion of England, and for the defence thereof." Part II. To be followed by a discussion. Friday, Feb. 23 (Lieut.-Col. C. B. Brackenbury, R.A., Assist. Adjt.-Gen., Superintending Officer of Garrison Instruction)—On "The value of systematic instruction in tactics for all ranks of the Army." To be followed by a discussion. Friday, March 2 (Donald Currie, Esq.)—On "Maritime Warfare: the importance to the British Empire of a complete system of telegraphs, coaling stations, and graving docks." To be followed by a discussion. Evening meetings at half-past 8 o'clock.—Monday, Jan. 15 (S. J. Mackie, Esq., M.I.C.E.)—On "Cotton Gunpowder." Monday, Jan. 29 (Rear-Admiral Jasper H. Selwyn)—On "Steam Fuel and Boilers." Monday, Feb. 12 (Major H. le G. Geary, R.A., Assist. Adjt.-Gen., Dublin)—On "The employment of boys in the Army." Monday, Feb. 26 (R. Griffiths, Esq., C.E.)—On "The application of the ordinary screw (or screws) to the discharge of water from leaks, &c.: also on a new form of vessel for war purposes." Monday, March 26 (Capt. Hamilton Geary, R.A., Captain Instructor, Royal Military Academy, Woolwich)—On "The combustion of fuel in steam boilers." The subject for the Naval Prize Essay of 1877 is "Great Britain's Maritime Power: how best developed as regards—1st, fighting ships; 2nd, protection of commerce; 3rd, Naval Volunteer, or supplemental force; 4th, colonial and home defence: the classes, armament, and description of the vessels needed, and the organization required to secure a powerful and economic imperial naval force."

The Army.

Royal Horse Guards. According to the *Whitehall Review*, "Letters have been received in London from Capt. Burnaby, who reached Kars on the 22nd ult., and intended to start almost immediately on his 2,000 miles' journey over the Persian frontier, and so on through parts of Beloochistan to India."

1st (Royal) Dragoons. "A Civilian," writing to us from Perth, says:—"In your issue of the 6th inst. you notice the rapid promotion of Lieut. Norton, 5th Lancers, to a troop in that regiment. Certainly Lieut. Norton has much reason to congratulate himself on his good fortune; but I write to call your attention to a case of even a more wonderful nature. Lieut. B. F. Tidwell, Royal Dragoons, was gazetted sub-lieut. Oct. 28, 1871, and I see from this year's 'Oliver and Boyd' that he has been promoted captain, thus gaining his troop in about five years. If every officer were promoted in this satisfactory way there would be more contentment in the commissioned ranks." Captain Maunsell is retiring from the Service.

3rd Hussars. The regiment is likely to complete its tour of Indian service in the Bombay Presidency, for in a private letter from a Staff officer at Calcutta we are told that "the removal of the 3rd from Mhow into Bengal next winter—1877-78—which some people suggest as probable, stands but small chance of being carried out, on account of the unnecessary expense which would be entailed." The regiment when it went out in 1868-69 relieved the 3rd Dragoon Guards at Ahmednuggur, and has only had one change since—to Mhow. Lieut. MacIvor has been appointed to do duty as musketry instr. in the absence of a properly qualified officer.

4th Hussars. Capt. Montague arrived home from India in H.M.S. Jumna on Saturday last on leave, on medical certificate.

7th Hussars. "Fifteen years ago," writes "An Old Hussar," "I left the regiment, then stationed at Umballa. At that time the following officers were holding commissions in it, viz.:—Brevet Col. Sir W. Russell, Bart.; Lieut.-Col. W. D. Bushe; Majors H. A. Trevelyan and the Hon. I. de V. T. W. Fiennes; Capts. D. P. Brown, J. Aytoun, T. H. Stisted, F. Garforth, Hon. A. H. A. Anson, R. Hale, J. Gore, A. E. Wilkinson, R. Shaw, and E. P. Baumgarten; Lieuts. R. Topham, H. J. Wilkin, J. B. Philipson, R. D. Steuart, Hon. W. Harbord, J. Mould (adjt.), C. H. Baillie, Hon. A. W. E. M. Herbert, H. O. Jolmes, W. E. Shaw, and A. L'E. H. Holmes; Cornets E. Metcalf, E. H. Kennard, R. Simmons, H. H. Wombwell, R. Masters, H. A. Bushman, G. E. Paget, F. M. Drew, J. Lawrence, and A. Jones; Paymr. G. Elliott, Qrmr. Borthwick, Rdgmr. Bray, Surg. H. Kendall, M.D., Assist.-Surgs. G. M. Slaughter and T. A. Thornhill, and Vet.-Surg. J. Barker. Of this number only two—Lieut.-Col. Hale and Capt. Drew—now hold rank in the regiment, but I am happy to find that in the 'Army List' the names still remain of many of those who were in the regiment when I left it. For instance, Col. Sir William Russell is on half pay of his rank, and is fast pressing forward for major-general. Lieut. Topham is now a major in the Bengal S.C., Lieut. Shaw commands a troop of the 16th Lancers, Lieut. Holmes is a captain in the Bengal S.C., Cornet Masters is on half pay, Cornet Bushman is a captain in the 9th Lancers, Paymr. Elliott is paymaster of the Brigade Depôt at Galway, Rdgmr. Bray is upon half pay, Surg. Kendall is deputy surgeon-general on the Bengal establishment, Assist.-Surg. Slaughter is surgeon-major on the Staff at Chatham, Assist.-Surg. Thornhill is surgeon on the Staff at Jamaica, Vet.-Surg. Barker is on half pay, whilst the names of Major Trevelyan, Capt. Wilkinson, and Lieut. Wilkin are included among the field officers who have retired by sale from the Army—Major Trevelyan having attained the rank of colonel, and Capt. Wilkinson and Lieut. Wilkin that of major. These facts will interest many an old 7th man; and, therefore, I feel assured you will find a corner for my letter somewhere in your columns."

12th Lancers. The establishment of the service troops on departure for India has been increased to 26 officers, 47 non-commissioned officers and trumpeters, and 408 rank and file; total, 481 of all ranks, with 436 horses, 2 officers, 62 men, and 20 horses being left at the depôt. Brevet Major Russell commands the depôt troop, having Lieut. Beck as his subaltern.

14th Hussars. Lieut. Heron-Maxwell arrived home from India on Saturday last in H.M.S. Jumna to join the depôt for two years.

16th Lancers. The head-quarters and service troops arrived at Portsmouth on Saturday last in H.M.S. Jumna from India, and have taken over quarters at Shorncliffe. The officers who came home with head-quarters were Lieut.-Col. Wilkinson, Major Whigham, Brevet Major Renshaw; Capts. Maillard and Graham; Lieuts. Wynter, Hill, M'Causland, Evetts, Chadwick, Taaffe, Howard, Blair, and Maudsley; Sub-Lieut. Beech, Rdgmr. Perry, Qrmr. O'Donnell, and Surg.-Major Innes, M.D. The regiment left Colchester for India July 1, 1865. Lieut. Wynter is obtaining his troop on the augmentatien of the regiment, having refused promotion by selection.

19th Hussars. "Retired" writes:—"The subalterns of the 20th have a by no means encouraging prospect before them, and whilst promotion is being given in many regiments to lieutenants of five years' service, an occasional selection might be made with advantage from the 20th. At the present moment there does not seem to be any chance of a vacancy in the senior ranks, so that hope of promotion regimentally is out of the question."

ROYAL ARTILLERY.

The following transfers have been made in India:—Vet.-Surg. J. Anderson, from A Brig. to B Brig. R.H.A., and Vet.-Surg. C. Phillips, from the 8th Brig. to the B Bat. 19th Brig.

We learn from the Indian papers that the sentence of the court-martial lately held at Nusseerabad on Major T. C. Fletcher, 4th Brig. (late Bombay), which has just been confirmed by the Commander-in-Chief, is, that Major Fletcher be cashiered and required to make good a sum of £1,800 1s. which he is held to have failed in accounting for.

Lieut. E. Cassan, 6th Brig., has passed the lower standard examination in Hindostanee.

Major G. J. Smart, 6th Brig., has been granted leave from India to England from Oct. 19 to April 18 next, on medical certificate.

Lieut. H. H. Pengree, 8th Brig., has been appointed to act as third class Commissary of Ordnance, and has been placed in charge of the Arsenal at Aden.

The *Madras Times* learns that "Col. R. Cadell, C.B., the Inspector-General of Ordnance and Magazines, will proceed to Burmah shortly, for the purpose of inspecting the ordnance departments at Rangoon, Thayetmyo, and Tonghoo."

Brevet Col. G. A. Wilkinson, B Brig. R.H.A., has been appointed to do duty at Meerut, and Lieut.-Col. S. H. E. Chamier, 11th Brig. (late Madras), at Barrackpore.

According to the *Bombay Gazette*, a carriage accident, that might have been attended with serious consequences, occurred at Poona on Dec. 10. Col. J. Worgan was being driven in a brougham from St. Paul's Church after evening service, when something startled the horse. The animal bolted at full gallop along the Lothian-road, turned down in front of Col. Merriman's house, and ultimately dashed into the compound of the Finance buildings, when he was stopped and brought back with the brougham to Col. Worgan's bungalow. The colonel had previously jumped out, and in doing so the wheel of the carriage passed over his leg and injured him rather severely. The coachman was thrown off the driving-box by the brougham coming into collision with a tree, and he is a good deal hurt.

The *Irish Times* says:—"There is a rumour that the service of Major-Gen. Lefroy, R.A., as Governor of Bermuda, will be marked by the Colonial Office offering the general further employment on his arrival in England in the spring. We have good authority for stating that Lord Carnarvon has no present intention of providing for Gen. Lefroy, and if he had, we believe he would experience difficulty in carrying his wishes into effect, owing to a want of opportunity. The ability Gen. Lefroy has manifested since his assumption of the government of our important dependency renders him well worthy of being provided for, but any recognition of services beyond the stereotyped letter will have to be looked for from the military authorities. And there will be a difficulty in the way of the Horse Guards doing anything for Gen. Lefroy, for a short time, as there happens to be no appointment falling vacant which could be reserved for him."

Capt. G. Best, from the riding establishment at Woolwich, has been posted to the C Bat. D Brig. R.H.A., and been ordered to join his new battery at Dublin.

The *Times* announces the appointment of Major-Gen. A. T. Phillpotts, C.B., R.A., as Insptr-Gen. of Royal Artillery, vice Lieut.-Gen. Sir J. W. Fitzmayer, K.C.B., who vacates on promotion. Gen. Phillpotts served in the Crimean campaign from June to Sept., 1854, including the siege and fall of Sebastopol (medal with clasp, 5th Class of the Medjidie, and Turkish medal). He joined the Army June 21, 1834, and became major-gen. March 29, 1873.

Capt. S. H. Toogood, E. Brig. R.H.A., has been appointed aide-de-camp to Major-Gen. Phillpotts, C.B., the newly-appointed Insptr.-Gen. of Royal Artillery. Capt. Toogood served in New Zealand during the Waikato and Wanganuri campaigns, and was present at Nukumaru and the Patea River (medal). He entered the Army June 22, 1858, and became capt. Sept. 28, 1871.

Grenadier Guards. Private Michael McConnon was charged before Mr. Justice Hawkins, at the Central Criminal Court on Thursday, with the wilful murder of Noah Johnson, at the Chelsea Barracks, on Dec. 26. Mr. Poland and Mr. Mead prosecuted; the prisoner was defended by Mr. Montagu Williams, Mr. Grain, and Mr. Fulton, who were retained by the officers of the Grenadier Guards. Mr. Justice Hawkins, in sentencing the prisoner to death, said that he had been found guilty of murder on the clearest evidence. The sentence of death was then passed in the usual manner. The prisoner received his sentence in a most unconcerned manner, and walked firmly from the dock. Referring to the trial the *Globe* remarks:—"The termination of the trial of Private McConnon renders it permissible to express a very decided opinion that the regulations which obtain in the service for the confinement of drunken prisoners are distinctly defective. It used to be the invariable custom to deprive every riotous prisoner of his boots and belt, whether the man was drunk or sober. In past times it was not required that he should behave violently after confinement If the sergeant or corporal of the guard which took charge of the fellow had fair reason to believe him likely to give way to temper, the offender was at once deprived of the only weapons with which he could inflict serious injury on his fellow prisoners. In the case of Private McConnon it was proved that he was found in the public streets, without his cap and tunic, challenging every one who passed to have a bout of fisticuffs. It was on account of this violent behaviour that the policeman Wheeler very rightly insisted upon his being taken to the guard-room by a corporal who happened to be passing the spot. Shepherd, the sergeant of the guard, received him from the corporal and policeman, and one question is, therefore, whether they reported to him the full extent of McConnon's previous misconduct. In cross-examination the sergeant stated that 'it was not the practice to take off the boots of soldiers who were put in the lock-up unless they were noisy or violent.' He further asserted that 'there are no military orders to that effect.' In strict language this is, we believe, the case. But there are certain traditions in the service which have all the force of law, and one of these is that prisoners who have shown special violence before arrest should be deprived of every article with which they can inflict injury on others or on themselves. The sergeant seems to have considered that this custom only applied to prisoners who behaved riotously after confinement. From his own evidence, it is clear that McConnon spoke in an insubordinate tone to him on first going to the guard-room, and the fact of the offender being charged with disorderly conduct, in addition to drunkenness, would have quite justified Shepherd in adhering to the usual practice with violent prisoners. It is to be hoped that this lamentable occurrence will have the effect of introducing some more precise regulations for dealing with such cases."

Coldstream Guards. The London correspondent of the *Irish Times* is "pleased to be able to state, on the authority of a medical officer of the Brigade of Guards, that the change from Dublin to Shorncliffe has proved beneficial to the first battalion on which the experiment has been tested—the 1st Batn. Coldstreams—which lately arrived in London again after six months passed on the Kentish coast. The reason for the battalion not being sent to Dublin was that it was thought rather hard upon it that it should be moved to a garrison in order to recruit its health after the unceasing sentry duty inseparable from service in the metropolis. Shorncliffe is not a popular station, and it may be doubted whether the men would not much have preferred being sent for twelve months to Ireland. This, however, was not the question. The thing was, which would tell most from a medical point of view? And, from all accounts, the trial has succeeded admirably, and when the 1st Batn. Scots Fusiliers come to London in April next, we may expect to find another battalion told off to the quarters they will vacate. So that Dublin has no chance of seeing the bearskins of the Guards for some years to come."

3rd Buffs. The following regiments now on foreign service arrived in England before the 2nd Batn., lately embarked and stood before it on the original roster, viz.:—The 43rd in India, 40th in India, 67th in India, 1st Batn. 20th at Halifax, 51st in India, 98th at Malta, 97th at Halifax, 34th in India, 57th in Ceylon, 2nd Batn. 7th in India, 1st Batn. 25th in India, 2nd Batn. 22nd in India, 4th Batn. Rifle Brigade in India, 2nd Batn. 23rd at Gibraltar, 2nd Batn. Rifle Brigade at Gibraltar, 35th at Barbadoes, 42nd at Malta, 33rd in India, 1st Batn. 4th at Gibraltar, 2nd Batn. 9th in India, 2nd Batn. 15th in India, 2nd Batn. 16th in India, 101st at Malta, and 102nd at Gibraltar—twenty-four in number.

4th King's Own. The 2nd Batn. is expected to move from the Curragh to Dublin to relieve the 1st Batn. Rifle Brigade in the Royal Barracks.

7th Fusiliers. Sub-Lieut. Foster, 2nd Batn., is about to retire from the Service.

8th King's. Capt. Jervis and Lieut. de Montmorency have been taken on, and Capt. Egerton struck off, the establishment of the depôt companies.

9th Regiment. Brevet Major Daunt, 2nd Batn., arrived home from India on Saturday last in H.M.S. Jumna to join the depôt companies.

11th Regiment. When it leaves for India next month, the 2nd Batn. will leave on the roster twenty-one regiments which would have embarked before it had the original roster been observed, viz.: the 2nd Batn. 2nd, 2nd Batn. 4th, 2nd Batn. 5th, 2nd Batn. 6th, 2nd Batn. 8th, 2nd Batn. 13th, 2nd Batn. 14th, 1st Batn. 16th, 1st Batn. 22nd, 1st Batn. 23rd, 30th, 47th, 50th, 77th, 82nd, 90th, 91st, 93rd, 94th, 99th, and 100th Foot.

12th Regiment. When the 1st Batn. embarked for India it left four regiments at home which stood before it on the old roster, viz.: the 2nd Batn. 2nd, 2nd Batn. 5th, 2nd Batn. 6th, and 2nd Batn. 13th. Lieut. Pike, 2nd Batn., arrived home on Saturday last from India in H.M.S. Jumna.

14th Regiment. Capt. Burton, 2nd Batn., is about to join the 4th West York Militia as adjt., vice Lieut. Atkinson, whose five years have expired. Lieut. de Trafford, 1st Batn., arrived home from India on Saturday last in H.M.S. Jumna, on leave.

15th Regiment. Capt. Le Mottee, 2nd Batn., arrived home from India on Saturday last in H.H.S. Jumna to take up duty at the depôt. Lieut. Pogson has been appointed interpreter to the 2nd Batn.

17th Regiment. The 2nd Batn., which embarked recently for India, left at home six regiments which would, under ordinary circumstances, have embarked before it, viz.: the 2nd Batn. 2nd, 2nd Batn. 5th, 2nd Batn. 6th, 2nd Batn. 8th, 2nd Batn. 13th, and 94th Foot.

19th Regiment. Canteen-Sergt. N. Hopkins, 1st Batn., has just been presented with a very handsome regulator clock barometer, bearing the following inscription—"Presented to Sergt. Nicholas Hopkins by the sergeants, 1st Batn. 19th Regt., as a mark of esteem on his leaving the regiment after serving in it for 29 years."

20th Regiment. The establishment of the 1st Batn. remains the same—689 of all ranks—on the removal of the regiment from Bermuda to Nova Scotia.

21st Fusiliers. A correspondent writes:—"I beg to state that 'Hussar' is wrong in his impression that the old title of 'Royal Scots Fusiliers' was altered owing to its being too much like that of the Scots Fusilier Guards. The title of 'Royal Scots Fusiliers' was borne by the 21st Regt. prior to 1750, in which year it was changed to 'Royal North British Fusiliers;' whereas the Scots Fusilier Guards only received their present title some forty years ago, and are not likely to grudge the sister regiment its old title."

24th Regiment. Major Black, 2nd Batn., has been told off for depôt duty for two years, vice Major Dunbar.

26th Cameronians. Brevet Major Hamilton is about to be appointed adjt of the 1st Royal Lanark Militia.

34th Regiment. Capt. Boggs arrived at Portsmouth from India on Saturday last in H.M.S. Jumna to assume command of the depôt.

39th Regiment. Lieut. Macausland, a probationer, officiating first wing subaltern of the 35th Bengal N.I., is about to be admitted to the Bengal S.C., with effect from Nov. 11, 1875.

40th Regiment. Paymr. (Major) Richardson, who has been for some time past on leave from India, has been appointed paymaster of a sub-district, and appointed to do duty at Naas.

43rd Light Infantry. Capt. Clark has been granted leave from India to England, on medical certificate.

44th Regiment. Lieut. Morrell arrived home from India on Saturday last in H.M.S. Jumna to join the regimental depôt.

47th Regiment. From Jersey it is proposed that the regiment, when its turn comes for another change of quarters, shall proceed to an Irish station. It will be remembered that it was stationed in Ireland on its return home from Barbadoes in 1869.

48th Regiment. Capt. Sedley has been assigned local rank as major in India, with effect from April 4, 1876.

ROYAL MARINES.

Leave of absence has been granted to the following officers, viz.:—R.M.L.I.—Capt. and Brevet Major H. C. N. Blanckley, until the 28th prox., in extension; Lieuts. P. O. Lang, two months; C. W. Parish, two months; L. Edye, until the 28th inst.; H. S. Thompson, two months; and C. G. Gordon, fourteen days in extension. R.M.A.—Capts. A. French, one month in extension, and R. L. Bourchier, fourteen days.

Capt. N. F. Way, R.M.L.I., has been appointed auditor at the Recruit Depôt, Walmer, dated 5th inst., vice Scott, appointed musketry instructor.

Capt. and Hon. Major H. A. McCallum, late barrack-master at the Gosport Division, has been placed on the

Retired List under the provisions of H.M.'s Order in Council of Feb. 22, 1870.

A detachment, consisting of one corporal or bombardier, R.M.A., and eight privates (including three as ward-room officers' servants), R.M.L.I., has been ordered to embark in H.M.'s gun-vessel Seagull.

50th Queen's Own. Brevet Lieut.-Col. Thompson has rejoined head-quarters, having been relieved at the depôt by Major Fyler. Capt. Barker is about to be appointed to the adjutancy of the West Kent Militia.

51st Light Infantry. Brevet Major Trydell landed in England from India on Saturday last to assume command of the depôt.

53rd Regiment. Surg.-Major Atkinson has been ordered to Longford for duty with the 19th Hussars, in relief of Surg.-Major Burland, who has received orders to embark for India.

54th Regiment. Brevet Major Tighe arrived home from India in H.M.S. Jumna on Saturday last to relieve Capt. Newbolt at the depôt.

56th Regiment. Sub-Lieut. Hannan has passed the lower standard examination in Hindostanee.

59th Regiment. Capt. Frampton has arrived home from India in H.M.S. Jumna to join the depôt for two years. Lieut. Irwin has been appointed assist.-instructor of musketry.

60th Rifles. The 1st Batn., on arrival home a few days since from Nova Scotia, took over quarters in Clarence Barracks, Portsmouth. The 4th Batn., when it embarked for India lately, left at home twelve regiments which would have proceeded abroad before it, had the original roster been observed, viz., the 2nd Batn. 2nd, 2nd Batn. 4th, 2nd Batn. 5th, 2nd Batn. 6th, 2nd Batn. 8th, 1st Batn. 22nd, 30th, 50th, 91st, 94th, and 100th Foot. Lieut. Lovell, 2nd Batn., arrived home from India on Saturday last in H.M.S. Jumna to relieve Lieut. Beauclerk at the depôt.

62nd Regiment. Capt. Kyle has been assigned local rank as major in India, with effect from Feb. 21, 1876. Lieut. Hayne reached England on Saturday last from India in H.M.S. Jumna to relieve Lieut. Knox at the depôt.

63rd Regiment. Lieut. Studdy arrived home from India on Saturday last in H.M.S. Jumna to relieve Lieut. Gronow at the depôt.

67th Regiment. Lieut. Garfit has been granted leave from India to England for fifteen months, on private affairs.

68th Light Infantry. Sub-Lieut. FitzGerald has applied for leave from India to England, on medical certificate.

74th Highlanders. Writing to us from Malta, a correspondent says:—"Few regiments have left this garrison of late years more deservedly respected than the 74th have done. Highlanders always bear a good name, but the 74th have evidently been trying all along to outdo themselves. A more orderly body of men could not be found, nor would it be possible to come across officers better qualified, as regards social considerations, than those of the 74th to hold commissions. Col. M'Leod bears a most excellent name, and, altogether, the Maltese will long remember the 74th as a pattern regiment."

88th Connaught Rangers. Although standing a long way down the roster, the regiment may look forward to but a short stay in Ireland, as it will be brought forward for foreign service some time before its turn would have arrived.

91st Highlanders. "Argyllshire" writes:—"I notice that the three senior captains of the 91st are employed as adjutants of Auxiliary Forces. Now, is it a wise thing to allow senior officers, who are at any moment liable to be recalled, to take up such appointments? I think not myself, for the chances are that a man is called upon to relinquish his duties with the Auxiliary Forces just as he is becoming useful. It takes an officer some time to get to understand the peculiarities of service in the Auxiliary Forces, be it remembered."

92nd Highlanders. Lieut. Grant arrived home from India on Saturday last in H.M.S. Jumna to replace Lieut. the Hon. J. S. Napier at the depôt.

94th Regiment. Capt. Tribe arrived home from India in H.M.S. Jumna on Saturday last to join on promotion from the 19th Regt. We regret to learn of the death, which occurred at Newry last week, of Capt. Mackinlay. Capt. Mackinlay was greatly respected, and the sudden nature of his death has shed a gloom over the regiment. He went to his room to dress for mess, and was found by his servant shortly afterwards dead on the floor. The deceased entered the Army July 22, 1859; became lieut., Sept. 25, 1860; and capt., April 25, 1876. The funeral took place at Newry on Monday with military honours.

96th Regiment. Lieut. D'Aguilar has relieved Lieut. Berkeley at the depôt at Ashton.

103rd Fusiliers. Surg. J. E. Fishbourne has vacated medical charge, and has been posted to Devonport.

105th Light Infantry. Capt. H. Griffin, on the half pay list, died at Dover on the 18th ult. The deceased entered the Service Sept. 26, 1855; became lieut. April 25, 1857; capt. Feb. 12, 1866; and retired upon half pay July 15, 1868.

108th Regiment. Lieut. Starr arrived home from India in H.M.S. Jumna on Saturday last.

109th Regiment. Lieut. A. Malvin, a probationer, officiating second wing subaltern of the 42nd Bengal N.I., is about to be admitted to the Bengal S.C., with effect from Nov. 11, 1875.

Rifle Brigade. The 1st Batn. will, it is believed, shortly proceed to the Curragh, being replaced by the 2nd Batn. 4th. Capt. Cragg is vacating his appointment as adjt. of the West Kent Militia.

Medical Department. A general order issued from the Horse Guards directs that medical officers of the Army are not in future to be called on to contribute or subscribe to regimental messes or bands. The order is to take effect from the 1st inst., and any subscription or contribution paid in advance beyond the 31st ult. is to be refunded. Medical officers will in future receive Staff allowances, but when quartered in barracks will be entitled only to regimental quarters.

Chaplains' Department. A Royal Warrant just issued directs that military chaplains appointed prior to March, 1875, who were more than thirty years of age at the date of such appointment, and who may be compulsorily placed on half pay, may be granted half pay at the rate next higher than that to which their service entitles them.

THE AUXILIARY FORCES.

MILITIA.

West Kent. Capt. Barker, 50th Regt., is about to be appointed to the adjutancy.

4th West York. Capt. Burton, 14th Regt., relieves Capt. Atkinson, whose period of service has expired in the adjutancy.

1st Royal Lanark. Brevet Major Hamilton, 26th Regt., succeeds Capt. Smyth as adjt.

Royal Antrim Rifles. Lieut. Boyle has been recommended for the vacant company.

Monaghan. Qrmr. Watson is about to be placed on the Retired List after a long period of service in this regiment, in which he served when a boy.

There will be a School of Instruction at Aldershot next month for officers of Militia and Volunteers.

VOLUNTEERS.

9th Middlesex Rifles. The annual regimental ball took place last night at St. James's Hall, where a large party assembled. The whole of the arrangements were admirably carried out.

THE INDIAN ARMY.

1st Bengal Cavalry. Brevet Major R. G. Birch, late 1st European Light Cavalry, attached to 16th Bengal Cavalry, has been appointed to officiate as third squadron officer during the time Capt. Glascock may officiate as second squadron officer. Lieut. G. G. Dawes, squadron subaltern, has arrived home from India on leave.

2nd Bengal Cavalry. Lieut. M. J. Meade, officiating squadron subaltern 3rd Cavalry, has been transferred for duty to the 2nd as a temporary measure during the absence of Lieut. F. R. B. Knox with the 4th Cavalry.

4th Bengal Cavalry. Lieut. F. R. B. Knox, squadron subaltern 2nd Cavalry, officiates as adjt. during the absence in England of Capt. J. T. Cummins.

10th Bengal Cavalry. Major O. Barnes, second squadron officer, being the biggest military officer in India, acted as Chief Herald, and read the Proclamation of the Empress of India at Delhi. He was attended by twelve trumpeters, six Europeans and six Natives, all arrayed in ancient costume.

13th Bengal Cavalry. Lieut. J. F. Carthew, first squadron subaltern, has been granted leave to England for two years on medical certificate.

17th Bengal Cavalry. Ressaldar Kumrooddeen, Khan Bahadoor, has been appointed an extra aide-de-camp on the Staff of the Commander-in-Chief in India, for duty at the Delhi Camp.

19th Bengal Lancers. The Lahore journal says that there is a rumour in Mean Meer that the 19th Bengal Lancers have been warned for duty. It is also rumoured that a large force will be concentrated in Cabul in order to give Russia an idea that we are not altogether asleep, and that we, too, have Servians whom we can influence.

3rd Bengal N.I. Col. G. A. Fooks, commandant, has arrived home from India on furlough. The following appointments have been made consequent upon Col. Fooks' departure:—Col. R. T. Leigh to officiate as commandant, Col. R. Blair to officiate as second in command and wing officer, Capt. G. J. Skinner to officiate as wing officer, and Lieut. J. E. Barr to officiate as adjt.

14th Bengal N.I. Capt. F. H. Woodgate, second in command and wing officer, was killed a few days ago by a fall from Wolverhithe Cliff, at St. Leonards. Capt. Woodgate served with the Volunteer Cavalry with Gen. Havelock's force from its first taking the field in July, 1857. He was present in the various actions which preceded the relief of Lucknow, at the subsequent defence of the Residency, and at the final assault and capture of Lucknow. He afterwards commanded the Cavalry of the Kupoorthulla Contingent in all the actions in which that force was engaged (thanked by the Governor-General, medal with two clasps, and a year's service). In 1860 he went to China with the 8th Punjab Infantry, and served throughout the campaign of that year, including the assault and capture of the Taku Forts and the occupation of Pekin (medal with two clasps). He joined the Army Feb. 20, 1857; became lieut., April 30, 1858; and capt., Feb. 20, 1869.

21st Bengal N.I. The sepoys of the regiment have, the *Pioneer* hears, taken deeply to heart the disgrace brought on the regiment by the murder of Lieut. Harris. In order to spare their feelings as much as possible, and avoid a public execution, the culprit, who was duly convicted by a general court-martial the day after the murder, was to have been hanged privately within the gaol.

27th Bengal N.I. Capt. G. H. Jackson, adjt., has arrived home from India on leave.

30th Bengal N.I. Lieut.-Col. T. W. R. Boisragon is about to resume command on the expiration of his leave in England.

35th Bengal N.I. Lieut. R. C. S. Macausland, 39th Foot, officiating first wing subaltern on probation, is about to be admitted to the Bengal S.C.

42nd Bengal N.I. Lieut. A. Melvin, 109th Foot, officiating second wing subaltern on probation, is about to be admitted to the Bengal S.C.

44th Bengal N.I. The following appointments have been made, with effect from the 24th ult., vice Lieut.-Col. A. Cory, second in command, retired upon pension, viz.:—Major D. Robertson, wing officer, to officiate as second in command and wing officer; and Lieut. C. R. Macgregor, qrmr. and officiating adjt., to officiate as wing officer, in addition to his other duties.

3rd Goorkhas. Capt. E. Hughes, first wing subaltern, has applied for permission to resign his commission, with effect from Nov. 15 last. The Lahore paper alleges that "the officer referred to in the *Pioneer* as having been engaged by the *Illustrated London News* as its 'Special Artist' for the Delhi Imperial Assemblage must be Lieut. Chas. Pulley, of the 3rd Goorkhas, and not Lieut.-Col. Pulley, as stated. Mr. Pulley was formerly in the 36th Regt. He is a very young officer and a very promising artist, and possesses the happy faculty of sketching with extraordinary rapidity. The good-natured face of 'the young gentleman with the eye-glass must be familiar to many residents of Lahore and Mean Meer."

3rd Punjab Cavalry. Lieut. A. F. Cotton, wing subaltern 45th Bengal N.I., has been appointed to act as second squadron subaltern during such time as Lieut. Mardell is employed as third squadron officer.

4th Sikh Infantry. Col. H. F. M. Boisragon is about to return to India to resume command from leave in England.

2nd Hyderabad Infantry. Lieut. F. G. Maltby, first wing subaltern 1st Sikh Infantry, has been appointed wing subaltern, vice Lieut. Kirkwood, appointed adjt. 6th Infantry.

6th Hyderabad Infantry. Lieut. J. N. S. Kirkwood, wing subaltern 2nd Infantry, has been appointed adjt., vice Capt. E. W. Shaw, who vacates on promotion.

3rd Madras Light Cavalry. Major H. C. Stevens, squadron officer, has arrived home from India on leave.

9th Madras N.I. Lieut.-Col. F. Gadsden, wing officer, has arrived home from India on leave.

10th Madras N.I. Col. W. Rose, wing officer, is about to return to duty in India from European leave.

2nd Bombay Cavalry. Major A. W. Macnaghten, second in command, has arrived home from India on leave.

2nd Sind Horse. Capt. M. M. Carpendale, second in command, is about to return to India, to rejoin from European leave.

24th Bombay N.I. Capt. J. L. Fagan, officiating first wing subaltern, has been confirmed in his appointment, vice Capt. Way, deceased.

26th Bombay N.I. The following has appeared officially in India:—"At an European general court-martial, held at Poona, Nov. 21, 1876, Major J. C. D. S. Morar, Bombay S.C., wing officer 26th Bombay N.I., was arraigned on the following charge—With conduct unbecoming the character of an officer and a gentleman, and to the prejudice of good order and military discipline, in having at Poona, on or about Oct. 28, 1876, in a written statement which he handed into a court of inquiry assembled to investigate certain alleged misconduct imputed to him by his commanding officer, stated as follows:—'I am quite certain I told Col. Beecher then (that is, on March 3, 1876), that Subadar Kadur Khan had fainted,' the said written statement being false, as he, Major Moray, well knew, and having been made after he had been duly warned that he was not compelled to make a statement, and further, that any statement he might make would, if required, be used in evidence against him. Finding—The court find the prisoner is not guilty of the charge.—W. W. Taylor, Col., Bombay Infantry, and President.—Poona, Nov. 27. Revised Finding—The court having attentively considered the observations of the revising officer and the whole of the proceedings, do now respectfully adhere to their former finding. W. W. Taylor, Col., Bombay Infantry, and President. Poona, Dec. 2. Confirmed—But I regret being unable to approve the finding, which, in my opinion, is opposed to and inconsistent with the evidence adduced. C. Staveley, Lieut.-Gen., Commander-in-Chief. — Poona, Dec. 7." Although Major Moray was not found guilty by the court-martial, he has not been ordered to return to his duty, and the *Poona Observer* understands that he is still under arrest. It is rumoured that there are some other charges hanging over his head, and that his Excellency the Commander-in-Chief has reported Major Moray to the Secretary of State for India, and, pending decision, he will remain under arrest.

28th Bombay N.I. Lieut.-Col. S. J. Thorp, second in command, has arrived home from India on leave. Capt. W. E. Simpson, first wing subaltern, died at Brighton on the 4th inst. whilst in England on furlough. The deceased entered the Army Feb. 27, 1861; became lieut., Oct. 30, 1862; and capt., Feb. 4, 1871.

ROYAL MILITARY ACADEMY.

The following are declared by the Civil Service Commissioners to be the successful candidates at the open competition, held in December, 1876, for admission to the Royal Military Academy, Woolwich:—

Order of Merit.	Name.	Marks.	Order of Merit.	Name.	Marks.
1	S. Davidson	7,024	21	J. H. Balguy	4,955
2	P. L. O. Roper............	6,986	22	R. L. Heygate	4,877
3	R. Leigh	6,969	23	N. D. Finlay	4,808
4	A. S. Wedderburn......	6,964	24	B. B. Russell	4,788
5	S. L. Norris...............	6,679	25	L. J. D. Hepenstall ...	4,736
6	W. E. Fairholme	6,575	26	D. A. Mills	4,709
7	P. B. Taylor	6,221	27	A. H. Block...............	4,676
8	E. A. P. Hobday.........	6,034	28	Hon. R. Tyrwhitt......	4,672
9	H. J. Du Cane............	5,983	29	J. H. Thomson.........	4,662
10	C. D. Learoyd	5,802	30	F. C. L. Manning	4,617
11	W. W. Baker............	5,789	31	H. K. Jackson	4,586

19	F. E. Cooper	5,045	39	E. F. Nelson	4,310
20	G. D'A. Alexander ...	5,007			

We (*Whitehall Review*) have reason to believe that a Royal Commission, composed partly of military men and partly of civilians, will very soon be organised for the purpose of inquiring into the whole subject of recruiting for the Army. There is no doubt but that the number of recruits who offer themselves has, within the last few weeks, increased greatly, but the number of men who enlist, desert, and then enlist again has increased in proportion. The soldiers themselves have grievances which, right or wrong, they deem hard to submit to. In some garrisons they are on guard every fourth night. In others, as at Aldershot, they have so much hard work to do in the way of road making and camp clearing that they are never free of debt for boots, trousers, &c., which do not last half the proper time. The deferred pay system is the reverse of popular. If some plan could be devised by which, as in the police, the soldier could be clad entirely at the expense of the State, and always have sixpence or sevenpence a day in his pocket *pour ses menus plaisirs*, the Service would become as much sought after as the Metropolitan Police is and has been for years.

Major-Gen. Sir E. H. Greathed, K.C.B., has leave from Colchester, from the 1st inst. to March 2, Col. Chapman 44th Brigade Depôt, commanding the Eastern District during his absence; and Capt. Boyle, Rifle Brigade, has leave from Colchester to the 3rd prox., Capt. Sunderland, 9th Foot, performing the duties of brigade-major in the meantime.

The amended regulations regarding the examination o officers who may be candidates for admission to the Staff College in February, 1878, have been promulgated in general order issued from the Horse Guards. There wil be twenty vacancies, of which three may belong to the Royal Artillery and two to the Royal Engineers, providing the officers from those corps are among the highest on thel ist.

VOLUNTEER RETURNS FOR 1876.

The annual returns of the whole of the Volunteer Force throughout the United Kingdom have now been made up, and the following table shows the number of efficients of each arm of the Service, in the county to which it is attached, together with the total number of non-efficients, the last column showing, for the sake of comparison, the total efficients of last year:—

County.	Efficeints, 1876.				Non-Efficients of all Arms.	Total Efficients, 1876.	Total Efficients, 1875.
	Light Horse and Mounted Rifles.	Artillery.	Engineers.	Rifles.

Total	550	32554	6863	134217	11317	174184	168709

From these figures it will be seen that the improvement in the status of the Volunteers that we had to record last year has still gone on, and that at the present moment the force is stronger in efficient strength than it ever has been since its inauguration in 1859. The greatest total ever before recorded was in 1871, when 172,619 efficients were returned, only 117,721 of whom, however, were extra efficients. In 1872 that number was reduced to 160,737, with 114,080 gaining the extra grant. In 1873 the new regulations came into force, the term extra efficient being abolished, and it becoming a compulsory part of the efficiency of a man that he should pass through a course of musketry. This year the efficients fell to 153,216, the non-efficients rising to 18,721, but in 1874 a reaction took place, the efficients going up to 161,100, and the non-efficients dropping to 14,287. In 1875 there was a still greater improvement, the efficient strength being 168,709, and the non-efficient 12,371. During the year just closed every branch of the Service, with one single exception, has experienced an increment in its enrolled and effective strength. The Light Horse have on their rolls 550 against 468, of whom 444, or 80 per cent., are efficient. The Artillery, with an enrolled strength of 34,622 against 34,453, have 32,393, or 93 per cent., efficient. The Engineers, increasing from 7,030 to 7,427, have 6,856, or 92 per cent., efficient. The Mounted Rifles, owing to the whole of the Devonshire corps being non-efficient, have, while increasing their nominal roll from 177 to 179, reduced their efficients to 106 against 139, and their per centage to 59. The Rifles, however, show the great bulk of the increase, the enrolled strength being 141,177 against 137,429, of this number 132,913, or a little over 94 per cent. earning the Government grant. To this number has to be added the staff of administrative regiments not included in any return numbering 1,546, of whom 1,472 are efficient. The grand result is that at the present time the enrolled strength of the Volunteer Force shows a total of 185,501, of which number 174,184, or equal to 93·89 are efficient, and of those 151,753, or 81·80 per cent., were actually present at their annual inspection. The number of officers and sergeants earning the extra grant for holding certificates of proficiency has also steadily advanced, 4,937 of the former and 10,588 of the latter being in possession of them, against a total of 14,869 last year. It will be seen that Lancashire again heads the list of counties for number, their per-centage of efficients being the remarkably good one of over 97. Middlesex stands second for enrolled strength, but only has a per-centage of 90 efficients. Amongst those counties possessing a large number of Volunteers and returning high per-centages of efficiency, some of the most worthy of remark are Berkshire and Stirling with 99 per cent., Warwick, Worcester, and Cornwall, with 98 per cent., and Aberdeen, Cheshire, Derby, Glamorgan, Lanark, Lancashire, and Stafford, all of whom have 97 per cent. of their enrolled strength earning the grant of efficiency. The county of Montgomery sinks out of the list entirely, and Monmouth and Sussex both show considerable decrease, but with these exceptions the falling off that has taken place in certain districts has been of an almost nominal character, the increase, spread as it is over very quarter of the United Kingdom, indicating that the popularity of the Volunteer Force is stronger than ever.—*Standard.*

ARMY RECRUITING.

The *Standard* says:—The official returns up to the end of December of the number of desertions from the Army during the year 1876 shows the number to be 7,759. For some years past the desertions from the ranks have averaged twenty a-day, the *Police Gazette* up to the same date containing the names of no less than 254,749, or upwards of a quarter of a million deserters. As usual at this time of the year, the desertions are somewhat heavier than on ordinary occasions, and this is partly attributable to reliefs being sent to India during the autumn and winter months, many soldiers having an aversion to be sent there. On the other hand, there has been for the past six months a marked improvement both in the number as well as in the class of recruits at the military stations throughout England. The comparative state of recruiting in the Army during the last three years may be gathered from the following official return from Woolwich, which may be regarded as a fair sample of the condition of the Service throughout the country. The number of men enlisted at Woolwich during the past three years, from Jan. 1 to Dec. 31 in each year, is as follows:—

	1874.	1875.	1876.
January	183	77	53
February	118	73	35
March	91	42	38
April	92	44	24
May	72	57	43
June	151	69	59
July	94	60	89
August	113	43	86
September	135	39	127
October	91	38	116
November	92	26	136
December	63	42	91
	1295	610	897

[Our contemporary would appear to have fallen into an error in accepting the returns from Woolwich "as a fair sample of the condition of the Service throughout the country." The statement elsewhere is founded on accurate information.]

GRATUITIES TO SOLDIERS ON DISCHARGE.

The following has been issued as an Army Circular:—

1. The general fund, which has been formed from the fines inflicted upon soldiers for the crime of drunkenness, is appropriated to the purpose of granting gratuities to well-conducted non-commissioned officers and men on discharge from the Army.

2. The scale of gratuities will be regulated annually according to the state of the general fund, and will be notified to the Army from time to time.

3. From Jan. 1, 1877, the issue of the gratuities will be regulated by the following rules, except that, in colonial corps, the rates of gratuity will be only half those fixed for the Army generally.

4. Every soldier, who shall be discharged otherwise than for misconduct, will be paid, at the time of his discharge, a gratuity calculated at the rate of 10s. for each good-conduct badge then in his possession; provided that the total sum of £1 10s. shall not be exceeded, except in the case of a soldier who may not, for the ten years previous to his discharge, have been recorded as guilty of drunkenness. In such case the limit will be extended to £2 if the soldier shall be in possession of four good-conduct badges, and £2 10s. if he shall be in possession of five good-conduct badges.

5. In the case of a sergeant, which term includes sergeants-major, and all other grades of sergeants, the amount issuable will be calculated on the number of badges to which his services and conduct would have entitled him had he been a private soldier at the time of his discharge, subject to the above limits. The charge will be vouched by a certified record of service.

6. Men transferred from the Line to the 1st Class Army Reserve, to complete their term of service, will receive, at the time of such transfer, such gratuities from the fund as they would have received had they been discharged in lieu of being transferred.

7. Such men, if allowed to rejoin the colours, will not be required to refund any portion of the amount so received. They will be paid on final discharge from the Army a gratuity, at the rates specified above, for any badge or badges they may have become possessed of over and above those they had when transferred to the Army Reserve.

8. Non-commissioned officers detached from regiments of the Line or other corps of the Army, for service with the Auxiliary Forces, will not be entitled to receive these gratuities until they are finally discharged from the Army.

9. The gratuities issued in accordance with these regulations will be charged in the accounts of the accountant from whom the soldier may be drawing his pay at the time of his discharge. The soldier will sign a receipt for the gratuity, and in each case in which the sum of £2 or £2 10s. is awarded, the charge will be further vouched by a certificate of the officer commanding that the soldier has not been recorded as guilty of drunkenness during the ten years immediately preceding his discharge. In the case of a non-commissioned officer referred to in paragraph 8, the certificate for the period during which he has been detached to the Auxiliary Forces will be signed by the adjutant and counter-signed by the commanding officer of the regiment or corps with which he has been serving.

10. In the case of a soldier dying in the Service, his estate will receive credit for such amount of gratuity as he would have been entitled to had he been discharged from the Army on the day previous to the date of his death. These gratuities will be charged in the regimental pay list on the same form or voucher as those issued to men on discharge, vouched by a reference to the non-effective account in which the credit is given.

11. Clause 12, Army Circulars 1872; Clause 114, Army Circulars, 1874, so far as it relates to the gratuities from the general fund formed from the fines for drunkenness; Clause 3, Army Circulars, 1875; and Clause 17, Army Circulars, 1876, are hereby cancelled.

THE COMMISSARIAT.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—In your article on the anticipated "changes of the constitution in regard to the administrative Departments of our Army," after pointing out the evils arising out of the system of "red-tapeism" in the French Administration, you ask "whether our system is free from objectionable features of a like nature?" It would be an easy task to fill your columns with instances of daily occurrence in proof of the defective character of our administration of Supply. The bane of the system is centralization, as it was that of the French prior to the Franco-German war. The most trifling questions involve endless correspondence. No general commanding can deviate in the smallest degree from the letter of the Regulations without rendering his proceedings liable to question by some subordinate War Office official acting under the ægis of the Secretary of State for War, who, probably, is all the while entirely ignorant of what folly is perpetrated in his name. To such minutiæ does War Office interference descend, that not an additional strap or buckle can be got out of the stores without a process of circumlocution that is simply contemptible. The soldier cannot get an extra blanket in the coldest weather without the issue being reported to a "covering authority." Not a chamber-pot can be broken or struck off charge without the necessity for the interesting fact being communicated "for the information of the Secretary of State for War." Little does Mr. Hardy know with what contemptible trivialities his high office is associated. In respect of coal, officers commanding are held pecuniarily responsible for any extra issues not previously sanctioned, although the necessity for such additional supply may be urgently called for. In the accommodation of troops the same obstacles are interposed to local and necessary action. An instance occurs in which no less than six months was occupied in fifty-five references to and fro relative to the occupation of five barrack huts! At last it became evident that there was no likelihood of agreement between the several "heads of departments," whose "observations" were necessary to enable the War Office to decide the knotty point. To put a stop to any further waste of time, the general directed that the correspondence should cease. Had he been allowed to act upon his own judgment, founded upon local knowledge, the question might have been settled in a week to the manifest advantage of the Service and the comfort of the troops. Another case was that of a magazine, possession of which was claimed both by the Store Department and the Artillery. "The pile of papers" which this question gave rise to, and the waste of time that it involved, were such that written discussion had to be stopped "by order," because, as the final minute suggested, the dispute might go on "for ever." The Parlimentary story of the "commissary bellowing for his bellows" is an apt illustration of the existing state of things. All such obstacles to the transaction of public business might be removed and the efficiency of the Service promoted if general officers commanding at home were invested with larger administrative functions, and were held directly responsible—as they are abroad—to the Secretary of State for War for maintaining within their respective commands the efficiency of the several branches of the Service under their orders. But the War Office must needs "have a finger in every pie." Were this not the case, the already overgrown establishment in Pall Mall might be reduced. Patronage, however, would be diminished. For any departmental officer to interest himself in the cause of efficiency in opposition to War Office routine would only be to expose him to censure. A straightforward, fearless performance of duty is unpalatable; a sycophantic subservience to personal influence and passive acquiescence in established formulæ, however detrimental to efficiency, is a surer road to favour. No departmental officer, solicitous of War Office approval, can afford to support his general where such support is likely to wound the susceptibilities of those in whose hands his prospects are placed. Any-one adopting such a course, or implying in the performance of duty any distrust of War Office infallibility, is certain, sooner or later, to reap the fruits of his temerity. He has to incur all the odium of a system for which he is in no way responsible, which he is powerless to improve, and which, at every turn of duty, he finds the subject of unmeasured abuse. Is it, therefore, likely that under such circumstances, added to a personal sense of wrong, any officer either in the senior or junior ranks can take the remotest interest in their duties? Under the present "direction" it is as hopeless to look for that "prompt and efficient remedy" which you recommend as it is to expect reformation in the "unspeakable Turk!" The solution recommended in the one case is equally applicable to the other. Changing the *personnel* of the departments is not likely to be attended with any beneficial or permanent result. The first step towards placing the establishments on a business-like footing should be "decentralization." There seems to be no reason why general officers commanding and those departmental officers placed in responsible positions under their orders should not be as worthy of confidence as War Office clerks.—I am, &c.,

Dec. 4, 1876. JUSTITIA.

CAMP FOLLOWERS IN INDIA.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—From many points of view the treatment of camp-followers is capable of improvement, and when considering the subject it will be convenient to divide it into the following phases of their life, viz., when in cantonments and when in camp. From a sanitary point of view it has become almost a necessity to do something, for year by year whenever cholera breaks out, its first appearance is, with few exceptions, either in the bazaars or amongst the camp-followers of a cantonment; so that if regarded merely from what may be called a budget point of view there would be economy in improving the sanitary condition of those who are for good or evil so intimately connected with the efficiency, or otherwise, of the combatant portion of our Army. But many of these camp-followers may claim something more than a profit-and-loss consideration, for the present manner in which they may be said to scramble through life and struggle most pitiably for existence places them in a position to excite the generosity of the Government which they so diligently serve. Much has been done to reduce their number, more especially in British regiments, but still more can be accomplished, and it must be remembered that, with better men there may be fewer of them. The first condition of success is thoroughly efficient control; all, whether paid by Government or supported by the troops, must be under control and be properly housed, clothed, and fed. To accomplish this as regards British regiments, both Cavalry and Infantry, it would appear very desirable to consider whether the status and efficiency of the quartermasters of such regiments might not be altered for the better. Whilst expressing the highest praise to those who have by their unaided exertions risen to most highly creditable positions, and fully acknowledging how much good work is performed by the existing quartermasters who have risen from the ranks, it would appear that now the importance of the office requires officers of much higher qualifications. If it is considered for a moment how many hours of a day the British soldier and the Artillery or Cavalry horse is dependent on the efficiency and energy of the quartermaster, it will hardly be possible to over-estimate the necessity of this officer being of precisely similar standing to the adjutant of the regiment—in short, the example of the Native Army must be followed, and the quartermasters of British regiments must henceforth be mounted Staff officers, the worthy representatives of the Quartermaster-General's Department in their regiment, as much so as the adjutant is of the Department of the Adjutant-General. Nor is this the only change. The present appointment of cantonment magistrate might well give way to that of provost-marshal, the whole of cantonments being properly placed under military law, instead of a mixture which is neither civil nor military. In theory there should be no one in cantonments who is not actually required there for a military purpose, and no houses except for such to live in. But as in many places there are others, and it would be very expensive now to disperse them and pull down their houses, a middle course open is to insist on all residents in cantonments submitting to military law. The health of the troops and their military efficiency demand a total suppression of the equity and civil law which has most lamentably crept in of late years, and which is altogether adverse to control or proper sanitary conditions. Of the exact proportion of camp-followers to combatants, with all their duties, it would be very tedious to write in detail. The general principle maintained is that those actually required having been determined by a military commission, they should be properly housed, fed, and clothed. Next comes the subject of bazaars, with their residents; and here, I am well aware, the present spirit of economy renders much action difficult. But there is sad overcrowding in all bazaars, and will be until every house is subjected to periodical inspection, which must be made a condition of life under military law; nor is it objected to after the first squeamishness is got over and its sanitary advantage properly explained. The number of drones hanging about military bazaars and lines, requiring to be fed, clothed, and housed—which they all are most imperfectly—urgently requires reduction. The suggestion, however, which it is most desired to bring forward, is the gradual introduction of markets in every cantonment throughout India. The vendors in such markets could for the most part live away from cantonments, bringing their goods daily for sale, and in this way bazaars would gradually collapse and disappear. But while they remained, each house should be registered to contain so many inhabitants, never to be exceeded under heavy pecuniary loss. The custom of allowing married sepoys and camp-followers to reside in native regimental bazaars is inconvenient on all accounts, and it is very desirable to limit the number of both classes who can be married. All these matters are at present, comparatively speaking, unrecognized, and it is only when sickness breaks out that the mode of life of these camp-followers, even the existence of some of them, comes to light. But unpleasant as the life of camp-followers is in the cantonments, it is much more serious when they are moved into camp; they go somewhere, live somehow, drag themselves after the Army in some way or other, often exciting the admiration of those they serve by their faithful service under most trying circumstances, but are ready at a moment's notice to develope pestilence which may place in jeopardy the lives of the army they follow. It is hardly any exaggeration to state that their lives are a continual struggle with disease in some form or other, and will not cease to be so until they are properly looked after. In conclusion, the following questions are put forward as a means of leading to a practical discussion of the subject under consideration:—Q. 1. Is it possible to disconnect grass-cutters from Cavalry and Artillery and supply them with hay stored by the Commissariat? Q. 2. Is it possible to form all camp-followers into a corps? Q. 3. To what extent can markets replace permanent bazaars? Q. 4. Is it not desirable to form in each presidency a model cantonment? Q. 5. Would it not be advisable to offer large rewards or prizes for machinery to work punkahs in use throughout the barracks?—thus abolishing the fringe of coolies surrounding them. Q. 6. Seeing that native troops, on service, are supplied with their food by the Commissariat Department, might not they be so served in peace? Q. 7. To what extent could the present civil police in cantonments be replaced by military police, formed from the troops or pensioners? Q. 8. Is it not most desirable that the very important post of provost-marshal in time of war should be made no less so in time of peace, replacing cantonment magistrates?—I am, &c.,

D. J. STEWART, Capt., Qrmr. 3rd Bengal N.I.

A CURE FOR FRAUDULENT ENLISTMENT.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—It is high time that something be done to prevent desertion and fraudulent enlistment both in the Army and Militia. More attention being paid to desertion in the Army, few are aware (except those in Militia regiments) of the enormous number of cases annually of desertion and fraudulent enlistment in the Militia. A glance at the *Hue and Cry* will at once show I am correct as regards desertion. Now, let me explain what "habitual deserters" (as I call them) are in the Militia. Firstly, their mode of life is tramping from town to town seeking employment in their particular trade, if they have one; if not, in any sort of work they can get. Secondly, they enlist, probably, first of all, in their own county regiments, where they are known, and perhaps attend all its trainings, remaining in it for years. Now, what are they doing between trainings? Why, simply enlisting from time to time, when out of work, in other regiments, and getting 10s. half bounty at each enlistment. Their plan is this: when they come into a town they first find out Militiamen living in the place, who put them up to the names of people residing in towns and villages in the vicinity, so that they are well prepared to answer any test-questions—as to birth-place, name of former master, last place of residence, &c.—that may be put to them when they offer themselves for enlistment. Having effected their object, and secured their 10s., they tramp off to the next county and do the same, and I am not exaggerating when I say that there are lots of Militia deserters who have enlisted into ten or twelve different regiments. Some of these "habitual deserters" are able to attend the trainings of two, and, perhaps, three regiments in the year, if the training of one finishes in time for them to be at that of another. Now for the cure. Let the surgeon mark with a very small broad arrow (a ¼-inch long would be large enough) every Army recruit on final approval, and every Militia recruit on attestation. In the case of Militia, let the arrow be reversed. A surgeon with a small stencil-plate and needle and a little Indian ink could do it in two minutes. It must be laid down by regulation exactly where the mark is to be placed. The mark would be indelible, and the pain making it no more than simple vaccination. Some will argue that a small mark like this can be easily erased by tattooing over it; so it can; but then don't take a man who is tattooed in this particular part of his body, and not one *bonâ fide* recruit in a thousand would be lost through this. I suppose it would not be right to compel officers and soldiers now serving to be marked, but all good men would be proud of such an honourable mark, and if his Royal Highness the Field-Marshal Commanding-in-Chief would himself set the example, few officers and men would object to bear on their person the badge of the honourable and distinguished Service to which they belong.—I am, &c.,

ONE BELONGING TO THE ARMY AND MILITIA.

INDIA.

Cases having been brought to the Commander-in-Chief's notice in which offences, cognisable only by district or general courts-martial, have been disposed of by inferior tribunals without due authority, and in consequence of which irregularity the offenders have escaped deserved punishment for their offences, the Simla paper notifies that his Excellency has impressed upon all officers commanding regiments and batteries the necessity of their being fully acquainted with the provisions of the Mutiny Act and Articles of War, in order that they may avoid erroneous views as to the extent of their powers and the jurisdiction of inferior courts-martial.

Lieut.-Col. H. H. Stansfeld, Bengal Infantry, was appointed temporarily to the Staff of the Lieut.-Governor of the Punjab for the Delhi gathering.

We (*Allen's Indian Mail*) understand that the promised accounts of the Kirwee prize have at length been produced by the India Office. It is also stated that the items lately printed under the head of "losses" have been recovered, these "losses" amounting to £189,375. If so, there must now be a welcome addition to the old undisputed balance, ripe for immediate division, of about £103,326.

We announced lately that Staff Vet.-Surg. Turnbull, now in England on leave, was retiring. The step, the *Pioneer* conjectures, will go to First Class Vet.-Surg. G. Kettlewell, "one of the ablest men of his profession in India, and the senior on the list for promotion." Mr. Kettlewell entered the Army Dec. 5, 1854.

As one result of the recent visit of the Governor and Commander-in-Chief of Madras to the North, it has been decided to again locate a regiment of Native Infantry at Masulipatam.

During the absence from England of the Marquis of Salisbury, the more important duties usually performed by his Lordship at the India Office have been discharged by Lord Carnarvon.

The following appointments have been decided upon in the Government Secretariat in succession to Col. A. B. Johnson, appointed to the India Office, viz.:—Lieut.-Col. W. M. Lees, Bengal S.C., to be deputy secretary to the Government of India, Military Department; Capt. E. H. H. Callen, Bengal S.C., to be first secretary; Capt. A. C. W. Crookshank, Bengal S.C., to be second assist.-secretary; and Capt. T. Deane, Bengal S.C., to be third assist.-secretary.

Major J. M. Kerr, Madras Cavalry, was appointed extra aide-de-camp to the Commander-in-Chief in India at the Imperial Assemblage at Delhi.

Major F. T. Humfrey, Bombay S.C., has been placed on general duty at Kurrachee.

Capt. C. M. Griffith, brigade-major at Aden, has been granted leave to England for one year—three hundred and twenty days.

Major J. M. Sexton, Bombay S.C., has been granted a year's extension of his appointment as assist. qrmr.-gen. on the Bombay establishment, with effect from Nov. 1, the date upon which his five years expired.

OFFICERING THE NATIVE ARMY.

A memorandum lately published at Simla, from the pen of Col. Dillon, military secretary to Lord Napier during his Indian command, throws some valuable light on the present system of officering the Native Indian Army. It appears that when Lord Napier took command of the Indian Army he invited the commanding officers of Native regiments to communicate freely with him, through his military secretary, on all matters connected with the efficiency of their regiments. In the replies thus called for, no point was more strongly urged than the evils resulting from the constant change of officers from one regiment to another. As that was one of the evils to which we have repeatedly drawn attention, with reference both to the Civil and Military Services of India, we are not surprised at the prominence given to it in the replies of so many competent judges within the Army itself. One commanding officer wrote to say "that seventy-five officers had been appointed to his regiment in the space of ten years, his complement being the same—seven." Another begged to be pardoned "if he described the system as 'cursed;' for whilst his full complement of officers was but seven, upwards of sixty had been passed through his regiment in a comparatively short space of time." These are only two samples out of many such, all tending alike to prove, what might indeed have been taken for granted, that "those who best knew the Native Army, and served with it, held most strongly to the opinion that a frequent change of officers is most injurious to the contentment and well-being of Native soldiers individually or collectively." A continual shifting of officers is bad enough even in a British regiment, with its strict routine, its traditional discipline, and its efficient staff of non-commissioned officers. But in a Native regiment the evil is aggravated beyond measure by the different relations which exist between the sepoy and his white officer, by the greater extent to which personal influence holds sway over the former, by the general inefficiency of the Native officers, and the absence of many little aids to the maintenance of internal discipline. It is easy to see how a system under which officers are liable at a moment's notice to be continually shifted from one regiment to another must tend to loosen the bonds of regimental discipline. The old fellow-feeling between officers and men can have no time to grow up, and the officer himself has small encouragement to do his best, when he knows that his services may at any moment be wanted elsewhere, or that the vacancy which he might have filled will be given to some outsider from another regiment, or, worse still, to some one who has been absent from regimental duty for years, drawing large pay for doing purely civil work. It was unpleasant enough in the old days of the East India Company to find yourself cut off from a regimental command in the field by a senior who had forgotten his drill after some years of Staff service. But then that lucky senior had served and risen in the regiment on which his name was still borne, and to which he might at any moment return; whereas in these days an officer in civil employ who has never done a day's real soldiering in any regiment may claim, by right of his nominal army rank, some high post in a regiment which he has never seen before. Against this unfair and pernicious system Lord Napier seems from the first to have set his face. As a rule, he considered "the claims of officers who have continuouosly served with their regiments, or who have been with them for long periods, superior to those of officers who have voluntarily forfeited their regimental position, seeking for other employment, even though these latter may be senior in army rank." In accordance with these views Lord Napier acted. Captains and majors, when duly qualified, were promoted to regimental commands in all cases where long and uninterrupted service had clearly established their claims, while full-blown colonels who had no such title were left out in the cold till room could be found for them elsewhere. This policy was carefully carried out, with few exceptions, on the Bengal side during Lord Napier's tenure of office; his one avowed aim being to "give every reasonable hope to officers if found fit for advancement in their own regiments." It is to be hoped that the example thus set by Lord Napier will be followed by Sir Frederick Haines and the Commander-in-Chief of the other Presidencies. The Government also might help in the same direction, by insisting that military civilians shall be debarred from rising in that branch of the Service which of their own choice they virtually forsook.—*Allen's Indian Mail.*

Hobart Pasha and Col. Valentine Baker, late 10th Hussars, are reported to have proceeded to Burgas, in Roumelia, in order to view the country where the Turkish army will have to take up a defensive position in the event of the Balkan passes being forced by the Russians.

The London correspondent of the *Irish Times* points out that "it is quite an erroneous impression that the mobilization scheme, as shown in the 'Army List,' is intended as the basis of organization for any army we may require to place in the field for a Continental war. It is generally supposed that on the outbreak of hostilities the corps composing certain of the Army Corps would receive their orders for immediate embarkation, irrespective both of strength and the length of time they have passed on home service. Writers in the London Press are continually running away with this idea, which is a most irrational one. The Army for foreign service, and that for the defence of the United Kingdom, are intended to be quite distinct. The force we should send on to the Continent would consist, as far as possible, of troops which have passed a long time on home service; whereas in arranging the mobilization scheme the Intelligence Department took no heed whatever of the state of preparedness to which regiments had attained. The mobilization scheme of last year was drawn up with one object—that of preventing confusion at a moment when all would be excitement, and when the enemy approaching our shores would leave us no time to mature plans for meeting his attack. It would be a dangerous expedient to embark for active service a number of regiments only recently returned from abroad. Such corps have necessarily deteriorated during their absence, and have a right to expect that time will be allowed them to rub themselves into shape. Were the mobilization scheme strictly abided by, no consideration could be hoped for, as the last arrived regiments would stand a chance of being packed off at a moment's notice, whether they were recruited up to their proper strength or not."

LONDON, SATURDAY, JANUARY 13, 1877.

And so the "Hermit of Varzin" has shown his hand at last—and it holds war! The man of "blood and iron" seems to have become alarmed at the prospect of a peaceable solution of the question, and to have resolved that Russia shall not retreat—that Turkey must be forced to accept terms without any sort of concession, while all know that she cannot admit these terms without war. These are the results to which the promises made in the German Parliament have come—that nothing would be done unless German interests were touched! This is the answer to the touching appeal of the leading English newspaper to Prince Bismark to take the control which belonged to him, and to use it for the maintenance of peace. There may be an access of anger and ill-temper on the part of the Chancellor, for he is ill, and when he suffers the world in general is made to feel it. In Baron Werther he has one of the least sympathetic and one of the dryest and least courteous of diplomatists, but it would seem that he is too gentle and conciliatory for the Master of the Situation. The position in which not only England, but the Great Powers generally are placed by this extraordinary outburst, if we are to accept the news as absolutely true, is humiliating to the last degree. What a commentary on this are the assurances which we all read in a letter from Pera this week, that Lord Salisbury's efforts to force the Turks to accept the proposals of the Conference had been frustrated by the coldness of the attitude of Germany! It would seem as if it was England, France, Austria, Italy, and Russia which were too lukewarm for the fiery Hun at Berlin. He rebukes these for their moderation and indulgence! "Away with your concessions! No more adjournments! Present the proposals which the Turk says he cannot swallow at the point of the sword at once." But supposing that the Turk answers with a *non possumus*, will Germany join Russia in the field? Certainly not. Russia is pledged before Europe to force the Sultan to submit. Let Russia keep her word and try. If defeated, it will be the better for Germany, for her neighbour will be weakened exceedingly. If successful, she will be weakened also, and then the friendly States will come in to assist in dividing the spoil, or cease to be friendly and fight among each other in a holy Christian orgy—of plunder and spoliation *à la Pologne* — a process with which three of them are quite familiar—"old hands," as they say—at it. As to the advice which fanatics who appear to be filled with the spirit of Peter the Hermit give to the Government—to join in the onslaught, and to employ the British fleet to lay Constantinople in ashes if necessary—we believe that no sane English statesman would ever listen for a moment. We shall not talk of "righteous causes," for we hold that soldiers and sailors are bound to obey the orders of their superiors, but we may well speak of the dangers and wickedness of employing our Army and Navy in such a task as the destruction of a friendly Power which has given us no offence, and which can only be replaced by combinations charged with danger to the greatest interests of this Empire.

Whether war or peace may be the ultimate conclusion of the Conference now sitting at Constantinople, and whether Berlin, with a grim chuckle, will force St. Petersburg reluctantly into war, there are valuable military lessons to be learned from what has already occurred in the East. It is now hardly denied that the elasticity of the demands made by General Ignatieff at Stamboul is due to the unpleasant discoveries which have come to light in consequence of the Russian mobilization; and fortunate, indeed, for Russia is it that an Armistice and Conference gave time for these discoveries to become known. Had the Emperor declared war as soon as the orders for mobilization, the Russian Army would now probably find itself in the same position as was the French Army when it hung helplessly inactive along its own frontier, towards which the German columns were hurrying with rapid steps. Indeed, the Russians would be in a worse plight, for their administration is not only confused, but also corrupt, and their troops are not only incomplete, but also unintelligent. Nothing has been more clearly shown by the Russian mobilization than that the system of short service in the ranks and a subsequent long period does not answer when the men of the Reserve are so uneducated as to require time to regain the knowledge which they have lost since quitting the colours. With a highly-cultivated and intellectual population such as that of Germany, the short-service system allows a sufficient training, and the intelligence of the men prevents the fruits of this training being rapidly lost. Such is not the case with heavy and stupid peasantry like the Russian. It is to be hoped that in no country besides Russia the mental calibre of the ranks has been over-estimated, and the period of service under the colours wrongly diminished in proportion. It cannot now be doubted that the reports which have been circulated as to the corruption which has been found in the Russian administrative services are substantially correct. The powder which should have been in the magazines has disappeared, stores which have been paid for are absent, and the whole administration seems to have been found thoroughly impregnated with the cankers of peculation and corruption. The extraordinary part of this discovery is that it is no discovery at all. Throughout Europe the corruption and peculation that have been rampant for years in the Russian military system have been known and discussed. They have been recognised and openly commented upon at Berlin, Paris, and Constantinople. Yet the Russian military authorities appear to have been all the time wrapped in either a feigned or real ignorance of what all the world beyond themselves well knew. In our Service there is, fortunately, no fear of corruption, and except in infinitesimal quantities of peculation the general welfare of the Army will not suffer on this account. But those who know our Service well are not without anxiety that confusion may in our case be as disastrous as corruption to the Russians. There can be no doubt that the experience of the head-quarters at Kischeneff shows that the best conceived plans of mobilization, and those most theoretically perfect, are liable to break down completely and crumble into dust when practically tested. In the German Army every corps is mobilized on paper every year, and thus the place and disposition of every man, animal, and stores are accurately laid down. But practical experience is not neglected. The manœuvres last year in this country were confessedly not intended as a lesson in mobilization; but when we note how quickly wars sometimes break out, and that a Conference does not always conveniently assemble and cloak the faultiness of military preparations, it would surely be wise to test the mobilization of at least one corps. It is said that in this country there are not carriages, horses, or supplies sufficient in the arsenals to allow even one small *corps d'armée* to take the field, and that no arrangements are in existence to supply those that may be deficient. If these statements are not true, it would certainly be satisfactory to see their falsity practically demonstrated. If they are true, it is most unsatisfactory that such a state of affairs should be allowed to continue.

His Royal Highness the Field-Marshal Commanding-in-Chief will hold a levée at one o'clock on Wednesday, the 24th inst., at the Horse Guards, Whitehall, the number being limited to 150.

Major Evelyn Baring, who was Private Secretary to Lord Northbrook, is understood to have been offered and to have accepted an important office by the Khedive at a salary of £3,000 a-year. There is a rule that an officer in the Army accepting any service in foreign employ should be seconded, at all events; but, considering the ability and rare attainments of Major Baring, we hope it will not be thought necessary to carry it out in this case.

Just one word in reference to the late Mr. R. Landells, whose premature death will be so deeply regretted by all who knew him. He was one of the most kindly, gentle, and modest men in the world. Armed with a pencil only, he stood well under fire in many a battle-field with no decoration, or promotion, or honour from Sovereign or country to inspire him—nothing but a sense of duty to his employers, which animated his fearless heart with a courage as fine, and pure and high as any that ever beat beneath a soldier's breast. He recorded the most striking events of the great campaigns which Europe has seen within the last twenty years, as well as many of the most interesting scenes of the political and other occurrences at home and abroad, with a truthful and vivid touch, which carried to thousands of English homes the most accurate and admirable idea of the stress and terrors, of the pomp and circumstance of war—the agitation of popular assemblies—the aspect of actors in great pageants—the "*quidquid agunt homines*"—and never sought for any fame beyond that of being esteemed a most conscientious servant and laborious artist. He was held in much esteem by so good a judge of character as the Crown Prince of Germany, who honoured him by frequent marks of friendship, and he was frequently a guest at Les Ombrages at Versailles. Many officers in the German, Austrian, and French Armies will hear with sincere sorrow of the decease of the pleasant, unassuming comrade who shared in their bivouac and trudged beside them on the march as eager for an incident and as careless of the risk incurred in recording its features as the most gallant of them would be in the search of reputation at the cannon's mouth or in "the press of knights."

His Excellency Rear-Admiral Macdonald, commanding the fleet in the Indian Seas, has hitherto been singularly unfortunate in the way of obtaining decorations or orders, though he has had service of a very trying and arduous character. But he has been "out of the way" of medals, clasps, crosses, ribands, and even of the C.B. At last the Star of India relieves the blue monotony of his ample breast, and we very heartily congratulate him upon the recognition of his rank and services. It must have been rather trying for the gallant Admiral to appear abroad at Courts or on State occasions in the unadorned condition to which he had been condemned by accident and to see the chest of some junior officer flamboyant with all the stars of the military heavens; and we now congratulate him on his honour, and wish he may live to add to it many another.

The most conflicting accounts are being circulated as to the progress and success of the mobilization of the Russian Army. The *Invalide Russe*, basing its views on statistics, appears thoroughly satisfied with all that has happened; but more disinterested accounts testify conclusively that there has been discovered a heavy crop of abuses and disorder. It seems tolerably sure that it has been necessary to take steps to form an army of reserve consisting of two *corps d'armée*, and the Grand Duke Nicholas has asked for an increase of his artillery, as numerous guns are necessary to cover the passage of the Danube. It is said that the head-quarters of the Grand Duke are to be soon moved to Khotin, on the Pruth, and that considerable masses of troops are being moved towards the Pruth in the direction of Ugheni; that Russian officers are established in every railway-station in Roumania from Ugheni to the Danube, and that Russian engineers are reconnoitring the whole course of the Danube from Severin down to the Delta.

The concentration of the Turkish Army of the Danube is said to be completed, and the troops are now held ready for action under the command of Ahmed Eyoub Pasha. The Army of the Danube consists of thirty regiments of Infantry, three frontier regiments, thirty-one battalions of Rifles, sixteen regiments of Regular Cavalry, six regiments of Irregular Cavalry (Tcherkessis 800 men strong), sixty-eight batteries of six guns, and thirty regiments of Irregulars, each 1,800 strong. The Army is divided into five *corps d'armée*.

The *Avenir Militaire*, in a review of the military results of the year 1876, says that the English Army will no longer be able to make wars in Spain such as that against Napoleon I., or campaigns such as that of 1815, since all the other European Powers have raised their forces to a strength five times as great as in those days.

The Army Estimates, we understand, will be ready in about a month from the present date.

On the side of Asia, it is said that the Turkish fortresses of Kars, Erzeroum, Batoum, and Bajazet are thoroughly prepared for defence, and contain more numerous garrisons than at the time of the Crimean war. Kars and Batoum are especially strong, and armed with very heavy artillery. The garrisons of both these places are composed almost exclusively of regular troops. The total force of Turkish troops now near the frontier of Asia Minor may be estimated at about 95,000 men, of whom some 16,000 are regular soldiers. The Army consists of fifty-eight battalions of Infantry (each 300 strong), twenty-four squadrons of Cavalry, and twenty-eight batteries. The head-quarters of the field army are at Bajazet.

The Roumanian *Moniteur* publishes a decree stating that eight new regiments of Dorobantzi, or territorial Militia, are added to those already formed. There is thus to be in future one regiment to each two territorial military districts instead of to four, as hitherto: and when the finances of the State will permit, it is proposed to have one regiment for each of the thirty-two military districts. Two new regiments of Artillery are also to be formed, thus raising the number of regiments of that arm to four. A considerable portion of the Roumanian forces is concentrated at Khalafat, which is being strengthened, as it is supposed that the Turks may there endeavour to force the passage of the Danube.

The effective peace establishment of the Austro-Hungarian Army on December 31, 1875, was 267,332 men and 46,731 horses. The effective war establishment at the same date should have been 771,556 men and 139,694 horses, but there was a considerable excess of reserve troops above the number required to fill up the ranks.

According to the *Avenir Militaire* the new Gatling mitrailleuse is much superior to all other mitrailleuses hitherto invented in the perfection of its workmanship, the facility with which it can be manœuvred, its lightness, and the rapidity of its fire.

There are reports that on Lieutenant-General Sir Hastings Doyle vacating command at Portsmouth, Major-General H.S.H. Prince Edward of Saxe-Weimar is to succeed him.

It was long since decided to appoint Adjutants to seven of the stronger Yeomanry regiments which have hitherto been deprived of the services of that important Staff officer—indeed, the money necessary to meet the extra demands for pay has already been voted. How is it, then, that the appointments are not yet gazetted? A regiment of Auxiliary Cavalry without an Adjutant is as great an anomaly as can possibly exist. Is the delay due to the disinclination of Cavalry officers to accept appointments which will mulct them of 7s. 7d. per diem in the matter of pay alone? There is plainly some explanation necessary.

Mr. Holms is a man of respectable ability, and has studied military matters with considerable assiduity. Military organization and administration are not, however, to be learnt in the closet, and Mr. Holms is a living proof that a little knowledge is a dangerous thing. We do not purpose to examine very closely the crude utterances of the Member for Hackney when addressing his constituents. His great remedies seem to be an independent audit of military expenditure, a still further shortening of service, a diminution in the number of officers, and the creation of a flow of promotion by simply kicking out from time to time a certain number of officers without granting them compensation for breach of faith and contract. He and his political friends were very ready to promise that promotion should not be retarded by the abolition of purchase, and that all vested interests should receive as much consideration as was shown to the West Indian holders of slaves. When, however, called upon to redeem their engagement, they object to the necessary expenditure. As to a reduction of the length of service, the idea is simply absurd.

The Navy.

APPOINTMENTS.

Commander—W. E. de C. Cookson, to the Hibernia, vice Twiss, promoted.

Lieutenant—M. F. Luther, to the Minotaur, additional.

Navigating-Lieutenants—E. J. T. Behenna, to the Raleigh; W. Horn, to the London.

Midshipmen—E. W. Cooke, L. de L. Wells, and B. C. P. Wolferstan, to the Minotaur, additional.

Surgeon—L. T. Colthurst, to the Seagull.

Alexandra, 12, armour-plated, Capt. R. O'B. Fitzroy. More workmen have been placed upon this ship, now preparing for sea at Chatham dockyard, in order to get her ready for departure as quickly as possible; but it is feared that all the extensive work in connection with the torpedo apparatus and the cutting of port-holes through the ship cannot be finished by the time fixed for the ship to leave, the middle of February; but it is said that if the work is not then completed she will not be detained in England longer, but be finally completed in this respect at Malta; though every exertion will be made to get the work done at Chatham. The laborious task of cutting ports through the iron plates of the vessel is a tedious one, as only a few men can be employed at one time, but extra hours are now worked to expedite it. Between 200 and 300 sailors have joined the ship from the Royal Naval Barracks at Sheerness, and her crew is nearly completed.

Arab, 4, composite gunvessel, Com. F. S. Broughton, arrived at Bombay on Dec. 18 from the Persian Gulf; she would be sent at once to Port Blair (Andaman Islands), touching at Rangoon.

Barracouta, 5, sloop, Capt. C. E. Stevens, is daily expected to return to England from Australia to be paid off.

Bacchante, 16, corvette. It may be remembered that while the Boadicea, corvette, was sheathed with copper over a double casing of wood, her sister ship, the Bacchante, was sheathed with zinc over a single strake of planking. The alteration was purely for experimental purposes, and was made for the purpose of ascertaining whether zinc could not be made equally serviceable as the more expensive copper as a covering for ships' bottoms. It was thought that if the planking were left uncaulked, and the water allowed free access to the ship, the galvanic action which would be set up would preserve the iron skin of the hull at the expense of the zinc sheathing. The experiment has answered in one respect, but the galvanic action which is established proves so destructive to the zinc as to rob the experiment of its economic purpose. Although the zinc is double the thickness of copper sheathing, the single sheet which was placed on the ship previous to launching her, on Oct. 19 last, has already almost disappeared.

Boxer, 4, composite gunvessel, Com. A. H. Alington, which left Sheerness on Friday last week, and had to take refuge in the Downs from the boisterous weather in the Channel, arrived in the Sound on Wednesday, and will be detained at Plymouth two or three days to make good some defects before leaving for the West Coast of Africa.

Britomart, 2, gunboat, Lieut.-Com. I. Y. Sulivan, tender to the Hector, left Portsmouth for Southampton on Monday.

Condor, 3, gunvessel, lately launched at Devonport, is to be prepared for commission without delay.

Coquette, 4, gunboat, Lieut.-Com. W. E. Darwall, was in dock at Malta on the 2nd inst. having her boilers taken out for repairs, and will be there some time. A resident, writing to us on Dec. 29, says:—"On the 16th inst. the small English colony residing in Patras received a disappointment. The Coquette, which had been for some time stationed in the harbour, to protect British interests there, received an order from the admiral to proceed to Malta at as early a date as possible. The officers and men had shown so lively an interest in the affairs of the English community, and at various times had taken so great pains to enliven a somewhat primitive little city, that their departure was regarded as a matter of general regret. Private theatricals—in which the performers were Mr. Venapion, Mr. Mills, and three of the men—and a concert had been announced. The musicians, consisting of eight Blue-jackets, had had frequent rehearsals under the superintendence of Mr. Mills, and had behaved creditably during a long preparation. The spirit of Capt. Darwall's company is so kindly, its tone so healthy, that the colony look forward in the hope at no distant day of seeing the 'taut' little ship in the blue waters of their picturesque bay again."

Cromer, 2, gunboat, Lieut. V. E. Von Donop, tender to Achilles, Coastguard ship at Birkenhead, has had a satisfactory trial of her machinery in Keyham Basin. Her repairs have cost £1,600. She will leave for her station in a few days.

Cruiser, 4, sloop, Com. J. Hext, was still at Malta on the 2nd inst. It was expected that she would be reported ready for sea by the 15th inst.

Crocodile, 3, Indian troopship, Capt. P. R. Sharpe, from Portsmouth for Bombay, arrived at Malta on the morning of the 9th inst., and left again on the following morning.

Danae, 12, corvette, Capt. J. C. Purvis, sailed from Portsmouth for Sheerness on Tuesday afternoon, where her officers and crew will in all probability be turned over to the Turquoise, should that corvette, the engines of which have also given considerable trouble, make a satisfactory mile trial. The Cochrane water tube boilers of the Danae are to be at once removed and new ones of the ordinary service kind substituted by Messrs. Humphrys and Tennant. This will necessitate the taking up of the lower deck, though the coal boxes will be allowed to remain undisturbed. The cost of supplying the new boilers will be about £6,000.

Daphne, 5, sloop, Com. G. B. Evans, will probably be out of the hands of Bombay Dockyard by the middle of this month.

Devastation, 4, turret-ship, Capt. F. W. Richards, arrived at Malta on the 31st ult. from Besika Bay, which anchorage she left on the 27th. Her passage was considerably retarded by a furious gale in the Archipelago, which obliged her to put into Karisto Bay for shelter. The wind and sea rose very suddenly at night, and, unfortunately, Charles Breeze, an ordinary seaman, was washed overboard and drowned. No boat could be lowered owing to the heavy sea; the lifebuoys were however let off, but their lights were extinguished. The Devastation went into Somerset dry dock on the 1st inst.

Euphrates, 3, Indian troopship, Capt. W. H. Cuming, made the passage from Birkenhead to Portsmouth last week in forty-nine hours. The weather was exceedingly boisterous. From the Smalls to the Land's End the ship was compelled to make headway against a gale from the south, which considerably reduced her speed. The engines worked satisfactorily the whole time, and did not require to be eased. They were worked at about 50lb. pressure, making over fifty revolutions per minute, and at times realising thirteen knots an hour.

Euryalus, 16, iron corvette. The preparations for launching this vessel at Chatham are making great progress. The day fixed for the launch is the 31st of this month; and Mrs. Stewart, wife of Rear-Admiral W. H. Stewart, C.B., Controller of the Navy, will perform the "christening" ceremony. The launching-ways are nearly completed, and the other preparations for the event are in a forward state.

Fawn, 4, sloop, Com. W. J. L. Wharton, was passed by the Jumna in the Red Sea on the 15th of last month.

Helicon, 2, despatch-vessel, Lieut.-Com. R. W. Stopford, which arrived at Malta on Dec. 23 from the fleet with a case of scarlet fever on board, has been docked and fumigated and her crew quartered in barracks. She is now refitting to be ready to return to the Commander-in-Chief on the 16th inst.

Hotspur, 3, armour-plated ram, Capt. T. M. Jones, was in dock at Malta on the 2nd inst., and was expected to be ready for further service in a fortnight.

Inflexible, 4, turret-ship. There has been some talk about placing one 160-ton gun in each of the turrets of this vessel at Portsmouth, instead of two 81-ton guns, for which she was originally designed; but, if such a change was ever intended by the Constructive Department at the Admiralty, it would now appear to have been abandoned as impracticable. The turrets are being proceeded with on the old lines, and the shot racks are being prepared to accommodate multiples of 15in., the diameter of the projectile which is fired by the 81-ton gun. Indeed, it would be impossible to place in the ship any guns of higher nature than the 81-ton, seeing that while the length of the piece is 27ft., the inner diameter of the turrets in which it is to be fought does not exceed 28ft. In action the space within the turrets for working the guns will be increased by the thickness of the wall of the turrets 2ft. 11in., *plus* the breadth of the well or gutter that intervenes between the turrets and the raised deck which covers the hydraulic rammer. It must be remembered that while the 81-ton gun measures 27ft. in length, the Italian 100-ton gun measures 33ft., so that the 160-ton gun would be probably 40ft. long, the 200-ton gun, which has also been mentioned as being about to be commenced at Woolwich, being necessarily much larger, probably 50ft. in all.

Invincible, 14, armour-plated at Devonport, which was launched in May, 1869, is to have new boilers supplied from the Portsmouth yard, and to be provided with new cylinders by the Messrs. Rennie.

Iris, 10, steel dispatch-vessel, of 3,735 tons and 7,000 horse-power, now in course of construction at Pembroke, is being rapidly got ready for launching in the ensuing spring. The Iris, differing as she does so materially from all our existing men-of-war, naturally excites great interest both among naval architects and engineers. Especial interest is felt by engineers to know how she will behave with steam of little above atmospheric pressure in her boilers. The importance of being able to work a man-of-war in action on this system cannot be over-estimated. A shot through a boiler, instead of causing a terrible calamity such as occurred on board the Thunderer, would produce comparatively little damage or confusion, and the harm done would be easily repaired. Messrs. Maudsley, the contractors for the machinery, anticipate that with a pressure of steam in the boilers of 4lb. on the square inch they will obtain about one-third the maximum power of the engines, which will give a speed of 12 knots.

Jackal, 2, iron paddle-vessel, Lieut.-Com. H. A. Digby, was at Rothesay on the 6th inst. with the Ceres, tender.

Jumna, 3, Indian troopship, Capt. J. D'Arcy, arrived at Portsmouth on Saturday last with the troops and time-expired men from Bombay. There was no birth, and the deaths were six in number during the voyage viz., three men, one woman, and two children. The passengers were made up as follow:—Military officers, 48; ladies, 13; children, 14; troops, 474; women, 105; children, 242. The Jumna left Bombay Dec. 5. She had head winds from Port Said to Malta, and fair and strong winds after leaving the Straits of Gibraltar.

Magpie, 3, gunvessel, Com. C. V. Anson, was at Singapore by last advices. The *Straits Times* reports a collision as having occurred on Nov. 16 between the Magpie and the Italian barque Boccacio. The Boccacio was considerably damaged, though the hulls of the vessels never touched each other, and was towed into this port by the Magpie. The matter was reserved to arbitration, the arbitrators for the Magpie being Capt. Ellis, the Master-Attendant, and Lieut. Boldere, of H.M.S. June; those for the Boccacio, Mr. Baxter, Lloyd's surveyor, and Capt. Gaggino, of an Italian vessel. It was alleged on behalf of the Magpie that the accident was unavoidable, and the gunboat would have cleared the Boccacio if the quarter-boat of the latter vessel had not effectually screened her starboard-bow light, and that the close proximity of the vessel was only discerned owing to a flash of lightning. The arbitrators were unable to agree, and the matter was referred to Capt. Kellock as umpire. It may be inferred from the decision that the Magpie could not have been much to blame for the collision, as each side pays its own damages, and if there were faults, they were on both sides.

Malabar, 3, Indian troopship, Capt. E. Kelly, completed the embarkation of her troops on Thursday morning at Portsmouth, and was to leave yesterday for Bombay.

Mallard, 4, composite gunboat, Lieut.-Com. A. W. Warry, left Quittah on Dec. 9 for St. Helena, taking Com. Powlett to rejoin the Spiteful.

Minotaur, 17, armour-plated, Capt. Lord W. Kerr, flagship of Rear-Admiral Seymour, C.B. Lieut. Edmund B. Wallace, of this vessel, while on duty, was killed on the 1st inst. by a yard falling on his head. He was buried the following day in the English cemetery at Lisbon.

Narcissus, 28, frigate, Capt. Lord C. Scott, flagship of Rear-Admiral Lambert, C.B. Lieut. F. V. Issac, of this ship, has been awarded the silver medal of the Royal Humane Society, for saving an ordinary seaman named Rees Williams, who fell overboard in False Bay.

Orontes, 2, troopship, Capt. E. H. Seymour, arrived on the 9th inst. at Penang, all well.

Philomel, 3, gunvessel, Com. Henry H. Boys. The silver clasp of the Royal Humane Society has been awarded to Nav.-Lieut. C. E. Drake, of this ship, for saving Hugh M'Bain, who fell overboard at sea in latitude 4 S., long. 86 E., in May last. Lieut. Drake was awarded the silver medallion for a similar act of gallantry in 1868.

Pelican, 6, composite screw-sloop, fitting at Devonport, will be supplied with engines by Humphrys and Tennant, and not by the Newcastle Engine Company, as intended. A supplementary estimate of £8,030 has had the approval of the Admiralty to meet this charge.

Penelope, 11, armour-plated, undergoing an extensive repair at Chatham, is ordered to be ready for sea by July 1.

Rapid, 3, sloop, Com. A. A. F. FitzGeorge, had arrived at the Dardanelles from Malta on the 2nd inst.

Rupert, 4, iron-clad ram, Capt. W. J. Grubbe, C.B., will be delayed at Malta by the work on board her probably until the 15th inst.

Scout, 17, corvette, has been floated into dock at Chatham to be broken up. An examination was recently made of her hull by the chief constructor, when it was found that it was beyond repair, and the Admiralty therefore gave instructions for her to be broken up. A few years ago she was thoroughly overhauled.

Seagull, 3, gunvessel, was commissioned on Tuesday at Devonport by Lieut. Graham, in the absence of Com. M. Heron, for service on the Cape of Good Hope and West Coast of Africa station. She is to have her stokehole ventilation improved to reduce the temperature, which at the trial reached 138 degrees. Mr. Bannister, assistant-engineer of the surveyor of dockyards, has been sent down to Devonport from the Admiralty to devise the best means of ventilation. This will delay the vessel several weeks.

Sealark, 8, training-brig, Lieut. F. H. Haygarth, after being detained nearly a fortnight in Plymouth Sound by bad weather, left on Tuesday to join the brig squadron at Lisbon.

Serapis, 3, Indian troopship, Capt. D. G. Davidson, left Malta on the 10th inst. for Portsmouth.

Simoom, 2, troopship, Capt. R. G. S. Pasley, arrived at Jamaica from Nassau on the 10th inst., all well, and was to leave on the 12th inst. for Barbadoes and Africa.

Sirius, 12, corvette, Capt. G. L. Sulivan, was at Quittah up to Dec. 8.

Supply, 3, storeship, Staff Com. F. Inglis, left Quittah on Dec. 5, under sail for Whydah and Cutanu, with mails for the Contest, Cygnet, and Pioneer.

Tamar, 2, troopship, Capt. W. H. Liddell, was docked at Devonport on Wednesday for overhaul and necessary repairs.

Teazer, 4, composite gunvessel, Com. C. Wodehouse, was at Muscat on Dec. 9.

Temeraire, 8, armour-plated. Orders have been received at Chatham Dockyard from the Admiralty directing this vessel, now fitting for the pennant, to be ready for sea by July 1.

Thunderer, 4, turret-ship, completed her official trips on Saturday last by a six hours' continuous full-power run. Capt. Waddilove was again in charge of the ship, the engines being worked by Mr. Robert Humphry. The wind had veered round to the south during the night, and at the time the ship got under way, at 8 o'clock, it blew "great guns," the force being between seven and nine. It was not deemed expedient to go further to the eastward than the Nab, and the trial was confined to a series of runs up and down the Solent. The vessel displayed unexpected buoyancy. The only defects in the hull and fittings observed during the day were a few leakages in the deck stuffing-boxes and a stiffness in some of the flaps forward. Mr. Humphry worked up the engines to over 70 revolutions within the first half-hour, no blasts being used. During the runs to the eastward in the teeth of the wind the ventilation was all that was demanded; but the moment the ship's head was turned to the westward, the ventilation in the stokeholes became defective. Both blasts were then put in requisition, with what results the following means during each half-hour will show:—1. Revolutions, 72; pressure in cylinders, 18·225lb.; h.p., 5,207·19. 2. Revolutions, 74; pressure in cylinders, 18·53lb.; h.p., 5,436·51. 3. Revolutions, 73; pressure in cylinders, 19·375lb.; h.p., 5,563·53. 4. Revolutions, 74; pressure in cylinders, 18·45lb.; h.p., 5,432·64. 5. Revolutions, 74; pressure in cylinders, 19·275lb.; h.p., 5,675·26. 6. Revolutions, 77; pressure in cylinders, 20·625lb; h.p., 6,093·09. 7. Revolutions, 76; pressure in cylinders, 19 55lb.; h.p., 5,890·55. 8. Revolutions, 76; pressure in cylinders, 19·45lb.; h.p., 5,834·98. 9. Revolutions, 76; pressure in cylinders, 20·425lb.; h.p., 6,173·44. 10. Revolutions, 77; pressure in cylinders, 19·65lb.; h.p., 5,980·40. 11. Revolutions, 79; pressure in cylinders, 19·925lb.; h.p., 6,134·36. 12. Revolutions, 73; pressure in cylinders, 19·608lb.; h.p., 5,932·95. The means of the 12 half-hours were:—Pressure in boilers, 27·80lb.; vacuum—starboard forward engine, 27·3lb.; starboard after engine, 25·79lb.; port forward engine, 27·99lb.; port after engine, 25·52lb.; revolutions per minute—starboard 75·20, port 75·03; pressures in cylinders—starboard 19·491lb., port 19·253lb. to the square inch; indicated horse power, 5,748·97, or about 149 horses beyond the contract power. The great difficulty experienced was to prevent the engines developing superfluous power, there being neither hot bearings nor priming, nor trouble of any kind, to impair the working of the engines during the six hours. For the first four half-hours the revolutions were purposely kept down, but when the blasts were applied the arrears of power were so rapidly worked up that it was subsequently necessary to ease the machinery somewhat. Even with all the care exercised the power exerted on the 6th, 9th, and 11th half-hours exceeded 6,000 horses. The amount of Nixon's steam navigation coals consumed during the six hours was forty-eight tons, or eight tons an hour. This represents an expenditure of 3·14lb. per indicated horse-power per hour, a result which may be regarded as highly satisfactory from an economical point of view, considering the amount of useful work performed. The Thunderer, having now passed successfully through the whole of her steam trials, will be shortly commissioned at Portsmouth by Capt. Wilson, and will leave for the Mediterranean, to take the place of the Devastation on that station.

Undaunted, 31, frigate, Capt. H. W. Brent, flagship of Rear-Admiral Macdonald, was at Bombay up to the 18th ult.

Vestal, 9, sloop, Com. H. Hand, senior officer, was at Aden and in the vicinity on Dec. 18.

Victoria and Albert, 2, Royal yacht. Capt. Hugh Campbell was on Tuesday presented to the Queen at Windsor Castle by Lieut.-Gen. Sir T. M. Biddulph, K.C.B., on his appointment as captain of her Majesty's yacht, in succession to H.S.H. the Prince of Leiningen, G.C.B., who resigned the command on promotion.

Vulture, 3, gunvessel, Com. H. H. Washington, is intended for service in the East Indies, and as she will spend a considerable portion of her time in the Persian Gulf, the Admiralty has ordered her to be provided with an ice-making machine.

Wye, store-ship, Staff-Com. W. W. Vine, left Malta on the 2nd inst. to join the flag of the Commander-in-Chief with stores and mails.

NAVAL AND MARINE FURNITURE.

The following important Circular relative to the supply of furniture to official houses in the occupation of Naval and Marine officers, and of plate, linen, &c., to Admirals and officers in command of her Majesty's ships, has been issued by the Admiralty, and will be found interesting to all officers in command, and will go far to set a vexed question at rest:—

My Lords Commissioners of the Admiralty having had under their consideration the system under which furniture, &c., and plate, linen, &c., are supplied to official houses in the occupation of Naval and Marine officers, and to admirals and officers in command of her Majesty's ships, are pleased to direct that the following regulations shall come into force on and after this date in lieu of those of June 28 and 29, 1869.

The object of these regulations is, by charging a fixed percentage for the use of furniture, plate, linen, &c., to remove the uncertainty which prevailed under the system of 1869 as to the amounts which would be payable by officers in respect of deterioration which might be found to have arisen on the revaluation of the furniture, plate, linen, &c., at the close of each tenancy or period of command, and at the same time by recovering from officers any loss to the Crown due to manifestly unfair usage or deficiency of articles supplied, to enforce a proper amount of care of the public property placed under their charge, and also to promote uniformity and economy by restricting supplies to articles of established patterns.

Officers holding furniture, plate, linen, &c., under existing regulations may close their accounts under those regulations, and open an account under the regulations hereby instituted; provided they proceed as described in Article 17, page 7, and Article 13, page 10.

The annexed detailed instructions, for the proper carrying out of these regulations, are to be carefully observed, and a copy of the regulations is to be given to each officer who is now supplied with furniture, &c., or plate, linen, &c., under the regulations of June 28 and 29, 1869.

The regulations dated June 28, 1869, as to the supply of residential furniture, and their Lordships' Circulars No. 39 S, dated June 29, 1869, as to supplies of plate, linen, &c., to admirals and officers in command of ships; No 27, N.S., dated March 23, 1870; No. 1, N.S., dated March 19, 1871; No. 16, N.S., dated March 10, 1871; No. 50, N.S., dated Sept. 25, 1871; and No. 21, A.G., dated April 6, 1872, are hereby cancelled for all future supplies, but will govern existing accounts until they are closed.—By command of their Lordships,

Robert Hall.

As the regulations occupy thirty-three pages, we cannot do more than extract some of the more important rules:—

As regards the supply of furniture, &c., to official residences, all Naval and Marine officers appointed for periods not exceeding five years, who are entitled to, and in the occupation of official residences, will be allowed furniture of the description or pattern and to the extent considered by their Lordships to be suitable:—Houses or quarters occupied by officers whose salary is under £700 per annum—Permanent furniture, consisting of tables, chairs, bedding, toilet ware, fire-irons, carpets, curtains, rolling-blinds, &c., but not cutlery, table glass and china, kitchen or cooking utensils. Houses occupied by officers whose salary is £700 per annum, or upwards—Permanent furniture as above (table linen, *i e.*, table-cloths and napkins, to such officers only as have "table-money") cutlery, table glass, and china, and kitchen or cooking utensils, except such as are of slight value, or require frequent replacement. Seven and a-half per cent. per annum on the value of the articles at the time of their supply is to be paid by the occupant during his entire tenancy. After the close of each tenancy the losses and damages will be made good, and the furniture in each house made suitable for the occupation of an incoming tenant, and will be revalued. The percentage is to be recovered half-yearly, viz., on the first days of April and October in each year, and the balance on the termination of the tenancy. Their Lordships exercise the right of charging the occupant with any amount which, by survey held either during the tenancy on a request for replacement, or at the close of the tenancy, may be shown to represent depreciation occasioned by manifest ill-usage or culpable neglect. The orders for so charging the tenant will be given after survey on the home station by the Admiralty, and on foreign stations by the superintendent or senior naval officer. The expense of putting in repair and replacing furniture on change of tenancy is not to be incurred without their Lordships' approval, on estimate previously submitted, except on foreign stations. Provision will be made in the annual dockyard votes for the cost of the whole of this furniture. Officers holding furniture, &c., under existing regulations, may close their accounts under those regulations, and open accounts under the regulations hereby instituted, provided such officers give notice to the superintendent of the yard from which the furniture in use in their houses was supplied within six weeks after the receipt by them of these instructions. The yard officers will then close the account on the old regulations, and proceed as directed by Article 11.

As regards the supply of plate, linen, &c., to admirals and officers in command of her Majesty's ships, each ship on fitting out will be furnished in accordance with the annexed scale with the supply of plate, linen, &c., that has been fixed by their Lordships as suitable for the use of the admiral or the officer in command. This supply will be kept at an uniform standard of fitness for use by means of half-yearly replacements as hereinafter provided, and an uniform charge of 7½ per cent. upon the value of the articles supplied will be made against the admiral or officer in command for it. The value upon which percentage is charged is not to be altered in consequence of any supplies or returns made in accordance with the provisions of Articles 4 and 5. In the event of officers not wishing to take all the articles allowed by the annexed scale, they may be supplied with such smaller quantities as they may require. Articles supplied under these regulations (except such as have become unserviceable) are not to be removed from the ship in which they have been placed until their final return into a dockyard. The exceptions to this rule are, where the entire crew is transferred to another ship, where an admiral shifts his flag from one ship to another, when the articles provided for his personal accommodation will, as a matter of course, follow him, and the flag captain at Sheerness, who is allowed to be supplied at the naval barracks on shore where he resides with the establishment of plate, linen, glass, &c., allowed to officers afloat, as well as the permanent furniture, &c., allowed to officers in official residences. The percentage to be charged to a succeeding officer is to be calculated on the original value of such of the articles as may be transferred to him, and if any of the articles at the time of the transfer are in an unserviceable condition, and cannot then be replaced, they can be renewed at the next depot at which the ship may touch. The percentage chargeable under these regulations, as described in Article 1, is to be recovered half-yearly, viz., on the first days of April and October in each year, and the balance at the close of the account, by the paymaster of the ship, who is to pass it through his cash account in the usual way, giving a receipt for the same on the proper form, and transmitting a duplicate thereof as a debit voucher to his cash account. Officers holding plate, linen, &c., under existing regulations, may close their accounts under those regulations, and open accounts under the regulations hereby instituted, provided such officers give notice through the commander-in-chief or senior officer present to the officer in charge of the next dockyard or depôt of naval stores at which they may arrive, after the receipt of these instructions. The officers of the yard or depôt will then close the accounts under the old regulations, and prepare vouchers, &c., in accordance with Articles 1 and 3, reporting to the secretary of the Admiralty (naval store branch) what has been done.

TONNAGE AND PROPULSION OF SHIPS.

On Wednesday last, at the Royal Naval College, Greenwich, Mr. W. H. White, Assistant-Constructor of the Navy, commenced a course of lectures on the "Tonnage and Propulsion of Ships." There are so many kinds of "tons" used for purposes of measurement, and so much confusion of terms takes place, that an explanation of the various methods must be welcome to the naval officer. In the "Navy List" he finds two tonnages side by side: one that has appeared for a very long time—the builders' measurement—the other of recent introduction—the displacement. Supposing the ship on which he serves has to go through the Suez Canal, an officer has to pay dues upon still another kind of tonnage—the register tonnage, by which all merchant shipping is measured. Meeting with an English yacht, he may find her measured by still another rule, or rather by one of two or three rules used only for yachts. And to still further complicate matters, a shipowner may introduce another ton—the freight-ton of commerce. Here, then, are five or six rules for tonnage in use simultaneously for different purposes; and it is pardonable for any one unfamiliar with the subject to make mistakes. Mr. White mainly dwelt on the builders' measurement and displacement tonnages of the "Navy List," explaining the reasons which led the Admiralty four years ago to accept the latter as the sole measurement for future ships. By the displacement is simply meant the total weight of a ship and all she carries, when fully laden. A war ship being designed to carry certain maximum weights, and to have a certain load draught, can be best measured in this way. The displacement is, as it were, the material upon which the naval architect has to exercise his skill, for it regulates the cost of ships of similar character. Out of the displacement has to be carved the hull, with all its fittings, and then the remaining weight is available for its armour, armament, engines, coals, &c.; in duly proportioning these the greatest consideration is requisite. Builders' measurement, on the contrary, is an unscientific and not unfrequently unmeaning mode of measurement. When used for merchant ships it led to the construction of deep narrow ships, unseaworthy and dangerous, but having a small nominal tonnage in proportion to their carrying power. Up to the time that steamships came into use, builders' measurement was not open to serious objection when applied to war ships, because all classes of sailing-ships were comparatively similar in forms and proportions. But when steamers and armoured ships were introduced it was necessary to meet the changed conditions by introducing the fairer mode of displacement tonnage.

Notwithstanding the discomforts of a gale of wind Christmas Day was spent on board the fleet in Besika Bay as pleasantly as could be expected; the ships were decorated with bunches of evergreen at the mastheads and yardarms. The usual hilarity prevailed on board, and everything went off very orderly. The Commander-in-Chief and Staff were the guests of the officers of the ward-room in her Majesty's ship Hercules.

The Admiralty have removed the names of a firm of engineers from the list of those invited from time to time to tender for engineering works to be executed for the Government, in consequence of a member of the firm having offered a sum of money to one of the dockyard officials with the view of obtaining his support in certain transactions in which the firm was concerned.

A torpedo boat for service at Bermuda is being constructed for the Government by Messrs. Rennie and Co., of Grenwich. She is to be an iron vessel about 70ft. long, and will be employed both for practice and for laying submarine mines for the defence of the island.

Rossetter's Hair Restorer.—This unrivalled preparation has now been before the public for many years, and as its success has led to several spurious imitations, the public should be on their guard. Rossetter's preparation is the only one that will with certainty restore grey hair to its original colour, remove dandruff, prevent the hair from falling off, promote its growth, and give it the lustre of youth.

THE STRENGTH OF THE NAVY.

From the periodical return of the strength of the Royal Navy, just issued, it appears that more vessels have been added to the list within the last six months of the past year than in a similar period for some time past. According to that return, no less than eleven vessels of various tonnage and power have been launched in that period, and at the present time there are under construction at the various Government Dockyards and by private firms thirty-eight others of various sizes, including thirteen ordered to be built within the six months referred to. The vessels recently launched and in course of completion for sea are the Emerald, Ruby, and Turquoise, composite screw corvettes, to carry fourteen guns each, of 1,864 tons, and engines of 2,100 indicated horse power. The first-named was built at Pembroke Dockyard, and the two others by Earle's Shipbuilding Company at Hull. The Turquoise is now at Sheerness. These vessels are known as the "gem ships" from the fact of their being named after precious stones; the engines are compound, with two horizontal cylinders, 57in. and 90in. diameter respectively with a stroke of 2ft. 2in. They are each 200ft. between perpendiculars, with an extreme breadth of 40ft. The Osprey and Penguin, two of four screw composite sloops to carry six guns each, of 1,124 tons, and engines of 900-horse power; the Osprey was built at Sheerness and the Penguin at Glasgow; the latter vessel has since arrived at Devonport. The Wild Swan, another of this class of vessels, was completed some time since, and the Pelican is not yet finished. The Northampton, one of two 12-gun double screw iron armour-plated ships, of 7,323 tons and 6,000-horse power engines, built at Glasgow by Messrs. Napier and Sons. The Bacchante, a sister ship to the Boadicea, a 16-gun iron screw corvette, cased with wood, of 3,932 tons, and engines of 5,250-horse power, launched at Portsmouth. Two vessels of the Lily class, with iron frames, beams, &c., cased with wood, three-gun screw composite gun vessels, each of 774 tons and 750-horse power engines, named the Flamingo and Griffin, the former built at Devonport and the other at Birkenhead, by Messrs. Laird. Two double-screw iron gunboats, each of 363 tons and 310-horse power engines, to carry three guns each, named the Medina and Medway, built by the Palmer Shipbuilding Company, at Jarrow-on-Tyne, now completing at Portsmouth. The new vessels ordered within the six months to be constructed, and for which the necessary preparations have been made, include a six-gun screw composite sloop, of 1,124 tons and 900-horse power engines, preparing to be built at Sheerness, to be named the Gannet. Six screw corvettes, to carry fourteen guns each, to be constructed of steel and iron, sheathed with wood. They are to be of 2,377 tons each, with engines of 2,300-horse power. The contract for these newly-designed vessels has been taken by Messrs. Elder and Co., of Glasgow, and they are to be named Carysfort, Champion, Cleopatra, Comus, Conquest, and Curaçoa. The introduction of steel for the hulls of war ships will effect a considerable diminution of weight, and consequently insure increased speed. The steel hull is to be encased in teak and covered externally with copper sheathing. The machinery and boilers are to be protected by a strong armoured deck, and it is anticipated that they will attain a speed of about twenty miles an hour. Messrs. Elder and Co. are to be allowed two years to complete the vessels. The other new vessels commenced are six double-screw iron gunboats of 363 tons each, and engines of 310-horse power. They are to be called the Dee, Don, Esk, Slaney, Trent, and Tweed, and are intended to carry three guns each. The contract for these vessels has been given to the Palmer Shipbuilding Company, at Jarrow-on-Tyne. The other vessels under construction include two double-screw iron armour-plated turret ships, to carry four heavy guns each, and are to be of 8,492 tons, with engines of 6,000-horse power each; they are to be named Agamemnon and Ajax, building at Chatham and Pembroke respectively; a twelve-gun double-screw iron armour-plated ship, similar to the Northampton, of 7,323 tons and 6,000-horse power engines, to be named Nelson; and, under construction by Messrs. J. Elder and Co., of Glasgow, an iron screw corvette, of 3,932 tons, to carry sixteen guns, and engines of 5,250-horse power. This vessel, which is cased with wood and has a covered battery, is being built at Chatham, and is to be named Euryalus. The Garnet, another of the gem ships, similar in every respect to those of the same class already launched, is building at Chatham. The Pelican, a sister ship to the Osprey and Penguin, is under construction at Devonport; a six-gun composite sloop, of 1,124 tons and 900 horse-power engines, building at Chatham, to be named the Cormorant; two double-screw steel despatch vessels, of 3,735 tons each and 7,000-horse power engines, designed to carry ten guns, are both being built at Devonport, and are to be named Iris and Mercury; two vessels of the Lily class, each to carry three guns, of 774 tons and 750-horse power engines, named the Condor and Falcon, both launched this year, building at Devonport and by Messrs. Laird at Birkenhead respectively. Of gunboats, in addition to those previously referred to, there are now under construction six screw composite gunboats, to carry four guns each, of 455 tons and 360-horse power engines—two building by Messrs. J. and G. Thomson, of Glasgow, to be named the Firebrand and Firefly; two under construction by Earle's Shipbuilding Company at Hull, to be called the Firm and Forester; and two others, the Forward and Foxhound, being built by the Barrow Shipbuilding Company at Barrow-in-Furness; four 3-gun double screw iron gunboats of 363 tons and engines of 310-horse power, to be named respectively Sabrina, Spey, Tay, and Tees, contracted for by the Palmer Shipbuilding Company at Jarrow-on-Tyne. There are also four double screw iron gunboats, of 264 tons and 168-horse power engines, each to carry one gun, ordered to be built at Pembroke, to be called Gadfly, Griper, Pincher, and Tickler, but the construction of these boats has for some considerable time been suspended.—*Times*.

The Government had invited certain shipbuilders to tender for the supply of horse-boats, contrived on a principle similar to one manufactured by the Admiralty, and tried with success at the Royal Dockyard, Woolwich, a short time since. By carrying one of these boats as part of her equipment, a troop-ship could land a large force of Artillery, horsed, manned, and ready for active service, much more readily than by the means at present existing.

Staff-Commander Joshua Whiting, who died a few days since in his sixty-third year, served as master in the Siren, 16; commanded successively by Commanders Harry E. Edgell and Thomas Chaloner, on the coast of Africa, from May, 1845, until 1848. He was afterwards, from March, 1854, till 1856, master of the Belleisle, 6, hospital-ship in the Baltic; and from July, 1856, until June, 1860, in the Imaun, 72, receiving-ship at Jamaica. He became Staff-commander on the Reserved List, June 11, 1863.

Throat Irritation.—The throat and windpipe are especially liable to inflammation, causing soreness and dryness, tickling and irritation, inducing cough and affecting the voice. For these symptoms use glycerine in the form of jujubes. Glycerine, in these agreeable confections, being in proximity to the glands at the moment they are excited by the act of sucking, becomes actively healing. Sold only in 6d. and 1s. boxes (by post for 14 stamps), labelled "James Epps and Co., Homœopathic Chemists, 48, Threadneedle Street, and 170 Piccadilly, London."

THE SLAVE CIRCULARS.

A correspondent of the *Times*, writing from Jeddah on Dec. 11, says:—"A case not provided for in the last Admiralty Fugitive Slave Circular has just arisen at this port. On the 10th a black man swam off to her Majesty's ship Fawn from the town. On reaching the ship he informed the captain of that vessel that he was a Nubian who had been bought a short time ago by his present master, and that in consequence of the hardness of his work he had refused to obey his master's orders, and had run away. There being no accommodation for a fugitive slave on board the Fawn, the captain referred to Slave Circular No. 3 to ascertain what to do with the fugitive; he found that my Lords had not provided for such a case—viz., how to dispose of a slave when you want to get rid of him and he is not claimed. The captain was in a difficulty; but, fortunately for him, there is an acting British Consul here, so the captain handed the negro over to the Consul, and thus got out of his predicament. The Consul, I believe, handed him over to the Turkish Governor, and the latter personage transferred him to his master, and consequently the would-be free man is again a slave. While on the question of the Slave Trade, I would remind you that the captains of British men-of-war are at present powerless to act here, there being no treaties with either Turkey or Egypt for the suppression of the Slave Trade. It is a well-known fact to residents that numbers of slaves are imported into Jeddah and other Turkish Red Sea ports in a most open manner from the opposite coast, notably from Sawakin and Massowah, the voyage being performed in vessels carrying either the Turkish or Egyptian flag. I am told that the British Government has been frequently informed that such is the case by the Consul here, and at last they have ordered that men-of-war passing down the Red Sea are to call in at certain ports; this, doubtless, has a slight moral effect, but is almost useless unless the captains of the ships receive more definite orders. What is wanted is a right to search, seize, and confiscate vessels engaged in the Slave Trade. With this right a few gunboats would soon put a stop to or at least prevent to a great extent the traffic which now exists. Domestic slavery, at the same time, should be defined, so as to prevent slave-owners from escaping (as they now often do on the East Coast of Africa) by using that plea."

The Constructor, the assistant to the Chief Engineer, and the foreman of the Keyham yard, have been ordered to proceed to Portsmouth yard to acquaint themselves with the fitting of torpedoes to ships, for the purpose of fitting the fish torpedo to the Agincourt.

Mr. J. Lewis Kirkness, the present secretary to Rear-Admiral Luard, C.B., has been selected in the same capacity by Vice-Admiral Hornby, the new Commander-in-Chief on the Mediterranean station. Mr. Kirkness will shortly leave for England to take up his appointment, and Mr. George W. Mackey will then perform the duties of secretary to Admiral Luard.

Orders received at Chatham from the Admiralty direct an increase to be made in the number of engineer artificers now serving on board the various vessels of war, consequent, it is understood, on the dearth of engineers which now exists in the Royal Navy

An order has been issued at all home ports to the effect that petty officers and seamen on shore during leave of absence shall not wear civilian clothes without the permission of their commanding officer.

There are some who try to persuade us that *esprit de corps* is a thing existing only in the minds of a few over-steadfast admirers of the soldierly characteristics of the British Army. A correspondent of the *Irish Times* says:—"If those who favour this view could have heard the indignation with which an announcement was received the other day as to suggested changes in the designation of regiments, they would have been disabused. This re-numbering is only a proposal, I am aware; but I would strongly recommend the Secretary of State for War to think twice ere he allows it to assume any more definite form. A madder idea I never heard mooted; and I have heard some strange suggestions thrown out in my time."

The *Times* says:—"There is, we believe, every probability of a new Inflexible being constructed to carry two or more of the monster guns which it is proposed to build in emulation of the 100-ton guns with which the Duilio and the Dandolo will be armed by the Italian Government. What shape the monster will take, it is impossible to say; but it is clear that she will not be broader than the present Inflexible, as the country does not possess a dock which can accommodate, either for construction or for completing for sea, a ship of a broader beam than the Inflexible. Nor can the powerful shears which have been erected at the end of the new fitting basin at Portsmouth plumb a boiler or other heavy weight a distance from the coping stones of more than the middle line of our largest double-turret ship. To give her the necessary buoyancy, therefore, it would be requisite to give the new Inflexible greater vertical depth, which would so increase her draught as to preclude her from following ships of lighter build. Besides, before laying down the keel of a new monster turret-ship it is expedient to ascertain practically what the effect would be of firing the 81-ton gun in couples or fours upon the ship carrying them, and upon the heaviest armour with which it is possible to protect men-of-war. The simultaneous discharge of the 38-ton guns in the fore turret of the Thunderer broke the skylights and gear faces, while some of the T-iron beams that support the superstructure were loosened from the bolts that secured them to the sides of the ship, and cracks were produced in the welding at the ends. In like manner there is every reason to fear that the enormous concussion of the pairs of 81-ton guns on board the Inflexible will tear up the deck-plating, when firing one end-on, and probably rip up the sides of the superstructures. The fact is, nothing can yet be predicated of the effects of firing these tremendous guns on board ship. Mr. Barnaby proposes, we understand, to settle the question practically by firing the guns from a floating platform resembling the deck of the Inflexible, and until this experiment has been made it is premature to think of constructing ordnance of greater power. At the present time the 81-ton guns are capable of penetrating any armour afloat, and with battering charges they would probably be sufficient to disintegrate the ponderous plating of the Italian monitors themselves."

The Navy Gazette.

ADMIRALTY, JAN. 8, 1877.

Nav.-Lieut. W. H. James has been promoted to the rank of Staff-Com. in H.M.'s Fleet, with seniority of 7th inst.

JANUARY 9, 1877.

Chaplain the Rev. F. C. Stebbing, B.A., R.N., has been appointed Naval Instructor in H.M.'s Fleet, with seniority of Dec. 28, 1876.

JANUARY 10, 1877.

Naval Instr. the Rev. J. H. Blunn, LL.M., B.A., R.N., has been appointed Chaplain in H.M.'s Fleet, with seniority of Jan. 8, 1877.

JANUARY 11, 1877.

In accordance with the provisions of H.M.'s Order in Council of Feb. 5, 1872, Sub-Lieut. N. Parker has been placed on the Retired List of his rank from this date.

JANUARY 12, 1877.

Royal Naval Artillery Volunteers—Liverpool Brigade: Capt. J. E. Hunter, R.N., to be Hon. Lieut.; Jan. 12, 1877. The Rev. F. N. Jewesbury, B.A., to be Hon. Chaplain; Jan. 12, 1877.

The Army Gazette.

WAR OFFICE, PALL MALL, JANUARY 12, 1877.

Commissariat and Transport Department—Assist.-Comy. W. B. Brabazon retires upon temporary half pay; Jan. 13, 1877.

Chaplains' Department—The Rev. W. J. Lough to be Chaplain of the Fourth Class; July 5, 1876, such antedate not to carry back allowances.

INDIA OFFICE, JANUARY 11, 1877.

Her Majesty has been pleased to approve of the following promotions amongst the officers of the Staff Corps, and of H.M.'s Indian Military Forces, made by the Governments in India:—

BREVET.

Capt. A. W. Capel, Bengal Cavalry, to be Major, in succession to Col. (borne as Major-Gen. on the Indian List) H. T. Vincent, Bombay S.C., deceased; July 12, 1876.

To be Major—Capt. P. L. Gordon, Madras Cavalry; Oct. 4, 1876.

SUSTANTIVE PROMOTIONS.

BENGAL STAFF CORPS.

To be Majors—(Brevet Major) J. Sconce; Oct. 11, 1876. Capt. F. Gellie; Oct. 20, 1876, and (Brevet Lieut.-Col.) C. M. MacGregor, C.S.I.; Oct. 20, 1876.

To be Capt.—Lieut. N. C. Martelli; Oct. 11, 1870.

BOMBAY STAFF CORPS.

To be Majors—Capts. F. T. Humfrey; Sept. 26, 1876. (Brevet Major) J. M. Sexton; Oct. 1, 1876, T. Trueman; Oct. 20, 1876; and J. Jopp; Oct. 20, 1876.

The Militia Gazette.

WAR OFFICE, JAN. 9, 1877.

Where not otherwise specified, the following commissions and announcements bear date Jan. 10, 1877:—

Bedford—The first Christian name of Lieut. Sebright is Guy, not Grey, as stated in the *London Gazettes* of May 8, 1874, and Sept. 19, 1876.

Cambridge—Lieut. J. E. Foster to be Capt.

Royal Carmarthen Artillery—William Washington Hancock, gent., to be Sub-Lieut.

Royal Denbigh and Merioneth—Capt. P. Yorke resigns commission; Lieut. R. A. L. Cabrera resigns commission.

2nd Derby—Alfred Palmer Morewood, gent., to be Sub-Lieut. (Supy.). The Hon. Dudley Henry Eden Stanhope to be Sub-Lieut. (Supy.).

Dorset—Capt. C. G. Fryer resigns commission; Dec. 11; 1876.

Durham Artillery—Capt. T. Hutchinson resigns commission. Capt. W. E. Chapman, from the 7th Royal Lancashire Militia, to be Capt.

3rd Royal Lancashire—Capt. S. L. Taylor resigns commission. Reginald Gordon Chambers, gent., to be Sub-Lieut.

Leicester—Sub-Lieut. F. H. A. Yates to be Lieut.; Jan. 9, 1875.

Royal North Lincoln—Edward Snow Mason, Esq., late Capt. and Adjt., to be Major (Supy.). Arthur Edmund Harper, gent., to be Sub-Lieut.

4th or Royal South Middlesex—Arthur Vincent Dowdall FitzGerald, gent., to be Sub-Lieut. (Supy.).

Royal Monmouth—Lieut.-Col.-Comdt. and Hon. Col. J. F. Vaughan resigns commission, also is permitted to retain his rank, and to continue to wear the uniform of the regiment on his retirement.

1st or West Norfolk—Sir Kenneth Hagar Kemp, Bart., to be Sub-Lieut. (Supy.); Arthur Leetham, gent., to be Sub-Lieut. (Supy.).

Northumberland—Sub-Lieut. R. B. Barrett to be Lieut.; Jan. 9, 1875. Sub-Lieut. J. Rea to be Lieut.; March 13, 1875.

The (King's Own) 1st Stafford—Capt. the Hon. W. F. Dawnay resigns commission.

Worcester—The Hon. Arthur Charles Edward Somerset to be Sub-Lieut. (Supy.).

East York—Charles Hildyard Thornton Whitaker, gent., to be Sub-Lieut. (Supy.).

2nd West York—George Frederick Lees, gent., to be Sub-Lieut.

Royal Aberdeenshire Highlanders—Lieut. the Hon. A. Hay resigns commission. Ernest Charles Elphinstone Dalrymple, gent., to be Sub-Lieut. (Supy.).

Edinburgh Light Infantry—Ernest Archibald Davidson, gent., to be Sub-Lieut.

Royal Perth—Capt. G. C. Wylie resigns commission.

Scottish Borderers—Mordew Ewart Carthew-Yorstoun, gent., to be Sub-Lieut. (Supy.). Robert Scott Kerr, gent., to be Sub-Lieut. (Supy.).

Antrim—Lieut.-Col. E. D. Leslie is granted the hon. rank of Col.

Antrim Artillery—Henry Benjamin Johnson, gent., to be Sub-Lieut. (Supy.).

Armagh—Gratton Guinness Lemon, gent., to be Sub-Lieut. (Supy.).

Dublin County—George Colthurst Vesey, gent., to be Sub-Lieut. (Supy.)

Fermanagh—William Irvine D'Arcy, gent., to be Sub-Lieut.; Rochfort Edie, gent., to be Sub-Lieut.

Waterford Artillery—Major and Hon. Lieut.-Col. L. G. F. Keane to be Lieut.-Col., vice Sir J. Esmonde, Bart., deceased; Arthur Bertram Ridgeway, gent., to be Sub-Lieut.

YEOMANRY CAVALRY.

Cheshire—John Kennedy, Esq., late Capt. 5th Dragoon Guards, to be Capt.; Jan. 1, 1877. Lieut. J. Tomkinson to be Capt.

Denbighshire—Lieut. G. Mousley to be Capt., vice W. D. W. Griffith, resigned.

Hampshire—William Woods, gent., to be Sub-Lieut.

Staffordshire—Lieut. E. Hall resigns commission.

WAR OFFICE, PALL-MALL, JANUARY 12, 1877.

Scottish Borderers — The first Christian name of Sub-Lieut. Carthew-Yorstoun is Morden, and not Mordew, as notified in the *Gazette* of Jan. 9, 1877.

THE PASSAGE OF THE DANUBE.

Col. Evelyn Wood, V.C., C.B., gave a lecture at the Prince Consort's Library, Aldershot, on Thursday, on "The Passage of the Danube and on the Passage of the Balkans." Lieut.-Gen. Sir Thomas Steele, K.C.B., occupied the chair, and the lecture, which was of a very instructive and interesting character, was illustrated by a series of well-executed maps and diagrams. Col. Wood commenced by observing that the Principalities of Moldavia and Wallachia must afford supplies to the Russian forces. Roumania boasts of a population of 4,000,000, but can supply double that number with food. If Russia were, however, to enter that province in the spring she would find the superfluous corn exported. But the Roumanians could support 250,000 men if the corn were kept in store. The railways could easily keep up the supplies, and in the summer a Russian army would have no difficulty in reaching the Danube, which would be the first obstacle to an invasion of Turkey, the banks on the Turkish side being deep and precipitous, and on the Wallachian side very low and muddy. The predominance of the right over the left bank continues many miles. In the progress of the Danube through Turkey the river expands from 1,400 to 2,000 yards, the depths ranging according to the season of the year. The three principal fortresses are Widin, Rustchuk, and Silistria. The point most likely to be crossed by the Russians was Turtukai, which would afford them great facilities. Silistria would probably be watched by a Russian force. The Russians might also cross at Galatz, but not in the spring, as that point of the river would be impassable then. Tultcha was another point, but it would entail great labour. Speaking of Bulgaria, Col. Wood said the streams are unbridged and numerous. There would be not so much difficulty in collecting meat supplies as corn. The Turk would probably destroy the railway from Rustchuk to Varna. The badness and paucity of the roads are the chief difficulties in crossing the Balkans. Should the Russians be able to pass the Balkans they would press on to Constantinople, which, however, is protected by a position said by the late Sir John Burgoyne to possess great advantages. Assuming Austria to remain neutral, the Russians would cross the Danube, and move towards Schumla. Varna has great capabilities of defence. Should the Turks have the command of the Black Sea, they might send a force up the Danube to cut off the Russians and compel them to attack more to the westward. The Russians at the present time have about 260,000 men, and the Turks 180,000; but sanitary reasons are likely to reduce the former considerably. As the Russians would be likely to cross about the centre of the Danube, the first rear defence would be in the Balkan Passes. The Turks, therefore, should hold the passes as long as possible, such a position offering great advantages; but if not sufficiently organized, the Russians, with 250,000 men, might secure Adrianople, and from thence advance to Constantinople.

"Sabre" sends us the following list of lieut.-colonels of Line regiments, &c., who have served three campaigns and wear three medals, viz.:—"Lieut.-Col. Swindley, 15th Hussars; Cols. Jenkins, 19th Hussars; Elkington, 6th Foot; Henning, 38th; Dalzell, 53rd; and Macdonell, 71st; and Lieut.-Col. Parsons, 103rd Foot. The following lieutenant-colonels have served two campaigns and wear two or more medals:—Col. Mussenden, 8th Hussars; Lieut.-Cols. Miller, 13th Hussars, and Lowe, 17th Lancers; Col. Macleod, 21st Hussars; Lieut.-Col. Cox, 3rd Foot; Cols. Cameron, C.B., and Bray, 4th; Roberts and Carden, 5th; Col. Creagh, C.B., and Lieut.-Col. Bell, 6th; Col. Hawes, 9th; Lieut.-Col. Byron, 10th; Cols. Prevost, 23rd, and Wilkie, 29th; Lieut.-Cols. Hutton, 30th; Dickens, 31st, and Fanshawe, 33rd; Cols. Currie, 39th; Jordan, 41st; Sir J. Macleod, 42nd; Lieut.-Cols. Smith, 43rd; Preston and Hand, 44th, and Lock, 50th; Col. Trevor, 54th; Lieut.-Cols. Hume, 55th; Berry, 56th; Gordon, 60th, and Mockler, 64th; Col. Clarke, 73rd; Lieut.-Cols. Smith, 80th; Lambert, 88th; MacBean, 93rd; Parkinson, 95th, and Annesley, 97th; Cols. Dunne, 99th, and Hon. C. J. Addington, 100th; Lieut.-Col. Delafosse, 101st; Col. Williams, 108th Foot; and Lieut.-Cols. Warren and Newdegate, Rifle Brigade. Besides those enumerated, there are over eighty officers (some of regiments of the Line) who have served one campaign and wear one medal."

ROYAL AQUARIUM THEATRE.—The vacancy in the ranks of dramatic authors left by the late Mr. Robertson stands at length a fair chance of being supplied, for certain it is that since the death of that gentleman no comedy produced in London has approached nearer the Robertsonian standard than Mr. Conway Edwardes' *Heroes*, produced here on Wednesday evening. The piece literally bristles with "smart" dialogue, the plot is original, and altogether the play was a complete success. After the pointless adaptations from the French, with which we have been favoured of late years, it was indeed gratifying to find an author, whose name has hitherto been associated with burlesques of the old Strand type, exemplifying his ability to produce works of so high an order. The acting in *Heroes* is most uneven, and the author's chances suffered in consequence. Had the comedy been produced at the Prince of Wales's, it would, no doubt, have enjoyed a year or two's run; but, even as it is, Mr. Edwardes has done his part so well that he has established his claim to take place among our best-known dramatic authors, and we shall hope ere long to find other pieces announced as the work of the same evidently able pen.

A COLONIAL RESERVE.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—As now the question of recruiting for the Army has become a matter of the greatest importance, would it not be worthy of the notice of the authorities to consider the advisability of increasing the number of West Indian regiments, with the view of organizing them for general service? The West Indian of African descent is a fine, stalwart, healthy fellow, thriving in most climates, is very amenable to discipline, not addicted to grog, and makes a good soldier. As regards physique, &c., the West Indian regiments compare favourably with any in the Service, and have always been ready, and have done good service in the field, when called upon, and would, I think, be admirably adapted for much of our colonial service, viz, the Mediterranean, Cape, Mauritius, Bermuda, &c., &c. Indeed, a West Indian regiment in its present picturesque dress would add much to the *éclat* of a field-day at Aldershot or elsewhere, together with having a good effect. There would be no difficulty in procuring recruits in the West Indies, &c., when known they were for general service.—I remain, Sir, A. M. D.

Dec. 11, 1876.

ARMY SCHOOLMASTERS.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—By the last Pay and Pensions Warrant, it is laid down that Army schoolmasters shall receive a penny a-day less than they received before (*i.e.*, 3s. 11d. instead of 4s.) on appointment, and so on, a penny a day less on the triennial increase of sixpence a-day. Surely the word "increase" has in this instance been misunderstood. Again, with regard to pension, a schoolmaster must be in receipt of the pay, half of which he receives as pension on discharge, for three successive years. The injustice of this I wish to make apparent, by giving the details of my own service. I enlisted as a private soldier in March, 1855, at the age of seventeen years and three months, served at the siege and capture of Sebastopol, and was in the Crimea about six months, when I was invalided home on account of sickness. All this was before I could count any service towards pension and discharge, *i.e.*, before I was eighteen years of age. In 1857 I volunteered to a corps going out to India, in which country I landed in Dec., 1857. I assisted in keeping guard over three regiments of Native Infantry, who gave a little trouble on several occasions. Afterwards, I formed one of the force sent to enable Brigadier Chamberlain to disarm some thousands of Native troops at Dera Ishmael Khan, which enterprise nearly proved fatal to the whole column thus sent When the mutiny was over we marched back to quarters, having gained nothing but experience in fatigues, &c.; and, as we were fortunate enough to gain our ends without firing a shot at the enemy, we had perforce to go without the medal. When I had seven years and five months' service (including the nine months' boy's service), I applied for and gained admission to the Normal School. After passing two years and fourteen days in this institution, I was appointed Army schoolmaster, and I have remained in the Service ever since as such. With nine years and nearly six months' service (including boy's), I commenced my duties as Army schoolmaster on 3s. a-day. After twelve years' service as such I am in receipt of 5s. 6d., to receive the half of which as pension I must serve three years more, making a total service of nearly twenty-four and a-half years to qualify for 2s. 9d. a-day pension, and to enable me to qualify for the highest rate of pension, viz., 3s. 6d. a-day, I must serve a total of over thirty years, or, leaving out the boy's service and the time passed in the Normal School, over twenty-seven years, out of which all but two years will have been passed in foreign climes. Now, a civilian going into the Normal School loses only the time he spends there, and on the completion of twenty-one years' service, from the date of his appointment, can leave the Service with the highest rate of pension. I cannot help asking why military service (which in my case was rather arduous) should not count towards pension?—I am, yours, &c., A SOLDIER.

India, Nov. 19, 1876.

MILLBANK PRISON.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—The writer of the article on "Military Prison," in *Colburn's United Service Magazine* of Dec. 7 has written a very cutting response to your notice of his article. Had he studied the Directors of Convict Prisons' Report for the year 1875, his letter, if not so cutting, would have the greater merit of being more reliable as regards its information than at present it is. On p. 244 of the Directors' Report for 1875, the Medical Officer of Millbank Prison writes thus:—"The prison continues to be almost free from diseases of the miasmatic order, and this is equivalent to stating that diarrhœa and dysentery, small-pox and erysipelas, typhus and typhoid fever are all but extinct as causes of mortality. With regard to the mortality from typhoid or enteric fever, the contrast between the ten years 1845-54 and the twenty-one years following is very remarkable. During the first period there were eighty-seven deaths from that disease; during the second only three. The improvement in the water supply, which was effected in August, 1854, explains this great difference, and constitutes the separating line between the two periods. Prior to that date the prison had been supplied with Thames water pumped in from the river immediately opposite the gates, and afterwards filtered. This supply was cut off, and water from the artesian well in Trafalgar-square took its place, with immediate benefit to the health of the inmates of the prison, and a large reduction in the rate of mortality. Fifteen years have now elapsed since a case of typhoid fever originated here, and it may, therefore, be fairly said that in this prison that disease is extinct. Millbank, however, by no means stands alone among the Government prisons in this respect. An enviable security is enjoyed, but it is not monopolised. On looking through the annual medical statistics of these prisons for the twenty years 1855-74, I find that only eight deaths are ascribed to enteric fever, or forty per annum in a population, male and female, averaging 7,913. During the five years 1870-4 only two deaths were caused by this disease in an average population of 9,509. If the sanitary securities enjoyed by the inmates of convict prisons could be extended to the general population of the country many thousands of lives would every year be saved." For a proof of the unhealthiness of Millbank, the writer of the article in *Colburn's United Service Magazine* has referred your readers to the reports for the year 1854. The above extract will inform you how utterly inapplicable the circumstances of that year are to the present time. The explanation of the apparently large number of invalids in Millbank is to be found in the fact that Millbank was to a great extent an invalid prison. In fact, everyone who has looked into the facts of the case will find that Millbank is a particularly healthy prison, as the above extract shows. Even were this not the case, it would be more just if the writer would fling his sarcastic thunderbolts at the heads of the military authorities, who send their defaulters to Millbank, than at the Prison Department authorities, who merely receive them. Your correspondent, however, seems to be a person set in authority, for he has had an opportunity of overhauling the "private and confidential" reports of directors. Where are these to be found in print? The ingenuity of the writer appears to be very great; but his letter would have been more to the point had he studied with greater care.—Yours obediently,

Dec. 28, 1876. A BLUE-BOOK.

We understand that it is in contemplation to sanction in the Army, by Royal Warrant, a practice which was found to work exceedingly well in the old Indian Army before the late Lord Sandhurst and others destroyed all *esprit de corps* in that service. When an officer—say a major—wished to retire from a regiment, those who would be promoted by the step "made up a purse" for him. The senior captain, who obtained the majority, and the senior lieutenant, who got the troop or company, of course gave most, the others paying in proportion to the benefits they derived. The two chief evils of the purchase system in the Royal Army were avoided; for it was perfectly voluntary for each and every one to pay or not, just as he liked; and the non-payment of the money, although it perhaps stopped or delayed promotion in a corps, did not cause any officer to be passed over, or purchased over. In fact, the whole scheme was one which a corps might or might not take up, just as the officers might or might not subscribe to hounds or to the regimental drag. It has been suggested that this plan may be revived in such corps as wish it, and that when carried out it will not only quicken promotion, but form a sort of retiring bonus for poor officers which will cost the country nothing.—*Whitehall Review.*

FURNISH ON THE NEW HIRE SYSTEM.—The "New Hire System' is quite distinct from anything yet attempted. Houses furnished throughout. 20 Wholesale Houses to select goods from. "An excellent idea."—"Army and Navy Gazette." Prospectus, with Press opinions, post-free. General Furnishing Company — Offices, 9 Southampton-street, Strand.

BIRTH.

HAILSTONE.—Jan. 5, at 12, Orwell Terrace, Dovercourt, the wife of Lieut. Walter Hailstone, R.N., H.M.S. Challenger, of a son.

DEATH.

MACKINLAY.—Jan. 3, at Newry, Co. Down, Ireland, Capt. John Mackinlay, 94th Regt., aged 35 years. Deeply regretted by his family and by his brother officers.

General F. O. SALUSBURY, C.B.
Colonel E. WRAY, C.B., R.A.
Major FRANCIS DUNCAN, R.A., D.C.L., LL.D.
MARSHALL HALL, Esq., F.G.S., F.C.S., Barrister-at-Law, late Captain 1st (Royal East) Middlesex Militia.

GOVERNOR.

COLONEL J. DESBOROUGH, C.B., R.A.

This Association has been formed—(1) To provide the best possible Education for the Sons of Officers. (2) To train and prepare candidates (whether sons of officers or not) for Commissions in the Military Service. (3) To enable its senior pupils to enter as Unattached University Students and to take degrees.

The College is now in full working order, and the applications for admission are so numerous that an extension of the present buildings has become necessary. To provide the necessary funds for the purpose, the Committee invite Subscriptions for the Unallotted Shares, on which a fair and steady dividend may be confidently expected. The holder of 20 Shares has the right of nominating a candidate for admission at a reduction of 20 per cent., and the nominees of Shareholders, whether holders of 20 or of a smaller number, will have the preference for admission.

The Capital is £50,000, in 5,000 Shares of £10 each; £2 to be paid on application, £2 on allotment, and the balance by calls of not more than £2 each, at intervals of not less than six months, with two months' notice of each call.

Copies of the Prospectus and all information may be obtained from the Bankers, Messrs. Cox and Co., Craig's Court, S.W.; from the Secretary of the Company, 35, Lincoln's-Inn Fields, London, W.C.; or from the Governor, Military College, Cowley, Oxford.

P.S.—In consequence of the numerous inquiries and applications for the admission of Students for next Term, it is most desirable that the earliest intimation of those intending to join in January be given to the Governor of the College. A house adjoining the College has been secured for the accommodation of surplus students, under resident masters, while the new buildings are in process of erection.

THEATRE ROYAL DRURY LANE.—Every evening, THE FORTY THIEVES. The Vokes Family. Premiere danseuse, Mdlle. Bossi. Double Harlequinade: Clowns, C. Lauri and F. Evans. Preceded by BOX AND COX. Prices from 6d. to £4 4s. Doors open at 6.30. Commence at 7. Box Office open from 10 till 5 daily. MORNING PERFORMANCES every MONDAY, WEDNESDAY, and SATURDAY. Doors open at 1.30. Commence at 2. Children and schools admitted at half price to all parts of the house, upper gallery excepted.

ROYAL POLYTECHNIC.—Entire change of Entertainment. HYLDEMOER, a Fairy Story, with a ghost effect. CHRISTMAS AND ITS CUSTOMS, and a New Optical Entertainment, consisting of FAMOUS STATUARY UNDER THE LIME LIGHT, and the SHADOW PANTOMIME, by Mr. J. L. King. CHEMICAL MAGIC, by Professor Gardner. The SEANCE, by the Polytechnic Medium. The TALKING LION, &c., by Mr. James Matthews. The GIANT CHRISTMAS TREE. Admission to the whole, 1s.; Schools and Children under 10 years, 6d. Open from 12 till 5 and 7 till 10.

The New River Company.—Seventy £100 Shares (£85 per share paid), and One-tenth of a King's Share in this most flourishing and successful trading Corporation, the revenue of which has the security and regularity of Consols, with the additional advantage of a yearly increasing income.

MESSRS. EDWIN FOX and BOUSFIELD will SELL, at the Mart, on WEDNESDAY, Jan. 24, at Two precisely, SEVENTY £100 SHARES (£85 per share paid) in the NEW RIVER COMPANY. The dividends on these shares have for many years past steadily increased, those recently paid being over 10 per cent. per annum, and as there is a constant increase in the Company's revenue, not only from its water-rates and water sold, but from the rent of its private estates, in which these shares participate, the return from this property will continually rise and the capital increase in even greater proportion, thus rendering it first-rate for investment or family endowment. Also, in Six Lots, One-tenth of an Original or King's Share, which is perfectly unique, as being a freehold estate, conferring votes for the counties of Middlesex and Hertford. The income in respect of this proportion of a share for the year ending Midsummer, 1876, was £213 1s. 4d., and a considerable increase in each succeeding half-yearly dividend may be relied upon.—Particulars at the Mart; of Messrs. Field, Roscoe, and Co., Solicitors, 36, Lincoln's-inn-Fields, W.C.; and of Messrs. Edwin Fox and Bousfield, 24, Gresham Street, Bank, E.C.

ROYAL UNITED SERVICE INSTITUTION, WHITEHALL YARD.

EVENING MEETING, Monday, 15th January.
The Chair will be taken at half-past Eight precisely.
S. J. MACKIE, Esq., M.I.C.E.
On "Cotton Gunpowder."
By Order of the Council,
B. BURGESS, Captain, Secretary.
Jan. 9, 1877.

WANTED, an appointment as LADY HOUSEKEEPER, or the care of an invalid, by a young lady, widow of an officer in the Army, and a member of a good county family. She can get references from many high and influential families as to her lady-like and amiable disposition, and is a finished pianist. Salary no object, as she possesses a small income.—B. L., Post Office, Ryde, Isle of Wight.

MESSMAN WANTED. Apply, stating terms, to Mess President, 24th Regiment, Dover.

A MEDICAL MAN and his Wife, residing in a healthy and pleasant suburb of London, wish to receive into their house, to be educated with a boy of their own, aged 8, a CHILD (or children) of about the same age, who would share the advantage of a first-class governess and receive every care and attention.—Dr. Best, Church-hill, Walthamstow.

THE DAUGHTER of a RETIRED OFFICER, living in a large country house on the Brighton Line, wishes to RECEIVE TWO or THREE CHILDREN under twelve, TO EDUCATE with her sister and brothers. Every home comfort. Terms moderate. For reference apply to Mr. Baird, 2, Craigs Court, Charing Cross.

ARMY AND NAVY CO-OPERATIVE SOCIETY, LIMITED.

Established for the advantageous supply of
PROVISIONS AND GOODS OF ALL KINDS
TO ITS MEMBERS,
Comprising
Officers and Non-Commissioned Officers serving, or who have served,
The Widows, Sons, and Daughters of Officers, and Friends introduced by the above;
Also, the Secretaries of Naval and Military Clubs, and the Representatives of Regimental and Naval Messes and Canteens.

For further particulars address the Secretary, 117, Victoria-street, Westminster, S.W.

LEFT OFF CLOTHES, Old Uniforms, Epaulettes, Books, Jewellery, Miscellaneous Property, &c., PURCHASED in any quantity or condition.

MR. J. NORTON,
5, WYCH-STREET, STRAND
(Two doors from Olympic Theatre), and
2, Station-terrace, Croydon.

Continues giving the highest price in the trade for the above. The utmost value remitted by Post-office order the same day for all Parcels forwarded

All letters punctually attended to.

Ladies waited on by Mrs. N.

N.B.—Mr. Norton has always on hand a large stock of present Regulation Uniforms, Patrol Jackets, Great Coats, &c., equal to new, at very low prices.

TO OFFICERS OF HER MAJESTY'S SERVICE.—LEWIS MOSES, of 461, New Oxford Street, the largest and most liberal buyer of officers' uniforms, ladies' and gentlemen's left-off clothes, &c., has on hand a large stock of the above. Parties waited on. Established 1798. Cash remittances for country parcels by return.

HORSES EXAMINED.—GENTLEMEN PROFESSIONALLY ASSISTED in the SELECTION of HORSES. Examined as to soundness. Tattersall's and other sales attended by WILLIAM SEWELL, M.R.C.V.S., 53, Elizabeth Street, Eaton Square, London, S.W.

JUNIOR ARMY AND NAVY CLUB.

At an extraordinary general meeting of this Club, held at the Club House, Grafton Street, on the 28th inst., Sir Norman Pringle, Bart., presiding, it was moved by the chairman, seconded by Major-General Hunter, and resolved—That the Club should cease to be conducted on the proprietary system, and should become a members' Club, with effect from the 1st January, 1877.

The entrance fee is ten guineas; the annual subscription is seven guineas.

The entrance fee will remain as at present until a limited number of new members have been elected, when it will be raised.

Members joining during the remainder of the year will not be called upon for their subscription till the 1st January next, when the annual subscription for 1877 will become due.

Membership of this Club is restricted to commissioned officers of the Regular Army, Royal Navy, Royal Marines, and Royal Indian Forces, and those who may have retired from the same.

By order of the Committee,
R. J. FYERS, Secretary.
28th October, 1876.

THE COVENTRY CLUB.—This Club is established in response to a request from a number of influential gentlemen who desire a social and sporting club for the use of gentlemen of all classes situated in a central part of the West-end of London.

An agreement has been entered into for spacious premises, which will be fitted up with every convenience, including dormitories, and which will be open for the reception of members on Feb. 1 next.

The number of members is limited to 800, the first 300 of which will be admitted without entrance fee.

Annual Subscription...............	£3 3s.
Country Members..................	£2 2s.
Entrance Fee	£10 10s.

All particulars may be had from Mr. H. Bradbury, Hon. Sec., *pro tem.*, at the Offices of the Club, 10, Cranbourn Street, W.C.

THE
COLONIAL PIANOFORTE.

With entire metal string-frame, full trichord scale, and check repeater action.

This Pianoforte is most strongly recommended for the families of Military gentlemen. Its construction is such that durability under adverse conditions of climate, &c., may be confidently relied upon, whilst its musical and artistic qualities are of the highest order. It is of small dimensions, and is sold at the moderate net price of £35.

W. HANSON,
FOREIGN PIANOFORTE COMPANY,
15, Lower Seymour Street, Portman Square, London, W.

NAVAL CADETS, ASSISTANT CLERKS, HOPE HOUSE, SOMERSET-PLACE, SOUTHSEA.

Principal—Mr. T. H. VICKERY.

In addition to the general course of study pursued at this long-established School, pupils are specially prepared for the examination required for the above.

At the competitive examination in November, 1875, and at the recent examination in June, of candidates for Assistant Clerkships, all the pupils sent up from this Establishment were successful.

TRURO SCHOOL. Founded A.D. 1549.—Special preparation of a limited number for Woolwich, the Line, Navy, and Cooper's Hill. Five experienced and energetic resident masters in mathematics and geometrical drawing, the classics, and English, French, science, and German; besides visiting masters in drawing and English composition.

NAVAL CADETSHIPS, &c. "EASTMAN'S" R.N. ACADEMY, SOUTHSEA. Principal, G. EASTCOTT SPICKERNELL, since 1860.

At the last two Naval Cadet Examinations pupils took the first place.

More than 1,000 pupils have entered H.M. Service. For every information address the Principal, Burgoyne House, Burgoyne Road, of late called Eastern Parade.

THE GRANGE, W. COWES.—The Rev. ARTHUR WATSON, M.A., Graduate in Honours, Second Scholar and Prizeman of Caius College, Cambridge, having carried on his school for 12 years at Egypt House, has recently built the above residence, and has now more accommodation for pupils, who are prepared for the Public Schools, Universities, Naval Examinations, &c. All his naval candidates have passed into the Britannia. This June candidates took the 4th and 12th places.

NEWTON COLLEGE, S. DEVON.—President of Council, EARL of DEVON.—This College is for gentlemen's sons only, on very moderate terms. Officer's nomination, £60 per annum. One Woolwich Scholarship of £20 per annum open this Christmas. Candidates under 15. Papers forwarded January 1st to boys' homes. The situation is healthy and elevated; gravel soil; good cricket ground; racquet and fives court, &c. Apply, Rev. G. TOWNSEND WARNER, Head Master.

MALVERN COLLEGE.

The First Term for 1877 will begin on MONDAY, JANUARY 29th.

ROYAL MILITARY ACADEMY, Woolwich, Cooper's Hill College, or First Appointments to the Cavalry and Infantry.

MR. MULCASTER, F.R.A.S., prepares gentlemen for the above competitive examinations. During a period of nine years, Mr. Mulcaster has passed 117 gentlemen into the Service; his pupils have repeatedly taken first place in mathematics, and in each of the above examinations have been first in the list of successful candidates.

Of Militia candidates, thirteen have been sent up for examination, and only one has failed.

36 and 37, Woolwich Common, S.E.,
December 18th, 1876.

LITTLE ST. JOHN'S, Hurstpierpoint, in connection with St. Nicolas College, Lancing, and St. John's College, Hurstpierpoint, is established with the sanction and under the inspection of the Provost and Fellows of St. Nicolas College, for the education of little boys from six years of age preparatory to their entering either of the above, or other public schools. For particulars apply to the Lady Principal, Little St. John's, Ditching, Hurstpierpoint, Sussex. Boys are prepared to pass the examination for Naval Cadets.

SHOOTER'S HILL PREPARATORY MILITARY SCHOOL, 1, Brunswick Villas, S.E., under the direction of THOS. JONES, F.G.S., F.R.A.S., formerly Assistant-Master in Stony Stratford Grammar School, and in the Woolwich and Oxford Military Colleges.

DERBY SCHOOL.—The LENT TERM will BEGIN on JANUARY the 24th. There are Classical, Modern, and Junior Schools. The Honours gained since last March include Two Fellowships, Four Open Scholarships, Two Exhibitions, an admission to Cooper's Hill, &c. There are 10 House (£40) and Four Rowland Scholarships (£25) all tenable at school for either two or three years. Boarders are received, in the School-House and in the houses of the Rev. F. B. Alison and the Rev. C. R. Gilbert. Address the Rev. Walter Clark, B.D., The School-House, Derby. Sons of naval and military officers have certain advantages.

THE REV. H. A. MITTON, M.A. (Cambridge), Master of Sherburn Hospital, Durham, RECEIVES three YOUNG MEN to READ for the University or Ordination. Excellent house, gardens, stables; healthy situation; two miles from Durham; highest references; terms £200 (inclusive). Address as above.

WOOLWICH, SANDHURST, and the LINE.—FARADAY HOUSE, The Grove, Blackheath, S.E.—Of 28 candidates sent up for the preliminary examination from the above establishment during the past year (1876), 25 qualified; 14 candidates out of 16 sent up in July passed the final test. The new TERM COMMENCED JANUARY 9th. Applications having had to be cancelled in the absence of satisfactory testimonials, Mr. Wolffram begs to state that he can only receive such pupils as are prepared to furnish testimonials of good conduct from their last place of education.

TO PARENTS and GUARDIANS. — A Lady, having a charming villa residence near Dublin, with large garden attached, would receive ONE or TWO CHILDREN to rear and educate. For further particulars apply to E. E. Vista, Highfield-road, Rathgar, Dublin; or to Dr. Tuffnell, Lower Mount-street, Merrion-square.

THE LONDON GENERAL MOURNING WAREHOUSE, REGENT STREET, W.

DR. J. COLLIS BROWNE'S

CHLORODYNE.

THE ORIGINAL AND ONLY GENUINE,

Which is admitted by the Profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever Croup, and Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout Cancer, Toothache, &c.

From Lord FRANCIS CONYNGHAM, Mount Charles, Dec. 11, 1868.

Lord Francis Conyngham, who this time last year bought some of Dr. J. Collis Browne's Chlorodyne from Mr. Davenport, and has found it a most wonderful medicine, will be glad to have half-a-dozen bottles sent at once to the above address.

⁂ Earl Russell communicated to the College of Physicians that he had received a despatch from her Majesty's Consul at Manilla, to the effect that Cholera has been raging fearfully, and that the ONLY remedy of any service was CHLORODYNE.—See *Lancet*, Dec. 31, 1864.

CAUTION.—BEWARE of PIRACY and IMITATIONS.

CAUTION.—Vice-Chancellor Sir W. Page Wood stated that Dr. J. COLLIS BROWNE was, undoubtedly the INVENTOR of CHLORODYNE; that the story of the Defendant, Freeman, was deliberately untrue, which, he regretted to say, had been sworn to.—See *Times*, 13th July, 1864.

Sold in Bottles, at 1s. 1½d., 2s. 9d., and 4s. 6d. None is genuine without the words "Dr. J. COLLIS BROWNE'S CHLORODYNE" on the Government stamp. Overwhelming Medical Testimony accompanies each bottle.

SOLE MANUFACTURER

J. T. DAVENPORT, 33, Great Russell Street, Bloomsbury,
LONDON.

DINNEFORD'S FLUID MAGNESIA.

The best remedy for ACIDITY of the STOMACH, HEARTBURN, HEADACHE, GOUT, and INDIGESTION; and the safest aperient for delicate constitutions, ladies, children, and infants.

DINNEFORD & Co.,
172, New Bond Street, London, and all Chemists.

HAMBURGER, ROGERS, AND CO., GOLD AND SILVER LACE MANUFACTURERS by Appointment to her Majesty the Queen, and to H.R.H. the Prince of Wales. MILITARY CLOTHIERS, CAP, HELMET, SHABRACQUE, and CAVALRY ACCOUTREMENT MANUFACTURERS, with every description of UNIFORM, and Appointments for the Army and Navy, Yeomanry, Militia, &c., 30, KING STREET COVENT GARDEN, LONDON, W.C

HOLLOWAY'S PILLS.—No family should be without these Pills when wet, gloomy weather predisposes to fevers of all kinds, more especially remittent, typhus, typhoid, or, as the last is now newly named, enteric fever. Their long-tried efficacy in removing indigestion, stimulating the bowels, and purifying the blood, has secured for them imperishable praise throughout the globe. Whatever the disease, a few doses will remove the more urgent symptoms, and thereafter control all disordered action, rouse the torpid liver, empty the engorged spleen, cleanse the obstructed kidneys, assimilate the food, improve the blood, and thereby confer on the brain and every function healthful order, natural activity, and wholesome regularity. In trying seasons this medicine will save many lives.

CHLORODYNE. — FREEMAN'S is the original and only true.—Lord Chancellor Selborne, Lord Justice James, and Lord Justice Mellish decided in favour of R. Freeman and against J. C. Browne and J. T. Davenport; see "Times" of July 24, 1873. Thousands of medical practitioners testify that there is no substitute for it in the treatment and cure of asthma, bronchitis, coughs, and other chest affections, neuralgia, fevers, cholera, dysentery, spasms, and all nerve pains. Bottles 1s. 1½d., 2s. 9d., 4s. 6d., 11s., and 20s. Sold by patent medicine dealers in all parts of the world. See that "Freeman's Original Chlorodyne" is engraved on the Government stamp.

RUPTURES (BY ROYAL LETTERS PATENT)

WHITE'S MOC-MAIN LEVER TRUSS is allowed by upwards of 200 medical gentlemen to be the most effective invention for the curative treatment of hernia. The use of a steel spring, so often hurtful in its effects, is here avoided, a soft bandage being worn round the body, while the requisite resisting power is supplied by the MOC-MAIN PAD and PATENT LEVER, fitting with so much ease and closeness that it cannot be detected, and may be worn during sleep. A descriptive circular may be had, and the Truss (which cannot fail to fit) forwarded by post, on the circumference of the body, two inches below the hips, being sent to the manufacturer,

MR. WHITE, 228, PICCADILLY, LONDON.

Price of a single truss, 16s., 21s., 26s. 6d., and 31s. 6d.; post free. Double ditto, 31s. 6d., 42s., and 52s. 6d.; post free. An umbilical ditto, 42s. and 52s. 6d.; post free. Post-Office Orders to be made payable to JOHN WHITE, Post Office, Piccadilly. Every description of RIDING BELTS, ELASTIC STOCKINGS to draw on, and ELASTIC SILK SUSPENDERS, on new and improved principles.

JOHN WHITE, Manufacturer, 228, Piccadilly London.

ESTABLISHED 1864.

TIMEWELL,

SPECIAL TAILOR & MILITARY OUTFITTER
TO GENTLEMEN WHO REQUIRE NO CREDIT
8, SACKVILLE STREET,
PICCADILLY, LONDON, W.

A large private trade of highest class and character, yielding to its patrons the full advantages of their position.

E. LAZENBY and SON'S PICKLES, Sauces, and Condiments.—E. Lazenby & Son, sole proprietors of the celebrated receipts and manufacturers of the pickles, sauces, and condiments so long and favourably distinguished by their name, beg to remind the public that every article prepared by them is guaranteed as entirely unadulterated.—92, Wigmore Street, Cavendish Square (late 6, Edward's Street, Portman Square), and 18, Trinity Street, London, S.E.

HARVEY'S SAUCE.—CAUTION.—The admirers of this celebrated sauce are particularly requested to observe that each bottle prepared by E. LAZENBY and SON bears the label used so many years, signed, "Elizabeth Lazenby."

In consequence of Spurious Imitations of

LEA and PERRINS' SAUCE, which are calculated to deceive the Public, LEA and PERRINS have adopted A NEW LABEL, bearing their Signature—

LEA AND PERRINS,
which signature is placed on every bottle of
WORCESTERSHIRE SAUCE,

and without which none is genuine.

Sold Wholesale by the Proprietors, Worcester. Crosse and Blackwell, London; and Export Oilmen generally.

Retail, by dealers in Sauces throughout the World.

COCKS' READING SAUCE

Is the best and most economical Sauce ever manufactured for
FISH, ENRICHING SOUPS, GRAVIES, &c.
It only requires a trial to convince the purchaser of its excellence.

CAUTION.—The genuine is protected by Trade Mark, viz., CHARLES COCKS' Signature on a white ground across the Reading Arms.

LIEBIG COMPANY'S EXTRACT OF MEAT.

Finest Meat-Flavouring Stock for Soups, Made-Dishes, and Sauces. Caution.—Genuine ONLY with facsimile of Baron Liebig's signature across Label.

HENRY BRETT and CO., Holborn, London.—LIQUEUR GINGER BRANDY, a fine stomachic; good for indigestion; corrective after bathing; agreeable with aërated waters; invaluable for the flask of sportsman, tourist, or traveller. Of most merchants. 45s. per doz. Trade mark Negro's Head.

FALKNER'S "REAL MALT" WHISKEY.

The same as supplied to the principal Clubs and Regimental Messes. Has been esteemed in Ireland for the last century as the FINEST IRISH WHISKEY procurable, being pure as distilled, and refined by age only.

LONDON, 40, CHARING CROSS.
DUBLIN, 83, GRAFTON STREET.

KINAHAN'S LL WHISKY.

KINAHAN & Co. finding that, through the recommendation of the Medical Profession, the demand for their CELEBRATED OLD LL WHISKY for purely medicinal purposes is very great, submit with pleasure the following ANALYSIS by DR. HASSALL:—

"I have very carefully and fully analysed Samples of this well-known and popular Whisky. The samples were soft and mellow to the taste, aromatic and ethereal to the smell. The Whisky must be pronounced to be pure, well-matured, and of very excellent quality. The medical Profession may feel full confidence in the purity and quality of this Whisky." 20, GT. TITCHFIELD ST., LONDON, W

LANE'S PRIVATE HOTEL (Nos. 1, 2, and 3, ST. ALBAN'S PLACE, CHARLES STREET, St. James's, S.W.), for Officers in the Army and Navy, Members of Clubs, and others. Most eligibly situated in the immediate vicinity of the principal Club Houses. Gentlemen requiring sleeping accommodation only, are respectfully informed every attention will be paid to their comfort and convenience. A trustworthy porter in attendance all night.

LIEBIG'S INVIGORATIVE NERVINE ESSENCE.—The most scientifically prepared and most powerfully nutritive cordial ever introduced, restoring to their normal condition the secretions, on the integrity of which perfect health depends. It is a specific for debility, and from its containing, among other ingredients, PEPSINE and PHOSPHATE of SODA, will prove highly beneficial to the nervous and dyspeptic. Price, 8s. per bottle, or four quantities in one, 21s. Sole agents—The English and Foreign Pharmacy, late Schoenemann and Co., No. 8, Cullum Street, Fenchurch Street, City. Manager, Herr Kretschmer, of Berlin University, in co-operation with the Montpelier Pharmacy and Mineral Water Works, No. 4, Montpelier Street, Brompton, S.W., Manager W. Liddiard, M.P.S.

ROBERT C. TUCKER, Secretary.

THE STAFFORD HOUSE COMMITTEE for the RELIEF of SUFFERING among the TURKISH SOLDIERS.—Chairman, the Duke of Sutherland, K.G.

Communications to be addressed to T. G. Bowles, Esq., Hon. Sec., No. 2, Harriet Street, Lowndes Square, S.W.

Subscriptions will be received by Major-General Sir Henry Green, Hon. Treasurer, Stafford-house, S.W.; by Messrs. Drummond and Co., Charing-cross: Messrs. Smith, Payne, and Co., 1, Lombard-street; Messrs. Barnetts, Hoares, and Co., 62, Lombard-street; and by Messrs. H. S. King and Co., 45, Pall-mall; and will be acknowledged in the published list.

The Right Hon. the Lord Mayor has undertaken to receive subscriptions for the Fund, which may be paid to him at the Mansion House.

Contributions are especially invited of blankets, warm jerseys, warm underclothing, and hospital linen, which will be received at Taylor's Depository, Pimlico, and should be labelled, "For the Relief of Suffering Turkish Soldiers."

ROYAL SCHOOL for DAUGHTERS of OFFICERS of the ARMY.

The Daughters of all Officers in her Majesty's Army, inclusive of the Royal Marines, on full or half-pay, or who may have died in the Service, are eligible.

The ages of admission are from ten to fifteen.

The next ELECTION will take place on June 20, 1877.

Pupils elected by votes of Subscribers pay only £12 per annum.

With a view to afford the advantages of a good education to the daughters of officers of competent means at a moderate cost, and at the same time to aid the primary object of the Institution, a limited number of pupils are admitted on payment of £80 a year, which includes all extras.

Each Donation of £5 5s. entitles to one Life Vote.

Each Annual Subscription of 10s. 6d. entitles to one Vote at all elections during the current year.

Further contributions to meet the current expenses are earnestly solicited by the Committee.

By Order,
G. W. FORSTER, Secretary.
22, Cockspur Street, London.

THE SOLDIERS' DAUGHTERS' HOME, Hampstead. Instituted 8th March, 1855.

Chairman—
Major-General J. T. Boileau, R.E., F.R.S.

Inmates, 178; vacant beds, 22; candidates, 110.

Owing to the loss, by death, of several of the largest annual subscribers, and to the great falling in donations, the funds are at present unequal to support the increased number of girls (26) who have been added to the Foundation during the last two years.

Further aid is earnestly solicited to meet the increased call upon the funds. Remittances to be made to C. R. Low, Esq., Secretary, No. 7, Whitehall, London, S.W. A guinea yearly gives 1 vote; five guineas, 2 votes for life.

SOLDIERS' DAUGHTERS' HOME, HAMPSTEAD.

The Committee thankfully acknowledge the receipt of a Donation of Five Guineas from the Sergeant-Major and Sergeants of the 18th Hussars, in aid of the Funds of the Institution.

C. R. LOW, Secretary.

Royal Navy, East Indian and English Transport Services; the German, Russian, American, and Austro-Hungarian Navies;

ALSO BY

HER MAJESTY'S WAR DEPARTMENT,

FOR BARRACKS, HOSPITALS, CAMPS, &c., &c.,

And for which Patents have been granted by the Governments of Great Britain' the United States of America, Italy, France, and Canada.

The designs are of three classes—

1.—For dwelling rooms and halls. To suit different styles of furniture three types have been employed—the Classic, the Japanese, and the Mediæval. The Classic designs are in red Terra Cotta, which has been employed in all ages of the world for water-bearing vessels; the Japanese are in white and blue china, with suitable metal mountings, and the Mediæval, in German and Doulton earthenware. None of these forms have been before employed for Filters.

2.—Those of simpler and cheaper designs for kitchen and pantry use, and servants' rooms.

3.—Filters of galvanized iron, either to fix to mains or cisterns, which, being capable of being made of any size, can supply pure water in sufficient quantities for the largest hospital or hotel.

The Filters, being made of special sizes, all their parts are interchangeable.

Sole Manufacturers—

MESSRS. GARDNER & SONS,

453 & 454, STRAND, and 3 & 4, DUNCANNON-ST.,
LONDON.

(From whom, on Application, full Particulars can be obtained.)

EMANUEL,

3, THE HARD, PORTSEA,

By appointment to H.R.H. the Duke of Clarence, 1827; H.R.H. the Duke of Edinburgh, 1872.

New Designs in High Class Jewellery at Moderate Prices.
Bridesmaids' Lockets from Three Guineas.
Bracelets from Five Guineas.
English and Foreign Watches and Clocks.
Regimental, Presentation, and Prize Plate.
Old Plate, Jewels, Epaulets, &c., bought.
Foreign Money exchanged.
Miniature Copies of all Medals and Decorations.
Field, Race, and Opera Glasses, and Nautical Instruments.
Rare China, Bronzes and Curios.
Collections Valued and Purchased.
Cheques payable to EMANUEL EMANUEL

SOLE ADDRESS, 3, THE HARD, PORTSEA

LAWRANCE D. PHILLIPS AND CO.,

MILITARY, COURT, AND GENERAL
TAILORS AND OUTFITTERS,
13, GEORGE STREET, HANOVER SQUARE, LONDON, W

Established for upwards of half a century on the Credit System, but now conducted exclusively for Ready-Money Payment and supplying

UNIFORMS AND MUFTI

Of precisely the same high-class quality as heretofore

AT GREATLY REDUCED PRICES.

ESTIMATES ON APPLICATION.

OVERLAND ROUTE and SUEZ CANAL. Under Contract for the conveyance of the Mails to the Mediterranean, India, China, Japan, and Australia. The Peninsular and Oriental Steam Navigation Company dispatch their Steamers from Southampton, *via* the Suez Canal, every Thursday; from Venice every Friday; and from Brindisi, with the Overland Mails, every Monday.

Offices—122, Leadenhall-street, E.C., and
25, Cockspur-street, S.W.

HALL LINE.—STEAM from LIVERPOOL to BOMBAY, via SUEZ CANAL.—Average passage, 26 days, including all detentions.

The magnificent fast steamship CITY OF BALTIMORE, 2,292 tons, 300 horse-power nominal, sailing January 31st, 1877. This steamer has been specially adapted for the East India trade. Her saloon and cabins are all on the upper deck, and the accommodation is unsurpassed. Only first class passengers taken. Fare, 45 *guineas*. Surgeon and stewardess carried.

Succeeding steamers:—

Childwall Hall	27th February.
Trentham Hall	To follow.
Branksome Hall	To follow.

For passage apply in London to Henry S. King and Co., 65, Cornhill, and 45A, Pall Mall; or for freight and passage to ALEXANDER and RADCLIFFE, 8B, Liverpool and London Chambers, Exchange, Liverpool.

H.M. TROOPSHIPS, PORTSMOUTH DOCKYARD

OFFICERS' BAGGAGE cleared through Customs, Warehoused, Shipped or Forwarded, by CURTISS and SONS, Railway and Shipping Agents, 88 to 94, Broad Street, Portsmouth.

Letters and telegrams for passengers promptly delivered free of charge.

CURTISS and SONS' rates for Warehousing or removing Furniture, &c., are exceedingly low.

OFFICERS' BAGGAGE, &c.—Officers are respectfully informed that Baggage, Luggage, and all kinds of Personal Property are stored at most moderate charges at the

STORE WAREHOUSES, BAKER STREET BAZAAR, W.

The warehouses having been built expressly for the safe keeping of goods, are peculiarly convenient, and are kept warm at an even temperature during the winter. Removals effected.

Separate lock-up rooms for large or small quantities.

JOHN HANES, Manager.
Store Warehouses Baker Street Bazaar, W.

FURNITURE, Carpets, Bedding, and the complete furnishing of houses of any class, from the cottage to the mansion, supplied on terms of hire, ultimately becoming the property of the hirer. Selected from a stock of the greatest magnitude, and arranged in numerous elegant show-rooms. Prospectuses and illustrated priced catalogues on application to the Manager, Hire Department, 81, Brompton Road.

FURNISH YOUR HOUSE or APARTMENTS THROUGHOUT on MOEDER'S HIRE SYSTEM. The original, best, and most liberal. Cash prices; no extra charge for time given. Large useful stock to select from. Illustrated price Catalogue, with terms, post free. 248, 249, and 250, Tottenham Court Road. Established 1862.

Printed by JAMES MELDRUM and published by EDWARD O'BRIEN PALMER for the Proprietors, at the Office, No. 16, Wellington-street, Strand.—SATURDAY, January 13, 1877.

MILITARY reform and reorganization seem to be the order of the day. We trust, therefore, that while Mr. Hardy is about changes, he will, before he rests and is thankful, bethink him of a corps much older than any one in our standing Army, and which much needs the attention of somebody. We refer to her Majesty's Body-Guard of the Honourable Corps of Gentlemen-at-Arms. This Guard of the Palace, this, in the strictest sense of the word, the Personal Guard of the Sovereign, which, with the Yeomen of the Guard, was the first commencement of a permanent military force in England, has most responsible and honourable functions entrusted to it. It corresponds—or, rather, should correspond—in dignity with the Hungarian Noble Guard of the Emperor of Austro-Hungary, and the Noble Guard of the Vatican. It was, in its first intention, a purely military body, but in the course of time as little savoured of war as the men in brass who appear in the procession of the Lord Mayor. Civilians of every sort, enamoured of the uniform and the idea of a connection with the Court, purchased appointments in the Corps. Very absurd and uncomfortable these ante-chamber warriors looked in the unaccustomed restraint of uniform, and with the heavy responsibility of doing no injury to themselves or others with their formidable weapons. At length the scandal struck the Prince Consort as being too great to be any longer endured, and, thanks to his influence, in 1852 a change in the constitution of the Corps was inaugurated. The Warrant stated that for the future the Corps was to be recruited entirely from officers of the regular Army who had seen active service, were in the possession of at least one medal, and had distinguished themselves. In order that the change might be carried out as soon as possible, money was voted by Parliament to compensate on retirement those of the old members who had purchased their appointments. To the same purpose was—we may incidentally mention—applied a portion of the fund formed by the sale of a certain number of non-purchase vacancies, a most glaring misapplication of money. Most of the old members took advantage of the liberal offers made them either at once or within a few years after the appearance of the Warrant. Some six or seven, however, in defiance of all good taste and self-respect—we may add, even, with an utter contempt for the fitness of things—have persisted in remaining in the Corps. One would have thought that the fear of ridicule would have induced them to repose on their home-grown laurels. But no—they have obstinately stuck to their places, to the great detriment of the Corps in which they are so much out of place, and to the extreme annoyance both of the authorities and the military Gentlemen-at-Arms. The chief offender is the Lieutenant, Sir William Topham, who, a lawyer by profession, purchased admission into the Corps, and on becoming Lieutenant was in right of office knighted. It may well be conceived that soldiers who have fought for their country and wear on their breasts evidences of having done so, feel it a degradation to be commanded by a man who never heard a shot fired in anger, and yet has the relative rank of Lieutenant-Colonel. Those of the public, also, who bestow any thought on the matter, must be partly disgusted, partly amused at the farce, and find it difficult to regard that which should be and is intended to be, a select band of distinguished soldiers, as anything better than a body of lacqueys or stage-warriors. Owing to the present adulteration of the Corps many old privileges which would gladly be restored are withheld, and the Corps is not treated with the consideration which is due to distinguished military officers. For example, the Gentlemen-at-Arms were formerly invited to the Queen's halls, but some of its members, when the latter were all civilians, got drunk, and the invitations ceased. Again, the mess-room at St. James's, which has been honoured by the presence of the Prince of Wales and other distinguished visitors, is a miserable little room, not affording half the required accommodation. More than this, the ante-chamber is a mere closet shared with the Pages of the Backstairs, who change their clothes there. It will be evident from what we have said that a change in the treatment of the Gentlemen-at-Arms is urgently demanded. The first step, however, which should be taken is to require all the civilian members of the Corps to send in their resignations, and to appoint in Sir William Topham's place a General officer, who would both give to and derive honour from the appointment. The pay of Lieutenant is £500 a-year, and that sum would be a welcome and fitting reward for long and distinguished service. There ought to be no difficulty in getting rid both of Sir William Topham and his civilian companions, if we may judge by precedent. Others far more worthy of consideration have been ruthlessly disestablished; witness the members of the Irish Church, the Proctors of Doctors' Commons, the officers of the Army and Navy, and about a century ago the gentlemen of the troops of Life Guards. We trust, therefore, that if the authorities decline to move in the matter, some independent member of the House of Commons will, with a praiseworthy sensitiveness for the honour both of her Majesty and the Army, call the attention of Parliament to the subject. In conclusion we would suggest that it is desirable that the Captain should be, not a civilian, but a military peer like the Gold Stick, for there is a palpable absurdity in entrusting the personal safety of the Sovereign to a mere ministerial functionary, "that never set a squadron in the field, nor the division of a battle knows more than a spinster."

It is said that Germany once more feels alarmed at the rapidity with which France is recovering from the disasters of the late war. In spite of political troubles, consequent on the introduction of a new Constitution, of squabbles between Clericals and Liberals which menace the existence of the Republic, and of a violent controversy respecting the prerogatives of the Chambers, considerable progress has been made in the way of Army organization. General Berthaut a short time ago replaced General de Cissey at the War Office, where he inspires with confidence Marshal MacMahon and his colleagues, and pursues with unabated vigour the colossal work commenced by his predecessor. He has taken an important step by determining that henceforth the men of the second portion of the contingent shall serve for one year instead of for six months. It appears that the financial condition of the country is such that this addition to the standing Army can be supported. For several years after the war the second portion of the contingent was not called out at all; then it was called out for six months; now it is to be called out for a year. The first portion of the annual contingent serves five years, and it was felt that the difference of the time of service of the two portions was too great. More than one attempt was made during the last Session to induce the Chamber to reduce the time of service in the Active Army from five to three years, as such reduction would do away with the necessity of having two portions of the contingent. It would be possible for all the able-bodied conscripts to serve for three years in the Army without the Estimates being exceeded. General Trochu before he retired from public life expressed himself strongly in favour of the three years' term. He said that the soldier can become thoroughly acquainted with his duty in three years, and that once the private has nothing more to learn he becomes bored and falls into bad habits. A recent discussion in the Chamber of Deputies shows that the short period has many supporters, and it was only owing to the interference of M. Gambetta, who considered a change undesirable for the moment, that the Government was able to resist with success a motion brought forward by a Radical deputy. The Chambers have done a good deal in the way of reporting on the serious question of non-commissioned officers. At present the inducements to non-commissioned officers to remain in the Army are so trifling, when compared with the advantages to be reaped by steady men in civil life, that they invariably leave their corps directly their time of service expires. This is considered very detrimental to the Army. In a report on this question, M. Gambetta pointed out that the Army is distasteful to non-commmissioned officers, because they are not allowed proper accommodation in barracks; they have no place for repose or for work, no place for mess; they are badly paid, dressed like privates, and are so constantly on duty that they have no time for improving themselves. A non-commissioned officer has no more liberty than the private with whom he lives. He is subjected to the same regulations and the same punishments. Even after re-engaging, he cannot marry, and he has no possibility of ameliorating his financial position. In a word, he is placed too low in the military scale, and consequently does not inspire the respect to which his position really entitles him. He enjoys, however, considerable authority and constant responsibility. As for authority, a French Corporal has more power in dealing with an offender than an English Captain. It is clear that the Chambers, in order to retain non-commissioned officers under the colours, will have to impose further sacrifices on the country, and to better the condition of a class of men essentially necessary. It will be impossible to reduce the time of service in the Active Army until a way of retaining Sergeants and Corporals is hit upon. There is a school for non-commissioned officers of Infantry at Avor, one for the Cavalry at Saumur, and also schools for Artillery and Engineers; but the country must act generously towards men turned out by these establishments, or they will slip back into civil life. As regards the recruitment of officers, we learn that the various schools contain more pupils than ever, not that the life of the French officer is possessed of many charms. He has no barrack accommodation and no mess-room; he is under paid, and constant calls are made on his slender means. But a good many young men prefer going in for the epaulette to running the chance of having to serve in the ranks for five years. Promotion, too, is slow, and something must be done to quicken its progress. The question has now been before Parliament for the last five years, but no decision has been arrived at, so difficult is it to get out of a rut and to struggle against acquired rights. The number of superior officers in the French Army is out of all proportion to the effectives, and contrasts strangely with other Armies. In the way of instruction considerable progress has been made in the French Army, where the officers are now, perhaps, over-worked. In the Infantry a new battalion drill, to meet the requirements of the times, has been introduced and studied, and there will be no great difficulty in remedying some minor defects revealed by practice. A change has also been effected in the Cavalry manœuvres, and we are assured that in the event of another European war that arm will play as brilliant a part as in the palmy days of the first Empire. Great attention has also been paid to the Artillery, and a large quantity of guns on a new system—steel breech-loaders—are being cast. It is admitted by the *Avenir Militaire* and by various French military critics that the Autumn Manœuvres last year witnessed a great number of errors committed, but it is hoped that next autumn similar faults will be avoided, and that experience will not have been thrown away. In future the officers in command of army corps will have the direction of the Commissariat, and not be dependent upon the Intendance, as of old. At the last Autumn Manœuvres two classes of the Reserve were called out, and these men helped to swell the companies to something like the effective they will represent in the event of war being declared. Considerable progress, too, appears to have been made in the organization of the Territorial Army during the last year, but as yet none of the men belonging to this force have been called out for anything more serious than a muster.

The avidity with which the daily papers have swallowed any rumours, however vague, tending to detract from the efficiency of the Navy, has, apparently, induced some unscrupulous persons to invent scares. It is plain that the supply has been fully equal to the demand, for scarcely a week has passed for many months without some "yarn" being set afloat. When the numerous supply of break-downs, many of which were invented by these ingenious vendors of news, rendered the accounts a trifle flat, and when constant contradictions exposed the untrustworthiness of their origin, the demand probably fell off. But the sensationalists were equal to the occasion. First, they spread the statement that the Orontes was in a most unfit condition to proceed to sea, and it was not until the Admiralty ordered a special survey of the vessel and let the result be publicly known, that people who believe all they see "in the papers" were fully satisfied that there was no foundation for the alarming character of the accounts given of her defective crank-shaft. Checkmated again, the artful and knowing inventors seem to have decided to go further a-field. In fact, they went right out to sea and cooked up rumours of the losses of vessels that had been out of sight of land for some time, and of which there was little chance of hearing anything for days, thus causing many who had friends on board to be in the greatest trouble and suspense. The troopship Tamar was the first ship chosen for total loss with all hands, and when she turned up all right, the Indian troopship Crocodile, containing hundreds of people, of whom their friends had only just taken an affectionate farewell at Portsmouth, was reported to have foundered in the Bay of Biscay. Of course when application was made at the Admiralty, nothing could be given in the way of positive contradiction to the rumour, for their Lordships have not the powers some lay claim to, of being able to follow the movements of ships in the Bay of Biscay. They could do no more than give the date of her being due at Malta, and there she arrived all well, though she had met with bad weather. But in the interval, while the rumour was being repeated and commented upon in the largest type, who can tell the agony suffered by some of those who were left behind, and feared that those dear to them had perished? When we look at the matter in this light we can hardly bring ourselves to believe that anyone could be found so base as to spread such rumours unless he firmly believed in their truth. But it is strangely suspicious when we remember how continuous has been the propagation of these false alarms. And even yet we do not appear to have reached the end of them. Once more a new line has been adopted, and having exhausted all the perils consequent on the use of steam, and the fury of the elements, it has now come to mutiny. That is the very latest yarn, and the Shah is the victim. One would have thought that that unfortunate ship had already been made to do enough duty in the break-down line to satisfy the most ardent searchers after news without attempting to take away the character of her crew. Yet we have been gravely told that her delay at Gibraltar was attributed to that cause. Unless they take to blowing up the magazines, there is now little in the way of novelty for the sensation-monger to offer as a startling piece of news.

The newly-appointed Aide-de-Camp to the Queen, Captain Francis Sullivan, has seen considerable service afloat, and being the youngest Captain of his year excepting one, has a good prospect of reaching the highest rank in the Service. He has received four medals and a clasp for active service, and is a C.B.

It may be interesting, as showing the rate of promotion on the Captains' List during the last sixteen years, to point out that Captain F. H. Stirling, who heads the list on January 1, 1877, was the junior Captain on January 1, 1861.

It would seem that we have now heard the last of the clerical disputes of the London. Captain G. L. Sulivan is again on full pay, and has decided to withdraw from the action for libel against the *Western Morning News*, the case having been, as that paper puts it, "amicably arranged on terms mutually satisfactory." We are very glad to hear it.

From Zanzibar to Malta is a long way to go for hospital treatment, yet we hear that that voyage has been made by mail steamers by Navigating Lieutenant Nankivell, of the London, as the state of his health rendered his removal from Zanzibar necessary.

Captain B. G. Hall, R.M.A., has been reappointed Military Instructor for a further term of two years.

By the promotion of Rear-Admiral Lord Gilford to flag rank, a vacancy was caused on the list of paid Aide-de-camps to the Queen, to which Captain Brandreth will now be advanced.

Lieutenant A. J. Farquharson, R.N., has been sent to hospital at Malta, owing to his having fractured his collar-bone while playing at football.

We notice the Boxer, screw gun-vessel, lately commissioned for the West Coast of Africa, has been obliged to put into Devonport with disabled machinery, which is likely to detain her there some time. Scarcely a vessel is now commissioned without some such accident happening. We are afraid to say how long the Shah was detained at Portsmouth, and the case of the Danae is too recent to be forgotten. Has cheap machinery anything to do with all this? We have heard it stated that some firms are notorious for their indifferent work, while others, who are more expensive, never give dissatisfaction. It is strange how the boilers of the Hercules have lasted. She has been almost perpetually in commission for eight years, and they are only now worn out, while other ships cannot continue to make theirs last over four. The Druid, corvette, if we mistake not, used hers up in one commission in the West Indies, and those on board the Invincible, which has spent the greater portion of her time in the Mediterranean, have lasted not much longer.

In another column we insert a letter in reference to the recent court-martial upon Sergeant Hill, of the Marines. From comments which have been made on the case in the daily papers there seems to be a feeling that there has been a miscarriage of justice. We have satisfied ourselves, by reference to the prisoner's counsel, that the statements contained in the letter are "perfectly correct."

The unfortunate seaman who was washed overboard from the Devastation in the gale she lately experienced was not lost for want of willing hands ready to make the attempt to save him. Staff Commander Cole and a number of other volunteers quickly offered their services as a lifeboat's crew; but the Captain at once saw that to lower a boat from such a construction in such a sea would have been madness.

We hear that it is probable that the Ready, which was ordered to be detained at Gibraltar on her homeward voyage from the South-East Coast of America, will not now be attached to the Mediterranean Station, as was at one time contemplated, but will come to England to pay off. She was commissioned at Chatham in April, 1873.

The Channel Squadron, under the command of Rear-Admiral Seymour, is expected to arrive at Gibraltar from Lisbon about the end of this month.

Now that the Admiralty have very wisely removed from the summary of effective men-of-war in the "Navy List" the worn-out ironclads, such as the Royal Oak, Ocean, and others, they would do well to extend their researches still further to our unarmoured men-of-war, many of which are, in reality, as effectually relegated to harbour service as any of the ironclads above mentioned. We notice the Jason corvette and Hannibal line-of-battle ship, with their machinery removed, both retained among the list of steam-vessels of the Fleet, though the inconsistency of this is apparent; and the officials at Whitehall must know only too well that of frigates, the Forte, Terrible, and Bristol; of corvettes, the Racoon, Clio, Satellite, Scylla, and Rattlesnake; of sloops, the Cameleon, Greyhound, Perseus, Rinaldo, Rosario, and Star, not to mention others, are in far too rotten a condition ever to be worth repair. To keep such ships among the list of our effective Navy only deludes people into imagining that we have a larger Fleet than we actually possess.

We hear that his Majesty the King of Italy has been pleased to nominate Commander Cameron, C.B., an Officer of the Order of the Crown of Italy.

A correspondent in Victoria has favoured us with a letter, which appears in another column, pointing out the introduction of a novelty as regards the bestowal upon the sons of colonists of the naval cadetships annually placed at the disposal of the colony by the Imperial Government. It will be seen that his Excellency the Governor is an ardent admirer of competition even among schoolboys of tender age. That system was lately tried by the Admiralty, and failed to give satisfaction, and it would appear advisable that in obtaining candidates for her Majesty's Service, whether at home or in the colonies, uniformity of method should be observed.

Captain Brandreth, late of the Excellent, has arrived at Sheerness, and assumed the duties of Superintendent of the yard.

It is satisfactory to find officers voluntarily studying to render themselves efficient for particular duties scarcely within the usual requirements of the Service, and the announcement that Lieutenant Cresswell, R.N., Lieutenant Innes, R.M.L.I., and Paymaster Moorman, R.N., who are now employed in the squadron engaged in the suppression of slavery on the East Coast of Africa, have passed an examination in the Suahili language.

Mr. L. J. Kirkness, R.N., late Secretary to Rear-Admiral Luard, has arrived in England to take up his appointment as Secretary to Vice-Admiral Hornby, on his being selected for the Mediterranean command.

The plan of lighting ships as proposed by Captain Colomb, who has given much attention to this question, was to have been introduced on board the Alexandra, but at the last moment it was decided to adhere to the system generally adopted throughout the Service.

Captain Morgan Singer, of the torpedo ship Vesuvius, recently received instructions to place himself in communication with the Siege Operations Committee, and to afford the members any assistance that he might be able.

The existing regulations under which speed trials at the measured mile are made will shortly be cancelled. The whole matter has been for some little time under consideration, and new instructions will be issued, in which will be embodied the suggestions of Captain Waddilove, to which we recently alluded.

The Royal Humane Society has received from the Admiralty a statement of the gallantry displayed by Lieutenant Osborne, of the Narcissus, in saving the life, under great difficulty, of a seaman who had fallen overboard at Woosung.

The appointment of additional medical officer to the flagship on the China Station, now held by Fleet-Surgeon G. B. Hill, for special service in connection with the Lock Hospitals in Japan, is, we believe, likely soon to be abolished. It is proposed to hand over the charge of these hospitals to the Japanese Government, and it is probable that a higher class of native medical practitioner than hitherto employed in this department will be placed in charge in future.

We hear that Dr. Morier, Surgeon of the Antelope, has applied for permission to resign his commission in her Majesty's Service, and that the Admiralty telegraphed to the Commander-in-Chief in the Mediterranean that this officer might be discharged forthwith.

The active interest evinced by the First Lord of the Admiralty in the question of Reserves for the Navy soon after his taking office, and the establishment of the Second Class Royal Naval Reserve, has been crowned with unexampled success. For very many years it was impossible to maintain the Reserve at its full strength, but by some judicious modification of certain rules, and by the formation of another class which, while in no way interfering with the recruiting for the first class, yet opened the door to the entry of another type of seafaring man who though of undoubted value as the rough material was not qualified for the original Royal Naval Reserve, a considerable increase in strength has been gained. Not only has the First Class increased in numbers, but the Second Class is now up to its full complement, and we understand that all entries are to be temporarily stopped. This is more than the most sanguine expected.

Some weeks since we stated that there was a probability of the Controller's Department being strengthened by the creation of new appointments, namely, travelling Inspectors of Machinery under construction at private engine works. This step has now been taken, and two gentlemen have been selected to fill these duties. It was probably anticipated that naval Engineers would have been given these appointments, but possibly some late performances afloat, the repeated cautions received at the Reserves, and the removal in one week of two officers of this class from their ships for neglect, may have somewhat shaken the confidence of those at Whitehall. It is to be hoped that this new arrangement may prevent imperfectly-constructed machinery from being placed on board her Majesty's ships in future.

Commander Lawrence Ching, now studying at the Royal Naval College, has, we hear, applied for foreign leave of absence with the view of accepting a temporary appointment under a foreign flag. The question of allowing officers on the Active List to accept employment of this nature is likely to come before Parliament early in the ensuing Session.

In a letter occupying three columns of small type in the *Times* of yesterday, Mr. E. J. Reed, M.P., discusses "Naval Administration." One matter for which he seeks a remedy is the ignorance of Parliament and the public of the services upon which our ships are employed, and he advocates an annual report on this subject being laid before Parliament for the information of the taxpayers. He then complains that the strength of the numbers borne in the Fleet has not been reduced, although we have been provided with such constructions as the Dreadnought, which requires so few men. He seems forgetful that it was much more easy to quickly obtain men capable of doing duty on board ships of the old type, and that to efficiently men our modern war machines and fight modern guns, carefully trained men are requisite. How could any sudden increase of such men be obtained on an emergency if we cut down our standing navy to the lowest ebb? He then discusses our present ironclad navy, and finds fault with the variety of its classes. In this the Navy will agree with him, though it may feel some surprise at the quarter from which the complaint now comes. Our insufficient docking accommodation is then dwelt upon, and, finally, he makes a strong appeal for the Engineer class, which will, doubtless, be accepted with thankfulness.

An appeal having been made to our "fairness" in letting both sides be heard, we have inserted a letter from a petty officer respecting the new order as to the wearing of uniform. We see no reason for altering our views as expressed last week. Indeed, there is much in the letter of our correspondent which leads us to believe that the order has not been issued too soon. If it be true that every man worth his salt puts on civilian clothes "an hour after landing from his ship," it is evident that the most respectable portion of the Service is simply doing its utmost to lower the uniform by leaving only those dressed in it who are not worth their salt. Officers are not allowed to wear plain clothes at all times when on shore on leave, and why should petty officers and men expect permission to do so?

The Infantry regiments to proceed abroad during the season 1877-78 will, we understand, be selected from among the following, viz.:—The 1st Battalion 1st Foot, 2nd Battalion 2nd Foot, 2nd Battalion 5th Foot, 2nd Battalion 8th Foot, 2nd Battalion 10th Foot, 1st Battalion 19th Foot, 2nd Battalion 24th Foot, 88th Foot, and 100th Foot. The positions held by the different corps on the home service roster is as follows, viz.:—1st Battalion 1st, twenty-seventh—returned from India November 11, 1870; 2nd Battalion 2nd, first—returned from Bermuda November 15, 1866; 2nd Battalion 5th, third—returned from Mauritius July, 1867; 2nd Battalion 8th, sixth—returned from Jamaica July 3, 1867; 2nd Battalion 10th, forty-fifth—returned from India February 19, 1873; 1st Battalion 19th, forty-first—returned from India December 26, 1871; 2nd Battalion 24th, forty-third—returned from India January 3, 1873; 88th, thirty—returned from India December 21, 1870; and 100th, ninth—returned from Canada November 11, 1868.

The troubles of the members of the Commissariat and Transport are great indeed, and it is only through united action that any amelioration of them can be hoped for. Lord Eustace Cecil, the Surveyor-General of Ordnance—who, we are pleased to say, is improving in health—has, it is understood, had the report of the Haliburton Committee submitted to him, but seems to question his responsibility with regard thereto. The unfortunate Commissariat officers are, therefore, left without a champion. The whole body of War Office clerks would appear to be working against them, and they have apparently no person to whom they can reasonably appeal. Their position is not a comfortable one for them, neither is the prospect encouraging for the country, which should by this time know into what innumerable difficulties civilian influence will lead it. There is some satisfaction in knowing that we have as Secretary of State for War a Minister whose determination to convince himself is proverbial, and who happily leans for advice to the military rather than the civilian officials.

The troop falling vacant in the Royal Dragoons cannot be filled regimentally, the senior subaltern not yet having qualified. We trust, therefore, to find one of the subalterns of those most unfortunate regiments—the 19th, 20th, and 21st Hussars—offered his step by selection. The senior subaltern in the Cavalry of the Line is Lieutenant Wynter, 16th Lancers, but he is obtaining his troop consequent on the augmentation of his regiment. This will place Lieutenant Fisher, 21st Hussars, who entered the Service September 9, 1864, at the head of the list, the second place being occupied by Lieutenant Kenyon-Stow, 19th Hussars, who joined the Army January 3, 1865. Both these officers have undoubted claims, the case of the latter being particularly deserving of attention, he having lost six years service by "reduction." As it is well known that both officers would accept promotion, it would be but an appreciable act were the present vacancy offered to one or the other of them.

That progress is essentially necessary to obtain sound perfection hardly requires elucidation, but we fear that such is not sufficiently in favour with that branch of the State to which is entrusted the guidance of our military affairs. There are many matters under the control of the Discipline or Horse Guards branch of the War Office which we think demand attention, some perhaps a speedy settlement. Has the recruiting question received a favourable solution? Have we yet a recognised system of tactics? We fear the important unit or foundation-stone is still a subject of divided opinion, perhaps contention. Is the present system of regimental interior economy all that can be desired? Is not the machinery of our military law susceptible of improvement? Are not its wheels slightly cloggy? If we turn to the Administrative or Surveyor-General's Department of the War Office, we notice much in its construction which we fear we must designate as faulty. We notice two extensive branches in this department—viz., the Financial Secretary's, and the Accountant-General's; we confess that we have long endeavoured, and without effect, to obtain a satisfactory solution as to why these departments were admitted within the walls of the War Office. We are well aware that the Financial Secretary is the representative of the Lords Commissioners of her Majesty's Treasury, but we are at a loss to understand the necessity of such representation if their Lordships resided at a distance from London. To save time and prevent delay such representation could be well understood, but a comparatively very short stroll divides Pall Mall from Downing-street. The Department of the Accountant-General we think eccentrically singular; it prepares the Army Estimates, and demands and receives the supply voted for these Estimates by her Majesty's Parliament. This would appear, perhaps, to be within the capacity denoted by its appellation; but when we understand that this same department audits the Army Estimates, or rather audits its own expenditure, we cannot be considered out of place if we remark that this department has been allowed to exceed the limit of its strict official capacity. Further, when we understand that the heads of the Finance and Account branches are accustomed to make themselves heard within the walls of the War Office, we cannot but conjecture that the cause may proceed from factious opposition only, which would possibly be effectually removed by the return of the one department to the Treasury and of the other to the Board of Audit, reducing the War Office to what it should be, the administrative office of the Army. With the system at present in force we ought perhaps to be only too thankful for the small amount that is, or rather that is allowed to be, done; but we think that something more than a positive degree is desirable when other degrees of excellence are obtainable.

Among the General officers for whom commands are to be provided in April next we may mention Major-General the Hon. Leicester Smyth, C.B., for some time Military Secretary to Lord Strathnairn, and afterwards Deputy Quartermaster-General in Ireland. It is considered probable that General Smyth will return to the scene of his former labours—Ireland.

Colonel R. M. Laffan, Royal Engineers, has accepted the Governorship of Bermuda, with which we have more than once associated his name. Colonel Laffan will shortly arrive home from Gibraltar, where he is now acting as commanding Royal Engineer, and will proceed out to the West Indies early in the spring to relieve Major-General Lefroy. It has been made a rule that the Bermuda Governorship shall be filled by an Artilleryman and Engineer by turns, the officers of both the Ordnance corps thus having a chance of obtaining the highly desirable appointment.

How many officers have been decorated with the Cross of the Star of India in recognition of their Mutiny services? Many there were whose names were brought prominently to notice, but who obtained no manner of reward. The 1st instant might have been made a fitting occasion for some of the disappointed ones, who have since attained higher rank, to have been made members of an Order which, but for their exertions, it is reasonable to suppose would never have been instituted. But it is not too late, even yet, for justice to be done. It is the general impression in official quarters that the forthcoming anniversary of her Majesty's birthday is to be marked by the distribution of Bath honours, and we would suggest that a Star of India gazette be published at the same time, and that it include the names of some of those whose claims have lately been overlooked. There is a vast field for selection, and between this and the end of May there would be ample time for such an examination of services to be made as would leave no room for further discontent. As we pointed out last week, India was won by the sword; and seeing that it will be by power of arms we shall require to maintain our footing there, we ought not to show a disinclination to bestow honours where the honours are the more fairly deserved.

Much sympathy is expressed for Colonel A. A. Nelson, C.B., who we lately announced had handed in his resignation of his appointment as Assistant-Adjutant and Quartermaster-General at Gibraltar. Colonel Nelson only went out to Gibraltar in October, 1873, and had made a large body of friends there, all of whom testify to his many excellent qualities, social and professional, and deplore the loss which has compelled him to withdraw before the expiration of his term.

L'Avenir Militaire contains an article on floor scrubbing, which furnishes us with some interesting information. Several systems have recently been tried, such as waxing, washing, and cleaning by means of sand or sawdust. The War Minister has decided in favour of sawdust. So far so well. But it seems that the soldier is to pay not only for the new instruments required, but also for the daily supply of sawdust. This additional burden, says *L'Avenir Militaire*, will fall very heavily on the scanty pay of the men, which only amounts to twenty-two centimes (about 2½d.). And with these twenty-two centimes the Captain of the company has to procure for his mess bread for the soup, vegetables, and the condiments necessary for two meals; sugar, coffee, oil for the lamps, and blacking to mark necessaries; the *sabots* of the cook have also to be paid for, and the salary of the hair-dresser and washerwoman met; the ingredients for cleaning belts, buttons, weapons, boots, &c., must be procured, and cooking utensils renewed from time to time. In fact, it is so difficult already to make both ends meet that French Captains are distracted from military studies, and have to pass much time in trying to regulate the economy of the soldiers' mess so as to keep the company out of debt. It is too bad to add sawdust to the other items for which the men are called upon to pay. According to the *Avenir* the new War Minister is turning in a vicious circle.

The following officers employed as Adjutants of Auxiliary Forces complete their five years' service in the course of the present year, viz.:—Captain M. C. Newall, R.A., 1st A.B. East York Artillery Volunteers, January 29; Captain R. Upcher, 24th Foot, 3rd Norfolk R.V.C., February 10; Captain G. H. Woodward, 2nd Foot, 40th Lancashire R.V.C., March 8; Captain E. J. Jekyll, 64th Foot, 1st A.B. Bedford R.V., April 10; Captain J. M. Batten, 8th Foot, 1st A.B. Dorset R.V., April 23; Brevet Major J. D. Dyson-Laurie, 34th Foot, 1st Royal Middlesex Militia, May 11; Captain Mackenzie, 78th Foot, Highland Rifle Militia, May 22; Captain W. P. L. Lewes, 51st Foot, 1st A.B. Pembroke R.V., July 2; Captain H. Currie, 79th Foot, 1st A.B. Dumbarton R.V., September 18; Captain H. D. Evans, R.A., 3rd A.B. Lancashire Artillery Volunteers, October 1; Captain W. A. Warren, R.A., 1st A.B. Cheshire Artillery Volunteers, October 3; Captain A. R. Cruikshank, R.A., 1st A.B. Argyllshire Artillery Volunteers, October 26; Captain E. W. Sandys, R.A., Royal Lancashire Artillery Militia, November 20; Captain H. Burge, 47th Foot, 1st Lanark R.V.C., December 6.

In consequence of the unauthorised statements which have been published regarding the sanitary condition of the War Office, her Majesty has commanded a Commission to inspect the premises and report thereon. The Commission, consisting of Sir William Jenner, M.D., Sir. W. W. Muir, M.D., Chief of the Medical Department of the Army, Dr. Seaton, and Mr. Noel, M.P. (who was accompanied by his secretary, Mr. Mitford) visited the two houses on Wednesday. On Saturday the Commission will again assemble and make a final inspection of the buildings, after which a report will be drawn up and presented to her Majesty. It would be premature to offer an opinion on the probable issue of an investigation, but the names composing the Commission are a sufficient guarantee that the work will be ably and thoroughly performed.—*Lancet.*

We *(Irish Times)* understand that Major Harbord, half pay late 7th Fusiliers, will be relieved in his appointment as gunnery instructor at Cork in July next, when he will have completed seven years' service on the Staff in this country. The same journal says: "Brevet Major W. Paterson, half pay, late 63rd Regt., is to be permitted to retain his appointment as Professor of Military Surveying at the Royal Military College, Sandhurst, for an indefinite period, irrespective of the seven years' arrangement."

A war game was played at the Club House, Aldershot, on Thursday last, the following being the general idea:—An army corps moving on London *viâ* Edenbridge and Westerham detaches a force (red) to cover a force (blue) which is advancing on that place from the direction of Dorking. No signallers allowed nor carriage by road for Infantry. Players: Blue—Major Haldane, 64th Foot; Red—Capt. Poole, R.H.A. Umpire: Col. Wood, V.C., C.B., A.Q.M.G. Assist. Umpires: Capts. G. Hart and Hood, and Brigade-Major Cardew, D.A.Q.M.G.

The Army.

1st (King's) Dragoon Guards. Our attention has been drawn to a paragraph which appeared in the last issue of a new publication called *Truth* relative to the King's Dragoon Guards. It is so absurd that none connected with the Army would for a moment credit it; but as it has been copied into several non-professional papers, it is but right that the statements should be refuted. *Truth* says that the late colonel of the King's Dragoon Guards "has left that once fine Cavalry regiment in a most deplorable condition. We hear that although the regiment is the first of its class on the list for active service, there are not more than one hundred men and horses fit and ready to take the field." Now, the regiment is not the "first of its class," either as a dragoon or a "medium" Cavalry regiment, for active service, both the Carabiniers and 17th Lancers coming before it. The total strength of the regiment is 384 horses, and of that number it is at the present time but two short, which leaves 382. Deducting six men and six horses detached at Canterbury, Aldershot, and Sandhurst, the regiment can turn out, mounted, 342 non-commissioned officers and men, both horses and men dismissed, and ready for service. *Truth* states, in addition to the deficiency in men and horses, there are eleven officers short on the roll-call. The falseness of this statement is evident, as reference to the "Army List," published by authority, will show that the regiment is only five subalterns short.

4th Dragoon Guards. Col. Chaplin, who has retired upon half pay from the command, has been thirty and a-half years in the Service, all of which he has spent upon full pay. On first joining in May, 1846, he took up duty with the 3rd Light Dragoons, obtaining his lieutenancy Oct. 3, 1848. In the October following he effected an exchange to the 3rd Dragoon Guards, in which he at length—April 1, 1859—became major. He left the 3rd for the 4th Dragoon Guards Feb. 20, 1863, by exchange with the late Col. T. L. Mayne, and on Col. Shute, C.B., becoming a major-gen. in Dec., 1871, he succeeded to the command of the Royal Irish, having been the first officer appointed to the lieut.-colonelcy of a regiment under the non-purchase regulations. As to Col. Chaplin's successor, it is known that the vacancy will be filled by selection from the General List. Report has named Brevet Lieut.-Col. Craigie, but there exist very good reasons for doubting whether such a promotion would be desirable, Col. Craigie being an ex-Indian officer. At any rate, if Col. Craigie is selected, it will be a surprise for his regiment.

1st (Royal) Dragoons. When Capt. Maunsell retires, his troop will have to be given outside the regiment, the senior subaltern not yet having qualified.

3rd Hussars. Lieut. Kelly has applied for leave to England.

4th Hussars. Vet.-Surg. Matthews, appointed in place of Vet.-Surg. Paton, deceased, has been doing duty with the regiment at Rawul Pindee since Mr. Paton's departure; he was for some time in veterinary charge of the 3rd Madras Light Cavalry.

6th Dragoons. Surg.-Major Clarke, in medical charge, is in readiness to embark for India.

7th Hussars. The annual school treat was held on Monday evening at Edinburgh, the warm clothing (the gift of Col. Hale) and the toys and prizes off the Christmas-tree being distributed by the colonel.

8th Hussars. Capt. Bell, recently promoted from the 5th Lancers, has been appointed commandant of the School of Instruction for Auxiliary Cavalry, vice Capt. Barrow, 19th Hussars, appointed Brigade-Major of Cavalry in Ireland.

9th Lancers. Capt. the Hon. H. Legge has been granted leave from India to England, on medical certificate, and is expected home on Monday in H.M.S. Serapis.

11th Hussars. Paymr. (Major) Dyer has sailed for India in H.M.S. Malabar, to rejoin from leave.

14th Hussars. The death is announced of Capt. the Hon. J. St. V. de Saumarez, late of the regiment, second and youngest son of Lord de Saumarez, at Amélieles-Bains, Pyrénées Orientales. The deceased joined the regiment as cornet, March 29, 1864; became lieut., April 17, 1866; capt., March 29, 1869; and retired by sale of his commission in Dec., 1872.

16th Lancers. Brevet Major Goldie is expected to arrive home from India in H.M.S. Serapis, which sailed on the 19th ultimo. Lieut. Aylmer had to precede the regiment to England by mail steamer in order to appear before a medical board.

17th Lancers. The regimental Masonic lodge was held at the Wellington Hotel, Aldershot, on Tuesday last, when Lieut. Brown was installed W.M. for the ensuing year, and Lieut. de Visme, 8th Hussars, raised to the sublime degree of Master Mason.

19th Hussars. Although Brevet Lieut.-Col. Craigie has been named for the command of the 4th Dragoon Guards, the fact of his being an ex-Indian officer would seem to militate against his chances, and in the regiment the report is certainly not given credence to. Surg.-Major Atkinson has relieved Surg.-Major Burland in medical charge.

ROYAL ARTILLERY.

The *Irish Times* announces that "Lieut. J. T. Bury, who has been employed as aide-de-camp to Major-Gen. J. M. Primrose, C.S.I., at Aldershot, accompanies the general to India, where he is proceeding to assume command of a division of the Bombay Army."

Major F. Duncan, lately in command of the Artillery in Jamaica, and for several years in charge of the Royal Artillery Records, has joined the School of Gunnery at Shoeburyness as a Capt. Instr.

The *Whitehall Review* says, "It will be gratifying to the officers of the old Indian Artillery and Engineers to learn that the India Office is not indisposed to sanction the adoption of special means with a view of creating promotion, which has for the last few years been almost at a standstill."

Capt. M. H. Saward, C Brig. R.H.A. (late Bengal), has applied for leave to England from India.

Lieut. W. L. Davidson, B Brig. R.H.A., has been granted leave from India to England, on medical certificate.

Lieut.-Col. J. H. Reid, 4th Brig. (late Bombay), has been posted to Kirkee.

Vet.-Surg. A. Bostock, 9th Brig., has been granted leave from India to England, on medical certificate, and is expected home on Monday in H.M.S. Serapis.

Capts. J. F. Meiklejohn and L. W. Taylor, F Brig. R.H.A. (late Bengal), are expected home from India on Monday in H.M.S. Serapis.

Lieut. T. Mayhew, commanding No. 1 Mountain Battery, Sind Frontier Force, has passed the second standard examination in the Sindhi language.

Lieut. C. Longridge, 6th Brig., is retiring from the Service.

ROYAL ENGINEERS.

Lieut.-Gen. Sir J. L. A. Simmons, K.C.B., Inspector-General of Fortifications and Director of Works at the War Office, accompanied by Col. Nugent, Deputy Director, Gen. Menabrea, and other Italian officers, visited Chatham on Wednesday, and made his annual inspection of the Corps of Royal Engineers, the School of Military Engineering, &c. On arrival at Brompton Barracks, the visitors were received with a general salute, the whole of the officers and men of the corps having been drawn up on the parade, under the command of Col. Stokes, C.B., the Commandant, and Lieut.-Col. Cox, Superintendent of Military Discipline. The corps were afterwards inspected and put through some movements, but the proceedings were cut short by a heavy downfall of rain. In the afternoon a variety of experiments were made in the Royal Engineer field works, in the presence of Gen. Simmons and the visitors. The experiments included the destruction of stockades, earthworks, railway metals, &c., with gun cotton. They also inspected some model batteries, redoubts, &c., in the Royal Engineer Park. During the experiments an observatory, some 200ft. high, made with scaffold poles, toppled to the ground through the giving way of a rotten rope; and a number of men had a narrow escape, owing to a heavy piece of railway metal being thrown into their midst by the force of an explosion. Fortunately, in neither case was any one hurt.

The Gibraltar correspondent of the *Western Morning Mercury* writes from Gibraltar on the 5th inst.:—"Lieut. Buckle, R.E., with his tiny yacht, the Ariel, and a party of friends had a narrow escape during the late storms. They had made an excursion to Ceuta, on the African coast, and on the return were delayed awhile in the Straits for want of wind, which, however, came on presently in a very excessive quantity. But for his clever management of the little craft she and all on board must have perished. Finding it impossible for a time to lie at anchor, they had, after attempting it, to make sail, and meanwhile some of the party made for shore in a boat. The boat was smashed against the rocks, but the occupants without serious hurt were able to clamber on to the breakwater. Lieut. Verner, Rifle Brigade, who considerably surprised the guard as he came out of the deeps, then made his way to the Dockyard to report to Capt. M'Crea the position of the Ariel. He at once sent off the Shah's lifeboat and a cutter from the Express, and they soon brought the Ariel in all right. Once Mr. Buckle was actually washed off his little craft, but was able to grasp a chain, by which he held on until his companions were able to drag him on board."

Major and Brevet Col. G. D. Prichard has been granted leave from India to England for one year, on private affairs.

Grenadier Guards. The sheriffs have fixed the 29th inst., at the gaol of Newgate, for the execution of Private M. M'Connon, sentenced to death at the Central Criminal Court last week for the murder of Noah Johnson.

1st or Royal Scots. Lieut. Smith has been appointed assist.-instr. of musketry to the 2nd Batn.

2nd Queen's. Lieut. Adams, 1st Batn., has been granted leave from India to England for fifteen months, on private affairs. Lieut. Alban, 1st Batn., is a candidate for the Indian S.C., and has been appointed second wing subaltern of the 7th Bombay N.I., on probation.

3rd Buffs. Capt. O'Brien joins the 2nd Batn. on exchange from the 82nd Foot. Lieut. E. W. Howey, 1st Batn., died at Ripplewood, Collington, Hereford, on the 8th inst. The deceased entered the Army April 24, 1869, and became lieut., Aug. 2, 1871.

4th King's Own. Capt. Stehelin joins the 1st Batn., on exchange from the 19th Foot. Lieut. Baker, 1st Batn., has returned to Gibraltar from leave in England.

5th Fusiliers. Brevet Major Creagh, 1st Batn., sailed for India on the 12th inst., in H.M.S. Malabar, to rejoin head-quarters from the depôt.

7th Fusiliers. Lieut. Nicholson and Sub-Lieut. M'Kinstry, 2nd Batn., have sailed for India in H.M.S. Malabar.

8th King's. Capt. Egerton and Lieuts. Brown and Thompson, 1st Batn., are *en route* to India in H.M.S. Malabar to rejoin head-quarters—Capt. Egerton and Lieut. Thompson from the depôt, and Lieut. Brown from leave.

9th Regiment. Major D. H. M'Barnet, of the New Zealand Militia and late capt. 2nd Batn., died last month at Sandon, near Wellington, New Zealand. Major M'Barnet served with the 79th Highlanders in the Crimea from June 3, 1855; including the siege and fall of Sebastopol (wounded in the trenches, Aug. 24), assaults of June 18 and Sept. 8, and expedition to Kertch and Yenekale (medal with clasp and Turkish medal). He joined the Army Jan. 24, 1853; became lieut., Aug. 11, 1854; capt., Sept. 7, 1855; and retiring in 1867, settled in New Zealand, and was appointed major in the local Militia, Nov. 20, 1868. Brevet Major Burland, 2nd Batn., is expected to arrive home from India in H.M.S. Serapis. Lieut. Farley, 2nd Batn., is *en route* to India in H.M.S. Malabar, to join on exchange from the 1st Batn.

11th Regiment. Capt. Smyth, 2nd Batn., has been ordered to the depôt in place of Capt. Street, ordered to head-quarters.

14th Regiment. A correspondent points out that "Capt. Borton is the only captain (not promoted from the ranks) who was in the Crimea in 1854 now serving, without brevet rank, and without a chance of obtaining it for some years. This officer was passed over for his company under the purchase system, no less than eighteen times."

15th Regiment. Lieut. Inglefield, 2nd Batn., has been granted leave from India to England, to appear before a medical board, and is expected to arrive at Portsmouth on Monday in H.M.S. Serapis.

16th Regiment. Capt. Harden is transferred from the 1st to the 2nd Batn. on promotion.

17th Regiment. Capt. Richards remains with the 2nd Batn. on promotion.

18th Royal Irish. Capt. Milner remains with the 2nd Batn. on promotion.

19th Regiment. The following officers are expected to arrive home from India with the 2nd Batn. in H.M.S. Serapis on Monday next, viz.:—Col. Chippindall, C.B., Majors Barrett and Anderson; Brevet Major Williams; Capts. Iles, Trotter, and Thornhill; Lieuts. Oakes, Cameron, Roche, Langford, Barnard, Burnett, Sharpe, Bruce (adjt.), Halifax, Simpson, Briggs, and Franklin; Paymr. (Capt.) Hughes; Qrmr. Hunt; and Surg.-Major Hefferman. The battalion will be stationed, on arrival, at Parkhurst, whither the depôt companies proceeded from Aldershot on Tuesday to await it. Capt. Hughes is posted to the 1st Batn. on exchange from the 4th Foot.

23rd Fusilers. The following general order has been issued at Gibraltar:—"On the night of Nov. 30, the tender of a Spanish gunboat was upset in a squall near Catalan Bay. It was very dark and stormy at the time, and the position of the wreck was indicated only by the cries of the boatmen; a guard of the 2nd Batn. 23rd Royal Welsh Fusiliers, on duty on the Eastern beach, assisted by three Spanish boatmen, with difficulty launched a boat, and, being joined by one of the wrecked crew, who had swam ashore, rescued four exhausted men, who were clinging to the wreck. On reaching the shore it was ascertained that one of the crew was missing; the boat was again put out, and Privates Cox, Dornin, and Kirby, swam about the wreck in search of the missing man, whose body was, however, not recovered till the day following. General Lord Napier of Magdala feels much pride in communicating these details to the garrison. The soldier-like conduct of Sergt. G. Morris and the men of his guard, and especially of Privates Cox, Houghton, Dornin, and Kirby, have merited his Excellency's warm approval, which Major-General Somerset is requested to be so good as to convey to the sergeant and his guard, at the head of the Infantry brigade." The regiment will, it is understood, be robbed of the step consequent upon Capt. Bradshaw's retirement.

22nd Regiment. Lieut. Gordon Cumming, 2nd Batn., has sailed for India in H.M.S. Malabar, to rejoin head-quarters from leave.

25th Regiment. Major Ramsay has sailed for India in H.M.S. Malabar to join the 1st Batn., on promotion from the 2nd Batn.

28th Regiment. Capt. Marsman joins the depôt in April, relieving Capt. Moore-Lane, who is in readiness to embark for Hong-Kong.

32nd Light Infantry. The regiment, on arrival home from the Cape of Good Hope, will be stationed in England. Lieut. Tawke is to vacate his appointment on the Staff at the Cape, and is ordered to return to England with head-quarters.

33rd Regiment. Major Johnstone, who was left at home in command of the depôt on the embarkation of head-quarters, has sailed for India in H.M.S. Malabar to rejoin head-quarters on promotion.

34th Regiment. Capt. James and Lieut. Kelly have sailed in H.M.S. Malabar for India—Capt. James to resume duty on vacating the adjutancy of the 1st Royal Lancashire R.V.C., and Lieut. Kelly to join from the depôt.

39th Regiment. Col. Currie has been granted leave from India to England, on medical certificate. Col. Currie, Capt. Stephens, and Lieut. Le Marchant are expected home from India in H.M.S. Serapis, which sailed on the 19th ult.

43rd Light Infantry. Lieut. Rivett-Carnac is expected home from India on Monday in H.M.S. Serapis.

45th Regiment. Lieut. and Adjt. Jones has left England for India in H.M.S. Malabar to rejoin from leave.

48th Regiment. Col. Travers has sailed for India in H.M.S. Malabar to resume command from leave. Lieut. Maycock and Qrmr. Knox left Portsmouth at the same time on the expiration of their leave. Capt. Sedley and twenty-five men are to embark next month.

ROYAL MARINES.

Leave of absence has been granted the following officers, viz.:—Lieut. and Adjt. J. H. Sandwith, six weeks; Lieut. C. M. Barham, one month in extension; Capt. W. G. Hale, three months; Lieuts. G. A. Gott, one month in extension; F. Baldwin, one month in extension; A. F. Gatliff, three weeks in extension; and H. M. Abud, one month; Capt. A. G. Anson, fourteen days in extension; Lieut. H. de la P. Beresford, one month; Capt. A. J. Hill, two months; and Lieut. A. B. Shakspear, one month.

Lieut. R. P. Coffin and attendant, together with three privates, are under orders to proceed to the Falkland Islands.

Lieut. A. B. Liardet, R.M.L.I., has been appointed, from the 13th inst., to be musketry instr. to the Mediterranean Fleet, vice Ramsay, appointed assist. musketry instr. to the Portsmouth Division.

Capt. and Brevet Major A. L. Morris, R.M.L.I., has been placed on the Retired List from the 17th inst., under the provisions of H.M.'s Order in Council of Feb. 22, 1870, and Feb. 5, 1872.

50th Queen's Own. We are glad to hear that Lieut. Churchill will obtain the company which will become vacant when Capt. Barker joins the West Kent Militia. Promotion has been so slow in the 50th that the subalterns have to be thankful for the smallest mercies.

51st Light Infantry. Capts. White and Kennett and Lieut. Earle have left for India in H.M.S. Malabar to join head-quarters—Capts. White and Kennett to rejoin from depôt duty, and Lieut. Earle to join on appointment from the Lancashire Artillery Militia.

53rd Regiment. Lieut. Cotton obtains the company vacant by the retirement of Capt. Beckwith.

56th Regiment. Capt. Braine has passed the higher standard examination in Hindostanee.

57th Regiment. Capt. Hinxman left England a few days ago for Ceylon, to join head-quarters on promotion from the 10th Foot.

59th Regiment. Major Lacy, Capt. Elias, and Lieuts. Small and Lucas have left for India in H.M.S. Malabar—Major Lacy, Capt. Elias, and Lieut. Lucas to rejoin from leave, and Lieut. Small from the depôt.

60th Rifles. Lieut.-Col. Hinxman has sailed for India in H.M.S. Malabar to assume command of the 4th Batn., which recently arrived at Agra from Ireland. Capt. Byron and Sub-Lieut. Banks, 2nd Batn., also took passage in the Malabar—Capt. Byron to join from depôt duty, and Sub-Lieut. Banks on appointment.

62nd Regiment. Lieut. Hatch and Sub-Lieut. Robertson have sailed for India in H.M.S. Malabar.

63rd Regiment. Major Kinahan, Capt. James, Lieuts. Gronow and Thomas, and Sub-Lieut. Parsons have sailed for India in H.M.S. Malabar—Major Kinahan to rejoin from leave, Capt. James and Lieut. Gronow from depôt duty, and Lieut. Thomas and Sub-Lieut. Parsons to join on appointment.

67th Regiment. Capt. Dunlop has sailed for India in H.M.S. Malabar to join on exchange from the 47th Foot. Lieut. Wardlaw-Ramsay is expected home on Monday in H.M.S. Serapis.

68th Light Infantry. Capt. Crawford and Sub-Lieut. FitzGerald have been granted leave from India to England to appear before a medical board, and are, together with Capt. Lee, expected home on Monday in H.M.S. Serapis.

69th Regiment. Lieut. Ingram has rejoined head-quarters at Gibraltar from leave in England.

70th Regiment. Lieuts. Smith and Lumsden have taken passage to India in H.M.S. Malabar to join head-quarters—Lieut. Smith from depôt duty, and Lieut. Lumsden on appointment from the South Lincoln Militia. Capt. Tibbs embarks at Malta.

73rd Regiment. Lieut. Wiley has left England for India to join on appointment from the Kerry Militia.

81st Regiment. Capt. Warren and Lieut. Farrant have left for India in H.M.S. Malabar to rejoin head-quarters from the regimental depôt.

83rd Regiment. Sub-Lieuts. Beville and Warden are candidates for the Indian S.C., and have been posted to the 29th and 30th Bombay N.I. respectively, on probation.

85th Light Infantry. We (*Madras Standard*) learn that his Grace the Duke of Buckingham and Chandos will arrive at Delhi on the 29th, and that, at the special request of the colonel commanding the 85th Buckinghamshire Regt. of Foot—a regiment which, it is said, was raised by the Duke's grandfather—his Grace will present the corps with new colours. The ceremony is expected to be a very interesting one.

92nd Highlanders. Lieut. Dundas is *en route* to India in H.M.S. Malabar, to join on appointment. Lieut. Macbean has sailed for India to join on appointment from the 6th West York Militia.

97th Regiment. Capt. Safford and Lieut. Murphy obtain the steps in succession to Major Ferris, retired. Capt. H. J. Lawrell, late of the regiment, died at Harrow Lodge, Westbourne Park-crescent, on the 14th inst., aged forty years. He entered the Army Dec. 8, 1854; became lieut., Nov. 23, 1855; capt., Nov. 18, 1859; and retired ten years ago.

100th Roayl Canadians. The women and children assembled in the Recreation Rooms, Aldershot, on the 10th inst., and partook of a tea provided by Col. Hon. C. J. and Mrs. Addington.

103rd Fusiliers. Lieut. Heathcote obtains the company vacant by Capt. Hobart's retirement.

108th Regiment. Major Gordon is expected home from India in H.M.S. Serapis, which sailed from Bombay on the 19th ultimo.

109th Regiment. Lieut. Murphy has been appointed assist.-instructor of musketry, vice Lieut. Shepherd, who has resigned that appointment.

Rifle Brigade. Brevet Lieut.-Col. Nicholls, 1st Batn., who lately exchanged with Major Dashwood, 4th Batn., has been posted to the Rifle Depôt at Winchester for duty for two years. Capt. Walpole and Paymr. (Major) Bailey have sailed for India in H.M.S. Malabar—Capt. Walpole to join on exchange from the 3rd Batn., and Major Bailey on transfer from the 3rd Buffs. Lieut. Frere has joined the 2nd Batn. at Gibraltar on appointment from the 6th Lancashire Militia.

2nd West India Regiment. A correspondent writes:—"The officers and men of the detachment stationed at Nassau, Bahamas, gave their farewell entertainment in connection with the library and reading-room on Dec. 19. The performance was a decided success, as was testified by the loud acclamations of the audience, among whom were his Excellency the Governor and the officers and men of H.M.S. Pert. The detachment leaves this island with the best wishes of the inhabitants, and it is to be hoped that a prosperous future will await its projected long sojourn on the West Coast of Africa."

19th Brigade Depôt (Lichfield). The command is vacant in consequence of Col. Peyton's appointment to the Staff at Shorncliffe.

21st Brigade Depôt (Shrewsbury). Col. Colville, C.B., has assumed command on appointment.

34th Brigade Depôt (Exeter). The command is falling vacant in consequence of the promotion of Col. H. M. Hamilton, C.B. Col. Hamilton was appointed to the command at Bury St. Edmunds from the 1st Batn. 12th Regt. in April, 1873, retired on half pay in the following year in order to obtain his "over-regulation," and was re-appointed to a Brigade Depôt in Dec., 1875, and posted to Exeter.

Medical Department. We (*Times of India*) have frequently taken occasion to point out the unsatisfactory condition in which the British Medical Department is at the present time. Mr. Hardy's late demand for candidates to compete for fifty-seven appointments was responded to by thirty-three individuals, the majority of whom, no matter how inferior in quality, moral, social or professional, were welcomed with open arms by Mr. Hardy and the War Office. After proceeding to Netley, however, sundry of the successful candidates found time for reflection, and discovering that they had made a false step, they set about using all haste to retrace it betimes, and so they quitted their pleasant residence on Southampton Water without much formality of leave-taking. The Department is at present greatly under-officered, being considerably over 100 below its strength. On this account the tour of Indian service comes round with a rapidity which is extremely unpleasant, to use no stronger word, to those whose health had previously given way in this country. When the state of a medical officer's health unfits him for going abroad, there remains for him under the present *régime* a brief period of half pay, with the prospects of ultimate discharge from the Service looming ominously in the background. Hence many officers come out to this country who are in a condition of total unfitness to stand the climate. The case of Surg. James, who died last week at Secunderabad, presents an instance in point. This officer, we understand, was invalided to England suffering from the effects of sunstroke. The Board which sent him home recommended that he should not return to India for a period of at least two years. In despite, however, of this recommendation, Dr. James was ordered out at the end of a few months. He landed in this country about six weeks ago. He never enjoyed a day's health since landing, and died suddenly at Secunderabad, as we have said, last week. A specially melancholy feature of the case is that his wife, with an infant child, arrived in Bombay from England just in time to hear of his death. Surg-Major D. J. Doherty and Surg. O. F. Mulloy have been granted leave from India to England, on medical certificate, and are expected home on Monday, together with Surgs. J. Coates, J. M'Cracken, and P. R. Gabbett, in H.M.S. Serapis. We regret to learn of the death of Surg.-Major R. A. Allen, M.D., which occurred at Rawul Pindee on the 4th ult., whilst on the march up-country with the 4th Batn. Rifle Brigade. Dr. Allen entered the department Nov. 23, 1858, and became surg.-major Dec 24, 1873.

Veterinary Department. The Curragh correspondent of the *Irish Times* writes:—"If we may judge by the feeling which at present pervades the Army Veterinary Department, a considerable share of dissatisfaction exists, and the remarks some time since made by your special correspondent in his 'Garrison Gossip from London' appear to have aroused serious attention. From what I can learn an agitation was promoted about a year ago for the purpose of bringing about the retirement of the late Mr. Wilkinson. His death in May last, after a few hours' illness, effectually relieved the promoters further trouble. Previous to his death the late P.V.S. had selected First Class Vet.-Surg. Dawson for promotion to the rank of Staff vet.-surg., then vacant, and which had been offered, but refused by the few who were senior to Mr. Dawson, for the reason that they wished to remain with their corps. I believe no doubt exists but that Mr. Dawson was officially called upon to undergo an examination, which Mr. Wilkinson stated was passed to his entire satisfaction, and would, it is to be presumed, have been immediately promoted but for the death of the principal vet.-surg. Mr. Wilkinson was succeeded by Staff Vet.-Surg. J. Collins, who was appointed principal vet.-surg. over Staff Vet.-Surg. Gardiner, who had served over thirty years, fifteen of which were as Staff vet.-surg. This naturally caused murmuring and discontent, and the first act of the newly-appointed chief did not contribute to allay the dissatisfaction. He appointed a junior, in Mr. Varley, over the heads of Messrs. Dawson and Hinge, both of whom had been selected by the late P.V.S. for promotion; and, besides, had served in more than one campaign, while, if Hart's 'Army List' be correct, Mr. Varley had never seen active service."

MILITIA.

Hampshire Artillery. The permanent Staff and band recently had their annual dinner, which was, as usual, provided by Lieut.-Col. Inglefield, R.A., and the officers. Capt. Turnbull, R.A., the adjt., most kindly undertook the, to him, pleasing task of carrying out the wishes of the officers, by making all the necessary arrangements. On the following evening the women and children, to the number of fifty-four, were most hospitably entertained by Capt. and Mrs. Turnbull at their private residence. Since the last training nearly 200 recruits have been enrolled through the exertions of Capt. Turnbull, whose popularity is unbounded and zeal unceasing.

Royal Monmouth. A correspondent writes:—"The services of Col. Vaughan, whose resignation appeared in the *Gazette* of your last issue, are worthy of record. Col. Vaughan joined the regiment as capt. in April, 1836; was promoted major in July, 1847; lieut.-col. in July, 1853; and hon. col. in 1858. So that he had been in actual command of the regiment for more than twenty years, during which time the regiment deservedly acquired the reputation of being one of the best drilled and disciplined in the Service. The colonel also saw active service, although only as an amateur, he having gone to the Crimea at the latter end of 1854, and remained some three months in the camp of the Royal Welsh Fusiliers, in which regiment he had many personal friends amongst the officers, and for which some 300 of his own men had volunteered. This Militia regiment, we hear, on account of its great efficiency, has been selected by the authorities as one to be converted into an Engineer corps, and is likely soon to change its light Infantry character."

Royal Tyrone Fusiliers. The annual dinner took place on Wednesday evening in the Grand Jury Rooms, Omagh. There was a large attendance of officers. Letters expressive of regret at their unavoidable absence were read from the Earl of Castlestuart, Col. Sir J. M. Strong, Bart.; Lieut.-Col. J. A. Caulfeild; Majors Hamilton, Colhoun, Ross, and Vesey; Capts. Gledstanes, Ellis, and other officers who were unable to attend. The Earl of Charlemont, K.P., Lord-Lieut. of the county, and formerly col. of the regiment, presided, and Major Buchanan (hon. sec.) occupied the vice-chair. The other officers present were—Col. Ellis; Majors M'Clintock, Stuart, Mann, R. S. Hamilton, and Maxwell; Capts. Hon. R. O'Neill, E. Stronge, Scott, Ellis, C. M. Alexander, Irvine, J. H. Stronge, H. G. S. Alexander, and Miller; Drs. Thompson and Love; and Messrs. Scott, Macartney, Fawcett, Lowry, and Gore.

THE INDIAN ARMY.

3rd Bengal Cavalry. Major A. R. D. Mackenzie, second in command, has been promoted major on the cadre of the late 1st Bengal European Light Cavalry, from Sept. 6 last, vice Major R. Baring, 19th Hussars, retired.

4th Bengal Cavalry. Major E. H. C. Simpson is about to be promoted a substantive lieut.-col., with effect from the 9th ult.

5th Bengal Cavalry. Major H. R. Osborn, second in command, is about to be promoted a substantive lieut.-col.

12th Bengal Cavalry. Col. H. H. Gough, V.C., C.B., commandant, has sailed for India, to resume duty from leave in England.

13th Bengal Cavalry. Lieut. J. F. Carthew, squadron subaltern, has arrived home from India on leave.

14th Bengal Cavalry. Lieut. J. P. C. Neville, first squadron officer, has returned to duty from European leave.

17th Bengal Cavalry. Lieut. G. W. Chalmers, squadron subaltern, is about to return to duty in India.

14th Bengal N.I. Major L. H. Williams, commandant, is about to be promoted a lieut.-col. from the 10th ult.

18th Bengal N.I. Surg.-Major J. A. C. Hutchinson, M.D., has resumed medical charge from European furlough.

21st Bengal N.I. The sepoy who shot Lieut. Harris was hanged on the morning of the 15th ult. outside the gaol at Rawul Pindee. The execution was almost a private one, only small detachments from each regiment being present. This was done partly out of respect to the feelings of the man's former comrades, and partly because a grand parade would have been altogether to his satisfaction. The evening before, the murderer asked leave to bid farewell to his brother, also a prisoner in the gaol—a viper's brood, apparently. The brother congratulated him on the crime. "Yes, I did well," was the answer, "but I meant to have shot Col. Stewart also." Col. Stewart was on the range at the time of the murder, and was in command of the firing party.

22nd Bengal N.I. Capt. C. H. Bridges, wing officer, has been granted furlough to England for one year and nine months.

33rd Bengal N.I. The *Times of India* says:—"The £100,000 sanctioned for Simla improvements by Lord Salisbury will soon be swallowed up. A new palace is to be built for the Viceroy at a cost of at least two lacs of rupees; it will be situated on the Observatory-hill, which will be cleared for that purpose by the 23rd P.I. (Pioneers). This regiment will proceed to Simla, and commence operations, as soon as it can escape from the Delhi Imperial Assemblage."

30th Bengal N.I. Lieut. C. F. Young, first wing subaltern, has been granted furlough to Europe for one year on private affairs.

32nd Bengal N.I. Col. W. D. Morgan, commandant, is about to leave England for India to resume duty from leave.

34th Bengal N.I. Capt. C. S. Pratt, wing officer, has returned to India from leave in England, and resumed duty.

41st Bengal N.I. Major W. C. B. Ryan, second in command, is about to be promoted a lieut.-col. from the 10th ult.

3rd Goorkhas. Lieut.-Col. H. H. Lyster, V.C., commandant, has returned to India and resumed command from European furlough.

2nd Punjab Cavalry. Capt. R. C. Clifford, squadron officer, is about to be promoted a substantive major, with effect from the 13th ult.

3rd Punjab Cavalry. Capt. W. C. Anderson, squadron officer, obtains the rank of major from the 13th ult.

1st Punjab Infantry. Major T. Higginson, second in command, has been granted a six months' extension of leave from India. Capt. L. R. H. Campbell, officiating wing officer, has arrived home from India on leave.

2nd Punjab Infantry. Capt. A. D. Strettell, adjt., has been granted furlough to Europe for two years. Surg. W. Jackson has been granted furlough to Europe for two years.

4th Punjab Infantry. Brevet Lieut.-Col. H. P. Close, commandant, is about to be promoted a substantive lieut.-col., with effect from the 10th ult.

5th Punjab Infantry. Capt. C. M'K. Hall, wing officer, is about to return to India to resume duty from European furlough.

2nd Sikh Infantry. Capt. H. M. Pratt, wing officer, is about to be promoted to a majority, with effect from the 13th ult.

3rd Hyderabad Cavalry. A Delhi correspondent writes to the *Times of India* as follows:—"A troop of the 3rd Cavalry Hyderabad Contingent, nnmbering one hundred lances, under the command of Capt. C. J. Oswald FitzGerald, arrived at Delhi by special troop train on 7th inst. The horses, all Arabs, arrived in excellent condition, and the arrangements made for disembarking and the way the men handled their horses are highly creditable to the gallant captain and the troop he commands. The troop is encamped in the Metcalfe-park, somewhat out of sight, but it is well worth any one's trouble to visit their encampment. The regularity and cleanliness of the camp, the horses in excellent condition and well groomed, and the smart manner in which the men perform their duties is most praiseworthy. There is one troop of bays and one of chesnuts and greys, and it is difficult to say which is the best. The men are well dressed, and look most soldier-like, but their tight-fitting coats are not suited to a cold climate. The manner in which they carry their pistols is faulty. Nine-tenths of the men are Mahommedans, and appear to be just the corps to send across the water to Egypt."

10th Madras N.I. Col. W. Ramsay, commandant, has applied for leave to England.

12th Madras N.I. Lieut.-Col. W. J. Vizard, officiating second in command, has been confirmed in his appointment, vice Col. G. N. Johnstone, transferred to the 32nd N.I.

23rd Madras N.I. Col. A. Stevens, on leave in England, has been appointed commandant from the 26th N.I., Lieut.-Col. W. H. A. Butler officiating for him. Lieut.-Col. A. H. Cooke, from 32nd N.I., has been appointed to officiate as second in command.

26th Madras N.I. Col. G. C. Finlay, second in command, has been appointed commandant, vice Col. Stevens, transferred to the 23rd N.I.

32nd Madras N.I. Col. G. N. Johnstone, second in command 12th N.I., has been appointed second in command of the 32nd.

7th Bombay N.I. Lieut. C. F. S. Alban, 2nd Foot, having become a candidate for the Indian S.C., has been appointed to the regiment as second wing subaltern on probation.

8th Bombay N.I. Sub-Lieut. C. R. Phillipps, 15th Foot, being a candidate for the Staff Corps, has been appointed to the regiment for duty.

19th Bombay N.I. Major J. A. Gayer, wing officer, is about to be promoted a substantive lieut.-col., with effect from the 10th ult.

20th Bombay N.I. Major T. Kettlewell, wing officer, has been granted furlough to England for one year on subsidiary leave. Lieut. H. B. B. Warden, 83rd Foot, having become a candidate for the Indian S.C., has been appointed to officiate as second squadron subaltern on probation.

25th Bombay N.I. Lieut. W. J. Orr, second wing subaltern, has been appointed station Staff officer at Mahudpore, vice Capt. Humphrey, 10th N.I., left the station.

29th Bombay N.I. Sub-Lieut. H. E. W. Beville, 83rd Foot, having become a candidate for the Indian S.C., has been appointed to officiate as second wing subaltern.

30th Bombay N.I. Major T. Bell, second in command, is about to be promoted a substantive lieut.-col., with effect from the 10th ult.

The *Whitehall Review* hears that "a considerable increase is about to be made to the number of English officers attached to native Indian Cavalry regiments. For this purpose special schools of instruction for those young officers who wish to join this branch of the Service will shortly be established in the three presidencies."

The Navy Gazette.

ADMIRALTY, Jan. 12, 1877.

Staff Surg. E. H. Evans has been promoted to the rank of Fleet Surg. in H.M.'s Fleet, with seniority of Dec. 17, 1876.

In accordance with the provisions of H.M.'s Order in Council of Feb. 22, 1870, Fleet Surg. F. F. Morgan has been placed on the Retired List from Nov. 22, 1876.

January 12, 1877.

Capt. F. W. Sullivan, C.B., has been appointed a Naval Aide-de-Camp to her Majesty the Queen, vice Lord Gilford, promoted to Flag rank; Jan. 1, 1877.

Royal Naval Artillery Volunteers — London Brigade: Thomas Henry Browning Esq., to be Sub-Lieut.; Jan. 13, 1877.

January 15, 1877.

In accordance with the provisions of H.M.'s Order in Council of Feb. 22, 1870, Staff Com. R. W. Ward has been placed on the Retired List of his rank from the 12th inst.

The undermentioned Fleet Surgs. have been retired from Nov. 30, 1876, in accordance with the provisions of H.M.'s Order in Council of Feb. 4, 1875, viz.:—T. B. Purchas, Esq., M.D., W. G. Hill, Esq., A. McBride, Esq., M.D.

January 16, 1877.

Navigating Lieut. E. C. Ball has been promoted to the rank of Staff Commander in H.M. Fleet, with seniority of this date.

The retirement of Fleet Surg. J. T. Caddy, M.D., with permission to assume the rank and title of Depty. Insptr.-Gen. of Hospitals and Fleets in H.M.'s Fleet, as notified in the *London Gazette* of Dec. 29, 1876, is to date from Dec. 18, 1876, instead of from the 28th of that month.

January 18, 1877.

In accordance with the provisions of H.M.'s Order in Council of Feb. 22, 1870, Lieut. W. G. Eden has this day been placed on the Retired List of his rank.

The Army Gazette.

WAR OFFICE, PALL MALL, January 16, 1877.

Where not otherwise specified, the following commissions and announcements bear date Jan. 17, 1877:—

1st Regiment of Life Guards—Sub-Lieut. F. Pym resigns commission.

4th Dragoon Guards—Lieut.-Col. and Brevet Col. F. Chaplin, having served five years as a Regimental Lieut.-Col.. is placed on half pay; Sub-Lieut. C. E. West resigns commission.

5th Dragoon Guards—Vet.-Surg. E. T. Cheeseman, from the Royal Artillery, to be Vet.-Surg., vice Vet.-Surg. of the First Class S. P. Constant, retired on half pay.

4th Hussars—Vet.-Surg. I. Matthews, from the Veterinary Department, to be Vet.-Surg., vice Vet.-Surg. of the First Class T. Paton, deceased.

7th Hussars—Rdgmr. J. Boswell, from half pay, late Royal Horse Guards, to be Rdgmr, vice H. Robertson, transferred to the 12th Lancers.

12th Lancers—Rdgmr. H. Robertson, from the 7th Hussars, to be Rdgmr., vice W. St. L. Stephens, retired on half pay.

14th Hussars—Sub-Lieut. G. H. C. Hamilton to be Lieut.; Sept. 1, 1875.

17th Lancers—Lieut. P. Wormald resigns commission.

Grenadier Guards—Lieut. and Capt. G. L. H. Boswall retires from the Service, receiving the value of his commission; Lieut. R. H. Elwes, from the 22nd Foot, to be Lieut., in succession to Lieut. and Capt. L. J. Oliphant, promoted; Lieut. and Capt. H. E. Colvile to be Instr. of Musketry, vice Lieut. and Capt. G. L. H. Boswall.

Brigade Depot—Lieut.-Col. and Brevet Col. F. Peyton retires on half pay.

3rd Foot—Capt. M. O'Brien, from the 82nd Foot, to be Capt., vice G. S. Carr, who exchanges.

4th Foot—Capt. G. F. Stehelin, from the 19th Foot, to be Capt., vice G. W. Hughes, who exchanges.

6th Foot—Lieut. V. C. Tonnochy has been appointed a probationer for the Indian S.C.

11th Foot—Lieut. J. L. O'Bryen has been appointed a probationer for the Indian S.C.

12th Foot—Lieut. E. J. Vance, from the 13th Hussars, to be Lieut., vice G. H. Robinson, a probationer for the Indian S.C.

15th Foot—Lieut. G. H. Johnston to be Adjt., vice Lieut. R. V. S. Riall, promoted.

16th Foot—Lieut. F. J. Harden to be Capt., vice E. Tarleton, retired; Dec. 30, 1876.

17th Foot—Lieut. S. L. Richards to be Capt., vice R. K. Watson, made Supy. on being appointed Adjt. of the Leicester Militia; Nov. 27, 1876.

18th Foot—Lieuts. P. W. Watts, an Assist. Garrison Instr. in India, to be Supy. Capt., Nov. 14, 1876; E. C. Milner to be Capt., vice C. Dawson, made Supy. on being appointed Adjt. of the Kilkenny Militia, Nov. 14, 1876; and C. E. Dixon to be Instr. of Musketry, vice Lieut. G. W. N. Rogers, promoted; Aug. 14, 1876.

19th Foot—Capt. G. W. Hughes, from the 4th Foot, to be Capt., vice G. F. Stehelin, who exchanges.

21st Foot—Lieut. A. J. O. Pollock to be Instr. of Musketry, vice Lieut. J. M. Gordon, who resigns that appointment; Nov. 9, 1876.

23rd Foot—Capt. J. C. Bradshaw, about to be appointed to the Militia, retires on half pay.

34th Foot—Sub-Lieuts. E. F. Marriott to be Lieut., Aug. 28, 1875, but his commission as Lieut. in the Army to bear date Sept. 21, 1874; C. E. Mahon to be Lieut., Aug. 28, 1875, but his commission as Lieut. in the Army to bear date Sept. 21, 1874; and G. W. Younghusband to be Lieut., Sept. 21, 1875.

45th Foot—Lieut. J. H. B. Todd-Thornton, from the Donegal Militia, to be Lieut., vice C. Herbert, a Probationer for the Indian S.C.

53rd Foot—Capt. H. J. Beckwith retires from the Service, receiving the value of his commission.

57th Foot—Lieut. A. R. Hamilton retires from the Service, receiving the value of an Ensigncy; Sub-Lieut. E. V. Bellers to be Lieut.; Sept. 21, 1874.

59th Foot—Lieut. C. G. M. Kennedy resigns commission.

60th Foot—Capt. W. Warren retires from the Service, receiving the value of his commission.

81st Foot—Lieut. H. C. B. Farrant to be Adjt., vice Lieut. R. K. Brereton, who resigns that appointment; Nov. 22, 1876.

82nd Foot—Capt. G. S. Carr, from the 3rd Foot, to be Capt., vice M. O'Brien, who exchanges.

83rd Foot—The undermentioned Sub-Lieuts. to be Lieuts., Aug. 28, 1875, but their commissions as Lieuts. in the Army to bear date Sept. 21, 1874:—H. E. W. Bevile and H. B. Warden.

96th Foot—Capt. A. L. Wynter, from the 101st Foot, to be Capt., vice T. A. Mills, who exchanges.

97th Foot—Major G. A. Ferris retires on full pay.

98th Foot—Colr.-Sergt. J. Shore to be Qrmr., vice A. Macqueen, transferred to a Brigade Depôt.

99th Foot—Lieut. A. C. Jenkins retires from the Service, receiving the value of his commission.

101st Foot—Capt. T. A. Mills, from the 96th Foot, to be Capt., vice A. L. Wynter, who exchanges. Lieut. D. G. Johnston to be Instr. of Musketry, vice Lieut. H. S. G. Miles, promoted; Dec. 18, 1876.

103rd Foot—Capt. the Hon. H. M. Hobart retires on a pension.

Rifle Brigade—Capt. and Brevet Major F. H. A. Seymour to be Major, vice C. E. Musgrave, retired; Dec. 30, 1876. Capt. R. H. L. Anstruther, from the Supy. List, to be Capt., vice Brevet Major F. H. A. Seymour; Dec. 30, 1876. Lieut. R. E. Crompton retires on temporary half pay.

1st West India Regiment—The undermentioned gentlemen to be Supy. Sub-Lieuts., with date of Nov. 30, 1876, such antedate not to carry back pay:—Vincent John Garland, Frank William Nicolas Wogan Browne, William Stewart, Arthur Harcourt Grove, Arthur Bentinck Murray, Harold Arthur Sandback Barkworth, John Willoughby Astley-Marshall, and Henry Beresford Bourke.

2nd West India Regiment—Sub-Lieuts. F. W. E. Maunsell and R. F. Clothier to be Lieuts., Aug. 12, 1875, and Sub-Lieut. M. B. Salmon to be Lieut., Aug. 19, 1876. The undermentioned gentlemen to be Supy. Sub-Lieuts., with date of Nov. 30, 1876, such antedate not to carry back pay:—John William Henry Ogilby, William Charles Henry Mackintosh, Arthur Augustus Whitelocke Bright Bright-Smith, Vincent Frisby, Lieut. A. M. Leslie, from the 1st Devon Militia; Wensly James Hodson Bond, Villiers Edward Hunt, and Charles Ernest Albert Coleman.

Unattached List—For Arthur Bunbury, gent., to be Sub-Lieut., as stated in the *Gazette* of Oct. 27, 1876, read Arthur Banbury, gent., to be Sub-Lieut., &c.

Medical Department—Surg.-Gen. H. C. Foss retires upon half pay; Dec. 5, 1876. Surg.-Major W. H. Pollard retires upon temporary half pay; Nov. 28, 1876. Surg.-Major W. T. Harding retires on temporary half pay; Dec. 8, 1876. Surg.-Major A. F. Elliot, M.D., retires upon temporary half pay; Dec. 22, 1876. Surg. N. A. Williamson, M.D., resigns commission; Jan. 17, 1877. Surg. B. R. Jagoe, M.D., from half pay, to be Surg.; Dec. 20, 1876.

58th Foot—L. M'Mahon, in succession to Lieut. O'B. St. John, promoted; Sept. 10, 1875. E. D. Sandys, in succession to Lieut. J. L. J. Gordon, promoted; Feb. 12, 1876.

64th Foot—W. F. Turner, vice F. J. S. Cator, resigned; Feb. 12, 1876.

69th Foot—W. V. Dickinson, in succession to Lieut. W. R. D. S. Glendonwyn, promoted; Feb. 12, 1876. R. L. C. Birch, in succession to Lieut. H. Golding, promoted half-pay Capt.; Feb. 12, 1876.

71st Foot—E. W. Horne, in succession to Lieut. R. C. Singleton, promoted; Feb. 12, 1876.

74th Foot—W. M. M. Edwards, in succession to Lieut. H. L. St. G. Stewart, retired; March 22, 1876.

75th Foot—J. Sherston, in succession to Lieut. T. L. Phipson, promoted; Feb. 12, 1876.

76th Foot—A. R. Hume, in succession to Lieut. C. C. Whistler, a probationer for the Indian S.C.; May 31, 1876.

84th Foot—C. K. Colhoun, in succession to Lieut. A. Theobald, promoted; Feb. 12, 1876. S. C. H. Monro, vice R. C. Freeman, transferred to the 3rd Hussars; May 17, 1876.

86th Foot—A. T. Swaine, in succession to Lieut. F. G. Bertram, retired; May 17, 1876.

87th Foot—E. H. Peacock, vice E. E. Stopford, resigned; Feb. 26, 1876.

88th Foot—D. T. Hammond, in succession to Lieut. J. W. Thompson, transferred to the 44th Foot; Oct. 6, 1875.

95th Foot—H. L. Smith-Dorrien, in succession to Lieut. H. Bevan, promoted; Feb. 26, 1876. F. E. V. Taylor, in succession to Lieut. J. H. S. Seagram, promoted; May 17, 1876.

96th Foot—C. R. Rogers, vice J. W. A. Drummond, transferred to the Scots Fusilier Guards; June 24, 1876.

99th Foot—W. K. Curling, in succession to Lieut. J. G. Drury, retired; June 24, 1876.

101st Foot—M. A. F. Taylor, in succession to Lieut. A. C. Maurice, promoted; Feb. 12, 1876. H. E. Belfield, in succession to Lieut. W. G. Norcott, promoted; Feb. 26, 1876.

102nd Foot—R. Brooke, vice A. W. McKinstry, transferred to the 17th Foot; June 5, 1875.

105th Foot—P. G. Dwyer, in succession to Lieut. G. H. Ferrier, promoted; July 15, 1876.

106th Foot—F. C. N. Knox, vice P. B. G. Coulton, resigned; June 24, 1876.

107th Foot—W. M. Creighton, in succession to Lieut. A. A. Pearson, a probationer for the Indian S.C.; Feb. 26, 1876. E. W. Brodie, vice E. S. Hastings, transferred to the 109th Foot; May 3, 1876.

The undermentioned Sub-Lieuts. to be transferred as follows:—

10th Hussars—C. S. Greenwood, from the 19th Foot, in succession to Lieut. B. S. C. Loftus-Tottenham, resigned.

7th Foot—R. D. Garnons-Williams, from the 38th Foot, in succession to Lieut. W. J. Squire, deceased.

34th Foot—G. F. Willes, from the 29th Foot, in succession to Lieut. J. H. Drummond, retired.

68th Foot—G. T. Noel, from the 32nd Foot, in succession to Lieut. G. F. Marx, promoted.

85th Foot—F. C. N. Knox, from the 106th Foot, in succession to Lieut. V. A. Schalch, a probationer for the Indian S.C.

The undermentioned Sub-Lieuts. from the Unattached List to be Sub-Lieuts. in the following regiments, and to be Supy. on appointment, being probationers for the Indian S.C.:—F. C. Stayner and C. E. Sherard, 5th Foot; J. W. Currie, 6th Foot; F. R. H. Chapman, 7th Foot; H. W. E. Georges, 9th Foot; J. S. Ashby, 12th Foot; J. M. Clements, 14th Foot; H. H. H. Aspinall, 15th Foot; R. D. MacDonnell, 16th Foot; F. Whittuck, 17th Foot; G. J. Shaw, 18th Foot; C. F. Stevens, 21st Foot; A. L. B. Hughes, 22nd Foot; E. C. Cox, 25th Foot; W. Whately, 33rd Foot; P. G. Huggins, 34th Foot; S. M. Schneider, 39th Foot; H. Eardley-Wilmot and G. W. Maxwell, 40th Foot; A. F. Mockler, 43rd Foot; H. Melvill, 44th Foot; S. J. M. Jopp, 48th Foot; H. M. Prior, 54th Foot; L. A. Gordon and G. C. Atkinson, 59th Foot; J.

C. Francis and G. F. Watson, 62nd Foot; K. M. Foss, 63rd Foot; R. G. Iremonger, 65th Foot; J. W. H. Fitzgerald, 66th Foot; W. E. Evans-Gordon, 67th Foot; J. B. De la P. Beresford, 68th Foot; E. W. Purvis and A. H. Clark-Kennedy, 70th Foot: R. I. Scallon and G. L. Angelo, 72nd Foot; E. Inglis, 73rd Foot; J. S. E. Western, 85th Foot; S. W. Jervis, and C. H. Sedden, 92nd Foot.

WAR OFFICE, PALL-MALL, JANUARY 19, 1877.

Royal Artillery—Majors H. McLeod (late Madras) to be Lieut.-Col., vice W. D'O. Kerrich (late Madras), placed upon the Supy. List, Sept. 23, 1876; H. Anderson, from the Half-Pay List, to be Major, vice W. H. Noble, placed upon the Supy. List, Jan. 20, 1877; and C. R. Buckle (late Madras), from half pay, to be Major, vice H. McLeod (late Madras), promoted, Jan. 20, 1877. Capts. J. A. Tillard (late Bengal), to be Major, vice H. D. Jackson (late Bengal), who retires upon full pay, Oct. 21, 1876; P. A. Rolland (late Madras) to be Major, vice H. L. Armstrong (late Madras), deceased, Dec. 24, 1876; G. Firebrace, from the Supy. List, to be Capt., vice J. T. Greenfield, deceased, Dec. 12, 1876; and E. S. B. Lockyer to be Adjt., vice T. B. Tyler, who resigns the Adjutancy only, Jan. 20, 1877. Lieuts. W. R. Fox to be Capt., vice J. A. Tillard (late Bengal), promoted, Oct. 21, 1876; J. G. Stone, from the Supy. List, to be Capt. upon the Supy. List, Dec. 21, 1876; R. H. Wallace to be Capt., vice T. Mulrenan, deceased, Dec. 21, 1876; and R. W. P. Robertson to be Lieut. upon the Supy. List, Jan. 20, 1877.

The Militia Gazette.

WAR OFFICE, JAN. 19, 1877.

Cambridge—Henry Herbert Wombwell, Esq., late Capt. Royal Horse Guards, to be Capt.

Royal Glamorgan—Capt. W. F. McIlwaine resigns commission.

Hereford—Herbert Christian Holland, gent., to be Sub-Lieut. (Supy.).

Hertford—The undermentioned Sub-Lieuts. to be Lieuts.:—B. C. D. Lane; Sept. 16, 1874. G. E. le F. Davys; Nov. 25, 1874. C. E. Walker; Feb. 10, 1875.

Huntingdon—Capt. J. E. D. Shafto resigns commission, also is permitted to retain his rank, and to continue to wear the uniform of the regiment on his retirement.

2nd Royal Lancashire—Edmund Harington Molyneux-Seel, gent., to be Sub-Lieut.

2nd Norfolk—Alfred Cranworth Worlledge, gent., to be Sub-Lieut.

Oxford—Henry Frederick Dundas Thompson, gent., to be Sub-Lieut. (Supy.).

Royal Sussex—Sub-Lieut. A. L. Christie to be Lieut.; Dec. 16, 1874.

The King's Own Royal Tower Hamlets—Lieut. J. Hardwick resigns commission.

2nd Warwick—Capt. H. Osborne resigns commission.

1st West York—Lionel George Henry D'Aguilar, gent., to be Sub-Lieut.

5th West York—The Hon. W. M. Eden to be Sub-Lieut.; Jan. 20, 1877. Sir Charles John Hubert Miller, Bart., to be Sub-Lieut. (Supy.).

6th West York—Harry de Courcy Hay, gent., to be Sub-Lieut.

Edinburgh Light Infantry—Surg. P. H. Maclaren resigns commission.

2nd Royal Lanark—William Bertram, gent., to be Sub-Lieut.

Royal Dublin City—Richard Augustus Vowell, gent., to be Sub-Lieut. (Supy.).

Dublin City Artillery—Sub-Lieut. F. Y. Wolseley resigns commission. Henry William Baldwin, gent., to be Sub-Lieut. (Supy.).

Kilkenny—William Candler Neville, gent., to be Sub-Lieut. (Supy.).

Roscommon—The Hon. Richard Patrick French to be Sub-Lieut.

Royal Tyrone Fusiliers—Robert Gore, gent., to be Sub-Lieut.

Waterford Artillery—Gustavus Villiers Briscoe, gent., to be Sub-Lieut. (Supy).

Wicklow—Sub-Lieut. R. T. Welch to be Lieut.; April 18, 1874.

YEOMANRY CAVALRY.

Derbyshire—Lieut.-Col. C. R. Colvile resigns commission. C. R. Colvile, Esq., late Lieut.-Col., to be Hon. Col. of the regiment.

West Somerset—Lieut. J. A. Winter resigns commission.

Yorkshire Hussars—The surname of the Sub-Lieut. whose appointment was notified in the *Gazette* of December 5, 1876, is Calverley, and not Caverley.

MILITARY LAW IN THE NAVY.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—Although not belonging to her Majesty's Service, and being ignorant of military law, yet, as I have been taught to believe that the good old maxim *Fiat justitia ruat cœlum* was as equally applicable to the soldier as to the civilian, I would ask the aid of your columns to show how sadly this maxim has lately been ignored in the following case:—Sergt. Mitchell Hill, of the Royal Marines, was lately tried by general court-martial at Chatham for "fraudulently misapplying" certain old barrack stores, to the value of about £5, by attempting to remove them from the barracks. He was found guilty, and sentenced to one year's imprisonment with hard labour and loss of long and meritorious service, medal, &c. As a near relation of the prisoner, and having known him from childhood, I attended the trial, and anxiously followed the proceedings, believing that, in whatever way he might have erred in committing a breach of military discipline, he had no fraudulent intention of misapplying the stores. It was apparent that the prosecution failed to establish the charge of fraud, and also that the evidence adduced would have been totally insufficient to have convicted the prisoner upon a similar charge before a civil tribunal; but, putting this aside, together with the idea that the crime (if any) was undeserving the severity of such punishment as that awarded, yet, if the trial had been conducted with that fairness which the laws of England provide, then neither the prisoner nor his friends could have, as they have now, so much reason to complain. I am supported by the opinion of the counsel who defended Sergt. Hill in saying that the proceedings of the court-martial were irregular and illegal on two points—first as to the constitution of the court, and secondly the refusal of the prisoner's right to cross-examine a witness for the prosecution. At the trial the prisoner objected to be tried by the president of the court, who, as the colonel second commandant of the Royal Marines, the prisoner alleged had taken the most prominent part in the investigation of the charges upon which he was then to be tried. The prisoner protested that the president came under the denomination and within the meaning and spirit of Section 15 of the Marine Mutiny Act 1876, which provides that the president of a court-martial shall not be "the officer whose duty it has been to investigate the charges on which the prisoner is to be arraigned," and that inasmuch as he had elicited from the prisoner his statement by a series of questions, and had heard the statements of the different witnesses, he could not bring a mind free from bias to adjudicate upon the case. It was evident from the course pursued by the president that the prisoner's fears were not groundless. Instead of withdrawing from the court, as laid down by "Simmons on Courts-Martial," so as not to influence by his presence the members of the court, he himself took their opinion and obtained the majority of votes in his favour. And as he did not deny the truth of the allegations contained in the protest, it must be taken that they were admitted by him. The adjutant of the Royal Marines was called as a witness for the prosecution, sworn, and examined by the prosecutor; but when the prisoner's counsel endeavoured, by cross-examination of this witness, who had been present on the occasion, to record what had taken place at the investigation of the charges, the president stopped the cross-examination and refused the prisoner the right to ask any question on this most material point. The prosecution was conducted chiefly by the president, although there was an officer appointed for this duty. He called witnesses to strengthen the prosecution who were not included in the list furnished to the prisoner, and, from the searching questions put by him to the different witnesses, it was obvious that their evidence was anticipated by him. The prisoner's counsel, in an exhaustive and comprehensive defence, dwelt strongly on the illegality of the proceedings on the two before-mentioned points, and although the deputy judge-advocate took time, so as to consult the legal advisers of the Admiralty, yet he did not touch on those points in his summing up to the court, evidently feeling the difficulty in so doing.—I am, &c.,

A NEAR RELATIVE OF THE PRISONER.

[The prisoner's counsel, to whom the matter has been referred, vouches for the entire truth of the above.—ED. A. AND N. G.]

INDIA.

Col. W. D. Dickson, Bombay S.C., cantonment magistrate, Neemuch, has obtained two years' furlough to England.

Col. W. W. Taylor, Bombay Infantry, has obtained furlough to England.

Major-Gen. A. Fytche, C.B., and Col. G. C. Hatch, Bengal S.C., have succeeded to colonel's allowances, the former from the. 11th, the latter from the 12th ultimo.

Col. G. C. Hatch, Bengal S.C., is permitted to retain his appointment as Judge Advocate-General for one year on succeeding to colonel's allowances.

Col. A. B. Johnson, Bengal S.C., has arrived home from India to take up his appointment at the India Office.

The Native Army get several advantages in the shape of increased bounty and pay. The Military Order of British India for Native officers is increased from the former establishment to 175 members of all classes. Certain changes are also made affecting British officers of the Native Army. Squadron and wing officers will henceforth be designated squadron and wing commanders. The remaining regimental officers will be designated squadron and wing officers. In the event of an officer of a Native regiment getting a purely military or personal Staff appointment, he will be seconded in his regiment, and be eligible for regimental promotion. Lastly, every Native Infantry regiment is allowed to establish a band, with the usual grant from the Government.

According to the *Whitehall Review*, "it is contemplated to increase the strength of all the English Cavalry regiments serving in India, and to make them as strong as they used to be before the days of the Mutiny. If this scheme is carried out—as we have reason to believe it will be—there will be an addition to each such corps of one lieutenant-colonel, one major, two captains, and six subalterns. Each regiment will have eight effective troops in India and one troop at home; and the number of rank and file, as well as of troop horses, will be increased from 430 to 700."

Messrs. W. H. Allen and Co. have now ready for publication a new Indian Army and Civil Service List, which will embrace, in about 600 octavo pages, every department of the public service in India, including, of course, the British troops quartered in Indian stations. The names and rank of all civil servants, whether covenanted or uncovenanted, will be set forth in their proper places; and the departments of Education, Police, Public Works, Marine, Railways, and Telegraphs will for the first time be treated in due detail; the rules and regulations of each Service with regard to furlough, pay, pensions, &c., not being forgotten. In these and other ways the publishers of the Indian "Army List" have rendered an important service to a large section of the public, and we hope that their efforts to meet a sensible want will be duly appreciated. The price of the work will, in future, be 10s. 6d.

St. George's Garrison Church at Woolwich was entered by thieves on Sunday night or early on Monday morning. The entrance was effected by cutting the leaden frame and removing a number of panes of glass from the window facing the Army Service Corps Barracks, one of the most conspicuous in the building, and the only window in the church not composed of stained glass. The thieves first proceeded to break open the alms boxes and to abstract their contents, which, however, were very little, as the boxes had recently been emptied; they then entered the vestry, and attempted to break open one of Chubb's safes. Had they succeeded they would have been disappointed, as the chest contained nothing more than the books connected with the church. The Communion plate, very valuable, had been, as usual, removed for safe custody to the plate-room at the Royal Artillery mess, which is always under guard. Since the robbery a sentry has been posted in the vicinity of the church.

ROYAL MILITARY COLLEGE.

The following are declared by the Civil Service Commissioners to be the successful candidates at the open competition held in Dec., 1876, for cadetships at the Royal Military College. Candidates marked thus (*) are eligible for commissions in the West India regiments only:—

Order of merit.	Name	Total marks.
1	J. C. Pyne	6932
2	H. A. S. Reid	6361
3	E. W. Mills	6170
4	*G. F. R. Henderson	6083

5.	C. E. Orman
16.	R. H. Rattray
2.	G. H. Robertson
10.	G. Silver

The following lieutenants of Militia have passed a qualifying examination for commissions in the Army:—

No. in examination.	Name.
81.	C. H. Coke, Hampshire
96.	E. H. Goddard, 4th Royal Middlesex.
87.	J. S. R. Scott, Northumberland
89.	F. P. Smyly, Antrim
70.	C. G. Way, 2nd Somerset

The 80-ton gun was successfully landed on Wednesday at Shoeburyness from the barge Magog. On Tuesday it was hauled by means of capstans and guiding chains from the platform on which it was rested during the trials for range and accuracy on to the barge, which was sunk by means of sluice-valves to nearly the level of the tramway from which the gun has been fired. The whole operation did not occupy more than a couple of hours, and the arrangements, which were made under the personal direction of Col. Fisher, R.A., Commandant of the School of Gunnery, were so regulated that it was almost impossible for any mishap to occur. On the news of the successful landing of the gun reaching the War Office it was officially notified that the practice at the 32-inch target would take place on Wednesday next; when Mr. Gathorne Hardy, the Duke of Cambridge, Major-Gen. Campbell, R.A., Director-General of Artillery, and a number of distinguished officers are expected to be present.

APOLLINARIS.

"The Queen of Table Waters."—British Medical Journal.

"Incomparable for mixing with Wines and Spirits."—H. Vizetelly, "Wines of the World."

"More wholesome and refreshing than Soda Water."—C. Macnamara, F.R.C.S., Westminster Hospital.

"The Vogue in the Clubs."—The World.

Prices in London:—26s per 50 quarts; 42s per 100 pints; bottles included and allowed for.
MESSES AND CLUBS SUPPLIED ON REDUCED TERMS.
THE APOLLINARIS Co., Limited: 19, Regent Street, London, S.W.

PARTNERSHIP.—WANTED, a GENTLEMAN with £1,500 to £2,000 to extend a profitable business—coal and wine—conducted on the cash principle. Present returns, and which are steadily on the rise, are close on £4,000. To a suitable investor 10 per cent. will be guaranteed, and preference will be given to one who has been in the Service, and has some local connection. For further particulars apply to the Manager, Cockburn's United Service Agency, 41, Haymarket.

MAYNARD, HARRIS, & GRICE,
MILITARY, NAVAL, and EAST INDIA AGENTS and ARMY CONTRACTORS,
126, LEADENHALL STREET, LONDON.

Established over 50 years, and well-known for the high character of their supplies. The most careful attention given to all orders, for use in this country or abroad, embracing UNIFORMS, ACCOUTREMENTS, BARRACK FURNITURE, PERSONAL CLOTHING, Saddlery, Plate, Cutlery, China, Glass, PRESERVED PROVISIONS, WINES, &c.
REGIMENTAL and MESS SUPPLIES at WHOLESALE PRICES.
Newspapers, Magazines, and Books.
Priced Lists, Estimates, &c., furnished on application.
EVERY DESCRIPTION of BANKING and REGIMENTAL AGENCY.
SOLE AGENTS for the new DANISH KID LOUNGE COAT, Very light, soft, and easy. Admirably adapted for Yachtsmen, Shooting, Fishing, or Riding. Well known to tourists in Sweden, Norway, and Denmark. Price, Lined Flannel, 45s. Lined Satteen, 50s.

The ENCORE WHISKY
Is recommended by the Medical Profession throughout the kingdom as the pure and safe alcoholic stimulant.

The ENCORE WHISKY
(the Double Distilled), BERNARD and CO., LEITH DISTILLERY, SCOTLAND.

The ENCORE WHISKY.
Guaranteed free from Fusel Oil.

The ENCORE WHISKY.
Very pleasant-flavoured Whisky.

The ENCORE WHISKY.
The most wholesome of Whiskies.

The ENCORE WHISKY.
Lancet.—"Wholesome and pleasant."

The ENCORE WHISKY
Is recommended by the Medical Profession throughout the kingdom as the pure and safe alcoholic stimulant.

ST. THOMAS'S HOSPITAL,
ALBERT EMBANKMENT, S.E., 28th February, 1876.
THE THANKS of the MEDICAL PROFESSION are due to Messrs. BERNARD and CO., LEITH DISTILLERY, SCOTLAND, for producing the ENCORE WHISKY—a Spirit more Wholesome and less Irritating than any Spirit extant, being especially useful for patients suffering from Kidney Disease.
R. W. JONES, F.C.S., M.R.C.S., L.R.C.P.E.

SPECIAL NOTICE TO OFFICERS AND SPORTSMEN.
W. SPARKES HALL and CO.,
310, REGENT STREET, W.,
Bootmakers to H.R.H. the Prince of Wales, H.R.H. the Duke of Connaught, H.R.H. Prince Christian, H.I.H. The Crown Prince of Germany. The Marquis of Lorne, &c., beg to call the special attention of Officers and Sportsmen to their
PORPOISE HIDE SHOOTING BOOTS,
Which, being made of the finest selected Skins and best Workmanship, will be found not only durable, but of Great Comfort to the Wearer.
The advantage of Porpoise Leather is that it never gets hard after being wet.
Also to their
CASE FOR HUNTING BOOTS,
Which contains every requisite for the Sportsman.
The boots and trees are at the bottom, and a tray, fitted above, carries blacking, varnish, &c. (in metal bottles, with screw tops), blacking brushes, top brushes, boot-hooks, breeches-hook, boot-jack.
W. SPARKES HALL & CO.,
310, REGENT STREET, LONDON.

WALKER'S CRYSTAL CASE WATCHES
PRIZE MEDAL, 1862.
The above are the only Watches suitable for a Campaign.
JOHN WALKER, 68, CORNHILL, E.C.; & 230, REGENT STREET, W

SPECIAL NOTICE.
TO THE NOBILITY AND GENTRY.

WM. PUGH (many years coat cutter at Messrs. Poole's, Saville-row), having succeeded to the old-established first-class business of Jackson and Co., 5, CORK STREET, BOND STREET, W., solicits the patronage of the nobility and gentry.
Best trade only at fixed fair prices, and 10 per cent. allowed for prompt cash.
N.B.—All first-class tailors give credit, and it is only by the discount system noblemen and gentlemen who pay cash get the full value ready money entitles them to.
WM. PUGH (from Poole's), 5, CORK STREET, BOND STREET, W.

SCHWEITZER'S COCOATINA
Anti-Dyspeptic Cocoa or Chocolate Powder
Guaranteed Pure Soluble Cocoa, Without Sugar, Spice or any Admixture.

Specially adapted for Ships, Camps, Sportsmen, &c., being in a concentrated form, made with BOILING Water. Keeps in all climates, and palatable without milk.
Being all Cocoa, it is four times the strength of preparations mixed and therefore *weakened* with arrowroot, &c., and is in reality cheaper a Tea-spoonful to a Breakfast Cup costing less than a halfpenny.
The Faculty pronounce it "The most nutritious, perfectly digestible Beverage for Breakfast, Luncheon, or Supper," and invaluable for Invalids and Children.
Highly commended by the entire Medical Press.
In air-tight canisters at 1s. 6d., 3s., &c., by Chemists and Grocers.

GEORGE CORDING,
WATERPROOFER,
125, REGENT STREET, AND 199, STRAND.

It is only owing to the want of money by the Turkish merchants that MARCOVITCH and CO. have been enabled to get this tobacco.
The only Manufacturers in England who deal solely in Turkish Tobacco and Cigarettes.
Address—11, AIR STREET, REGENT STREET, LONDON, W.

NOTICES TO CORRESPONDENTS.

No communications can be published which are not accompanied by the name of the writer, given in confidence to the EDITOR.
Letters cannot be received in answer to Advertisements.
Remittances should be made payable to Mr. RICHARD JAMES WOOD, to whom all business communications should be addressed.

ILEX.—The case is one of undoubted hardship. Our remarks were already in type when your communication arrived, but we have added a few of your views. Without mentioning names, little can be done in the way of obtaining recognition. Do you wish the documents returned?

R.N.—The excuse is worse than the original offence.

A SUBSCRIBER.—Ross arrived at Stranraer on his return on Sept. 25, 1851. Griffin and Co., Naval Publishers, at Portsmouth, have a large collection of Arctic literature, and will probably be able to advise you as to the best published account of this voyage.

W.H.D., Notting Hill.—Thank you for the information.

BAG.—He must serve fifteen years before claiming the increased pension.

UNION CLUB.—Your communication has not been overlooked.

C.E.W., Hounslow.—Next week.

JACKO is strongly recommended to think well before taking a jump in the dark.

Army & Navy Gazette.

LONDON, SATURDAY, JANUARY 20, 1877.

The tabular statement, given elsewhere, of the promotions made by the Admiralty during 1876, requires but little comment, as the services and position of those selected have been so arranged that a glance at the table enables one to draw his own conclusions. As regards the advancement of officers who were fortunate in having the opportunity of distinguishing themselves on active service, we have only to say that so long as rewards of this nature are not bestowed with too lavish a hand, the Service will never be found to complain. The promotions consequent upon the exceptional event of a Royal visit to India may also be accepted as an instance of extremely good fortune on the part of those chosen, while the Service as a whole may feel well satisfied at not having been overlooked in the bestowal of Royal favours on such an occasion. And though carping critics have sneered at the result of the Arctic Expedition, none have been found to say that those who received promotion did not do their utmost, albeit the number included in that gazette was rather numerous. The advancement of Commander Cameron, too, as an extra one for the year, could not fail to give satisfaction to the Service. Thus we are now reduced to remark upon the Admiralty selections, and if we include the nominations of Sir Alexander Milne on leaving office, we feel bound to say that there is reason to doubt whether justice has been done in every case. We have no desire to point particularly to those whom the Navy recognises as having won their early advancement more by favour than merit. This is a matter upon which all in the Service can form a true opinion. But to place the matter plainly on record, we have now given a detailed statement of age and service of all promoted excepting those of such junior position as not even to be included amongst the "Senior Lieutenants" in Captain Arthur's List published in 1876. In selecting Commanders for post rank, excluding all special promotions, we find that the Admiralty wandered from No. 9 to No. 89, as they stood on Jan. 1, 1876, while Sir Alexander Milne chose No. 50. But on the Lieutenants' List the Admiralty ranged from No. 12 to No. 42; while it was reserved to Sir Alexander Milne to select No. 308, who was already a Flag-Lieutenant and would shortly have obtained a haul-down promotion. The Flag-Lieutenants who were promoted stood Nos. 35, 55, and 93 respectively, and the gunnery Staff officers were Nos. 147, 161, and 114. One of our objects in putting this statement of promotions forward in this form is that the action of the Admiralty may not be lost sight of, but that they may have presented to them an account of their selections at the end of the year. Too often the perpetration of any piece of favour leads only to a vast amount of grumbling at the time, and the officers who may have been unjustly slighted to make room for a junior, subsides, knowing that he has no appeal and that he must fain accept the blight cast upon his prospects and seek retirement and perhaps endeavour to adopt some new line of life. Possibly the Lords of the Admiralty scarcely realise the consequences of allowing an officer to be passed over, even if it be but a temporary withholding of promotion, and we think it quite possible that if they had before them a detailed statement of services, so that they could at once recognise the result of advancing juniors very much out of their turn, there would be less cause for complaint. We should be the last to advocate the adherence to strict seniority as the rule which should govern promotion, for we hold it to be an absolute necessity that the Board should be free to exercise the power of selection. But what we require is the selection of the fittest, and unless it can be shown that those advanced over the heads of their seniors have been so favoured for the good of the Service, we consider that there is substantial ground for the complaints which have reached our ears. Neither age nor service has been duly considered, for there are instances in which officers of less service but greater age have been advanced over the heads of their seniors on the list. One or two have been promoted because their seniority and service merited it, and then their Lordships have gone down the list exercising their power of selection. In this way some of long and good service must be eventually left out, and professionally ruined. So long as officers were the victims of a rule, however hard, it would be endurable, but when it becomes a personal matter it is ten times worse. The system of promotion by selection is, unfortunately, open to abuse, and we recently heard it remarked that, taking any two officers of equal merit, their fate might be compared with that of the "chief butler and chief baker." One is promoted and the other professionally hanged, and no reason given. Indeed, there is none to give but the will of Pharaoh. To withhold promotion from Commanders of seniority and service is to deprive them of their just reward and of all chance of future distinction, and it *looks* rather like disgrace. No one can be expected to believe that it was necessary to range from Nos. 9 to 89 to find eight fit and proper Captains, or that the Lieutenants' List had to be so diligently sifted that to discover seven able Commanders their Lordships had to wander from Nos. 12 to 308. If this were an instance of the selection of the fittest, it would be a terrible thing for the country, for little reliance could be placed upon those who in the hour of necessity would be called upon to take command.

Although some officers of the Territorial Army in France appear to have sent in their papers already, that force is being steadily organized, and one hundred and forty-five regiments of Infantry have been provided with their Staffs. It is true that these Staffs are as yet incomplete, but new nominations are being constantly made. There are also eighteen regiments of Cavalry in way of formation, being one for each military district, and these regiments could already mobilize two or three of their squadrons; these are composed of four squadrons, two Line and two Light Cavalry. Progress has also been made in the way of Artillery, Engineers, and Military Train—eighteen regiments of Artillery, eighteen battalions of Engineers, and eighteen squadrons of Train are being recruited, and the administration is in a fair state towards completion. That the creation, or rather the organization, of so large a newly-created force as the Territorial Army is no light matter may be gathered from the simple fact that the War Office authorities have been obliged to examine into the antecedents and the capabilities of some 20,000 officers, not to speak of non-commissioned officers. The Government is determined that the Territorial Army shall not resemble the old National Guard, and has, therefore, been very careful in its selections. We learn that it is contemplated to appoint a General to the command of the Territorial Army, for with the new Commissariat duties thrown upon the commanders of Army Corps it will be impossible for those officers to attend to all the details of the new force. The National Guard used always to have its Commander-in-Chief. The last Commander-in-Chief, by the way, was a sailor, Admiral Saisset, who was ordered to leave Paris on the breaking out of the Commune, and who effected his escape by wearing a pair of green spectacles and perusing a "red" journal as he left the gates. We also hear that the Comte de Paris, who is a Colonel on the Staff of the Territorial Army, has shaved off his beard, that hirsute appendage being contrary to regulations. He has twirled up his moustachios, *à la* Victor Emmanuel, and looks terribly fierce. A circular which the War Minister has addressed to the Commandants of the various Army Corps shows that officers of the Territorial Army, in order to be up to their duty, can join regiments of the Active Army, or, if this be impossible, can follow a course of practical lectures established for their instruction. The officers of the Territorial Army can also make use of the garrison libraries. The War Minister says that the above measures have produced the best results, and that in some regions a great desire has been shown to profit by the advantages offered. The War Minister hopes that this good example will be generally followed, and that the officers of the Territorial Army will hold meetings to discuss military matters, and will not deviate therefrom and get into politics.

The vacant Brigade-Majorship at Shoeburyness is to be filled by Captain H. H. Goodeve, who has been Adjutant of the School since July, 1874, and bears an excellent reputation in his regiment.

The *Times* publishes Russian official reports of the state of the Army of the South, according to which all the stories of suffering and sickness, bad management, and peculation were absolutely false. Unfortunately, the Russian official reports—and the strict veracity of the latter is notorious—give so very favourable an account of matters, that the enemies of Russia will have just the shade of a pretext for disbelief. Though in winter quarters in an unhealthy district, we are assured that the percentage of sick is only 1. This marvellous result is accounted for, by a naturally complacent War Minister, by the admirable nature of the arrangements made. Of course, there can be no doubt as to the accuracy of the statistics, for the remotest details are given and the diseases carefully classified. It is too ridiculous for the Gallician newspapers, after this, to expect us to believe that 500 Russian officers recently waited on the Grand Duke and requested that either the campaign might begin at once, or that the Army should be moved into proper winter quarters, and, when threatened with decimation, replied that anything was better than their present insupportable position.

It is not pleasant to find that, in spite of all that Mr. Hardy has done to improve the position of the soldier, the desertions from the Regular Army in 1876 amounted to 7,759. It is so easy to escape military service when the latter becomes distasteful, that we only wonder that more men do not desert. Our own firm belief is that by far the most effectual means of arresting the evil would be to cause every officer and soldier to be tattooed with either a crown or a V. If the Prince of Wales and the Duke of Cambridge set the example, it would soon be followed, and any idea of degradation would become absurd.

Lieutenant W. C. F. Molyneux, 22nd Regiment, has been appointed Aide-de-Camp to Brigadier-General the Hon. F. A. Thesiger, C.B., commanding an Infantry Brigade at Aldershot. Lieutenant Molyneux entered the Army December 23, 1864; became Lieutenant, December 15, 1869; and passed from the Staff College in December, 1873.

The following appointments of Army schoolmasters have been recently made from the Training College, Chelsea, viz.:—D. Peebles, to Royal Horse Artillery, Woolwich; H. Pope, to Royal Artillery, Aldershot; W. Ferguson, to Army Service Corps, Woolwich; A. J. Bridges, to Cavalry Depôt, Canterbury; H. Elliott, to Royal Horse Artillery, Aldershot; G. Fripp, to Depôt Royal Artillery, Woolwich; W. Hargan, to Army Service Corps, Aldershot; J. Madden, to Royal Artillery, Sheerness; C. Vasey, to Royal Engineers, Chatham; R. Donn, ditto; A. Stepto, to Royal Engineers, Aldershot; and C. O'Shea, to Depôt, Warley. The following is the result of the examination, held in December last, of the students in the Senior Division, Normal School, Royal Military Asylum, Chelsea, viz.:—W. Hamilton obtained 1,083 marks; R. Seymour, 1,037; J. Bingham, 1,035; W. H. Gardner, 1,012; and J. Whitby, 916.

We are in a position to confirm the report made mention of by the *Times* as to the appointment of Colonel F. Peyton, commanding the Brigade Depôts at Lichfield, to the command at Shorncliffe, vice Colonel F. A. Thesiger, C.B., transferred to a brigade at Aldershot. Colonel Peyton served in the 98th Regiment with the expedition to the north of China in 1842, and was present at the operations in the Yangtse-Kiang River, the attack and capture of Chin-Kiang-Foo, and at the landing before Nankin (medal); Punjab campaign of 1848-49 (medal). Served with the flank companies of the 98th Regiment at the forcing of the Kohat Pass in the force under Sir Charles Napier and Sir Colin Campbell in February, 1850 (mentioned in despatches, medal with clasp). Commanded four companies of the 98th Regiment in the Peshawur Expeditionary Force on the Euzofzaie frontier, under Sir Sydney Cotton, in April and May, 1853, capture of Pungtar and Chinglee, and the affair with the Hindostanee fanatics on the heights of Sittana on May 4 (mentioned in despatches); in the Peshawur Division during the Mutiny. He joined the Army January 29, 1841; became Lieutenant-Colonel, 98th Regiment, March 22, 1864; was promoted Brevet Colonel, October 23, 1863; and was appointed to a Brigade Depôt from the 98th, April 1, 1873.

Deputy Surgeon-General T. Crawford, M.D., who has been stationed for some time past in India, is to be promoted Surgeon-General, to fill the vacancy caused by the retirement of Surgeon-General H. C. Foss, and is ordered to take up duty as Principal Medical Officer on the Staff in Ireland.

The retirement of Colonel Chaplin from the 4th Dragoon Guards offers an opportunity for justice being done to one of those half-pay Lieutenant-Colonels who have suffered by reduction—such men as Colonel E. Seager or Colonel L. E. Knight. It is evident that it would be unfair to give the steps in the regiment, and it would be equally unfair to promote an officer who intended to remain the full period of five years. We should be pleased to see the difficulty got over in the way we suggest, by the introduction of an officer appointed for a purpose. Than Major Shaw-Hellier there is no better officer in the Cavalry Service, and so popular is he that it would be a pity to keep him out of a command for which he is in every way eminently fitted; but as he cannot well hope for promotion just at present, it would give satisfaction were measures taken for filling the command temporarily by bringing in some Lieutenant-Colonel who has lost his over-regulation, to enable him to qualify for it under the condition that he retired as soon as the Army Purchase Commissions were able to arrange with him.

"A Military Surgeon" writes from Woolwich a letter, published on Thursday in the *Standard*, on the subject of the recent refusal to grant medical attendance to a soldier's dying child. The excuse made is that the child in question was the offspring of a soldier married without leave, and consequently not entitled to attendance and medicine. This is perfectly true, and it is positively forbidden to grant medicine to the families of men married without leave; but to pretend that, by attending and prescribing for such, a medical officer would be violating orders, is simply absurd. The excuse that only two Surgeons are told off for the Auxiliary Hospital, Woolwich, and that, therefore, they have not the time to attend any but those patients who are entitled to their services, is more valid. Still, where there is a will there is also a way, and Woolwich is a very compact garrison. It is merely a matter of feeling and humanity, after all, and the spirit of the regulations has been observed at the cost of only a single child's life. Still it is unfortunate that such a scandal should have occurred at a time when recruiting is slack and desertion brisk. Every one is not gifted with sufficient intelligence to appreciate the wisdom of Army regulations and practice with regard to military couples whose unhallowed unions have not been sanctified by the commanding officer's blessing, and unjustifiable accusations of harshness may be made against the authorities.

The three battalions of Rifles longest on home service are always to be in readiness to embark, if required, with any expedition put into the field for warlike purposes. The battalions which would go to form the "Rifle Brigade," should an expedition be organized at the present time, would be the 3rd Battalion 60th and 1st and 3rd Battalions Rifle Brigade. This arrangement must be allowed to be a desirable one, saving, as it would, endless complications.

A new edition of the "Infantry Field Exercise" is now in preparation. It seems a pity some decision cannot be arrived at as to the best system of attack ere the revised "Red Book" makes its appearance.

REVIEWS.

Across Africa. By Commander V. L. Cameron, C.B., D.C.L. (Daldy, Isbister, and Co., London.)

In the two volumes now before us, Commander Cameron tells the story of his long and trying march across the vast continent of Africa. It is not "How I Walked Across Africa," but rather an account of the country as he saw it than too full a narrative of his daily life and hardships. Indeed, seeing that the journey occupied some three years, it is plain that two volumes would not have sufficed to give so detailed an account of the route he traversed and the people with whom he was brought into contact as is here presented, had he lingered by the way to narrate all his personal adventures and troubles. When we read of the constant attacks of fever to which both his companions, Dillon and Moffat, unhappily succumbed comparatively early on the journey, and to which he was subject, the difficulties he had with his followers and the oft-recurring dangers of starvation, it is a matter for surprise that he ever came out on the other side. And to judge by the severity of the attack of scurvy he suffered on approaching the West Coast, it is plain that another twenty-four hours' delay in obtaining medical assistance would have deprived the Naval Service of one of whose single-handed explorations in Central Africa it is justly proud. Pushing forward amongst tribes of whom he and his men knew nothing and having followers in whom he could place no reliance—for it seems as though they were little else than a set of thieves possessing no more pluck than a cur—it is remarkable that Cameron should have escaped the treachery of some of the blood-thirsty rulers through whose territory he passed. By his undeviating rule, never to resort to force except when driven to do so in self-defence, and by his scrupulous payment of all just demands made upon him for provisions or toll for passing through different districts, he seems to have acquired an influence over the native mind; and as some intelligence of his approach, together with his character, often went in advance of him, he was met in a peaceful manner where he might otherwise have anticipated trouble. At times, too, being the first white man that had been seen, he was feared, being thought either a ghost or devil, and thus by a combination of good luck and good management he succeeded in overcoming opposition except on a few occasions. On one of these there was nothing for it but to fight, and after two or three days' experience of firearms the natives withdrew to a safe distance, leaving Cameron barricaded in a deserted village. But he wanted to be moving onwards, and as he fortunately made a few prisoners, he held some as hostages while the others were sent to give an explanation and to make peace. On other occasions when he found his company was not agreeable he made himself scarce, and was obliged to take some other route in order to avoid hostilities. This was attended with much inconvenience, but it was a better plan than making any attempt at fighting his way through. His discoveries at Tanganyika are probably tolerably well known to most in the Services, and it would be idle, with the small space at our disposal, to attempt to follow him in his wanderings. The manners and customs of the tribes he visited are well described, and a good idea both of people and places can be formed owing to the large number of engravings—nearly two hundred—with which the work is embellished. A map, showing the entire route taken by Cameron from coast to coast, also accompanies the book, and last, but not least, there is a capital index. In the concluding chapters of the formation of the continent, river-basins, watersheds, &c., the lake system of Central Africa, its products, and its future are discussed, together with the author's conclusions as to the best method of attacking the traffic in human flesh and of opening this vast country to commerce. And in the form of an appendix is given a vocabulary of Kirua, the language largely used, together with Kisuali, in the districts through which he passed. To those desiring to push eastward from the West Coast this would probably be of the greatest value. Altogether the work is most complete and interesting, and it is not until one reads of the constant harrassing life to which Cameron was subject throughout his explorations that one can realise the energy and endurance required to make such a journey.

Shaw, the Life Guardsman. By Major Knollys, F.R.G.S. (Dean and Son, London.)

This is the first of a series of small volumes to be published month by month, and intended to form a "Deeds of Daring Library." Amongst those which will follow are the Exploits of Lord Cochrane, the Victoria Cross in the Crimea, India, &c., Gallant Sepoys and Sowars, Daring Deeds Afloat, and Female Heroism in War. To judge by the first volume, this promises to be a very attractive series, for stories of heroism and dangers bravely encountered, when as well told as in this instance, cannot fail to interest.

Rossetter's Hair Restorer.—This unrivalled preparation has now been before the public for many years, and as its success has led to several spurious imitations, the public should be on their guard. Rossetter's preparation is the only one that will with certainty restore grey hair to its original colour, remove dandruff, prevent the hair from falling off, promote its growth, and give it the lustre of youth.

The Navy.

APPOINTMENTS.

Commander—H. M. Rochfort, to the Royal Naval College; H. E. Stephens, to the Hibernia, vice G. O. Twiss; the appointment of Com. W. E. de C. Cookson has been cancelled.

Lieutenants—R. B. Needham, to the Victor Emanuel; W. T. Down, to the Resistance; C. J. Fellows, to the Excellent; and R. D. B. Bruce, to the Duke of Wellington; A. L. Winsloé, to the Alexandra, as flag-lieut. to Vice-Admiral Hornby.

Sub-Lieutenants—L. A. W. Barnes, to the Tourmaline, as supernumerary; C. G. May, to the Resistance; L. O. Yonge, to the Minotaur as supernumerary.

Navigating Lieutenant—J. D. Moulton, to the Pembroke, for the Osprey.

Navigating Sub-Lieutenants—B. Newton, to the Cygnet; and A. R. P. Bawden, to the Euphrates.

Naval Cadet—B. Tennyson, to the Tourmaline.

Active, 10, corvette, Com. Sir William N. W. Hewett, was at Simon's Bay up to Dec. 18.

Alacrity, 1, schooner, Lieut.-Com. W. Moore, was expected to leave Vita Levu about Nov. 25 for Sydney to refit.

Albatross, 4, composite sloop, Com. E. Rice, senior officer, was on the coast of Peru on Dec. 2.

Alexandra, 12, armour-plated, Capt. R. O'B. Fitzroy. Vice-Admiral G. T. P. Hornby, who has been appointed Commander-in-Chief of the Mediterranean Fleet, on Monday morning hoisted his flag on board this vessel at Chatham. She is to go out as flagship of the Mediterranen Fleet, in the place of the Hercules, flagship of Vice-Admiral the Hon. Sir J. R. Drummond, K.C.B., who is succeeded by Vice-Admiral Hornby. Having reported himself at Sheerness to Vice-Admiral Chads, the Commander-in-Chief at the Nore, Admiral Hornby hauled down his flag at sunset, and proceeded on leave of absence for a short time. The finishing work on board the Alexandra is being rapidly executed. Every endeavour is being made for her to be out of the hands of the dockyard people by the end of the present month, and it is expected she will leave for her destination on Feb. 15. The apparatus for supplying the electric light having been fitted to the ship, has been tested, and is pronounced to have answered admirably. The experiments were made in the presence of Admiral Superintendent C. Fellowes, C.B., Capt. FitzRoy, and other officers of the dockyard and the ship. The light is intended to be used for discovering the position of ships at sea, for signalling at night, &c.

Arab, 4, composite gunvessel, Com. F. S. Broughton, left Bombay on Dec 21 for Rangoon and the Andaman Islands.

Argus, 5, sloop, Com. E. J. Jermain, now under repair at Bermuda, will proceed to Halifax as soon as ready, and a new crew will be sent out to that place to recommission her. She was commissioned at Portsmouth in March, 1873.

Assistance, 2, troopship, Capt. F. M. Prattent, has had new tubes fitted in her boilers at Portsmouth, and is being provided with a set of Mr. Berthon's improved collapsing boats. She has also had her forecastle lengthened, in order to provide accommodation for the stokers, who had hitherto been compelled to sleep on the after-part of the troop deck. The deficient ventilation of her stokehole has, at the same time, been improved by hatches being cut through her lower deck. She is about to proceed to Gibraltar, and will take out supernumeraries for the Channel Squadron.

Barracouta, 5, sloop, Capt. C. E. Stevens, left Simon's Bay for Spithead on Dec. 12; she calls at St. Helena and Ascension for invalids or others who may be waiting passage.

Beacon, 4, composite gunvessel, Com. H. Dunlop, was at Monte Video on Dec. 16.

Beagle, 1, schooner, Lieut.-Com. C. Caffin, returned to Levuka on Oct. 24; she would take the new British Consul to Samoa.

Boxer, 4, composite gunvessel, Com. A. H. Alington. The result of the examination made of the crank shafts of this ship at Keyham has shown defects of so serious a nature that it had been considered necessary to remove the shafts for thorough examination. The Admiralty have been informed that it is probable two new shafts will have to be made, and that should such be compulsory the vessel will not proceed to sea until March.

Cockatrice, 1, gunboat, Com. A. J. Musgrave, arrived at Smyrna on Jan. 5 from Constantinople. She will go to Malta to refit.

Conflict, 1, schooner, Lieut.-Com. W. M. Carey, arrived at Auckland on Nov. 11, and would return to the New Hebrides Islands.

Contest, 4, gunboat, Lieut.-Com. G. W. Allen, was at Quittah on Dec. 16.

Cracker, 4, composite gunvessel, Com. C. H. Hawkins, was at Monte Video on Dec. 16.

Crocodile, 3, Indian troopship, Capt. P. R. Sharpe, arrived at Port Said at noon on the 14th inst.; she left Suez for Bombay on the 16th inst. at noon.

Curlew, 3, gunvessel, Com. E. J. Church, was at Tien-tsin on Dec. 14, and would remain there for the winter.

Cygnet, 4, composite gunboat, Lieut.-Com. R. F. Hammick, was on her way to relieve the Contest at Quittah on Dec. 16.

Decoy, 4, gunboat, Lieut.-Com. J. Hayes, would leave Jamaica on Dec. 28 for England, touching at Bermuda.

Danae, 12, corvette, Capt. J. C. Purvis, which recently arrived in the Medway from Plymouth to have new boilers put on board, has returned her powder, shell, &c., into store at Upnor Castle, as the alterations will occupy a considerable time.

Daring, 4, composite screw-sloop, Com. J. G. Hanmer, senior officer, was at Panama on Dec. 2.

Dreadnought, 4, double turret-ship, went out of Portsmouth Harbour on Wednesday afternoon for a preliminary trial under way of her machinery, which was under the sole control of Mr. Robert Humphrys, of the contracting firm. Everything passed off with the greatest success. The engines easily realized 69 revolutions a minute, while the power developed was considerably over the contract power of 8,000 horses. The speed obtained was about 15 knots an hour. The ship was so sensitive that she readily obeyed the slighest touch of the helm. The official six hours' trial was made yesterday.

Dwarf, 4, composite gunvessel, Com. the Hon. E. S. Dawson, was paid off at Portsmouth on Tuesday morning, and will be placed in the third division of the Steam Reserve. The Dwarf left for China in April, 1868, and was recommissioned at Hong Kong on July 18, 1871, by Com. B. W. Bax. In June, 1873, she proceeded to Japan, accompanied Vice-Admiral Shadwell in a cruise to Russian Siberia during July, August, and September of the same year, and conveyed the Commander-in-Chief to Nichlooesk River, Amur. In May and June, 1874, she was employed in observing the movements in the south of Formosa, where a large force of Japanese had landed for the purpose of punishing the savages for murdering the crews of several junks which had been wrecked on the coast. She was next dispatched to the Yangtze River, to report on the damage done to salt junks by steamers passing Deer Island. She received her new crew in December, and in the following October she was employed to watch British interests during the excitement produced by the murder of Mr. Margary. After being engaged from Nov., 1875, to June, 1876, in determining various meridian distances, she left Yokohama on June 30 for England, visiting the ports of Hodeidah and Jeddah, in the Red Sea, where she found everything quiet. On Sept. 26, 1876, she fell in with a Nova-Scotian bark, the Uamvar, dismasted and perfectly helpless, which she sank after taking the crew on board, as it was an obstruction to navigation. Com. Dawson succeeded Com. Bax in Dec., 1874, and during the six years' commission only two deaths occurred, both from drowning.

Fantome, 4, composite sloop, Com. T. M. Maquay, was at Honolulu on Dec. 6.

Foam, 4, composite gunboat, Lieut.-Com. R. W. Hope, had arrived at Rio de Janeiro on Dec. 16.

Growler, 4, composite gunvessel, Com. W. Stewart, after a thorough repair of her boilers at Hong Kong, had completed her stores on Dec. 14, and would proceed to Amoy in the place of the Fly, ordered to remain at Hong Kong.

Himalaya, 3, troopship, Capt. E. White, arrived at Colombo on the 18th inst., all well, and would leave for Trincomalee on the evening of the 19th inst.

Hotspur, 3, armour-plated ram, Capt. T. M. Jones, was put out of dock at Malta on Jan. 9, and would be ready for sea on Jan. 13.

Inflexible, 4, turret-ship. The four 81-ton guns in course of construction at the Royal Gun Factories in the Royal Arsenal, Woolwich, for the armament of this ship, are in a forward state. Two will be ready to proceed to the proof butts very shortly.

Lapwing, 3, gunvessel, Com. Sir W. Wiseman, Bart. By last advices to Nov. 30, the Charybdis, Frolic, and Mosquito remained by the Lapwing at Chan-shan-tan Island. The weather continued fine, but the chances of getting her afloat were very much against her.

Liberty, 8, training-brig, Lieut. C. Johnstone, left Lisbon for Cape de Verde on the 7th inst.

Lord Warden, 18, armour-plated, Capt. N. B. Bedingfeld, anchored at Spithead on Friday last week for the purpose of receiving her shot and shell and swinging for the adjustment of her compasses.

Malabar, 3, Indian troopship, Capt. E. Kelly. A most extraordinary breakdown occurred to this vessel, which sailed from Portsmouth on the 12th inst. for Bombay. She left the harbour at 10 o'clock, and no sooner had she rounded the Spit Buoy than something wrong was discovered in one of her cylinders, whereby the piston was prevented from performing its full travel. A tug was at once despatched to her assistance from the dockyard, and on the cylinder covers being taken off it was found that a tool used by a workman for the purpose evidently of scraping the parts had, either through neglect or malice, been left inside. There was considerable straining, and it is a surprising circumstance that the cover was not fractured. It is only fair to the dockyard authorities to say that the machinery was not overhauled by them, and that the offender must be an artificer belonging to the ship. The ship was delayed at Spithead for about six hours, after which she proceeded, the tug accompanying her some miles out to sea as a precaution.

Mallard, 4, composite gunboat, Lieut.-Com. A. W. Warry, left Whydah on Dec. 9 for St. Helena.

Martin, 10, training-sloop, Lieut. Hicks, left Lisbon on the 9th inst. for Cape de Verde.

Myrmidon, 4, gunvessel, Com. the Hon. R. Hare, arrived at Valpariso on Dec. 4, having left Honolulu on Oct. 9. She would go to Coquimbo for stores, &c., and for a court-martial, and leave for England as soon as practicable.

Nymphe, 9, sloop, Com. S. P. Townsend, arrived at Kandavu on Oct. 26 on her way to Levuka, Fiji, to convey the Governor on a tour of the group.

Opal, 14, corvette, Capt. F. C. Robinson, was at Valparaiso on Dec. 6.

Orontes, 2, troopship, Capt. E. H. Seymour, arrived at Singapore on the 17th inst. with the Straits detachment, all well, and will sail for Mauritius on the 25th inst.

Pearl, 17, corvette, Com. Hoskins, was at Sydney up to Nov. 27, awaiting the arrival from England of the Wolverene.

Pert, 4, composite gunvessel, Com. H. C. Aitchison, was at Nassau on Nov. 25.

Pioneer, 6, composite-vessel, Lieut.-Com. E. Hotham, was at Jackin on Dec. 16.

Plover, 3, gunvessel, Com. H. B. Stewart, left Jamaica on Dec. 14 for Turks Island.

Ready, 4, composite gunvessel, Com. S. Grove, is ordered to proceed to Gibraltar for the South-East Coast of America.

Renard, 1, schooner, Lieut.-Com. H. J. Pugh, would complete her refit at Sydney about the end of November, and she would then proceed to New Zealand (with supernumeraries for the Sapphire) and await orders.

Repulse, 12, armour-plated, Capt. F. W. Wilson, flagship of Rear-Admiral de Horsey, was at Valparaiso up to Dec. 2. She left Callao on Nov. 1, called at Juan Fernandez, and reached Valparaiso on Nov. 27. She would leave shortly for Coquimbo to refit, &c.

Ringdove, 3, double-screw gunvessel, Com. U. C. Singleton, was at Hong Kong on Dec. 14. At a court-martial held on Dec. 12, Assist.-Paymr. G. Spain, of this ship, was sentenced to nine months' imprisonment and to be dismissed the Service for defalcations in his accounts. The orders for this vessel to leave Hong Kong on Dec. 16 for England were countermanded. She will now probably be paid off there, thoroughly repaired by the naval yard authorities and recommissioned with the crew of the Lapwing, her present officers and crew returning to England in the troopship Himalaya.

Rover, 18, corvette, Capt. T. Barnardiston, left Jamaica on Dec. 19 to join the flag at Bermuda.

Ruby, 12, composite corvette, built by contract at Hull, is now ready for handing over to the Admiralty.

Sapphire, 14, corvette, Capt. E. H. Murray, arrived at Wellington on Nov. 7 from Auckland: she required partial recaulking.

Sappho, 4, sloop, Com. Noel S. F. Digby, left Sydney on Oct. 23, and arrived at Hobart Town, Tasmania, on Nov. 4; she would return to Sydney about Dec. 14.

Sandfly, 1, schooner, Lieut.-Com. J. Bell, left Brisbane on Oct. 26 on her way to Port Moresby and to visit the fisheries in Torres Straits and on the north-west coast of Australia.

Seaflower, 8, training-brig, Lieut.-Com. R. H. Eyre, left Lisbon for Cape de Verde on the 9th inst.

Shah, 26, frigate, Capt. F. G. D. Bedford, the intended flagship in the Pacific, is, the *Standard* learns by telegraph from Gibraltar, detained there by the piston rods of the main engine having become bent. She will be delayed for several days, and will then proceed to her destination.

Sirius, 12, corvette, Capt. G. L. Sulivan, was at Whydah on Dec. 16.

Thetis, 14, corvette, Capt. T. Le H. Ward, was at Bombay on Dec. 25.

Thistle, 4, composite gunvessel, Com. E. B. Pusey. We are glad to hear that the health of the crew has improved by their stay at Japan, where they had been sent for a change, one officer having been invalided and three men having died from dysentery or remittent fever, probably due to hard work in a malarious climate whilst employed in the Perak expedition.

Tourmaline, 12, corvette, Capt. F. W. Sullivan, C.B., left St. Vincent, Cape de Verde, on Dec. 19, and arrived at Sierra Leone on Dec. 24. She would leave on Dec. 25 for Ascension, after embarking Kroomen.

Undaunted, 31, frigate, Capt. H. W. Brent, flagship of Rear-Admiral Macdonald, was at Bombay up to Dec. 25. Weather cool and crew healthy.

Vesuvius, torpedo-vessel, Capt. Morgan Singer, having concluded her experiments with the Whitehead torpedo, has been refitted at Portsmouth, and will be attached to the Vernon, torpedo school ship, Capt. Arthur. Capt. Singer will shortly commission the Glatton. While the Vesuvius was in dock, a somewhat remarkable explosion occurred on board. In the fore part of the ship below deck there was a water tank, made of galvanized iron, in a very bad state of repair, which it was deemed for several reasons expedient to remove. On a workman going to remove the attachments, the gas which had accumulated within, from the chemical action that had been established by the iron and zinc, suddenly exploded on coming in contact with his candle. The side of the tank was rent, but no further injury was done.

Volage, 18, corvette, Capt. H. Fairfax, was at Monte Video on Dec. 16, having left Rio on Nov. 25, arrived at Santa Catherina on the 28th ult., remained there a week, and arrived at Monte Video on Dec. 12. She will probably leave the River Plate on Feb. 10 for the Falkland Islands and Patagonia and return to Monte Video towards the end of April.

Vigilant, 2, despatch-vessel, Lieut.-Com. H. C. Ryder. A court-martial was held on Dec. 13 on board the Victor Emmanuel, at Hong Kong, upon Nav.-Lieut. Ballistom, of the Vigilant, and Lieut. Pike, in connection with the defalcations of the late assist.-paymr. of this ship, and both officers were honourably acquitted.

Wild Swan, 6, composite sloop, is to be completed for sea at Devonport, at a cost of £8,000, and will be commissioned for foreign service as soon as ready.

Wolverene, 17, corvette, Capt. L. Brine, left the Cape on Nov. 18 for Fremantle, Western Australia, and Sydney.

Wye, store-ship, Staff-Com. W. W. Vine, arrived at Vourla Bay on Jan. 5, with mails for the fleet.

COLONIAL NAVAL CADETSHIPS.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

Sir,—I enclose an advertisement which has appeared in the *Gazette* of Victoria and the daily newspapers inviting candidates for the above. Hitherto, the Governor's recommendation for the Secretary of State's nomination has been given to the sons of deserving officers or others to whom the savings of the passage home for their boys was a consideration, but Sir George Brown evidently looks upon such a bestowal of the patronage with which Lord Carnarvon has entrusted him as inconsistent with the democratic principles of the colony over which he rules.—I am, &c.,

One who has Served her Majesty for
Twenty-five Years.

The advertisement contains the following:—"With reference to previous notices in the *Victoria Government Gazette* respecting the nomination to the naval cadetships annually placed by the Imperial Government at the disposal of the Governors of the principal colonies for the sons of colonists, his Excellency the Governor of Victoria directs it to be notified that he will nominate the candidate who, being otherwise eligible according to the Admiralty Regulations, shall pass the best competitive examination. It is requested that the parents or guardians of candidates will send their applications to the Private Secretary, Government Offices, Melbourne, on or before the 8th December, 1876. The certificates of birth, good conduct, and good health required by the Regulations must accompany each application."

Rear-Admiral W. H. Stewart, C.B., the Controller of the Navy, accompanied by Mr. F. K. Barnes, Surveyor of Dockyards and Chief Constructor at the Admiralty, have paid a visit to Chatham Dockyard and conferred with Rear-Admiral Fellowes, C.B., the Admiral Superintendent, respecting the programme of work to be carried out at that yard during the ensuing financial year.

Epps's Cocoa.—Grateful and Comforting.—"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.* Made Simply with Boiling Water or Milk.—Sold only in Packets labelled—"James Epps & Co., Homœopathic Chemists, London."

TONNAGE AND PROPULSION OF SHIPS.

The second lecture of this course was delivered at the Royal Naval College, Greenwich, on Wednesday last, by Mr. W. H. White, Assistant Constructor of the Navy. Register tonnage and yacht measurements were the subjects treated. Since the Suez Canal was opened it has been arranged that all H.M.'s ships shall be measured for register tonnage by surveyors of the Board of Trade, who are also employed in measuring merchant ships, and the same rules are applied in all cases. The certificates of tonnage issued by the Board of Trade are accepted by the Canal Company, and upon them the dues are paid for passage. Unless a vessel possesses such a certificate she is measured by the officers of the company, the mode of measurement being necessarily rough, and possibly giving to a ship a greater nominal tonnage than she really possesses. At first the company attempted to charge dues upon the gross register tonnage of steamships—that is to say, their total internal capacity; but the International Commission disposed of this attempt to reverse the custom of almost all Mercantile Marines, and now steamers are allowed deductions from their total tonnage on account of spaces occupied by the machinery and coal. Here it is that the admirable tonnage law of 1854 appears to require amendment; in all other respects it commands almost universal adhesion, and has been adopted by the chief Mercantile Marine. But its equitable character disappears in the allowances to steamers, and very singular examples were given by the lecturer. For example, a Holyhead mail packet with a gross tonnage of more than 1,400 tons is for dock dues, &c., placed on an equality with a small sailing-vessel of 450 tons; and the famous Clyde steamer Iona is rated with a vessel of only 110 tons. Attempts have been repeatedly made to amend the law, but they have usually been associated with other changes that did not find so much favour, and opposition to the latter has overturned the former. It is to be hoped that before long the proposals made by the Board of Trade in 1871 may reappear and become law. Yacht measurement is a fruitful source of discussion, and seems likely to continue so. The Thames' Rule has custom and long usage in its favour, but is open to serious objection. Mr. White mentioned that under its regulations a circular yacht on Admiral Popoff's plan would absolutely have no tonnage. Of the other rules proposed and used—such as the Corinthian Club Rule—none have commanded general support. The lecturer strongly advocated the use of displacement tonnage, the same to be verified for all yachts by officers of the clubs, who could be trusted not to make improper use of the information they acquired of the forms of the yachts measured. Secrecy as to form and proportions has been long maintained, and might still continue under proper conditions.

THE ARCTIC INQUIRY.

The Admiralty Committee on the causes of the outbreak of scurvy have continued the examination of witnesses very industriously and yet expeditiously during the week. Sir George Nares has given very full details and explained his views at length, but will, it is probable, be recalled before the close of the inquiry. The leaders of the sledge parties, including Lieuts. Beaumont, Egerton, and Rawson, have also been heard, and the medical evidence, which extends to some considerable length, and makes reference to detailed documents, is in course. The Committee will have the evidence of Admirals M'Clintock and Ommaney, and probably of other Arctic officers, including that of Admiral Collinson, who is himself a member of the Committee, but tenders evidence. In respect to the medical aspect of the case, the Presidents of the London College of Physicians and Surgeons, having been asked to furnish the names of experts, have nominated Mr. Busk, F.R.S., Dr. Pavey, F.R.S., and Dr. Guy, F.R.S. Dr. M'Donald, F.R.S., of Netley, who has been conducting experiments on the result of subjecting lime-juice to very low temperatures, will also be heard, and Professor De Chaumont, the able Professor of Hygiene at Netley in succession to Dr. Parkes. It is, we believe, also contemplated to call Dr. Buzzard, who had experience of scurvy in the Crimea, and has written the latest monograph on the subject, and Dr. Harry Leach, the medical inspector of the port of London, who, as medical officer of the Dreadnought, has devoted considerable attention to the prevention of scurvy by the use of lime-juice in the mercantile marine. It is hoped that the inquiry may be terminated by the end of this month, but it can hardly be concluded before that date.—*Sanitary Record.*

A thorough inspection of the whole of the vessels under construction at Chatham Dockyard has been completed by Rear-Admiral W. H. Stewart, Controller of the Navy, and Mr. F. K. Barnes, Surveyor of Dockyards, and Chief Constructor at the Admiralty, in order to enable the authorities to arrive at a conclusion as to the amount of work which can be completed at Chatham-yard during the approaching financial year. It is believed that, in addition to the ships now in hand, three new war vessels will be commenced, including a very large armour-plated ship to be armed with the 80-ton gun, and the building of which will necessitate the enlargement of one of the building-slips at the dockyard, but the precise style of the ship, it is stated, has not yet been decided upon. In addition to this new work, the armour-plated ship Téméraire, 8, 8,412 tons, 7,000-horse power, will be completed, commissioned, and sent to sea; the Euryalus, 16, iron corvette, cased with wood, 3,932 tons, 5,250-horse power; the Garnet, 14, corvette, 1,864 tons, 2,100-horse power; and the Cormorant, 6, composite sloop, 1,124 tons, 900-horse power, will also be completed. The armour-plated turret ship Agamemnon, 8,492 tons, 6,000-horse power, will be very considerably advanced, and the extensive repairs and alterations to the Penelope, armour-plated, 4,394 tons, 4,703 horse-power, will be completed, and she will proceed to take up her appointment at Harwich as flagship of the Naval Reserve.

H.R.H. the Prince of Wales has just honoured Mr. W. E. Atkins, of Southsea, by purchasing a painting of H.M.S. Serapis entering Portsmouth Harbour on her return from India. This is a companion to one painted by the same artist, and also purchased by his Royal Highness last autumn.

Furnish on the New Hire System.—The "New Hire System" is quite distinct from anything yet attempted. Houses furnished throughout. 20 Wholesale Houses to select goods from. "An excellent idea."—"Army and Navy Gazette." Prospectus, with Press opinions, post-free. General Furnishing Company—Offices, 9, Southampton-street, Strand.

H.R.H. THE DUKE OF CAMBRIDGE.

In private life, and in what, for want of a better word, I may call "society," no man is more popular than the Royal Duke. Those who have been his guests, or who have met him at the houses of others, or during his annual tour at Hombourg, alike speak well of him as an affable, kindly-mannered, genial gentleman. He has but one enemy in the world—the gout—and that enemy seldom fails to pay him a visit once or twice in the year. Hence the regular visit he pays every autumn to Hombourg. The Duke was born in 1819, and is now, therefore, fifty-eight. He can hardly be called an old man, although he is certainly not a young one. But no one who sees him taking his afternoon ride in the Row during the season would believe that he was within fifteen years of his real age. He sits his horse as well, and, although not a little stouter, looks as firm on horseback as he did some forty years ago when he was a supernumerary lieutenant-colonel of the 17th Lancers, used to dine every night of his life at the regimental mess in the Royal Barracks at Dublin, and was the life and soul of that gay garrison town. If this country has ever to go to war it would be unlikely that the Duke would take the field. His age and his health would alike preclude him from active service. But no man is better—nay, none so well—qualified to direct details from home to the leaders of troops abroad. The manner in which he has guided the affairs of the Army for the last twenty-one years is sufficient guarantee that he would do so properly in the event of real work. He is earnest, zealous, an excellent judge of what his subordinates ought to do, and never spares himself when work has to be done. As I said, he takes every year a month or six weeks' holiday; but during the rest of the year he is hardly ever less than five or six—often eight or ten—hours at his desk each day. In personal pluck he is not wanting, as those who were at Inkerman—where he had a horse shot under him—can vouch for. But perhaps where the Duke shows better than most men is in his utter absence of vanity. This or that Secretary of War, this or that general officer or colonel, gets praised for what he has done in the Service. But on the man who has really made the English Army what it is, who has done his duty for more than twenty years, and never taken credit to himself even for what he has done, little or no commendation is ever bestowed. No one ever thinks of saying a word in praise of the Duke of Cambridge when Army matters are spoken of. The reason is plain enough. It is because this Royal Duke never thinks or dreams of praising himself.—"Centaur" in *Whitehall Review.*

INTER-REGIMENTAL RIFLE MATCH, 1877.

We have been requested to publish the following:—

OFFICERS' MATCH.

With the approval of the Inspector-General of Musketry, the fourth annual Inter-Regimental Rifle Match for officers of Brigade Depots and battalions of Infantry on the home establishment or stationed in Nova Scotia or the Mediterranean will take place between April 16 and Sept. 15, 1877, both days inclusive.

Committee:—Col. G. F. C. Bray, 96th Regt., Aldershot; Capt. G. Barton, 7th Fusiliers, Aldershot; Capt. A. Dening, 20th Regt., Aldershot; and Capt. R. T. Thompson, D.A.A.G., Aldershot (Secretary).

Conditions.

1. The match shall be shot off in teams consisting of four officers of each battalion or each formed brigade depot desirous of competing; the choice of the day within the period named (which cannot be extended on any plea whatever) and the range being left optional. Two or more teams may be entered from the same corps or depot on payment of the entrance fees, but no individual may shoot in more than one team for this competition. All officers on the Staff whose names are retained on the regimental list may shoot for their battalion if it be serving at home; if not, then for their brigade depot. Officers at home on leave whose battalions may be serving abroad may shoot for their brigade depot, and officers of brigade depots, if not engaged in a depot team, may shoot for the battalion to which they belong.

2. Prize.—A cup, or other piece of plate, the value of the sum total of the entrance monies (*i.e.*, £5 from each competing corps) shall become the absolute property of the officers' mess of the battalion or brigade depot to which the winning team belongs; the piece of plate and silversmith to be selected by the successful corps. Should the entrance monies exceed £150, a sum of £50 shall be set apart as a prize for the corps whose team makes the second best aggregate score.

3. Rifles.—The *bonâ fide* Government Martini-Henry. Sights may be blacked, but with no other addition or alteration whatever.

4. Ammunition.—Government, as issued.

5. Distances.—200 yards, 500 yards, and 800 yards, commencing at 200 and finishing at 800.

6. Position.—Any, at all three distances, but no artificial rests to be used.

7. Number of Shots.—Ten at each distance, but the three first of each competitor at all three ranges, though to be recorded in the regular manner in the registers, will be considered as sighting shots only, and not included in computing the scores to determine the winners.

8. Targets and Scoring.—New Wimbledon for 1877, as below:—

Name of Division.	Target at 200 yards.	Target at 500 yards.	Target at 800 yards.	Disc.	Value of hits in marks.
Bull's-eye.	½ft. diameter...	2ft. diameter...	3ft. diameter.	White	5
Inner	1ft. „ ...	3ft. „ ...	4½ft. „ ...	Red	4
Magpie ...	2ft. „ ...	4ft. „ ...	6ft. square	Blk. & White	3
Outer ...	Remainder of a target 4ft. square	Remainder of a target 6ft. square	Remainder of a target 12ft. by 6ft.	Black	2

If desired, the position of each hit as soon as made may be shown by a marker running out and covering the shot mark upon the target with a small disc; and misses may be indicated from the marker's butt by some predetermined flag other than the danger flag, but a marker may not leave the butt to signal a miss.

9. The members of a team must all assemble and shoot upon the same range, at the same time, in consecutive order, or alternatively by pairs, as may be preferred (but which it is to be must be declared and recorded upon the register before commencing, and cannot subsequently be altered), provided that at the conclusion of every four shots fired the practice

shall be suspended to enable the officer marking to leave the butt and transfer to his register the result of such four shots, and wash out the hits.

10. No member of a competing team is allowed to fire at all upon any range, or at any distance, prior to the competition on the day of the contest; and no other shot whatever is to be fired that day on the range to be used, until the competitive practice has been concluded.

11. The firing of a team must be completed on the day on which it is begun.

12. Firing out of the same rifle by two or more competitors is not allowed.

13. The registers at firing point and marker's butt must be kept by commissioned officers who do not belong to the battalion or depôt competing, who will be responsible for the correct signalling of the hits and for their being washed out at the completion of every four shots at each range; and they will be required to sign, on the registers, certificates to the effect that the firing, signalling, &c., have been honourably carried out.

14. As soon as each team concludes its competitive practice both registers are to be sent, prepaid, under cover, and sealed, to the honorary secretary, who is bound not to open them until all have been received, or Sept. 30, when he will publish the scores of the several teams, and advise the officers commanding the successful corps of the funds available for the purchase of the trophies.

15. Entries, which must be accompanied by £5 entrance subscription, should be made to the Honorary Secretary (Capt. R.T. Thompson, D.A.A.G. for Musketry, Aldershot), by April 15, 1877, after which date they cannot be accepted. Printed conditions, with registers, certificates, and diagrams of the targets to be used on the occasion, will be furnished by him on receipt of the entry. The entrance money cannot be returned under any circumstances.

16. Ties will be decided by the aggregate score made with the last seven rounds of each competitor at 800 yards; if still a tie, by the same at 500 yards. Any question that may arise which cannot be met by the foregoing conditions is to be referred to the Honorary Secretary for the decision of the committee. It is particularly requested in the interests of the match that every practicable means may be taken to keep the scores made for this competition a secret until it is closed on Sept. 15, and that neither register-keeper nor competitor will mention them before that date.

ROBERT T. THOMPSON, Capt., 56th Regt.,
Depty.-Assist. Adjt.-Gen., Hon. Secretary.
Aldershot, Jan. 15, 1877.

SERGEANTS' MATCH.

With the sanction of the Inspector-General of Musketry, the third annual Inter-Regimental Rifle Match for sergeants of Brigade Depôts and battalions of Infantry on the home establishment, or stationed in Nova Scotia or the Mediterranean, will take place between April 16 and Sept. 15, 1877, both days inclusive.

Committee.—Col. G. F. C. Bray, 96th Regt., Aldershot; Capts. G. Barton, 7th Fusiliers, Aldershot; A. Dening, 20th Regt., Aldershot; and R. T. Thompson, D.A.A.G. (Secretary), Aldershot.

CONDITIONS.

1. The match shall be shot off by teams consisting of six sergeants, Staff and paid lance-sergeants included, of each battalion, or each formed Brigade Depôt, desirous of competing; the choice of the day within the period named (which cannot be extended on any plea whatever) and the range being left optional. Two or more teams may be entered from the same corps or depot on payment of the entrance fees, but no individual may shoot in more than one team for this competition.

2. Prizes—Three cups, or other pieces of plate, to the teams making, respectively, the three highest aggregate scores. First Prize—One half of the sum total of the entrance monies, *i.e.*, £3 from each corps competing. Second Prize—One-third of the sum total of the entrance monies, *i.e.*, £3 from each corps competing. Third Prize.—One-sixth of the sum total of the entrance monies, *i.e.*, £3 from each corps competing. The prizes shall become the absolute property of the sergeants' messes of the battalions or Brigade Depôts to which the winning teams belong. The piece of plate and the silversmith to be selected by the several successful corps.

3. Rifles—The *bonâ fide* Government Martini-Henry. Sights may be blacked, but with no other addition or alteration whatever.

4. Ammunition—Government, as issued.

5. Distances—200 yards, 500 yards, and 800 yards: commencing at 200, and finishing at 800.

6. Position—Any, at all three distances, but no artificial rests to be used.

7. Number of shots—Ten at each distance, but the three first of each competitor at all three ranges, though to be recorded in the regular manner in the registers, will be considered as sighting shots only, and not included in computing the scores to determine the winners.

8. Targets and scoring.—New Wimbledon for 1877, as below:—

Name of Division.	Target at 200 yards.	Target at 500 yards.	Target at 800 yards.	Disc.	Value of hits in marks.
Bull's-eye	½ft. diameter..	2ft. diameter...	3ft. diameter.	White	5
Inner	1ft. „ ..	3ft. „ ...	4½ft. „ ...	Red	4
Magpie ...	2ft. „ ...	4ft. „ ...	6ft. square	Blk. & White	3
Outer ...	Remainder of a target 4ft. square	Remainder of a target 6ft. square	Remainder of a target 12ft. by 6ft.	Black	2

If desired, the position of each hit as soon as made may be shown by a marker running out and covering the shot mark upon the target with a small disc; and misses may be indicated from the marker's butt by some predetermined flag other than the danger flag, but a marker may not leave the butt to signal a miss.

9. The members of a team must all assemble and shoot upon the same range, at the same time, in consecutive order, or alternatively by pairs, as may be preferred (but which it is to be must be declared and recorded upon the register before commencing, and cannot subsequently be altered), provided that at the conclusion of every six shots fired the practice shall be suspended to enable the officer marking to leave the butt and transfer to his register the result of such six shots, and wash out the hits.

10. No member of a competing team is allowed to fire at all upon any range, or, at any distance prior to the competition on the day of the contest; and no other shot whatever is to be fired that day on the range to be used, until the competitive practice has been concluded.

11. The firing of a team must be completed on the day on which it is begun.

12. Firing out of the same rifle by two or more competitors is not allowed.

13. The registers at firing point and marker's butt must be kept by commissioned officers who do not belong to the battalion or depôt competing, who will be responsible for the correct signalling of the hits and for their being washed out at the completion of every six shots at each range; and they will be required to sign, on the registers, certificates to the effect that the firing, signalling, &c., have been honourably carried out.

14. As soon as each team concludes its competitive practice both registers are to be sent, prepaid, under cover, and sealed, to the Honorary Secretary, who is bound not to open them until all have been received, or Sept. 30, when he will publish the scores of the several teams, and advise the officers commanding the successful corps of the funds available for the purchase of the trophies.

15. Entries, which must be accompanied by £3 entrance subscription, should be made to the Honorary Secretary (Capt. R. T. Thompson, D.A.A.G. for Musketry, Aldershot), by April 15, 1877, after which date they cannot be accepted. Printed conditions, with registers, certificates, and diagrams of the targets to be used on the occasion, will be furnished by him on receipt of the entry. The entrance money cannot be returned under any circumstances.

16. Ties will be decided by the aggregate score made with the last seven rounds of each competitor at 800; if still a tie, by the same at 500 yards. Any question that may arise which cannot be met by the foregoing conditions is to be referred to the Honorary Secretary for the decision of the Committee. It is particularly requested in the interests of the match that every practicable means may be taken to keep the scores made for this competition a secret until it is closed on Sept. 15, and that neither register keeper nor competitor will mention them before that date.

ROBERT T. THOMPSON, Capt. 56th Regt.,
Depty. Assist. Adjt.-Gen. Hon. Secretary.
Aldershot, Jan. 15, 1877.

THE MILITARY GEOGRAPHY OF EUROPEAN TURKEY.

Mr. Howard Vincent, Lieut.-Col. Central London Rifle Rangers, late Royal Welsh Fusiliers, delivered a lecture at the Royal United Service Institution yesterday afternoon on the above subject, one of great interest at the present moment. Major-Gen. F. A. Stephenson presided. Mr. Vincent said:—

Military geography, or, as it is more concisely termed, topography, is, I venture to think, a relative expression. The topographical considerations of an invader are not absolutely identical with those of the defender of a district. We will, therefore, put ourselves first in the position of the aggressor, and then apply ourselves to the defeat of our own strategy. Let us suppose that we have an army consisting of 274,600 Infantry, 12,330 Cavalry, and 245 guns. This is the actual strength of the Army of Kisheneff. Although in a prolonged campaign, the deficiency of officers in the Russian Army, amounting to upwards of 7,000, would be a serious matter, it may be taken for granted, despite all that has been said to the contrary, that of late years no finer army has been collected together, and what might in some cases be an important element for consideration—the object of the mobilization—is here one of the principal elements of cohesion and strength. We must assume that Constantinople is the objective point. The approach thereto is mainly guarded, first by the Danube, and second, by sixty miles to the south, by the Balkan range. Between the Russian head-quarters and the first barrier lies Roumania, a dependency of the Porte, but a State whose good-will towards the Tsar cannot for an instant be doubted. In times gone by the passage of the Russian armies through Moldavia and Wallachia has been a matter of considerable difficulty. Now the railway uniting Kisheneff with Odessa passes on to Jassy, crossing the Pruth at Skuljane, and thence runs *viâ* Galatz and Bucharest to Giurgevo on the Danube. The possession of this line of communication, which, the friendly attitude of Roumania secured, cannot well be interfered with, even if other Powers besides the Turkish are brought into defensive action, materially alters the condition of things which formerly hampered, delayed, impeded the plans of Imperial commanders. It has been insufficiently considered by foreign critics. Along this line will be rapidly moved the invading army; by it our supplies will be drawn, losses repaired, and wounded sent back. Jassy, Galatz, Bucharest, are all fine towns, possessing great resources and much accommodation. Galatz is especially well situated on the Danube, and all will be no less serviceable for the establishment of depôts than for the reception of those who are unable to proceed with the advancing armies. Added to this, few troops will have to be left for the guarding of the line. The Roumanian Army of 60,000 men will perform that service, and it may well be said that operations will begin only at the Danube. The outside world has wasted much time in discussing both the place and the means of crossing that river. Nearly every place has been passed in review from Kalafat on the west to Tultscha on the east. Some have thought that the same places will be selected as in 1828, and they have been among the chief of those who have insufficiently considered the new order of things established by the possession of the railway. The points most favourable for crossing are Giurgevo, Olenitza, and Kalarash. On these three points will probably be directed the whole force, with the exception of two divisions which must prevent or check any Turkish movement on the flank, based on Tchernavoda, and facilitated by the railway connecting that place with Kustendji. Giurgevo is of these three places naturally the most important, and there must the gross of the army pass. It is the terminus of the railway, and lies opposite Rustchuk, where the Turks are mainly concentrated. The Russian troops can be taken to Giurgevo, and the Artillery formed up without any great fear of molestation. Nor need there be any apprehension of the line being seized by the Turks before the Imperial troops arrive. They possess no pontoon train nor any means of passage whatever. A division of Roumanian soldiers is already at Giurgevo, and it is possible that before the definitive commencement of hostilities they may be supplemented by a train of heavy guns, a position for which Art may establish war, though Nature aid not. The bombardment ol Rustchuk, distant, let us say, 2,000 paces, must be a preliminary to any attempt at passage. The town, built mainly of wood, lies in front of the fortress, of bastion type, in dilapidated state, unprovided with guns of any calibre, unsupplied with ammunition, and aided only by a recently constructed earthwork close behind it. If the passage of the Danube, at these three points of Giurgevo, Olenitza, and Kalarash be well preceded by Artillery fire, and be simultaneously made, it can hardly fail to prove successful. The Turks have no means of establishing or maintaining communication between Rustchuk, Turtokai, Silistria, no Cavalry, no horses, not even a field telegraph. Nor can they cut in between, for means of passage they have none. I may here combat the idea that the freezing of the Danube would be favourable to the Russians. To begin with, the ice very rarely attains sufficient thickness for the passage of an army with its horses, guns, and material. But did such an event occur, it would enable the Turks, who have no bridging apparatus, to cross into the principality, to intercept the Russian communications, and, it may be, destroy the railway so dearly prized. Are the flanks sufficiently provided? That is for an offensive movement from either Tchernavoda or Widin? The former has received attention, and the latter may well be left to the interested care of the Roumanians. I trust, therefore, I have shown that the passage of the Danube presents no serious obstacles. We may, therefore, consider it accomplished. One thing alone must be always present to the Russian officers—the maintenance of friendly relations with the Roumanian peasantry. As I have already said, Shumla is the first point to be gained. On the eastern slope of a chain of mountains forming, as it were, an advanced post to the Balkan range, and separated therefrom by the valley of the Kamstchik, does it stand at the junction of several roads some 700 feet above the Bulgarian plains. The position is superb, and, skilfully treated, might be made almost impregnable. This it certainly is not, and for reasons which I will hereafter consider. The town of Shumla has about 40,000 inhabitants, and is placed at the base of the heights, instead of having an elevated side within the strongest portion of its defences. It is environed to the north-west and south by a vast crescent of bold hills, and towards the east by a formidable marshy ravine. The town is approached from the north by the Silistria road, from the north-west by a road from Rustchuk, from the west by another road from Rustchuk by Osman Bazar, and from the east by the road from Pravadi to Karnabat. Besides these approaches, by one or more of which it may be turned, there is the Rustchuk Varna Railway. The metals will, of course, be destroyed, but the roadway must remain, and it is not, I believe, defensible in any part. It runs to within fourteen or fifteen miles of the town and forts of Shumla. A station bears its name, but the road therefrom is the Silistrian highway. I propose that of the 120,000 Infantry, 6,000 Cavalry, and 150 guns which have crossed at Giurgevo and Rustchuk, three fourths shall march in parallel columns along the ordinary road, and the railway track upon Shumla, keeping up their communications of course, and deriving their supplies from Roumania, while the remainder take the circuitous road of Osman Bazar. The line ought to be repaired as they proceed, and if no regular carriages are obtainable, a sufficient number of trollies may be brought over from Wallachia. A pair of horses are, I believe, well able to draw a dozen loaded trollies, each holding nearly as much as a military waggon. At Turtokai, say 20,000 Infantry, 2,000 Cavalry, and forty guns will cross. They must make their way by cross country roads to Shumla, and this will be the most difficult operation, requiring great care and circumspection. At Silistria 60,000 Infantry, 4,000 Cavalry, and fifty guns should cross, and by the highway effect the junction with the Rustchuk columns. The force of Cavalry ought to be of strength to preserve sufficient lateral communication for all practical purposes. Shumla is not, strictly speaking, the key to the Balkan Passes, for it is twenty miles from them; but, at the same time, its investment is absolutely necessary before the passage of them can be attempted. Here we must pause, and look first of all to Varna, seeing what diversion may there be made, and then to Servia, and what assistance may thence be expected. Varna, as Col. Evelyn Wood said, has great but unused capabilities of defence, and the taking thereof, if the Russians held the command of the Black Sea, no very difficult operation. It must in any case be attempted. Successful, it opens first of all, the through railway communication to Rustchuk; then it enables another attack to be directed *viâ* Pravadi on Shumla; and thirdly, renders available the coast road to Burgas and the south, through the easternmost slopes of the Balkan range. To Servia, then. From the south-eastern frontier of that miserable principality, the cause of so much trouble, runs *viâ* Nish, Sophia, Tatar Bazardjik, Philippopolis, and Adrianople, a fair road to Constantinople. The distance is between 600 and 700 miles. At Tatar Bazardjik the railway begins, and though, as in the case of the Rustchuk, Varna line rolling stock may be removed, it opens another passable track. The Servian Army has now been reorganized in four divisions, numbering altogether 72,000 Infantry, 4,800 Cavalry, and 218 guns. They are ready at hand on the frontier, and cannot by any possibility have more than a few thousand Turks opposed to them. It is, therefore, clear that they will endeavour to effect a diversion in favour of the Russians south of the Balkans. There is the fortress and garrison of Widin to consider. How many men the latter consists of I cannot say, but it is to my mind clear that no considerable force could be spared therefrom, either for the invasion of Servia or the prevention of a Servian advance along the Sophia-road—in view of the great importance of the place, and the possibility of a Roumanian or Russian attack from the opposite bank of the river. We will now return to Shumla. Fallen into the invader's hands, or completely invested, the passage of the Balkans, the great barrier of Turkey, has to be effected. This formidable mountain range, separating Bulgaria from Roumelia, runs from west to east, gradually diminishing in height from 5,000 to 3,000 feet, until they abruptly terminate at Cape Emineh, between the valleys of the Kamtschik and Uadir. There are seven passes over the Balkan. 1. Schumla to Karnabat, by Tjalikavak and Dobroll, called the

Bogaz Pass, very difficult and narrow, easily defended, and combining fluvial with mountain impediments. 2. Pravadi, Koprickoi, and Jenikoi to Aidos, called the Chenga Pass; difficult but successfully used in 1829 by General Rudiger, with the 7th Russian Corps in nine days. 3. The coast road from Varna to Burgas, taken in 1829 by General Roth with the 6th Corps. 4. Tirnova to Kasanlik—commonly called the Schibka Pass—perhaps now the most practicable of all, a road having been made in 1836, and in any case not very difficult or steep, and easy to be forced. 5. Tirnova to Slivno or Islamji—called the Iron Gate (Demir Kapu) Pass—very steep, difficult, and almost unexplored. 6. Tirnova, or Osman Bazar, to Kasan, and thence to Karnabat; very difficult. 7. The Lovatz Pass to Tatar Bazardjik, which is almost impossible. We see, therefore, that three of these passes may be utilized by an invading force. It is impossible to suppose that the passes will be neglected by their defenders in the same way as in 1829. We are dealing to-day but with suppositions. It could not be otherwise. Again, I must ask you to suppose the invading commander to be crowned with a wreath of laurel. He has passed the Balkans. He has been joined by a reserve of 100,000 men, disembarked from the fleet. With the fleet he must continue in communication, and push on towards the Queen of the South. Three roads are open to him, viz.:—1. From Karnabat by Bujuk Derbend, or the Grand Passage, to Adrianople, and thence to Tchatal Burgas. 2. Aidos to Kirk Kilissia, and thence also to Tchatal Burgas. 3. The coast road. Between these there is ample means of communication. The coast is undefended, and such supplies as the country does not afford should be obtained from the fleet. The only serious obstacle is the defile of Bujuk Derbend, the passage of which is dangerous and difficult to a degree, unless, as in 1829, it be wholly neglected. In this road must the main advance be made, and if successful, Adrianople is not likely to offer any resistance. Thence there is the railway to Tchatal Burgas, where the junction should be effected with the Aidos corps, and that, I assume, will be the same as is disembarked at Varna, and moves on Pravadi. The Burgas corps should by this time have reached Midiah and established itself firmly across the wooded hills of the Lesser Balkan. I now come to the topographical considerations of defenders, which I will not affect to conceal is the most agreeable to me, the defence of the *status quo* in European Turkey. Altogether, deducting the extraordinary demands upon the military resources of the Sultan, nothing leads to the belief that there are more than 100,000 Turkish troops on the whole Danubian line, including Shumla and Varna, or, at the most liberal estimate, about half the number that the Russians will be able to bring to bear. Of these some 60,000 are probably at Rustchuk, 20,000 at Shumla, and the remainder at Varna, Silistria, Hirsova, and Tchernavoda. From the Danube to Constantinople, from Nish to Burgas, nothing is ready. Now, the Turkish inferiority and mal-preparation on the Danube being admitted, what course should be adopted by Abdul Kerim Pasha and Suleiman Pasha? The former will probably be true to his reputation and be very slow to adopt any course at all. But great things may be expected of the latter, who has superseded Mehmet Eyoub. Yet the best man for the situation is certainly the junior brigadier in the Turkish Service, whose ability is universally recognised, and who has the good wishes of every British soldier. He, with Mehmet Ali and Bluhm Pasha—Germans in the service of the Porte—might speedily inaugurate a better state of things. It being, as I have said, probable that Rustchuk-Giurgevo will be the main point of attack, there a most vigorous resistance ought to be made by, say, 20,000 out of the 100,000 available men. The line of retreat on Shumla by the railway will be open to the very last minute. At Silistria the passage must likewise be disputed—the retreat being secure—but at Turtokaï a large defending force would run great risk. Varna should be garrisoned by not less than 10,000 men. Until the Danube is crossed there can be little use in keeping more than two or three brigades at Shumla, for the garrison will be brought up to twenty-five or thirty thousand men when the Rustchuk and Silistrian Corps are driven back. A larger force would probably be an incumbrance rather than otherwise. If we adopt these figures as a rough basis of calculation, we have fully 50,000 unemployed. To risk these on the Danube with no means of retreat would be madness. No time should be lost in shipping them from Varna to Burgas. There, all round the bay, earthworks should be thrown up. The Bay, or rather Gulf, of Burgas is about twenty miles in extent, looking north-east. It has a general depth of about twelve fathoms. Good anchorage abounds; and there is an excellent harbour at Sizeboli, a little to the south, enclosed by a headland, completely sheltering it. The gulf itself is very capable of defence, and throws out two peninsulas, which might be made very strong. At Aidos—the most central position for repulsing the hostile columns as they debouch from the passes of the Balkans—an intrenched camp should be formed. Albeit Aidos lends itself little for defence, but there is no other place equally advantageous in point of situation. Karnabat should, nevertheless, not be neglected, but of its capabilities I know nothing. If the Russians succeed in forcing their way through the Balkan, whether with or without the co-operation of the sea-forces, a stand ought to be made at Bujuk Derbend. That forced, nothing very serious intervenes until within twenty miles of Constantinople. Yet the coast road is woody, mountainous, and difficult, affording many defensive positions. I am aware that an opinion prevails in many quarters that the Turks will do best to concentrate their whole army south of the Balkans, and leave the passage of the Danube to take care of itself. With great deference, I cannot hold this view. Brilliant opportunity would be let slip of inflicting loss on the enemy. If unopposed, his enthusiasm would increase as the Turkish confidence declined. Bulgaria, moreover, thus got possession of, would not be easily recoverable by the most skilful diplomatists. Again the southern and south-eastern slopes of the Balkans are far steeper and more difficult than the northern, thus rendering their defence, if acquired by the Russians, an easy matter. Besides, if Bulgaria was abandoned the passage of the passes would be greatly facilitated. The Turks defeated south of the Balkans, the uncommenced lines of Constantinople would be their only hope. I submit, therefore, that while securing the safety of half their forces in Roumelia, the Turks must oppose the Russians inch by inch, partly to gain time for the artificial defence of the passes and defiles of the capital, partly to enable allies to appear on the scene, partly to exhaust the Russian treasury, and partly to expose the hostile army to the dangers of the variable climate. One word as to the defence of Constantinople. Three plans have been prepared: one by a Royal Engineer of unequalled ability, another by the Englishman, and the third by a German in the service of the Sultan. These three plans all amount to much the same thing—the defence of the line, twenty-five miles in length, extending from Derkos and Buyuk Cheknicdji. As Sir John Burgoyne said, months of labour might render this position impregnable by land. As yet, though, not a shovelful of earth has been turned. If made, it will be vigorously supported by sea.

PLAIN CLOTHES v. UNIFORM.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—In reference to the appearance of the late Admiralty Order on the above subject in your paper of Jan. 6, you say "that it has been promulgated in consequence of a growing habit amongst our seamen of adopting a sort of long-shore rig when on leave of absence." Granting for a moment this to be the case, do you think it wise of the Admiralty to interfere with the time-honoured custom of thousands of respectable men wearing civilian clothes when on leave, for the sake of stopping a few disreputable men from appearing in "half-civilian, half-sailor" costume? But, sir, I do not grant your supposition that it is "a growing habit;" on the contrary, ever since the days of Nelson's victories, when his men landed by shoals and took charge of the streets jury-rigged, down to the present time, year after year have been seen less men "slummily dressed." I will grant you this, sir, there is, and has been for the last twenty years, a growth in the practice of men when on leave at home dressing respectably, and even gentlemanly, till now, from the educated head schoolmaster down to the ordinary seaman, there is scarcely a man worth his salt who does not appear so dressed an hour after landing from his ship. I assert, sir, and challenge contradiction from any authority, that not only is this statement true, but also that these men are proud to be looked upon as respectable citizens as well as worthy man-o'-war's men. And if a few blackguards, whom the Admiralty take so much trouble to legislate for instead of kicking out, roam about the shore in clothing which disgraces the Service, why not punish them instead of stinging into rebellion the thousands of respectable men? As to the origination of this unwise measure "I could a tale unfold," were it not that it has appeared in print so frequently as to be "stale, flat, and unprofitable." I do not say that it would be impossible for some such case as you suggest to be brought under the notice of their Lordships in the streets of London, but, considering that in the mighty metropolis a thousand men so attired would not be known or distinguished from so many navvies, I think it highly improbable. Again, if this were so, why were not these men picked up and made a public example of? No, sir, as of old, wisdom comes from the East, so the retrograde movement, I suppose, sets in from the West, and that is undoubtedly whence this arose. One more word. You say, sir, that this Order "may be unpopular amongst a certain class." I have shown that class to be a pretty large one, for it consists of no more nor less than every respectable man in the Navy, all of whom, you may rest assured, are ready to "admit" all you assume "that nothing can look worse or bring into greater disrepute the Royal Naval seamen than any one of their number adopting so scandalous a rig."—I am, &c.,

"ARGUMENTUM AD HOMINEM."

THE PAY SUB-DEPARTMENT.

"A Poor Assistant" writes:—"As there is a rumour in circulation that the Pay Sub-Department is to be amalgamated with the Commissariat, it is hoped that, should that prove true, the pay officers may retain their present pay on promotion. The War Office ought to bear in mind that these officers gave up chances of promotion on entering the Pay branch of the Control, and several have been passed over in promotion by their brother officers of the old departments. It will be a cruel thing now if, on promotion, they are deprived of the pay of the Warrant of 1869. The present will be a favourable time to give promotion by making some supernumeraries in the ranks of paymaster and deputy."

BIRTH.

Halahan.—Jan. 4, at Cleveland Villa, West Hill, Sydenham, the wife of Captain S. H. Halahan, 4th Royal South Middlesex Militia, late 44th Regiment, of a daughter.

DEATH.

Green.—Jan. 10, at Pillhead, near Bideford, North Devon, Emma, the dearly-loved wife of Lieut.-Gen. Sir Edward Green, K.C.B., deeply lamented by many sorrowing relatives and friends.

Advertisements.

Established 1798. Cash remittances for country parcels by return.

HOLLOWAY'S OINTMENT and PILLS.—No Exception.—Cold winds, heated rooms, and disordered stomachs display their deleterious effects upon the human skin. Roughness, irritation about the mouth and nose, cracked lips, and chapped hands, are readily cured by the application of Holloway's Ointment, which renders the skin soft and healthy. This Ointment is the best corrective of the red spots, dry patches, and irritable pimples incident to tender skins. It saves all the torments of such affections and spares their unsightly blemishes, which are not slight or questionable advantages. At the change of seasons in all countries, no means of securing the human frame against disease can surpass in safety and potency the good effects derivable from Holloway's remedies.

ARMY MEDICAL DEPARTMENT,
18th January, 1877.

AN EXAMINATION of CANDIDATES for COMMISSIONS in the MEDICAL DEPARTMENT of her Majesty's ARMY will be held in London on the 12th February, 1877, and following days:—

1. Candidates having two qualifications—one to practice medicine, and the other surgery—under the Medical Act, and who are not under 21 nor above 32 years of age at the date of the London examination, are eligible to attend.

2. Those gentlemen who may be selected for appointment will receive £250 per annum and allowances in addition, after passing the examination at the Army Medical School at Netley.

3. The tenure of appointment will be limited to ten years, and on the completion of that period of commissioned service, surgeons, unless they be specially selected for further employment in the Department, will be entitled to receive, in lieu of all pension on retirement (pension for wounds excepted) the sum of £1000.

4. Application for admission to the examination should be made in writing, without delay, to the Director-General of the Army Medical Department, London, by whom a printed schedule containing further particulars will be furnished.

5. There will be 50 appointments offered for competition.

6. The list will be finally closed on Saturday, the 3rd February next.

(Signed) W. M. MUIR, Director-General.

ROYAL ARTILLERY AND ROYAL ENGINEER CLUB,

3, PALL MALL EAST.

	£	s.
Annual Subscription	3	3
Abroad	1	1
Entrance Fee	5	5

JUNIOR ARMY AND NAVY CLUB.

At an extraordinary general meeting of this Club, held at the Club House, Grafton Street, on the 28th inst., Sir Norman Pringle, Bart., presiding, it was moved by the chairman, seconded by Major-General Hunter, and resolved—That the Club should cease to be conducted on the proprietary system, and should become a members' Club, with effect from the 1st January, 1877.

The entrance fee is ten guineas; the annual subscription is seven guineas.

The entrance fee will remain as at present until a limited number of new members have been elected, when it will be raised.

Members joining during the remainder of the year will not be called upon for their subscription till the 1st January next, when the annual subscription for 1877 will become due.

Membership of this Club is restricted to commissioned officers of the Regular Army, Royal Navy, Royal Marines, and Royal Indian Forces, and those who may have retired from the same.

By order of the Committee,
R. J. FYERS, Secretary.
28th October, 1876.

THE COVENTRY CLUB.—This Club is established in response to a request from a number of influential gentlemen who desire a social and sporting club for the use of gentlemen of all classes situated in a central part of the West-end of London.

An agreement has been entered into for spacious premises, which will be fitted up with every convenience, including dormitories, and which will be open for the reception of members on Feb. 1 next.

The number of members is limited to 800, the first 300 of which will be admitted without entrance fee.

Annual Subscription	£3 3s.
Country Members	£2 2s.
Entrance Fee	£10 10s.

All particulars may be had from Mr. H. Bradbury, Hon. Sec., *pro tem.*, at the Offices of the Club, 10, Cranbourn Street, W.C.

WANDERERS' CLUB,
PALL MALL.

COMMITTEE.

Lord Brougham and Vaux.
D. P. Blaine, Esq.
Canon Tristram, M.A., LL.D., F.R.S.
Lord Graves, R.N.
Colonel the Hon. A. W. N. Hood, M.P.
Major-General J. A. Raines, C.B.
Colonel Sir Francis Festing, K.C.M.G., C.B.
Captain R. Wallen Jones.
Major E. C. Shepard.
Surgeon-Major C. McD. Cuffe.
T. W. Lewis, Esq.
Sir John G. S. Sebright, Bart.
Captain W. J. Oughton Giles.
Purvis Russell, Esq.
Captain A. H. Markham, R.N.

Members joining this Club on and after the 15th December will be admitted on payment of ONE-HALF the Annual Subscription, which extends to the 1st May, 1877.

At a Meeting of the Committee, held on the 20th November, Lord Brougham and Vaux in the Chair, the Report stated that since the issue of the Annual Report in May last, 160 New Members had joined the Club, and that the total strength is now 1,302, as follows:—

Town Members	426
Country Members	663
Officers on Foreign Service	104
Members Resident Abroad	109
	1,302

There now remain about 200 vacancies to fill up, when the strength of the Club will be completed, and the Entrance Fee, which is now Ten Guineas, will then be raised.

The Annual Subscription is—

Town Members	Eight Guineas.
Country Members	Four Guineas.
Officers on Foreign Service	One Guinea.
All members resident abroad	Two Guineas.

For all further information, address to
Major T. H. P. KENNAN, Secretary.
Pall Mall, S.W.

The New River Company.—One Hundred and Six £100 Shares (£85 per share paid), and One-tenth of a King's Share in this most flourishing and successful trading Corporation, the revenue of which has the security and regularity of Consols, with the additional advantage of a yearly increasing income.

MESSRS. EDWIN FOX and BOUSFIELD will SELL, at the Mart, on WEDNESDAY, January 24, at Two precisely, ONE HUNDRED AND SIX £100 SHARES (£85 per share paid) in the NEW RIVER COMPANY. The dividends on these shares have for many years past steadily increased, those recently paid being over 10 per cent. per annum, and as there is a constant increase in the Company's revenue, not only from its water-rates and water sold, but from the rent of its private estates, in which these shares participate, the return from this property will continually rise and the capital increase in even greater proportion, thus rendering it first-rate for investment or family endowment. Also, in Six Lots, One-tenth of an Original or King's Share, which is perfectly unique, as being a freehold estate, conferring votes for the counties of Middlesex and Hertford. The income in respect of this proportion of a share for the year ending Midsummer, 1876, was £213 1s. 4d., and a considerable increase in each succeeding half-yearly dividend may be relied upon.—Particulars at the Mart; of Messrs. Field, Roscoe, and Co., Solicitors, 36, Lincoln's-inn-Fields, W.C.; and of Messrs. Edwin Fox and Bousfield, 24, Gresham Street, Bank, E.C.

THE SOLDIERS' DAUGHTERS' HOME,
Hampstead. Instituted 8th March, 1855.
Chairman—
Major-General J. T. Boileau, R.E., F.R.S.

Inmates, 178; vacant beds, 22; candidates, 110.

Owing to the loss, by death, of several of the largest annual subscribers, and to the great falling off in donations, the funds are at present unequal to support the increased number of girls (26) who have been added to the Foundation during the last two years.

Further aid is earnestly solicited to meet the increased call upon the funds. Remittances to be made to C. R. Low, Esq., Secretary, No. 7, Whitehall, London, S.W. A guinea yearly gives 1 vote; five guineas, 2 votes for life.

GARDEN and SON, 200, PICCADILLY, EAST INDIA and GENERAL AGENTS, MANUFACTURERS of ACCOUTREMENTS, SADDLERY, HARNESS, &c., beg to notify that any commissions entrusted to them will be executed to the entire satisfaction of their correspondents.

Furlough Pay, Pensions, &c., drawn and remitted Passages secured; Baggage collected, shipped and cleared. Insurances effected.

NAVAL CADETS, ASSISTANT CLERKS, HOPE HOUSE, SOMERSET-PLACE, SOUTHSEA.

Principal—Mr. T. H. VICKERY.

In addition to the general course of study pursued at this long-established School, pupils are specially prepared for the examination required for the above.

At the competitive examination in November, 1875, and at the recent examination in June, of candidates for Assistant Clerkships, all the pupils sent up from this Establishment were successful.

TRURO SCHOOL. Founded A.D. 1549.—Special preparation of a limited number for Woolwich, the Line, Navy, and Cooper's Hill. Five experienced and energetic resident masters in mathematics and geometrical drawing, the classics, and English, French, science, and German; besides visiting masters in drawing and English composition.

NAVAL CADETSHIPS, &c. "EASTMAN'S" R.N. ACADEMY, SOUTHSEA. Principal, G. EASTCOTT SPICKERNELL, since 1860.

At the last two Naval Cadet Examinations pupils took the first place.

More than 1,000 pupils have entered H.M. Service. For every information address the Principal, Burgoyne House, Burgoyne Road, of late called Eastern Parade.

THE GRANGE, W. COWES.—The Rev. ARTHUR WATSON, M.A., Graduate in Honours, Second Scholar and Prizeman of Caius College, Cambridge, having carried on his school for 12 years at Egypt House, has recently built the above residence, and has now more accommodation for pupils, who are prepared for the Public Schools, Universities, Naval Examinations, &c. All his naval candidates have passed into the Britannia. This June candidates took the 4th and 12th places.

NEWTON COLLEGE, S. DEVON.—President of Council, EARL of DEVON.—This College is for gentlemen's sons only, on very moderate terms. Officer's nomination, £60 per annum. One Woolwich Scholarship of £20 per annum open this Christmas. Candidates under 15. Papers forwarded January 1st to boys' homes. The situation is healthy and elevated; gravel soil; good cricket ground; racquet and fives court, &c. Apply, Rev. G. TOWNSEND WARNER, Head Master.

ROYAL MILITARY ACADEMY, Woolwich, Cooper's Hill College, or First Appointments to the Cavalry and Infantry.

MR. MULCASTER, F.R.A.S., prepares gentlemen for the above competitive examinations. During a period of nine years, Mr. Mulcaster has passed 117 gentlemen into the Service; his pupils have repeatedly taken first place in mathematics, and in each of the above examinations have been first in the list of successful candidates.

Of Militia candidates, thirteen have been sent up for examination, and only one has failed.

36 and 37, Woolwich Common, S.E.,
December 18th, 1876.

LITTLE ST. JOHN'S, Hurstpierpoint, in connection with St. Nicolas College, Lancing, and St. John's College, Hurstpierpoint, is established with the sanction and under the inspection of the Provost and Fellows of St. Nicolas College, for the education of little boys from six years of age preparatory to their entering either of the above, or other public schools. For particulars apply to the Lady Principal, Little St. John's, Ditching, Hurstpierpoint, Sussex. Boys are prepared to pass the examination for Naval Cadets.

SCHOOL SHIP "CONWAY," LIVERPOOL, established for training young gentlemen with a view to their becoming officers in the Mercantile Marine. Terms, 50 guineas per annum, including uniform and all other extras. The sons of Officers of the Navy and Mercantile Marine are received at the reduced rate of 40 guineas.

Quarter days when Pupils can be admitted:—Feb. 1, April 10, Aug. 1, and Oct. 10.

Apply to Captain E. B. H. FRANKLIN, R.N., Rock Ferry, Birkenhead.

SHOOTER'S HILL PREPARATORY MILITARY SCHOOL, 1, Brunswick Villas, S.E., under the direction of THOS. JONES, F.G.S., F.R.A.S., formerly Assistant-Master in Stony Stratford Grammar School, and in the Woolwich and Oxford Military Colleges.

DERBY SCHOOL.—The LENT TERM will BEGIN on JANUARY the 24th. There are Classical, Modern, and Junior Schools. The Honours gained since last March include Two Fellowships, Four Open Scholarships, Two Exhibitions, an admission to Cooper's Hill, &c. There are 10 House (£40) and Four Rowland Scholarships (£25) all tenable at school for either two or three years. Boarders are received in the School-House and in the houses of the Rev. F. B. Alison and the Rev. C. R. Gilbert. Address the Rev. Walter Clark, B.D., The School-House, Derby. Sons of naval and military officers have certain advantages.

THE REV. H. A. MITTON, M.A. (Cambridge), Master of Sherburn Hospital, Durham, RECEIVES three YOUNG MEN to READ for the University or Ordination. Excellent house, gardens, stables; healthy situation; two miles from Durham; highest references; terms £200 (inclusive). Address as above.

WOOLWICH, SANDHURST, and the LINE.—FARADAY HOUSE, The Grove, Blackheath, S.E.—Of 28 candidates sent up for the preliminary examination from the above establishment during the past year (1876), 25 qualified; 14 candidates out of 16 sent up in July passed the final test. The new TERM COMMENCED JANUARY 9th. Applications having had to be cancelled in the absence of satisfactory testimonials, Mr. Wolffram begs to state that he can only receive such pupils as are prepared to furnish testimonials of good conduct from their last place of education.

CANTON de VAUD.—GENTLEMEN preparing for the Army or Navy, Universities, or Commercial life, can be RECEIVED into the family of an Oxford graduate on moderate terms, and can attend classes at a large college. Good boating; frequent walking excursions.—Apply, by letter, to "D. C. L., Oxon," care of Messrs. Dawson and Sons, 121, Cannon Street, London.

TO GENTLEMEN ENTERING BUSINESS.—Lessons in practical BOOK-KEEPING by double entry given by a Public Accountant at his office in the City. For terms, &c., address "Auditor," care of Messrs. Bruce and Ford, 1, Tramp Street, E.C.

THE PERFECT SUBSTITUTE FOR SILVER.—The REAL NICKEL SILVER introduced more than thirty years ago by WILLIAM S. BURTON, when plated by the patent process of Messrs. Elkington and Co., is the best article next to silver that can be used as such, either usefully or ornamentally, as by no test can it be distinguished from real silver.

Patterns.	Fiddle or Old Silver	Bead or Thread	King's or Shell.
	£ s. d.	£ s. d.	£ s. d.
Table Forks or Spoons, per doz.	1 10 .	2 1 .	2 5 .
Dessert do., per doz.	1 2 .	1 9 .	1 11 .
Tea Spoons	. 14 .	1 . .	1 2 .

These are as strongly plated, and in every respect equal to what other houses are selling as their first quality at very much higher prices.

A second quality of Fiddle Pattern:—Table Spoons and Forks, 23s. per doz.; Dessert, 17s. per doz.; Tea Spoons, 12s. per doz.

Tea and Coffee Sets, from £3 15s. to £25; Dish Covers, from £9 to £26 the set of four; Corner Dishes, from £7 10s. to £18 18s. the set of four; Warmers, £7 2s. 6d. to £15 15s.; Biscuit Boxes, 14s. to £5 10s.; Cruet and Liquor Frames, &c., at proportionate prices.

The largest stock in existence of Plated Dessert Knives and Forks, and Fish-eating Knives and Forks, and Carvers.

All kinds of re-plating done by the patent process

RUPTURES (BY ROYAL LETTERS PATENT)

WHITE'S MOC-MAIN LEVER TRUSS is allowed by upwards of 200 medical gentlemen to be the most effective invention for the curative treatment of hernia. The use of a steel spring, so often hurtful in its effects, is here avoided, a soft bandage being worn round the body, while the requisite resisting power is supplied by the MOC-MAIN PAD and PATENT LEVER, fitting with so much ease and closeness that it cannot be detected, and may be worn during sleep. A descriptive circular may be had, and the Truss (which cannot fail to fit) forwarded by post, on the circumference of the body, two inches below the hips, being sent to the manufacturer,

MR. WHITE, 228, PICCADILLY, LONDON.

Price of a single truss, 16s., 21s., 26s. 6d., and 31s. 6d.; post free. Double ditto, 31s. 6d., 42s., and 52s. 6d.; post free. An umbilical ditto, 42s. and 52s. 6d.; post free. Post-Office Orders to be made payable to JOHN WHITE, Post Office, Piccadilly. COLT'S NEW GOVERNMENT ARMY REVOLVER, after a severe competitive trial by the U. S. Ordnance Department in 1873 and 1876, has been exclusively adopted by the United States Government, and the whole of the United States Cavalry is now armed with them. It is now made to take the English Government Boxer cartridge. Length of barrel 5½ and 7½ inches.

In the trial of 1869, advertised by another maker, the Colt's pistol used was a muzzle-loader adapted to the use of metallic cartridges, which pistol has not been made or sold after that year.

Established for upwards of half a century on the Credit System, but now conducted exclusively for Ready-Money Payment and supplying

UNIFORMS AND MUFTI

Of precisely the same high-class quality as heretofore

AT GREATLY REDUCED PRICES.

ESTIMATES ON APPLICATION.

SELF-REGULATING, CLEANABLE,

CHARCOAL FILTER,

UNIVERSALLY ADOPTED IN THE
Royal Navy, Fast Indian and English Transport Services; the German, Russian, American, and Austro-Hungarian Navies;
ALSO BY
HER MAJESTY'S WAR DEPARTMENT,
For Barracks, Hospitals, Camps, &c., &c.,
And for which Patents have been granted by the Governments of Great Britain, the United States of America, Italy, France, and Canada.

The designs are of three classes—

1.—For dwelling rooms and halls. To suit different styles of furniture three types have been employed — the Classic, the Japanese, and the Mediæval. None of these forms have been before employed for Filters.
2.—Those of simpler and cheaper designs for kitchen use.
3.—Filters of galvanized iron, *either to fix to mains* or cisterns, which, being capable of being made of any size, can supply pure water in sufficient quantities for the largest hospital or hotel.

The *Filters*, being made of special sizes, all their parts are interchangeable.

Full particulars can be *obtained* on application to
MESSRS. GARDNER AND SONS,
Sole Manufacturers of the Land Filters,
453 & 454, STRAND; and 3 & 4, DUNCANNON STREET, LONDON.

OVERLAND ROUTE and SUEZ CANAL.

Under Contract for the conveyance of the Mails to the Mediterranean, India, China, Japan, and Australia. The Peninsular and Oriental Steam Navigation Company dispatch their Steamers from Southampton, *via* the Suez Canal, every Thursday; from Venice every Friday; and from Brindisi, with the Overland Mails, every Monday.

Offices—122, Leadenhall-street, E.C., and
25, Cockspur-street, S.W.

HALL LINE.—STEAM from LIVERPOOL to BOMBAY, via SUEZ CANAL.—

Average passage, 26 days, including all detentions.

The magnificent fast steamship CITY OF BALTIMORE, 2,292 tons, 300 horse-power nominal, sailing January 31st, 1877. This steamer has been specially adapted for the East India *trade.* Her saloon and cabins are all on the upper deck, and the accommodation is unsurpassed. Only first class passengers taken. Fare, 45 guineas. Surgeon and stewardess carried.

Succeeding steamers:—

Childwall Hall .... 27th February.
Trentham Hall .... *To follow.*
Branksome Hall .... To follow.

For passage apply in London to Henry S. King and Co., 65, Cornhill, and 45A, Pall Mall; or for freight and passage to

THE unification system has now been fully applied to the Army Medical Department. The new regulations for carrying out the provisions of the Royal Warrant and the intentions of the Secretary of War have not, it is true, been yet officially promulgated, but they are already being to a certain extent practically enforced, and ere many weeks are over will be in complete operation. The ideas of the framers of the scheme may be summarised as follows :—A distinct assignment of responsibility to each individual; diminution of clerical work; a reduction of records, and individual responsibility for the preparation and care of such records and returns as it may be found necessary to retain; concentration of duties and unification of the department; localization of medical officers at home, and a general roster for foreign service. With portions of the scheme it is impossible to find fault. Indeed, that part of it which relates to distinct individual responsibility and the diminution of clerical work—since the latter often prevented medical officers from attending to their more pressing functions—is worthy of all praise, and a reform in this direction was imperatively called for. Sir Garnet Wolseley, in his "Soldier's Pocket Book," observed that the Artillery, more than any other branch of the Service, seemed to revel in returns. He might with even more justice have made the same remark with regard to the Medical Department, the members of which could scarcely obtain the commonest drugs, the simplest appliances, or, indeed, take any step without making out returns in triplicate, quadruplicate, or even quintriplicate. We are happy to learn that this absurd and wasteful system is to disappear. The concentration of duties sounds well so long as it does not offend against the doctrine of division of labour, and on that point we cannot give an opinion till the experiment shall have been tried. The institution of a general roster for foreign service is a simple act of justice. Hitherto some medical officers have spent most of their time abroad, whilst others have by interest and judicious exchanges managed to remain in comfortable berths at home for years. The localization of medical officers and the unification of the department are the points most open to objection. Still, we admit that there is something to be said in their favour. Formerly, when the department was divided into two branches—one consisting of regimental, the other of Staff officers—the former of these was only to a limited extent under the real control of the Director-General. Directly he wished to dispose of the services of a regimental Surgeon, as might be in his opinion most to the general advantage, the commanding officer intervened. There was also, under the old system, a great want of economy in labour. Frequently in the field one regiment had an almost empty hospital while another close by was crowded. Similar cases also occasionally occurred in quarters. It is true that, theoretically, the Principal Medical Officer could employ the lightly-worked doctors of one regiment to assist the over-tasked Surgeons of the other; but at best this was an exceptional expedient, and practically did not answer. As to the localization of medical officers, the best that can be said of it is that it is an essential element in the new scheme. Let us now see how the new system is being actually carried out. Necessarily the general idea has to be modified in details to suit local conditions, but as far as possible the following scheme will be adopted :—The administrative officer of the district to be also the sanitary officer. In a large garrison a medical officer in charge, with two or three assistants, to be assigned to the station hospital for the reception of all sick soldiers. For the station female hospital a medical officer in charge, with assistants according to requirements, to be detailed. These medical officers will also treat all the officers, their wives and children. In each barracks there will be a resident medical officer and a dispensary, the medical officer being sometimes one of those employed in the female hospital. He will inspect prisoners and cells and the soldiers periodically. He will treat such patients as may require either prompt attention or but a dose of simple medicine, &c. He will attend all parades at which a medical officer's presence is required, and also rifle practice. When a regiment changes quarters a Surgeon will accompany it on the journey, returning at the close of it to his former station. As a rule, medical officers during home service will not be shifted about much, but the Principal Medical Officer will be empowered, without reference, to transfer duties within the same garrison. At stations where only a detachment is quartered a civil practitioner will be employed, receiving so much per week, according to the strength of his charge, instead of 2d. a head—we mean that he will be paid so much for under, say, fifty, so much for under 100, and so on, without reference to slight fluctuations. It is intended eventually to employ in these small charges men who have retired on half pay, pension or bonus, giving them a slight addition to their income. It is hoped by this means to secure a reserve of medical officers available in case of a war. When a regiment takes the field it will equally, as in quarters, have a Surgeon attached to it. All these attached Surgeons will be honorary members of the regimental mess, but will pay no subscription. The mess will suffer seriously from this arrangement, but there will be nothing to prevent all honorary members being charged for what they consume more than ordinary members. In the scheme drawn out it is expressly stated what medical officers are to draw forage allowance. The system which we have described is not yet applicable to India, but in time that part of our dominions will, it is anticipated, come under the same rules. Let us now proceed to consider some of the objections to this sudden and violent severance of medical officers from regiments. That it is viewed with extreme dislike by many of those concerned is undoubted. It is something very like a breach of faith towards medical officers who entered the Service some four or five years ago. Many were to a great extent induced to enter the department by the hope of enjoying the comforts and good fellowship of a regimental life. Some, indeed, paid large sums in the way of exchange-money and the purchase of uniform to obtain appointments to regiments. Nearly all have become much attached to the particular corps in which they have in not a few cases served many years. It is obvious that, socially, Surgeons will suffer greatly by the change. Hitherto they have shared all the hospitality and attention of the neighbourhood with the regiment of which they were members. Henceforth they will be, as it were, no man's child, for a department is to civilians as abstract a body almost as is the intelligent public. Consequently, though Dr. A may be asked out, it will be simply as A, and not as a member of the Army Medical Department. It seems to us that though the medical officer will have the advantage of being no longer required to pay mess subscriptions, or to defray the expenses of changes of quarters at uncertain but always short intervals, he will suffer much in comfort from ceasing to be a member of a regiment, and from the fact that he will have scarcely any comrades, and that every few years he will have to recommence the task of making fresh civilian acquaintances. We now come to the disadvantage to regiments of being deprived of their Surgeons. The mess will suffer by the withdrawal from it of two officers, and the consequent increase of expense to those who remain. Discipline will suffer, for it will be much more difficult than formerly to detect malingerers. Those who are really ill will suffer from the fact that their medical attendant will be necessarily ignorant of their constitution and general history. Officers' wives will naturally be less confidential to a strange doctor than to one with whom they have been on terms of intimacy for years. The same, though to a less extent, will be the case with soldiers' wives. We have already seen from the painful incident at Woolwich that the families of soldiers married without leave will be terrible losers. The officers will regret the change as much as anyone. Hitherto, owing to the facility with which they could informally consult an old friend, many a case of nascent illness has been checked. They will hesitate to apply to a comparative stranger, unless they are suffering from serious disease. The Colonel will be deprived of a very useful adviser, whose place cannot be filled by a man who knows nothing and cares less about the regiment. On a review of all the circumstances, therefore, we are inclined to think that, though the old system required amendment, unification is an exaggeration of reform which will not answer. At the same time, it is only fair to say that the Army medical officers have been wonderfully silent on the subject; but that may be as well the result of a conviction that protests would be useless as a proof of satisfaction.

The question of the efficiency of the engines, boilers, and machinery generally of her Majesty's ships is one which daily becomes of more importance. With no less than twenty-eight different engines in the Devastation and Thunderer, and probably more in the Inflexible, it is evident that the most splendid seamanship is simply useless unless the motive power is in good order. Here we have used the word "seamanship" in the sense in which it is used by Admiral Rous and other old school authorities; but now that most of our ships are simply a mass of complicated machinery, some higher, or at least more scientific, qualities than those of the mere seaman are requisite in their Commanders. It is impossible to feel quite satisfied as to these two important points: First, as to the fitting and working of machinery generally in our men-of-war; and secondly, as to the qualifications of those in charge of them, whether Captains or Engineers, to make the best use of the means at their command. On the first point there has undoubtedly been much exaggeration, and what has been termed by the *Times* "a dismal tale of naval disasters" has been inordinately swelled by the publication in large type of every so-called accident in trial trips, till, with the discovery of the slighest flaw in a crank shaft or other important part of machinery, we are all kept in terrible suspense for the safety of the ship in which the injury is reported. Still, we must, after all, admit that there have been some conspicuous failures of machinery lately for which no sufficient reason has been given. It is certainly not creditable to the Admiralty that, after her commission, it should be found that the Danae's boilers primed so determinedly that they must be taken out of her, and it would be niteresting to know on what experiments the resolution was formed of fitting ships with Cochrane boilers. So far as we are informed, it appears that they were tried unsuccessfully in the Audacious, and that they had to be taken out of her before she went to China, while we believe that boilers of this character are still on board the Penelope. As the latter vessel is scarcely seaworthy in other respects, it is perhaps of less consequence, but we should be glad to hear what reports the officers of the ship have made on her boilers. We are told that important discoveries with reference to the preservation of boilers have been made by the "Boiler Committee," which has now been sitting some two and a-half years, and we should naturally be glad to see some result from their labours. If we turn to the engines, the case of the Shah was certainly a bad one, while we now hear of the double-screw gun-vessel Boxer requiring two new shafts on putting into Plymouth after having just been commissioned at Chatham. Certainly such break-downs as these show a screw loose somewhere, and it is not easy to say where the fault lies generally. In some quarters it is attributed to the contract price for machinery being too low; and, in proof of this, it is pointed out that her Majesty's yachts never break down. We are inclined to think, however, that though we may occasionally have cut down the price of engines to too low a figure, it will be found that much can be accounted for by many of the engines being too experimental in the endeavour to take advantage of compound engines and other fuel-saving inventions. It must be observed that almost all our ships are becoming a class of their own, scarcely any vessel being an exact copy or sister of another, and special arrangements of an exceptional character are required in each ship. A recent writer in *Fraser* was urging on the Admiralty to build fast cruisers, and he pointed to the splendid steamers of the great American ocean lines as models for us to follow. It is satisfactory to find that in the Iris and Mercury, and in six more steel ships subsequently ordered, the utmost will be attempted in the way of speed. The two former vessels will, we are told, be fitted with engines by Messrs. Maudslay, similar to those built by them for the White Star American line, but the necessity for having the machinery below the water-line causes them to "differ in many important details." We must, therefore, make much allowance for the difficulties which our Naval Constructors and Engineers have to overcome, and it is eminently satisfactory to find that they do not fear to attempt great things; but it is surely not necessary to try half-a-dozen experiments of a similar nature at the same time, as with the Cochrane boilers. It is consoling to find that other nations make at least as many failures as ourselves; and, as in the case of the confederate rams, the Scorpion and Wivern, it is usually found that when much-praised foreign vessels are taken into our own Navy they have suddenly lost all their good qualities. It is only recently that we have heard curious reports of the Russian Popoffkas, while the Peter the Great, which was to eclipse our Devastation, is now, according to the *Times*' correspondent, "so weak that if driven through the water at a speed greater than 8 knots, she shakes to such a degree as to leak in an alarming manner." The qualifications of our officers generally to make the best use of the machinery in their charge is an important question, which demands more space than we can at present afford, but the first step towards rendering them thoroughly worthy of their responsibilities is undoubtedly to remove some of the economical restrictions on fast steaming, for no one who has been in an engine-room of one of her Majesty's ships with the engines working at full power can fail to have been impressed with the fact that the Engineers and stokers are being called upon for some extraordinary exertions, and that it is rather a *tour de force* in the engine-room than an ordinary piece of service, and Captains would be equally excited if ordered to perform steam manœuvres at even a 10-knot speed.

The British public cannot complain of want of information concerning the military geography of Turkey and Roumania. A short time ago Colonel Evelyn Wood gave one interesting lecture on that subject at Aldershot, and last Friday Mr. Howard Vincent delivered another, not less admirable, at the Royal United Service Institution. In addition, the Special Correspondent of the *Standard* has been sending to that paper a series of clear and excellent letters, evidently based, to a great extent, on personal observation. Mr. Vincent—the text of whose lecture we gave in our last number—adds to a description of the seat of the probable war conjectures as to the operations of the combatants. He considers that a careful review of the circumstances tends to create a belief that the Russians will meet with no insuperable difficulties in their march to the neighbourhood of Constantinople, but that there they will be brought to a standstill by the lines planned for the defence of the capital—that is to say, if these lines are constructed in time. He asserts, however, that as yet not a spadeful of earth has been removed. In our opinion, his views of the probable success of the invaders are somewhat too sanguine. But let us examine his facts and speculations. He asserts that the Russian Army at Kischeneff numbers 274,600 Infantry, 12,330 Cavalry, and 245 guns. This may be the authorized establishment of the corps assembled, but from the information which we have gathered from various sources we are disposed to believe that, though such a force may exist on paper, its efficient strength did not up to a week ago greatly exceed 200,000 of all ranks, including non-combatants. We do not, however, deny that, though large bodies of troops must be left in the Caucasus, in Poland, and as garrisons of the Black Sea fortresses, it would be quite possible to mass on the Pruth an army as strong as that which Colonel Vincent asserts is there assembled. Enormous deductions must be made. In the first place, in the march to the Danube a large number will be removed by sickness, for the waste of a Russian army is notoriously great. In the second place, the left flank, at all events, must be guarded, for the Roumanian Army would have quite enough to do to protect the right flank. The Dobrudschen forms a salient from which a small body of men could inflict considerable damage on the Russian communications, and especially that portion of the railway which runs from Galatz for several miles parallel and close to the Danube. Mr. Vincent says that the Turks have no pontoons or other means of crossing the river; but it is inconceivable that there should not be fishing boats and materials for making rafts or flying bridges. It is very possible that the Turks would be unable to pass over a large army. But a large army would not be needed to cut the communications. Even half-a-dozen men could, during a few hours of the night, temporarily interrupt the railway traffic, and a hundred horsemen would hamper the passage of provision trains moving by road. Besides, there are seven Turkish gunboats in the Danube, and there is no reason to doubt that an enterprising naval officer could, in spite of torpedoes and batteries, run up with a flotilla of other gunboats and small steamers. Colonel Vincent says that the gunboats now in the river would be soon destroyed by the Russian artillery, since there are absolutely no creeks in which vessels could be sheltered from guns placed on the northern banks. It is not, however, to be imagined that the gunboats would remain stationary to be fired at, and the northern bank is in many places so marshy that guns could not be placed in position, even if we were to grant that the Russians could spare a sufficient number of batteries to line the entire length of the river. If the Turkish gunboats be properly handled, we believe that they will play an important part both in obstructing the passage of the Danube by the Russians and in facilitating the crossing of small bodies of Turks destined to operate against the invader's communications. Everything, indeed, will be against the Russians when they seek to pass into Bulgaria, for the southern is higher than the northern bank, and there is an utter lack of lateral communications on the latter. Nevertheless, we should ignore all the teachings of history if we believed that the Russians would not eventually cross the river. Before, however, that operation can be attempted, it will be necessary, first, to move a large army through Roumania, and this process, we imagine, will be more difficult than Mr. Vincent anticipates. He says that the railway which runs from Odessa *viâ* Kischeneff, Jassy, and Bucharest to Giurgevo, will be able to move the invading army, keep it supplied with food, stores, and reinforcements, and carry back the sick and wounded. He considers that the narrowing of the gauge at Jassy is a fact of no importance, for the Roumanian rolling-stock is abundant, good, and specially constructed for the transport of troops; moreover, the space between the wheels of the Russian carriages could be soon and easily narrowed. This operation would, however, diminish greatly the means of moving men and stores as far as Jassy. We have read that the Roumanian rolling-stock, too, is by no means abundant and good. Making, however, every concession to Colonel Vincent, we feel convinced, from the experience of the Prussians in 1870-71, that a single railway would be taxed beyond its capabilities were it required to transport fighting men as well as stores and sick. We agree with Mr. Vincent in thinking that the direction of the railway indicates the points of passage, and that, probably, the latter will be attempted at points opposite to Rustchuk, Turkestan, and Silistria. These fortresses are, we are told by Mr. Vincent, in a very inefficient state and weakly garrisoned, but it is probable that during the last few weeks these defects have been partially remedied. It must be also borne in mind that in Turkish fortresses not only is there a numerous Artillery Militia, but that every adult male may be viewed as a fighting man. The towns in question would, no doubt, be ultimately taken, but the sieges of Turkish fortresses are generally costly and slow, and their resistance would not only delay an advance, but help to diminish the strength of the invaders. As to the subsequent operations, it is obvious that the passage of the Balkan could not be attempted till both Varna and Schumla had been either taken or blockaded. We shall, therefore, be astonished if the Russians find themselves in a position to cross the Balkan before the commencement of the second campaign. As to the passes, they are, some of them, traversed by indifferent roads, are easy to defend, and would undoubtedly be strongly fortified. But here, again, we believe that the Russians, if victorious in the open field, would eventually succeed in accomplishing a passage. We, however, ground our belief on the prolonged, if not eventually successful, resistance of the Turks, on the difficulties of supplying and finding transport for even 100,000 men in the Balkan peninsula, and on the fact that the Turks possess, and are likely to retain, the mastery of the Black Sea. As long as they are superior in naval power, any chance of a *coup de main* against, or even a rapid advance to, Constantinople is, in our opinion, out of the question. After all, however, the chief reliance of the Sultan must be on his Army, and, if that is badly handled, it is tolerably certain that Adrianople will once again be occupied by the legions of the Czar.

The cares of office cannot sit lightly upon the First Lord of the Admiralty. There has been enough going wrong with ships and machinery afloat to worry even a particularly philosophical First Lord. But now there seems such a combination on the part of nautical-minded M.P.'s as threatens to make the coming Session a warm one for the Admiralty. There can be no objection to the free criticism of naval affairs, for the Service must recognise the fact that it is much to its advantage that greater interest should be taken by Parliament than has usually been the case. The evident intention of Mr. Reed to give the House the benefit of his opinion on naval administration may therefore be looked forward to with interest, and, as an old Admiralty official, the experience he has had of the ins and outs of the civil departments of the Service renders his criticism of value, and, to judge by former instances, we may look for fairness. But with another member, affairs wear a very different aspect, if it be true, as stated, that he has given notice of his intention to impeach Mr. Ward Hunt for malpractices in the administration of the Navy. We can hardly suppose that he means this in all seriousness, and that he really holds the First Lord guilty of malpractices. Probably it is merely some roundabout way of bringing on a discussion as to the propriety of having a civilian at the head of the Fleet. But the gallant officer who is bent upon this eccentricity has already said some most extraordinary things about the Navy both in and out of the House, and there seems to be some prospect of his winning a reputation as a kind of naval Kenealy. The impeachment will be looked for with interest, and it is likely to cause less uneasiness than amusement.

The audacity of the inventors of "the latest yarns," and the usual incorrectness of their statements, was alluded to at some length in these columns last week; but we were scarcely prepared to find a paper the following morning giving an account of a "lamentable accident" which had happened to a boat of the Ringdove, whereby two officers lost their lives, seeing that this occurred more than seven years ago. Yet so it happened. This is the latest development in the supply of naval news, and it is just possible that, having been placed in so ridiculous a position by taking any sensational item as fact, the papers may be inclined to be a trifle more guarded in future.

We understand that the appointment of Captain E. H. Howard as Naval *Attaché* to the Maritime Courts of Europe has expired. The ability displayed by Captain Howard while holding this important post has been very marked, and it is a matter for regret that it should be necessary to supersede him. And as it is impossible to make certain of selecting another officer of equal aptitude, we would suggest that this might be a favourable opportunity for making arrangements to divide the labour. That a maritime Power such as England, whose interest it is to be kept well acquainted with the progress made in other navies, should be represented on the Continent by a single naval officer, seems an absurdity. Yet such has been the system, and we have had but one "Naval *Attaché* for Europe." However competent such an officer may be, much of his time must be wasted in moving about from country to country, and his visits must also be of so flying a nature that little can be ascertained as to the intentions of foreign Admiralties.

Captain F. H. Stirling, the last of the year 1860, becomes Rear-Admiral owing to the death-vacancy which has occurred in the list of the Admirals of the Fleet. As regards age and service Captain Stirling stands well, and has a fair prospect of seeing the present century expire while he remains on the Active List.

The promotion of Admiral Sir James Drummond gives him a new lease on the Active List. As far as calculation could be made, it seemed probable that he would have been compulsorily retired for age during the present year, but his having reached the higher list now gives him an additional five years and a prospect of becoming an Admiral of the Fleet.

An appointment as Naval Aide-de-Camp to the Queen becomes vacant by the advancement of Captain Stirling to the Flag List.

It has been decided to alter the title of the appointment held by Mr. Rowsell at the Admiralty to "Director of Naval Contracts," to prevent confusion with similar offices existing in other Government departments.

Captain Nowell Salmon, V.C., C.B., will be advanced to the paid list of Naval Aides-de-Camp to the Queen on the promotion of Captain Stirling.

By the death of Sir Fairfax Moresby the number of Admirals of the Fleet not liable to retirement by age has been reduced to two. Both Sir George Sartorius and Sir Provo Wallis were in command of ships before 1815, and though nearer ninety than eighty years of age, may continue on the Active List. With Sir Henry Codrington, who is now advanced to the highest rank in the Service, it will be far different, for being already passed sixty-eight, he will be placed on the Retired List in less than two years. The full benefit of retirement by age being extended to the senior officers of the Fleet will then be felt for the first time, and we believe that the two seniors now on the list have stated their willingness to forego the privilege they enjoy of remaining on the Active List, in order that they may assist in promoting the flow of promotion by retiring.

It seems to be fated that there should be some hitch about the delivery of warlike stores at the Cape. The first important supply was wrecked in the St. Lawrence, and a later consignment has returned to Plymouth in a hired vessel which had been about a month on her voyage, but had to put back in a leaky condition. A quantity of these stores are damaged by the sea, and will be replaced. The loss is, however, trifling compared with the delay, and it is devoutly to be wished that there may be no need of the stores before they arrive. It may not be generally known that the St. Lawrence was not chartered only to convey troops and stores to the Cape, but arrangements had been made, in the face of possible complications, for her to be detained as long as the naval and military authorities thought her services for moving troops might be needed.

We have good reason for believing that even yet there is some prospect of efforts being made to raise the Vanguard, or, at least, to save those stores which have not perished, and bring her up in pieces. The attempt will not, so far as we learn, be undertaken by any firm, but will be made by an association or company.

The War Office Torpedo Committee, which has carried out a long series of experiments with the iron ship Oberon at Portsmouth, will shortly be dissolved, it being thought that further trials with that vessel are not calculated to add much to the information and experience already gained.

Under the title "Our Life in the Arctic Regions" Captain Markham is about to contribute a short series of papers to *Good Words*.

The Naval Artillery Volunteers are anxious to show their willingness to go on guard when occasion may arise. To-day, in compliance with their request, a few of the London Brigade will form a guard of honour to Sir George Nares on his reception by the Fishmongers' Company; and on the 2nd proximo the Brighton Brigade will do a like service on the occasion of the opening of the Brighton School of Art by her Royal Highness Princess Louise.

On the arrival of the Barracouta at Portsmouth a court of inquiry will assemble for the purpose of ascertaining the truth of certain grave charges which have been brought against the Paymaster of the ship by the Captain. The Barracouta has not had a remarkably successful or happy commission, and only four of the officers who left England in her are now on board.

Commander W. M. Lang has followed the example of his fellow-student, Commander Ching, and is about to leave the Royal Naval College to take temporary command of a Chinese gunboat, one of the two recently purchased in this country. He will take the vessel to China, and hand her over to the naval authorities at Foo-chow. Leave of absence to proceed on this foreign service is limited to six months.

Captain George Douglas, R.N., Commander Sanctuary, and Staff-Commander Mourilyan have been appointed Commissioners of Salvage for the port of Deal.

The death of a boy on board the St. Vincent, training-ship at Portsmouth, has elicited the information that this ship, having a complement of more than seven hundred boys, was left for the night without any medical officer. In the present instance the poor lad was found dead in his cot in the sick berth, and it would appear that the illness for which he was placed on the sick list was not such as to cause any immediate anxiety. But it is scarcely satisfactory that the whole of the medical staff should be absent at the same time. The "whole" in this ship consists only of two, both Staff Surgeons, who doubtless do not appreciate having to remain on board every alternate night. There are several other vessels in Portsmouth Harbour bearing senior officers in lieu of Surgeons, and it is evident that the number of that rank now borne is not equal to the requirements of the Service.

The Royal United Service Institution is taking some decided steps towards making a move into a building more suited to the importance of so valuable an institution. Its benefit to the Services is already so far recognised by the Government that for many years past it has received an annual grant both on behalf of the War Office and Admiralty, and yet it remains stowed away in the same quarters as when it was first started under the patronage of our last naval King, William IV. The library, consisting of some 18,000 volumes, has now to be scattered amongst many rooms of that straggling building in Whitehall Yard which is the result of knocking two houses into one and roofing over a narrow alley which ran between them. Such other accommodation as is afforded in the way of reading and map rooms is also much too limited, for not only has the number of names enrolled on the list of members greatly increased of late, but the number of those who actually make good use of the facilities for studying matters connected with the Navy and Army has grown immensely. These are thinking days, for the science of war has been developed year by year, and the examinations now passed by our officers would slightly astonish those who knew the Services in the old days; and since the Institution decided to offer a gold medal each year for the best essay on a given subject, it has induced many, who otherwise might not have turned their attention to much study, to read more deeply. Surrounded as the present and somewhat dilapidated building is by acres of vacant land, it has been thought a favourable opportunity for urging the claims of the Institution upon the Government, and in so doing the Council has had the support of H.R.H. the Duke of Cambridge, whose willingness to assist in anything having for its object the good of the Service is so well known. It was at one time proposed to organise a deputation to wait upon the Prime Minister, but on placing the matter before Lord Beaconsfield it was arranged that a memorial should be presented instead. Possibly the matter, involving as it does the purchase of land for building purposes and a vote for defraying the cost of the new house, will come before Parliament during the ensuing Session, and, seeing how much such an institution tends to the efficiency of the Services, it is not to be anticipated that any opposition could well be offered. Anyone who took the opportunity of visiting the present quarters would feel compelled to confess that the effort now being made to procure better accommodation is not unnecessary.

The readiness displayed by some to condemn without trial and to decline to be satisfied with anything done by the Admiralty, is truly astonishing. No sooner was the Scurvy Committee appointed than it was asserted that it was "packed." The reason for this statement was that Dr. Donnet had acted on another committee, namely, that for selecting a site for a college for naval cadets, and as he had fallen in with the views of the First Lord of the Admiralty on that occasion, he had been again selected to do equally good service to those in office. A suggestion more mean and more insulting to those in question can hardly be conceived, and yet it was published by a section of the Press. The reasons Mr. Hunt had for wishing the cadets' college to be erected at any particular spot upon the coast do not appear. It was enough for the originator of the story that he should throw out the insinuation. Not content with that attack upon the honesty of purpose of the committee, it is now asserted that it is not the desire of the committee to seek the causes of the outbreak, but rather to discover the conditions under which the disease is developed, with the view of preventing its appearance in future. It is added that it is composed of naval men, who, in addition to their natural *esprit de corps*, have to combat any dislike they might feel to censuring the authorities, to whom they look for employment and promotion. Had the author of the above statement been acquainted with the subject of which he wrote, he would have known that of the whole committee there is but one officer who has anything further to expect at the hands of the Admiralty. The others are either retired or are at the very height of their professional prospects. The Admiralty has nothing to fear from the decision of this committee, for they issued all orders for the guidance of the Expedition in strict compliance with the advice of the Arctic Committee. The only man who need have any fear of disapproval is Sir George Nares, and he was not consulted when it was decided to appoint the Scurvy Committee.

An Admiral and two Rear-Admirals are now in command in the Mediterranean, and this is as strong a representation of the Flag element as would be the case if we were engaged in war. Sir James Drummond has gained his step before hauling down his flag, which was scarcely anticipated; and as he has more than completed his term of service, the Admiralty is desirous that he should be relieved without any delay. Hence the orders hastening the departure of the Alexandra.

It is the misfortune of Rear-Admiral Stewart to see yet another junior go over his head, temporarily at least. The want of sea time has already been the means of detaining him on the junior Flag List, while Vice-Admirals Cochrane and Seymour have been advanced, and now Sir Reginald Macdonald also passes over the Controller. Up to this moment there has actually been no positive loss of seniority according to date of commission, but only of position on the list, for it so happens that all the officers here mentioned obtained Flag rank on the same date, April 1, 1870. The next on the list is, however, eighteen months junior to Rear-Admiral Stewart.

The death is reported of Rear-Admiral Stoll, who entered the Navy in January, 1824, as first-class Volunteer. After serving in various vessels, he attained the rank of Lieutenant October 6, 1832. In April, 1837, he was appointed to the command of the Buzzard, of three guns, on the coast of Africa. He succeeded in capturing nine slavers, three of which, of superior force, were taken up the Kongo, and one cut out, after a sharp resistance from the River Pongos, by two boats under his direction. He received the appointment in November, 1841, of senior Lieutenant to the Fly, fitting for a surveying expedition to the East Indies. He was advanced to the rank of Commander soon after, and was employed for some time as an Inspecting Commander of Coastguard. In February, 1858, he was promoted to post rank, was placed on the Retired List in October, 1870, and attained the rank of retired Rear-Admiral in December, 1875. Admiral Stoll acted for several years as Government Emigration Officer at Plymouth, which post he vacated last year in consequence of a misunderstanding with the Board of Trade respecting the relative positions of himself and the local officers of the department.

Vice-Admiral Sir A. C. Key intended to leave Bermuda on the 4th instant in the Bellerophon, with the Eclipse and Dryad in company, for the West Indies.

Admiral of the Fleet Sir Fairfax Moresby, G.C.B., D.C.L., the oldest officer on the Active List, has just passed away at the good old age of ninety years. Being one of those who had commanded a ship previous to 1815, he was exempted from the operation of the age clauses introduced in the retirement scheme of 1870. It was felt that the Service could afford to allow those so situated to remain undisturbed by any new regulations. Sir Fairfax Moresby entered the Service as an A.B. in 1799, and as Midshipman took part in the Ferrol Expedition under Captain Child Purvis, and went in 1805 with Lord Nelson to the West Indies in pursuit of the combined fleets of France and Spain, but was taken prisoner and detained at Malaga. In 1806 he was in the Hibernia off Ushant, under Lord St. Vincent, and in 1808 distinguished himself on the Mediterranean Station. In 1811 he was appointed to the Wizard, and sent to the East to repress the pirates in the Grecian Archipelago, and for his services in this capacity was presented with a sword by the mercantile community of Malta. In the Mediterranean under Sir Edward Pellew (Lord Exmouth), and especially at the siege of Trieste, he served with merit, and in 1815 was nominated a C.B. In 1820 he was sent to the Cape of Good Hope, where he helped to form a settlement, and in 1821 was appointed to the command of Mauritius, with a view to the suppression of the Slave Trade. After arranging a treaty with Madagascar for the suppression of the Slave Trade he returned to England. He was for some years the Commander-in-Chief on the Mediterranean and Pacific Stations. He was nominated a K.C.B. in 1855, and G.C.B. in

1865. He attained Flag rank in 1849, became Vice-Admiral in 1856, and Admiral in 1862. In 1870 he became Admiral of the Fleet.

It has been stated that H.R.H. the Duke of Connaught was to have had command at Shorncliffe, and it is further announced that when Colonel Peyton vacates his command about twelve months hence, his Royal Highness will be appointed his successor. The first of these reports there is no foundation for, and, as to the second, it is too early yet for any person to know what arrangements will be made when Colonel Peyton is promoted. The fact is lost sight of that his Royal Highness is but a junior Lieutenant-Colonel, and his appointment even as a Colonel to Shorncliffe would be attended with difficulty.

The Half-Pay List has been so far thinned that it is with difficulty the Horse Guards can now lay its hands on a Captain to fill a vacancy when required. There is now, therefore, a reasonable hope of our finding some of the senior Lieutenants promoted by selection. There are many officers who, from one or another cause, are still doing subaltern's duty, with little or no prospect of promotion unless they are given their companies out of their regiments. The case of this class is not likely to be overlooked by those in authority.

Lord Napier of Magdala, since his arrival at Gibraltar, has inaugurated such changes in the distribution of the troops in garrison as will allow of the married soldiers being very much more comfortably housed. Steps taken with this object always meet with approval.

We are in a position to state that, in the event—which is very unlikely—of an expeditionary force being required to take the field, the appointment of Commissary-General will be filled up from the effective list of General officers.

Although there can be little doubt about the discipline in the French Army having improved of late years, still serious acts of insubordination occasionally occur. A short while ago some twenty soldiers belonging to a Light Cavalry regiment rode off through the country on a spree, and quartered themselves on the inhabitants, who probably thought they were manœuvring, and received them well. After being out a couple of days most of the men returned to barracks, and the remainder were soon captured. A court-martial inflicted a severe punishment on these deserters. From Algeria we learn that Corporal Rœthel and five soldiers of the Foreign Legion were condemned to death a few days ago for a serious act of insubordination committed at Sidi-bel-Abbes. Only one man, however, was shot; the sentence on the Corporal was commuted to hard labour for life, and twenty years for the other men. Faglin, the man executed, met his death with great courage. We learn that several officers have been guilty of an act of insubordination in publicly attending Masses said for the repose of the soul of Napoleon III. These Masses are repeated on January 15 each year, the anniversary of the late Emperor's death, and generally give rise to manifestations and counter-manifestations.

The privilege lately restored to the 21st Fusiliers has raised a question as to the former title of that regiment. As some inaccuracies have appeared, it is desirable that they should be corrected. The 21st Foot was originally a regiment of Fusiliers, as distinguished from regiments of Musketeers and Pikemen. When the regiment came upon the British establishment, after the revolution of 1688, there already existed another regiment of Fusiliers, the present 7th Foot. The latter was styled the "Royal Fusiliers" and the former the "Scots Fusiliers," and not the "Royal" Scots Fusiliers—there was, in fact, precisely the same distinction as used to be made between the "Royal Army" and the "Indian Army." In the same way, the 1st Foot Guards were styled the "King's Foot Guards," and the 3rd Foot Guards the "Scots Foot Guards;" these latter were never Fusiliers, as distinguished from Musketeers. However it may affect the designation of the "Scots Fusilier Guards," there can be no doubt that the 21st Regiment is entitled to the designation of "Scots Fusiliers" as fully and on the same plea as the 1st Foot was entitled to that of "Royal Scots"—*i.e.*, on the ground of ancient usage.

How much longer will the authorities be content with the War Office as it exists? Several times have successive Ministers brought into Parliament a Bill to acquire the land between Parliament-street and St. James's Park for the purpose of building thereon the naval and military offices. The Bill, however, has always been dropped on the score of expense, though each year adds to the value of property in the neighbourhood. Commissions and committees have for years past sat and reported on the advisability of the above site, but nothing is done; so that the probability is Government will in the end have to pay an enormous price for what they might have obtained at moderate cost. It is said that Winchester House, in St. James's-square, is to be acquired for £40,000 as an addition to the great conglomeration of buildings in Pall Mall. These Mr. Gathorne Hardy denounced in no measured terms when he entered on his duties in 1874; but office works great changes in men, and Mr. Hardy is now apparently quite satisfied. Few people are, however, aware what the annual rent paid by Government for the hire of offices amounts to. Adair House alone eats up £2,300 a-year, those in New-street, Spring-gardens, in Whitehall-place and Gardens, and in Victoria-street, costing over £9,000 per annum. Such a policy is the reverse of economical.

A story was recently told of the well-known Belgian military author, General Brialmont. Having applied to the French Government for plans of the new fortifications round Paris, these the French Government immediately hastened to refuse. General Brialmont consequently applied to Berlin, and was at once furnished not only with plans of the forts being constructed, but with the plans of others under consideration. The Germans also communicated the plans of their own forts, knowing that such things are not to be kept secret. It is related that General Brialmont, who has something to do with the fortifications of Diest, must be aware of this. It was desired to keep the works dark, but an officer of French Engineers disguised himself as a mason, worked on the fortifications, and forwarded an excellent plan to the French War Office, which possessed detailed drawings of the astonishing mixture of systems employed at Diest before any such drawings existed in Belgium. This affair has caused some little discussion in France in consequence of an influential paper recently declaring that no French officer could ever play the part of a spy, as German officers do. Of course there are exceptions, but the spy system is not carried to such an extent in France as in Germany. Frederick the Great once said that his brother, Louis XV., had twenty cooks and one spy, whilst he had twenty spies and one cook.

In the *Gazette* of Friday, the 19th inst., Major C. R. Buckle, Royal (late Madras) Artillery, was restored to a battery command from the Half-Pay List. The circumstances under which Major Buckle was deprived of employment two years ago were not made public as far as we know, but the officer was the subject of universal sympathy, as he had been made a victim by the Government of India for having done what almost every other officer of his rank in the Royal Artillery has done—*i.e.*, protested against a most unjust decision with regard to the pay of Majors of the Ordnance corps serving in India. The treatment the officer received was a grave public scandal, and the announcement of Friday last has occasioned no small satisfaction throughout the distinguished regiment with which he has been connected for the last fourteen years.

We commend to the notice of the War Office the inconsistency of styling the many battalions of Volunteers now clothed in scarlet uniforms "Rifle Volunteers"—surely Volunteer Infantry is their proper appellation?

We see that the correspondent of the *Cologne Gazette* gives a favourable account of the Russian Army of the South, and considers that, in the event of war being declared, it is quite in position to cross the Pruth and take the field. This opinion is all the more valuable as it comes through a paper usually well informed, and not at all friendly to the Russians. It appears that large quantities of stores have been collected and clothing, &c., prepared for a summer campaign in Bulgaria, and that every effort will be made to avoid treading upon fever territory.

The period of Staff service of Major J. H. Fawcett, half pay, late Royal Scots, Garrison Instructor at Manchester, has been extended, as has also that of Captain R. H. MacGregor, 29th Regiment, on the Staff of the Home District.

We are promised a new edition of the "Précis of Modern Tactics," by Lieutenant-Colonel R. Home, C.B., Royal Engineers, on the Topographical Staff. The first edition, prepared in the Intelligence Branch of the Quartermaster-General's Department, has been for some time out of print, and the work is being revised by the hands of its talented author.

The present Surveyor-General of Ordnance, Lord Eustace Cecil, expressed his desire to receive letters from individual officers of the late Commissariat Department explanatory of their respective grievances. It is now twelve months since the last of these letters was forwarded to the War Office, yet no reply has been returned to any of them. The Secretary of State for War, in reply to Sir Henry Havelock, stated last Session that the case of the Commissariat officers would be referred to a committee then sitting at the War Office. What has been done in consequence?

It appears that during the present year the following five French Vice-Admirals will attain the limit of age: Vice-Admirals Penhoat, Maritime Prefect or Port Admiral of Toulon; Méquet, Maritime Prefect of Brest; Jurien de la Gravière, Rose, and Didelot. On May 29 Rear-Admiral du Guilio will also pass into the Reserve. We see by the "Navy List" for 1877 that there are seven Lieutenants who are on the point of attaining the age of forty-six after having served as Lieutenants seventeen years. The probability is that this year they will be made Captains; but this is rather late to take possession of a post which requires force and energy. There is certainly a great deal of stagnation in the French Navy, but no remedy of a practical nature has yet been recommended. In 1869—that is to say, in the last year of the Empire—there were 130 Post-Captains and 270 Captains; but after the war a reduction was made, and there are now only 100 Post-Captains and 200 Captains, 700 Lieutenants, &c. And, with all this, no naval war on the horizon. Even during the German war French tars had to fight ashore to man detached forts round Paris, and distinguished themselves in Faidherbe's Army of the North.

The Austrian Government, knowing the interest taken by the Admiralty in procuring a correct survey of the Eastern Seas and the efforts now being made to complete this valuable work, has courteously forwarded particulars of a survey of the Sulu Sea recently made by the officers of the Austrian vessel Archduke Friedrich.

The Affridis have attacked a party of our Irregular Cavalry, killing some and carrying off the rest as captives. They have also fired at a fort; yet they are, after all, to be left alone, it being thought that the blockade will eventually bring them to their senses. A blockade may be a very good medicine, but it must be admitted that it is rather slow in action, seeing that more than nine months have elapsed since the drug was first administered, and that hitherto there has been no result. The latest reports state that the Akhoond of Sivat has proclaimed a Jehad, and, if that is the case, we may expect a general movement among the border tribes. Under these circumstances, we cannot but regret that a campaign was not undertaken against the Affridis last September. It is almost sure to be necessary sooner or later, and affords better practice than any camp of exercise.

Captain A. L'E. H. Holmes, Bengal Staff Corps, who was noted for a Brevet Majority, on the recommendation of General Lord Strathnairn, for his meritorious conduct on the North-Western Frontier of India in 1863, is to be deprived of the step now that he has become qualified for it. We regret to say that, what with the refusal of Brevets for the Mutiny and subsequent services, and the withholding of the spoil of India, there is a spirit of discontent evincing itself among those who have fought in the defence of British interests in India which is gradually attaining large proportions, and the growth of which steps should be taken promptly to check. The treatment of officers noted for Brevets is most reprehensible. Whatever may have been the errors of the Generals in command, in putting forward too many names, promises should have been fulfilled. In the case of Captain Holmes, a young officer was actually called out in front of the column with which he was doing duty and thanked for his gallantry, and yet he is denied the Brevet for which the General officer under whom he was employed deemed it right to put forward his name. Such treatment cannot be too strongly condemned, and it is especially unworthy of a nation owing so much to her Army as Great Britain does.

Has it never struck anyone in authority as unfair that the sons of officers who have served their country honourably, and passed years in unhealthy climates exposed to disease and the dangers of field service, should be obliged to compete with the sons of civilians for entrance to the Royal Military College? There is manifest injustice in this. Why should not the sons of officers with from fifteen to twenty years on full pay be permitted to undergo a qualifying examination the same as Queen's Cadets, Pages of Honour, and subalterns from the Militia? As a rule, officers, especially those with families, who adopt the Army as a profession, are men of most limited means, and can ill afford the expense of that cramming which is, unfortunately, the secret of success in all competitive examinations of the present day. This, to the majority of civilians, is a mere trifle, though to the officer it constitutes a severe tax, especially when, as is so frequently the case, the parents are in India, whilst the sons are being prepared in England. The people who benefit most by Militia nominations are the country gentry, who are personal friends of the officers commanding their local regiments, so that the soldier-father is placed at a disadvantage in every way. Cannot the efficacy of the remedy we suggest be put to a test? And would it not be possible to give to Army officers the same chances of passing their sons through the Militia as the country gentry have lately been enjoying, and have been making such good use of? Major-General Pocklington, we trust, may see his way clear to a reform for the benefit of the Army, as it is too evident that reform might here be carried out with undoubted advantage.

Brevet Major R. W. Napier, Bengal Staff Corps, who has been acting for some time past, has been appointed Aide-de-Camp to General Lord Napier of Magdala, G.C.B., G.C.S.I., Governor of Gibraltar. Major Napier joined the Army January 20, 1862; became Lieutenant, March 24, 1863; Captain, July 18, 1871; and Brevet Major, August 19, 1876.

The Army.

2ND LIFE GUARDS. We learn from the *Illustrated London News* "that the Scotch confirmation granted by the Commissary of Haddington, on the 15th ult., of the will, with six codicils, dated respectively April 9, June 10, and Nov. 11, 1870, Feb. 24 and April 28, 1871, and July 21 and Oct. 5, 1876, of Field-Marshal the Most Hon. George, eighth Marquis of Tweeddale, G.C.B., who died at Yester House, Haddington, on Oct. 10 last, to Major-Gen. R. Taylor, C.B., J. C. Brodie, J. G. B. Hay, and J. Dalziel, the executors, was sealed at the Principal Registry, London, on the 4th inst., the personal effect sin Scotland and England amounting to nearly £210,000."

5TH DRAGOON GUARDS. The retirement of Col. Godman, for which we lately prepared our readers, will shortly be announced.

3RD HUSSARS. Lieut. Peyton left England yesterday for India to join on appointment from the 2nd Stafford Militia.

4TH HUSSARS. Lieut. Wood, a probationer, officiating second squadron subaltern 12th Bengal Cavalry, is about to be admitted to the Bengal S.C., with effect from Oct. 20, 1875. Lieut. Grant acted as extra aide-de-camp to Gen. Sir Frederick Haines, K.C.B., at the Imperial Assemblage at Delhi. The name of Lieut. Ramsay has been added to the list of officers detailed for duty at the regimental depôt. Lieut. Delacherois sailed for India yesterday in H.M.S. Jumna, to join on appointment.

9TH LANCERS. Writing from Delhi on the 26th ult., the correspondent of the *Bombay Gazette* says:—"This morning everybody in camp was surprised and shocked by intelligence of a sad accident which happened yesterday evening. A number of young officers were engaged in playing polo on the open plain beyond the Viceregal camp, when Capt. Clayton, an extra aide-de-camp to his Excellency, fell from his pony and struck his head so violently against the hard ground that concussion of the brain ensued, with the result that he died before daylight this morning. Several versions are given in camp of the cause and manner of the accident, the true one being, I believe, that Lord William Beresford and Capt. Clayton collided violently, and the latter and his pony were both overthrown. Another story is that Lord Lytton drove past the players, and that the deceased gentleman tried to rein in his pony, which reared and fell with and upon him. Capt. Clayton, who belonged to the 9th Lancers, and but recently came from England with his regiment, was a man of pleasant and affable demeanour, and was extremely popular with every one who knew him. In consequence of the unhappy occurrence, the dinner to the Viceregal Council and the levée which were to have taken place this evening have been postponed, and the levée will be held on Thursday instead." On Dec. 27 the same correspondent writes:—"To-day opened solemnly enough in Camp with the funeral of the unfortunate officer who was killed in the accident at polo on Christmas Day. Capt. Clayton was buried with military honours in a small cemetery on the Alipur road, just behind the Viceroy's Camp, and about three miles from the Cashmere Gate of the City of Delhi. A large number of personal friends of the deceased gentleman, including Sir H. W. Norman, Sir A. Clarke, and several other members of the Viceregal Council, and many of his brother officers were present; and all appeared greatly affected. Lord Beresford, who was a very intimate friend of Capt. Clayton, is reported to be much distressed by this most unhappy accident." We (*Whitehall Review*) are informed that the numerous friends and brother officers of the late Capt. Clayton have already taken steps to ensure a suitable monument to his memory both at Delhi and at Sealkote. The Marquis of Waterford, with whose family he was on the most intimate and affectionate terms, also contemplates erecting a tablet to the memory of his deceased friend at Curraghmore, and it is more than probable that further recognition of his manhood, affability, and soldier-like qualities will be shown in the shape of a memorial either in Harrow Chapel or in York Cathedral. Capt. Hon. H. Legge arrived home from India on Saturday last in H.M.S. Serapis, on leave on medical certificate. Capt. Mackenzie will assume command of the depôt troop instead of Capt. Hon. H. Legge, as previously arranged.

10TH HUSSARS. Lieut. Montrésor is a candidate for the Indian S.C., and has been appointed officiating second squadron subaltern of the 16th Bengal Cavalry on probation. Sub-Lieut. Inman has qualified for promotion.

12TH LANCERS. The *Whitehall Review* says:—"The friends of Major Russell will be glad to learn that the Prince of Wales is not to be robbed of that officer's services on the departure of the 12th Lancers for India. Major Russell has joined the Cavalry depôt at Canterbury to command the depôt troops of his regiment for two years. By Jan. 1879, when his term of depôt duty will have expired, Major Russell will have over eighteen years' service, and it may be reasonably supposed that he will be then promoted to the substantive rank of major. He is at present only a brevet major, having been accorded the step for his services in Ashantee. So able an officer has Major Russell always proved himself, that it would be an immense pity were he to be lost to the Army in consequence of his employment at Court." Lieut. Benson having preceded his regiment to India on leave of absence, his services have been placed at the disposal of the Lieut.-Governor of Bengal for employment on his Honour's personal Staff.

15TH HUSSARS. Major Gregory has passed the higher standard examination in Hindostanee.

16TH LANCERS. Brevet Major Goldie arrived home from India on Saturday last in H.M.S. Serapis, to join headquarters at Shorncliffe.

ROYAL ARTILLERY.

The following proceedings of the court-martial on Major T. C. Fletcher, 4th Brig. (late Bombay), have been published from the Adjt.-Gen.'s office, Simla:—"At a general court-martial assembled at Nusseerabad on the ninth (9th) day of Oct., 1876, Major Thomas Carr Fletcher, of the Royal Regiment of Artillery, was arraigned on the following charges: 1st Charge—With having at Nusseerabad, between the month of Dec., 1874, and the month of May, 1876, inclusive, fraudulently misapplied the sum of rupees (2,808-9-6) two thousand eight hundred and eight, annas nine, and pise six or thereabouts, being public money for the use of H.M.'s Army, received by him as the officer commanding G Bat. 4th Brig. R.A., as follows—Balance due to battery treasure-chests on May 31, 1876, 1,628-0-6; balance of advance on a contingent bill for line gear, April, 1875, 882-0-0; on account of carbine money, March, 1875, to May, 1876, 15-0-0; ordnance store bills credited to Government in March, 1876, pay list, 113-4-0; ordnance store bills credited to Government in April, 1875, pay list, 13-7-0; ordnance store bills credited to Government in June, 1875, pay list, 9-4-0; ordnance store bills credited to Government in March, 1876, pay list, 3-12-0; subscription paid to Royal Artillery band fund secretary, pay list, Feb., 1876, 39-6-0; ordnance store bills credited to Government in Jan., 1875, pay list, 104-8-0; total rupees, 2-808-9-6. 2nd Charge—With behaving in a scandalous manner, unbecoming the character of an officer and a gentleman, in having at Nusseerabad, when in command of the G Bat. 4th Brig. R.A., between the month of Oct., 1875, and the month of April, 1876, fraudulently misapplied the sum of rupees (936-7-4) nine hundred and thirty-six, annas seven, and pise four, or thereabouts, being money received by him from the men of the G Bat. 4th Brig. R.A. on account of blue serge supplied to him (Major Fletcher) by the Agent, Government Agency, Cawnpore. 3rd Charge.—With conduct to the prejudice of good order and military discipline in having at Nusseerabad, between Dec. 1, 1874, and May 31, 1876, been culpably negligent in keeping the accounts of the G Bat. 4th Brig. R.A., under his command, and in the care of the public money entrusted to his charge, in consequence of which neglect on the date last stated there was a deficiency of rupees (547-9-1) five hundred and forty-seven, annas nine, and pise one, or thereabouts, of such public money, for which he, Major Fletcher, could not account. 4th Charge.—For neglect of duty, and to the prejudice of good order and military discipline, in having at Nusseerabad, from the month of March, 1875, to the month of May, 1876, inclusive, failed to prepare a monthly balance-sheet showing the liabilities and assets of the G Bat. 4th Brig. R.A. on the 1st of each month in conformity with Para. 7 of Confidential Circular Memorandum (R.A. in India), dated Head-Quarters, Simla, June 18, 1868. 5th Charge.—With behaving in a scandalous manner, unbecoming an officer and a gentleman, in the following instances:—1st Instance—In having at Unsaree, in the month of March, 1876, when in command of the G Bat. 4th Brig. R.A., knowingly signed a false declaration at the end of the general state of accounts of G Bat. 4th Brig. R.A. for the month of Feb., 1876, to the effect that the whole of the sums credited in the general state aforesaid had been actually and *bonâ fide* disbursed by him in conformity with the established regulations, he well knowing at the time that the pay of the native hospital establishment and the pay of the native artificers and followers for that month had not been actually and *bonâ fide* disbursed, as declared by him, the pay of the said native hospital establishment and the pay of the said native artificers and followers for the month of Feb., 1876, having in reality been disbursed from the receipts for the month of March, 1876. 2nd Instance—In having at Nasseerabad, in the months of April and May, 1876, when in command of the G Bat. 4th Brig. R.A., in the presence of the Brigadier-General commanding the station, knowingly signed false declarations at the end of the general states of the accounts of the G Bat. 4th Brig. R.A. for the month of March and April, 1876, to the effect that the whole of the sums credited in the general states aforesaid had been actually and *bonâ fide* disbursed by him in conformity with the established regulations, he well knowing at the time that the pay of the native officers and followers for the months of March and April, 1876, having in reality been disbursed from the receipts for the months of April and May, 1876, respectively. The court find the prisoner is guilty of the first charge, with the exception that the first item is rs. 1,527-0-6, instead of rs. 1,628-0-6, as therein mentioned, and also, with the exception of the second item of rs. 882, is guilty of the second charge, guilty of the third charge, not guilty of the fourth charge, guilty of the fifth charge in both instances. Sentence—The court sentence the prisoner to be cashiered; and further to make good, at his own expense, the amount deficient, viz., (rs. 3,309-9-11,) rupees three thousand three hunderd and nine, annas nine, and pise eleven. W. L. CAHUSAC, Col., 16th Regt. N.I. President.—Nuseerabad, Oct. 24, 1876. The finding on the first, fourth, and fifth charges is approved and confirmed; on the second and third charges not confirmed. The sentence is approved and confirmed; the amount to be made good being limited to rupees (1,825-9-6) one thousand eight hundred and twenty-five, nine annas, and six pice.—FRED. P. HAINES, Gen., Commanding-in-Chief in India. Peshawur, Nov. 27, 1876.—By order of his Excellency the Commander-in-Chief in India, P. S. LUMSDEN, Major-Gen., Adjt.-Gen. in India."

Capt. M. C. Newall (late Bombay), adjutant of the East York Artillery Volunteers, has been granted a further period of one year in his present appointment under special circumstances; he would otherwise have returned to regimental duty on Jan. 29, the date of the expiration of his five years' term of service. Capt. Newall has lately been presented with a magnificent tankard (value 100 guineas) by his numerous friends at Scarborough for his kindness in originating and managing the now well-known Scarborough winter dramatic entertainments and balls. Among the list of subscribers we notice the Right Hon. Earl Cathcart, Sir Harcourt Johnstone, Bart., M.P., Sir Charles Legard, Bart., M.P., the Hon. F. Stuart Wortley, Lord Greenock, Lady Sitwell, H. Arkwright, Esq., Col. Gratten, R.E., Col. Kendall, Major Thompson, 67th Regt., E. H. Newton, Esq., J. Woodall, Esq., and many others.

"Subaltern" writes:—"None of those officers eligible, appearing willing to accept the retirements of £600 per annum for officers of R.A., several of which have been many months available, may I ask whether this money might not be utilized in giving a smaller pension, but a greater number, to junior officers? This, if practicable, might relieve somewhat the utter stagnation in promotion which at present exists amongst captains of R.A. on the Imperial List only."

According to the *Times*, "D Bat. 20th Brig., stationed at Bangalore, Madras, is the best shooting battery in that Presidency, and Sergt. W. Steel, of the same battery, has proved himself the best shot in the same Presidency for the year 1875-76. The Commander-in-Chief has notified with pleasure that the above-named battery has maintained its former supremacy, this being the second year in succession in which the battery, under command of Major A. Wynch, has occupied that position. His Excellency has also been pleased to congratulate the battery that it is the only one in which the ten marksmen have obtained over half the number of possible points."

Lieut. W. L. Davidson, 11th Brig., aide-de-camp to Gen. Sir F. Haines, K.C.B., has applied for leave from India to England on medical certificate.

Major M. M. FitzGerald, C Brig. R.H.A. (late Bengal), has been assigned local rank as lieut.-col. in India, with effect from Dec. 9, 1876.

Lieut.-Col. H. V. Timbrell, D Brig., R.H.A. (late Bengal), has qualified for promotion as brevet col. from the 21st inst. Col. Timbrell joined the Service June 7, 1844, and served at the defence of the Alumbagh and siege of Lucknow (medal with clasp).

Major J. F. Betty, 2nd Brig., who has been for some time past employed as a capt.-instr. at the School of Gunnery, is ordered to be in readiness to assume command of a battery.

Major H. L. Mitchell, R.A., has been called upon to vacate his appointment as brigade-major of the School of Gunnery at Shoeburyness, on promotion, and to assume command of a battery.

Lieut.-Col. C. C. Teesdale, V.C., C.B., though posted on his recent promotion to a brigade of Royal Artillery at Halifax, Nova Scotia, is, the *Whitehall Review* hears, to be allowed to remain in England, in order that he may be able to continue the performance of his duties in the suite of H.R.H. the Prince of Wales.

The 24th Brig., formed two years ago, is, the *Irish Times* says, the one selected to proceed to India with the 1877-78 reliefs.

ROYAL ENGINEERS.

Lieuts. J. S. Nicholson and H. S. F. Haynes have been granted furlough from India to England—the former for two years on private affairs, the latter for one year on medical certificate.

Brevet Col. R. S. Sellon (late Bombay) died on the 22nd inst., *en route* to England from India, aged forty-four years. He joined the Army June 14, 1850; become first lieut., Aug. 1, 1854; capt., Aug. 27, 1858; lieut.-col., May 15, 1870; and brevet-col., May 15, 1875. Col. Sellon's death promotes Major C. T. Haig and Capt. A. R. Seton.

GRENADIER GUARDS. "Field Officer" writes to the *Times*: —"I served for eighteen years as an officer in one of the strictest regiments in the Service, commanded by the late Lord Clyde, and as I am certain that in that corps such a murder as that committed by the convict Michael M'Connon could not have occurred, I plead for this man's pardon through your columns, which are always open to the relief of the distressed, on account of his having been herded with other prisoners in the furiously drunken state in whiah he was, contrary to the Queen's Regulations, section 6, paragraph 30. That the murder in question was a most brutal one is undeniable, but I trust that you will agree with me in thinking that M'Connon's case is one for the merciful consideration of the Home Secretary."

COLDSTREAM GUARDS. The officers have caused a handsome window to be erected in Holy Trinity Church, Windsor, to the memory of the late Lieut.-Col. Harvey Tower, Surg.-Major Wyatt, C.B., and Lieut. the Hon. Alfred Charteris. The work has been executed by Messrs. Clayton and Bell, and represent the figures of Joshua, David, Gideon, and St. Matthew.

2ND QUEEN'S. Major Phillipps, 2nd Batn., has been appointed to the Brigade Depôt at Guildford for duty. Sergt.-Major Blackwood, 2nd Batn., has been appointed garrison sergt.-major at Aldershot.

3RD BUFFS. Capt. Halahan and Sub-Lieut. Chippindall, 1st Batn., sailed yesterday for India in H.M.S. Jumna, to rejoin head-quarters—Capt. Halahan from depôt duty, Sub-Lieut. Chippindall from leave.

5TH FUSILIERS. Lieut. Frend sailed in the Jumna yesterday for India to join the 1st Batn. on appointment from the North Tipperary Militia.

6TH REGIMENT. Capt. Jones and Lieut. Maunsell left England yesterday for India in H.M.S. Jumna, to join the 1st Batn.—Capt. Jones on appointment from the Half-Pay List, and Lieut. Maunsell on exchange from the 2nd Batn.

7TH FUSILIERS. Capt. Smith left England yesterday for India in the Jumna to join the 2nd Batn., on appointment from half pay. Lieut. Mallock, 2nd Batn., has been assigned local rank as captain in India, with effect from July 17, 1875.

9TH REGIMENT. Brevet Major Burland, 2nd Batn., arrived home from India on Saturday last in H.M.S. Serapis. Sub-Lieut. Williams, 2nd Batn., on becoming a candidate for the Indian S.C., has been appointed to duty with the 27th Bengal N.I.

11TH REGIMENT. The command of the 1st Batn. will shortly be vacant by the retirement of Col. Roe, and Col. Crompton-Stansfield will vacate command of the 2nd Batn. before its embarkation for India. Sub-Lieut. D'Oyly, 1st Batn., has qualified for promotion.

12TH REGIMENT. Brevet Major Baker, Capt. Phillips, and Lieuts. French and Fraser, 1st Batn., sailed yesterday for India in H.M.S. Jumna to join head-quarters. Lieut. Baker, 2nd Batn., has been assigned local rank as captain in India, with effect from April 12, 1876.

14TH REGIMENT. Lieut. Mills sailed for India yesterday in the Jumna to join head-quarters on appointment from the Royal London Militia.

15TH REGIMENT. Major Dashwood sailed yesterday for India in H.M.S. Jumna to join the 2nd Batn., on promotion from the 1st Batn.

16TH REGIMENT. Major Wetherall left England yesterday in H.M.S. Jumna for India, to join the 2nd Batn. from the regimental depôt on promotion.

17TH REGIMENT. Local rank has been assigned to the following officers on the arrival of the 2nd Batn. in India, viz.:—Major Boyd, to be lieut.-col., from Nov. 22, 1876; Capt. Davern, to be major, from March 13, 1875; Capt. Hunt, to be major, from Dec. 21, 1875; Capt. Dunning, to rank as capt., from March 5, 1873; Lieut. Mansergh, to be capt., from Sept. 2, 1874; Lieut. Parkinson, to be capt., from Jan. 22, 1875. Sub-Lieut. Brownlow, 1st Batn., on becoming a candidate for the Indian S.C., has been appointed to duty with the 31st Bengal N.I.

19TH REGIMENT. The head-quarters and service companies of the 2nd Batn. arrived home from India on Saturday last in H.M.S. Serapis, and landed on Monday and took over quarters in Gosport Forts. The officers who returned in the Serapis were Col. Chippindall, C.B., Brevet Lieut.-Col. Barrett, Major Anderson, Brevet Major Williams; Capts. Iles, Trotter, and Thornhill; Lieuts. Oakes, Cameron, Roche, Langford, Barnard, C.M.G., Burnett, Sharpe, Hallifax, Simpson, Briggs, Franklyn, and Bruce (adjt.); Paymr. (Major) Hughes, Qrmr. Hunt, and Surg.-Major Hiffernan. A correspondent writes:— "I see it stated by one of your correspondents on the 20th inst., under the head of 14th Regt., that Capt. Borton is the only officer (not risen from the ranks) who served in the Crimea in 1854 without brevet rank. I beg to state that Capt. Evans, 19th Regt., adjutant of the North York Militia, also served in the Crimea in 1854, did not rise from the ranks, was severely wounded at the taking of the Quarries in 1855, and served as brigade-major in the Hazara campaign of 1868, and was honourably mentioned in dispatches, and still sees no chance for years of a brevet majority. I presume the mistake has arisen by Capt. Evans being shown in Hart's 'Army List' as having served in the Crimea from Jan. 5, 1855, which is an error, as he landed on Dec. 24, 1854."

21st Fusiliers. Lieut. Lowry sailed yesterday for India in the Jumna to join the 1st Batn. on appointment from the Royal Tyrone Fusiliers.

22nd Regiment. Lieut. Mein, 2nd Batn., sailed yesterday in the Jumna for India, to rejoin head-quarters from leave.

25th Regiment. "Linesman" writes:—"Allow me to call attention, through the medium of your columns, to the following circumstance. Very recently a captain in a Line regiment went on half pay, taking a company in the Militia. These steps, as a rule, are filled up from the Half-Pay List, and in the case to which I allude a man of considerable service was brought in; but, instead of his being posted to the regiment in which the vacancy occurred, he is sent to a certain West India regiment, while a young captain of only a little over ten years' service is sent from the West India regiment to the Line regiment, over the heads of the four senior subalterns, the senior of whom has over twelve years' service, and of the other three one is now, and another was for some time, adjutant of his regiment. I have long ceased to be a subaltern myself. I am, therefore, in no way interested; but I like to see fair play, and I am inclined to believe that this act of very great injustice is not wilful, but purely a mistake on the part of the War Office. The injustice, I am sure, will be all the more keenly felt when the subalterns above alluded to see, on reference to the 'Army List,' that many of the subalterns recently promoted in other regiments have only a little over nine years' service, while the junior of the above four has over ten."

31st Regiment. Sergt.-Major Fisher and the sergeants gave their annual quadrille party on the 19th inst. in the Gymnasium, Portland. The room was tastefully decorated. Great credit is due to Sergt. Dudley, who officiated as M.C. The guests arrived about 8.30 p.m., and dancing was kept up until an early hour. Capts. Gardiner, Chadwick, and Lieuts. Frodsham-Martin and Duntze were present during the evening. The regiment is already ten men per company below its strength. Sub-Lieut. Pigott, 1st Tower Hamlets Militia, is attached to the regiment for drill and instruction for two months.

32nd Light Infantry. The death is announced of Sir E. A. T. Cunynghame, Bart., late capt. The deceased entered the Army Oct. 5, 1855; became lieut., Feb. 26, 1856; capt., March 11, 1859; and retired from the regiment in 1864 by sale of his commission.

39th Regiment. Col. Currie, Capt. Stephens, and Lieut. Le Marchant arrived home from India on Saturday last in H.M.S. Serapis. Capt. Clarkson left for India yesterday in the Jumna to rejoin from the depôt.

40th Regiment. Lieut. Browne has passed the higher standard examination in Hindostanee.

42nd Highlanders. Brevet Lieut.-Col. Macpherson, C.B., who has been for some time on leave, sailed for Malta on Thursday to rejoin head-quarters. Lieut. Elliot has also left for Malta.

43rd Light Infantry. Capt. Pearson has relieved Capt. Longley as commandant of the Ramandroog Convalescent Depôt, with effect from the 1st inst. Lieut. Rivett-Carnac arrived home from India on Saturday in H.M.S. Serapis.

44th Regiment. Lieuts. Edgcumbe and Ellis sailed for India yesterday in the Jumna—Lieut. Edgcumbe to rejoin from leave, and Lieut. Ellis to join on appointment from the 2nd Tower Hamlets Militia.

48th Regiment. Lieuts. Dodd and Whieldon have sailed for India in the Jumna—Lieut. Dodd to rejoin head-quarters from the depôt, and Lieut. Whieldon to join on appointment from the Royal Sussex Militia.

Royal Marines.

Leave of absence has been granted to the following officers viz.:—Lieut. A. H. Des Barres, two months; Lieut.-Col. and Brevet Col. J. W. A. Kennedy, one month in extension; Capt. G. Johnson, one month, from 24th inst.; Lieuts. H. M. Clements, one month; F. A. Newington, two months; R. P. Coffin, until required for embarkation; and Capt. G. M. S. Douglas, three months in extension, for the benefit of his health.

Lieut. Coffin and four privates are under orders to embark in the packet of the 9th proximo at Southampton for passage to the Falkland Island, *viâ* Monte Video.

Lieut. James Lecky has been promoted to captain at the Plymouth Division, dated Jan. 17, 1877, vice Morris, retired.

Capt. B. G. Hall has been permitted to retain his appointment of military instructor to the R.M.A. for a further period of two years from the 10th inst.

50th Queen's Own. Capt. Baker has been directed to attend before a medical board at Kinsale preparatory to his appointment to the adjutancy of the West Kent Militia.

51st Light Infantry. Lieut. Lloyd sailed for India yesterday in the Jumna, to join on appointment from the 1st Royal Middlesex Militia.

54th Regiment. Capt. Phibbs has been noted for appointment to the Auxiliary Forces as adjt. Lieuts. Yeilding and Nugent sailed for India yesterday in the Jumna to join on appointment—the former from the Royal Limerick County, the latter from the Royal South Down Militia.

55th Regiment. On arrival home from Aden, the regiment will take over the quarters at Parkhurst, Isle of Wight, which had been made ready for the 2nd Batn. 19th.

59th Regiment. Sub-Lieut. Bloomfield has qualified for promotion.

60th Rifles. Major Hatchell sailed in the Jumna yesterday for India to join the 4th Batn., on promotion from the 3rd Batn. Lieut. Sandford, 2nd Batn., has passed the higher standard examination in Hindostanee.

63rd Regiment. Lieut. Smith sailed for India yesterday in the Jumna to join on appointment from the North Cork Militia.

65th Regiment. Lieut. Rutherford and Sub-Lieut. Plumer left England yesterday for India—the former to rejoin from depôt duty, the latter to join on appointment.

66th Regiment. Lieuts. Mackinnon, Fosbery, and Hon. C. P. Jervis sailed for India yesterday in the Jumna—Lieuts. Mackinnon and Fosbery to rejoin from leave, and Lieut. Jervis to join on appointment from the 2nd Derby Militia.

67th Regiment. Lieut. Wardlaw-Ramsay has arrived home from India in H.M.S. Serapis, on leave on medical certificate.

68th Light Infantry. Sub-Lieuts. Way and Burn have qualified for promotion.

72nd Highlanders. Lieut. Campbell left yesterday for India to join on appointment from the Royal Flint Militia.

73rd Regiment. Lieuts. Field and O'Grady left yesterday for India in the Jumna to join on appointment, respectively from the 2nd Warwick and South Cork Militia. Sub-Lieut. Bull, having passed the higher standard examination in Hindostanee, has been appointed interpreter.

81st Regiment. Capt. Jackson has been assigned local rank as major in India, with effect from Dec. 5, 1876. Capt. Faircloth sailed for India yesterday in the Jumna to join on being relieved at the depôt by Capt. Armstrong. The appointment of Lieut. Young to the 1st Bengal N.I. as a probationer for the Indian S.C. has been cancelled on the officer's departure for England on sick leave.

82nd Regiment. We regret to learn of the death, which occurred some days since, of Surg.-Major J. H. G. Meares, who has been in medical charge since Feb., 1870.

83rd Regiment. Qrmr. M'Quade sailed yesterday in the Jumna for India to rejoin from leave in England.

85th Light Infantry. Lieut. Ives sailed for India yesterday in the Jumna to join from the regimental depôt.

86th Regiment. Lieut.-Col. Jerome has proceeded on leave of absence till March 14, but it is not expected that he will return to duty, as his five years' tenure of command will expire on the 6th of that month. It is almost certain that Major Adams, an officer of thirty-one years' service, will succeed to the command.

88th Connaught Rangers. Surg.-Major R. E. Heath, who had been ordered to hold himself in readiness to embark for Bengal, has been declared medically unfit for foreign service.

92nd Highlanders. Lieut.-Col. Parker and Lieut. Wright left for India yesterday in H.M.S. Jumna—Col. Parker to assume command from leave, and Lieut. Wright to join on appointment from the Highland Rifle Militia.

98th Regiment. Lieut. Chapman sailed on Thursday for Malta to rejoin from leave.

101st Fusiliers. Lieut.-Col. Delafosse has left England for Malta to resume command from leave.

102nd Fusiliers. The *Irish Times* hears that Brevet Major Bruce has applied for permission to retire from the Service, receiving the value of his commission.

108th Regiment. Major Gordon arrived home from India on Saturday last in H.M.S. Serapis to join head-quarters at Portsmouth.

Rifle Brigade. Col. Manningham-Buller will not resume command of the 1st Batn. It is understood that he will obtain command of a Brigade Depôt, and it is considered probable that he may be offered one of the vacancies about to be created. Brevet Major Wilson sailed yesterday for India to join the 4th Batn. on appointment from the Half-Pay List.

Commissariat Department. The *Irish Times* says:— "The Russian Commissariat and Transport Corps has been found wanting, and it may not be out of place to call the attention of Parliament to the condition of our own. Of its efficiency, as far as it goes, we need anticipate no failure, if put to the test, but the utter stagnation of promotion, with no prospect whatever of increased pay, and the inadequacy of the pay itself, render the position of its officers, without going into individual grievances, one of despair, and not calculated to lead to the display of that zeal the wholesome inducements to which are so desirable to make any large body of officers morally and healthfully efficient and earnest in the discharge of their duties. At the present time, to give but one illustration of the many that might be adduced, we may state there are about ninety officers of the Commissariat receiving, after fifteen, twenty, and thirty years' service, salaries only 5s. per diem more than the young men who entered it only two years ago, with no possible increase of pay, under the present Warrant. Most of these old officers are married, and have families to educate and provide for, with all the necessaries of life increased 40 per cent. in price. In civil life salaries have increased in ratio with the cost of living. These Government officials are not permitted to combine or memorialize, and individual cases receive no attention beyond the empty assurance of 'consideration,' which never comes, or only, at most—

> Keeping the word of promise to the ear,
> But breaking to the hope.

It requires the aid of some independent member of Parliament to take up their case, to have their grievances respectfully submitted, and, if these are found really to exist, to apply the remedy, which will easily suggest itself, and to do simple justice to a large and useful body of men, without whose earnest and experienced service an army in the field could not exist for a day, for it is an obvious but a generally forgotten truth of the elder Napoleon 'that an army moves on its belly.' What Plimsoll has been to the merchant service is the man the Commissariat requires to secure the investigation of their grievances and the improvement of their position. The combatants have had their case considered, the Medical Department have had their grievances redressed and a new Warrant isssued; the chaplains have been similarly benefitted, and the Commissariat alone is left unimproved. There are two very simple ways in which some amelioration in this department can be effected, both, it is true, involving expense; but the public is not unreasonable, nor a hard task-master, nor unwilling to give the labourer the worth of his service. The two modes of remedying the 'forlorn hope' of these officers are—First, to increase their pay to the ratio of that given in civil life and proportionate to the present high price of living with periodical increment—failing promotion—say every three or five years. Second—To offer a fair retirement to those who have completed, say, twenty years' efficient service, and thus give a chance of promotion to the juniors the senior of whom, according to a military paper, may, under the present system, expect promotion about seventy-five years hence. Very many would gladly accept this retirement now, who, before being thoroughly worn out in body and mind, could secure some employment in civil life, which with their pension (not an unreasonable thing to expect after twenty years' service in all climates) would enable them to provide for their families before old age overtakes them, and they become the miserable spectacle the wise man speaks of— 'One of the two things which grieve my heart—a man of war that suffereth poverty.'" Depty.-Comy. R. Squarey died at West-hill, Wandsworth, on the 23rd inst., aged thirty-five years. The deceased was appointed to acting rank April, 1861, and confirmed Aug., 1862. He had served in the West Indies, whence, in 1863, he proceeded to the Gambia and Sierra Leone. He returned home in 1865, and again proceeded to West Africa in 1866, and remained until 1869. From 1869 to 1870 he was employed in London, from 1870 to 1872 at Aldershot, and had since done duty in Scotland.

Medical Department. Surg.-Major A. N. Fox, M.B., has succeeded to the appointment of Principal Medical Officer of the African Branch, vice Surg.-Major A. F. Elliot, M.D., retired upon half pay.

Veterinary Department. The following rule was established by the Secretary of State for India in 1873, and approved by his Royal Highness the Field-Marshal Commanding-in-Chief:—"That a qualification of a minimum service in India, of three years, be in future required in the case of all Staff veterinary surgeons nominated for employment in that country." In consequence of the rule in question not having been promulgated to the veterinary surgeons of the Army at the time, the *Irish Times* is informed that the Secretary of State for India, on the recommendation of his Royal Highness, has approved of a slight relaxation of its conditions at present, until the officers have had time to qualify, with the distinct understanding that the three years' rule will be strictly enforced hereafter.

Chaplains' Department. At the monthly meeting of the Society for the Propagation of the Gospel, Bishop Claughton in the chair, a hearty God-speed was given to Archdeacon Wright, late senior chaplain, who is going out to work under Bishop Hills in British Columbia. The Chaplain-General, officers, and clergymen vied with one another in bearing testimony to his zeal. It was stated that some £1,500 had been raised for a missionary college in the diocese, Bishop Hills having contributed his Yarmouth testimonial money, which during the many years of his episcopate had never been touched, and had accumulated, while Archdeacon Wright's friends had raised the remainder. The society will give a grant.

THE AUXILIARY FORCES.

MILITIA.

2nd Royal Surrey. At the meeting of the Anthropological Institute on the 23rd inst., Col. Lane Fox, F.R.S., President (in the chair), read his report to the Anthropometric Committee of the British Association on the 2nd Royal Surrey Militia. The measurements—which comprised the profession, race, origin, age, height, weight, chest measurement, colour of hair and eyes, and strength of arm, &c.—of 457 individuals afforded some interesting facts concerning what might be called a fairly representative number of men from within a radius of twenty miles round Guildford. It appeared that the colour of the hair was in 391 cases brown or dark brown, and in only two cases black and in two cases red, one of the latter being Irish. As to eyes, 311 were grey, light blue or blue, 133 brown or dark brown. Col. Fox proposed some modifications of the existing tests of strength of arm and sight; suggesting that in the first the test should be the same as in drawing a bow, neither hand being in any way supported, and the pull being from an object not fixed. From a table of twenty comparative cases, the average of strength showed in the case of pulling from a fixed point 165·55lbs., while the same men pulling with the one hand against the other only 81·95lbs. From the general results, Col. Fox considered that the muscular strength, vital capacity, &c., of our Reserve and Regular Forces would show very favourably in comparison with those of the ordinary population, and so dispose of some of the frequent alarms given by the "man in the street" as to the deterioration of our forces in physique.

Royal Cork City Artillery. A battery has become vacant by the death of Capt. D. Goold. Capt. Goold entered the regiment Feb. 5, 1873, and became capt. March 10, 1875.

South Cork. Lieut. Beamish has obtained a first-class extra certificate from the School of Musketry, Hythe, and has been recommended for the musketry instructorship.

South Mayo Rifles. It is in contemplation to remove the head-quarters from Westport to Castlebar.

Waterford Artillery. Hon. Major Mulcahy has been recommended for the majority vacant by the promotion of Major Keane.

3rd Royal Jersey. On the occasion of the annual dinner of the officers a few evenings ago, a handsome eight-day marble clock with bronze mounts was presented to Sergt.-Major Le Sauteur, in recognition of his services.

According to the *Morning Post*, "the officers commanding thirty-six Militia regiments will be permitted to recommend two lieutenants of their corps during the year 1877 for commissions in the Army as second lieutenants. There are also seventy other Militia regiments the commanding officers of which may recommend one lieutenant each. These lieutenants must be within the ages of nineteen and twenty-two on May 1, 1877, except in the case of an officer who entered between Feb. 16 and Nov. 1, 1871, in which case he would be eligible to the age of twenty-three. Before a lieutenant of Militia can obtain a commission in the Army he will have to serve two trainings and pass an examination in field exercises, rifle drill, and other subjects."

The vacancy among the Queen's aides-de-camp, caused by the death of Col. Clement Hemery, will be filled from the list of the Royal Jersey Militia, and not from the general list of the Channel Islands, as we see it suggested.

YEOMANRY.

The Woolwich correspondent of the *Morning Post* states that "a Circular issued from the War Office directs that the Auxiliary Cavalry and mounted Rifle Volunteers are to adopt the system of drill ordered for the Cavalry in the regulations of last year. The following drills and manœuvres laid down in the Cavalry regulations will not be practised by the Auxiliary Cavalry or Mounted Rifles:—Marches from centre to front and rear in double columns of sections, formations to the rear, counter march, the formation of close columns, ranking past by sections, cantering past by squadrons, and a few other movements from line."

VOLUNTEERS.

3rd Middlesex Artillery. Capt. Stevens has been presented by the members of his battery with a handsome loving-cup, in silver, elegantly chased, "as a slight mark of the respect and esteem in which he is held by all connected with him." A dinner, to celebrate the occasion, was given to Capt. Stevens, who was surrounded by the officers and members of his battery.

1st Adm. Batn. East York Artillery.—Capt. M. C. Newall, R A., has been granted an extension of his term of service as adjt. for twelve months from the 29th inst.

London Rifle Brigade. Lieut.-Col. G. Warde, late lieut.-col. commandant, died at Squerryes-court, Westerham, on the 23rd inst., aged fifty years. Col. Warde was appointed to the command April 16, 1862, and retired two years ago in consequence of ill-health. He served for several years in the 51st Foot.

The following reports have been published:—"The Commandant, School of Gunnery, Shoeburyness, to the Deputy Adjutant-General, Royal Artillery. Horse Guards, Aug. 14, 1876.—Sir,—In forwarding to you, for the information of H.R.H. the Field-Marshal Commanding-in-Chief, the enclosed report from Col. Godby, R.A., Camp Commandant during the meeting of the National Artillery Association this year, I beg to endorse, to the fullest extent, all that that officer has reported in respect to the excellent discipline, order, and regularity that have prevailed throughout the meeting, and in doing so would most respectfully express to his Royal Highness the satisfaction it gives me to place Col. Godby's name once again before him, as conducting the delicate and important duties assigned to him by his Royal Highness in a most satisfactory manner. I now trust his Royal Highness will permit me to place before him the following observations on the present condition of this portion of the Auxiliary Force, based upon a practical acquaintance with its constitution and working for a period of nine years. Its condition, then, as represented by that portion of it assembled here this year, amounting to upwards of 1,400 officers, non-commissioned officers, and men, and composed of detachments selected from England, Scotland, and Wales, points to an abiding and steadily increasing interest in the duties allotted to them, and an earnest desire to perform satisfactorily the service expected of them, but which has not this year been attended with the results to be expected, for their service and shooting was unquestionably inferior to what it has been on previous occasions.—I have, &c. (signed) E. H. Fisher, Col. and Commandant. Col. Godby, R.A., to Commandant of School of Gunnery, Shoeburyness, Aug. 12, 1876.—Sir,—I have the honour to forward my report, as commandant of the camp of Volunteer Artillery assembled at Shoeburyness during the past fortnight. This being the second occasion on which the meeting was extended over two weeks, I have only to say that the extension of time has proved as advantageous to the Volunteers, and to all others connected with the meeting, as on the previous year. The ordinary duties of the camp have been performed by both officers and men to my entire satisfaction, and the conduct and discipline of all ranks have been all that I could wish. As usual, during the meeting, the Volunteers have been drilled at most of the guns and machines in use in the Service, and they have shown a desire to learn as much as possible of the duties of an Artilleryman during the short time allowed for these exercises. My best thanks are due to Major Ray, 3rd Middlesex V.A., the brigade-major, to Capt. Engelbach, 1st Surrey V.A., the camp-adjutant, also to Qrmr. Cox, R.A., and the different members of the brigade Staff, for the great assistance they have rendered me by the assiduous manner in which they have performed their several duties. The messing and commissariat arrangements of the camp were, as on former occasions, under the charge of Capt. Hunter, late adjt. Cinque Ports V.A., who performed his duties to the satisfaction of all concerned. The health of the camp has been good.—I have, &c., (signed) J. Godby, Lieut.-Col., R.A., and Col."

THE INDIAN ARMY.

12th Bengal Cavalry. Lieut. Wood, 4th Hussars, second squadron subaltern, is about to be admitted to the Staff Corps, for which he has been some time a probationer.

16th Bengal Cavalry. Lieut. W. F. Montresor, 10th Hussars, being a candidate for the Indian S.C., has been appointed to the regiment as officiating second squadron subaltern.

17th Bengal Cavalry. Surg. D. P. Macdonald, M.D., in medical charge of the 26th N.I., has been appointed to the medical charge.

1st Bengal N.I. Capt. G. Atkins, wing officer, has qualified for promotion to a substantive majority.

11th Bengal N.I. Major P. H. F. Harris, second in command, has qualified for promotion as lieut.-col.

16th Bengal N.I. Capt. A. F. Taylor, wing subaltern, is about to return to India, to resume duty from leave.

18th Bengal N.I. Surg.-Major H. Potter has been appointed medical officer, from the 17th Bengal Cavalry.

26th Bengal N.I. Surg.-Major A. K. Reed has been appointed medical officer, vice Surg. Macdonald, transferred to the 17th Bengal Cavalry.

27th Bengal N.I. Sub-Lieut. G. A. Williams, 9th Foot, a probationer for the Indian S.C., has been appointed officiating second wing subaltern.

31st Bengal N.I. Sub-Lieut. C. B. Brownlow, 17th Foot, a candidate for the Indian S.C., has been appointed officiating second wing subaltern on probation.

34th Bengal N.I. Major G. J. Pasley, second in command, has qualified for promotion as lieut.-col.

39th Bengal N.I. Major F. Gellie, second in command, officiates as commandant in the absence of Col. G. W. Fraser on leave.

45th Bengal N.I. Capt. W. E. Chambers, Bengal S.C., has been appointed officiating wing officer, vice Capt. C. N. Hodgson, appointed station Staff officer, Ferozepore, and during such time as Capt. A. D. C. Inglis may officiate as second in command during the absence on furlough of Major F. M. Armstrong. Capt. T. F. Stillwell, officiating wing subaltern, has arrived home from India on leave.

1st Punjab Infantry. Capt. L. R. Campbell, adjt., has been granted leave from India to England for two years.

6th Punjab Infantry. Major B. R. Chambers, commandant, has qualified for promotion as a substantive lieut.-col. Major Chambers has arrived home from India on leave.

2nd Madras Light Cavalry. Surg.-Major B. T. Suffrein, from 35th N.I., has been appointed to the medical charge.

4th Madras N.I. Capt. G. Thomas, wing subaltern, is about to return to India to resume duty from leave.

7th Madras N.I. Lieut. A. B. Hibgame, 109th Regt., having become a probationer for the Indian S.C., has been appointed first wing subaltern,

23rd Madras N.I. Capt. J. H. Gordon, wing subaltern, has been appointed qrmr.

39th Madras N.I. Capt. R. H. T. Hill, qrmr., is about to return to India to resume duty from leave.

3rd Bombay N.I. Capt. L. F. Heath, adjt., has been granted leave to England for two years.

21st Bombay N.I. Lieut.-Col. W. Bannerman, second in command, returned to duty in India on the 21st ult., from leave in England.

The Navy Gazette.

ADMIRALTY, Jan. 20, 1877.

Nav.-Lieut. T. F. Thomas has been transferred to the list of Lieuts. in H.M.'s Fleet, with seniority of Oct. 13, 1876.

January 24, 1877.

Royal Marines—The undermentioned promotion has taken place in the Royal Marine Light Infantry, consequent on the retirement, under the provisions of her Majesty's Orders in Council of Feb. 22, 1870, and Feb. 5, 1872, of Capt. and Brevet Major U. L. Morris, viz.:—Lieut. J. Lecky to be Capt.; Jan. 17, 1877.

The Army Gazette.

INDIA OFFICE, January 24, 1877.

Where not otherwise specified, the following commissions and announcements bear date Jan. 25, 1877:—

Her Majesty has been pleased to approve of the following promotions amongst the officers of the Staff Corps and of her Majesty's Indian Military Forces made by the Governments in India:—

BREVET.

To be Majors—Capt. C. C. Morris, Madras Cavalry; Oct. 20, 1876. Capt. H. S. Daniell, Bombay Cavalry; Nov. 4, 1876.

Substantive Promotions.

BENGAL STAFF CORPS.

To be Captains—Lieuts. E. S. Cooke, Nov. 11, 1876; and M. Armstrong, Nov. 22, 1876.

MADRAS STAFF CORPS.

To be Major—Capt. C. C. Hewetson, Nov. 4, 1876.

Her Majesty has been pleased to approve of the following admissions to the Staff Corps made by the Governments in India:—

BENGAL STAFF CORPS.

To be Lieuts.—Lieuts. L. M. Boileau, 109th Regt., Oct. 28, 1871; G. E. Money, 16th Lancers, Oct. 28, 1871; D. Chesney, 15th Regt., Oct. 28, 1871; F. S. Gwatkin, 73rd Regt., March 27, 1872.

A REVIEW AT DELHI.

The Commander-in-Chief, Sir F. Haines, held a grand review of all the troops in camp at Delhi, on the 22nd ult., before the native Princes assembled for the Durbar. These consist of the escort of his Excellency the Viceroy, a Cavalry division, an Artillery division, and two Infantry divisions, which are composed as follows:—Brigdr.-Gen. R. Hume, C.B., commanding; Capt. W. R. Hamilton, 4th B.C., brigade-major; Surg.-Major J. Tulloch, B.M.D., P.M.O.; A Bat. C Brig Royal Artillery, 11th Hussars, 6th Foot, 3rd Bombay L.C; 11th Madras N.I.

Cavalry Division.

Major-Gen. C. T. Chamberlain, C.S.I., commanding; Capt. H. S. Higginson, R.A., aide-de-camp; Major Clarke, 4th Hussars, assist. adjt.-gen.; Capt. R. G. Kennedy, Staff Corps, assist. qrmr.-gen.; Surg.-Major H. F. Williams, I.M.D., P.M.O.

1st Brigade.—Col. C. H. Palliser, C.B., 10th Lancers, commanding; Capt. Abadie, 9th Lancers, brigade-major; 10th Hussars, 4th Bengal Cavalry.

2nd Brigade.—Col. J. C. Graves, C.B., 3rd Bombay L.C., commanding; Capt. Luck, 15th Hussars, brigade-major; 3rd Madras L.C., 3rd Punjab Cavalry.

3rd Brigade.—Lieut.-Col. Annesley, 11th Hussars, commanding; Capt. S. D. Barrow, 10th Bengal Lancers, brigade-major; 15th Hussars, 10th Bengal Lancers, 18th Bengal Cavalry.

Artillery Division.

Col. C. R. O. Evans, commanding; Major C. E. Nairne, assist. adjt.-gen.; Col. J. E. Mitchell, commanding R.H.A.; Col. W. J. Gray, commanding Field Artillery; Surg.-Major E. Y. Kellet, B.M.D., P.M.O.; F F Brig. R.H.A., B 8th Brig. R.A., D 8th Brig. R.A., F 8th Brig. R.A., G 11th Brig. R.A., A 19th Brig. R.A., 7 21st Brig. R.A.

First Infantry Division.

Major-Gen. Sir J. Brind, K.C.B., commanding; Capt. M'Ewen, 92nd Highlanders, aide-de-camp; Major W. Galbraith, 85th Light Infantry, assist. adjt.-gen.; Capt. E. F. Chapman, R.A., assist. qrmr.-gen; Capt. D. J. S. Macleod, Madras Cavalry, depty.-assist. qrmr.-gen.; Surg.-Major J. Hendley, B.M.D., P.M.O.

1st Brigade.—Brigdr.-Gen. M. A. S. Biddulph, C.B., commanding; Capt. Tarleton, 54th Regt., brigade-major; Volunteer Battalion 2nd Sikh Infantry, 23rd N.I.

2nd Brigade—Brigdr.-Gen. Kempster, Madras S.C., commanding; Capt. Coningham, Madras S.C., brigade-major, 39th Foot, 9th N.I., 20th Madras N.I.

3rd Brigade—Brigdr.-Gen. Macpherson, C.B., V.C., commanding; Capt. Gregory, 3rd Goorkhas, brigade-major, 60th Rifles, 2nd Goorkhas, 3rd Goorkhas.

Second Infantry Division.

Major-Gen. the Hon. A. E. Hardinge, C.B., commanding; Capt. Langtry, 15th Hussars, aide-de-camp; Lieut.-Col. Chester, Bombay S.C., assist. adjt.-gen.; Capt. King Harman, Bombay S.C., assist. qrmr.-gen.; Surg.-Major Hutchinson, I.M.D., P.M.O.

1st Brigade—Bridgr.-Gen. Browne, commanding; Capt. Collis, Bombay S.C., brigade-major; 59th Foot, 8th N.I., 39th N.I.

2nd Brigade—Bridgr.-Gen. Phayre, C.B., Bombay S.C., commanding; Lieut. Cooke-Collis, 83rd Foot, brigade-major; 63rd Foot, 16th Bombay N.I., 24th Bombay N.I.

3rd Brigade—Brigdr.-Gen. O. E. Rothney, C.S.I., Bombay S.C., commanding; Major W. Keugh, 12th Foot, brigade-major; 92nd Highlanders, 12th N.I., 40th N.I.

The whole of these troops were on the ground, and, in addition, one hundred of the Hyderabad Cavalry and 200 of the Hyderabad Infantry. Sir Frederick Haines, attended by a brilliant Staff, arrived about half-past 10, and received the general salute. The regiments then took up brigade order, and his Excellency inspected them separately, the men standing to order, and the band of each regiment playing as the chief and his Staff rode past. Subsequently the troops marched past in double columns to such tunes as "God Bless the Prince of Wales," "Maid of Athens," "March of the Men of Harlech," "The Girl I Left Behind Me," &c., and the Infantry returned in brigade order, followed by the Artillery and Cavalry at a trot, and finally in brigades at a smart gallop. The ground was awkward and uneven, and especially troublesome to the Artillery when at speed, but all the regiments maintained fairly good order, and the proceedings were not marked by any unpleasant *contretemps*. The English Infantry regiments and the Hussars went past in splendid style, the 92nd Highlanders especially being remarked for the firm, unbroken line they kept throughout. The march past in columns occupied exactly an hour, and the whole proceedings extended over three hours and a-half. There was a large attendance of spectators, including a considerable number of ladies, many of whom had chosen to undergo the fatigues and inconveniences of camp life for a season to enable them to take part in the general festivities. Many of the native chiefs and their followers were present and were much struck with the admirable training of the troops, as was shown by frequent exclamations. The native regiments were also much admired, and many seemed surprised to find their own countrymen so nearly equal in discipline to the Europeans.

Although the War Office and India House authorities have it in contemplation to augment the strength of the English Cavalry regiments serving in India, they do not intend to increase the rank and file of the Infantry battalions stationed in the East. The reason for this is that with the present transport service through the Suez Canal, and railways all over India, men can in these days be taken from Portsmouth to our far North-West frontier of India in thirty-two or thirty-three days. But with a mounted force it is otherwise. Horses must be broken in and trained in the country itself; and in the event of a war there, our Cavalry regiments, at their present strength, would be utterly deficient in the field. —*Whitehall Review*.

One hundred and fifty half-pay officers have offered their services to Colonel Valentine Baker in the event of war breaking out between Turkey and Russia, and several of these officers have received intimation of the willingness of the Sultan to give them commissions. Last week six of them left London for Turkey to take command of Cavalry regiments. —*Vanity Fair*.

The *Western Daily Mercury* announces the transfer of Brevet Major J. L. Moore, half pay, late 34th Regt., from Ipswich to Taunton as Staff Officer of Pensioners, vice Brevet Major H. G. E. Somerset, half pay, late 3rd Buffs.

The *Standard* states that "a new form of attestation is now being introduced for the swearing-in of recruits, in which the questions are more definite than was the case formerly. The question, 'Have you ever served in the Army, Navy, Marines, or Militia?' is now divided into four parts, thus obviating in future subterfuges by which fraudulent recruits have been enabled to conceal part of the truth, and to deceive the authorities with impunity."

The undermentioned sub-lieutenants from the Royal Military College are under orders to join at Aldershot to complete their course under garrison instructors, commencing on the 1st prox., and will be attached to classes and brigades as follows:—Major Pitt's Class—H. D. Robson, to be attached to 2nd Brig.; D. de la M. du Boulay, C. M. Grenfell, A. G. Chapman, J. Weyland, W. B. Mynors, E. Hegan, S. W. Richmond, A. E. Caldecott, C. Stevens, Hon. L. H. D. Fortescue, S. Furlonger, to be attached to Cavalry Brig. Capt. Shaw's Class—T. A. Steele, to be attached to Cavalry Brig; C. J. Robinson, A. R. Heneage, C. G. Taylor, to be attached to 2nd Brig.; H. G. P. Beauchamp, R. H. W. Dunne, E. Brooke, F. Hammersley, M. H. S. Grover, A. J. Taylor, to be attached to 1st Brig.; C. J. Baines, F. C. Paliner, to be attached to 3rd Brig. These officers will wear the unattached uniform which they have had in use at the Royal Military College. Instructions regarding their pay will be issued hereafter. General officers commanding brigades will report to the assist.-adjt.-gen. the regiment to which each officer will be attached.

We (*Irish Times*) have very good reason for believing the report of the recent Committee on the Reorganization of the Commissariat and Transport Department is by no means so favourable as it was hoped it would have been to the suggested change of system.

The *Oswestry Advertiser* announces the death, at San Remo, of the Rev. James Hook, vicar of Morton, eldest son of the late Dean of Chichester. Mr. Hook was injured in the Shipton railway accident on Christmas Eve, 1874, and for the last fifteen months has been residing abroad. Early in life he joined the Rifle Brigade, and served through the Indian Mutiny. He afterwards entered Trinity College, Cambridge. In 1868 he was ordained priest, and almost immediately afterwards presented by the Lord Chancellor to the living of Morton.

To Those Abroad or About Going.—Advertiser desires to receive, especially from persons in isolated or hill districts, specimens of the different butterflies found in their neighbourhood, which can be collected and sent home (per parcels post) in cigar or cardboard boxes, not pinned, but merely folded up when caught in pieces of paper. Also beetles. Value remitted by return. Address, William Watkins Naturalist, 21, Caves Terrace, Shepherd's Bush, London, W.

HUNYADI JÁNOS.
NATURAL APERIENT WATER.

"Most palatable and agreeable."—Prof. Macnamara.
"Richest in Aperient Salts."—*Lancet.*
"Invaluable for Women and Children."—*London Medical Record.*
"Convenient and Sure."—Inspector-General Macpherson, M.D.
"Preferred to Pullna and Friedrichshall."—Prof. Aitken, F.R.S.
"Unrivalled as a Customary Aperient or to relieve excesses of diet."—*British Medical Journal.*
In bottles, price 1s. 6d. and 2s. Of all Chemists.
A WINE-GLASS FULL A DOSE.

PARTNERSHIP.—WANTED, a GENTLEMAN with £1,500 to £2,000 to extend a profitable business—coal and wine—conducted on the cash principle. Present returns, and which are steadily on the rise, are close on £4,000. To a suitable investor 10 per cent. will be guaranteed, and preference will be given to one who has been in the Service, and has some local connection. For further particulars apply to the Manager, Cockburn's United Service Agency, 41, Haymarket.

MAYNARD, HARRIS, & GRICE,
MILITARY, NAVAL, and EAST INDIA AGENTS and ARMY CONTRACTORS,
126, LEADENHALL STREET, LONDON.

Established over 50 years, and well-known for the high character of their supplies. The most careful attention given to all orders, for use in this country or abroad, embracing UNIFORMS, ACCOUTREMENTS, BARRACK FURNITURE, PERSONAL CLOTHING, Saddlery, Plate, Cutlery, China, Glass, PRESERVED PROVISIONS, WINES, &c.
REGIMENTAL and MESS SUPPLIES at WHOLESALE PRICES.
Newspapers, Magazines, and Books.
Priced Lists, Estimates, &c., furnished on application.
EVERY DESCRIPTION of BANKING and REGIMENTAL AGENCY.
SOLE AGENTS for the new DANISH KID LOUNGE COAT, Very light, soft, and easy. Admirably adapted for Yachtsmen, Shooting, Fishing, or Riding. Well known to tourists in Sweden, Norway, and Denmark. Price, Lined Flannel, 45s. Lined Satteen, 50s.

The ENCORE WHISKY
Is recommended by the Medical Profession throughout the kingdom as the pure and safe alcoholic stimulant.

The ENCORE WHISKY
(the Double Distilled), BERNARD and CO., LEITH DISTILLERY, SCOTLAND.

The ENCORE WHISKY.
Guaranteed free from Fusel Oil.

The ENCORE WHISKY.
Very pleasant-flavoured Whisky.

The ENCORE WHISKY.
The most wholesome of Whiskies.

The ENCORE WHISKY.
Lancet.—"Wholesome and pleasant."

The ENCORE WHISKY.
British Medical Journal.—"A safe stimulant."

The ENCORE WHISKY.
Medical Times—"Very wholesome. May be safely used."

The ENCORE WHISKY.
Medical Press.—"Invaluable as an alcoholic stimulant."

The ENCORE WHISKY.
Medical Record.—"The purest of alcoholic stimulants."

The ENCORE WHISKY.
Practitioner.—"A safe stimulant."

The ENCORE WHISKY.
Sanitary Record.—"An excellent 'dietetic' stimulant."

The ENCORE WHISKY.
Public Health.—"Should be in general use."

The ENCORE WHISKY.
Food Reformer.—"All who value their health should use it."

The ENCORE WHISKY.
Dr. Bartlett.—"Purest Whisky I ever examined."

SPECIAL NOTICE.
TO THE NOBILITY AND GENTRY.
WM. PUGH (many years coat cutter at Messrs. Poole's, Savillerow), having succeeded to the old-established first-class business of Jackson and Co., 5, CORK STREET, BOND STREET, W., solicits the patronage of the nobility and gentry.
Best trade only at fixed fair prices, and 10 per cent. allowed for prompt cash.
N.B.—All first-class tailors give credit, and it is only by the discount system noblemen and gentlemen who pay cash get the full value ready money entitles them to.
WM. PUGH (from Poole's), 5, CORK STREET, BOND STREET, W.

SCHWEITZER'S COCOATINA
Anti-Dyspeptic Cocoa or Chocolate Powder
Guaranteed Pure Soluble Cocoa, Without Sugar, Spice or any Admixture.
Specially adapted for Ships, Camps, Sportsmen, &c., being in a concentrated form, made with BOILING Water. Keeps in all climates, and palatable without milk.
Being all Cocoa, it is four times the strength of preparations mixed and therefore *weakened* with arrowroot, &c., and is in reality cheaper a Tea-spoonful to a Breakfast Cup costing less than a halfpenny.
The Faculty pronounce it "The most nutritious, perfectly digestible Beverage for Breakfast, Luncheon, or Supper," and invaluable for Invalids and Children.
Highly commended by the entire Medical Press.
In air-tight canisters at 1s. 6d., 3s., &c., by Chemists and Grocers.

GEORGE CORDING,
WATERPROOFER,
125, REGENT STREET, AND 199, STRAND.
VENTILATED SHOOTING COATS,
KNEE AND ANKLE BOOTS FOR SHOOTING.
Require no Dressing to keep them Waterproof.
LIGHT POCKET COATS, REGULATION CLOAKS, SHOOTING GAITERS, GAME BAGS, CARTRIDGE BELTS AND BAGS.
GEORGE CORDING,
125, REGENT STREET, AND 199, STRAND.

GIBRALTAR SHERRIES.
Brand J. SACCONE,
GIBRALTAR.
LONDON AGENTS,
BILLER AND STEVENS,
110, FENCHURCH STREET.

MR. R. WILLSON,
ARMY, FINANCE, AND COMMISSION AGENT,
3, CRAVEN STREET, CHARING CROSS, LONDON, W.C.
(From 33, St. James's Square, S.W.)
EXCHANGES STILL ARRANGED,
And every description of
ARMY, FINANCE, and COMMISSION AGENCY transacted.

BRAND and CO.'S SOUPS,

PRESERVED PROVISIONS, and

YORK and GAME PIES; also,

ESSENCE of BEEF, BEEF TEA,

TURTLE SOUP, and JELLY, and other

SPECIALTIES for INVALIDS.

CAUTION. BEWARE OF IMITATIONS. SOLE ADDRESS,
11, LITTLE STANHOPE STREET,
MAYFAIR, W.

TARRY AND CO., WINE MERCHANTS.
CONTRACTORS TO THE ARMY, NAVY, AND HER MAJESTY'S GOVERNMENT,
22½, BUCKINGHAM STREET, STRAND, LONDON, W.C.
United Service Sherry 21s. per doz. | Amontillado 32s. per doz.
Golden Sherry 30s. " " | United Service Port 24s. " "
The above Wines are constantly supplied to HER MAJESTY'S GOVERNMENT, REGIMENTAL MESSES, and to OFFICERS OF THE HIGHEST RANK in both Services.

SPECIAL NOTICE.—MARCOVITCH and CO., Manufacturers of the celebrated PELLEGRINI, VANITY FAIR, and CZAREWITCH (mouthpiece) CIGARETTES (by appointment to H.R.H. the Prince of Wales and H.I.H. the Czarewitch of Russia), beg to inform their numerous customers and the public in general that they have received the finest Turkish Dubec growth of Yenidge that has ever been imported into this country. It is only owing to the want of money by the Turkish merchants that MARCOVITCH and CO. have been enabled to get this tobacco.
The only Manufacturers in England who deal solely in Turkish Tobacco and Cigarettes.
Address—11, AIR STREET, REGENT STREET, LONDON, W.

BUTLER'S MILITARY BAND INSTRUMENTS are all guaranteed first-class, both as to Tone and Workmanship, at prices much under those usually charged.
Manufactory—29, HAYMARKET, LONDON,
And at ELLIS'S QUAY, DUBLIN.

NOTICES TO CORRESPONDENTS.

No communications can be published which are not accompanied by the name of the writer, given in confidence to the EDITOR.

Letters cannot be received in answer to Advertisements.

Remittances should be made payable to Mr. RICHARD JAMES WOOD, to whom all business communications should be addressed.

M. B. (Southsea).—The announcement has already appeared in our columns.

PRICE.—Yes.

ILEX.—We will bear the case in remembrance.

C. P. O. UNIFORM.—Had your letter not been written in such extremely objectionable terms we would have inserted it. Your "citizen" qualifications seem to have been too much for you, and have rendered all manner of discipline distasteful, and you seem neither to respect yourself or your officers. The Navy will lose nothing when you take your pension and go.

BOOKS RECEIVED FOR REVIEW.

Journal of the Royal United Service Institution.
Dod's Peerage, Baronetage, and Knightage.

Army & Navy Gazette.

LONDON, SATURDAY, JANUARY 27, 1877.

The issue of an order putting in force the long-established rule of the Service that uniform should be worn when on shore on leave, a rule which applies to officers as well as men, has created such a stir amongst the petty officers and seamen at the home ports as was little anticipated. Such a striking out against discipline as has been exhibited at a meeting convened at Portsmouth and the strong feeling shown by the men in this matter cannot well be allowed to pass unnoticed, for they have taken the order to be a bitter grievance. It is a matter of sentiment in a great measure, and as such becomes the more difficult to deal with, but the argument adopted by the men will do them more harm in public opinion than perpetual appearance in uniform. While crying out against the blue shirt as lowering, they, our "honest tars," who do not mind staying in the Navy until they have earned their pensions—for all who spoke had voluntarily re-enlisted for a second ten years—get upon their legs at a meeting which it had been arranged should be publicly reported, and do their utmost to disgrace the Service. Their pride must be of a very false nature to allow them to blacken the character of the whole Navy because those who have long, perhaps too long, enjoyed harbour appointments and have their homes on shore, have been called upon to wear the uniform of her Majesty's Service instead of dressing in such attire as may please them. That uniform they call the badge of serfdom, and themselves they dub white slaves. To be compelled to wear that dress would, said one, put him back again in the gutter. It is quite possible he might have spoken feelingly as to the gutter, and that he owes his present respectability to the Service which he now seeks to lower in the public estimation. But can the sympathies of the right-thinking portion of the public be with men who take such a position in bringing forward their so-called grievance? The Portsmouth tradesman has been enlisted on their side because he fancies he sees in the order a reduction in his income. The sellers of ready-made clothing, such as our seamen require, are numerous at Portsmouth, and a low class of dealer, who is ever ready to take advantage of a Blue-jacket if he happens to be on shore for one of those miserable failures called "sprees," obtains large profits by buying the coat from off his back when money begins to run short. To check the action of these birds of prey, who encourage men to break their leave by supplying them with cash for any clothing they may be able to dispense with, an Act was passed by which the purchase of naval clothing was made illegal. This Act has nearly become a dead letter by the general adoption of civilian dress by our seamen, and to see it revived is a serious matter for some shopkeepers. Hence the outflow of sympathy towards the sailor, although, according to the statements made by the men at their meeting, the Portsmouth civilian holds himself so vastly superior to the seaman that he cannot be seen speaking to a man in the Royal Naval uniform. This is not, we believe, to be accepted as the truth, but merely the exaggeration and tall-talk of a sea-lawyer. The men of the Navy can hold their own, if they like to uphold their position, with those of their class engaged in civil pursuits. Indeed, it is not too much to say that, in nine cases of ten, their training afloat has been the means of making them far superior for honesty and thorough trustworthiness to those who have gone out into life on shore at an early age. If these good men would wear their uniform, and give the Navy the benefit of their respectability, instead of deserting their colours as soon as they touch the shore, thus importing into civil life more genuine respectability than is its due; if they could take a little pride in the Service, and help by their good example to keep in check those inclined to be unruly; if, in a word, they would take a proper pride in their profession, instead of desiring to occupy a false position, they would soon find that the naval uniform would be as much respected as a suit of ready-made slops. But if they set up a pitiful whine about being slaves, and grovel in the dust at the feet of civilians who are no better than themselves, asking them for aid, who is likely to respect them? The tone adopted has been altogether too mean and despicable, and should the Admiralty see fit to rescind the order on the expression of feeling that has been given, the Service will have paid dearly for the action taken by the petty officers of the Excellent. It has gone far and wide that the bone and sinew of the Navy is ashamed of itself, and that petty officers, on the eve of retiring on a good pension at the age of thirty-eight, have called themselves "slaves." Let it be remembered in future that to win the respect of others a man must first learn to respect himself.

No policy has been more steadily carried out by the Indian Government during the last fifteen years than that of locating European regiments in hill sanitariums. Each year has seen new barracks constructed at some one of the old and well-known hill stations, and in many cases new cantonments have been built in the Himalayas, on sites specially selected. The cost of all this has necessarily been very great, but the benefit to the soldier and the consequent indirect saving to Government have, we do not hesitate to say, more than compensated for it. Of the value of the measure, looked at both from a humanitarian and from a financial point of view, there can, we imagine, be but little doubt. There are other aspects, however, from which the measure must be judged before a final and just opinion can be formed of its intrinsic merits, and of its claim to be generally adopted on a large scale. One grave objection, in our opinion, to this arrangement, is that it removes from the midst of the subject-population the military force which is intended to hold the country. Every year sees a diminution in the available European force at the old military centres in the plains, and a corresponding increase in the number of British regiments at hill sanitaria. Such a policy is, we think, most unsound, and contains the elements of both present and future danger to our rule in India. What we fear is, that an idea good in itself may, by being pushed to extremes, lead to disastrous results. It is the fashion in these days to ignore the Mutiny and its fearful lesson. Both civil and military authorities concur in thinking that "no mutiny would have a chance now-a-days." Perhaps not. But even a local rising, from whatever cause it might spring, and however vigorously it might eventually be stamped out, would, whilst it lasted, be a very disastrous and miserable business for the hundreds of Europeans scattered about the different provinces. What we wish, however, to point out is, not that our forces in India could not cope in the long run with any uprising, however wide-spread, but that the absence of any numerically imposing European force from the neigbourhood of the chief native centres must and does tend to produce a dangerous feeling among the native population of strength in themselves and of disbelief in a force which they do not see. Kaye, the historian of the sepoy rebellion, has shown us what a potent source of weakness to us at its outbreak was the fact that from one cause and another the North-West Provinces were almost entirely denuded of European troops. Should such another crisis ever arise, can we say that we should be any better prepared if we have the greater part of our British regiments many miles in the interior of the Himalayas, separated from the plains by a deadly Terai, and in many instances by large unbridged rivers? By all means let us have sanitariums in which British soldiers may recruit their strength, exhausted by exposure to the trying climate of the plains; but do not, for this purpose, let us lock up the best part of our Indian Army in hill stations which are for at least three months in the year practically inaccessible.

The *Memorial de Ingenieros*, published at Madrid, contains an interesting article on demolitions effected with dynamite and other experiments with explosives which is well worthy of the attention of our scientific readers. It elicits, after careful calculation and experiment, that the charge of dynamite required to breach the walls of scarps or counter-scarps can be accurately represented by the mathematical formula $C = 0.56\,E^3$, where E is the depth of the wall in metres, and C the charge in kilogrammes. This is almost an identical result with that obtained by the investigation of the Austrian engineer, Captain Lauer.

The German military authorities are not so much impressed with the everlasting kindly intentions of the Russian Government as to neglect their fortifications on the eastern frontier. The strong position around Posen, suitable to cover an intrenched camp, is being rapidly rendered as impregnable as possible. Three detached forts which were commenced last year are nearly completed, but these are not considered sufficient, and three additional detached works are to be begun early in this spring, to give further security to this important point.

A letter published in Monday's *Standard*, headed "How to Spoil a Regiment," contains statements which cannot fail to cause the Horse Guards to institute a strict inquiry. The number of the regiment is not mentioned, but from the facts mentioned there is no difficulty in identifying it as the 2nd Battalion 19th Regiment, commanded by Colonel Chippindall, an officer of service and reputation. The letter in question states that nineteen courts-martial were held on men of the corps in four days at Bombay; that one of the men tried was a Sergeant of many years' standing, and "first crime," who was reduced and sentenced to three weeks' imprisonment for having been ten minutes late for a belt inspection parade; and that the regiment embarked with twenty-six prisoners. The writer declares that the regiment is full of crime and discontent, that it has been harassed by constant parades by day and roll-calls by night, and that when court-martial proceedings are read out the commanding officer makes free use of vituperative terms, and threatens to place Sergeants and sentries on public-houses when the regiment reaches England. It is also asserted that at Bombay or Deolalee no man was allowed to enter the station canteen. In Wednesday's *Standard* "A Green Howard" confirms statements which he says give only "a faint idea of the cruel treatment which the battalion mentioned received," and winds up by saying, "I could not even attempt to give you a detail of the punishment awarded to the non-commissioned officers and men in the name of discipline by a person who every recruit in the regiment knows has been for years labouring in a state of chronic dementia." Of course, such a remark as the last carries its own confutation, for a recruit cannot know of the existence of chronic dementia for years. These accusations are most serious, and will no doubt receive the immediate attention of the Commander-in-Chief. If the statements are untrue or exaggerated, it is only due to the commanding officer that his character should be cleared. The lamentable part of the affair is that the General officers at the periodical inspections should have failed to discover the condition of the corps.

"An Army Surgeon," in a letter published by the *Standard* last Wednesday, spoke in strong, but not over strong, terms of the misery suffered by the families of soldiers married without leave. It may be greatly to be regretted, for their own sakes, that soldiers should indulge in the doubtful luxury of matrimony; but, unfortunately, where a woman is concerned, few men exhibit much common sense or self-control. We may be very sure, therefore, that, let the Horse Guards and commanding officers dilate never so eloquently on the beauty of celibacy, soldiers will continue to marry, with or without leave, in the latter case bringing much misery on themselves and their families. This misery the soldier may deserve, for he knows perfectly well what is before him; but the poor wife and children surely are to be pitied. Were the War Office to recognise the marriages of men not entitled to quarters, it might be found possible to get up benefit funds, and to require the intending Benedict to save a little money before plunging into wedlock.

A glance at the "Army List" will show a source of many of the grievances of the officers of the Commissariat and Transport Department. The "N.B." at the beginning of the list is, indeed, necessary, and if the A's, B's, and C's are further added to the ranks above that of Commissary (which can be done by the aid of Hart's or the War Office lists), and the combatant and late Military Train officers to whom no letters have been assigned are also picked out, the old and fruitful seed of heartburnings and bitter jealousies, "supersession," is revealed. It must be admitted that the authorities had a difficult task in amalgamating the late departments. Much of the complication has been removed by the separation of the Ordnance Store Department, but there is sufficient left to render the officers of the remaining cadres thoroughly dissatisfied. If it was for the advantage of the Service that the late departments should be thus amalgamated, the interests of individuals should not be sacrificed in carrying it out, and we believe the department will have the sympathy of the whole Service in the desire to have its grievances and organization submitted to the consideration of an exclusively military committee. The observations of the Royal Commission on Army Promotion and Retirement, under the heading "Supersession," are to the point, and we commend them to the notice of those interested.

Colonel T. L. J. Gallwey, R.E., has left England during the week for Gibraltar to enter upon his duties as Colonel on the Staff commanding the Royal Engineers at Gibraltar, vice Colonel R. M. Laffan, whose term of service has expired.

It does not seem to be generally known—at all events, the fact has excited slight attention—that Quettah, at the Affghan end of the Bolan Pass, is at the present moment occupied by a force of Native Infantry nearly equal in strength to a battalion. This step finds favour with the neighbouring tribes, and will keep the Bolan open for traffic, but it cannot but have given umbrage to the Amir of Cabul, and no military advantages, at all events, have been secured. The force at Quettah is always exposed to be cut off; while, on the other hand, the passage of the Bolan could be easily forced by us in case of war. Still, it must be admitted that the occupation of Quettah was strongly advocated by the late General Jacob, and is justified by such competent authorities as Sir Henry Green and his brother, Colonel Green.

Every day information comes to hand which confirms the idea that Russia is by no means prepared for a serious war with Turkey, and that, at all events, hostilities will not commence before May. A *Standard* telegram from Pesth, dated Tuesday, says that the roads in Northern Roumania are impracticable, and that for several miles the railway between Kischeneff and Jassy has been carried away by floods. We learn, likewise, from a letter in the *Standard*, that the Russian Government is trying to "place" a large contract for clothing in Germany, but very little of it has been taken up, the margin for profit being very small and the cloth of the worst description. So bad, indeed, is the cloth that it will not stand sewing. We may judge from the above fact how wretchedly the Russian soldier is cared for, and it will be a matter of no surprise if the mortality in the Army of the South should prove paralysing to vigorous offensive operations.

The story of Major Fletcher, Royal Artillery, who has been cashiered by sentence of a court-martial for embezzlement of public money and signing false certificates, is a sad one. The amount which it was proved he converted to his private use was 3,309 rupees 9 annas 11 pies, or about £331. The Commander-in-Chief, however, refused to confirm the finding on two of the charges, and the amount which the unhappy officer is required to make good has been in consequence reduced to about £182. This is by no means the only instance which has occurred since the Mutiny of officers having misappropriated public monies, and we cannot but think that a change by which officers should not be required to add to their combatant duties the keeping of complicated accounts and the disbursement of large sums is very desirable. It is notorious that in the field, officers in India, especially those commanding batteries, are nearly certain to be much out of pocket owing to the utter impossibility of carrying out our administrative system in the midst of fighting and marching. Perhaps the case of Major Fletcher may induce the authorities to consider the propriety of reform in this particular.

REVIEWS.

The Maternal Management of Children in Health and Disease. By Thomas Ball, M.D. (Longman and Co., London.)

A cheap and handy edition of this useful little work thoroughly revised will be gladly welcomed by all who, either travelling, yachting, or being abroad with their children, have not the advantage of a doctor being always at hand. Probably no two works of a similar kind have met with such favour at the hands of the public as this and its companion volume, "Hints to Mothers," by the same author. They have both passed through innumerable editions, and not only have they had an extensive circulation at home, but thousands of copies have been sold in the colonies. The instructions for the detection and treatment of sudden illness are as simple as they are ably given, and from the cheapness of the present edition we consider that no mother, where medical aid is not readily to be obtained, should be without this little volume.

At Sixes and Sevens. By A. Weber. (Mozley and Smith, London.)

This is a simple story of English home life, carefully and well written, though lacking somewhat in incident. It is a book that may be advantageously placed in the hand of any young girl, which, we fear, is more than we can say of the bulk of works of fiction of the present day.

The Navy.

APPOINTMENTS.

Lieutenants—C. Lewis, to the Vernon, for short course of torpedo instruction; H. P. Routh, A. F. Graves, G. Elias, C. J. G. Sawle, E. H. Marsh, J. D. Deane, H. Stewart, and G. A. Smith, to the Cambridge for short course of gunnery duties; Hon. C. J. G. Cadogan, to the Duncan, additional for service in Naval Barracks; F. S. Pelham, to the Duncan, as flag-lieut. to Vice-Admiral Chads; and G. F. S. Knowling to the Valorous, additional.

Navigating-Lieutenants—F. A. Halloran, to the Royal Naval College at Greenwich.

Naval Cadets—P. B. Tyrwhit, to the Minotaur; and M. G. Cartwright, to the Resistance, additional.

Staff Surgeon—Dr. D. Hilston, to the Hector.

Surgeons—G. J. Irvine, to the Antelope; and R. F. Yeo, to the Hercules.

Assistant-Paymaster—S. R. Warn, to the Asia.

Agincourt, 17, armour-plated, completed coaling in Keyham-yard on Thursday, but will not be taken out of dock until the latter part of next week, as the alterations necessary to admit her carrying torpedoes are not yet complete.

Alexandra, 12, armour-plated, Capt. R. O'B. Fitzroy, flagship of Vice-Admiral Hornby. An order has been received at Chatham from the Admiralty directing that this vessel should be ready to proceed to sea by Feb. 3. The order caused some little excitement, as the previous order stated that she was not to leave until the 17th. A large number of men were, on receipt of the order, transferred from the other vessels to the Alexandra to complete the work on board; but it is thought that she will have to leave in an unfinished state, as a large amount of work still remains to be done. A large state barge, to be used on extraordinary occasions by Vice-Admiral Hornby, and which will be placed on board the Alexandra, has been built at Chatham Dockyard, and will be finished in a day or two. The barge is 34ft. long, and will be handsomely fitted and decorated. A court-martial was held on Tuesday on board the Duncan, at Sheerness, for the trial of Arthur Eames, ordinary seaman, belonging to the Alexandra, on the charge of getting drunk, resisting the sentry, and striking the master-at-arms and corporal of Marines while in the execution of their duty. The prisoner pleaded guilty, and was sentenced by the court to eighteen months' imprisonment, with hard labour. On Wednesday night experiments were made on board with the electric light. Admiral Hornby, Rear-Admiral Fellowes, and a number of dockyard officials were present. The experiments proved to be very satisfactory. Admiral Hornby was afterwards entertained at dinner by the officers of the Chatham Division of Royal Marines.

Antelope, 2, iron vessel, Lieut.-Com. J. C. Burnell, was at Constantinople on the 16th inst.

Barracouta, 5, sloop, Capt. C. E. Stevens, arrived at St. Helena on the 24th ult., and found the Spiteful and Mallard there. She will call at Gibraltar, probably not later than the 31st inst.

Boadicea, 16, corvette. Some important boiler experiments are being made on board the Boadicea, at Portsmouth. The object is to ascertain whether priming, which has lately proved a great obstruction to the steam trials of men-of-war, can be obviated by modifications in the internal structure of boilers. The experiments are being made under the extreme pressure of 63lb. to the square inch, salt water from the dockyard mains being used. As may be well imagined, if the water can be kept from passing into the cylinders with the steam under these conditions, the boilers are not likely to prime in any circumstances. It would seem that a perfect design of boiler is yet to be invented, for while one of the instructions is to test the boilers of the Boadicea with the internal tubes in connection with the stop-valves as they are at present—that is to say, with the slits uppermost—another instruction orders the engineers to try the effect of reversing the position of the slits by placing them downwards. Should neither arrangement prove a remedy for priming, two internal tubes are to be tried by themselves, and also in combination with separator boxes. In a previous experiment the effect of filling the boilers with fresh and with salt water was tested, the result showing that when the boilers were filled with the former priming did not occur.

Boxer, 4, composite gunvessel, Com. A. H. Alington, had a satisfactory trial of her machinery in Keyham Basin on Thursday. The engines will be opened out for examination, and should no defects be then discovered she will leave for the Cape of Good Hope as soon as they are again put together.

Bittern, 3, gunvessel, Com. G. J. Anstruther, was at Constantinople on the 16th inst.

Cockatrice, 1, gunboat, Com. A. J. Musgrave, left Smyrna on the 9th inst. for Malta, and was hourly expected there on the 16th inst.

Coquette, 4, gunboat, Lieut.-Com. W. E. Darwall, was still at Malta on the 16th inst.

Cruiser, 4, sloop, Com. J. Hext, was still at Malta on the 16th inst.

Dreadnought, 4, double turret-ship, steamed into Portsmouth Harbour on Saturday morning last after her six hours' full-power trial on the previous day. The weather being very boisterous, and as there was at times every appearance that the fog would settle on the water, Capt. Waddilove, who conducted the trial on behalf of the Steam Reserve, determined to confine the runs within the Solent. The engines, which are by Messrs. Humphrys and Tennant, worked with surprising uniformity, and upwards of 200-horse power more than the contract standard was readily obtained without so much as once using the blasts. The observations were taken every half-hour, and from these it appeared that the revolutions and the vacuum scarcely varied from first to last. The safety-valves were weighted to 60lbs., and the pressure in the engine-room was 57·32lbs. The mean vacuum in the starboard condenser was 27·04lbs., and in the port condenser 27·33lbs.; the mean revolutions of the starboard engines were 67 per minute, and of the port engines 67·18; while the mean pressure in the high pressure cylinders was 31·603lbs., and in the low pressure cylinders (of which each set of engines has two) was 9·137lbs. The mean horse-power developed was 8,216·28 horses, the contract power being 8,000. The engines were driven as little beyond their guaranteed power as possible, in order that it might be ascertained how economically, as regards fuel, the engines might be worked at full speed. The total quantity of coal consumed during the six hours was a little over fifty tons, or 2·27lbs. per indicated horse-power. This is much below the proportion of the Thunderer, and is unusually low. The average speed attained was 14½ knots. The trial passed off without a hitch of any sort, and the vessel will now be completed for sea with all despatch.

Duncan, 31, screw-ship, Capt. St. G. D'Arcy Irvine, flagship of Vice-Admiral Chads. A court-martial was held on board this vessel at Sheerness on Tuesday for the trial of William Jenkins, ordinary seaman of the second class, belonging to the Naval Barracks, Sheerness. The charge against this prisoner was that on Dec. 28, 1876, he deserted from the Naval Barracks. It appeared that he had deserted on three previous occasions. He was sentenced to eighteen months' imprisonment, with hard labour.

Euphrates, 3, Indian troopship, Capt. W. H. Cuming. The Indian Transport Department have expressed themselves perfectly satisfied with the performance of the Euphrates on the mile in Stokes Bay on Thursday last week. The ship, which had been supplied with compound engines by the Messrs. Laird, of Birkenhead, failed to realise her contract horse-power by about 300 horses; but, as this was owing to the pitch of the screw being such as to prevent the engines using all the steam supplied by the boilers, it has been determined to allow matters to remain as they are. To alter the pitch of the screw the ship must have been taken into dock, and she would have had to be subsequently redocked to have the propellor changed to the original pitch. The Department has considered this unnecessary.

Euryalus, 16, iron corvette. The arrangements for the launch of this vessel, which is fixed for Wednesday, Jan. 31, at Chatham Dockyard, are now nearly complete. The launch will be made about half-past 1 in the afternoon, and the dockyard gates will be opened to the general public at half-past 12.

Fire Queen, iron vessel, Staff-Com. T. Pounds. Admiral Elliot crossed to Osborne on Wednesday morning in the Fire Queen, on a visit to her Majesty.

Helicon, 2, despatch-vessel, Lieut.-Com. R. W. Stopford, was to leave Malta on the 23rd inst. to convey his Royal Highness the Duke of Edinburgh to rejoin his ship, the Sultan, at Vourla Bay.

Devastation, 4, turret-ship, Capt. F. W. Richards, has been undocked at Malta, and was to leave on the 19th inst. to rejoin the fleet.

Hector, 18, armour-plated, Capt. C. M. Buckle, has arrived off Cowes, from Southampton Water, to act as guardship to her Majesty during her stay at Osborne.

Hotspur, 3, armour-plated ram, Capt. T. M. Jones, left Malta on the 15th inst. to join the squadron at Vourla Bay.

Himalaya, 3, troopship, Capt. E. White, arrived at Trincomalee on the 21st inst., and would leave on the 25th for Penang.

Malabar, 3, Indian troopship, Capt. E. Kelly, left Malta on the 23rd inst. for Bombay.

Monarch, 7 armour-plated, Capt. M. Culme Seymour. A most successful entertainment took place on board this ship, at Vourla Bay, on Saturday evening, the 6th inst., by kind permission of Captain Seymour. The dramatic corps made their *début* on this occasion, commencing with the Irish domestic drama, entitled *The Shaughraun; or, the Exile's Return.* Conn (a rale good boy), Mr. Jackson; Squire Corrigan (everybody's friend), Mr. Day; Harvey Duff (always ready to turn an honest penny), Mr. Lone; Father Tom (the village priest), Mr. Lusted; George Bampton (the exile), Mr. Peer; Captain Newton (an admirer of Miss Rose), Mr. Sartin; Patsy O'Ryan and Mike Flaherty (scamps of the village), Messrs. Monk and McIntosh; Rose Clinton (the village beauty), Mr. Lowe; Kate Bampton (the exile's wife), Mr. Finer; Milley (Con's sweetheart), Mr. Waters; Meg (Con's mother), Mr. Nash. This was followed by a recitation by Mr. Gray, "Sir Pertinax Sycophant's advice to his Son." The entertainment concluded with a farce. The manager was Lieut. Domville, and the scenic artist Mr. Rogers.

Penguin, 6, composite sloop, has been taken into the basin at Devonport-yard to complete. The cost of her completion over the contract price is £8,029.

Prince Albert, 4, turret-ship, tender to Cambridge, gunnery-ship, has had her turrets adjusted, and has been brought alongside Keyham Basin to have new boilers placed on board, and be brought forward for commission.

Rapid, 3, sloop, Com. A. A. F. FitzGeorge, left Smyrna on the 13th inst. for the Piræus.

Research, 4, sloop, Capt. H. E. Earle, was at Salonica on the 16th inst.

Rupert, 4, iron-clad ram, Capt. W. J. Grubbe, C.B., would probably be ready to leave Malta on the 20th inst. for the Piræus.

Seagull, 3, gunvessel, Lieut. Graham, adjusted her compasses at Devonport on Wednesday. After making her six hours' full speed trial outside the Sound she would be inspected yesterday prior to leaving for the West Coast of Africa.

Serapis, 3, Indian troopship, Capt. D. G. Davidson, which left Bombay on Dec. 19, arrived at Portsmouth at noon on the 21st inst., and steamed into harbour with the yellow flag at the fore. It appears that two men belonging to the troops from Delhi were attacked by small-pox after leaving Bombay, and were landed at Malta. After leaving Malta several more cases broke out, and Capt. Davidson had the usual precautions taken in the way of burning, isolation, and carbolizing. On the ship reaching Spithead the sufferers were placed on board a tug and taken on shore, when they were conveyed to the infectious ward in connection with the Portsea Military Hospital. Pratique was granted by the sanitary officers about a couple of hours after the ship had been moored alongside the jetty. But for the prompt measures adopted by the captain, the infection would doubtless have spread, as the number of women and children on board was very great. Six deaths, three of men and three of children, had occurred during the passage. The voyage was a rapid one, head winds being only encountered in the Mediterranean.

Shah, 26, frigate, Capt. F. G. D. Bedford, was to leave Gibraltar on the 24th inst. for Rio de Janeiro, &c.

Simoom, 2, troopship, Capt. R. G. S. Pasley, arrived at Barbados on the 21st inst., and would leave on the 26th for Africa.

St. George, screw-ship, in reserve at Devonport, is being appropriated for service as a mercantile training ship, but it will be some months before she will be ready for such duty.

Sultan, 12, screw-ship, Capt. H.R.H. the Duke of Edinburgh. On Wednesday evening, the 10th inst., the dramatic corps of the Sultan gave a performance on board. No invitations were given to other ships' companies, although a limited number (according to accommodation) is always allowed to be present.

Temeraire, 8, armour-plated, is by order of the Admiralty to be ready for sea at Chatham by June 30. Her fitments, &c., are now getting well advanced, and in the course of two or three months she will be able to take her trial trip at the measured mile off the Maplin Sands.

Torch, 5, gunvessel, Com. R. H. Hamond, was on the 16th inst. on the coast of Syria.

Triumph, 14, armour-plated, Capt. G. H. Parkin. At a court-martial held on board the Monarch at Vourla Bay on the 11th inst., Thomas Hill, A.B., belonging to the Triumph, was sentenced to five years' penal servitude for striking a petty officer, pushing a sub-lieutenant, and using threatening and insulting language to the same officer. The prisoner was found guilty of the several charges against him.

Wizard, 1, gunboat, Lieut.-Com. W. Neilson, arrived at Smyrna on the 12th inst. from the Piræus with letters for the squadron.

In an allusion to the sad death by drowning of Mr. Watkin Harold Wingfield, of H.M.S. Newcastle, the *Whitehall Review* says:—"This gallant young officer jumped into the water to rescue the captain of the fore-top, who had fallen overboard, the ship at the time running between eight and nine knots, with a heavy sea on. He was seen to reach the drowning man, and after a short struggle both sank. Two seamen, Hesk and Reed, followed the noble example of their officer, and shared his fate. This was the second time Mr. Wingfield, who was only a lad of seventeen, has risked his life to save that of another. If he had returned to England he would in all probability have been recommended for the Humane Society's medal. Mr. Wingfield's father, Major Walter Wingfield, has received from the Lords of the Admiralty a very sympathetic letter, expressing their regret at the loss of so promising an officer."

A Reuter's telegram states that Com. Cameron arrived at Paris on Thursday evening, and was received by delegates from the Paris Geographical Society. To-day there will be a grand official banquet in his honour. The *Soir*, alluding to Com. Cameron's arrival, says the official reception of the illustrious traveller by the Geographical Society and the enthusiastic reception which is in store for him are simple acts of justice. In risking his life for such a long time it was not only England, his fatherland, which he served, but the whole world. The world has a right to claim such men as its citizens.

Two gunboats of the latest design, and calculated to carry heavy ordnance, have recently been purchased from a private firm for the Chinese Government. In compliance with a request made to the Foreign Office, their inspection by a Government official has been approved of, and it is said that they will be navigated out to China by half-pay naval officers, who will probably retain their commands until their Chinese crews have become well acquainted with the vessels.—*Standard.*

At the recent examination for admission to the Royal Military College, Sandhurst, Messrs. A. Carden and H. J. Evans (who are both under eighteen years of age) passed direct from the Royal Naval School, New Cross. There were more than 700 candidates for 105 vacancies. Mr. J. C. W. D. Nicol (aged seventeen) also qualified, on his first trial, as a Queen's Cadet.

Lord Ashley and the officers of the London Brigade, Royal Naval Artillery Volunteers, entertained Vice-Admiral Sir Tarleton, K.C.B., at dinner on Thursday evening at the Pall Mall, Regent-street, on his retirement from the command of the Naval Reserves, his period of service having expired.

The annual meeting of the Sailors' Home at Devonport was held on Tuesday, Rear-Admiral Willes, C.B., presiding. The report was a satisfactory one, the balance in hand being nearly £100.

Throat Irritation.—The throat and windpipe are especially liable to inflammation, causing soreness and dryness, tickling and irritation, inducing cough and affecting the voice. For these symptoms use glycerine in the form of jujubes. Glycerine, in these agreeable confections, being in proximity to the glands at the moment they are excited by the act of sucking, becomes actively healing. Sold only in 6d. and 1s. boxes (by post for 14 stamps), labelled "James Epps and Co., Homœopathic Chemists, 48, Threadneedle Street, and 170 Piccadilly, London."

STATIONS OF HER MAJESTY'S SHIPS IN COMMISSION.

With the Dates and Ports of Commission.

(Corrected to the same date as the official "Navy List," which will be published February 1.)

ABOUKIR, 23, screw receiving-ship, Commodore Algernon McLennan Lyons, Jamaica. Recommissioned at Jamaica July 1, 1870.

Achilles, 16, screw armour-plated ship, Captain Sholto Douglas, Coast-guard ship, Rockferry. Commissioned at Devonport April 1, 1875.

Active, 10, iron screw-corvette, Commodore Sir W. N. Hewett, V.C., K.C.B., West Coast of Africa and Cape of Good Hope. Commissioned at Portsmouth Oct. 2, 1875. (Ordered home).

Alacrity, schooner, tender to Pearl, Lieut.-Com. W. U. Moore. Australia. To be recommissioned at Sydney.

Albatross, 4, composite screw-sloop, Com. Ernest Rice, Pacific. Commissioned at Chatham Feb. 14, 1874.

Alberta, paddle yacht, Staff-Capt. David N. Welch, tender to Royal Yacht, Portsmouth.

Alexandra, 12, double-screw armour-plated ship, Capt. R. O'B. FitzRoy. Commissioned at Chatham Jan. 2, 1877. (Under orders for the Mediterranean.)

Amethyst, 14, screw-corvette, Capt. A. J. Chatfield, Pacific. Commissioned at Devonport July 1, 1873.

Antelope, 2, iron paddle-vessel, Lieut.-Com. J. C. Burnell, Mediterranean. Recommissioned at Malta Feb. 12, 1874.

Arab, 4, composite screw gunvessel, Com. F. S. Broughton, East Indies. Commissioned at Devonport July 2, 1875.

Argus, 5, paddle-sloop, Com. E. J. Jermain, North America and West Indies. Commissioned at Portsmouth March 27, 1873.

Arrow, double-screw gunboat, attached to R.N. College, Greenwich.

Asia, 4, guardship of Reserve, Capt. C. L. Waddilove, flagship of Rear-Admiral Sir F. L. M'Clintock, Portsmouth. Recommissioned at Portsmouth April 1, 1876.

Assistance, 2, iron screw troop-ship, Capt. Prattent, particular service Commissioned at Portsmouth Dec. 1, 1875.

Audacious, 14, double screw, armour-plated ship, Capt. Colomb, flagship of Vice-Admiral A. P. Ryder, China. Commissioned at Chatham Sept. 1, 1874.

Aurora, 28, screw-frigate, Capt. H. D. Grant, C.B., Coast-guard ship, Greenock. Commissioned at Devonport May 8, 1874.

Avon, 4, double-screw composite gunvessel, Com. L. C. Keppel, West Coast of Africa. Commissioned at Portsmouth June 1, 1876.

Barracouta, 5, paddle-sloop, Capt. C. E. Stevens, Australia. Commissioned at Sheerness March 10, 1873. (Ordered home.)

Beacon, 4, double-screw composite gun-vessel, Com. H. Dunlop, South-East Coast of America. Commissioned at Chatham July 8, 1873.

Beagle, schooner, Lieut.-Com. C. Caffin, Australia. Recommissioned at Sydney Jan. 11, 1876.

Bellerophon, 15, armour-plated screw-ship, Capt. Frank T. Thomson, flagship of Vice-Admiral Sir A. Cooper Key, K.C.B., North America and West Indies. Recommissioned at Halifax Sept. 27, 1876.

Bittern, 3, double-screw gun-vessel, Com. G. J. Anstruther, Mediterranean. Commissioned at Devonport July 4, 1871.

Black Prince, 28, armour-plated iron screw-ship, Capt. T. Lethbridge, Channel Squadron. Commissioned at Devonport July 29, 1875.

Boscawen, 16, training-ship, Com. R. G. Kinahan, Portland. Recommissioned at Portsmouth Jan. 1, 1873.

Boxer, 4, double-screw composite gun-vessel, Com. Arthur Alington, Cape and West Coast of Africa. Commissioned at Chatham Dec. 11, 1876.

Brilliant, 8, training-ship for Naval Reserve, Inverness, tender to the Clyde.

Britannia, training-ship for Naval Cadets, Capt. W. Graham, Dartmouth. Recommissioned April 1, 1876.

Britomart, 2, gunboat, Lieut.-Com. J. Sulivan, Devonport.

Bullfinch, 3, double-screw gunvessel, Com. R. M. Lloyd, North America and West Indies. Commissioned at Sheerness July 13, 1874.

Cambridge, 29, gunnery-ship, Capt. the Hon. W. J. Ward, Devonport Recommissioned April 1, 1876.

Castor, 13, Naval Reserve drill-ship, Com. A. C. Curtis, North Shields. Recommissioned Jan. 1, 1873.

Challenger, 8, screw-corvette, Capt. E. Hardinge, temporary flag-ship of Rear-Admiral Augustus Phillimore, Coast-guard ship, Harwich. (Will be relieved by Penelope.)

Charybdis, 17, screw-corvette, Capt. T. E. Smith, China. Commissioned at Sheerness Sept. 26, 1873.

Cherub, 2, screw gunboat, Lieut.-Com. F. R. Kemp, tender to Coast-guard ship, Harwich.

Clyde, 15, Naval Reserve drill-ship, Com. H. C. Best, Aberdeen. Recommissioned Jan. 1, 1873.

Cockatrice, 1, screw-gunboat, Com. A. J. W. Musgrave, Mediterranean. Recommissioned at Malta March 14, 1876.

Conflict, schooner, Lieut.-Com. W. M. Carey, Australia. To be recommissioned at Sydney.

Contest, 4, composite gunboat, Lieut.-Com. G. W. Allen, Cape of Good Hope and West Coast of Africa. Commissioned at Devonport April 22, 1875.

Coquette, 4, screw composite gunboat, Lieut.-Com. W. E. Darwall, Mediterranean Recommissioned at Malta Feb. 1, 1875.

Cracker, 4, double-screw composite gun-vessel, Commander C. H. Hawkins, South-East Coast of America. Commissioned at Portsmouth June 10, 1873.

Crocodile, 3, Indian troopship, Capt. P. R. Sharpe, Portsmouth. Recommissioned at Portsmouth Aug. 5, 1876.

Cromer, 2, screw-gunboat, Lieut. V. E. Von Donop, tender to Achilles, Birkenhead.

Cruiser, 4, sailing-sloop, Com. John Hext, Mediterranean. Recommissioned at Malta March 14, 1876.

Curlew, 3, double-screw gun-vessel, Com. E. J. Church, China. Recommissioned at Hong Kong Dec. 1, 1874.

Cygnet, 4, screw composite gunboat, Lieut.-Com. R. F. Hammick, Cape of Good Hope and West Coast of Africa. Commissioned at Devonport July 8, 1875.

Dædalus, 13, Naval Reserve drill-ship, Com. W. H. St. Clair, Bristol. Recommissioned Jan. 1, 1873.

Danae, 12, screw-corvette, Capt. J. C. Purvis, under orders for East Indies. Commissioned at Portsmouth Sept. 20, 1876.

Daphne, 5, screw-sloop, Com. G. B. Evans, under orders for East Indies. Recommissioned at Zanzibar April 1, 1875.

Dapper, 2, screw-gunboat, Lieut.-Com. T. E. Miller, tender to Britannia, Dartmouth.

Daring, 4, composite screw-sloop, Com. J. G. J. Hanmer, Pacific Commissioned at Chatham Sept. 29, 1874.

Dasher, 2, paddle-vessel, Com. E. C. Drummond, Channel Islands. Recommissioned at Portsmouth April 1, 1876.

Decoy, 4, composite screw gun-boat, Lieut.-Com. J. Hayes, North America and West Indies. Commissioned at Devonport Oct. 20, 1872. (Ordered home.)

Defence, 16, iron screw-ship, armour-plated, Capt. R. P. Cator, Channel Squadron. Commissioned at Devonport Feb. 25, 1876.

Devastation, 4, armour-plated turret-ship, Capt. F. W. Richards, Mediterranean. Commissioned at Portsmouth Jan. 9, 1873.

Diamond, 14, screw-corvette, Capt. G. S. Bosanquet, East Indies. Commissioned at Sheerness July 13, 1875.

Dryad, 9, screw-sloop, Com. R. D. King, North America and West Indies. Commissioned at Devonport Aug. 13, 1874.

Duke of Wellington, 25, screw, Capt. Hon. W. C. Carpenter, flagship of Admiral George Elliot, Portsmouth. Recommissioned Jan. 1, 1874.

Duncan, 31, screw-ship, Captain St. G. D'Arcy-Irvine, flagship of Vice-Admiral Henry Chads, Sheerness. Commissioned at Sheerness April 1, 1873.

Durham, 17, Naval Reserve drill-ship, Commander W. Howorth, Sunderland. Recommissioned Jan. 1, 1873.

Eagle, 12, Naval Reserve drill-ship, Com. A. F. M. Meyer, Liverpool. Recommissioned Jan. 1, 1873.

Eclipse, 12, screw-corvette, Capt. J. E. Erskine, North America and West Indies. Commissioned at Sheerness Nov. 19, 1873.

Egeria, 4, composite screw-sloop, Com. A. L. Douglas, China. Commissioned at Devonport Nov. 2, 1874.

Elfin, paddle yacht, tender to Victoria and Albert, Staff-Com. A. Balliston, Portsmouth.

Enchantress, 1, paddle yacht, Staff-Com. E. H. Hills, tender to Asia, Portsmouth.

Encounter, 14, screw-corvette, Capt. R. Bradshaw, North America and West Indies. Commissioned at Sheerness Aug. 21, 1873.

Endymion, 22, screw-frigate, Captain J. Moresby, Coast guard, Hull. Commissioned at Sheerness Oct. 1, 1875.

Euphrates, 3, Indian troopship, Capt. W. H. Cuming, Portsmouth Recommissioned at Portsmouth July 1, 1876.

Excellent, 13, gunnery-ship, Capt. F. A. Herbert, Portsmouth. Recommissioned April 1, 1876.

Express, 4, screw composite gunboat, Lieut.-Com. Hon. A. C Littleton, Gibraltar. Commissioned at Devonport Aug. 10, 1875.

Fantôme, 4, composite screw-sloop, Com. T. M. Maquay, Pacific Commissioned at Devonport Dec. 5, 1873.

Fawn, 4, screw-sloop, Com. W. J. L. Wharton, surveying vessel, East Coast of Africa. Commissioned at Chatham June 1, 1876.

Fervent, 2, screw-gunboat, Lieut. F. G. Dundas, tender to Dædalus, Bristol.

Fire Queen, iron paddle-vessel, Staff-Com. T. Pounds, tender to Duke of Wellington, Portsmouth.

Fisgard, 22, stationary ship, Staff-Com. W. H. Sharp, Greenwich. Recommissioned Nov. 2, 1869.

Flirt, 4, double-screw composite gun-vessel, Lieut. A. O'Rorke, tender to Aurora, Greenock.

Flora, 12, store ship, Com. C. Mitchell, Cape of Good Hope. Recommissioned at the Cape Oct. 22, 1872.

Fly, 4, double-screw composite gun-vessel, Com. John Bruce, China. Commissioned at Devonport June 25, 1874.

Flying Fish, 4, composite screw-sloop, Com. H. F. Crohan, East Indies. Commissioned at Chatham June 18, 1874.

Foam, 4 screw composite gunboat, Lieut.-Com. R. W. Hope, South-East Coast of America. Commissioned at Sheerness May 20, 1874.

Fox, 2 screw store-ship, Staff-Com. J. G. Dathan, particular service. Recommissioned at Devonport April 1, 1876.

Frolic, 4, double-screw composite gun-vessel, Com. A. E. Dupuis, China. Recommissioned at Hong Kong April 20, 1876.

Ganges, 19, training-ship, Com. R. L. Byng, Falmouth. Recommissioned April 1, 1876.

Goshawk, 4, composite gunboat, Lieut. A. T. Bagge, tender to Revenge, Queenstown.

Growler, 4, double-screw composite gun-vessel, Com. W. Stewart, China. To be recommissioned at Hong Kong.

Hart, 4, double-screw composite gun-vessel, Capt. T H. Royse, China. Recommissioned at Malta Feb. 12, 1874.

Hector, 18, screw armour-plated ship, Capt. C. M. Buckle, Coast-guard, Southampton Water. Commissioned at Portsmouth June 4, 1875.

Helicon, 2, paddle despatch-vessel, Lieut.-Com. R. W. Stopford, Mediterranean. Recommissioned at Malta Feb. 12, 1874.

Hercules, 14, armour-plated iron screw-ship, Capt. N. Bowden-Smith, flagship of Vice Admiral the Hon. Sir J. Drummond, K.C.B., Mediterranean. Commissioned at Portsmouth April 1, 1875.

Hibernia, 12, receiving-ship, Com. H. E. Stephens, flagship of Rear-Admiral Luard, C.B., Malta. Recommissioned at Malta Jan. 1, 1872.

Himalaya, 3, iron-screw troop-ship, Capt. E. White, particular service. Commissioned at Devonport Oct. 22, 1874.

Hornet, 4, double screw gun-vessel, Com. H. N. Hippisley, China. To be recommissioned at Hong Kong.

Hotspur, 3, iron armour-plated ram, Capt. T. M. Jones, Mediterranean. Commissioned at Devonport June 3, 1876.

Immortalité, 28, screw-frigate, Captain F. A. Hume, Detached Squadron. (Ordered home.)

Implacable, 16, training-ship, Com. C. S. Cardale, Devonport. Recommissioned at Devonport Jan. 1, 1873.

Impregnable, 22, training-ship, Capt. W. H. Edye, Devonport. Recommissioned April 1, 1876.

Indus, guardship of Reserve, Capt. C. Curme, flagship of Rear-Admiral Willes, C.B., Devonport. Commissioned April 1, 1876.

Iron Duke, 14, armour-plated, double-screw ship, Capt. Rowley, Coast-guard ship, Kingstown. Commissioned at Devonport, Oct. 1, 1875.

Jackal, 2, iron paddle vessel, Lieut.-Com. H. A. Digby, West Coast of Scotland. Commissioned at Devonport May 23, 1876.

Juno, 8, screw-corvette, Capt. Poland, China. Commissioned at Sheerness Nov. 4, 1875.

Jumna, 3, iron-screw troop-ship, Capt. John D'Arcy, Portsmouth. Recomimssioned at Portsmouth July 1, 1876.

Kestrel, 4, double-screw composite gun-vessel, Com. C. B. Theobald, China. Recommissioned at Hong Kong April 20, 1876.

Lapwing, 3, double-screw gun-vessel, Com. Sir W. Wiseman, China. Commissioned at Devonport Sept. 15, 1874. (Reported wrecked at Chefoo)

Liberty, 8, sailing-brig, Lieut. C. Johnstone, Lisbon. Commissioned at Devonport Oct. 13, 1875.

Lily, 3, composite screw gun-vessel, Com. B. E. Cochrane, China. Commissioned at Devonport Aug 3, 1875.

Lion, 12, screw-ship, Lieut. E. H. Clarke, tender to Implacable, Devonport.

London, 2, screw-ship, Capt. T. B. M. Sulivan, Zanzibar. Recommissioned April 25, 1876.

Lord Warden, 18, screw armour-plated ship, Capt. Norman Bedingfeld, Coast-guard ship, Queensferry. Commissioned at Portsmouth Dec. 21, 1876.

Lynx, 4, composite gun-vessel, Com. F. M. Ommanney, East Indies Commissioned at Devonport June 9, 1875.

Magpie, 3, double-screw gun-vessel, Com. C. V. Anson, China. Commissioned at Devonport July 3, 1876.

Malabar, 3, Indian troopship, Capt. E. Kelly, Portsmouth. Recommissioned at Portsmouth July 1, 1876.

Mallard, 4, screw composite gunboat, Lieut.-Com. A. W. Warry, Cape of Good Hope and West Coast of Africa. Commissioned at Devonport March 7, 1873.

Martin, 10, sloop, Lieut. E. Hicks, Lisbon. Commissioned at Portsmouth Oct. 13, 1875.

Midge, 4, double-screw composite gun-vessel, Com. H. Salmond, China. To be recommissioned at Hong Kong.

Minotaur, 17, armour-plated iron screw ship, Capt. Lord Walter Kerr, flagship of Vice-Admiral F. B. Seymour, C.B., Channel Squadron. Commissioned at Portsmouth Aug. 6, 1875.

Modeste, 14, screw-corvette, Capt. A. Buller, C.B., China. Commissioned at Devonport Jan. 1, 1874.

Monarch, 7, armour-plated screw turret-ship, Capt. M. Culme-Seymour, Mediterranean. Commissioned at Portsmouth June 10, 1874.

Moorhen, 4, screw composite gunboat, Lieut.-Com. J. Hope, China. Commissioned at Devonport Feb. 10, 1876.

Mosquito, 4, composite screw gunboat, Lieut.-Com. R. H. Paul, China. Recommissioned at Hong Kong April 20, 1876.

Myrmidon, 4, screw gun-vessel, Com. the Hon. R. Hare, Pacific. Commissioned at Sheerness Oct. 24, 1872. (Ordered home.)

Nankin, 28, stationary ship, Capt. R. V. Hamilton, Pembroke. Recommissioned April 1, 1876.

Narcissus, 28, screw-frigate, Capt. Lord Charles Scott, flagship of Rear-Admiral Rowley Lambert, C.B., Detached Squadron. Commissioned at Devonport Oct. 9, 1872. (Ordered home.)

Nassau, 4, screw surveying-vessel, Com. R. H. Napier, China. Commissioned at Malta Oct. 25, 1873.

Nereus, 2, store ship, Staff-Com. J. R. Petch, Coquimbo. Recommissioned at Valparaiso April 1, 1868.

Netley, 2, screw-gunboat, Lieut. J. L. Heane, tender to Favourite, Queensferry, N.B.

Newcastle, 31, screw-frigate, Capt. R. G. Douglas, Detached Squadron. Commissioned at Sheerness Sept. 21, 1874. (Ordered home.)

Nymphe, 9, screw-sloop, Capt. S. P. Townsend, Australia. Commissioned at Sheerness Jan. 5, 1875.

Opal, 14, screw-corvette, Capt. F. C Robinson, Pacific. Commissioned at Sheerness Jan. 10, 1876.

Orontes, 2, iron screw troopship, Capt. E. H. Seymour, particular service. Commissioned at Portsmouth Feb. 7, 1876.

Orwell, 2, gunboat, Lieut.-Com. R. H. L. Cornwall, Coast of Ireland. Recommissioned at Devonport Feb. 23, 1876.

Osborne, Royal paddle-yacht, Com. H. L. Pearson, Portsmouth. Commissioned at Portsmouth June 12, 1874.

Pallas, 8, screw-corvette, Capt. H. H. Beamish, Mediterranean. Recommissioned at Malta Dec. 8, 1875.

Pearl, 17, screw-corvette, Commodore Hoskins, Australia. Commissioned at Portsmouth May 22, 1873. (Ordered home.)

Pembroke, 1, screw block-ship, Capt. J. C. Soady, flagship of Rear-Admiral Fellowes, C.B., Chatham. Commissioned at Sheerness April 1, 1873.

Pert, 4, double-screw composite gun-vessel, Com. H. C. Aitchison, North America and West Indies. Commissioned at Devonport July 1, 1875.

Pheasant, 2, screw gunboat, Lieut. T. Suckling, tender to Endymion, Hull.

Philomel, 3, double-screw gun-vessel, Com. H. H. Boys, East Indies. Commissioned at Sheerness Aug. 22, 1873.

Pigmy, 2, paddle-vessel, Staff-Com. Hewlett, tender to Duke of Wellington, Portsmouth.

Pioneer, 6, composite paddle-vessel, Lieut.-Com. E. Hotham, Cape of Good Hope and West Coast of Africa. Commissioned at Sheerness July 3, 1876.

Plover, 3, double-screw gun-vessel, Com. H. B. Stewart, North America and West Indies. Commissioned at Portsmouth June 1, 1876.

Porcupine, 1, paddle surveying-vessel, Staff-Capt. J. Parsons, tender to Fisgard.

President, 10, Naval Reserve drill-ship, Com. L. B. Solly, West India Docks. Recommissioned Jan. 1, 1873.

Raleigh, 22, iron screw-frigate, Capt. G. Tryon, C.B., Mediterranean. Commissioned at Chatham Jan. 13, 1874.

Rapid, 3, screw-sloop, Com. A. FitzGeorge, Mediterranean. Recommissioned at Malta Feb. 1, 1875.

Ready, 4, double-screw composite gun-vessel, Com. Stanhope Grove, Gibraltar. Commissioned at Chatham April 16, 1873. (Ordered home.)

Renard, schooner, Lieut.-Com. H. J. Pugh, Australia. Recommissioned at Sydney Sept. 11, 1875.

Repulse, 12, screw armour-plated ship, Capt. F. W. Wilson, Pacific, flagship of Rear-Admiral De Horsey. Commissioned at Portsmouth July 9, 1872.

Research, 4, armoured screw-sloop, Capt. Earle, Mediterranean. Recommissioned at Malta Aug. 17, 1875.

Resistance, 16, screw armour-plated ship, Capt. C. W. Hope, Channel Squadron. Commissioned at Devonport July 9, 1873.

Revenge, 28, screw-ship, Capt. H. R. Wratislaw, flagship of Rear-Admiral Hillyar, C.B., Queenstown. Recommissioned July 1, 1876.

Rifleman, 4, double-screw composite gun-vessel, Com. F. S. Clayton, East Indies. Recommissioned at Bombay April 14, 1876.

Ringdove, 3, double-screw gun-vessel, Com. U. C. Singleton, China. Recommissioned at Hong Kong Feb. 1, 1873. (Ordered home.)

Rocket, 4, composite screw gun-vessel, Lieut. Com. C. R. Harris, Pacific. Commissioned at Sheerness Sept. 9, 1874.

Rover, 18, iron screw-corvette, Capt. T. Barnardiston, North America and West Indies. Commissioned at Chatham Dec. 14, 1875.

Royal Adelaide, 13, Capt. J. O. Hopkins, flagship of Admiral Sir T. Symonds, K.C.B., Devonport. Recommissioned Jan. 1, 1877.

Rupert, 4, double-screw iron-clad ram, Capt. W. J. Hunt Grubbe C.B., Mediterranean. Commissioned at Chatham May 25, 1876.

Salamis, 2, paddle despatch-vessel, Com. F. W. Egerton, Channel Squadron. Commissioned at Devonport Aug. 29, 1876.

Sandfly, schooner, Lieut.-Com. J. J. Bell, Australia. Recommissioned at Sydney Jan, 11, 1876.

Sapphire, 14, screw-corvette, Capt. E. H. Murray, Australia. Commissioned at Devonport Aug. 9, 1875.

Sappho, 4, composite screw-sloop, Com. N. S. F. Digby, Australia Commissioned at Chatham Aug. 26, 1874.

Seaflower, 8, brig, Lieut.-Com. R. H. Eyre, Lisbon. Commissioned at Portsmouth Oct. 13, 1875.

Seagull, 3, double-screw gun-vessel, Com. M. Heron, Devonport. Commissioned Jan. 9, 1877.

Sealark, 8, brig, Lieut. F. H. Haygarth, Lisbon. Commissioned at Devonport Oct. 13, 1875.

Serapis, 3, Indian troopship, Capt. G. D. Davidson, Portsmouth. Commissioned at Portsmouth Oct. 2, 1876.

Shah, 26, iron screw-frigate, Capt. F. G. D. Bedford, Pacific. Commissioned at Portsmouth Aug. 14, 1876.

Sheldrake, 4, screw composite gunboat, Lieut.-Com. J. B. Haye, China. Commissioned at Devonport Dec. 16, 1875.

Simoom, 2, iron-screw troopship, Capt. R. G. S. Pasley, particular service. Commissioned at Devonport May 5, 1873.

Sirius, 12, screw-corvette, Capt. G. L. Sulivan, Cape of Good Hope and West Coast of Africa. Commissioned at Devonport Sept. 6, 1875.

Spartan, 12, screw-corvette, Capt. R. E. Tracey, East Indies. Commissioned at Sheerness June 15, 1876.

Spiteful, 6, paddle-sloop, Com. A. T Fowlett, West Coast of Africa. Commissioned at Portsmouth July 31, 1873.

Sprightly, paddle-vessel, Nav.-Lieut. W. J. Tregidgo, tender to Duke of Wellington, Portsmouth.

Squirrel, 8, sloop, Lieut. R. N. Hamond, Lisbon. Commissioned at Devonport Oct. 13, 1875.

St. Vincent, 22, training-ship for boys, Commander A. T. Brooke, Portsmouth. Recommissioned April 1, 1876.

Sultan, 12, iron screw armour-plated ship, Captain H.R.H. the Duke of Edinburgh, K.G., Mediterranean. Recommissioned Feb. 25, 1876.

Supply, 2, iron screw-storeship, Staff-Com. Frank Inglis, Cape of Good Hope and West Coast of Africa. Commissioned at Chatham Dec. 16, 1873.

Swiftsure, 14, armour-plated screw-ship, Capt. J. K. E. Baird, Mediterranean. Recommissioned at Devonport April 18, 1875.

Swinger, 4, composite gunboat, Lieut. E. A. Bolitho, China. To be recommissioned at Hong Kong.

Sylvia, 3, screw surveying-vessel, Capt. B. W. Bax, China. Commissioned at Sheerness Nov. 13, 1873.

Tamar, 2, iron screw troopship, Capt. W. H. Liddell, particular service. Commissioned at Devonport Oct. 3, 1876.

Teazer, 4, double-screw composite gun-vessel, Com. C. Wodehouse, East Indies. Commissioned at Sheerness Oct. 7, 1875.

Terror, 8, screw armour-plated floating battery, Captain L. E. H. Somerset, Bermuda. Recommissioned Jan. 1, 1874.

Thetis, 14, screw-corvette, Capt. T. Le H. Ward, East Indies. Commissioned at Devonport Feb. 1, 1873, (Ordered home).

Thistle, 4, double-screw composite gun-vessel, Com. E. B. Pusey, China. Recommissioned at Hong Kong Dec. 1, 1874.

Topaze, 28, screw-frigate, Captain A. Thrupp, Detached Squadron. Commissioned at Devonport Oct. 9, 1872. (Ordered home.)

Torch, 5, screw gun-vessel, Com. R. H. Hamond, Mediterranean. Commissioned at Sheerness Jan. 5, 1871.

Tourmaline, 12, screw-corvette, Capt. F. W. Sullivan, C.B., Cape of Good Hope and West Coast of Africa. Commissioned at Sheerness Oct. 25, 1876.

Trincomalee, 15, Naval Reserve drill-ship, Com. A. J. V. Collins West Hartlepool. Recommissioned Jan. 1, 1873.

Triumph, 14, iron screw-ship, armour-plated, Capt. Parkin, flagship of Rear-Admiral Rice, Mediterranean. Commissioned at Devonport Nov. 12, 1873.

Tyrian, screw-gunboat, Lieut. A. H. Duthie, tender to Favorite, Queensferry.

Undaunted, 31, screw frigate, Capt. H. W. Brent, flagship of Rear-Admiral Macdonald, K.C.S.I., East Indies. Commissioned at Sheerness March 2, 1875.

Unicorn, 10, drill-ship for the Naval Reserve, Com. W. E. S. Brome Dundee. Recommissioned Jan. 1, 1874.

Valiant, 18, screw armour-plated ship, Captain N. Salmon, V.C., Coast-guard, River Shannon. Recommissioned April 1, 1876.

Valorous, 6, paddle-frigate, Capt. L. F. Jones, particular service. Commissioned at Devonport Feb. 26, 1875.

Vernon, torpedo school-ship, Capt. W. Arthur, Portsmouth. Commissioned April 26, 1876.

Vestal, 9, screw-sloop, Com. H. Hand, East Indies. Commissioned at Portsmouth July 14, 1875.

Vesuvius, double-screw torpedo-vessel, Capt Singer, Portsmouth, tender to Vernon.

Victoria and Albert, 2, Royal paddle-yacht, Capt. Hugh Campbell, Portsmouth. Recommissioned Jan. 1, 1870.

Victory, 26, tender to Duke of Wellington, Portsmouth.

Victor Emanuel, 2, screw receiving-ship, Commodore G. Watson, Hong Kong. Recommissioned Dec. 1, 1874.

Vigilant, 2, paddle despatch-vessel, Lieut.-Com. H. C. Ryder, China. Commissioned at Portsmouth Sept. 1, 1874.

Vivid, paddle-vessel, Staff-Com. Edwin Wise, tender to Royal Adelaide, Devonport.

Volage, 18, screw corvette, Capt. Henry Fairfax, South-East Coast of America. Commissioned at Portsmouth July 6, 1874.

Vulture, 3, double-screw gun-vessel, Com. H. Washington, East Indies. Commissioned at Sheerness Dec. 28, 1876.

Warrior, 32, armour-plated iron screw-ship, Captain W. H. Whyte, Coast-guard service, Portland. Commissioned at Portsmouth April 1, 1875.

Wildfire, paddle-vessel, Staff-Com. R. L. Cleveland, tender to Duncan, Sheerness.

Wizard, 2, screw-gunboat, Lieut.-Com. W. Neilson, Mediterranean. Recommissioned Malta Feb. 1, 1875.

Wolverene, 17, screw-corvette, Capt. L. Brine, Australia. Commissioned at Sheerness Aug. 1, 1876.

Wye, iron screw storeship, Staff-Com. W. W. Vine, particular service, Commissioned at Chatham April 15, 1875.

Zephyr, 4, composite gunboat, Lieut.-Com. W. G. Le Cocq. North America and West Indies. Recommissioned at Halifax Sept. 27, 1876.

NAVAL PRIZE MONEY.

The following notices appeared in last night's *Gazette*:—

Preparations are being made for the intended distribution of the slave bounty awarded for seven slaves, captured on March 1, 1876, by her Majesty's ship London.

Also for the intended distribution of the tonnage bounty awarded for the slave dhow Chua, captured on March 12, 1876, by her Majesty's ship London.

Also for the intended distribution of the slave and tonnage bounties awarded for two slaves and a slave dhow, name unknown, captured on March 19 and 25, 1876, respectively, by her Majesty's ship London.

Agents or other persons having any just and legal demand, unliquidated, against the said awards, are required to transmit the particulars of any such demand to the Registrar of the High Court of Admiralty, in order that the same may be examined, taxed, and allowed by that officer, and paid under the sanction of the judge of the said court.

Due notice will be given of the date proposed for the commencement of distribution, and the amount of an individual's share in the respective classes will be announced.

Notice is also given to the officers, seamen, and Marines, and to all persons interested therein, that the distribution of the tonnage bounties awarded for two slave dhows, names unknown, captured on Jan. 28 and 29, 1875, by her Majesty's ship Thetis, will commence on Friday, the 2nd prox., in the Prize Branch of the Department of the Accountant-General of the Navy and Comptroller of Navy Pay, Admiralty, New-street, Spring-gardens, S.W.

The following are the shares due to an individual in the several classes:—

Flag, £38 13s. 9d.; captain, £112 4s. 0d.; second class, £22 12s. 0d.; third class, £19 7s. 4d.; fourth class, £12 18s. 4d.; fifth class, £7 14s. 11d.; sixth class, £6 9s. 2d.; seventh class, £4 10s. 5d.; eighth class, £2 11s. 8d.; ninth class, £1 5s. 9d.; tenth class, 12s. 10d.

Also that the distribution of the tonnage bounty awarded for a slave dhow, name unknown, captured on Feb. 5, 1875, by H.M.S. Thetis, will commence on Friday, the 2nd prox., in the Prize Branch of the Department of the Accountant-General of the Navy and Comptroller of Navy Pay, Admiralty, New-street, Spring-gardens, S.W.

The following are the shares due to an individual in the several classes:—Flag, £21 10s. 6d.; captain, £62 8s. 7d.; second class, £12 11s. 0d.; third class, £10 15s. 2d.; fourth class, £7 3s. 6d.; fifth class, £4 6s. 0d.; sixth class, £3 11s. 9d.; seventh class, £2 10s. 3d.; eighth class, £1 8s. 8d.; ninth class, 14s. 4d.; tenth class, 7s. 2d.

Also that the distribution of the slave and tonnage bounties awarded for a slave dhow, name unknown, captured on the Sept. 9th, 1875, by her Majesty's ship Thetis, will commence on Friday, the 2nd proximo, in the Prize Branch of the Department of the Accountant-General of the Navy and Comptroller of Navy Pay, Admiralty, New-street, Spring-gardens, S.W.

Agents and other persons holding powers of attorney, prize orders, assignments, or other instruments, by virtue of which they may be legally entitled to claim the share of any captor serving in the above-named ship, are requested to present the same at this office.

Any officer, seaman, Marine, or other person who may desire to receive his share from the Collector of Customs or of Inland Revenue within the United Kingdom, is required to intimate the same by letter to be addressed "On Prize Business, to the Accountant-General of the Navy and Comptroller of Navy Pay, Admiralty, London S. W." (enclosing his certificate of service, or an attested copy thereof, excepting in the case of commissioned officers), in which letter his own place of residence is to be precisely stated, as well as the place of the nearest Collector of Customs or of Inland Revenue, from whom it would be convenient to receive such share of prize money.

The following are the shares due to an individual in the several classes:—Flag, £42 9s. 6d.; captain, £123 3s. 5d.: second class, £25; third class, £21 8s. 6d.; fourth class, £14 5s. 8d.; fifth class, £8 11s. 5d.; sixth class, £7 2s. 10d.; seventh class, £4 19s. 11d.; eighth class, £2 17s. 2d.; and ninth class, £1 8s. 6d.

THE RESISTANCE OF SHIPS.

This subject formed the topic of the third lecture of the course now being delivered at the Royal Naval College, Greenwich, by Mr. W. H. White, Assistant Constructor of the Navy. Like the preceding lectures, that on Wednesday last was attended by a large number of naval officers, and the object aimed at by the lecturer was to put before them, in popular language, the main features of the modern or "steam line" theory of resistance. The motion of a ship through water presents a problem of great difficulty, never yet completely solved; but certain leading conditions are now firmly established. Such, for example, as the importance of the friction of the water on the bottom of a ship; the necessity for securing certain lengths of entrance and run, in order that the speed desired may be obtained without an extravagant expenditure of power; and the desirability of avoiding bluffness at the extremities, particularly at the stern of a ship. These and other matters of interest were explained and illustrated by reference to existing ships, and to the very valuable series of experiments which Mr. Froude has been conducting for some years past under the authority of the Admiralty. Before the experiments with models began, grave doubts were expressed as to the possibility of accurate approximation from the trials of models to those of full-sized ships. So lately as 1869 a committee of the British Association reported in this sense, and advised experiments with actual ships, these experiments to be made on one of the Norway fiords or some other suitably large area of still water. Mr. Froude maintained the contrary opinion then, and has since established his view that model experiments may be trusted. Perhaps the most complete proof was that which was furnished by the comparison of the actual resistance of the Greyhound when towed by the Volage, with the resistance of a model of the Greyhound; but there have been many indirect proofs in the performances of ships of which the engine-power has been determined by experiments on the resistances of the model. The gunboats of the Medina class in the Royal Navy furnish the latest illustrations of this, and in them the forms and proportions originally contemplated were abandoned in favour of those actually adopted after trials with models had shown that the latter led to a considerable decrease in resistance, and consequently to less engine-power. Mr. White further contrasted the conditions to be fulfilled in merchant ships with those of war ships, showing that much greater proportions of length to breadth were admissible in the former, because war ships required to be handy under steam, and in many cases must be stiff enough to carry sail. Any theoretical "form of least resistance" requires to be modified in practice to suit other essential conditions; and very frequently these conditions impose the adoption of forms which lead to a resistance considerably greater than would be incurred if the designer were free to choose his forms and proportions.

ADMIRALTY ADMINISTRATION.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

Sir,—When addressing his constituents in 1875, Mr. E. J. Reed remarked:—" . . . In the ships which the Admiralty are building (Agamemnon, Ajax, &c.) this specific characteristic of the citadel ship has been thoroughly grasped, and the ships are of such proportion, and the citadel of such form and size, as to make the ships perfectly secure against the particular danger to which he had adverted." When writing to the *Times* in 1877 (see *Times*, Friday, 19th inst.) Mr. E. J. Reed says:—"We are building at the present time (including ships launched but incomplete) the following ironclads . . . Agamemnon, Ajax, &c. &c. . . . Now, no man of common sense will contend, I think, that the services of our ironclads are so excessively various as to justify such variety as this," What various variety in a vacillating Reed! These armour-plated vessels are those Mr. E. J. Reed referred to in his speech to his constituents in 1875. With the exception of the Dreadnought, they are all built on the central citadel principle. The Dreadnought was originally laid down as the Fury. She was designed by Mr. E. J. Reed himself, at an original cost of £508,395. Mr. Reed designed thirty-one armour-plated vessels at a cost of between ten and twenty millions sterling. Twenty-eight of these are still afloat. In addition to these "Reed-ships," designed on the theory of "the beauty of ugliness" propounded by Mr. Reed at Portsmouth, England owns at this moment twenty finished and unfinished armour-plated vessels. Thirteen of these were designed before Mr. Reed's day, and the remaining seven are of the Reed-Barnaby type, known as the central citadel ships. Mr. E. J. Reed's letter, published by the *Times* on Friday, last week, is calculated to entirely mislead the public. The Admiralty administration of the day may be, and most undoubtedly is, bad; but the administration of naval affairs during Mr. E. J. Reed's sojourn at the Admiralty was incomparably worse.—I am, &c., **Robert H. Armit**, Lieut. (Ret.) R.N.

Several donations for scholarships have been made recently to the Military College at Cowley, near Oxford. These include two exhibitions of £30 and £20 respectively, for two years, by an anonymous donor, whilst Sir William Armstrong has given £100 and Lord Berwick £10 towards the foundation of a third scholarship. The exhibitions will be offered by the Governor of the College for competition on April 10, to sons of officers or to candidates for the Service (whether sons of officers or not), between the ages of thirteen and fifteen. There are at present fifty students at Cowley, the College being full, and arrangements having had to be made for additional accommodation to be provided.

The Achilles, steam-transport, is loading at the new pier of the Royal Arsenal, Woolwich, with stores for Malta and the fleet in the Mediterranean. She has already on board a large freight of naval stores of various kinds, and she is receiving at Woolwich some 25-ton guns, iron plates for the island fortifications, and shot and shell of various sizes. About forty tons of ammunition have been sent down in barges to Gravesend, where, in accordance with the Admiralty regulations, explosive goods are always embarked both by steamers and by sailing vessels of more than eighteen feet draught.

A rumour, which found considerable credence, was current a few days ago that the report of the committee which has been sitting at the War Office had actually been forwarded to the Treasury. We are, however, in a position to assert that up to Friday it had not gone beyond the Secretary of State for War. It will be found, we have reason to believe, to recommend a reduction in the number of appointments of the Higher Division, the introduction of men clerks of the Lower Division, and the adoption of a system of decentralisation, or local audit, similar to that in vogue at the dockyards and victualling yards. It is not likely, in any case, that the changes will be introduced in time to be included in the Estimates for the coming financial year.—*Civil Service Review.*

It is stated that the Duke of Edinburgh has signified his acceptance of the office of patron of the new Sailors' Home, Bombay. His Royal Highness has also granted his permission to its being styled the "Alfred Sailors' Home."

The importance of disinfectants being carried on board H.M.'s ships cannot be better illustrated than by the arrival of the troopship Serapis last Sunday at Portsmouth with the yellow flag flying, indicating—which unfortunately proved only too correct—that small-pox was on board. The Chloralum Company has been recognised by the Board of Trade, their disinfectant having been included in the Medical List to be carried by all British merchant ships leaving any port of the United Kingdom. Chloralum is non-poisonous, and does not deteriorate by keeping, but retains its power of neutralising fetid organic ammonias and other compounds which constitute the bases of offensive animal and vegetable emanations. It has also the advantage of being portable and inexpensive.

Furnish on the New Hire System.—The "New Hire System" is quite distinct from anything yet attempted. Houses furnished throughout. 20 Wholesale Houses to select goods from. "An excellent idea."—"Army and Navy Gazette." Prospectus, with Press opinions, post-free. General Furnishing Company—Offices, 9, Southampton-street, Strand.

ROYAL NAVAL COLLEGE.

The following details of subjects for instruction and examination of acting sub-lieutenants and acting navigating sub-lieutenants at the Royal Naval College have been approved by the Admiralty, and are to be substituted for those hitherto in force:—

	Full number of marks obtainable at Examination.
1. **Algebra.**—Fundamental operations, fractions, simple equations, involution and evolution, theory of indices, quadratic surds, quadratic equations, proportion, the three progressions, elements of the theory of logarithms, including the use of logarithmic tables	125
2. **Geometry.**—Up to the standard of the Sixth Book of Euclid's "Elements" ...	125
3. **Trigonometry.**—Definitions and fundamental formulæ, solution of plane and spherical triangles...	125
4. **Mechanics.**—Elements of statics, dynamics, and hydrostatics	125
5. **Physics.**—Mechanical properties of liquids and gases, optics, heat, and magnetism; including construction and use of the barometer, telescope, microscope, theodolite, sextant, dry and wet bulb thermometers, Azimuth compass	100
6. **Steam Engine.**—Heat, steam, boilers, engines, and propellers	100
7. **French.**—Writing from dictation, pronunciation, grammar, translation from French to English, and from English to French	100
8. **Winds and Currents.**—Prevailing winds and currents, their geographical limits, and their changes at different seasons; cyclones, their characteristics, localities, seasons, rotation, and track; relation of barometric pressure to prevailing winds and storms; Buys-Ballot's law; leading theories of winds and currents, rains, and rain seasons	100
9. **Practical Navigation.**—The sailings, dead reckoning, Mercator's chart, passage of bright stars over meridian, latitude by meridian altitudes, by altitude of the Pole Star, by altitudes near the meridian, and by double altitudes; longitude by chronometer and by lunar distance; error and rate of chronometer by single altitude and by equal altitudes; variation of compass by amplitude, by altitude Azimuth, and by time Azimuth; time of high water ...	200
10. **Nautical Astronomy.**—Definitions and principles, investigation of all processes and formulæ, explanation of all corrections used, Sumner's method, problems ...	200
11. **Nautical Surveying.**—Use of charts, rating of chronometers, determination of meridian distance, selection and measurement of a base line, determination of latitude, longitude, and true bearing, triangulation, levelling, soundings, fixing positions, tide gauge, establishment of the port...	100
12. **Instruments.**—Construction and use of marine barometer, sextant, artificial, horizon, Azimuth compass, theodolite, and level	40
13. **Observations.**—Of the sun, for determining latitude, error of chronometer and variation of compass	60
	1,500

The number of marks required to be obtained is as follows, viz.:—For a first-class certificate, 1,250 and upwards; for a second-class certificate, 1,000 and upwards; for a third-class certificate, 750 and upwards. No certificate will be granted unless at least thirty marks have been obtained for observations (subject 13). One-sixth of the total number of marks allotted to each subject must be obtained to entitle an officer to a first or second-class certificate. The regulations contained in Art. 77, page 26, of the Addenda to the Queen's Regulations and Admiralty Instructions, will remain unaltered, except as to the number of marks necessary to qualify an officer for the half-yearly prize of a lieutenant's commission, which will be 1,300 instead of 925.

Beaufort Prize.—Candidates for the Beaufort Testimonial should signify their intention of competing to the President of the College one month before the time for their examination; more searching questions will be set in all subjects.

A list of the text-books used at the College is subjoined for the information of the above classes of officers.

List of Text Books.

Hamblin Smith—Arithmetic, algebra, plane trigonometery, elementary statics, and elementary hydrostatics. Todhunter.—Spherical trigonometery, elements of Euclid, and mechanics. Ganot, or Balfour Stewart.—Natural philosophy, and lessons in elementary physics. Laughton.—Practical and theoretical nautical surveying, physical geography in its relation to the prevailing winds and currents. Hull.—Practical nautical surveying. Jeans, or Raper.—Nautical astronomy and Navigation, practice of navigation, and nautical astronomy. Evers.—Steam and the steam-engine.—(On the first perusal of this work the following paragraphs are omitted, viz.:—54, 59, 78, 79, 94, 95, 135, 136, 148 to 156, 160 to 163, 169, 170, 175, 189, 203 to 213, 242 to 302, 310 to end).

Rossetter's Hair Restorer.—This unrivalled preparation has now been before the public for many years, and as its success has led to several spurious imitations, the public should be on their guard. Rossetter's preparation is the only one that will with certainty restore grey hair to its original colour, remove dandruff, prevent the hair from falling off, promote its growth, and give it the lustre of youth.

INDIA.

The musketry practice of the Armies in India, both European and Native, is a matter which attracts so much attention, and is of so much importance in the present day, that we (*Times of India*) take the opportunity of the publication of a return showing what figures of merit have been scored by the various regiments up to the end of October, to call attention to the results obtained. Of the European corps that have practised in this Presidency, the best at present is the 55th, whose figure is 93·45. One regiment, out of which 169 men have been exercised, has, we regret to notice, the amazingly low figure of merit of 29·74, and out of the 169 men, only two are marksmen. But as the practice is not very far advanced at present, we shall not comment on this, but will content ourselves with the expression of a hope that the next return published will show a greatly increased average. The total figure of merit established by ten and a company of Engineers that have been engaged in the annual course is 59·58, but we have no doubt that this will be very considerably improved upon before the end of the season. We now turn to the Bengal Presidency, and here we find that up to the end of October 18 British Infantry corps had been practising with a total figure of merit of 79·56, and we notice that out of 2,116 European soldiers who have gone through their course, there are 395 marksmen. In the Bombay Presidency out of 1,523 soldiers who have been exercised there are 193 marksmen, which is a far smaller proportion. In other respects, too, the European regiments in Bengal show a considerable superiority over their comrades on this side. There, the figures of merit of the three best regiments, namely, the 1-11th, the 72nd, and 59th are, respectively, 98·92, 95·06, and 93·67, against the 93·45, 80·10, and 71·20 of the 55th, the 1-2nd, and the 68th Regiments in the Bombay Presidency. In Bengal, too, the lowest figure of merit is 56·23, whereas on this side we have seen it is 29·74, unless, indeed, as we are half inclined to suspect, the 29·74 is a misprint for something far higher, as last season this very regiment shot very well indeed, and the men composing it are a very fine, smart body of men. And now let us ask why the British soldier should shoot better in Bengal than in Bombay? We shall be told that the invigorating and bracing climate of most stations of Bengal during the cold season has much to do with it. It may be so, but last musketry season the regiment that shot nearly as well as any in India was the 2-25th, whose figure was 100·97, and this regiment went through its annual course at Aden, the climate of which is not particularly bracing or invigorating, but something very much the reverse. It may be as well to state here that we draw these comparisons in no spirit of fault-finding and with no desire to exalt one Presidency or one set of regiments at the expense of another. The subject is a very interesting one to a large number of people, and it is useful and instructive to compare the results obtained by men firing under identical conditions, but in different parts of India. We now turn to the statement of the performances of the Bengal Native regiments up to the end of October, and here we are met with the startling figure of merit of 127·18 achieved by the 29th Punjab N.I., which regiment heads the list at present. As only two companies of the 29th have practised as yet, this figure of merit will be considerably diminished in all probability before the whole regiment has been exercised, but it is a remarkable performance as it stands, and it is well worthy the attention of Bombay officers, to whom such a high figure of merit must seem unattainable in their own corps. The next Bengal regiment on the list is the 5th P.N.I., with 119·71, but only one company has gone through the course. The 11th N.I., of which 325 men have been exercised, has achieved the very respectable figure of 107·98. There are altogether fourteen regiments of Bengal Native Infantry whose figure of merit is over a hundred at present, and out of the 3,635 sepoys who have completed their firing, there are 652 marksmen. We are unable to compare these results with the practice of the Bombay Army for the same period, because a monthly return for the Native troops is not published in this Presideney. This is much to be regretted, and we would suggest to Major Waring, the able Assist. Adjt.-Gen. for Musketry, the advisability of introducing it without loss of time. One thing is certain. The Bengal regiments are bringing their firing practice to such perfection that they not only leave the Armies of Bombay and Madras far behind, but they beat British corps. This is very remarkable, and knowing, as we do, how much the performance of a regiment depends upon the trouble and care the European officers devote to preliminary musketry training, and to pointing out errors on the range, we must say this result reflects great credit on the officers of the Bengal Army.

The following is the text of the Order issued in India for the proclamation parade on the 1st inst.:—"Simla, Dec. 14.—The Commander-in-Chief is pleased to direct that a full-dress parade of all the troops in every garrison or cantonment under his Excellency's command be held at noon on Monday, Jan. 1, 1877, on the occasion of the proclamation announcing the assumption by her Majesty of the Imperial addition to her titles. The troops will be drawn up at open order, Artillery in action on the right, or, if more than one battery is present, on both flanks. When the general or other commanding officer arrives on the ground Artillery and Cavalry will carry swords and Infantry will shoulder by order of their respective commanding officers. The general or other commanding officer will then take command of the parade and give the words 'Unfix bayonets,' 'The brigade will fire a *feu de joie*.' On this caution Artillery not in action and Cavalry will slope swords. The Artillery in action and Infantry regiments, when armed with Enfields, will then 'load' by order of their respective commanding officers. The chief civil authority in every station will then come forward, and, in the presence of the assemblage and troops, read the proclamation announcing the assumption by her Majesty of the Imperial addition to her titles, as published in the *Gazette of India* of Aug. 26, 1876. On a signal from the general or other commanding officer the Artillery on the right will fire thirty-four guns, and, after the last gun is fired, the first round will be fired by the Infantry. The bands of the Infantry, massed in rear of the brigade, will then play the first part of the National Anthem. Thirty-four more guns will then be fired by the Artillery on the left, if any be placed there, followed by a second round from the Infantry and the second part of the National Anthem. The last thirty-three guns by the Artillery on the right, followed by a third round from the Infantry, will then be fired, and when finished, the whole of the National Anthem will be played by the band. The Artillery in action will then limber up and move into line at order with the brigade. The general or other commanding officer will then give the following cautions: 'Fix bayonets.' 'Royal salute.' Cavalry and Artillery will carry swords, Infantry will present arms, standards and colours will be lowered, and the bands will play the whole of the National Anthem. 'The brigade will shoulder.' 'The brigade will order and unfix bayonets' (Artillery and Cavalry 'return swords'). The brigade will give 'three cheers for her Most Gracious Majesty the Queen, Empress of India.' At this caution all helmets will be taken off, and the officer commanding the parade will give the time. The brigade will then take close order, march past in quick time, if ordered, and then proceed direct to quarters. During this parade the general officer and Staff will take post as laid down in paragraph 4, section 2, part VI. Field Exercises of 1874, and will join in the salute. It is to be understood that the occasion is a holiday, and on this parade the officer in command is to receive no general salute, nor is there to be any parade exercise; the march past, if ordered, will be only in quick time.—P. S. LUMSDEN, Major-Gen., Adjt.-Gen. in India."

Referring to the new Military Secretary at the India Office, the *Homeward Mail* remarks:—"Gen. Pears has at length finally delivered up his keys as Military Secretary at the India Office, and Col. A. B. Johnson, Bengal S.C., who was some time since appointed his successor, entered upon his official duties on Jan. 17. We have no desire to throw heavy duty upon the new Secretary, and we stand so much in awe of the new regulations as to hesitate to supply forms of petition or suggest concerted action for redress of grievances. But we honestly believe that the new Secretary will read memorials which may come before him without regard to the past. Many circumstances have led to the opinion that the late Military Secretary was so strong in his convictions that appeals were almost certain to be met with a curt dismissal of the subject as one already dealt with. A Military Secretary must, of course, be infallible, and to reopen questions once settled would be folly. In this spirit the appeals from the officers of the Ordnance corps and the general appeal for relief from losses of exchange have been dealt with. It is true there was one notable exception, in which Lieut.-Col. Boisragon won a victory, but it was the exception proving the rule. We have not heard that those who participated in the advantages that were thus secured in any way signified their approbation of the efforts made on their behalf. But that is altogether by the way. Those who yet have good reason to memorialise the Government should, as we have said, note the fact that there is a new ruler in the Military Department of the India Office, and that Col. Johnson has the highest reputation for being a man of unbiassed mind and a painstaking official. The privilege of appeal will, we feel sure, be not abused by officers on that account."

According to the *Pioneer*, "it has been fully determined to reduce the present garrison of two British regiments at Peshawur to something less than half that amount as soon as money can be spared for the erection of barracks in a more salubrious spot not too far removed from the frontier; and if Lord Lytton sees the measure carried out in his time," observes our contemporary, "he will have earned for himself the gratitude of soldiers to come, whose tour of duty would otherwise have taken them to this pestilential region. But it is possible his lordship may find himself checked in the Financial Department by the want of funds, and thus the matter may drift into a pigeon-hole with many other well-intentioned projects which are stifled in their birth. Not that the present can be termed a new-born idea, for the excessive mortality of our troops in the Peshawur Valley has periodically forced the question on the Government since long before the mutiny. It has, however, always been laid down at the point where it was originally taken up; and although the office shelves at Calcutta were burdened with the weight of opinions expressed on the subject by every official able to give one, the British soldier was as far as ever from evading this perilous service until the recent visit of the Governor-General to this corner of his jurisdiction once more brought the burning question to light."

The *Times* understands that "Major-Gen. J. A. Ewart C.B., will in all probability proceed to India to assume command of the Rawul Pindee Division of the Bengal Army, in succession to Major-Gen. Macdonell, whose period of service expires in March. Gen. Ewart was formerly in the 78th and 93rd Highlanders, and has seen much active service."

The Government of India are said to have determined to arm the Bengal Cavalry regiments with breech-loading carbines. It is expected that the first distribution will take place among the Punjab Frontier Force Cavalry.

Col. A. W. Lucas, Bombay S.C., has been permitted to proceed to England from India.

Major-Gen. W. G. Owen, Madras Infantry, is vacating his command of a brigade of the Madras Army on promotion,, and will be succeeded by an officer of the Local Army.

Col. C. C. Johnson, Bengal S.C, has arranged to leave England on the 8th prox., *en route* to Calcutta, to resume duty as Deputy Qrmr.-Gen.

Major-Gen. A. Fytche, C.B., and Col. G. C. Hatch, Bengal S.C., have succeeded to colonel's allowances, the former from the 11th, and the latter from the 12th ult.

FOREIGN MILITARY.

According to the *Morning Post's* Berlin correspondent "there are at present fifteen members of foreign reigning families proprietary colonels of Prussian regiments. The list includes the Emperor of Austria, who is colonel of a regiment of Foot Guards, and also of the 16th Regt. of Hussars; Archduke Albrecht and Leopold of Austria, who are both colonels of regiments of Grenadiers; Archduke Charles Louis of Austria is colonel of a regiment of Lancers, Archduke William of a regiment of Artillery; the Czar is colonel of three Prussian regiments—one of Foot Guards, one of Cuirassiers, and one of Lancers; the Cesarewitch is colonel of a regiment of Lancers, Grand Duke Constantine of a regiment of Lancers, Grand Duke Nicholas of a regiment of Cuirassiers; Grand Dukes Michael, Vladimir, and Alexis each lend their names to a regiment of Hussars, so do the King of the Netherlands and Prince Humbert of Italy; Prince Frederick of the Netherlands is colonel of a regiment of the Line. The above list does not include the Duke of Edinburgh, whose regiment is not Prussian, though under Prussian command in virtue of a military convention."

The Paris *Temps*, giving the substance of a letter from Bessarabia on the Russian Army there, says:—"The Army is composed of four corps of Infantry, each having two divisions, of four divisions of Cavalry, and 12 regiments of Cossacks. The Artillery consists of about 400 field guns, and there are four bridge equipages. The strength of the force is about 140,000 men, 120,000 of them Cavalry. The *personnel* and *matériel* are good, the soldiers are pretty well clad and well armed, and the Cavalry is very well mounted. The Cossacks form an excellent light Cavalry. The Artillery are well horsed. The administration, however, leaves much to be desired. The equipage train is entirely wanting in the Russian Army, and the lack of this important part of the *matériel* is seriously felt; and the Commissariat, ambulance, and hospital services are hardly organized at all, or, at any rate, very badly. Great efforts are being made to remedy all these deficiencies. The field hospitals are already ranged; 30 will follow the Army, each of them accommodating 600 patients. The International Society of Assurance for the Wounded has offered the Government 15,000 beds on paying 1f. 30c. per day for each patient. The first supplies of corn, flour, and cattle are assured, but not for a long period." On the other hand, Herr Wickede, the military correspondent of the *Cologne Gazette* during the war of 1870, writes a letter to that paper from Kischeneff of a more favourable tenour. The Grand Duke Nicholas, he says, declares himself to have come there for a serious purpose, and not to amuse himself. The bulk of the officers follow his example, and the *cafés* are very little frequented by them. He praises the bearing and equipment of the Cossack regiments of the Caucasus, reviewed on the 2nd inst., testifies to the excellent state of the sanitary service and material, and commends the field ovens, which provide without difficulty for an Army nearly 200,000 strong. He has seen depôts of compressed hay weighing nearly 30,000,000 kilogrammes.

We (*Times*) are informed that the room especially pointed out in the report which we published from the *Sanitary Record* as being unfit for occupation by the audit clerks has now been closed, and the officials have been accommodated with an apartment in Somerset House. A return has been called for of all clerks absent from illness during the year, with a statement of the nature of their illness.

MARRIAGE.

SHELTON—GOODLAKE.—January 17, at the Priory Church, Great Malvern, by the Rev. Sydney G. Selwyn, Vicar of Milton Clevedon, and Prebendary of Wells Cathedral, uncle of the bride, assisted by the Rev. Heathfield W. Hicks, Rector of Cranford, and the Rev. J. Gregory Smith, Vicar, Willington A. D. Shelton, Esq., late Lieut. 62nd Regiment, eldest son of Lieut.-Colonel Willington Shelton, J.P., Bruree House, Co. Limerick, to Mary Bridget, only daughter of Henry Cox Goodlake, Esq., of Benhams, Great Malvern.

RUPTURES (BY ROYAL LETTERS PATENT)

WHITE'S MOC-MAIN LEVER TRUSS is allowed by upwards of 200 medical gentlemen to be the most effective invention for the curative treatment of hernia. The use of a steel spring, so often hurtful in its effects, is here avoided, a soft bandage being worn round the body, while the requisite resisting power is supplied by the MOC-MAIN PAD and PATENT LEVER, fitting with so much ease and closeness that it cannot be detected, and may be worn during sleep. A descriptive circular may be had, and the Truss (which cannot fail to fit) forwarded by post, on the circumference of the body, two inches below the hips, being sent to the manufacturer,

MR. WHITE, 228, PICCADILLY, LONDON.

Price of a single truss, 16s., 21s., 26s. 6d., and 31s. 6d.; post free. Double ditto, 31s. 6d., 42s., and 52s. 6d.; post free. An umbilical ditto, 42s. and 52s. 6d.; post free. Post-Office Orders to be made payable to JOHN WHITE, Post Office, Piccadilly. Every description of RIDING BELTS, ELASTIC STOCKINGS to draw on, and ELASTIC SILK SUSPENDERS, on new and improved principles.

JOHN WHITE, Manufacturer, 228, Piccadilly London.

PARTNERSHIP.—Employment of Time or Capital.—Required, a gentleman to take an interest in an enormously profitable established financial business. A handsome bonus will be given, and, if an active part taken, additional emoluments. Will bear every investigation. Principals or their solicitors only treated with.—Address, in first instance, stating qualifications and available capital, to "Banker," care of Davies and Co., Advertising Agents, Finch Lane, Cornhill.

OLDRIDGE'S BALM OF COLUMBIA
(ESTABLISHED 50 YEARS)

The best and only certain remedy ever discovered for preserving, strengthening, beautifying, or restoring the
HAIR, WHISKERS, OR MOUSTACHES,
And preventing them turning grey.
Price 3s. 6d., 6s., and 11s.

C. & A. OLDRIDGE,
22, WELLINGTON STREET, STRAND,
LONDON, W.C.,
AND ALL CHEMISTS AND PERFUMERS.

For children it is invaluable, as it forms the basis of a magnificent head of hair, prevents baldness in mature age, and obviates the use of dyes and poisonous restoratives.

CHLORODYNE.—FREEMAN'S is the original and only true.—Lord Chancellor Selborne, Lord Justice James, and Lord Justice Mellish decided in favour of R. Freeman and against J. C. Browne and J. T. Davenport; see "Times" of July 24, 1873. Thousands of medical practitioners testify that there is no substitute for it in the treatment and cure of asthma, bronchitis, coughs, and other chest affections, neuralgia, fevers, cholera, dysentery, spasms, and all nerve pains. Bottles 1s. 1½d., 2s. 9d, 4s. 6d., 11s., and 20s. Sold by patent medicine dealers in all parts of the world. See that "Freeman's Original Chlorodyne" is engraved on the Government stamp.

HOLLOWAY'S PILLS.—It is indisputable that the dark and dreary days of winter depress the mind and disorder the body, the most certain incentives of sickness which will assail those who disregard at such times the all-predominating necessity of purifying, regulating, and strengthening the various organs of the body whose functions are deranged. Holloway's remedies present the most safe and effectual means of attaining these ends. They cleanse the blood from any taint, the body from any noxious matter, and exert such a general good effect on the system, that indigestion, biliousness, headache, dimness of sight, loss of appetite, debility and nervousness disappear under their influence. These Pills may be relied upon by both sexes, under all climates and circumstances.

APPROVED SCHOOL-BOOKS BY W. M'LEOD F.R.G.S.

Revised Edition, in 18mo, price 9d.,

EXPLANATORY ENGLISH GRAMMAR for BEGINNERS; with Practical Exercises on the Parts of Speech, and a Graduated Course of Parsing Lessons. By WALTER M'LEOD, F.R.G.S., late R. M. Asylum, Chelsea.

London: LONGMANS and Co.

MILTON'S SELECT POEMS ANNOTATED AS TEXT-BOOKS FOR STUDENTS BY THE REV. JOHN HUNTER, M.A.

MILTON'S PARADISE LOST, Books I. and II., price 1s. 6d. each; Books III. to V., price 1s each.

"These editions are marked by all Mr. Hunter's well-known editorial skill and diligence. To students preparing for examination, these text-books must be invaluable; but even the general or cursory reader will find frequent aid from the illustrative notes and commentary. The five books of Milton are accompanied by a prose translation, which is a capital model of an analytical paraphrase.—"Schoolmaster."

NAVAL CADETS, ASSISTANT CLERKS,
HOPE HOUSE, SOMERSET-PLACE,
SOUTHSEA.
Principal—Mr. T. H. VICKERY.

In addition to the general course of study pursued at this long-established School, pupils are specially prepared for the examination required for the above.

At the competitive examination in November, 1875, and at the recent examination in June, of candidates for Assistant Clerkships, all the pupils sent up from this Establishment were successful.

TRURO SCHOOL. Founded A.D. 1549.—Special preparation of a limited number for Woolwich, the Line, Navy, and Cooper's Hill. Five experienced and energetic resident masters in mathematics and geometrical drawing, the classics, and English, French, science, and German; besides visiting masters in drawing and English composition.

NAVAL CADETSHIPS, &c. "EASTMAN'S" R.N. ACADEMY, SOUTHSEA. Principal, G. EASTCOTT SPICKERNELL, since 1860.

At the last two Naval Cadet Examinations pupils took the first place.

More than 1,000 pupils have entered H.M. Service. For every information address the Principal, Burgoyne House, Burgoyne Road, of late called Eastern Parade.

THE GRANGE, W. COWES.—The Rev. ARTHUR WATSON, M.A., Graduate in Honours, Second Scholar and Prizeman of Caius College, Cambridge, having carried on his school for 12 years at Egypt House, has recently built the above residence, and has now more accommodation for pupils, who are prepared for the Public Schools, Universities, Naval Examinations, &c. All his naval candidates have passed into the Britannia. This June candidates took the 4th and 12th places.

NEWTON COLLEGE, S. DEVON.—President of Council, EARL of DEVON.—This College is for gentlemen's sons *only*, on very moderate terms. Officer's nomination, £60 per annum. One Woolwich Scholarship of £20 per annum open this Christmas. Candidates under 15. Papers forwarded January 1st to boys' homes. The situation is healthy and elevated; gravel soil; good cricket ground; racquet and fives court, &c. Apply, Rev. G. TOWNSEND WARNER, Head Master.

ROYAL MILITARY ACADEMY, Woolwich, Cooper's Hill College, or First Appointments to the Cavalry and Infantry.

MR. MULCASTER, F.R.A.S., prepares gentlemen for the above competitive examinations. During a period of nine years, Mr. Mulcaster has passed 117 gentlemen into the Service; his pupils have repeatedly taken first place in mathematics, and in each of the above examinations have been first in the list of successful candidates.

Of Militia candidates, thirteen have been sent up for examination, and only one has failed.

36 and 37, Woolwich Common, S.E.,
December 18th, 1876.

LITTLE ST. JOHN'S, Hurstpierpoint, in connection with St. Nicolas College, Lancing, and St John's College, Hurstpierpoint, is established with the sanction and under the inspection of the Provost and Fellows of St. Nicolas College, for the education of little boys from six years of age preparatory to their entering either of the above, or other public schools. For particulars apply to the Lady Principal, Little St. John's, Ditching, Hurstpierpoint, Sussex. Boys are prepared to pass the examination for Naval Cadets.

SHOOTER'S HILL PREPARATORY MILITARY SCHOOL, 1, Brunswick Villas, S.E., under the direction of THOS. JONES, F.G.S., F.R.A.S., formerly Assistant-Master in Stony Stratford Grammar School, and in the Woolwich and Oxford Military Colleges.

WOOLWICH, SANDHURST, COOPER'S HILL, &c.—Messrs. ASKIN and GABBITAS send (gratis) on application prospectuses and reliable information of tutors who have been successful in passing pupils for all the competitive examinations.—Address, No. 9A, Sackville Street, W. Reference kindly allowed to the Chaplain-General to the Forces and others.

THE REV. H. A. MITTON, M.A. (Cambridge), Master of Sherburn Hospital, Durham, RECEIVES three YOUNG MEN to READ for the University or Ordination. Excellent house, gardens, stables; healthy situation; two miles from Durham; highest references; terms £200 (inclusive). Address as above.

WOOLWICH, SANDHURST, and the LINE.—FARADAY HOUSE, The Grove, Blackheath, S.E.—Of 28 candidates sent up for the preliminary examination from the above establishment during the past year (1876), 25 qualified; 14 candidates out of 16 sent up in July passed the final test. The new TERM COMMENCED JANUARY 9th. Applications having had to be cancelled in the absence of satisfactory testimonials, Mr. Wolffram begs to state that he can only receive such pupils as are prepared to furnish testimonials of good conduct from their last place of education.

CANTON de VAUD.—GENTLEMEN preparing for the Army or Navy, Universities, or Commercial life, can be RECEIVED into the family of an Oxford graduate on moderate terms, and can attend classes at a large college. Good boating; frequent walking excursions.—Apply, by letter, to "D. C. L., Oxon," care of Messrs. Dawson and Sons, 121, Cannon Street, London.

THE LONDON GENERAL MOURNING WAREHOUSE, REGENT STREET, W.

DR. J. COLLIS BROWNE'S

CHLORODYNE.

THE ORIGINAL AND ONLY GENUINE,

Which is admitted by the Profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.
CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever Croup, and Ague.
CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery
CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.
CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout Cancer, Toothache, &c.

From Lord FRANCIS CONYNGHAM, Mount Charles, Dec. 11, 1868.

Lord Francis Conyngham, who this time last year bought some of Dr. J. Collis Browne's Chlorodyne from Mr. Davenport, and has found it a most wonderful medicine, will be glad to have half-a-dozen bottles sent at once to the above address.

⁂ Earl Russell communicated to the College of Physicians that he had received a despatch from her Majesty's Consul at Manilla, to the effect that Cholera has been raging fearfully, and that the ONLY remedy of any service was CHLORODYNE.—See *Lancet*, Dec. 31, 1864.

CAUTION.—BEWARE of PIRACY and IMITATIONS.

CAUTION.—Vice-Chancellor Sir W. Page Wood stated that Dr. J. COLLIS BROWNE was, undoubtedly the INVENTOR of CHLORODYNE; that the story of the Defendant, Freeman, was deliberately untrue, which, he regretted to say, had been sworn to.—See *Times*, 13th July, 1864.

Sold in Bottles, at 1s. 1½d., 2s. 9d., and 4s. 6d. None is genuine without the words "Dr. J. COLLIS BROWNE'S CHLORODYNE" on the Government stamp. Overwhelming Medical Testimony accompanies each bottle.

JUNIOR ARMY AND NAVY CLUB.

At an extraordinary general meeting of this Club, held at the Club House, Grafton Street, on the 28th inst., Sir Norman Pringle, Bart., presiding, it was moved by the chairman, seconded by Major-General Hunter, and resolved—That the Club should cease to be conducted on the proprietary system, and should become a members' Club, with effect from the 1st January, 1877.

The entrance fee is ten guineas; the annual subscription is seven guineas.

The entrance fee will remain as at present until a limited number of new members have been elected, when it will be raised.

Members joining during the remainder of the year will not be called upon for their subscription till the 1st January next, when the annual subscription for 1877 will become due.

Membership of this Club is restricted to commissioned officers of the Regular Army, Royal Navy, Royal Marines, and Royal Indian Forces, and those who may have retired from the same.

By order of the Committee,
R. J. FYERS, Secretary.

28th October, 1876.

THE COVENTRY CLUB.—This Club is established in response to a request from a number of influential gentlemen who desire a social and sporting club *for the use of gentlemen of* all classes situated in a central part of the West-end of London.

An agreement has been entered into for spacious premises, which will be fitted up with every convenience, including dormitories, and which will be open for the reception of members on Feb. 1 next.

The number of members is limited to 800, the first 300 of which will be admitted without entrance fee.

Annual Subscription	£3 3s.
Country Members	£2 2s.
Entrance Fee	£10 10s.

All particulars may be had from Mr. H. Bradbury, Hon. Sec., *pro tem.*, at the Offices of the Club, 10, Cranbourn Street, W.C.

UNITED MILITARY AND NAVAL CLUB. Temporary premises, 17, St. James's Place, St. James's Street, S.W. For gentlemen who hold or have held her Majesty's commission in the Army, Navy, Royal Marines, or the various branches of the Auxiliary Forces. Annual subscription for original members, two guineas without entrance fee. This *list* closes finally on the 31st inst. For prospectus, &c., apply to Hon. Sec. as above.

ROYAL UNITED SERVICE INSTITUTION, WHITEHALL YARD.

EVENING MEETING, Monday, January 29, at half-past Eight.
The Chair will be taken by Admiral of the Fleet Sir George Rose Sartorius, K.C.B.
1. Rear-Admiral JASPER H. SELWYN,
On "Steam Fuel and Boilers."
2. Lieut. J. T. BUCKNILL, R.E.
Will exhibit and explain Bucknill and Casella's patent Sounding Apparatus.
LECTURE at Three o'clock, Friday, February 2.
Major-Gen. Sir F. J. GOLDSMID, C.B., K.C.S.I.,
On "Islám from Constantinople to Calcutta."
By Order of the Council,
B. BURGESS, Captain, Secretary.

ROYAL SCHOOL for DAUGHTERS of OFFICERS of the ARMY.

The Daughters of all Officers in her Majesty's Army, inclusive of the Royal Marines, on full or half-pay, or who may have died in the Service, are eligible.

The ages of admission are from ten to fifteen.

The next ELECTION will take place on June 20, 1877.

Pupils elected by votes of Subscribers pay only £12 per annum.

With a view to afford the advantages of a good education to the daughters of officers of competent means at a moderate cost, and at the same time to aid the primary object of the Institution, a limited number of pupils are admitted on payment of £80 a year, which includes all extras.

Each Donation of £5 5s. entitles to one Life Vote.

Each Annual Subscription of 10s. 6d. entitles to one Vote at all elections during the current year.

Further contributions to meet the current expenses are earnestly solicited by the Committee.

By Order,
G. W. FORSTER, Secretary.
22, Cockspur Street, London.

BEG TO STATE THAT IT IS A

SAFE, ODOURLESS, NON-POISONOUS

DISINFECTANT AND DEODORISER.

It is a solution of the Hydrated Chloride of Aluminium in Water, is powerfully antiseptic, and possesses the power of preventing the decomposition of organic substances.

Chlor-alum has little or no destructive properties, and none of the corrosive effects of Chloride of Lime, although it stops the process of decomposition, and prevents the formation of those offensive and dangerous products which arise from putrefaction. In this way it has all the practical effect of a **DISINFECTANT.**

CHLOR-ALUM is unrivalled in preventing the formation of sewer gas and the deleterious ammoniacal products of sewage decomposition. The action of Chlor-alum is not so marked in its effects upon Sulphuretted Hydrogen, and some of the innocuous (though unpleasant) gases which arise from fresh sewage, although it is a powerful disinfector of the excreta of typhoid or other patients.

Chlor-alum will be found to be an excellent **DEODORISER,** and removes the effluvia arising from sewage, and other offensive emanations.

The great merit of **CHLOR-ALUM** is that, from the absence of any poisonous properties, it can be placed in the hands of the public, without fear of that danger which has accompanied the use of Carbolic Acid, and other popular Disinfectants.

SOLD IN THE FORM OF A

LIQUID, POWDER, WOOL, & WADDING,

The two first as DISINFECTANTS and DEODORISERS, and the latter as Styptic and Antiseptic Agents.]

N.B.—Samples will be Forwarded to any Professional Man (Free) on Application to the MANAGER of

THE CHLOR-ALUM COMPANY,
107, CANNON STREET.

EMANUEL,
3, THE HARD, PORTSEA,

By appointment to H.R.H. the Duke of Clarence, 1827; H.R.H. the Duke of Edinburgh, 1872.

New Designs in High Class Jewellery at Moderat Prices.
Bridesmaids' Lockets from Three Guineas.
Bracelets from Five Guineas.
English and Foreign Watches and Clocks.
Regimental, Presentation, and Prize Plate.
Old Plate, Jewels, Epaulets, &c., bought.
Foreign Money exchanged.
Miniature Copies of all Medals and Decorations.
Field, Race, and Opera Glasses, and Nautica Instruments.
Rare China, Bronzes and Curios.
Collections Valued and Purchased.
Cheques payable to EMANUEL EMANUEL

SOLE ADDRESS, 3, THE HARD, PORTSEA.

LAWRANCE D. PHILLIPS AND CO.,
MILITARY, COURT, AND GENERAL
TAILORS AND OUTFITTERS,
13, GEORGE STREET, HANOVER
SQUARE, LONDON, W

Established for upwards of half a century on the Credit System, but now conducted exclusively for Ready-Money Payment and supplying

UNIFORMS AND MUFTI

Of precisely the same high-class quality as heretofore

AT GREATLY REDUCED PRICES.

ESTIMATES ON APPLICATION.

MAJOR CREASE'S PATENT SELF-REGULATING, CLEANABLE

CHARCOAL FILTER

Has been universally adopted in the Royal Navy, East Indian and English Transport Services; the German, Russian, American, and Austro-Hungarian Navies;

ALSO BY

HER MAJESTY'S WAR DEPARTMENT,

For BARRACKS, HOSPITALS, CAMPS, &c., &c.

And for which Patents have been granted by the Governments of Great Britain, the United States of America, Italy, France, and Canada to Major Crease, Sole Patentee of the Self-regulating, Cleanable Filter.

The designs are of three classes—
1.—For dwelling rooms and halls. To suit different styles of furniture three types have been employed—the Classic, the Japanese, and the Mediæval. None of these forms have been before employed for Filters.
2.—Those of simpler and cheaper designs for kitchen use.
3.—Filters of galvanized iron, either to fix to mains or cisterns, which, being capable of being made of any size, can supply pure water in sufficient quantities for the largest hospital or hotel.

The Filters, being made of special sizes, all their parts are interchangeable.

Full particulars can be obtained on application to
MESSRS. GARDNER AND SONS,
Sole Manufacturers of the Land Filters,
453 & 454, STRAND; and 3 & 4, DUNCANNON STREET, LONDON.

OVERLAND ROUTE and SUEZ CANAL. Under Contract for the conveyance of the Mails to the Mediterranean, India, China, Japan, and Australia. The Peninsular and Oriental Steam Navigation Company dispatch their Steamers from Southampton, *via* the Suez Canal, every Thursday; from Venice every Friday; and from Brindisi, with the Overland Mails, every Monday.

Offices—122, Leadenhall-street, E.C., and 25, Cockspur-street, S.W.

HALL LINE.—STEAM from LIVERPOOL to BOMBAY, via SUEZ CANAL.—Average passage, 26 days, including all detentions.

The magnificent fast steamship CITY OF BALTIMORE, 2,292 tons, 300 horse-power nominal, sailing January 31st, 1877. This steamer has been specially adapted for the East India trade. Her saloon and cabins are all on the upper deck, and the accommodation is unsurpassed. Only first class passengers taken. Fare, 45 guineas. Surgeon and stewardess carried.

Succeeding steamers:—

Childwall Hall	27th February.
Trentham Hall	To follow.
Branksome Hall	To follow.

For passage apply in London to Henry S. King and Co., 65, Cornhill, and 45a, Pall Mall; or for freight and passage to ALEXANDER and RADCLIFFE, 8b, Liverpool and London Chambers, Exchange, Liverpool.

FURNISH YOUR HOUSE or APARTMENTS THROUGHOUT on MOEDER'S HIRE SYSTEM. The original, best, and most liberal. Cash prices; no extra charge for time given. Large useful stock to select from. Illustrated price Catalogue, with terms, post free. 248, 249, and 250, Tottenham Court Road. Established 1862.

Printed by James Meldrum and published by Edward O'Brien Palmer for the Proprietors, at the Office, No. 16, Wellington-street, Strand.—Saturday, January 27, 1877.

☞ *It is particularly requested that applications for copies of the* Army and Navy Gazette, *and Advertisements, should* not *be sent to the Editor, but to* Mr. Richard James Wood, AT THE OFFICE, 16, WELLINGTON STREET, STRAND, W.C., *to whom all business communications should be addressed and remittances made payable.*

The subscription to the paper is 7s. per quarter, or 28s. per annum payable in advance, *inclusive of postage to any part of the United Kingdom; to India, £1 10s. 4d. per annum;* viâ *Brindisi, £1 14s. 8d*

THE successive steps by which the British Army, from a purely feudal force, has reached its present organization, cannot fail to interest the student of military history. The military reformers might also draw from them valuable lessons. The profession of arms differs from ordinary civil careers in this, that for all its grades are needed bodily activity, together with those energies which seldom outlast middle age. The higher the rank, indeed, the greater the necessity that its holder should be in full possession of bodily as well as mental powers. That this is not so in more sedentary callings is self-evident. But a General, to be efficient, must be, if not young, at least not so old as to be inactive. It cannot be uninstructive to look back at the means by which the fortunate result has hitherto been obtained that our soldiers have generally been led by men still in their vigour. The feudal system necessarily gave the soldier an able-bodied leader. When the Baron himself was stricken in years, he deputed the command of his vassals to his heir. The aristocratic system, which succeeded, offered the same advantages. Great peers, men of territorial position, raised regiments on their own estates, obtaining commands without themselves serving in any subordinate grades, and nominating their friends and relatives to commissions rather according to their social qualifications than their ages. Dukes and marquises, even a hundred years ago, did not enter the Service as simple Cornets or Ensigns. Such, it is true, are things of the past, but not so ancient that living memories cannot recall them. At the commencement of the present century many corps were raised in this way. The 92nd Gordon Highlanders were so formed by the Duke of Gordon in 1794. The Duke sent an order to ten Highland parishes to supply each a company one hundred strong. His Grace's behests were obeyed, and, the regiment having been assembled, his son was placed at its head as Lieutenant-Colonel. Five of the officers were Gordons, and more than half of them were kinsmen to the clan. But this happened only eighty years ago. Not more than twenty years back, shortly after the Crimean war, battalions were permitted to be raised by individuals; and gentlemen were appointed, if not to a "charge of foot," at least to a "pair of colours," upon the condition of supplying the required quota of recruits for a company to her Majesty's Service—instance, the case of the present Royal Canadian Regiment, the 100th of the Line. Long, however, before the exceptional incidents we have described, the "charge of foot," originally raised, equipped, and maintained by its Captain, had become a more permanent body, no longer dependent on its leader for existence. The purchase system, which followed the aristocratic, may simply be regarded as a natural transition, when it is considered in how many forms the power of wealth has in this later civilization replaced or effaced private and aristocratic influences. But the purchase system was more than this. It was a relic, in itself, of the more ancient organization. The arms, accoutrements, and clothing of the soldier were of old supplied to him by, and were the property of, his Captain. The latter had, therefore, so much property, representing a large sum in money, invested in his charge. To recoup himself he sold his Lieutenant's and Ensign's commissions, and when eventually he quitted the Service, he sold also his vested interest in the property he was leaving behind him in the possession or wearing of his men. The last vestige of this proprietary system was swept away not so long ago when Colonels of regiments ceased to clothe their men. But it was in the manner described that the purchase system was introduced. It continued to develope and extend until it gradually came to be established, with at least fixed prices sanctioned by the State, for each grade of rank. Like its predecessors, the feudal and aristocratic, the purchase system has been for long the means of supplying to the British Army a great desideratum—young leaders; and even at this time, though it has ceased to exist for five years, its beneficial effects in this direction are still being felt, though with rapidly diminishing power. It is time, therefore, fully to face the fact that, for the maintenance of promotion in a Service where bodily activity in the higher grades is essential, we are relying solely, for the first time in history, upon the average chances of mortality. To realise what this means it is not necessary to turn to history, as there have been no lack of examples in modern times. We have the Ordnance corps, strictly seniority Services, which—in spite of all kinds of artificial aid, large successive augmentations, the creation of superior ranks, and the vigorous maintenance of a Seconded List, stretched to its utmost letter—have already begun again to stagnate. Then there is the Royal Navy. Its system of passing over and selection ought to enable it easily to bring promising young men to the front. Yet, to obtain effective officers, it has been compelled to supplement its enormous Half-Pay List by the creation of successive lists of reserved half pay and permanently retired officers supernumerary to the establishment. There is, again, the very instructive example of the old Indian Army. Here there was a full-pay pension after twenty-one years; whilst the military funds, subscribed to during active service, added a handsome bonus to the pension on retirement. And yet notwithstanding the bad climate—notwithstanding the high rate of mortality induced in such a climate by the habits of an army whose officers lived in the free fashion of Old India, and dined in the hottest part of the afternoon—there were Cornets of Light Cavalry weighing fifteen stone, Ensigns often, and Lieutenants of twenty years' service, and Captains, who, when promoted to Major, had, from age or stoutness precluding them from venturing on horseback, to retire at once. This is the condition into which we are now drifting in the British Army, and it is only by full discussion in Parliament of the pending evil and the measures proposed to be adopted to meet it that the dangers inseparable from such a state of things can be averted. Great Britain is the wealthiest nation on the face of the globe, her resources being almost unbounded. No country ought to be prepared to pay more willingly its insurance against invasion, an event which would cripple our commercial undertakings, and perhaps bring us to utter ruin. Yet in no army in Europe at the present moment are matters in a more gloomy state; and, in face of this, the very politicians, whose persistent cry for change it was that induced the late Ministry to abolish the system of purchase are those who would be the strongest opponents of any measure introduced with the object of keeping up the flow of promotion within reasonable bounds. And these, too, are the men who, representing the commercial communities, have the most to lose, if they could but be brought to realise the fact, by any lessening of the nation's influence. We have endeavoured to show the manner in which purchase became an institution. Some of those who were most averse to the principle are doubtless ignorant of the facts we have given. Our review of its rise and onward progress will, we trust, convince its enemies that the officers who had to bear six years ago so many and such unjustifiable attacks were not responsible for its growth to the extent which was made out. To those who have led our troops under purchase and the arrangements which gave birth to it Great Britain, the wealthiest and most powerful nation in the world, owes her proud position—to them, and to them almost exclusively. Such being the case, the least the members of the Legislature can do is to mark their gratitude by discussing the question of future promotion and retirement in a friendly spirit, and to refrain from those bitter expressions which, falling from the lips of a few during the debates on the Bill Lord Cardwell sought to carry through, did little to impress outsiders with ideas as to the dignity of the Lower House, or, at any rate, of some of those who had been returned to it.

A letter in the *Standard*, signed "Paterfamilias," once more draws attention to an important subject, that of the expenses of officers. The writer's son is serving in a regiment in the West Indies under a commanding officer who takes great pains to promote economy. The table of expenses is very moderate, as it will be seen that newspapers are set down at 2s. 6d., mess guests at 2s., and ice—a necessary in that climate—at 3s. per month. The total, without including wine or beer, is but £6 13s. 3d., whereas the officers of other regiments in the West Indies cannot get off under £10 a month. "Paterfamilias" sets down only £1 10s. a-month for wine and beer, and including washing and servants' wages, but omitting cricket club, clothes, postage, &c., estimates the total of the necessary current expenses of an officer at £10 a-month, whereas a Sub-Lieutenant's pay is on an average little more than three-fourths of that sum. We do not hesitate to say that in few regiments in any part of the world is this obligatory current expenditure—omitting clothes—less than £12 a-month, and that both the regiment and the man himself must be indeed economical if less than £200 a-year represents the sum indispensable for keeping up the position of a gentleman. Indeed, an officer cannot, without more self-denial than it is reasonable to expect from youth, get on under £250 a-year. This is a serious matter, for the result will be to exclude all save the sons of well-to-do parents from the Army, thus lessening the competition for commissions and losing the services of members of a class which has hitherto provided our best officers. Even though purchase has been abolished, a man cannot enter the Service unless he is in possession of a private income of at least £120 a-year. In fact, taking into consideration the cost of uniform and the subscriptions, more or less obligatory, a subaltern receives rather an honorarium than pay, while he is obliged to incur expenses many of which are quite unnecessary and out of harmony with his previous life and the scale of living in his home. Surely such a system is not only demoralizing, but hurtful to the State. One of the first of military virtues is simplicity of life and abstinence from enervating luxury. Yet the sons of officers, clergymen, and country gentlemen of moderate means and large families are compelled, if they accept commissions, to live in a style suitable enough to a man of thousands a-year, but quite absurd in the case of one who is little better than a genteel pauper. It is urged that the credit of the regiment must be kept up, and that expensive plate, linen, and luxuries, a costly dinner, and lavish hospitality shown by a copious flow of champagne is essential to the good name of the corps. Folly is this, and, worse, vulgar folly, for no one is deceived by the sham. Everyone is aware that this ostentation cannot be afforded, and is purchased at the cost of debt and ruin or a home pinched to enable a son to live like an officer and a gentleman. No one is taken in by the sham. It is notorious that the majority of officers in Line regiments are very poor, and that many would gladly spend less on mere show and self-indulgence if custom would allow them. It is at the same time, we admit, very difficult to bring about a substantial reform. The Duke of Cambridge has repeatedly made most praiseworthy efforts to promote economy, but all to no purpose; tradition and the self-indulgence of the age have proved too much for him. Neither could single officers or individual regiments accomplish a change. Any movement in this direction must be both spontaneous and general. At the same time, the authorities might do something by taking steps to diminish the cost of uniform, inducing Parliament to vote money for the maintenance of the band, and by furnishing officers' quarters. Even, however, were a reign of economy inaugurated, and were it accepted as a principle that the obligatory expenses of an officer were to be regulated by the incomes of the poor instead of, as at present, by that of the rich men of a regiment, the pay of an officer would be far too small. It was all very well formerly, when little, save courage and ordinary intelligence, was expected from those who held commissions. The Army has ceased to be an aggregate of peripatetic clubs. The officer must now be no more amateur. His occupation has become a highly scientific profession, demanding great ability, a good education, constant attention, and absolute devotion. But men will not, cannot feel a zealous attachment for a profession which in the lower ranks does not enable them to live, and in the higher grades bestows no reward for the labour and study of a life. The men who enter the Army now are, or ought to be, of a superior description in every respect; but such will not remain in a profession which starves them while there are so many good openings for talent and energy. The requirements of the Service are changed. The remuneration, therefore, which has remained fixed during the last three-quarters of a century, ought to be increased, especially considering that during the last thirty years the value of money has diminished at least 50 per cent. Actually, therefore, the scientific professional soldier is expected to serve for two-thirds of the remuneration which was considered no more than sufficient when the qualifications and work exacted were out of all proportion, smaller than those demanded in the present day. It is idle to say that as long as the supply exceeds the demand an increase is unnecessary, for the Government ought to look to quality as well as quantity; and till an officer is fairly remunerated for his work, such devotion as doctors, engineers, or lawyers, display for their profession cannot be reasonably expected from those who hold military commissions.

The Detached Squadron is making its way home quietly, and it is thought that no hurry is likely to be displayed by the Admiral commanding. The passage will be made principally under sail, for the excellent reason that the ships are almost incapable of doing much under steam. Rear-Admiral Lambert will have completed two years' service in June next, if he manages to keep afloat so long.

The commission of the Repulse is happily an exceptional one. The length of her term of service and the many changes amongst the officers and desertions amongst the men, are not in accordance with the general rule of the Service. The worst of it is that with all the changes in Admirals and Captains those on board have not been happy, for variety has not always been found to be charming. A lamentable wail is set up by a correspondent in another column, and in addition to our warm sympathies we are glad to be able to give him the pleasing intelligence that the Shah is making the best of her way to her station. Her best is not altogether bad in this case, for she has actually reached Madeira "all well." As soon as she meets the Repulse, Admiral de Horsey will shift his flag to her, and the remains of the four-and-a-half-year exiles will at last be homeward bound.

There is something the matter with the Opal besides her machinery. When a Captain wants to try his Chaplain by court-martial, and the Commander-in-Chief sets aside the application as improper, it is evident that something has gone wrong. It seems that an executive officer has also experienced some unpleasantness at the hands of his Captain, and this all happens on what is called the Pacific Station.

Commander Sir William Wiseman is to be congratulated in not having "expended" his ship, as was at one time believed to be the case. The *Standard* was the first to convey to the British public the pleasing intelligence that the Lapwing was still to be counted as one of her Majesty's ships, and that bare telegraphic announcement has now been supplemented by the arrival of the mail, and an account of the manner in which the vessel was floated off from her most dangerous position will be found in another column.

Rear-Admiral Stewart, Controller of the Navy, and Mr. Barnes, Surveyor of Dockyards, concluded their visit to Devonport on Monday last, having settled the building programme for 1877-78.

Lieutenant Maitland Dougall, R.N., of the Bittern, has returned to his ship from his temporary appointment as Aide-de-Camp to General Sir Arnold Kemball, K.C.S.I., C.B., at the head-quarters of the Turkish Army.

It is satisfactory to learn by the last accounts from Jamaica that the crew of the Aboukir continues healthy, and that up to the despatch of the mail no further cases of yellow fever had appeared. We are also enabled to state that on receiving intelligence of the death from fever to which we recently referred, the Admiralty at once gave full authority to the Commodore to take any steps he might consider necessary to check any spread of the disease. It is stated that Kingston is at present not altogether free from fever. There is some prospect of the Aboukir being relieved in the course of the next few months, May having been named as the probable date of completion of the future receiving-ship, the Urgent.

The difficulty experienced in obtaining "domestics" for ships on commissioning is becoming very great indeed. Officers are compelled to take almost anyone who may offer, and the discomfort in messes having inefficient stewards and servants is immense.

An exaggerated statement of the slight grounding of the Dryad at Bermuda having been published by a contemporary, we have been requested to give publicity to the following account of the affair. The Dryad was running in with a following wind, to turn up for the mouth of the Camber, but did not turn as quickly as required, and an anchor was promptly let go and engines reversed in sufficient time to bring the ship up. While "bringing to" the only hawser used, her stern swung into her own depth of water, but she at once steamed away into her berth. Allusion to the garbled statement of the "accident" was made by us on December 9, for which we have received the thanks of those most interested.

The particulars of the sad death of Mr. Harold Wingfield, Midshipman of the Newcastle, off Singapore, whilst gallantly attempting to rescue a man who had fallen overboard, we have given elsewhere, but it should be placed on record that this was the second action of the kind Mr. Wingfield had performed during his short naval career. The first occasion was in the Woosung River some three months before his death, when he leaped into the water on hearing a cry that a boat had upset. This he did on a dark night with a rapid tide running. Captain Douglas then wrote in warm terms of this exploit, which he considered one of conspicuous gallantry. Had Mr. Wingfield lived to reach England he would have been undoubtedly recommended for the Humane Society's medal, and we hope that endeavours will now be made to secure this decoration for his relations, to whom, it is needless to say it would be inexpressibly valuable. Deeds of heroism such as these deserve the most honourable perpetuation. To them we can point when men shake their heads and murmur about the deterioration of England's sons; for have we not in them convincing proof of the sterling stuff of which our young hearts of oak are made? Mr. Wingfield passed first into the Britannia, and was as promising an officer as he was a popular companion. Both his grandfathers fought in the Burmese campaign of 1824—General J. W. Cleveland, who, with seventy years' service, stands fourth on the list of General officers on the Indian establishment; and Major Clopton Lewis Wingfield, 66th Regiment, who died in 1846. His father, Major Walter Wingfield, served in China with the King's Dragoon Guards, and is now one of the Royal Body Guard.

Sub-Lieutenant St. A. St. John has been temporarily appointed to the Raleigh for navigating duties in the vacancy caused by the removal of her Navigating Lieutenant.

It has been officially notified by the Admiralty that two long courses of torpedo instruction will take place on board the Vernon during the coming season. The first will assemble on April 4, and the second on July 4. Officers desirous of joining should make early application to the Secretary of the Admiralty.

We announced last week that there was still some prospect of an attempt being made to raise the Vanguard, and are now able to state that the terms under which this is to be undertaken have been finally arranged. The sum to be paid for the ship, if delivered, is about £170,000. Should she not be brought to the surface, owing to the failure of the operations, we believe she will be sold as she lies for about £20,000. The prevailing opinion is that she is now too far imbedded in the sand for it to be possible to raise her, and that if it is attempted by inflation her decks will give way. Still, it is evident that some are ready to make the trial, and we wish them success.

As rumours have been spread of coming reductions at Devonport Dockyard, we may state that nothing more than a weeding-out of absentee and unskilful hands is contemplated. As we stated some time since, Portsmouth and Malta are the only two yards which have exceeded the estimates, and a special grant was sanctioned in those cases in order to avoid discharges.

We hear from Alexandria that Admiral McKillop Pacha proceeds to the Red Sea and Straits of Babelmandeb with a squadron of Egyptian cruisers, to endeavour to ascertain the truth of the reports which have been made to the English Government relative to the exportation of slaves from the ports of Suakin, Massowah, Yeda, and Berbera. The Admiral has full power to capture and punish any Turkish or Egyptian subjects found engaged in this nefarious traffic—both on sea and land—and the right to visit vessels under the English flag. Should they have slaves on board, the Admiral will hand them over to the nearest British authority. The English ships of war in the Red Sea have instructions to co-operate with the Pacha for the suppression of the slave trade. The importance of this mission cannot be overrated, and it is to be hoped that, under energetic and judicious management, the grievance complained of by England will disappear. McKillop Pacha has lately been presented by his Majesty the King of Sweden and Norway with the decoration of Commander of the 1st Class of the Royal Order of Sanet Olaf of Norway in recognition of the services rendered from time to time by the Pacha to the Swedish and Norwegian Marine.

Consequent on the death of Sir Fairfax Moresby, four Vice-Admirals on the Retired List and four on the Reserved List as well as one retired Rear-Admiral have gained a step in rank.

A Lieutenant's pension of £50 per annum has been conferred upon retired Commander J. G. S. Clarke.

Commander Cameron, C.B., will join the Cambridge on Monday next for the purpose of going through a short course of gunnery.

We regret to hear that the retirement of Lieutenant Shattock, R.N., is owing to ill-health.

We have been asked to account for the promotion of Staff-Surgeons to the rank of Fleet-Surgeons notwithstanding their having less than twenty years' service. On enquiry we have been informed that in making these promotions it has been taken into consideration that their original promotion was for war services, and it would be unjust to compel them to forfeit the advantage thus won by keeping them at the head of their list waiting to complete their twenty years.

We regret to announce the death of Dr. Reed, of the Pioneer. He had been invalided, and was on the passage home by mail steamer.

The death is reported of Captain J. E. Davis, formerly of the Hydrographic Department at the Admiralty, where his services were much valued. He served in the Terror, as Master, in the Antarctic Expedition of 1839-43, was promoted to Commander in the latter year, and was advanced to the retired rank of Captain in August, 1870.

By a report of the last meeting of the Goodenough Memorial Fund Committee, which will be found in another column, it will be seen that the Committee has adopted a course which cannot fail to keep the name and remembrance of the late Commodore Goodenough ever before the Service. Those who have subscribed to the fund will, we are sure, feel entirely satisfied with the action taken by the Committee.

By advices received at the Admiralty from Jamaica up to January 9, the health of the squadron and of Port Royal is stated to be satisfactory.

The new block of barracks, for some time in course of erection at Tipperary, will shortly be ready for occupation. The barracks are said to be a very model of convenience, and have been built with full regard to the most recent improvements.

The deaths of the following officers on the Active List have been officially reported to the Admiralty since Dec. 20, 1876:—Lieutenants Robert C. Jolliffe and Edmund B. Wallace; Paymaster Robert Bone; Midshipmen Charles M. H. Oakley and Watkin H. Wingfield; Assistant-Paymaster Thomas W. S. Browne; Engineer George J. James. The following officers' names have been removed from the List of the Royal Navy since Dec. 20, 1876:—Sub-Lieut. Poynings H. M. Molyneux (dismissed by sentence of court-martial); Navigating Sub-Lieut. Henry Grey (resigned to avoid court-martial); Naval Cadet Philip B. Affleck (discharged, unable to pass examination); Engineers William H. Sedgwick (pensioned) and John Forrest (pensioned);

Assistant Engineer, 1st Class, William J. Mullinger (resigned). The discharge of Mr. Horace Armytage, Acting Sub-Lieutenant, notified in the "Navy List" of January, 1877, has been cancelled.

Her Majesty has summoned her loyal burgesses for their advice and assistance in directing the affairs of the country. Great interest is felt throughout the Army as to the disposal during the coming Session of many difficult questions. As regards officers, the subject of promotion and retirement naturally occupies a prominent place, and in its settlement it is to be hoped the recommendations of the recent Commission will be taken cognisance of, so that where the pressure of retirement is felt—and we fear such must be the case—corresponding liberality of treatment will be extended, and that further consideration will be granted to a representative body, whose gallantry and devotion remain undiminished. There are matters which might receive the special attention of individual members, more especially among those who have the honour of holding, or who have held, commissions, of whom a large number are to be found representing constituencies. An attempt has lately been made to meet the pressing question of obtaining our future officers for the Cavalry and Infantry by the new regulations affecting the Royal Military College at Sandhurst, but we might suggest further inquiry. The last report of the Visitors of the Royal Military Academy showed beyond doubt that for the education of the candidates for the two scientific corps, for which that institution is specially maintained, further attractive inducements have become necessary. By the many distinguished *élèves* from the Woolwich Academy who are now advisers of the War Office many valuable suggestions would be forthcoming, and these should not fail to promote criticism on the interesting document referred to. The qualifications necessary for officers aspiring to employment on the Staff may also be thought worthy of debate, and it would be well to have an opinion expressed as to whether we are not moving too much in the direction of theoretical education, a view that some of our best officers—including many graduates from the Staff College—are disposed to favour. The state of the administrative Services—we refer to our Commissariat and Medical Departments—can scarcely fail to meet with attention, and it is to be hoped that such attention may result in a searching commission of investigation. That the very difficult problem of how to obtain recruits will be solved is more than can be expected, the subject being a formidable one. Successive Ministries have done their utmost to grapple with the difficulty. Yet it is evident that its settlement is as far off as ever. As to whether the Brigade Depôt system is a success there exists a division of opinion. We have paid heavily for it, as, in fact, we generally do for all changes in connection with our defensive establishments. However, as we have remarked, public opinion both in and out of the Army is not altogether favourable to the system; and though we ourselves hold to the belief that the arrangement is likely to show itself beneficial when it has been really tested—no one can argue that it has been given yet a fair trial—it seems to us that modifications could be introduced with advantage, and the military members might be able to furnish the War Office with some idea as to the form these modifications should assume. That short service bids fair to extinguish altogether that all-important rank of non-commissioned officer is only too potent. If we retain short Service, some other means than those at present in our hands will have to be resorted to; what these means should be it will be for Parliament to determine. We might point to the usual final vote in the Estimates for "Administration," there appearing to be so many obstructive elements in the constitution of the Department directly responsible for the efficient maintenance of the Army. We trust that the approaching Session may be beneficial to the interests of the Service; that it may be the means of a definite understanding being arrived at with regard to numerous questions which have been too long in abeyance; and that, if liberality has to be resorted to, it may not be for the furtherance alone of minor details—not with a view of promoting vigour in the branches of the tree, but that the axe may be laid, as it requires to be, at the root.

Telegraphic advices from the Cape of Good Hope have mentioned that the wing of the Buffs doing duty at Mauritius is under orders for removal to Natal, where the whole of the 2nd Battalion is to be concentrated. This has led to the supposition that things have assumed such an aspect as to be considered "threatening." We may, however, point out that the concentration of the Buffs was long since decided upon, and that it is with a view of this consolidation being effected that a wing of the 80th Regiment was lately placed under orders of readiness for conveyance from Singapore to Mauritius.

An attempt was made the other day in the French Chamber of Deputies to persuade the House to alter the time of service in the Infantry from five to two years. There are several objections to any change at present; in the first place, the new system has not yet been experimented sufficiently, and in the next, with the term of service reduced to two years, it would be impossible to make non-commissioned officers. Very few men can be persuaded to remain in the French Army beyond the time they are obliged to serve, and steady, well educated men easily obtain civil positions, which, in point of remuneration, are much more advantageous than the pay of a Sergeant. We see that the French Budget for next year has just been laid on the table at Versailles. The War Minister demands an augmentation of about half a million sterling, and the Minister of Marine an augmentation of £100,000. The War Estimates amount to 541,871,736fr.—or say £22,000,000. In round numbers, we see that the Gendarmerie costs 40,000,000fr. a-year; the Staff, 23,300,000fr.; pay swallows up 186,000,000fr.; rations, 90,800,000fr.; forage, 70,000,000fr.; clothing, 32,000,000fr.; harness, 15,000,000fr.; Artillery, 17,000,000fr. The effective of the Army is set down at 467,636 and 110,000 horses; and, in addition, 23,000 Gendarmerie and 4,000 men of the Republican Guard quartered in Paris. The Infantry is estimated at 297,938 men; Cavalry, 68,719; Artillery, 68,762; Engineers, 61,005; Military Train, 11,449. The scale of pay is as follows: Marshal, 30,122fr.; General of Division, 19,836fr.; General of Brigade, 13,224fr.; Colonel, 8,473fr.; Lieutenant-Colonel, 6,857fr.; Major, 5,881fr.; Captain (1st class), 3,583fr.; 2nd class, 3,179fr.; Lieutenant, 2,681fr.; Sub-Lieutenant, 2,497fr. France has now a mill-stone round her neck in the shape of a National Debt to the amount of £930,000,000, most of it owing to the Crimean war, the Mexican Expedition, and the disastrous campaigns of 1870 and 1871. The interest on this debt amounts to 747,000,000fr. From documents just published, it appears that in 1870 the National Guard of Paris cost over £3,000,000, and it did not fight; and, in fact, in 1870 the expenditure exceeded the receipts by about £60,000,000. Our neighbours used to be very fond of exclaiming, in the words of M. John Lemoinne, that France was rich enough to pay for her glory; but, since the German war, glory is not so popular as it used to be, and the Gaul is much less bellicose. *Apropos* of Budgets, we may mention that the War Estimates amounted to 373,000,000fr. for an effective of 400,000 men; in 1871 there was no regular Budget; in 1872, 450,000,000fr. for 464,000 men; in 1873, the Army being gradually reduced after the war, 440,000,000fr. for 454,000 men; in 1874, 471,000,000fr. for 444,000 men; in 1875, 494,000,000fr. for 432,000 men. In 1876 and for this year the Estimates were nearly the same as for next year, exceeding 20,000,000fr.

The Distinguished Service Reward vacant by the appointment of Lieutenant-General A. C. Errington to the Colonelcy of the 85th Light Infantry has been given to Major-General W. Payn, C.B. General Payn served with the 53rd Regiment in the Sutlej campaign of 1845-46, including the affair of Buddiwal and the actions of Aliwal and Sobraon (medal and clasp); Punjaub campaign of 1849, including the battle of Goojerat (medal with clasp); campaign of 1851-52, against the hill tribes on the Peshawur frontier. Served in the Crimea in command of a regiment of the Turkish Contingent, and was present with that force from June, 1855, until its disbandment in May, 1856 (Brevet of Major, Turkish medal, and 4th Class of the Medjidie). Served the Indian campaign of 1857-58, including the actions of November 26, 27, and 28; at Cawnpore under General Windham, battle of Cawnpore on December 6, and pursuit of the Gwalior Contingent to Sera Ghat; action of Khodagunge, and entry into Futtehgar; affair of Shumshabad, storm and capture of Meangunge, in command of the left attack; siege and capture of Lucknow, and affair of Koorsie. Commanded the 53rd Regiment throughout the hot-weather campaign, passage of the Goomtee, and occupation of Sultanpore; present with the regiment at the passage of the Gogra at Fyzabad, on November 25; action of Tooloepore and minor affairs (mentioned five times in dispatches, Brevet Lieutenant-Colonel, C.B., medal and clasp). His commissions bear date as follows, viz.:—Ensign, May 27, 1842; Lieutenant, January 12, 1844; Captain, March 15, 1851; Major, June 6, 1856; Lieutenant-Colonel, March 24, 1858; Colonel, March 31, 1863; and has just been gazetted a Major-General.

Lieutenant-General J. J. Bissatt, C.B., who had a long experience of Southern Africa as an officer of the late Cape Mounted Riflemen, is anxious to obtain the command at the Cape in the event of Sir Arthur Cunynghame obtaining transfer.

The Staff sergeants of the School of Musketry assembled in their mess-room a few evenings ago to present their much-respected comrade, 1st Class Sergt.-Instr. Mark M'Hugh, who is leaving them to take up an appointment at the Royal Small Arms Factory, with a substantial token of their esteem and regard. The testimonial, which consisted of an electro-plated tea and coffee service, was presented, on behalf of the Staff sergeants, by Sergt.-Major Phillips.

The fairy sketch, entitled *Our Doll's House*, which was produced as a holiday attraction at Mr. and Mrs. German Reed's Entertainment, will be withdrawn at the end of next week, and a novelty, called *A Night Surprise*, substituted on Monday, Feb. 12. Mr. West Cromer is the author, and Mr. German Reed composes the music. *Matched and Mated*, which is as attractive as ever, and Mr. Corney Grain's new sketch, *Spring's Delights*, will retain their places in the programme.

The Army.

1st (Royal) Dragoons. Capt. Maunsell has been permitted to withdraw his application to retire. Capt. Worthington is contemplating retirement.

5th Dragoon Guards. As we some time since stated when announcing the probable retirement of Col. Godman, Major Marsland succeeds to the command, Capt. Bourne obtaining the majority and Lieut. Kearsley the troop.

Royal Artillery.

Capt. G. C. Strahan, C.G.M., arrived at Barbadoes on Dec. 19, and assumed the duties of Governor and Commander-in-Chief of the island.

Major W. Carey, Lieut. W. Plant, and Corpl. E. Owen, 4th Brig., have passed the lower standard examination in Hindostanee.

Col. R. C. Romer has applied for leave from India to England, on medical certificate.

Lieut. C. M. Haggard, 13th Brig., was employed on Lord Lytton's Staff as extra aide-de-camp during the Imperial Assemblage at Delhi.

Capt. G. H. W. Ewbank, F Brig. R.H.A. (late Bengal), has been granted leave from India to England for twelve months, on urgent private affairs.

Capt. F. W. Carey has been permitted to exchange from the 3rd to the 19th Brig., and Capt. F. Dixon into the 3rd from the 13th Brig.

Royal Engineers.

The following changes have taken place:—Col. T. L. J. Gallwey from Guernsey to Gibraltar, as Com. R.E. Brevet Col. R. D. Kerr, from leave to Jersey; Brevet Col. A. R. V. Crease, from Devonport to Guernsey. Lieut.-Col. G. H. Gordon, from Jersey to Bermuda. Major and Brevet Col. F. Mould, from Devonport to Exeter; Major and Brevet Col. G. D. Pritchard, from Agra to Europe, on leave. Major E. F. Lloyd, from Preston to Manchester. Capts. J. R. Hogg, from Newport to Worcester; H. A. Gunn, from Manchester to the Staff College; G. Harris, from Portsmouth to Aldershot; M. S. Bell, V.C., from Shorncliffe to the Staff College; G. T. Plunkett, from leave to Chatham. Lieuts. B. S. Haynes, from Kurrachee, on sick leave; N. Arnott, from leave to Roorkee; W. E. Morgan, from Pembroke Dock to Milford; H. W. Renny-Tailyour, from leave to Gibraltar; M. W. Skinner, from Portsmouth to Aldershot; R. M. Ruck, from Chatham to Gravesend; W. H. Goldney, from Secunderabad to Europe, on leave; F. N. Maude, from leave to Roorkee; G. E. Shute, from leave to Bangalore; H. J. Jerome, from the Curragh to Chatham; H. M. Sinclair, from leave to Dover; E. R. Kenyon, from leave to Manchester; S. N. Grant, from leave to Bangalore; and M. Elrington, from leave to Weymouth. Late Bengal—Brevet Col. F. R. Maunsell, C.B., from Europe on leave, to Roorkee. Major J. M. McNeile, from Nusseerabad to Europe, on leave. Capt. C. A. Sim has succeeded Capt. S. C. Clarke in the command of the 38th Comp., at Chatham, and Capt. T. Glancey has assumed command of the 39th Comp., at the same station, in place of Capt. C. A. M. Skinner.

4th King's Own. The Curragh correspondent of the *Irish Times* hears that Capt. Lugard, 2nd Batn., is to be offered one of the Staff appointments falling vacant in the spring. The *Hampshire Telegraph* says that "Sub-Lieut. Hickman had a very narrow escape of losing his life on the 13th ult. at Gibraltar. He was climbing on the east side of the Rock, near Catalan Bay, when a turf to which he was holding gave way, and he fell a distance of about forty feet, turning over several times in his fall. He escaped, however, with a severe injury to one of his ankles." Surg.-Major J. L. Power, 2nd Batn., died at Mannheim, Baden, on the 25th ultimo. He served in the Franco-German war from Oct., 1870, to March 6, 1871, and was present at the siege of Paris, the retreat of Gen. Von der Tann's army after the battle of Culmeirs, battle of Neuville, several minor actions around Orleans, and second capture of Orleans (German steel war medal). He entered the Army Jan. 19, 1860, and became surg.-major April 1, 1875.

11th Regiment. A detachment of the 2nd Batn., about the strength of a company, as a baggage party, with the soldiers' families, will proceed by a special train at 9 a.m. on the 7th inst. from Farnborough Station to Portsmouth Dockyard. The service companies are to proceed by a special train on Thursday morning from Aldershot to Portsmouth, to embark in H.M.S. Serapis for conveyance to Bombay.

13th Light Infantry. Capt. Musgrave, 1st Batn., reverts to regimental duty from the Staff of Sir Anthony Musgrave, K.C.M.G., Governor of South Australia. Lieut. Parr, 1st Batn., has been appointed aide-de-camp to Sir Bartle Frere, who leaves for the Cape about the middle of next week. Lieut. Parr was for some time Fort Adjt. on the Staff in Natal.

14th Regiment. Mr. W. M. C. Lapenotiere, late of the regiment, died on his passage out to Australia in the steamer Rodney on Oct. 1.

18th Royal Irish. Sub-Lieut. Downes, 1st Batn., has been appointed to the 2nd Bengal N.I., on probation, as a candidate for the Indian S.C.

20th Regiment. Capt. Beaumont's company will be filled from outside.

22nd Regiment. H.R.H. the Field-Marshal Commanding-in-Chief has approved of Lieut. Molyneux, 1st Batn., being appointed aide-de-camp to Brigdr.-Gen. the Hon. F. Thesiger, C.B., at Aldershot. Lieut. Molyneux took up duty on the 25th ult.

23rd Fusilers. If Capt. Maling elects to remain in the regiment he will be called upon to resign his Staff appointment and join the 1st Batn.

32nd Light Infantry. Lieut. Phillips obtains Capt. Havelock's company.

34th Regiment. Sub-Lieut. Batten, a candidate for the Indian S.C., has been appointed to do duty with the 1st Bengal N.I. on probation.

40th Regiment. Capt. Morphy has been granted leave from India to England for fifteen months, on urgent private affairs.

Royal Marines.

Leave of absence has been granted the following officers viz.:—Capt. J. C. Crawford, three months; Lieut. and Adjt J. Le C. Robiliard, fourteen days in extension; Capt. and

Brevet Major George Brydges, fourteen days in extension; Capt. E. H. Moore, fourteen days; Capt. E. V. Goldsmid, one month; Capt. E. W. G. Byam, one month in extension; Lieut. W. W. Taylor, one month; Capt. and Brevet Major W. H. W. Bennett, one month; Capt. James Lecky, two months; and Lieut, F. M. Eden, one month in extension.

53rd Regiment. Capt. Auchinleck has been permitted to resign his appointment as adjutant of the 6th Royal Lancashire Militia.

58th Regiment. Capt. Foster has been appointed to the depôt at Northampton. Notwithstanding Lieut. Harrison's long service, it is to be feared he will have to suffer the mortification of seeing an outsider brought in over his head to the vacant company.

61st Regiment. A correspondent writes:—"In the hope that this may meet the eye of some of the authorities, I write to ask you to kindly publish the subjoined extract from 'Hart' for 1877, showing the length of service of twelve out of the thirteen lieutenants of my regiment, whose names appear in the 'Army List' for last month (January):—Lieuts. W. M. Fowler and C. M. Murray, fifteen years' full pay service; F. J. Carter (adjt.), thirteen years' full pay service; R. H. Corbett and E. Law, twelve years' full pay service; T. W. C. Leathem, eleven years' full pay service; A. C. Fryer (instr. of musketry), M. C. O'Connell, and C. E. Whalley, ten years' full pay service; M. M. F. Trotman, A. Gilmore, and F. H. England, nine years' full pay service. It will thus be seen that the average length of service of the twelve is eleven and a-quarter years, while the junior lieutenant but one (lately gazetted) has nine years' full pay service—a brilliant prospect! I may add that only one step (a company) has gone in the regiment for four years, while two officers (a major and a captain) were brought in from half pay about a year ago. In this way the assurance to Parliament of the late Government, that promotion would not be retarded by the Army Regulation Bill, has been verified in the case of us unfortunates."

64th Regiment. Lieut.-Col. Barker, whose appointment was recently announced, has joined the Staff at Head-Quarters as Assist. Director of Military Education from the Staff College, where he has lately been employed as Professor of Military History.

65th Regiment. Capt. C. A. Fillingham died at Lucknow on the 1st ultimo, aged twenty-nine years. He entered the Army July 20, 1867; became lieut., Sept. 15, 1869; and capt., May 17 last.

66th Regiment. The old colours have been sent home from India by Lieut.-Col. Barclay and the officers in charge of an officer, and are about to be laid up in the Church of St. Mary's, Reading.

67th Regiment. A Madras paper reports that cholera has made its appearance among the men of the regiment. A private died from the disease on Jan. 2, and six cases had been admitted into the regimental hospital.

77th Regiment. Capt. E. N. Mosley, late of the regiment, died at Thornhill, Derby, on the 28th ult., aged thirty-seven years. The deceased joined the Service March 18, 1859; became lieut., Oct. 2, 1863; capt., Jan. 29, 1870; and retired last year by sale of his commission.

92nd Highlanders. Capt. Oxley was the winner of the "All-comers' prize" in the Assemblage rifle meeting. Lieut. Cunyngham has passed the lower standard examination in Hindostanee.

94th Regiment. Capt. French has handed in his resignation of the adjutancy of the Louth Militia.

98th Regiment. Lieut. Marryat obtains Capt. Gunton's company.

101st Fusiliers. Seeing how rapid promotion has been in the 101st, it would be but justice were the company vacant by the retirement of Capt. Arrowsmith offered to one of the subalterns of the unfortunate 109th.

105th Light Infantry. An enjoyable entertainment was given in the garrison library, Colchester, on Tuesday evening, Mrs. Bell, wife of the commanding officer, taking part.

107th Regiment. Lieut. Hardtman-Berkeley is to be allowed to accompany Governor Cairns, C.M.G., from Queensland to South Australia as his aide-de-camp.

Rifle Brigade. The Brigade is not to be robbed of a step in consequence of the Duke of Connaught's recent introduction. Brevet Lieut.-Col. Stephens, 2nd Batn., is to be promoted to the 1st Batn., vice Col. Manningham-Buller, retired upon half pay, Brevet Lieut.-Col. Sotherby, also of the 2nd Batn., being promoted to the majority, and Brevet Major Cragg rejoining the establishment from the adjutancy of the West Kent Militia. We (*Irish Times*) hear that the 1st Batn. will be very shortly moved from the Royal Barracks, Dublin, to the Curragh, to enable the Royal Engineers to proceed with some sanitary works which are considered requisite for the health and comfort of the troops.

2nd West India Regiment. Capt. O'Callaghan, the *Irish Times* says, is not to accompany Sir Arthur Kennedy to Queensland as aide-de-camp, as currently reported.

10th Brigade Depôt. The command will be vacant shortly consequent on the promotion of 'Col. Broadley Harrison. Col. Harrison was appointed in April, 1875, and served previously in the 11th Hussars.

Commissariat Department. "C. de G." writes:—"The officers of the Commissariat and Transport Department are most grateful for your warm and persistent advocacy of their cause. There is one point, however, and a very important one, which requires to be brought prominently forward, and that is, the anomaly of a corps consisting of 250 officers and some 2,000 non-commissioned officers and men being under the actual command of a retired officer, who is not subject to the Mutiny Act and Articles of War himself, and cannot legally exercise any of the powers conferred by that Act and those Articles. Previous to Control the Commissariat Department was presided over by a full-pay commissary-general-in-chief, appointed for five years, and possessing full military authority over every officer and soldier in the department. This officer was part of the establishment, and by the present arrangement the department loses one appointment as commissary-general and a quinquennial step of promotion in each grade."

THE AUXILIARY FORCES.

MILITIA.

6th Lancashire. Capt. Auchinleck, 53rd Regt., has resigned the adjutancy.

1st Stafford. The vacant company will, it is understood, be filled by the introduction of a Linesman or ex-Linesman.

Aberdeenshire Highlanders. The adjutancy is falling vacant by the retirement of Brevet Major Alexander.

Royal South Wales Borderers. Why should this regiment be inserted in its wrong place in the "Army List?" It should appear among the W's, but it has been put by mistake between the 2nd Somerset and 1st Stafford.

Royal Cork City Artillery. Capt. Hon. B. B. Fitzpatrick has handed in his resignation of his commission.

Royal Carnarvon Rifles. The Auxiliary Forces Circulars just issued contain a notification of the increase some time since sanctioned. Is not this official announcement somewhat late?

Kildare Rifles. Sub-Lieut. de Robeck has qualified for a cadetship in the Royal Military Academy, Woolwich.

Louth Rifles. The adjutancy is vacant by the retirement of Capt. French, who was appointed in Nov., 1875.

Royal North Down Rifles. Major Hall has been recommended for promotion to the honorary rank of lieut.-col. Sergt.-Major Pilkington, who joined from the 25th Regt., having completed twenty-two years' service, has retired on a pension. The sergeant-major was entertained at supper in the sergeants' mess-room, Newtownards, on the 26th ult. In proposing the health of the guest of the evening the adjutant, Capt. Hamilton, spoke in high terms of Mr. Pilkington, who, he stated, was in many respects a man superior to the situation he occupied.

The officers commanding the following Militia regiments will be permitted to recommend two lieuts. during the year 1877 for commissions in the Army as second lieuts.:—Regiments of fourteen companies—Northampton and Rutland, Worcester, and 2nd Lancashire. Twelve companies—West Kent, 1st Lancashire, East Kent, Royal Sussex, Notts, 1st Stafford, 1st and 2nd Lanark, and 4th, 5th, 6th, and 7th Lancashire. Ten companies—1st, 2nd, 3rd, and 5th West York, 1st Cheshire, West Suffolk, 2nd Surrey, Leicester, 1st, 3rd, and 5th Middlesex, 1st and 2nd Warwick, Shropshire, 2nd and 3rd Stafford, Tyrone Fusiliers, Ayr and Wigtown, St. Helier Battalion, Jersey, and 2nd Guernsey. As the foregoing are entitled to only one nomination according to the normal roster, the second nomination now offered is in anticipation of one to be offered in a future year. In case of refusal the future claim of the regiment so refusing will not be prejudiced, provided the refusal be made known to the Inspector-General of Auxiliary Forces by April 1, 1877. The following will be allowed one nomination each, viz.:—Twelve companies—*3rd Lancashire. Ten companies*—Northumberland, 2nd Middlesex, Highland Light Infantry, Antrim Rifles, 2nd Cheshire, Royal London, Hants Infantry, Limerick County, 4th Middlesex, and 6th West York. [*Each of the foregoing regiments having anticipated the nomination to which it would have been entitled on the normal roster for 1877 is offered this extra nomination in anticipation of one for a future year. In the event of a refusal its future claim will not be prejudiced.] Eight companies—1st and 2nd Durham, Berks, North Lincoln, Cumberland, Forfar Artillery, Essex Rifles, Bedford, 1st and 3rd Surrey, 2nd South Devon, Hertford, Monmouth, Cornwall Rangers, 1st Devon, Royal Glamorgan Light Infantry, 2nd Somerset, 1st Derby, North Gloucester, Armagh, Scotch Borderers, Aberdeen, Highland Borderers Light Infantry, Clare, Highland Rifles, King's Own Tower Hamlets, Wexford, Dublin City, North Tipperary, Kerry, Dublin County, Hereford, South Down, North Cork, Edinburgh County, Kilkenny, Renfrew, 1st Jersey, and 1st Guernsey. Seven companies—3rd and 5th Jersey. Six Companies—Haddington Artillery, West Cork Artillery, Norfolk Artillery, Kildare, Galway, Roscommon, Cavan, Louth, Westmeath, Meath, Monaghan, Yorkshire Artillery, 2nd Jersey, 3rd Guernsey, and Jersey Field Artillery. The Westmoreland, North Mayo, and Sligo having been permitted the option of postponing the nominations offered to them in 1876 are placed on the normal roster for 1877.

VOLUNTEERS.

40th Middlesex Rifles. Lieut.-Col. Vincent is inaugurating changes calculated to add materially to the *prestige* of the corps both in the matter of drill and discipline. Among other things, the system of committees is proposed to be modified, a set of revised rules having emanated from the members themselves.

3rd Glamorgan Rifles. Capt. and Adjt. H. J. Berners died at Pau on the 28th ult., aged forty years. The deceased served with the 43rd Light Infantry in the Indian campaign of 1857-58, and was present at Jubbulpore and Puttrai (medal). Also served in the New Zealand war in 1864-65, and was wounded in the action at Te Ranga (mentioned in dispatch, and medal). He entered the Army June 7, 1854; became lieut., April 13, 1855; capt., Feb. 11, 1862; and retiring by sale of his commission, joined the regiment as adjt. March 2, 1868.

THE INDIAN ARMY.

3rd Bengal Cavalry. Capt. G. W. Willock, third squadron officer, has been granted leave from India to England for one year on private affairs.

16th Bengal Cavalry. Major J. Upperton, second in command, acted as an extra aide-de-camp to Lord Lytton, at Delhi, during the Imperial Assemblage.

1st Bengal N.I. Sub-Lieut. A. C. Batten, 34th Foot, being a candidate for the Staff Corps, has been appointed to officiate as second wing subaltern on probation.

2nd Bengal N.I. Sub-Lieut. W. K. Downes, 18th Foot, having entered himself as a candidate for the Staff Corps, has been appointed officiating second wing subaltern on probation.

13th Bengal N.I. Lieut.-Col. W. Playfair, wing officer, is about to return to India, to resume duty from leave.

23rd Bengal N.I. Subadar-Major Nutha Sing, "Sirdar Bahadoor," did duty as an extra native aide-de-camp to Lord Lytton during the Imperial Assemblage at Delhi.

29th Bengal N.I. Lieut. C. C. Dyce, wing subaltern, is about to be promoted to the brevet rank of capt.

1st Punjab Cavalry. Major G. C. Bird, second in command, is about to return to duty in India from leave in England.

4th Punjab Cavalry. Major T. O. Underwood, squadron officer, has been granted a six months' extension of leave from India.

6th Punjab Infantry. Lieut.-Col. C. W. Chowne, wing officer, is about to return to India to resume duty from furlough in England.

3rd Madras Light Cavalry. The *Times of India* thus refers to the appearance of the regiment at the Imperial Durbar at Delhi:—"There, too, were the 3rd Madras Light Cavalry, which was raised in the year 1785; it was recruited from Hyder Ally's horsemen, and afterwards from those of Tippoo Sultan. It has since continued to be recruited from Arcot and Mysore, and the men have been horse soldiers from father to son during the last century. The regiment was at first under a native commandant, but gradually fell into the European system, with full complement of English officers, until 1865, when the number of British officers was reduced to seven. The regiment took part in most of the early wars, and bears 'Mahidpore' and 'Seringapatam' on its colours. It was also engaged in the Pindaree war in 1868, and in the South Mahratta Country in 1844-45. The uniform is French grey, with facings of pale buff, ornamented for officers with silver lace, for men white worsted lace. The arms are sword, pistol, and carbine. The organization is on the model of a British Cavalry regiment in all respects, except that native officers replace British ones for all places, except the four senior and Staff positions. The natives wear red turbans—the Europeans helmets, with white turbans. The horses are of the Persian, Herat, and Turkoman breeds."

1st Madras N.I. Capt. F. R. B. Byrch, qrmr., has been granted a six months' extension of leave from India.

20th Madras N.I. Speaking of the regiment, which was present at the Imperial Assemblage at Delhi, the Special Correspondent of the *Times of India* says:—"Turn also to the records of the 20th Madras Native Infantry. This regiment was raised in the year 1775 at Tanjore by Capt. Baggot. The regiment was engaged throughout the wars of Hyder Ally, and was present at the taking of Bangalore under Lord Cornwallis in 1791, and at the assault of Seringapatam in 1799. It served in the Mahratta Country in 1802-3. In 1811 it volunteered for the Mauritius. In 1817 it formed part of the line in the Goomsoor Country, where it continued that and the following year. In 1834 it was present at the taking of Coorg, and in 1844-45 it served in the Southern Mahratta Country campaign; was present at the storming and taking of Samanghur, surrender of Badderghur, storming and capture of Panallghur and Pownghur, &c. Whilst serving under Gen. Sir Eyre Coote in action near Sholinghur on Sept. 7, 1781, the personal standard of Hyder Ally was captured, and the regiment has been allowed to carry it ever since as a third or honorary colour—an extra jemadar is allowed for the purpose."

29th Madras N.I. Col. H. A. Hare, commandant, has arrived home from India on leave.

1st Bombay Cavalry. Major E. G. Jenkins, squadron officer, has arrived home from India on leave.

26th Bombay N.I. Najor J. C. D. Moray, wing officer, has vacated his appointment, and has taken up general duty at Ahmedabad.

INDIA.

The *Times of India* says:—"There was no little indignation amongst military men at the Delhi Assemblage, when the *Gazette* Extraordinary was issued on the evening of Jan. 1, and it was found that not a single honour had been conferred on any representative of the Army. The omission was felt the more, because the Navy, in the person of Admiral Macdonald, received a K.C.S.I., all to itself. The rest of the good things was reserved for a handful of civilians, some of whom, no doubt, deserved remembrance on such an occasion, and a whole swarm of natives of every conceivable class. That the natives of India should receive the lion's share of the honours distributed upon the creation of a new Empire of India, was of course, quite becoming and proper, but surely military men who had done good service to the State in the past, and who may be called upon to shed their blood again in its defence, should not have been wholly overlooked. The non-official Europeans were also passed over, but as they are accustomed to be slighted and ignored, they do not complain; but military men do complain, and very bitterly."

The thirty surviving officers of the siege dined together lately at Delhi. Gens. Norman, Daly, and Roberts spoke. Gen. Brind defended himself with emotion against the charges of cruelty brought against him in Kaye's "History of the Sepoy War."

Several regiments, both at Peshawur and Rawul Pindee, have been warned for approaching field service. Among these the *Civil and Military Gazette* names the 4th Hussars, the 12th Bengal Cavalry, the 4th Batn. Rifle Brigade, the 21st Bengal N.I., and the 5th Goorkhas.

We (*Civil and Military Gazette*) understand that Capt. Champman, D.A.Q.M.G., has returned to Kohat from making a survey of the road to Thull, and Col. Mylne, of the Commissariat Department, has arrived at Kohat within the last few days. The objects with which these officers have visited the frontier station, deputed by Government as they have been for some purpose unknown, have not yet been made public, but circumstances all point to some preparations for an expedition.

Col. G. E. Thomas, Bombay S.C., has been appointed to do general duty at Sattara.

Surg.-Major B. Kendall, Bengal Medical Service, has applied for permission to retire upon the pension of his rank.

An Auxiliary Forces Circular just issued states that "the men belonging to Class 2, section D, of the Army Reserve (enrolled pensioners) in the following districts will be called out for eight days' exercise during the present year:—Aberdeen, Bath, Bristol, Cardiff, Chatham, Coventry, Derby, Dundee, Edinburgh, Gloucester, Leeds, 1st and 2nd Liverpool, Newcastle-on-Tyne, 1st and 2nd Plymouth, 1st and 2nd Portsmouth, Preston, North Stafford, Stirling, Worcester, 1st and 2nd Belfast, Cavan, Clonmel, Ennis, Kilkenny, and Waterford. If arrangements can be made for ball practice two of the eight days will be so employed. All pensioners who appear unfit for further service, or are over fifty-five years of age, will be struck off the strength of the force on March 31.

THE NATIVE ARMY IN INDIA.

The following important Circular, dated "Camp, Delhi, January 1, 1877," was issued on the occasion of the Imperial Assemblage :—

The Viceroy and Governor-General of India in Council has much gratification in announcing to the Native Armies of India that, with a view to the improvement of the condition of the Native commissioned and non-commissioned officers and men serving in the Armies of the three Presidencies and the Punjab Frontier Force, the following measures, recommended by the Government of India, have received the sanction of her Majesty's Government :—

I. A grant of 30 rs. will be made to every recruit of Artillery, Infantry, and Sappers and Miners, and to the Madras Cavalry and Governor-General's Body Guard on enlistment, to aid in the provision of the established kit.

II. An annual allowance of 4 rs. will be given to every non-commissioned officer, drummer, and private of Artillery, Infantry, and Sappers, and to the Madras Cavalry and Governor-General's Body Guard, in aid of half-mounting. This will not be given to soldiers of less service than eighteen months.

III. Good-conduct pay at the rate of one, two, and three rupees monthly will be granted in future as follows, viz. :— To the Bengal Cavalry and Punjab Frontier Force, after three, nine, and fifteen years, instead of after six, ten, and fifteen years' service ; and to the Madras Cavalry, to the Artillery of the Bombay Army and Punjab Frontier Force, and to the Infantry and Sappers and Miners of all three Presidencies, after a service of three, nine, and fifteen years, instead of one and two rupees after six and ten years, as at present.

IV. Increased pay will be given to Native commissioned officers at the following rates, which include cantonment batta, viz. :—

		Per Mensem.		
Governor-General's Body-Guard.				
1 Subadar		Rs.180	0	0
1 Jemadar		70	0	0
1 „		60	0	0
Madras Cavalry.				
Subadars, one-half		Rs.150	0	0
„ „		110	0	0
Jemadars, one-half		60	0	0
„ „		50	0	0
Body-Guard of the Governor of Bombay.				
1 Ressaldar		Rs.250	0	0
1 Jemadar		135	0	0
1 „		70	0	0
Bombay Cavalry, each Regiment including the Scinde Horse.				
1 Ressaldar-Major		Rs.300	0	0
1 Ressaldar		250	0	0
1 „		200	0	0
1 „		150	0	0
1 „		135	0	0
1 „		120	0	0
1 Woordie-Major		150	0	0
9 Naib Ressaldars	3	80	0	0
	3	75	0	0
6 Jemadars	3	70	0	0
	3	65	0	0
Artillery.				
Subadars, after six years' service		Rs.100	0	0
„ under six „		80	0	0
Jemadars, after six „		50	0	0
„ under six „		40	0	0
Infantry of the Three Presidencies, and Punjab Frontier Force, and Sappers and Miners.				
Subadars, one-half		Rs.100	0	0
„ „		80	0	0
Jemadars, one half		50	0	0
„ „		40	0	0

In the Bombay Sappers and Miners two subadars and three jemadars will receive the higher rates, and the remaining officers the lower rates of pay. The allowance to all subadar-majors will be increased from 25 rs. to 50 rs. per mensem.

V. Compensation for dearness of provisions, which is now granted to other branches of the Service in the three Presidencies, will be extended to the Bengal Cavalry, including that of the Punjab Frontier Force. The several indulgences thus granted to the Native Armies of India will have effect from the date on which her Majesty's gracious assumption of the style and title of Empress of India is proclaimed to her Majesty's subjects in this empire, viz., from Jan. 1, 1877.

A great deal of doubt, says the *Times*, has been set at rest by an announcement in the *London Gazette*, that Col. F. Chaplin, of the 4th Dragoon Guards, retires upon half pay after serving five years as a regimental lieutenant-colonel. This officer is the first to retire under the new scheme ; but now that the rule has been established there will be a number of other similar changes, and sixteen other regiments will lose their commanding officers during the present year. They are the 1st Life Guards, Col. Bateson ; 2nd Dragoon Guards, Lieut.-Col. Steward ; 5th Foot, Lieut.-Col. Carden ; 9th Foot, Col. Hawes ; 14th Foot, Lieut.-Col. Hawley ; 15th Foot, Lieut.-Col. Wilkinson ; 20th Foot, Lieut.-Col. Meares ; 22nd Foot, Lieut.-Col. Armstrong ; 67th Foot, Lieut.-Col. Jebb ; 72nd Foot, Lieut.-Col. Beresford ; 79th Foot, Lieut.-Col. Miller, C.B. ; 80th Foot, Col. Smith ; 86th Foot, Lieut.-Col. Jerome ; 103rd Foot, Lieut.-Col. Parsons ; 2nd West India Regt., Lieut.-Col. Webber, C.B.

The *Irish Times* learns that the War Office has again had submitted to it a recommendation to the effect that the Staffs of sub-districts are incomplete whilst deprived of the services of a permanent adjutant, but we regret to say there is as yet no prospect of the want being supplied. The same journal "is glad to learn that the health of Lieut.-Gen. Randal Rumley has improved."

The directors of the London and County Banking Company, in submitting the balance-sheet of the bank for the half-year ended Dec. 31, report that after paying interest to customers and all charges, allowing for rebate, and making provision for bad and doubtful debts, the net profits amount to £105,447 6s. This sum, added to £25,719 2s. 3d. brought forward from the last account, produces a total of £131,166 8s. 3d. They recommend the payment of a dividend of 8 per cent. for the half-year, which will absorb £120,000, leaving a balance of £11,166 8s. 3d. to be carried forward to profit and loss new account. The present dividend, added to that paid to June 30, makes 16 per cent. for the year 1876.

THE COMMISSARIAT DEPARTMENT.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—The department to which I belong have every reason to thank you for the interest you have always shown in everything connected with the administration of the Army and its efficiency, well knowing that anything coming from the Editor of the ARMY AND NAVY GAZETTE carries a weight that cannot be assumed by any other contemporary, and believing that your experience is derived, not from theory alone, but long observation in the field. It would be difficult to imagine the depression under which the Commissariat and Transport Departments at present labour. There is a feeling throughout that their chiefs, their natural protectors, have no sympathy with them, and that those officers who have borne the burthen in all climates, in peace and war, are being set aside whenever an opportunity offers, without hesitation or consideration for past service ; and as to promotion, as laid down in Royal Warrants, it appears hopeless. The Surveyor-General in the early part of the past year was pleased to say that he was willing to receive and take into consideration any personal grievance laid before him in writing by any departmental officer, and the pigeon-holes of the War Office bear witness to the response ; but there it ended, so far as the Surveyor-General or any one else is concerned. The aggrieved officers were told in Parliament last March, when a question was asked by Sir Henry Havelock on the subject of Commissariat grievances and discontent, that a committee was sitting on the *personnel* of the department, and that' until the committee made its report, it was considered inadvisable to give an answer—that is ten months ago ! A new scheme, again propounded ostensibly by Mr. Haliburton, is put forward as the cause of the delay in redressing these grievances, and this scheme is now no secret, although its sittings were held with closed doors, and none admitted or examined upon it save those known beforehand to be favourable to its objects. This gentleman who, it is rumoured, has much ability, was, I find, a very junior officer in the Commissariat Department, and from some infirmity, either sickness or an injury, was reported unfit for general service in the department of which he was a member, and on the formation of Control found a place in the War Office as assistant to the Director of Supplies and Transport at a salary of over double his former pay. His success here is a great credit to his abilities. Mr. Haliburton starts in his report by laying down certain premises, and from these builds a structure less stable, I am of opinion, than even Control. I deny these premises *in toto*, and so does a gentleman of the rank and standing of Mr. Tatum, to whom his report was referred. The report assumes that there is a want of harmony between the Army and Commissariat. Before I go further, hear Sir Charles Trevelyan's evidence on the last committee held at the War Office on Control. In answer to a question whether he would not prefer his own Treasury officials to conduct finance, instead of Commissariat officers, he says—"By availing itself of these officers (*i.e.*, Commissariat) it could obtain officers of proved character and ability, and officers who, belonging to a regular service, had all the motives for good conduct which that implies. The sole consideration to be set against all these objections was, that it is contrary to general principle that the same person should serve two masters. But I had that confidence in the officers of the Commissariat, that I felt sure they would prove an exception to this general rule. One of the peculiar features of the Commissariat is that it is trained to act under many superiors belonging to different branches of the Service—Commissariat, military, Treasury, colonial governors, and so forth." (Question 2650—Chairman, Major-Gen. Sir D. Cameron, K.C.B.—And the Admira'ty ?—Yes, and the Admiralty. And as the Commissariat has always acquitted itself to the satisfaction of all those different superiors, I felt sure that they would also do their duty by their old masters at the Treasury, and so it has turned out.) I leave you, sir, to judge for yourself as to the accuracy of Mr. Haliburton's statements. I admit that there may be some grounds for what Mr. Haliburton says during the five years Control lasted, to which scheme Mr. Haliburton, it is believed, gave a helping hand, and has been one of the very few fortunate gainers, but I deny its existence, either before Control or since it has been abolished, except in so far as any check-keeper of the public purse may become liable. That distinguished portion of the Army, the Royal Engineers, do not come out scathless when they keep watch over the Government expenditure in barracks or buildings, and are not in this respect a whit more popular than the Commissariat. The object Mr. Haliburton has professedly in view is the more harmonious working of the military machine. Mr. Haliburton cannot be serious in the reasons he adduces for the employment of men of the quartermaster class in substitution of the present young officers. The very reason he gives, I think, would prove the contrary. He says they should be "up to" the "thousand and one little methods to which those with whom they have to deal resort in order to 'scamp' the Service to the utmost." These are Mr. Haliburton's words. I confess that I do not understand them, unless he intends his model quartermaster should be trained in the school of dishonest contractors ; this is too dangerous an experiment I should think to try in the British Army. It is opined that Mr. Haliburton, in the first instance, before he proceeds further with his scheme, purposes to get expunged from the Queen's Regulations, Sec. 7, Art. 24, which expressly lays down that these officers were prohibited, and are "not to deal with the quality of supplies, or to have anything to do with the admission of forage into store," also Art 25, applying in the same way to finances. Now, the reason for insertion of these articles into the Queen's Regulations it is not necessary to dwell upon, only that it wasl aid down for good reasons, and that it should be an argument, and a very weighty one, against officering the junior ranks with men of the quartermaster class ; they are most useful in branches where they are unconnected with contractors or supplies. The offence of being young men and from school being brought against the present junior officers I imagine should be a reason, and was a ground for their selection, and I would far prefer them ; they are educated, they are gentlemen, their traditions are those of their class, and they have had no knowledge of or connection with contractors before they entered the Service, and are of the same material which made a Sir John Bissett, a Sir Randolph Routh, a Sir George McLean ; and last, not least, Mr. Haliburton's chief, Sir William Drake, whom, if report speaks true, Mr. Haliburton aspires to succeed. These young gentlemen have learned drill and interior economy with their corps, and are trained to ride. I am afraid *few* of Mr. Haliburton's friends can "cross country." Now for the captains of ten years' service, whom their several regiments may desire to take service in the Commissariat ; they had better consult, first, those who have tried it under Control, and the faith that has been kept with them. I imagine that one-half hour's conversation with those regimental officers who joined Control, would be sufficient to convince them that not much faith can be put in Government covenants. The same War Office pigeon-hole in which their complaints are stowed away could also testify to this. It will not require much argument to convince any one that the training of a regimental captain is not such as to form officers of administration, able at accounts, keen in knowledge of supplies and banking operations, and to be sufficiently so trained as to be able to check the practised junior officers of the department. Mr. Tatum, I think, makes this plain in his paper on Mr. Haliburton's scheme. Mr. Haliburton argues that there is no responsibility connected with finance that a military officer just appointed would not equally well perform as a trained departmental one, the regulations providing for everything connected therewith, and, therefore, exercise of judgment is unnecessary. I think Mr. Haliburton is in error when he makes such a statement in peace time, when everything runs smoothly ; this may be the case, but certainly not in war, or in many other difficult circumstances. Witness West Indies and breaking-up combinations of contractors under Depty. Comy.-Gen. Bowers, New Zealand, and monies sought to be obtained from the Treasury-chest for colonial purposes under Depty. Comy.-Gen. Strickland and Comy.-Gen. Jones, and almost all our colonies where the financial abilities of the Commissariat officers and their regard for the public interest saved thousands upon thousands to their country. These services were and are fully recognized by the Treasury, although not noticed by Mr. Haliburton. Mr. Haliburton's scheme lacks, to my mind, the two essentials without which it cannot hope for success, namely, in the junior ranks, the materials from which he can hope to get men above all inducements of pecuniary gain other than what is legitimate ; and in the senior ranks, that from which can be obtained able administrators, the latter entering the department at a period of life difficult to learn new duties, and foreign to their training, modes of thinking, or habits.

February 1, 1877. COMMISSARY.

SIR,—The announcement in your issue of Saturday last, that in the event of an expeditionary force being sent to the East the post of commissary-general will be betowed on a general officer, has given rise to much unfavourable comment in departmental circles. If the Secretary of State has come to a decision so disparaging to the officers of the Commissariat, the department has great cause for complaint. The only construction that can be placed upon such a proposal is, that in the opinion of the Surveyor-General of the Ordnance (who is responsible for the efficiency of the Department), the establishment cannot furnish an efficient officer for the charge. This, however, is not the case. The records of service, which are better than mere opinion, prove conclusively that there are officers within the department who are quite capable of taking Commissariat charge of an army in the field. The principle of selection, which usually obtains in respect of military command, might fairly, and with benefit to the Service, be adopted in this case. Under the present Administration the officers of the Commissariat are sufficiently weighted with grievances for which they can obtain no redress ; but this last suggestion, if carried out, would be the crowning point of their misfortunes. If the idea has been seriously entertained by the Secretary of State for War, it is to be hoped that he will reconsider it, and thus save an important department of the Army from unmerited humiliation.—I am, &c., JUSTITIA.

Jan. 30, 1877.

SIR,—Before giving vent to the feelings of surprise raised by the little paragraph in your last, announcing (I trust not upon good authority) that in the event of an expedition proceeding on service, an officer from the effective list of generals would be appointed commissary-general, it occurs to me that it may be as well to ask if you can say of which department—the Commissariat and Transport, or Ordnance Store ?—for, as you are doubtless aware, the officers of these two departments—to the confusion of the Service—have the same titles, so that with an army in the field there will in future be two commissary-generals. —Yours, &c., A. C. S.

THE CASE OF H.M.S. REPULSE.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—May I make bold enough to ask you the favour to give us, through your paper, what information you can with respect to the possibility or probability of H.M.S. Repulse returning to England. After four and a-half years of an extremely unhappy commission, under four admirals and five captains, there does not appear to be any prospect for a man to get free but desertion, which method has already been adopted by about 250, or half the complement. Mr. Ward Hunt, on becoming First Lord of the Admiralty, declared his intention of relieving ships at the expiration of three years. How he has done so the "Navy List" will show ; but the Repulse is the hardest case of all, I think, and I could bring 500 of her complement, out of 517, to say she was the most uncomfortable ship they had ever seen. It will serve no purpose to weary you with grievances, but I assure you that things have gone from bad to worse under the new rulers in the Pacific Ocean, and life is now scarce worth having on that station. By taking some notice of our case you will greatly oblige many besides your obedient servant,

SICK AND WEARY.

The Secretary of State for War, the *Times* states, has written to Mr. Kimber to say that, in regard to the merits of the Plumstead-common case, he leaves with confidence the suit to the decision of the Courts of Judicature, and the Bill to the consideration of Parliament. He declines at the present stage to offer any opinion upon either subject.

Lieut.-Col. Hon. G. A. Spencer died at Dover-street, Piccadilly, on the 18th inst. Col. Spencer, who was a son of the first Baron Churchill, was born in 1804, was lieut.-col. of the 37th Regt. from 1845-49, exchanging in the latter year to the Coldstream Guards, with which he served from 1849 to 1851, when he retired.

ARMY MEDICAL DEPARTMENT.

The following letters have been addressed to us on the above subject:—

Sir,—I have just read an excellent article in your issue of Jan. 27 upon the new system adopted with regard to the Army Medical Department. The great loss which the medical officers have to lament arises from the difficulty they have in getting a servant, who before, as regimental officers, was supplied on reasonable terms from the ranks. Medical officers of the junior ranks had one soldier servant, and those who held field officer's rank had two soldier servants; but, by the present arrangement, this privilege is forbidden, and the generous allowance in money, in lieu of these servants, is one shilling a-day, or £18 5s. a year. It is impossible for any gentleman now to get a man servant, not to say two men servants, for £18 5s. per annum. The mess difficulty is easily arranged. If a regiment makes a bachelor an honorary member of their mess, and he avails himself of this, and uses the mess, he ought, of his own free will, to offer, when he accepts the kind invitation, to contribute to the mess fund a monthly contribution, equal to that paid by other officers of his relative rank, and, besides, request that he may be put upon the same footing as the other dining members of the mess, with respect to paying for his dinners, even when he may happen not to dine. Of course married medical officers so situated would not be likely to use the mess more than other Staff officers do who are made honorary members of the regimental messes in their garrison; but, in the event of these gentlemen being obliged to use the mess, they could not reasonably object to being put, for the time, upon the same footing as the married officers of the corps. If I were in any position of this kind, I would certainly feel much more comfortable under some arrangement of this sort than otherwise.—I am, &c.,

An Old Regimental Medical Officer.

Sir,—The prescient article adorning the first page of your last issue only loses power towards its close, and does, in drawing to its conclusion, more honour to the writer's heart than to his head. "The wonderful silence of the Army medical officers" alluded to I take to be conclusive evidence of their secret satisfaction with the issues of unification, as they have always shown aptitude in ventilating even sentimental grievances—such as slights and paltry details about uniform, &c. The unification is excellent; but will this new ten-year bonus scheme eventually produce any medical men of the right sort to unificate? The truthful bearing of many of the observations in the article quoted entirely depends upon circumstances. Many worthy Army surgeons looked upon the whole mess arrangements as an expense and a vexation. Now they feel nearly as free as their civil brethren. The article goes on to say, "We now come to the disadvantage to regiments of being deprived of their surgeons." Now, all that follows in the article—with the exception, perhaps, of "that the mess will suffer," &c.—is nearly, if not wholly, imaginary and delusive. The increase of expense to those who remain, after the withdrawal of a messmate or two, must be a very trifling affair. Throughout my service, at home and abroad, I have never felt any difficulty about malingerers, whether in my own or when with a strange corps. Then "those who are really ill, suffering from the medical attendant's ignorance of their constitution and general history," is a vague state of matters for a competent and kind-hearted doctor to comprehend. "Officers' wives will naturally be less confidential to a strange doctor," &c., and a very wholesome improvement, too, *verb. sap.*; and this applies with more force to the case of "soldiers' wives." The painful incident at Woolwich only exposed incapacity or inhumanity in the surgeon, not defect in the system. The families of soldiers married without leave need lose nothing if the surgeon in charge is kindly and intelligent. As for the officers regretting the change for the reason that they cannot "informally consult an old friend" is not borne out by my experience; indeed, it has occurred that it was quite the other way, officers applying to me as the newly and temporarily-joined surgeon in preference to their own surgeons, with whom they were either on ill social terms or afraid of the regimental intimacies and tendencies of some men to tattle concerning certain ailments. What earthly reason can an intelligent British or other officer have for hesitating to apply to a comparative strange medical officer for advice? As for "the colonel being deprived of a very useful adviser, whose place cannot be filled by a man who knows nothing, and cares less about the regiment," rather should it be said that the commissioned officer has got rid of a scapegoat, or a stumbling-block, or disagreeable check, or a cantankerous opponent, or an object to bully and insult, and annoy, and generally to dislike, whichever you like to choose for the particular regiment, but seldom, ah! seldom, as his philosoper and friend; the military mind harbours no such sentimental nonsense. Now, he consults, for the good of his regiment, with a man who feels more independence of thought and feeling from his new isolation, away from the heart-burnings, the petty jealousies, and the party feeling of the corps. As for the "knowing and caring" alluded to, I have never been conscious of feeling any particular likes or dislikes for regiments. The unification of the Army Medical Department is a small part of the general progress and development of society and of the age, is quite suited to the times and the occasion, and will, in spite of the sorrowful anticipations of the writer of the article, flourish into even a better phase. Unlike the writer of the article, I think that, on the whole, it will more than answer; it will be crowned with success, if you implement it with a fair supply of good officers.—I am, &c.,

Satis.

Sir,—In your last issue you have a long article relative to the new medical regulations. I have been many years in the Service, and never heard medical officers complain of their regiments, and I fancy most of them are much annoyed at being removed from the society of their brother officers. You also observe, "In future, attached surgeons will be honorary members of the mess, but will pay no subscriptions." Now, I do not see how a man can belong to a mess without paying his subscription (his feelings would not allow him to do so), as he would be putting the regiment to an expense by his so doing. The War Office must recollect that all the mess property belongs to the officers, and not to the Government.—I am, &c.,

A Retired Officer.

Sir,—In your very able article of Jan. 27 you have most impartially weighed the merits and demerits of the medical unification scheme. And to what does it all lead? That the medical officer will be ostracised, and that the mess, discipline, the really ill, the colonel, officers, and the officers' and soldiers' families will suffer. If, then, the regimental unit suffers in every particular, how can the Army as a whole be benefitted? You, in conclusion, express some surprise that "medical officers have been wonderfully silent," forgetting, doubtless, that on the only occasion on which there was an official inquiry into the unification scheme the principal medical officers of districts were excluded, and general officers were expected to express their opinions on a theory of the practical working of which they could have no knowledge whatever. Medical officers raise their voices individually in appeal as each one experiences his personal grievance—whether it be severance from his regiment, the refusal of the privilege of exchange allowed to every other officer in the Army, the sudden disallowance of forage while horse and trappings are still on his hands, the compulsion to accept regimental quarters while he is for unification purposes called a Staff officer, or any other of the many wrongs—but with what effect the widespread discontent of the department only too plainly shows. Yet, surely when it is universally admitted that from the enforcement of an unsound scheme both regiments and the Army, as a whole, will suffer, it behoves, not the medical officers, but the colonels of regiments and the generals of brigades and divisions, to break a silence which has been kept too long, and which, if continued, will hand over the comfort and efficiency of those under their command to the mercy of erring theorists.—I am, &c.,

X.

THE OCCUPATION OF QUETTAH.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

Sir,—Your journal of the 27th ult. contains a paragraph, in which my name appears, in reference to the occupation of Quettah in Balochistan by a detachment of native troops of the Indian Army, and which leads me to infer that the writer has no personal knowledge of that locality, nor of the political, military, and commercial bearing of the question; and as it is a subject of some present and future national importance, perhaps you will permit me space to place it before your readers from my view, arrived at after a twenty years' study and a personal experience of the country and people of Balochistan, which few, if any other individual has had the advantage of. It may be as well to commence by stating that Quettah is a small fortified town situated in the valley of Shaul in Balochistan, about thirty miles from the north-west entrance of the Bolan Pass, and about ten from the frontier of Affghanistan, at an elevation of 5,600 feet above the sea. It commands the entrance of the Pass as well as the road leading to Khelat, the capital of the country. The Pass itself is about sixty miles in length, and opens at its south-eastern entrance into the province of Cutch Gundava, which entrance is again commanded by the fortified town of Dadur, from which to the British frontier is a distance of about seventy miles. The whole country from Quettah to the British frontier belongs to the Khan of Khelat. The writer of the paragraph I have mentioned, after calling attention to the occupation of Quettah by a detachment of Native Infantry, acknowledges that this occupation finds favour with the neighbouring tribes, and has the effect of keeping the Bolan Pass free for traffic. He then adds that that occupation cannot fail to give umbrage to the Amir of Cabool, and that no military advantages have been secured by it. And he still further adds that the detachment at Quettah is always exposed to be cut off, while, on the other hand, the passage of the Pass could be easily forced in case of war. According to the writer of the above, the only advantage consequent on the presence of the detachment above the Pass is that it finds favour with the neighbouring tribes, and keeps open the traffic of the Pass. This advantage, in my opinion, would almost alone compensate for the disadvantages pointed out by him, did these disadvantages really exist. But, in fact, Quettah has been occupied by a detachment from the Resident at Khelat's escort at the request of the ruler of the country, and to assist the neighbouring tribes by the moral effect caused by its presence in maintaining open the traffic of one of the main roads leading into India from Persia and Afghanistan, and which road has been since 1869 almost entirely closed by constant inter-tribal disputes, while the greatest sufferers have been the Afghan traders, their Amir, Shere Ali, having frequently brought to the notice of the British authorities the injury which the trade of his country sustained by the plundering of the caravans and the stoppage of the Pass. Why, therefore, the Amir should take umbrage at our action I am at a loss to understand. The detachment is not isolated, as, in addition to the small force at Quettah, I have reason to believe that another detachment from the Resident's escort is encamped at or near Dadur, at the southern entrance of the Pass, while the space intervening between Dadur and the British frontier—a dead level of about seventy miles—is patrolled by the 1,500 Cavalry stationed at Jacobabad, the Pass itself being guarded by the chiefs and their followers located in its neighbourhood, who are in British pay, acting as police. Under such arrangements I cannot see any fear of the detachment at Quettah being cut off. From the admirable arrangements which Lord Lytton appears to have made with the Khan and chiefs of Balochistan, when at Delhi, we may hope that a permanent good understanding will for the future be maintained between the Indian Government and the Khelat State, and that in the completion of these arrangements we may see established an entrenched position commanding the northern entrance to the Bolan Pass capable, if necessary, of containing a powerful British army, for offensive or defensive operations, with a well-constructed road leading through the Pass, which offers no engineering difficulties, connected at Dadur with a railroad joining our Indian railway system at Sukkur, on the Indus; by which means the force at Quettah would have the whole resources of India and England to draw upon; in fact, troops could be dispatched from England and arrive in a European climate above the Bolan Pass within a period of six weeks, and from our Mediterranean fortresses in half that time. With such measures once completed we might, I think, contemplate without uneasiness the occupation of Merv, or even of Herat, by Russia. I cannot, therefore, help considering that in occupying Quettah we have, in fact, obtained without bloodshed a most important military advantage, as well as a very great commercial one, and which will obviate the necessity of having at any future time to force the Bolan Pass. We may rest assured that in securing the alliance of a Power possessing so valuable a strategical position as Balochistan holds to British India, Lord Lytton has performed a great service to England, and it is to be hoped that he will now succeed in a still more difficult undertaking, that of placing the Afghan nation in similar political relations with India as Balochistan now holds.—I am, sir, yours &c.,

Henry Green, Major-General.

United Service Club, Jan. 30, 1877.

MILLBANK PRISON.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

Sir,—Will you permit me to remind your correspondent, "A Blue Book," that an extract from a medical officer's report is no reply to the statements I have made about Millbank Prison. Acting, apparently, upon the old legal maxim, that "when you have no case, abuse the plaintiff's attorney," he begins by saying, "I did not study the Directors of Convict Prisons reports sufficiently to be accurate;" while he, at the same time, never attempts to prove the inaccuracy of a single statement I made. I asserted Millbank to be the most unhealthy prison of three named. I proved from the Directors' reports between 1854 and 1874 that this was the case. I also mentioned that the worst cases were removed from Millbank to an invalid prison—such as Woking—to die, and that this probably kept the death-rate of Millbank down. The statistical tables connected with convict and military prisons are evidently as open to your correspondent as to myself; and if he wishes to throw doubts on what I have alleged, let him, with my previous letter in his hand, go to the source named, and from that contradict me if he can, and in as "cutting" terms as he chooses to make use of. I may add, in conclusion, that if "A Blue Book" will refer to my paper in *Colburn*, he will find that my "sarcastic thunderbolts" were, in the first instance, flung at the heads of the military authorities for their allowing soldiers to be confined in so unhealthy a prison as Millbank.—I am, &c.,

The Author of the Paper on "Military Prisons" (*Colburn*, Dec., 1876).

Jan. 16, 1877.

The commission of eminent physicians appointed by the Queen to report upon the sanitary defects of the War Office are pursuing their task at no small sacrifice of time and labour. When they have completed their inspection they will have seen every room. Meantime, however, the mere publication of our report has done good. The audit-room has been lightened of a considerable part of its population, and the general character of the sanitary arrangements, which were some months since overlooked by the Board of Works, is again being overhauled. No doubt also this committee will be able to obtain the prior reports of the Army Sanitary Committee on this structure. We have great faith, however, in the common-sense capacity of so eminently clear-headed a physician as Sir William Jenner and in his colleagues to shake themselves quite free from the trammels of minor details, to look at the building as a whole, and consider whether its tortuous, winding, ill-ventilated, ill-adapted structure is not such as to condemn it off-hand. Here is a dangerous building, which may be and has been tinkered into temporary fitness for habitation by repairs and changes here and there. But we wish now specially to urge that, with a site which would sell for nearly half a million sterling, and with buildings so wretchedly unsuited for a public office, it is not true public policy to regard only this drain-pipe or that skylight, or the little details of repair, but broadly to look at the whole complicated nest of ill-ventilated rooms, narrow passages, and winding corridors, and to consider whether this structure should not, in the interests of health, be condemned. To build a War Office suitable for lodging this great public department might cost a million; the present site would sell for perhaps half that sum, especially if the value of Winchester House be added, and England is neither so poor nor so stingy that the balance required could not be had for a work which is at once one of humanity and public credit. That Sir William Jenner and his colleagues can approve of the present offices from a hygienic point of view is not to be anticipated; and we have some confidence that they will so deal with the subject as to effect a permanent and large reform. That small reforms will follow is, of course, inevitable; but we hope for much more.—*Sanitary Record.*

The London correspondent of the *Irish Times* writes:—"H.R.H. the Duke of Cambridge has been sorely troubled of late about a matter of enormous importance to the Army. It is not about retiring pensions, promotion, quarters for married officers, or trifles of that sort, but about the momentous subject of shirt collars! Considering the small modicum of pay officers receive, I imagined that his Royal Highness might have been anxious to save officers the charges of a washerwoman's bill. To a civilian it might appear that as every officer wore a shirt, he also wore a collar; but this is by no means the case. There is a delicate question of privilege involved. There are but two foot regiments, the 43rd and the 53rd Light Infantry, notified as entitled to wear shirt-collars in uniform. Perhaps they won this distinction from some achievement in which shirt collars bore a conspicuous part. I am told that the 7th Hussars assert that they are entitled to the honour, or the inconvenience, also. But the Duke has plainly declared that shirt-collars are not on any account to be worn in uniform by any foot regiments but the 43rd and 53rd. No one can explain why these famous regiments have a distinction so honourable in itself and so beneficial to laundresses."

The St. Petersburg correspondent of the *National Zeitung* says that the question as to who is to succeed the Grand Duke Nicholas in the chief command of the Russian Army was brought before a Council of Ministers a few days ago—the Czar presiding in person. Field-Marshal Bariatynski has declined on the ground of his advanced age, and Gen. von Todleben cannot be spared from his present department. The correspondent believes the choice to be at present between Grand Duke Alexander Alexandrovitch, Ataman of all the Cossacks, and commandant of the military district of St. Petersburg, and Grand Duke Michael, the younger brother of Grand Duke Nicholas, and at present Governor of the Caucasus. In any case the new commander-in-chief will have the assistance of a staff of eminent and experienced officers, consisting of Gens. Count T. Heyden, von Gueldenstubbe, and Xryshanovski. The last-named is general of Artillery.

STATIONS OF THE BRITISH ARMY.

[Where two places are mentioned, the last-named is that at which the depôt is stationed.]

Corrected up to February 3.

COLONIAL CORPS.

1st WestIndia Regt.—Sierra Leone
2nd—Jamaica
Malta Fencibles—Malta

ARMY SERVICE CORPS

Head-quarters—109, Victoria-street, Westminster.

SOLDIERS' INSTITUTE, GIBRALTAR.

The following Circular has been sent to us from Gibraltar:—

The great success which has attended the Soldiers' Institutes already established in the principal garrison towns of the United Kingdom and the frequently expressed desire of many soldiers of this garrison, which numbers upwards of 5,000 men, have led some officers and others to undertake the establishment of a Soldiers' Home in Gibraltar, which, while abounding in all the temptations to vice usually existing in a garrison sea-port town, does not possess a single house unconnected with Societies or Lodges, where the steady soldier can spend his evenings. He is also, from its isolated situation, cut off from those out-door amusements and recreations so essential to the healthy tone of body and mind. There being few English residents here, it becomes necessary to appeal for assistance to those Christians at home possessed of wealth, and while fully aware of the many and deserving claims on the sympathy and support which they must always find around them, it is confidently believed by those undertaking this work and aware of all the circumstances, that there are few similar undertakings of the present day likely to do more good than the establishment here of a Soldiers' Institute. It is estimated that the object in view may be attained at a cost of £4,000. An earnest appeal is therefore made to all who have the interest of the soldier at heart, to help in this most desirable work, by contributing liberally towards the expense of it.

Management.—All property will be vested in Trustees, who will form the Governing Body, without whose approval no fundamental law can be repealed or altered, nor Superintendent appointed or dismissed. A local Committee of Management will be formed, to which the Superintendent will refer and submit accounts. A list of Trustees will be given hereafter.

Provisional Committee.—Col. W. G. Cameron, C.B, 4th Regiment; Col. R. Onslow Farmer, Royal Artillery; the Rev. J, Coventry, Chaplain; Major J. M'D. Elliot, 4th Regiment; Capt. H. S. Clarke, Royal Artillery; Lieut. M. B. Wilbraham Taylor, Rifle Brigade.

The following sums have been received or promised:—Lord Napier of Magdala, G.C.B., £50; Lieut.-Gen. Sir A. J. Lawrence, K.C.B., £5; Major-Gen. Eardley-Wilmot, R.A., £5; S. Morley, Esq., M.P., £25; Sir D. Russell, K.C.B., £5; the Bishop of Gibraltar, £5; Dr. J. MacRobin, £4 7s. 6d.; Mrs. Rose, £5; Miss Nightingale, £5; Mrs. Phipps, £2; Lieut.-Col. W. D. Forster, retired R.A., £5; Capt. H. S. Clarke, R.A., £10; J. G. Sheppard, Esq., £10; Dr. Kidd, £1; Mrs. Sittar, 10s.; Mrs. Wortley, £25; Major-Gen. Lake, C.S.I., £2; Major-Gen. Heyland, £1; Lieut. Mackinlay, R.A., £2; E. Dru Drury, Esq., £5 5s.; Anonymous, £20; Mrs. Cottam, £1; Col. Cameron, C.B., £10. Donations may be sent to the Treasurer, M. Wilbraham Taylor, Esq., Rifle Brigade, Gibraltar, or to the credit of the Soldiers' Institute, Gibraltar, at Messrs. Barclay, Bevan and Co., 54, Lombard-street, or at Messrs. Ransom, Bouverie and Co., 1, Pall Mall, East, S.W.

The *Pall Mall Gazette* hears that "Prince Frederick William, the eldest son of the Crown Prince of Germany, is, before commencing his studies at the University of Bonn, to do duty for some time with the 1st Regiment of the Prussian Guards. His brother, Prince Henry, is to go shortly to the Marine Academy at Kiel."

APOLLINARIS.

The ENCORE WHISKY.
Every gallon guaranteed equally pure.

The ENCORE WHISKY
Is Sold Everywhere.

The ENCORE WHISKY,
Wholesale Depot, Three-crown Square, Borough, S.E.

The ENCORE WHISKY
Is recommended by the Medical Profession throughout the kingdom as the pure and safe alcoholic stimulant.

ST. THOMAS'S HOSPITAL,
ALBERT EMBANKMENT, S.E., 28th February, 1876.

THE THANKS of the MEDICAL PROFESSION are due to Messrs. BERNARD and CO., LEITH DISTILLERY, SCOTLAND, for producing the ENCORE WHISKY—a Spirit more Wholesome and less Irritating than any Spirit extant, being especially useful for patients suffering from Kidney Disease.

R. W. JONES, F.C.S., M.R.C.S., L.R.C.P.E.

SPECIAL NOTICE TO OFFICERS AND SPORTSMEN.

W. SPARKES HALL and CO.,

310, REGENT STREET, W.,

Bootmakers to
H.R.H. the Prince of Wales, H.R.H. the Duke of Connaught, H.R.H. Prince Christian, H.I.H. The Crown Prince of Germany, The Marquis of Lorne, &c.,
Beg to call the special attention of Officers and Sportsmen to their

PORPOISE HIDE SHOOTING BOOTS,

Which, being made of the finest selected Skins and best Workmanship, will be found not only durable, but of Great Comfort to the Wearer.

The advantage of Porpoise Leather is that it never gets hard after being wet.

Also to their

CASE FOR HUNTING BOOTS,

Which contains every requisite for the Sportsman.

The boots and trees are at the bottom, and a tray, fitted above, carries blacking, varnish, &c. (in metal bottles, with screw tops), blacking brushes, top brushes, boot-hooks, breeches-hook, boot-jack, &c.

W. SPARKES HALL & CO.,
310, REGENT STREET, LONDON.

SPECIAL NOTICE.

TO THE NOBILITY AND GENTRY.

WM. PUGH (many years coat cutter at Messrs. Poole's, Savillerow), having succeeded to the old-established first-class business of Jackson and Co., 5, CORK STREET, BOND STREET, W., solicits the patronage of the nobility and gentry.

Best trade only at fixed fair prices, and 10 per cent. allowed for prompt cash.

N.B.—All first-class tailors give credit, and it is only by the discount system noblemen and gentlemen who pay cash get the full value ready money entitles them to.

WM. PUGH (from Poole's), 5, CORK STREET, BOND STREET, W.

SCHWEITZER'S COCOATINA

Anti-Dyspeptic Cocoa or Chocolate Powder

Guaranteed Pure Soluble Cocoa, Without Sugar, Spice or any Admixture.

Specially adapted for Ships, Camps, Sportsmen, &c., being in a concentrated form, made with BOILING Water. Keeps in all climates, and palatable without milk.

Being all Cocoa, it is four times the strength of preparations mixed and therefore *weakened* with arrowroot, &c., and is in reality cheaper a Tea-spoonful to a Breakfast Cup costing less than a halfpenny.

The Faculty pronounce it "The most nutritious, perfectly digestible Beverage for Breakfast, Luncheon, or Supper," and invaluable for Invalids and Children.

Highly commended by the entire Medical Press.
In air-tight canisters at 1s. 6d., 3s., &c., by Chemists and Grocers.

GEORGE CORDING,

The above Wines are constantly supplied to HER MAJESTY'S GOVERNMENT, REGIMENTAL MESSES, and to OFFICERS OF THE HIGHEST RANK in both Services.

SPECIAL NOTICE.—MARCOVITCH and CO., Manufacturers of the celebrated PELLEGRINI, VANITY FAIR, and CZAREWITCH (mouthpiece) CIGARETTES (by appointment to H.R.H. the Prince of Wales and H.I.H. the Czarewitch of Russia), beg to inform their numerous customers and the public in general that they have received the finest Turkish Dubec growth of Yenidge that has ever been imported into this country. It is only owing to the want of money by the Turkish merchants that MARCOVITCH and CO. have been enabled to get this tobacco.

The only Manufacturers in England who deal solely in Turkish Tobacco and Cigarettes.

Address—11, AIR STREET, REGENT STREET, LONDON, W.

ROYAL CAMBRIDGE ASYLUM FOR SOLDIERS' WIDOWS, KINGSTON, SURREY.

OFFICE: 40, Charing Cross, S.W.

This Asylum was opened in February, 1854, to provide a home for the widows of non-commissioned officers and privates of the Army.

There are 57 widows in the Asylum.

Each widow has a furnished room, and receives six shillings weekly, besides a monthly allowance of two shillings and sixpence for coals.

The funded income of the charity yields only £556, with an additional £50 from the Princess Mary's Fund for Nurses, to meet an estimated expenditure of £2,100 per annum.

An annual subscription of half-a-guinea, or a donation of five guineas, entitles to one vote at each election, with the right of nominating a candidate.

A regiment can purchase a vote in perpetuity by paying five guineas. J. A. STEWART, Colonel, Secretary.

Office, 40, Charing Cross, S.W.

NOTICES TO CORRESPONDENTS.

No communications can be published which are not accompanied by the name of the writer, given in confidence to the EDITOR.

Letters cannot be received in answer to Advertisements.

Remittances should be made payable to Mr. RICHARD JAMES WOOD, to whom all business communications should be addressed.

SHOEBURYNESS.—Cap dark blue, band white.

KEITH.—Would that we could contradict the statement. Facts are stubborn things.

BOMBARDIER.—Dissatisfied men like yourself are much better out of the Service than in it. We never overlook a case of real hardship.

LLANDUDNO.—There are two sides to every question, and there will be two sides to this. We have adopted a more effectual remedy for the evil, if it exists, than that of publishing your letter.

DETACHED SQUADRON.—We are very glad to hear of the improvement, and you will be pleased to know that a mail programme was issued officially for publication for the information of friends at home. Always ready to act on a hint.

BERMUDA.—Truth must conquer in the long run, and sensational yarns become exposed. The character of the journal to which you allude is fast becoming known in the Service, and is neither worth your powder nor our own. The provincial to which you allude has made the *amende*.

JUNIOR.—It is no use kicking against the pricks. They all do it.

R. H. S. M.—Yes, and sorry indeed are we to hear it. You will see the case alluded to this week.

K. La M.—Next week.

KING'S COUNTY.—Your case has not passed unnoticed. Yes.

ATTACK FORMATION.—Next week.

Army & Navy Gazette.

LONDON, SATURDAY, FEBRUARY 3, 1877.

With feelings of deep sorrow, not unmingled with a tinge of indignation, have we received, from two sources, extracts from letters containing a harrowing account of the sad loss of life which recently occurred in the Detached Squadron. So heartrending is the picture placed before us that we should hesitate to dwell upon it but for the fact that we take it as a duty we owe to the Service to call for a searching inquiry. The statements we have received are no sensational reports written for publication, but comments penned in a tone of the deepest regret for the loss of a loved shipmate, and intended originally for private perusal. Those who have been placed in possession of these facts have, however, asked us to bring the matter forward, and though the lost cannot be restored, yet the conduct of one high in authority, as represented in these letters is a subject which must not be allowed to pass unchallenged. Some particulars of the drowning at sea of a gallant young officer and two brave seamen in attempting to save the life of a shipmate who had fallen overboard from the Newcastle, have already been given in our columns, but the whole circumstances of the case have not yet appeared. On December 13, when the ship was about 400 miles from Singapore, Mr. Wingfield was engaged heaving the log, the ship going eight knots and the wind right aft. Miles, Captain of the Mizen-top, endeavoured to catch hold of the log-line, and leaned out with one foot on the port; but the half-port, not being hooked, fell down, and he went overboard. Mr. Wingfield jumped after him, and two A.B.'s, named Hesk and Reid, ran aft from the forecastle and also jumped over. The starboard lifebuoy had meanwhile been let go, but the port one could not be used owing to having a canvas cover over the handle. It happened that the watch were engaged on the forecastle at this moment, and thus some delay arose in lowering the boat and heaving to. An accident nearly happened also in lowering the boat, for there was a heavy sea running, and she would have capsized had not the "falls" unrove themselves; but the after-fall remained hooked, and the boat swung round, two men being pulled out of her by the life-lines. She was then towed stern foremost for a time, but finally got away with ten men and a Midshipman. By this time those who were overboard must have been fully a mile astern and dead to windward. The ship was then hove to, and the four men were seen to be some distance from the lifebuoy, which lay flat in the water instead of floating erect. Mr. Wingfield was seen to place round Miles' neck a life-collar which he had carried about with him for some time. At 4 o'clock, an hour after the accident, the cutter was recalled, and as soon as it was hoisted up the Newcastle went away under studding sails. These are the facts, and it is only fair to say that in the letters in which they are contained there is not any shadow of personal feeling against Captain R. G. Douglas, but it is asserted that throughout the ship and squadron there is a most painful impression that either from apathy, want of presence of mind, or absence of resource exhibited by him, these gallant fellows were sacrificed and left to die. Looking at the matter as calmly as circumstances will permit and anxious not to do the least injustice to the side which, we trust, may yet be called to offer some defence, we must admit that everything tends to show that the Captain was unequal to the occasion. Why, we would ask, did he not try to work the vessel up to the life-buoy as soon as the cutter was clear of the ship? The cutter was short-handed, and it is quite possible that the ship would have reached the men before her. But instead of that the ship was allowed to drift some three miles to leeward, no effort being made to keep close to the cutter in case of accident. When Hesk and Reid were last seen they were within a hundred yards of the life-buoy. They were both strong swimmers, as also was poor young Wingfield, and Miles had a life-collar round his neck. The temperature of the water was above 80 degrees, and it is therefore only too probable that they reached the buoy or managed to keep afloat for a long time. This is the most harrowing part of the deplorable occurrence, and we dare not dwell upon it for the sake of those who have to mourn the loss of such brave fellows. In one short hour after Miles fell overboard the cutter was recalled, and seeing the rate at which the ship was going through the water at that time and the delay that arose in lowering the boat, it is generally believed that she could not have reached the men within an hour's pull dead to windward, and she neither sighted the life-buoy or men before she was recalled. We feel it our duty to state for the honour of the Service and Commander Dacres, that he begged the Captain to beat up to the spot where the men were likely to be still battling for life, but with feelings akin to shame and sorrow we have to state that the Captain declined to do so, while officers and men seem to have felt that their shipmates were being deserted and left to die. By his former acts of gallantry young Wingfield had won the admiration of the ship's company, and Hesk had already been awarded one if not two medals for saving life at sea. And thus they perished! Admiral Lambert called upon Captain Douglas to report upon the accident, and it was thought that an inquiry would be ordered, but no such step has been taken, and we now place the matter before the Admiralty in such a form as would probably not reach them officially. Their Lordships are, in all likelihood, not aware that there was no sentry over the lifebuoys; that only one was let go, and that was so much out of order that it would not float upright; that the handle of the other buoy was covered up with a piece of canvas for keeping the paint work clean, and that it could not be got at until too late; that the officer in charge of the boat had no compass course given him (being only told to pull in "that direction"), and was not assisted by any signals from the ship; and that the cutter's recall was hoisted before she reached the scene of the catastrophe. It will be readily understood that we should not have written in this strain had we not the best authority for the statements here made, and were fully alive to the feeling existing in the ship and squadron, a feeling which will be shared by the whole Service. When officers and men risk their lives for the sake of their shipmates, they have always felt that, though they may be drowned in the attempt, the utmost will be done to save them. But in this case it almost seems that four lives were thought of less importance than regaining station. In one hour from the time of the accident the cutter was recalled, and we sincerely trust that the cause of this unseemly haste may be fully inquired into. Well can we understand an old officer who has sons in the Service writing to us on the subject, and designating this as nothing short of being "cruelly deserted."

The Military Secretary will hold a leveé on Tuesday next.

The commanding officers of metropolitan Volunteer corps are trying to get up an Easter Review again this year. We wish them every success; for though the amount of tactical instruction imparted on these occasions is small, the mere assembly and march past of several regiments do good. In the first place, it gratifies the members of the corps and their friends; in the second place, it gives regiments an opportunity of comparing themselves with other corps, and of discovering defects. Finally, a battalion which can march past well has already mastered an important part of drill.

Brevet Major Alexander, 93rd Highlanders, at present serving as Adjutant of the Aberdeenshire Militia, is about to retire from the Service, with a view to becoming a Lieutenant-Colonel in the Turkish Cavalry.

The narrow escape from a painful death of McConnon, the Chelsea murderer, ought to suggest to the authorities the necessity of taking some steps to prevent the sale of poisonous liquors in the neighbourhood of barracks. A large number of public-houses at present sell drink which does not simply intoxicate, but produces a sort of madness. McConnon certainly was more mad than drunk when he committed the crime for which he was sentenced to be hanged, and the greater violence observable in drunken men of the lower classes than in those of a superior station is, we are convinced, partly, at all events, to be attributed to the adulteration of liquor. Another point demanding the immediate attention of the Horse Guards is the neglect of the spirit of the Queen's regulations on the subject of drunken prisoners. There surely must be something wrong in a regimental system when one prisoner can kick another prisoner to death without any one being aware of the fact till too late.

The friends of Major-General Arthur Shirley will regret to learn of that officer's death, which has occurred most unexpectedly at Gothic Cottage, East Birghall, near Colchester. General Shirley served in Canada with the 7th Hussars from 1838 to 1842, and was actively employed during the rebellion of 1838-39 on the frontier. In March, 1855, he was appointed to the command of the Cavalry Division of the Turkish contingent, with local rank of Major-General, and held this command until the end of the Russian war. He was present at Eupatoria with Omar Pacha in May, 1855; in January, 1856, was sent to Schumla to inspect the Bashi-Bazouks, and was charged with the reorganization of that force—received the 2nd Class of the Medjidie and Turkish medal. He entered the Army Aug. 31, 1830; became Lieutenant, Feb. 1, 1833; Captain, July 15, 1836; Major, Aug. 28, 1846; Lieutenant-Colonel, April 16, 1847; Colonel, Nov. 28, 1854; and Major-General, March 7, 1862. General Shirley's death causes no promotion, as he retired ten years ago from the Army.

Sir Henry Green, whose letter as to the occupation of Quettah we publish this week, is a well-known and able Progresista in his views of foreign policy. We shall not now enter on a discussion of so large a question; but we may observe that a good deal remains to be done, on Major-General Green's own showing, before a force at Quettah can be considered secure in the rear and with communications well established.

Colonel Gordon—alarmed, probably, by the violence of his admirers, who wished the authorities to lay hands on him and pack him off "bag and baggage," *nolens volens*, to govern Bulgaria and regenerate Turkey—has fled from England! He left this week for Paris *en route* for Egypt, probably as the Khedive is very anxious to finish the occupation and settlement of the Lake districts.

In "A. C. G.'s" letter attention is directed to the similarity in the titles of officers of the Commissariat and the Ordnance Store Departments. Its inconveniences have been pointed out by General officers in England and Ireland, particularly after the mobilization of the Army Corps last year. To have two sets of officers with the same titles performing entirely distinct and independent duties is an admirable arrangement for creating confusion. In olden days the Service knew the duties pertaining to a Commissary-General, and those of an Ordnance Storekeeper were equally well understood. Why puzzle everyone now by giving the Ordnance Department Commissariat titles? We are not aware that this is especially a grievance of the Commissariat, but presume that it is of both the departments, as of the other branches of the Service who have dealings with them. As though the object was to make it as little as possible apparent that the departments are distinct, the alterations in uniform for officers and men have been the most minute.

The War Office has been induced, as we lately suggested that it was probable it would be, to take a lenient view of the case of the Commissariat officer who got himself into trouble a short time back in the Western District. A lengthened term of honourable service prompted this leniency, the officer having been granted his commission in recognition of special zeal evinced as a non-commissioned officer. It has, however, been considered expedient to withdraw the officer from his late station, and to make an alteration in the nature of his duties.

The Inspectorship of Warlike Stores at Bermuda, vacant by the appointment of Lieutenant J. P. Cundill to the Royal Arsenal, Woolwich, has been given to Lieutenant F. W. Radcliff, Royal Artillery, who joined the Service July 23, 1870.

Major-General Hon. L. Smyth, C.B., whose name we mentioned in connection with one of the commands about to fall vacant, is expected to be appointed to the Cork District, as it is now pretty certain that Major-General Sir Richard Kelly will be transferred to Colchester, as we lately intimated he had expressed a wish to be.

Lieutenant H. Pilkington, Royal Engineers, who has lately obtained the final certificate at the Staff College, is leaving England for India without waiting to undergo the term of attachment prescribed by Staff College Regulations, in order to join the Staff of Lieutenant-General Sir Charles Staveley, K.C.B., Commander-in-Chief of the Bombay Army. Lieutenant Pilkington was on Sir Charles Staveley's Staff at Devonport previous to entering the Staff College.

By the retirement, gazetted on Tuesday, of Colonel Manningham-Buller, Lieutenant-Colonel H.R.H. the Duke of Connaught falls into command of the 1st Battalion Rifle Brigade, to which he was gazetted in September last. Regimental promotion will not be interfered with, as Lieutenant-Colonel Stephens is to be gazetted Lieutenant-Colonel in succession to Colonel Buller, and will be appointed to the 1st Battalion.

Promotion in the new Line regiments is not very equal, and steps taken with a view of arranging matters more fairly would meet with satisfaction. In the 101st the senior Lieutenants have seven, five, six and a-half, four, three and a-half, and three years' service respectively; whereas in the 109th they have seventeen and a-half, fifteen, fifteen, fifteen, fifteen and a-half, and fifteen and a-half respectively. The subalterns of the 101st could not complain were they to be required to spare a company or two for their less fortunate brethren in arms of the 109th.

There is no idea of subjecting the mobilization Scheme to any further trial—for the present, at any-rate. It was given out recently that two more Army Corps were to be mobilized for exercise. Yet the Estimates to be submitted to Parliament in a fortnight's time foreshadow no such concentration of forces. There will be summer drills on a large scale at Aldershot; but, as regards these no definite information can be given. The reports as to the troops which will take part are simply guesswork, for even in the Quartermaster-General's Department great uncertainty prevails, and the publication of details only disturbs regiments, and disturbs them, in very many instances, most unnecessarily.

Representations have reached the War Office as to the insufficiency of the Staff of the Cork District—the most extensive in Ireland—and suggesting the importance of further assistance being furnished.

Major-General R. Y. Shipley, C.B., who is most popular at Aldershot, is named for transfer to the command of a district in the United Kingdom, but it is doubted whether provision will be made for him in April next. It is thought that he may be offered the South-Eastern District when Major-General Parke vacates in the autumn. On this point, however, nothing will be settled for a long time yet.

Major-General Sir Edwin B. Johnson, K.C.B., Royal Artillery, will leave England on Thursday next for India, *en route* to take up duty as Military Member of the Council of the Governor-General, his brother, Colonel C. C. Johnson, Bengal Staff Corps, leaving at the same time, to resume duty as Deputy Quartermaster-General of the Indian Army, from European furlough.

REVIEWS.

British Seamen. By Thomas Brassey, M.P. (Longmans, London.)

In a modest preface to this work Mr. Brassey submits to the reader that it is simply the result of much study of Blue-books, Parliamentary returns, and reports of commissions, and that little or no originality can be claimed for the opinions or suggestions he sets forth; but we find frequently suggestions bearing on their face not only originality, but much ability as well. Mr. Brassey, at some length, discusses the vexed question as to the deterioration of the British merchant seaman, and gives as his opinion that they are at the present time much as they always have been, and in this verdict we concur. It is doubtless true that the increased employment of steam exercises no little effect in rendering the sailor less experienced and handy in actual seamanship; yet, for all that, when the emergency arises the sailor is equal to it, just as of yore. It is evident that Mr. Brassey, in his love for sea-life and everything connected with it, would have us believe the sailor to be more like the picked men of his own yacht than the ordinary "Jack" of Liverpool. He likes sailors, and to employ a vulgarism he "sticks up" for them. He devotes a good deal of space to the training-ships and to plans for training seamen; and, according to his account, the dietary on board some of the training-ships must be most insufficient, more especially when it is taken into consideration that the boys rescued from crime and poverty are, as a rule, sickly and weak, their puny frames clearly denoting that a liberal diet would prove, in the end, to be a great economy. The most interesting portion of the whole book we consider to be that which is devoted to the advance-note system. Not long ago we referred, whilst reviewing another work, to the disastrous results the custom brings about, and we cordially concur with what his Royal Highness the Duke of Edinburgh stated in a speech some four years ago at Liverpool, that "so long as the system of crimping and advance-notes existed they would have no certainty as to how many ships might be lost before they had gone their first day's voyage." The advance-note can be of benefit merely to the crimp; but the shipowners well know that it secures the sailor joining his ship, and that the crimp or discounter can be left to see to this. Therefore shipowners are to a measure interested in the continuance of the disgraceful system. The allotment-note, by which the wives or relations of the sailor benefit, works well and most beneficially. Almost invariably the advance-note either finds its way into the ever-yawning pocket of the crimp, or else affords the sailor the means of indulging in a final debauch. Want of space prevents us going further into the matter, and we must refer our readers to the book itself, promising that, although it contains certainly no lack of extracts from Blue-books and other official documents, that the reader will not find it dry reading, but, on the contrary, full of interest, and we consider that Mr. Brassey, by his unwearied perseverance in studying shelves upon shelves of books and papers, has earned not only the thanks of the sailor, whose earnest advocate he undoubtedly is, but of everyone who takes an interest in our Mercantile Marine. The book is skillfully compiled and well written throughout. It contains evidence of much painstaking enquiry and research.

MAGAZINES.

Baily has a short paper on the new laws of racing by "Amphion," and consequently, as a matter of course, well worth reading. The remaining articles are of the usual standard. We are amused to observe a review in the magazine of the late Major Leveson's work of fiction, entitled "Sport in Many Lands," for a work of *fiction* it undoubtedly is. The simple manner in which the reviewer gives the "Old Shekarry's" account of his own marvellous presence of mind and courage in destroying a "man-eater," and supplementing the thrilling narrative by observing, "It would be hard *to beat* this instance of mingled daring and coolness," is delightful; for it is an unintentional sarcasm, and, therefore, all the more exquisite. *De mortuis nil nisi bonum;* but we must say that Major Leveson's book reminds us of the old story of the man who declared he had "stuck" ninety-nine pigs in India in an incredibly short space of time; at which statement one of the astonished audience remarked that he might as well have made it a hundred. To which replied the pig-sticker, indignantly, "Sir, do you think that I would peril the salvation of my immortal soul by telling a lie for the sake of *a pig?*"

The directors of the Provident Life Office report that the past year has been one of increased prosperity. The number of new policies issued was 1,006 for assurances amounting to £451.650, producing in annual premiums the sum of £14,557 8s. 10d. Compared with the previous year the result is an increase of 185 new policies, £42,970 in the amount assured, and £1,395 in the new annual premiums. The proposals declined were 80, for assurances amounting to £52,800. The annual income has been increased to £252,614 1s. 1d. Owing chiefly to the comparatively small amount paid for claims, and to the largely augmented annual income, the accumulated funds have been increased by the sum of £117,802 19s. 8d., an amount of increase unprecedented in any one year since the foundation of the office.

The Navy.

APPOINTMENTS.

Admiral—Sir H. J. Codrington, K.C.B., to be Admiral of the Fleet, vice Sir F. Moresby, deceased.

Captain—A. H. Hoskins, to be Naval Aide-de-Camp to the Queen, vice Stirling, promoted.

Commander—H. F. Campbell, to the Flora, vice Mitchell, whose period of service has expired.

Lieutenants—E. Rooke, to the Devastation; C. V. Smith, to the Fawn; D. Hamond-Graeme, to the Bullfinch; C. B. P. Hume, to the Philomel; and M. H. W. Laborde, to the Seagull; A. W. Moore, to the Valiant.

Navigating-Lieutenants—J. Partridge, to the Asia, additional for service in the Inconstant.

Alacrity, 1, schooner, Lieut.-Com. W. W. Moore, arrived at Sydney on Dec. 10 from Kandavu, &c. She was refitting on Dec. 15.

Alexandra, 12, armour-plated, Capt. R. O'B. Fitzroy, flagship of Vice-Admiral Hornby, was officially inspected at Chatham on Thursday. In consequence of orders received from the Admiralty, the undocking of the ship has been postponed for a short time longer. The Alexandra was to have sailed from Chatham for the Mediterranean to-day, but she will not now leave for a week or ten days. A number of the hands are employed on board all night to complete the torpedo fittings.

Amethyst, 14, corvette, Capt. A. J. Chatfield, was expected at Valparaiso at the beginning of January.

Antelope, 2, iron vessel, Lieut.-Com. J. C. Burnell, has left Constantinople for Italy to convey thither the British Ambassador, Sir Henry Elliot, who proceeds to England. The Antelope will then go on to Malta to refit. She arrived at Brindisi on the 1st inst.

Assistance, 2, troopship, Capt. F. M. Prattent, appointed to sail from Portsmouth on Thursday with supernumeraries for the Channel Squadron, has been found defective in her boilers. Their condition was made the subject of an inquiry on board on Saturday last by Capt. Waddilove, of the Steam Reserve, and a number of naval and dockyard engineers. It appears that when the ship heels over at sea the ends of the plates adjoining the combustion chambers are left dry by the water, whereby the shell becomes blistered by the furnaces. The tubes are also believed to be in a bad condition.

Barracouta, 5, sloop, Capt. C. E. Stevens, left Ascension on Jan. 3 for Sierra Leone, Madeira, Gibraltar, and England, with invalids and time-expired men, &c.

Beagle, 1, schooner, Lieut.-Com. C. Caffin, was at Kandavu on Nov. 28, and would convey H.B.M.'s consul to Samoa, if necessary.

Bellerophon, 15, armour-plated, Capt. F. T. Thomson, flagship of Vice-Admiral Sir A. C. Cooper Key, was at Antigua on Jan. 12, having left Bermuda on Jan. 4, with the Eclipse, Dryad, and Zephyr in company.

Cockatrice, 1, gunboat, Com. A. J. Musgrave, arrived at Malta from Smyrna on the 16th ult., and was in the dockyard creek refitting on the 23rd.

Conflict, 1, schooner, Lieut.-Com. W. M. Carey, was to leave Auckland on Nov. 28 for Havannah Harbour, and would return to Sydney about the end of December.

Contest, 4, gunboat, Lieut.-Com. G. W. Allen, was at Whydah on Jan. 21.

Crocodile, 3, Indian troopship, Capt. P. R. Sharpe, arrived at Bombay on Jan. 31.

Cruiser, 4, sloop, Com. J. Hext, left Malta on Jan. 22 for Syracuse, Corfu, and the Piræus.

Daring, 4, composite screw-sloop, Com. J. G. Hanmer, was at Panama as senior officer on Dec. 16.

Decoy, 4, gunboat, Lieut.-Com. J. Hayes, left Jamaica on Dec. 28 for Devonport, calling at Bermuda; she arrived there on Jan. 10, and would leave in about four days.

Devastation, 4, turret-ship, Capt. F. W. Richards, arrived at Corfu on Jan. 21, from Malta, and remains.

Dido, 12, corvette, was, on Saturday last, placed under the shears at Portsmouth to have her boilers lifted. She will be brought forward for commission.

Dromedary, transport ship, which was recently rather seriously damaged on her voyage from Portsmouth to Chatham, through a large steamer coming into collision with her, is now undergoing repairs at Chatham Dockyard.

Dryad, 9, sloop, Com. R. D. King, was at Antigua on Jan. 12.

Eclipse, 12, corvette, Capt. J. E. Erskine, was at Antigua on Jan. 12.

Encounter, 14, corvette, Capt. R. Bradshaw, was at Antigua on Jan. 12.

Euryalus, 16, iron corvette, cased with wood, 3,932 tons, 5,250 horse-power, was launched from Chatham Dockyard on Wednesday with great success. Her principal dimensions are —Length between perpendiculars, 280ft.; extreme breadth, 45ft.; depth in hold, 15ft. 7in. She was commenced in 1873, and has, therefore, been upwards of three years in building. The dockyard gates were thrown open to the public about half-past 12, and shortly afterwards some 4,000 or 5,000 spectators had assembled, the principal visitors being accommodated on stands at the head of the building slip. Among the officers present at the ceremony were Vice-Admiral G. T. P. Hornby, the new Commander-in-Chief of the Mediterranean Fleet; Vice-Admiral Chads, Commander-in-Chief at the Nore; Rear-Admiral C. Fellowes, C.B., Superintendent of the Dockyard; Rear-Admiral W. H. Stewart, C.B., Controller of the Navy; Rear-Admiral Boys, Director of Naval Ordnance; Rear-Admiral Sir J. E. Commerell, K.C.B.; Major-Gen. Erskine, Commandant of the Chatham District; Col. Stokes, C.B., Commandant of the School of Military Engineering; Col.-Comdt. Fellowes, R.M., and many other distinguished officers of the Army and Navy. The band of the Royal Marines was present. Shortly before half-past 1 o'clock the Rev. J. W. L. Bampfield, M.A., chaplain of the dockyard, read the usual prayers prepared for such occasions. Shortly afterwards everything was ready, the arrangements being under the direction of Mr. R. P. Saunders, the Chief Constructor of the dockyard, and his assistants. Admiral Fellowes, C.B., then conducted the wife of Rear-Admiral Stewart to "christen" the vessel. This was done by pushing the handle of a lever from her. A heavy weight fell and knocked away the last dog-shore, and the huge vessel was then free. Without the slightest hitch, and without having recourse to the hydraulics which had been prepared, the vessel left the slip in splendid style. Admiral Fellowes called for three cheers, and round after round was given, the band playing the National Anthem and "Rule Britannia." The vessel was afterwards moored in the stream and the large concourse of spectators dispersed, the whole of the dockyard men being granted a holiday for the remainder of the day. In the afternoon Admiral Fellowes entertained a large party at Government House, his official residence in the dockyard. The Euryalus will be immediately got ready for sea.

Excellent, 13, Capt. F. A. Herbert, gunnery-ship, at Portsmouth, has for many years past failed to keep pace with the progress of naval ordnance, and there is now every probability that this great defect will be shortly remedied. As the introduction of big guns into the Excellent would probably shake the old three-decker to pieces, the Lord Clyde, an armour-plated ship of 7,842 tons displacement, which was towed round from Devonport to Portsmouth some months ago, is now undergoing a survey, and will be attached to the Excellent as an additional drill-ship. She will be fitted with one 25-ton gun, of the same calibre as those on board the Monarch and the Devastation, and a couple of 18-ton guns, such as are carried by the Hercules and the Sultan.

Fawn, 4, sloop, Com. W. J. L. Wharton, was, on Jan. 8, surveying in the Red Sea.

Flying Fish, 4, composite sloop, Com. H. F. Crohan, was at Tamatave on Nov. 23.

Helicon, 2, despatch-vessel, Lieut.-Com. R. W. Stopford. Their Royal Highnesses the Duke and Duchess of Edinburgh were to have left Malta on the evening of the 23rd ult. by this vessel, for the Piræus, where the Duke will join his ship, the Sultan, but, owing to a strong contrary wind and a rough sea, their departure was postponed.

Hercules, 14, armour-plated, Capt. N. Bowden-Smith, flagship of Vice-Admiral Sir J. Drummond, K.C.B. On the 8th ult. the officers of this vessel (including Messrs. W. Braddon, P. Elliot, J. Brent, Lang, A. Grant, C. Wilson, Cowper, and Wilkinson) gave a theatrical performance at Smyrna, which was witnessed by many people from the shore, and was a great success. *Keep your Temper*, *Rough Diamond*, and *French Exhibition*, were the pieces performed.

Jumna, 3, Indian troopship, Capt. J. D'Arcy, left Portsmouth on the 26th ult. for Bombay, with troops.

Lapwing, 3, gunvessel, Com. Sir W. Wiseman, Bart. The correspondent of the *North China Daily News* writes from Chefoo under date Dec. 9:—"On Nov. 20, Mr. Detring, the Commissioner of Customs, offered the services of the Harbour Master, Mr W. C. Howard, who had suggested to him a feasible plan for floating her. Mr. Howard was invited to proceed to the wreck, and arrived there on Nov. 21, and said she could be floated for about $2,000. Mr. Howard's plan was merely to make a breakwater around her by means of 10,000 or more bags of sand. This would preserve her against the heavy seas running in a gale from the north-east, and she could be floated off either at the next spring tide, or, at latest, on one of the high tides in March. Mr. Howard went at once to Chefoo, purchased bags, and returned to the stranded vessel to begin operations. Five hundred coolies were employed in filling the bags with sand and making the breakwater. A trench was dug around the vessel, and three anchors were placed, awaiting a high tide. It is reported the coolies did not work well in the water, and that the trench was chiefly dug out by the men of the Charybdis. On Nov. 28 a gale blew from the N.E., and was so severe that the vessel was driven higher on shore. The breakwater at this time was only half completed, but it was the opinion of all the officers who were present that had it not been for the breakwater the vessel must have been totally destroyed. The trench was completed and everything made ready to float the vessel at the first high tide. At twelve o'clock on the night of Dec. 4 the Lapwing floated, and the following morning was towed to a safe anchorage. She is in good condition, and is now being rigged to proceed shortly to Shanghai, in company with the Charybdis and Frolic. The cost of floating her does not exceed $2,100."

Liberty, 8, sloop, Lieut.-Com. C. Johnstone, arrived at St. Vincent, Cape de Verde, on the 27th ult.

Lightning, torpedo-boat. A notable addition to the fleet has been made by the launch this week of the torpedo-vessel Lightning, the first of the kind built for our Government. She is built on Thorneycroft's lines of steel plates on steel frames. Her length is eighty-one feet, and her estimated draught nineteen inches forward and four feet three inches aft. Steel has been freely used in her engines, which weigh under ten tons, and will develop three hundred horse-power, eighteen knots on the measured mile having been guaranteed. The deck, which is of steel covered with thick canvas, is nearly flush, and has a bullet-proof conning-tower forward and officers' cabin aft rising two feet above it. The boiler-room is distinct from the engines, and air is supplied to it by a fan. The Lightning has a yacht-like appearance, and her crew will number only two officers and about half-a-dozen men.

Lynx, 4, composite gunvessel, Com. F. M. Ommanney, was on the East Coast of Africa on Jan. 8.

Malabar, 3, Indian troopship, Capt. E. Kelly, left Suez on the morning of the 29th ult. for Bombay.

Martin, 10, sloop, Lieut.-Com. E. Hicks, arrived at St. Vincent, Cape de Verde, on the 29th ult.

Myrmidon, 4, gunvessel, Com. the Hon. R. Hare, would leave Valparaiso with the Repulse on Dec. 16 for Coquimbo.

Nymphe, 9, sloop, Com. S. P. Townsend, having landed the Governor of Fiji at Levuka on Nov. 27, arrived at Sydney on Dec. 13, all well.

Opal, 14, corvette, Capt. F. C. Robinson, was taken into the floating dock at Santiago on Dec. 14. Her machinery and engines were in a defective condition, the engines, it is stated, not having worked satisfactorily from the time the vessel left England. On being placed in dock it was discovered that her forefoot had been broken off from havin been aground in Smith's Channel, while several sheets copper were torn off the starboard side. One of the seam of the Opal named Sargeant had been accidentally killed board by the falling of the lower boom.

Pearl, 17, corvette, Com. Hoskins, was at Sydney up Dec. 15.

Pert, 4, composite gunvessel, Com. H. C. Aitchi was at Nassau on Jan. 9.

Philomel, 3, gunvessel, Com. Henry H. Boys, was at Z bar on Dec. 1; she had been cruising between Pemba Brava, and had surveyed the harbour of Mombaza.

Pioneer, 6, composite-vessel, Lieut.-Com. E. Hotham, was at Appi on the 21st ult. She was ordered to Monrovia to await arrival of the Spiteful.

Plover, 3, gunvessel, Com. H. B. Stewart, was visiting the ports on the north side of Jamaica on Jan. 9.

Raleigh, 22, frigate, Capt. G. Tryon, C.B. On the 8th ult. Nav.-Lieut. H. Husbands, of late this ship, was tried by court-martial on board the Hercules at Vourla, for drunkenness on board at sea. Capt. Bowden-Smith was president. Prisoner pleaded guilty, and, in consideration of previous excellent character, was only sentenced to lose one year's seniority and to be dismissed his ship.

Rapid, 3, sloop, Com. A. A. F. FitzGeorge, has proceeded to Constantinople to replace the Antelope.

Renard, 1, schooner, Lieut.-Com. H. J. Pugh, left Sydney on Dec. 11 for Auckland.

Repulse, 12, armour-plated, Capt. F. W. Wilson, flagship of Rear-Admiral de Horsey, at Valparaiso on Dec. 16, would sail that day for Coquimbo. She will refit previous to leaving for England. The health of the officers and crew of the squadron was very good.

Rifleman, 4, composite gunvessel, Com. F. S. Clayton, was at Boshire on Dec. 13.

Rupert, 4, iron-clad ram, Capt. W. J. Grubbe, C.B., on the 18th ult. proceeded outside Malta for trial of her engines, which, having proved satisfactory, she sailed on the 20th for the Piræus.

Salamis, 2, despatch-vessel, Com. F. W. Egerton, left Portsmouth on the afternoon of the 1st inst. for Plymouth and Lisbon.

Sapphire, 14, corvette, Capt. E. H. Murray, was to leave Wellington for Auckland on Dec. 12, and would remain there.

Sappho, 4, composite-sloop, Com. Noel N. S. Digby, arrived at Port Arthur on Dec. 13 with the Governor of Tasmania, and was to leave next day for Launceston.

Seaflower, 8, brig, Lieut.-Com. R. H. Eyre, arrived at St. Vincent, Cape de Verde, on the 28th ult.

Seagull, 3, gunvessel, Com. F. W. Heron, was taken into Devonport Harbour on Wednesday, that another attempt might be made to improve the ventilation of her engine-room and stoke-hole. The air-screens of the stoke-hole are to be replaced in their original position, the alterations made under the officer sent down from the Admiralty not having had the desired effect. The order directed the alterations to be completed within forty-eight hours, that the ship might leave for the West Coast of Africa.

Serapis, 3, Indian troopship, Capt. G. D. Davidson, was docked at Portsmouth on Saturday last for examination on her return from Bombay. The results of the first thorough test of the new protective and anti-fouling cement, the invention of Major Crease, R.M.A., were then observed, and the appearance of the hull was satisfactory on the whole. There was a long band of grass on both sides along the water line, but of short and slight growth, and which disappeared altogether long before the bilge was reached. The exfoliation had been so great that the iron of the hull was exposed in several places, but the composition had so effectually performed its work that there was no trace of rust visible.

Shah, 26, screw-frigate, Capt. F. G. D. Bedford. Early on the 19th ult. the Shah went out of Gibraltar for exercise. In addition to the ordinary firing at targets, firing the broadsides by electricity formed part of the programme, and some splendid practice was made in this way, and also by a Gatling gun placed in position in the main top. Capt. J. D. M'Crea, senior naval officer, was on board for the day's trip. The Shah arrived at Madeira at noon on the 28th ult. all well, and would leave on the 29th.

Simoom, 2, troopship, Capt. R. G. S. Pasley, arrived at Jamaica on Jan. 8, and would leave on the 12th for West Coast of Africa.

Sirius, 12, corvette, Capt. G. L. Sulivan, was at Jackin on Jan. 21.

Squirrel, 8, sloop, Lieut.-Com. R. N. Hamond, arrived at St. Vincent, Cape de Verde, on the 29th ult.

Supply, 2, storeship, Staff Com. F. Inglis, was at Jackin on the 21st ult. She was ordered to Quittah, and to return on the arrival of the mail due on the 29th.

Teazer, 4, composite gunvessel, Com. C. Wodehouse, was in the Gulf of Oman on Jan. 8.

Thetis, 14, corvette, Capt. T. Le H. Ward, at Bombay on Jan. 8, would shortly leave for England *viâ* Aden and the Suez Canal.

Triumph, 14, armour-plated, Capt. G. H. Parkin, flagship of Rear-Admiral Rice. On the 11th ult., at Vourla, a court assembled on board the Monarch to try Thomas Hill, A.B., of the Triumph, for assaulting Sub-Lieut. Fraser in execution of his duty, striking a petty officer, and other acts of insubordination. Prisoner was found guilty, and sentenced to five years' penal servitude.

Topaze, 28, screw frigate, Capt. A. Thrupp. The officers of the Topaze gave a dramatic performance at Hong Kong on Dec. 1, in aid of the Thunderer Relief Fund. In the notice of the entertainment the *China Mail* remarks that the performers deserve the fullest credit for the excellent manner in which they placed the drama before a Hong Kong audience. The scenery and properties were exceedingly well arranged, and great trouble must have been taken by all concerned to make the piece a success in every way. *His Last Legs*, like many dramas of the kind, must have been written expressly for the hero, and for nobody else. Mrs. Montague (Mr. Wickham) and Julia (Mr. Dillon) were admirably made up, and the acting of both, especially of the widow, called forth unqualified approbation. Mrs. Banks (Mr. Tizard) had but little to do and nothing to say, but she looked her placid character fairly well. Dr. Banks (Mr. Dundas) was well got up as the elderly physician. Lieut. Montagu's Charles Rivers was an easy and faithful rendering of the young lover struggling to gain his ends by stratagem; but the heart and soul of the piece was O'Callaghan (Fleet-Surg. Warren), the "Kilkenny Boy," "Man of Genius," &c., &c. The "get-up" and bearing of O'Callaghan was simply perfect, and Mr. Warren was vociferously applauded throughout and encored in his well-sung song of the "Kilkenny Boys."

Tourmaline, 12, corvette, Capt. F. W. Sullivan, C.B., ft Sierra Leone on Dec. 26, arriving at Ascension on Jan. 6, d would leave on the evening of Jan. 8 for the Cape of Good pe.

ndaunted, 31, frigate, Capt. H. W. Brent, flagship of -Admiral Macdonald, was at Bombay on Jan. 8. The health of the crew on the East Indies Station was good and the weather cool.

Volage, 18, corvette, Capt. H. Fairfax, senior officer on the South-East coast of America, was at Colonia on Jan. 26.

Wye, store-ship, Staff-Com. W. W. Vine, arrived at Malta on the 22nd ult. from Smyrna.

Zephyr, 4, composite gunboat, Lieut.-Com. W. G. Le Cocq, was detached from the ships accompanying the Bellerophon on Jan. 7, and proceeded to Jamaica.

NAVAL PRIZE MONEY.

The *Gazette* of Tuesday gives notice to the officers, seamen, and Marines, and to all persons interested therein, that the distribution of the tonnage bounty awarded for two slave dhows, the Katiri Sham and Simesa, captured on the 23rd and 24th of October, 1875, by her Majesty's ship London, will commence on Tuesday, the 6th inst., in the Prize Branch of the Department of the Accountant-General of the Navy and Controller of Navy Pay, Admiralty, New-street, Spring-gardens, S.W. The following are the shares due to an individual in the several classes:—Flag, £26 7s.; captain, £76 8s. 6d.; second class, £12 13s.; third class, £10 16s. 10d.; fourth class, £7 4s. 7d.; fifth class, £4 6s. 8d.; sixth class, £3 12s. 4d.; seventh class, £2 10s. 7d.; eighth class, £1 8s. 11d.; ninth class, 14s. 5d.; tenth class, 7s. 2d. For two slave dhows, name unknown, and the Kasumba, captured. on the 2nd and 3rd of November, 1875, by H.M.S. London The following are the shares due to an individual in the several classes:—Flag, £11 16s. 6d.; captain, £34 5s. 9d.; second class, £5 13s. 9d.; third class, £4 17s. 7d.; fourth class, £3 5s.; fifth class, £1 19s. 1d.; sixth class, £1 12s. 6d.; seventh class, £1 2s. 9d.; eighth class, 13s.; ninth class, 6s. 6d.; tenth class, 3s. 3d. Also for three slave dhows, name unknown, Rupia and Kallam, captured on Nov. 18 and 19, 1875, respectively, by H.M.S. London. The following are the shares due to an individual in the several classes:—Flag, £41 1s. 7d.; captain, £119 2s. 9d.; second class, £20 4s. 7d.; third class, £17 6s. 9d.; fourth class, £11 11s. 3d.; fifth class, £6 18s. 8d.; sixth class, £5 15s. 7d.; seventh class, £4 1s.; eighth class, £2 6s. 3d.; ninth class, £1 3s. 1d.; and tenth class, 11s. 6d. Also for a slave dhow, name unknown, captured on Dec. 8, 1875, by H.M.S. London. The following are the shares due to an individual in the several classes:—Flag, £4 2s. 8d.; captain, £11 19s. 11d.; second class, £2 0s. 9d..; third class, £1 14s. 11d.; fourth class, £1 3s. 3d.; fifth class, 14s.; sixth class, 11s. 8d.; seventh class, 8s. 2d.; eighth class, 4s. 8d.; ninth class, 2s. 3d.; and tenth class, 1s. 1d.

PRESENTATION TO SIR GEORGE NARES.

At a court of the Shipwrights' Company, held on Saturday last, the presentation of their freedom was made to the commander of the late Arctic Expedition. Capt. Sir G. S. Nares, who was warmly cheered, in acknowledgment of the honour said it was naturally highly gratifying to members of the public services, when, in addition to the approval of their conduct by their Queen and their official superiors, popular feeling adopted further means of displaying its interest in the work performed, as on the present occasion, when so important a company of the metropolis thus honoured the members of the Arctic Expedition by expressing approval of their endeavours to perform the work allotted to them. It was very pleasing to themselves and to the profession to which they belonged that the company whose mission it is to foster the shipping trade of the country and to watch over the interests of the large body of men on whom sailors so greatly depend had taken this opportunity of displaying the great interest they take in the performances of a small body of naval officers and men. Thanks to the shipwrights' skill and to the power of steam, there were vessels capable of conducting them to the limit of navigation and to the highest attainable position whence they could explore the Polar areas. Although unable, by reason of the difficulties of the road, to travel at so quick a rate as they had previously been able to accomplish in more southern latitudes when searching for the crews of Sir John Franklin, yet, as their duty was solely scientific research, much valuable information was gleaned, and considerable advance made in geographical knowledge. Besides meeting with heavy roads, the men were grievously stricken by that dreadful scourge an outbreak of scurvy, the cause of which was now, very properly, being investigated. The results of that inquiry must be beneficial to the country; and we may now reasonably hope that our Arctic explorers, as also our soldiers and sailors during war, will not hereafter be so liable to be attacked as they would most certainly have been were it not for the late disaster. He had never disguised the fact that the outbreak of scurvy hastened his return; but disease or no disease, the mission was fulfilled, and by returning when they did the expedition was brought to a successful conclusion at a trifling cost to the country.

The trials which have been made with different helm indicators have not given such results as were anticipated, and there is at present no intention of introducing them on board her Majesty's ships.

On Monday two composite gunboats built for her Majesty's Government were successfully launched from the yard of the Barrow Iron Shipbuilding Company in the presence of a distinguished company of spectators. These gunboats are two of the six ordered by the Government some time ago of the Mallard class, in which fine steaming qualities are associated with great resisting strength. One received the name of the Foxhound, from Miss Blanche Egerton, daughter of Admiral the Hon. F. Egerton, M.P., and the second received the name of Forward, from Lady F. C. Cavendish. Each boat carries two 64-pounder guns amidships and two 20-pounders, one fore and one aft. They measure in length 35ft., in breadth 23ft. 6in., and have a depth of hold of 12ft.

Epps's Cocoa.—Grateful and Comforting.—"*By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame.*"—*Civil Service Gazette.* Made Simply with Boiling Water or Milk.—Sold only in Packets labelled—"James Epps & Co., Homœopathic Chemists, London."

THE GOODENOUGH MEMORIAL.

At a meeting of the Goodenough Memorial Fund Committee, which was held on Wednesday last at the United Service Institution, and was presided over by Admiral Sir Hastings Yelverton, G.C.B., it was decided that, with a view to the encouragement of naval gunnery—a subject in which the late lamented commodore took, as is well known in the Service, the liveliest interest—the precedent of the Beaufort Testimonial should be followed, and that the acting sub-lieutenant who acquitted himself best at his gunnery examination, among those who have taken first in seamanship of each year, should receive a gold medal and a sum of money, the grant being called the "Goodenough Testimonial." The committee further decided that a bust of Commodore Goodenough should also be executed, as best meeting the wishes of a large number of the subscribers, who preferred a memorial in some tangible form to keep alive the memory of this distinguished officer. We understand, also, that the subscription-list will close on March 31, 1877, and that a formal notice will be published as soon as certain necessary preliminary arrangements are completed. It will greatly interest the friends and admirers of Commodore Goodenough to learn that, in addition to the Home Memorial, very active steps have been taken in Australia to perpetuate the memory of the commodore, who had won the respect, not only of the officers and men of that station, but also of the colonists. The ground surrounding the spot in which his body rests, with the two young seamen of the Pearl, his companions in death, has been purchased and enclosed at a considerable cost, and gravestones erected by the officers and crew of the Pearl, who, with Commodore Hoskins, have also contributed most liberally to the Home Memorial Fund. A most useful institution has been established at a large cost, and is in full working order, for the benefit of the men of the squadron, called the "Goodenough Royal Naval House" by subscriptions from his friends and admirers in New South Wales, and by the officers of the squadron, and a marble bust has been subscribed for and ordered by friends in Sydney, the destination of which was, by the last accounts, undecided.

ROYAL NATIONAL LIFEBOAT INSTITUTION.

At a meeting of this institution held on Thursday rewards amounting to £700 were voted to the crews of various lifeboats for services rendered during the late heavy storms, in which period they had saved no less than 101 lives from wrecks. The silver medal of the institution, and its thanks inscribed on vellum, were voted to Capt. O. S. Cameron, R.N., Inspecting Commander of Coast-guard at Newcastle, Ireland; and £4 to two Coast-guardsmen for putting off in their boat, and, at great risk, saving four men of the brigantine Fame which was wrecked off Newcastle during a strong wind, and a very heavy sea, on Jan. 3. The silver medal and thanks of the institution on vellum were also awarded to Mr. John Payne, chief officer of Coast-guard at Skerries, Ireland, for wading into the surf on two occasions and saving, at great risk, one of the crew of the smack Falcon, which was wrecked there in a gale from E.S.E. and a very heavy sea on Jan. 2. Other rewards were also granted for saving life on our coasts, and payments amounting to £1,349 were made on some of the 256 lifeboat establishments of the institution. Among the contributions recently received by the society were £800 from A. B. S., to defray the cost of a lifeboat establishment, the boat to be named the Bowman; £250 from S. L. Helm, Esq., through the Manchester branch; £100 from George Cruddas, Esq., of Newcastle-on-Tyne; £19 15s. 6d., collection at St. Gabriel's Church, Pimlico, per Rev. Brymer Belcher, M.A.; and £8 8s., proceeds of an entertainment by the naval and military officers and men of H.M.S. Jumna while in the Suez Canal on Dec. 22, per Lieut. Gerard Bromley, R.N. The late Miss Grace Everard, of Tavistock, had left the institution a legacy of £1,000, the late Capt. Burch, R.N., of Exmouth, £50, and the late Miss H. M. Jones, of Yatton, £10.

PROPULSION BY SAILS.

The fourth lecture of the course on "Tonnage and Propulsion," delivered at the Royal Naval College, Greenwich, on Wednesday last, by Mr. W. H. White (Assistant-Constructor of the Navy), was devoted to the consideration of the above subject. The actual management of sailing ships is, of course, a matter of seamanship; but unless the naval architect has properly arranged the masts and sails, even the most skilful seaman would fail to make a ship perform well. In the lecture the various rules by which the arrangements of sail-plans are governed were summarized, and illustrations were given of the contrast between the sailing line-of-battle ships and frigates of forty years ago and the rigged ironclad battle ships of the present day. Incidentally it was shown that the great increase in the size and weight of modern ships renders it practically impossible to give them a sail-spread proportionate to that formerly secured unless other and more important features were sacrificed. The Hercules, for example, would require 75 per cent. more canvas than she spreads to be on terms of equality with the old sailing ships, and this could not be carried or worked efficiently on a vessel of her length and dimensions. This fact has not, however, much importance, for first-class ironclads of the most recent date have comparatively light rigs in all navies, the sail being only auxiliary to the steam-power, and enabling fuel to be economised under some circumstances.

A commander's naval pension of £65 a-year, vacant by the death of retired Capt. John J. Keeling, has been granted to retired Capt. Frederick H. Stevens.

The following men have been awarded the medal for long service and good conduct:—M. Murphy and P. Cooper, commissioned boatmen; J. Elms, chief boatman in charge; C. H. Goodfellow and J. Bennett, boatmen, all of the Coastguard; Arthur Sewell, ship's cook, and Richard Smith, steward, of the Duke of Wellington; and A. G. Norgrove, drummer, of the Iron Duke.

Rossetter's Hair Restorer.—This unrivalled preparation has now been before the public for many years, and as its success has led to several spurious imitations, the public should be on their guard. Rossetter's preparation is the only one that will with certainty restore grey hair to its original colour, remove dandruff, prevent the hair from falling off, promote its growth, and give it the lustre of youth.

The Navy Gazette.

ADMIRALTY, JANUARY 26, 1877.

In accordance with the provisions of H.M.'s Order in Council of Feb. 22, 1870, Surg. G. J. Gray has been placed on the Retired List from the 23rd inst.

JANUARY 27, 1877.

The undermentioned Staff-Surgs. have been promoted to the rank of Fleet-Surgs. in H.M.'s Fleet, with seniority of Dec. 7, 1876:—J. Flanagan, W. J. Baird, M.D., E. T. Mortimer, and A. B. Messer, M.D.

JANUARY 29, 1877.

In pursuance of her Majesty's pleasure, Admiral Sir H. J. Codrington, K.C.B., has been promoted to be an Admiral of the Fleet, vice Sir Fairfax Moresby, deceased, to date from Jan. 22, 1877, and the following promotions, consequent thereon, have also been made from the same date:—Vice-Admiral the Hon. Sir J. R. Drummond, K.C.B., to be Admiral in H.M.'s Fleet, Rear-Admiral Sir R. J. Macdonald, K.C.S.I., to be Vice-Admiral in H.M.'s Fleet, and Capt. F. H. Stirling to be Rear-Admiral in H.M.'s Fleet.

Consequent on the foregoing, the following promotions on the Retired and Reserved Lists have also taken place, from the same date:—Retired Vice-Admirals: the Hon. T. Baillie, Sir C. H. M. Buckle, K.C.B.; Sir G. Giffard, K.C.B.; Sir F. W. E. Nicolson, Bart., C.B., to be Admirals on the Retired List. Retired Rear-Admiral the Hon. J. W. S. Spencer to be Vice-Admiral on the Retired List. Reserved Vice-Admirals: Sir B. J. Sulivan, K.C.B.; H. Bagot; Sir G. N. B. Middleton, Bart., C.B.; Sir G. G. Otway, Bart., to be Admirals on the Reserved List.

JANUARY 30, 1877.

In accordance with the provisions of H.M.'s Order in Council of Feb. 22, 1870, Lieut. B. Shattock has been placed on the Retired List from the 22nd inst., with permission to assume the rank of retired Com.

JANUARY 31, 1877.

The following promotions have been made:—Sub-Lieuts. C. S. Elton, H. C. A. Baynes, T. C. St. A. St. John, R. C. Sparkes, J. H. T. Burke, H. Pearson, F. G. C. Langdon, C. B. P. Hume, D. Hamond-Græme, H. J. Jeffreys, W. B. Fisher, E. P. Ashe, H. B. Anson, A. W. S. Douglas, C. W. Swetenham, J. Cuddy, F. P. Taylor, E. Duncombe, C. V. Smith, C. G. Dicken, and F. S. Inglefield to be Lieuts. in H.M.'s Fleet, with seniority of Jan. 30, 1877.

FEBRUARY 1, 1877.

Capt. A. H. Hoskins has been appointed a Naval Aide-de-Camp to her Majesty the Queen, vice Capt. Stirling, promoted to Flag rank; Jan. 22, 1877.

The following promotions have been made:—Commander C. E. Buckle to be Capt. in H.M.'s Fleet, with seniority of Jan. 22, 1877. Lieut. H. C. Kane to be Commander in H.M.'s Fleet, with seniority of Jan. 22, 1877.

The Army Gazette.

WAR OFFICE, JANUARY 30, 1877.

Where not otherwise specified, the following commissions and announcements bear date Jan. 31, 1877:—

1st Life Guards—Lieut. I. C., Viscount Reidhaven, retires from the Service, receiving the value of a Cornetcy and Sub-Lieutenancy; Lieut. G. B. H. D., Lord Rodney, from the 7th Dragoon Guards, to be Lieut., in succession to Sub-Lieut. F. Pym, resigned.

81st Foot—Lieut. C. W. Young reverts to his regiment, having ceased to be a Probationer for the Indian S.C.

83rd Foot—Lieut. R. S. Graves, from the 13th Foot, to be Lieut., vice J. W. Hogge, a Probationer for the Indian S.C.

84th Foot—Lieut. J. H. C. Carey, from the 60th Foot, to be Lieut., vice H. J. Bolton, who exchanges.

86th Foot—Lieut. C. H. Coke, from the Hampshire Militia, to be Second-Lieut., in succession to Lieut. C. H. Loraine, retired.

89th Foot—Lieut. M. J. Meade has been appointed a probationer for the Indian S.C. Lieut. J. R. McMurray to be Adjt., vice Lieut. J. Cuthbert, promoted; Nov. 1, 1876.

93rd Foot—Sub-Lieut. W. F. Turner, from the 64th Foot, to be Sub-Lieut., in succession to Lieut. J. A. MacVicar, promoted.

94th Foot—Lieut. H. Farrer to be Capt., vice J. Mackinlay, deceased; Jan. 4, 1877.

96th Foot—Capt. D. Du M. Gunton retires from the Service, receiving the value of his commission.

97th Foot—Capt. D. J. D. Safford to be Major, vice G. A. Ferris, retired on full pay; Jan. 17, 1877. Lieut. W. H. Murphy to be Capt., vice D. J. D. Safford; Jan. 17, 1877.

101st Foot—Capt. J. W. Arrowsmith retires from the Service, receiving the value of his commission.

102nd Foot—Lieut. C. G. Way, from the 2nd Somerset Militia, to be Second-Lieut.; Lieut. E. H. Goddard, from the 4th Middlesex Militia, to be Second-Lieut.

108th Foot—Lieut. C. A. V. Foulger to be Capt., vice C. V. Hiffernan, retired; Dec. 30, 1876.

Rifle Brigade—Lieut.-Col. and Brevet Col. E. M. Manningham-Buller retires on half pay. Lieut. the Hon. H. O'C. Prittie resigns commission. Lieut. the Hon. O. F. S. Cuffe to be Instructor of Musketry, vice Lieut. M. B. W. Taylor, promoted; Dec. 9, 1876.

1st West India Regiment—Lieut. W. H. Knight resigns commission. The third Christian name of Sub-Lieut. Barkworth is Sandbach, and not Sandback, as stated in the *Gazette* of Jan. 16, 1877.

Recruiting District—Second Captain and Brevet Major J. Addy, from half pay, of the late Land Transport Corps, to be Adjt.

Tower of London—The Rev. E. J. Rogers, M.A., Chaplain of the First Class on half pay, to be Chaplain, vice the Rev. W. G. Green, B.A., who resigns that appointment.

Medical Department—Surg.-Major J. Goodwin retires upon temporary half pay; Dec. 19, 1876.

Veterinary Department—The undermentioned Vet.-Surgs. to be Vet.-Surgs. of the First Class:—E. Ewing, Royal Artillery, March 7, 1876; and J. A. Rostron, 5th Lancers.

BREVET.

Lieut.-Col. R. J. Baker, Madras S.C., to be Col.; Feb. 11, 1876.

Captain and Brevet Major U. L. Morris,' retired Royal Marine Light Infantry, to have the hon. rank of Lieut.-Col.; Jan. 17, 1877.

Paymr. and Hon. Capt. N. E. Robbins, 2nd Dragoon Guards, to have the hon. rank of Major; Jan. 11, 1877.

Depty.-Assist. Comy. G. Blake, Warrant Officer, Bengal Establishment, to have the hon. rank of Lieut., but to be junior of that rank for one year.

The following alterations of dates of commissions and promotions to take place consequent on the death, on Nov. 23, 1876, of Major-Gen. L. S. Hough, Bombay S.C.:—Brevet Col. T. H. Pakenham, from Lieut.-Col., half pay, late 30th Foot, to be Major-Gen., Oct. 28, 1868, such antedate not to carry back pay prior to Nov. 24, 1876. The commission of Brevet Lieut.-Col. C. F. Gregorie, 18th Foot, to be antedated to Nov. 24, 1876. Major R. Alexander, 20th Hussars, to be Lieut.-Col.; Nov. 26, 1876. The commission of Brevet Major M. S. Morgan, 14th Foot, to be antedated to Nov. 24, 1876. Capt. A. O. Tabuteau, 93rd Foot, to be Major; Nov. 26, 1876.

The following promotions to take place on the British Establishment consequent on the death, on Dec. 2, 1876, of Gen. W. Prescott, Madras Infantry:—Brevet Col. W. Payn, C.B., from Lieut.-Col. 72nd Foot, to be Major-Gen., dated Oct. 28, 1868, such antedate not to carry back pay prior to Dec. 3, 1876; Major F. Morley, 3rd Foot, to be Lieut.-Col., Dec. 3, 1876; Capt. C. W. Cragg, Rifle Brigade, to be Major, Dec. 3, 1876.

The following promotions to take place consequent on the death, on Dec. 15, 1876, of Major-Gen. D. Hodson, C.B., Madras S.C.:—Brevet Col. T. Ross, from Lieut.-Col., half pay, late 24th Foot, to be Major-Gen., dated Oct. 28, 1868, such antedate not to carry back pay prior to Dec. 16, 1876; Major W. H. Newport, Bombay S.C., to be Lieut.-Col., Dec. 16, 1876; Capt. G. Philips, 4th Hussars, to be Major, Dec. 16, 1876.

The following promotions to take place on the British Establishment, consequent on the death on Dec. 18, 1876, of Gen. R. Hawkes, Bengal Cavalry:—Brevet Col. H. E. Weare, C.B., from Lieut.-Col., half pay, late 50th Foot, to be Major-Gen., dated Nov. 9, 1868, such antedate not carry back pay prior to Dec. 19, 1876. Major W. Dickinson, C.S.I., half pay, Bombay S.C., to be Lieut.-Col., Dec. 19, 1876. Capt. W. B. Colvin, 7th Foot, to be Major, Dec. 19, 1876.

The following promotions take place consequent on the death, on Dec. 22, 1876, of Lieut.-Gen. G. Campbell, C.B., Col. of the 85th Foot:—Major-Gen. Sir E. Haythorne, K.C.B., to be Lieut.-Gen.; Dec. 23, 1876. Brevet Col. H. M. Hamilton, C.B., from Lieut.-Col., Brigade Depot, to be Major-Gen.; Nov. 9, 1868. such antedate not to carry back pay prior to Dec. 23, 1876. Major P. M'Pherson, half pay, late 17th Foot, to be Lieut.-Col.; Dec. 23, 1876. Capt. C. B. H. Mitchell, Royal Marines; Dec. 23, 1876.

The undermentioned promotion to take place in H.M.'s Indian Military Forces, consequent on the death of Gen. W. Prescott, Madras Infantry, on Dec. 2, 1876—Lieut.-Gen. T. Polwhele, Bengal Infantry, to be Gen.; Dec. 3, 1876.

The undermentioned promotions to take place in her Majesty's Indian Military Forces, consequent on the death of Gen. R. Hawkes, Bengal Cavalry, on Dec. 18, 1876:—Lieut.-Gen. Sir J. F. Bradford, K.C.B., Bengal Cavalry, to be Gen.; Dec. 19, 1876. Major-Gen. H. W. Matthews, Bengal Infantry, to be Lieut.-Gen.; Dec. 19, 1876.

The undermentioned officers of her Majesty's Indian Military Forces to be granted a step of hon. rank on retirement:—

To be Major-Generals—Lieut.-Col. and Brevet Col. R. J. Baker, Madras S.C.; Jan. 17, 1877. Lieut.-Col. and Brevet Col. J. E. Mayne, Madras S.C.; Lieut.-Col. and Brevet Col. J. E. Mayne, Madras S.C.; Lieut.-Col. and Brevet Col. C. C. Mason, Madras S.C.; Lieut.-Col. and Brevet Col. W. Weldon, Madras S.C.; Lieut.-Col. and Brevet Col. H. J. T. Neild, Madras S.C.

To be Colonel—Lieut.-Col. C. F. J. Skottowe, Madras S.C.

MEMORANDA.

Capt. T. Scovell, half pay, late 63rd Foot, retires from the Service, receiving the value of his commission; Jan. 6, 1877.

Assist.-Surg. G. A. Wilkinson, half pay, 76th Foot, has been permitted to commute his retired allowance; Jan. 6, 1877.

WAR OFFICE, PALL MALL, FEB. 2, 1877.

Brigade Depôt—Lieut.-Col. and Brevet Col. E. M. Manningham-Buller, from half pay, late Rifle Brigade, to be Lieut.-Col.; Feb. 3, 1877.

The Militia Gazette.

WAR OFFICE, JANUARY 30, 1877.

Where not otherwise specified, the following commissions and announcements bear date Jan. 31, 1877:—

Royal Bucks—Lieut. C. Meeking to be Capt.

Royal Carnarvon—Capt. J. C. Bradshaw, half pay, late 23rd Foot, to be Capt.; Jan. 17, 1877.

1st Royal Cheshire—Assist.-Surg. A. Hamilton resigns commission; C. H. M. Arrowsmith, gent., to be Sub-Lieut.

2nd Royal Cheshire—R. S. Bagnall, gent., to be Sub-Lieut.

Royal Cumberland—Sub-Lieut. L. F. Ballantine-Dykes resigns commission.

2nd, or South Devon—Capt. J. R. Stevenson resigns commission; Lieut. W. P. Chapman to be Capt.; Sub-Lieut. C. M. Rodger to be Lieut., Aug. 15, 1874; Robert Keate, gent., to be Sub-Lieut. (Supy.).

Dorset—Wilfrid Michael Watts-Russell, gent., to be Sub-Lieut.

Durham Artillery—Lieut. J. Tate to be Capt.

Royal Glamorgan—Lieut. W. H. H. Wilson to be Capt.; Lieut. G. C. Dicker to be Capt.

West Kent—Lieut. E. A. C. Hosmer resigns commission.

1st Royal Lancashire—Capt. W. Cross resigns commission.

3rd Royal Lancashire—Joseph Langton, gent., to be Sub-Lieut.

5th Royal Lancashire—Percy Algernon Ongley, gent., to be Sub-Lieut.

Royal South Lincoln—Thomas Coney Tunnard-Moore, gent., to be Sub-Lieut. (Supy.).

3rd Middlesex—Sub-Lieut. D. J. Hamilton resigns commission.

4th Middlesex—Capt. A. Hunt, half pay, late 2nd Dragoon Guards, to be Capt.

5th Middlesex—Capt. D'O. C. Battley is granted the hon. rank of Major.

2nd, or East Norfolk—King Hermann Plumridge, gent., to be Sub-Lieut.

2nd Royal Surrey—Sub-Lieut. H. T. S. Lightfoot to be Lieut.; Nov. 4, 1874.

Royal Tower Hamlets—Ernest Bloxam Constantine Elim, gent., to be Sub-Lieut. (Supy.).

4th West York—Capt. H. A. Burton, 14th Foot, to be Adjt., vice Lieut. R. H. Atkinson, 14th Foot, whose term of service in that appointment has expired.

FURNISH ON THE NEW HIRE SYSTEM.—The "New Hire System" is quite distinct from anything yet attempted. Houses furnished throughout. 20 Wholesale Houses to select goods from. "An excellent idea."—"Army and Navy Gazette." Prospectus, with Press opinions, post-free. General Furnishing Company—Offices, 9, Southampton-street, Strand.

THE 81-TON GUN.

The long-expected trial of the gun against plates in the marshes was made in the presence of the largest gathering ever seen at Shoeburyness on Thursday. After the gun had fired from every quarter the eager crowd ran to see the result of the shot. The target was quickly surrounded. The shell had penetrated the target, had gone, in fact, clean through the first three plates, through the three thicknesses of teak, and had bulged and splintered the rear plate. The base of the shell was, in one part, 7in. from the front edge of the first plate, and 5in. in another, one part of the shell having thus "set up," as it is technically called, or closed up, with the force of the blow, more in one part than in another. It was believed that the rear plate had been penetrated about two inches, and by crawling between the woodwork at the back it was seen that the bulging of the fourth plate had smashed up the very heavy beam of timber placed immediately behind it like firewood, and that there were large and long fissures in the ponderous rear plate. It could be seen, too, that the shot had bulged the rear plate some inches, and had shaken the whole target somewhat, moving even the front plate slightly; but that the whole structure had stood the blow exceedingly well. The hole in the front plate was "clean"—that is, the exact shape of shot, some of the displaced front plate being in front of the target in all sorts of shapes and of an ounce or two in weight, and it was seen, too, that they were of that part of the plate struck by the outside of the body of the round-headed cylindrical shot, as the graze of the brass rifling studs was upon most of them. The shot had struck on the target 6ft. 3½in. from the left edge of the target, and 2ft. 8in. from the bottom, being 13in. lower than where it was marked to strike. The initial velocity as taken by M. Le Boulenger's invention was found to be 1,500·10ft. per second, and the striking velocity 1,496ft. per second. The committee at once decided that no more shots should be fired at this target, but that it should be reserved for trial shots when the gun has been chambered.

SWORD DRILL.

"Proficient" writes:—"Passing by a barrack-square a few days since, I was much amused at seeing a young officer being put through the sword exercise by the sergeant-major. Neither the officer nor the instructor knew anything about it, the latter appealing to another non-commissioned officer who was looking on. Now, in nearly every large garrison there is a sergeant-instructor of gymnastics, whose duty it is to be a proficient in sword drill, and I would strongly urge that every adjutant and sergeant-major should be thoroughly instructed in the sword exercise, and they would then be competent to impart their knowledge to the officers of their regiments. Any general officer who has ever inspected a regiment will testify to the absurd appearance the officers present in their attempt to go through the sword exercise."

MILITARY EDUCATION.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

Sir,—Para. 31, sec. 9, Queen's Regulations states, "No private soldier is to be promoted to the rank of corporal unless he is in possession of a third class certificate of education." Well, Sir, as I am so ignerant, and do not know what this certificate means, or to what proficiency in learning a soldier must attain to, I venture to ask through the columns of the Army and Navy Gazette whether anything like the following is correct orthography, and would be sufficient for a third class certificate:—"*I certifie* that the remarks *upsit* each *man* names as correct: number of drills *don.*" These words I extracted from an official document, written by a full corporal, belonging to a "crack light Infantry corps."—I am, &c.

Nobody.

MESS EXPENSES.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

Sir,—The hospitable custom of regiments entertaining each other is sometimes carried to excess, and occasions debt and great inconvenience to officers with limited means. Thus a regiment arrives at the Curragh Camp or at Aldershot; the officers of it are invited to dine y, say, ten regiments in succession. This does ot cost them much individually, but the new rival feels bound to ask the ten regiments in succession, and "champagne" them all. nsider what this costs, and how much ter it would be if the officers of the newly- red corps were asked to be honorary bers of the other messes till they got ed and their own mess established. A ent passing through a station should, of , receive hospitality from the corps red there. When Col. Middleton was mand of the 42nd Royal Highlanders, er to check extravagance he asked orary colonel, Sir George Murray, to of an order for no champagne or e claret being used by the Black Sir George assented to this arrangement d Col. George Johnstone continued rule as long as the regiment was at d much to the advantage of the ckets. The same plan was followed in the 36th Regt., under Col. Hort. Lately at Portsmouth, great credit is due to Gen. Sir Hastings Doyle for his order that when regiments entertained each other no champagne is to be used, so that mess bills be kept as moderate as possible, and they are reformed under his judicious command, and no doubt with the approval of H.R.H. the Field-Marshal Commanding-in-Chief, who is always desirous to prevent extravagance and to retain good officers, "who dare to be singular," and not fast men in the Service.—I am, Sir, yours obediently,

A.

January 21, 1877.

BIRTH.

Tobin.—Jan. 12, at Ottawa, Canada, the wife of Seymour Tobin, Royal Navy (retired), of a son.

MARRIAGE.

Charter.—Baker.—Jan. 23, at St. Matthias' Church, Kensington, by the Rev. H. P. Liddon, D.D., Canon of St. Paul's, assisted by the Rev. S. C. TO LET ON LEASE.—A small and most picturesquely situated property in the most beautiful part of the LAKE DISTRICT. The house contains entrance hall, lobby, dining-room, drawing-room, library (or bed-room), three bed-rooms, servants' bed-room, pantry, kitchen (containing a splendid wrought iron range of the best make, and self-supplying boiler), scullery, large lumber loft, two water closets, two staircases, and the usual offices. The rooms are small. The house is supplied with the purest spring water, which rises, without pumping, to the roof. The sitting-rooms, hall, and lobby are furnished with the finest plate glass windows, and all the windows have been recently fitted with rollers and the best linen blinds.

The carriage drive is nearly a quarter of a mile in length.

The views from the windows are among the most magnificent in the Lake District, comprising Lake Derwentwater, Skiddaw, Blencathra ("Saddleback"), Falcon Crag, Catbells, The Vale of Borrowdale, &c.

There is also on the estate a superior and very substantial FARM COTTAGE in good repair, containing four rooms and good-sized kitchen (close range), besides the usual farm buildings

The grounds (woodland and pasture) are rough but very beautiful.

Address, R. B. B., care of Messrs. Day and Hassard, 28, Great George Street, Westminster, London, S.W.

LONDON AND COUNTY BANKING COMPANY.—Established in 1836, and Incorporated in 1874 under "The Companies' Act, 1862."

Subscribed capital, £3,750,000, in 75,000 Shares of £50 each.

REPORT adopted at the Annual General Meeting, 1st February, 1877.

ABRAHAM HODGSON PHILLPOTTS, Esq., in the Chair.

The Directors, in submitting to the Proprietors the Balance-sheet of the Bank for the half-year ended 31st December last, have to report that after paying interest to customers and all charges, allowing for rebate, and making provision for bad and doubtful debts, the net profits amount to £105,447 6s. 0d. This sum, added to £25,719 2s. brought forward from the last account, produces total of £131,166 8s. 3d.

They recommend the payment of a dividend 8 per cent. for the half-year, which will abso £120,000, leaving a balance of £11,166 8s. 3d. to carried forward to profit and loss new account.

The present dividend added to that paid to June 30th makes 16 per cent. for the year 1876.

The Directors retiring by rotation are John James Cater, Esq., Edward Harbord Lushington, Esq., and William Henry Stone, Esq., who, being eligible offer themselves for re-election.

By the retirement of Stephen Symonds, Esq., on account of ill-health, there is a vacancy in the Auditorship, which it is in the power of the Meeting to fill up.

The Dividend, £1 12s. 0d. per share, free of income tax, will be payable at the Head Office, or at any of the Branches, on or after Monday, 12th inst.

RUPTURES (BY ROYAL LETTERS PATENT)

WHITE'S MOC-MAIN LEVER TRUS

is allowed by upwards of 200 medical ge tlemen to be the most effective invention for t curative treatment of hernia. The use of a st spring, so often hurtful in its effects, is here avoid a soft bandage being worn round the body, wh the requisite resisting power is supplied by MOC-MAIN PAD and PATENT LEVER, fit with so much ease and closeness that it canno detected, and may be worn during sleep. A desc tive circular may be had, and the Truss (which not fail to fit) forwarded by post, on the circu ence of the body, two inches below the hips, sent to the manufacturer.

MR. WHITE, 228, PICCADILLY, LONDO

Price of a single truss, 16s., 21s., 26s. 6d 31s. 6d.; post free. Double ditto, 31s. 6d., 42 52s. 6d.; post free. An umbilical ditto, 42 52s. 6d.; post free. Post-Office Orders to b payable to JOHN WHITE, Post Office, Pic Every description of RIDING BELTS, EL STOCKINGS to draw on, and ELASTI SUSPENDERS, on new and improved prin JOHN WHITE, Manufacturer, 228, P London.

NAVAL CADETS, ASSISTANT CLERKS,
HOPE HOUSE, SOMERSET-PLACE,
SOUTHSEA.
Principal—Mr. T. H. VICKERY.

In addition to the general course of study pursued at this long-established School, pupils are specially prepared for the examination required for the above.

At the competitive examination in November, 1875, and at the recent examination in June, of candidates for Assistant Clerkships, all the pupils sent up from this Establishment were successful.

TRURO SCHOOL. Founded A.D. 1549.—Special preparation of a limited number for Woolwich, the Line, Navy, and Cooper's Hill. Five experienced and energetic resident masters in mathematics and geometrical drawing, the classics, and English, French, science, and German; besides visiting masters in drawing and English composition.

NAVAL CADETSHIPS, &c.
"EASTMAN'S" R.N. ACADEMY, SOUTHSEA, Principal, G. EASTCOTT SPICKERNELL, since 1860.

At the last two Naval Cadet Examinations pupils took the first place.

More than 1,000 pupils have entered H.M. Service. For every information address the Principal, Burgoyne House, Burgoyne Road, of late called Eastern Parade.

THE GRANGE, W. COWES.—The Rev. ARTHUR WATSON, M.A., Graduate in Honours, Second Scholar and Prizeman of Caius College, Cambridge, having carried on his school for 12 years at Egypt House, has recently built the above residence, and has now more accommodation for pupils, who are prepared for the Public Schools, Universities, Naval Examinations, &c. All his naval candidates have passed into the Britannia. This June candidates took the 4th and 12th places.

NEWTON COLLEGE, S. DEVON.—President of Council, EARL of DEVON.—This College is for gentlemen's sons only, on very moderate terms. Officer's nomination, £60 per annum. One Woolwich Scholarship of £20 per annum open this Christmas. Candidates under 15. Papers forwarded January 1st to boys' homes. The situation is healthy and elevated; gravel soil; good cricket ground; racquet and fives court, &c. Apply, Rev. G. TOWNSEND WARNER, Head Master.

LITTLE ST. JOHN'S, Hurstpierpoint, in connection with St. Nicolas College, Lancing, and St John's College, Hurstpierpoint, is established with the sanction and under the inspection of the Provost and Fellows of St. Nicolas College, for the education of little boys from six years of age preparatory to their entering either of the above, or other public schools. For particulars apply to the Lady Principal, Little St. John's, Ditching, Hurstpierpoint, Sussex. Boys are prepared to pass the examination for Naval Cadets.

WOOLWICH, SANDHURST, COOPER'S HILL, &c.—Messrs. ASKIN and GABBITAS send (gratis) on application prospectuses and reliable information of tutors who have been successful in passing pupils for all the competitive examinations.—Address, No. 9A, Sackville Street, W. Reference kindly allowed to the Chaplain-General to the Forces and others.

THE REV. H. A. MITTON, M.A. (Cambridge), Master of Sherburn Hospital, Durham, RECEIVES three YOUNG MEN to READ for the University or Ordination. Excellent house, gardens, stables; healthy situation; two miles from Durham; highest references; terms £200 (inclusive). Address as above.

CANTON de VAUD.—GENTLEMEN preparing for the Army or Navy, Universities, or Commercial life, can be RECEIVED into the family of an Oxford graduate on moderate terms, and can attend classes at a large college. Good boating; frequent walking excursions.—Apply, by letter, to "D. C. L., Oxon," care of Messrs. Dawson and Sons, 121, Cannon Street, London.

188, STRAND

LIEBIG'S INVIGORATIVE NERVINE ESSENCE.—The most scientifically prepared and most powerfully nutritive cordial ever introduced, restoring to their normal condition the secretions, on the integrity of which perfect health depends. It is a specific for debility, and from its containing, among other ingredients, PEPSINE and PHOSPHATE of SODA, will prove highly beneficial to the nervous and dyspeptic. Price, 8s. per bottle, or four quantities in one, 22s. Sole agents—The English and Foreign Pharmacy, late Schoenemann and Co., No. 8, Cullum Street, Fenchurch Street, City. Manager, Herr Kretschmer, of Berlin University, in co-operation with the Montpelier Pharmacy and Mineral Water Works, No. 4, Montpelier Street, Brompton, S.W., Manager W. Liddiard, M.P.S.

HOLLOWAY'S PILLS and OINTMENT.—When rheumatism becomes chronic, and, as it were, fixed in a limb or part, it is truly a terrible enemy to encounter. The joints often become stiffened and excessively painful when obliged to be moved or on exposure to changes of temperature, dampness, &c. Holloway's Ointment exercises a wonderful effect in alleviating this torture; for by its use the blood vessels of the part have their tone restored, and the irritated and painful nerves are soothed and calmed. It must be persistently and perseveringly used, for the disorder is a most obstinate one, and will not yield unless resolutely attacked. These remedies will also be found to be most useful in cramps and muscular spasms.

On Wednesday next.

CABINET EDITION.

MR. KINGLAKE'S HISTORY
OF
THE INVASION OF THE CRIMEA.

WILLIAM S. BURTON,
39, OXFORD STREET, W.

THE PERFECT SUBSTITUTE FOR SILVER.—The REAL NICKEL SILVER introduced more than thirty years ago by WILLIAM S. BURTON, when plated by the patent process of Messrs. Elkington and Co., is the best article next to silver that can be used as such, either usefully or ornamentally, as by no test can it be distinguished from real silver.

Patterns.	Fiddle or Old Silver	Bead or Thread	King's or Shell.
	£ s. d.	£ s. d.	£ s. d.
Table Forks or Spoons, per doz.	1 10 .	2 1 .	2 5 .
Dessert do., per doz.	1 2 .	1 9 .	1 11 .
Tea Spoons	. 14 .	1 . .	1 2 .

These are as strongly plated, and in every respect equal to what other houses are selling as their first quality at very much higher prices.

A second quality of Fiddle Pattern:—Table Spoons and Forks, 23s. per doz.; Dessert, 17s. per doz.; Tea Spoons, 12s. per doz.

Tea and Coffee Sets, from £3 15s. to £25; Dish Covers, from £9 to £26 the set of four; Corner Dishes, from £7 10s. to £18 18s. the set of four; Warmers, £7 2s. 6d. to £15 15s.; Biscuit Boxes, 14s. to £5 10s.; Cruet and Liquor Frames, &c., at proportionate prices.

The largest stock in existence of Plated Dessert Knives and Forks, and Fish-eating Knives and Forks, and Carvers.

All kinds of re-plating done by the patent process

WILLIAM S. BURTON, General Furnishing Ironmonger, by appointment to H.R.H. the Prince of Wales, sends a Catalogue, containing upwards of 850 Illustrations of his unrivalled Stock, with Lists of Prices and Plans of the 30 large Show-Rooms, free.—39, Oxford-street, W.; 1, 1A, 2, 3, and 4, Newman-street; 4, 5, and 6, Perry's-place; and 1, Newman-yard; Manufactories, 84, Newman-street and Newman Mews, London, W. The cost of delivering goods to any part of the United Kingdom is trifling. WILLIAM S. BURTON will always undertake delivery at a small fixed rate.

THE
COLONIAL PIANOFORTE.
With entire metal string-frame, full trichord scale, and check repeater action.

This Pianoforte is most strongly recommended for the families of Military gentlemen. Its construction is such that durability under adverse conditions of climate, &c., may be confidently relied upon, whilst its musical and artistic qualities are of the highest order. It is of small dimensions, and is sold at the moderate net price of £35.

COLT'S NEW GOVERNMENT ARMY REVOLVER,
after a severe competitive trial by the U. S. Ordnance Department in 1873 and 1876, has been exclusively adopted by the United States Government, and the whole of the United States Cavalry is now armed with them. It is now made to take the English Government Boxer cartridge. Length of barrel 5½ and 7½ inches.

In the trial of 1869, advertised by another maker, the Colt's pistol used was a muzzle-loader adapted to the use of metallic cartridges, which pistol has not been made or sold after that year.

COLT'S NEW 41-CAL. FIVE-SHOT DERINGER REVOLVER,
Weight 12 ozs.

COLT'S NEW 38-CAL. POLICE REVOLVER,
Weight 14½ ozs.

ESTABLISHED 1864.
TIMEWELL,
SPECIAL TAILOR & MILITARY OUTFITTER
TO GENTLEMEN WHO REQUIRE NO CREDIT
8, SACKVILLE STREET,
PICCADILLY, LONDON, W.

A large private trade of highest class and character, yielding to its patrons the full advantages of their position.

E. LAZENBY and SON'S PICKLES, Sauces, and Condiments—E. Lazenby & Son, sole proprietors of the celebrated receipts and manufacturers of the pickles, sauces, and condiments so long and favourably distinguished by their name, beg to remind the public that every article prepared by them is guaranteed as entirely unadulterated.—92, Wigmore Street, Cavendish Square (late 6, Edward's Street, Portman Square), and 18, Trinity Street, London, S.E.

HARVEY'S SAUCE.—CAUTION.—The admirers of this celebrated sauce are particularly requested to observe that each bottle prepared by E. LAZENBY and SON bears the label used so many years, signed, "Elizabeth Lazenby.

In consequence of Spurious Imitations of
LEA and PERRINS' SAUCE,
which are calculated to deceive the Public, LEA and PERRINS have adopted A NEW LABEL, bearing their Signature—
LEA AND PERRINS,
which signature is placed on every bottle of
WORCESTERSHIRE SAUCE,
and without which none is genuine.

Sold Wholesale by the Proprietors, Worcester. Crosse and Blackwell, London; and Export Oilmen generally.

Retail, by dealers in Sauces throughout the World

COCKS' READING SAUCE
Is the best and most economical Sauce ever manufactured for
FISH, ENRICHING SOUPS, GRAVIES, &c.
It only requires a trial to convince the purchaser of its excellence.

CAUTION.—The genuine is protected by Trade Mark, viz., CHARLES COCKS' Signature on a white ground across the Reading Arms.

FALKNER'S "REAL MALT" WHISKEY.
The same as supplied to the principal Clubs and Regimental Messes. Has been esteemed in Ireland for the last century as the FINEST IRISH WHISKEY procurable, being pure as distilled, and refined by age only.
LONDON, 40, CHARING CROSS.
DUBLIN, 83, GRAFTON STREET.

KINAHAN'S LL WHISKY.

KINAHAN & Co. finding that, through the recommendation of the Medical Profession, the demand for their CELEBRATED OLD LL WHISKY for purely medicinal purposes is very great, submit with pleasure the following ANALYSIS by DR. HASSALL:—

"I have very carefully and fully analysed Samples of this well-known and popular Whisky. The samples were soft and mellow to the taste, aromatic and ethereal to the smell. The Whisky must be pronounced to be pure, well-matured, and of very excellent quality. The medical Profession may feel full confidence in the purity and quality of this Whisky." 20, GT. TITCHFIELD ST., LONDON, W.

LANE'S PRIVATE HOTEL (Nos. 1, 2, and 3, ST. ALBAN'S PLACE, CHARLES STREET, St. James's, S.W.), for Officers in the Army and Navy, Members of Clubs, and others. MAJOR CREASE'S PATENT SELF-REGULATING, CLEANABLE CHARCOAL FILTER

Has been universally adopted in the Royal Navy, East Indian and English Transport Services; the German, Russian, American, and Austro-Hungarian Navies;
ALSO BY
HER MAJESTY'S WAR DEPARTMENT,
For BARRACKS, HOSPITALS, CAMPS, &c., &c.

And for which Patents have been granted by the Governments of Great Britain, the United States of America, Italy, France, and Canada to Major Crease, Sole Patentee of the Self-regulating, Cleanable Filter.

The designs are of three classes—

1.—For dwelling rooms and halls. To suit different styles of furniture three types have been employed—the Classic, the Japanese, and the Mediæval. None of these forms have been before employed for Filters.
2.—Those of simpler and cheaper designs for kitchen use.
3.—Filters of galvanized iron, either to fix to mains or cisterns, which, being capable of being made of any size, can supply pure water in sufficient quantities for the largest hospital or hotel.

The Filters, being made of special sizes, all their parts are interchangeable.

Full particulars can be obtained on application to
MESSRS. GARDNER AND SONS,
Sole Manufacturers of the Land Filters,
453 & 454, STRAND; and 3 & 4, DUNCANNON STREET, LONDON.

HALL LINE.—STEAM from LIVERPOOL to BOMBAY, via SUEZ CANAL.—

Average passage, 26 days, including all detentions. Sail punctually as advertised.

The magnificent fast steamship CHILDWALL HALL, 2,100 tons, 300 horse-power nominal, sailing 27th February. This steamer has been specially adapted for the East India trade. Her saloons and cabins are spacious and well-ventilated, and the accommodation is unsurpassed. Only first class passengers taken. Fare, 45 guineas. Surgeon and stewardess carried.

Succeeding steamers:—

Trentham Hall	13th March.
Branksome Hall	To follow.
City of Baltimore	To follow.

☞ *It is particularly requested that applications for copies of the* Army and Navy Gazette, *and Advertisements, should* not *be sent to the Editor, but to* Mr. Richard James Wood, AT THE OFFICE, 16, WELLINGTON STREET, STRAND, W.C., *to whom all business communications should be addressed and remittances made payable.*

The subscription to the paper is 7s. per quarter, or 28s. per annum payable in advance, *inclusive of postage to any part of the United Kingdom; to India, £1 10s. 4d. per annum*; viâ *Brindisi, £1 14s. 8d*

THE "daring innovation," as a morning contemporary terms the intended entry of Engineers from the private trade, has not proved a success, much to the delight of this class in the Navy. Possibly, too, the Service as a whole may not deeply regret the failure. Enough of the inconveniences necessarily arising from a mixture of artificer and officer have already been experienced in ward-room messes, and there was little need at a moment when the Engineer officers had been striving to raise their position, to go lower in the social scale to solve the difficulty of engineering the Fleet. The whole system is utterly wrong. There are too many "officers"—too much of the cocked hat and sword about the engine-room. What the Service requires is that each ship should have two or three well qualified gentlemen as Chief Engineers, who should become Ward-room Officers immediately on joining. Under them should be a large staff of thoroughly efficient and well-paid Engineers' assistants and artificers. Let such inducements be held out as will bring into the Service the best type of working Engineer, men who prefer good pay and a handsome pension to struggling after a false position. There has been a great tendency of late years to strive after rank and gold lace, and it does not appear to have added in any way to the efficiency of the Engineer Department. If the class were differently recruited there would be no difficulty or possible objection to equality with the higher grades, but as the matter now stands it is hardly to be expected that the Engineer can be given it. It is unpleasant to have to speak plainly, but we would ask whether those who are now the seniors of the Engineers' branch would ever have anticipated becoming K.C.B.'s and ranking with Captains had they remained on shore? We have no doubt whatever, for we have heard as much from some of those still serving that, had the Admiralty offered them the same pay and prospects of retirement, they would have accepted appointments in the Service without troubling about the rank, which absolutely is the means of greatly reducing their pay. This is evidently the line to be adopted in solving the difficulty now experienced in obtaining efficient Engineers, and the failure of the Admiralty to obtain a number of working engineers to enter as Engineer officers is a matter over which all other officers should rejoice. Further, it is bringing matters to a climax, and the sooner that is done the better it will be for the Navy. Let the number of officers of this line be gradually reduced, and let greater care be taken as to the social position of all fresh entries, seeing that they should undoubtedly be made Ward-room Officers on appointment to a sea-going ship. The vacancies occurring in the junior grades should then be filled by the best men that pay and prospects will procure, letting them become chief petty officers on entry, and giving them a comfortable mess. These men will think more of their work than of their buttons, and will know that it is better to have gold in their pockets than on their cuffs. The Navy has been suffering long enough from the mistaken position granted to the great body of those connected with the Engineer Department, and we sincerely trust that the day is not distant that affairs shall be placed upon a basis far more satisfactory to the Engineer officers themselves and also to the Service at large. The Engineer officers have cause for complaint, because they are not treated as others with whom they rank; but if the public is accepting all it reads concerning the position of the naval Engineer, it is being egregiously misled. It was but a few days since that a contemporary devoted a leading article to expressing its unqualified wonderment at the "fact" that only eight of that branch ranked with or above a Lieutenant. As nothing could possibly be further from fact, it is needless to follow the writer in his remarks, or to endeavour to trace him in that maze into which his imagination led him. Mr. Reed has induced people to believe that the actual rank of an Engineer is represented by the position in which his name is to be found on the list under a ship's name. If any attempt were to be made to place officers' names under each ship, according to their rank by seniority, endless confusion would arise, for Lieutenants would be found mingled with Paymasters, Surgeons, and Engineers, without any order whatever. Many more instances of misstatement and misrepresentation could be mentioned, but the above suffices to show that much is being made of "grievances" which have no reality. We are glad to be enabled to add that a scheme for the redress of the real grievances of this class is now before the Treasury, and it is probable that the proposed improvements will be submitted to Parliament early in the present Session.

On no part of our military system are the Radicals given to falling with so much truculence as the full Colonelcy of a regiment. They are never wearied of sneering at these sinecures, as they term them, and demanding their abolition as a first step towards an economical administration of the Army. It is not improbable that this foolish cry may be again heard in the House of Commons during the present Session of Parliament. It is as well, therefore, that the public should be told what these Colonelcies are. They cannot be called with justice sinecures in the full sense of the term, for sinecures have come to mean appointments to which there is a salary but no duty attached, and which are conferred from favour. The Colonelcy of a regiment is no more bestowed by favour than is a Staff appointment. Indeed, little if any fault can be found with the manner in which the former is allotted. It is true that the holder need not, and often, nay, generally, does not, perform any duty in return for his pay; but even if, in this sense, it is a sinecure, at least it has been well earned by previous good and poorly rewarded service. If the Radicals object to the name of the thing as a sham, they can hardly find fault with the bestowal of £1,000 a-year on a certain number of old Generals, not one of whom but has in peace or war, generally in both, done good work for the country during, at the least, forty years. Their strong point is, however, that the appointment is a sham. Even on this ground their position is not impregnable. In the Guards and Household Cavalry there are distinct duties attached to the officer, while in the Line there are, also, certain functions which may be performed. Most civilians are unaware that the full Colonel of a regiment has the power to reduce a non-commissioned officer summarily. Moreover, in many demi-official little matters the full Colonel is a useful intermediary between the regiment and the Commander-in-Chief. The former has, for instance, a sort of tacit right to represent the claims of any officer in his regiment to promotion, and to be the mouthpiece of the corps when it is a question of any honorary title, change of uniform. His recommendation in favour of the appointment of any Second Lieutenant would also carry with it much weight. Still, we admit that there is a want of reality about his functions, and of substance in his connection with the regiment. It is in the interests equally of the full Colonels themselves, and of the Service at large, that we suggest that definite duties should be assigned to the position, and that the connection of the Colonel with his regiment should be drawn closer. For example, he might be encouraged to occasionally inspect the regiment, or, at all events, to march past at its head on the occasion of any ceremony of special interest, such as a presentation of colours, a review by her Majesty or the Prince of Wales. He might with justice be required to subscribe to the band and mess in the same proportion as the other officers. Finally, but above all, he should have the nomination from qualified men of all officers appointed Second Lieutenants in the corps. This last function is one of no small importance. In the Guards, the Household Cavalry, the Rifle Brigade, the 60th Rifles, and the 10th Hussars, every one is, on first appointment, nominated by the full Colonel. The result is a superior body of officers. Owing, also, to the fact of their popularity, certain Fusilier Light Infantry and Highland corps are more fortunate in their youngsters than the rest of the Army. In such regiments and in the Ordnance corps the officers are of as good a social standing as ever, but it cannot be denied that there is a deterioration in the ordinary regiment of the Line. It is idle to suppose that because a lad comes well out of a competitive examination, possesses a certificate of good moral character, and is "respectable," that he is fit for the position of an officer. In appearance, manner, and social status he may be such that he will never secure the respect and willing obedience of his men. The Horse Guards know nothing of a candidate till he goes to Sandhurst, unless he has served in the Militia, and, once at Sandhurst, it would need very palpable unfitness to cause the refusal of a commission. If it were required that every candidate before going up for a commission should receive the imprimatur of a full Colonel of a regiment, the growing deterioration of our officers would be checked. Besides, there would be far more fitness in the distribution of them among different regiments than there is at present. The Oxfordshire squire's son would be appointed to the 52nd, the Highlander to a kilted corps, the Irish gentleman to the 88th or some other Irish regiment, and we should no longer see men utterly ignorant and incapable of equitation vexing the soul of Cavalry commanding officers, or others with an Irish brogue wearing the kilt. It may be urged as an objection to our suggestion that after a certain age some Colonels would be incapable of performing even the functions which we have proposed should be assigned to them. We would reply that in the Guards and Household Cavalry the interests of the regiment are duly cared for by their Colonels. Besides, it would be easy enough, even if a general scheme for the transfer of Generals to a Retired List were not adopted, to remove from the Colonelcy of a regiment all men obviously incapacitated by age for the position, giving them as a solatium a slight increase of pay under the title of Good Service Pension. Our object in making these remarks is simply to deprive civilian military reformers of all pretext for sneering at "honorary Colonelcies," and public opinion is certainly very strong on the subject of realism.

They must be sanguine people indeed who believe that naval reform will be advanced by such letters as those Mr. E. J. Reed, M.P., has recently addressed to the *Times*. That they should fill our contemporary with a "lively despair" at the state of the Navy is not astonishing, for not only is everything wrong—the ship-building policy, the *personnel* of our ships, and the dockyard administration—but it is in his letters at least vain to seek for a remedy. Mr. Reed is a man of vehement convictions, and he had the talent of impressing his strong views on the Admiralty during his Chief Constructorship, and, as we have never been among his detractors, so we have never shared the feelings of his unreasoning admirers. If he committed some egregious errors in ship-building he also directed the construction of some of the finest ships in the Navy. Consistency in the versatile member for Pembroke we do not expect, but he really presumes too much when he protests against the "aggravated expenditure," and of something very much worse besides, "caused by the endless variety" of our ships of war, and then traces the numerous "blunders and failures" directly to all power and influence being monopolised by the combatant officers of the Navy. Why, it was these very combatant officers who, during Mr. Reed's tenure of office, frequently and earnestly protested against the endless variety of our ships! But the Chief Constructor was then of opinion that "the very variety of our ships," so far from causing a "well-planned engagement" to degenerate—as he now holds would be the case—into a "miserable *mêlée*," "would be the means of the most vigorous and diversified attack upon the hostile fleet." We are not, however, concerned with what were Mr. Reed's opinions eight years ago, but that which he proposes now. We will not do him the injustice to suppose that he is desirous of stereotyping a class of vessels which may all have fundamental errors of construction, as was the case in the unfortunate Vanguard and her sisters. If he does not want this we are reduced to the impotent conclusion that the Naval Superintendents of Dockyards ought to be at once abolished, as being the cause of continual mismanagement, extravagance, and ill-feeling; although, according to Mr. Reed, they do nothing, and accept no responsibility. The "sword and epaulettes" appear to constitute the real offence, and all the delinquencies of the wearers might be rectified, perhaps, by their taking off these offensive emblems of executive power. After all this, we are told that a second Admiral in the principal home ports is desirable and necessary, but that there ought to be a "distinct line of demarcation" between the civil establishments of the dockyard and the naval Service. How this could be made to work—whether the second Admiral would have a voice in the ship's fittings—and how this dual government could be carried on—we are not told. It appears to us impracticable, and one that could only end in bickerings, disagreement, and extravagance. If a committee be appointed to inquire into this matter, we feel sure that Naval Superintendents will be found to have done good service. The value of Mr. Reed's proposals for reform of the Controller's office is shown by his now renewing the suggestion to place the Controller in the Admiralty; although, as he knows, the experiment was tried, and was universally admitted to have proved a failure. There are, however, unquestionably a considerable number of break-downs and failures now-a-days, and these require to be accounted for. Although we entirely approve of naval management of the dockyards, we are not of opinion that all naval officers are competent for those duties, and when a good man is found it is unreasonable and a sacrifice of the dockyards to the *personnel* of the Navy to supersede a Superintendent on his changing his rank. All such appointments should be kept for five years certain, and the responsibility should be made more real than it now is. Some process of decentralization is also required if we are to throw responsibility on the dockyard officers. After all, the great break-downs recently have taken place in the machinery, and Mr. Reed has endeavoured to account for this. That the Engineering Staff requires raising, and that their pay and position should be improved, most people will admit; but the break-downs have been chiefly on the contract trial before the ships had been taken over from the contractors. We agree with Mr. Reed that the Engineering Staff of the Admiralty is ridiculously small, but we certainly were under the impression that this was due to the office of Engineer-in-Chief of the Navy being merged in that of the Chief Constructor when Mr. Reed held the latter office, This may of course have taken place without Mr. Reed's sanction, but such is not the generally-received opinion. Now what are the causes of the break-downs of our ships in their trial trips? The answer is, that they are partly due to the sacrifice of the Engineers to the Constructors (this, at least, was the opinion delivered by an experienced Engineer at the United Service Institution a short time ago); but the main cause is, as we have before endeavoured to show, ordering machinery of an experimental nature from firms which have not been in the habit of fitting her Majesty's ships. If we search for a conspicuous instance of this cause of failure we shall find it in H.M.S. Turquoise, built and engineered by the firm of Earle's Shipbuilding Company, of Hull, which has just failed in her eighth trial off the Maplin Sands.

No reduction whatever will be made in the *personnel* of the Fleet to be borne during the financial year 1877-78. The strength of the Royal Marines will also be maintained as during the present year, 7,000 being detailed for service afloat and 7,000 for head-quarters.

The Commander-in-Chief in the Mediterranean, Admiral Sir James Drummond, has received through the Admiralty the special thanks of the Imperial Government of Germany for the courtesy and attention shown towards the German squadron recently visiting the Mediterranean by the officers of British ships of war employed on that station and by the authorities both at Gibraltar and Malta.

The Indian troopship Malabar will call at Plymouth on her homeward voyage in order to land the 1st Battalion 11th Regiment. She leaves Bombay on February 27, and may be expected at Plymouth on March 30.

We believe that some trials are about to be made in the Channel Squadron to test the value of gun-cotton charges for fog signalling purposes. Some time since the flagship was supplied with howitzers as fog signal guns, and they proved so useful that Admiral Seymour recommended that 24-pounder howitzers should be fitted to ships for this purpose, but we understand gun-cotton is now to be tried. Its use has lately engaged the attention of the Trinity Board.

Captain Chatfield, of the Amethyst, has been given the thanks of the Colonial Office and the Governor-General of Canada for the arrangements made for the passage of his Excellency to and from British Columbia.

Mr. Simon Matthews, Chief Engineer, who has been for some time on half pay, has received permission to accept temporary service under the Italian Government. The leave of absence granted does not exceed twelve months, and is, we presume, subject to recall.

Lieutenant W. M. Carey, in command of the Conflict, has, we hear, made an interesting report on the pearl fisheries off the North-West Coast of Australia.

Lieutenant Richmond Powell, who has been studying at the Royal Naval College, has received permission to accept temporary employment under the Chinese Government, and will navigate a gunboat out to China.

Commander Cawley, R.N., on the Retired List, has been granted leave to go abroad, and we understand that he anticipates receiving employment under the Turkish Government. Commander Cawley obtained his commission as Lieutenant in 1845, became Commander in 1864, and is in receipt of a pension for wounds.

Captain Beamish has been enabled to resume the command of his ship, the Pallas, after his visit to England on sick leave. Consequently, Captain Fisher has been superseded in his temporary command, and continues on foreign leave of absence.

Commander Kane, though promoted from the position as "first" of the Volage, will not be superseded, as the Admiralty has decided to alter the complement of that vessel, and to allow her to bear a Commander in future.

The collier which ran into the Thunderer, and was considerably bruised in consequence, has been treated with some feeling by the Admiralty, for their Lordships have made no charge for allowing her to be docked at Portsmouth, nor have they asked for damages, though the paint-work of the iron monster was a trifle scratched.

A correspondent has called our attention to a paragraph which appeared on January 27 alluding to the number of officers now serving on board the Barracouta who left England in her. Our remarks should have applied to the date of her commission, and not from her leaving England under her present Captain, the only officers who have left the ship during that time being—one Lieutenant invalided, three Sub-Lieutenants promoted, one Paymaster invalided, one Engineer invalided, and one Gunner invalided.

There is some probability that the existing rule of requiring Paymasters and Assistant-Paymasters of the Navy to enter into a bond as security will be modified, if not altogether abolished. The cases of misappropriation of public money are so few that the burthen placed upon these officers may safely be removed without there being any cause for anxiety that the country will be a loser by the change. Many officials of the dockyards and departments have recently been relieved of the formality of procuring bondsmen to become responsible for their correctness, and it is not too much to expect that the same consideration may be extended to the Paymaster branch of the naval Service. We hope it may not be forgotten in the scheme for the improvement of the Assistant-Paymasters, which we presume must be forthcoming, that there will be no reason on the abolition of bonds for withholding these officers' commissions until they attain man's estate, but that they may very properly be placed on the same footing as Sub-Lieutenants.

Lieutenant Horatio Kemble, R.N., of the Minotaur, has been compelled to return to England invalided.

Orders have been given to Vice-Admiral Seymour to remain with the Channel Squadron at Lisbon until the Assistance arrives with supernumeraries. The squadron is then to proceed to Cadiz, where it will arrive in the early part of March, and will await further orders. The Training Brig Squadron, which has been attached to the flag of Admiral Seymour, will shortly receive directions to return to England.

The appointment of another Admiral in command of the French squadron on the West Coast of Africa may possibly bring matters there to a crisis. It is plain that the officer hitherto in charge has not done much else than to stand by and look on, while his fellow subjects have been declaring themselves prisoners and begging us to do nothing lest they lose their heads. It is said that the prisoners enjoy a very fair amount of freedom and are well known as frequent visitors on board the French ships. It has also been hinted that they might stay there if it so pleased them, but that having refused to take the warning we gave them as to the blockade they remained on shore too long and failed to move any of their property off to the ships. Now they know full well that if they deserted their goods their houses would be pillaged, and that they would have no trade left. So they stick to their houses as prisoners, looking forward to the day when one side will grow tired, the blockade will be raised, and business be conducted as usual.

Twenty candidates for appointment as naval medical officers have passed successfully, and have received commissions as Surgeons. They have not entered a day too soon, as officers of their rank have been rather scarce of late.

Rear-Admiral Phillimore, Superintendent of Naval Reserves, has gone afloat for a short tour of inspection of Naval Reserve batteries and Coast-guard stations.

The illness which caused Captain Radulphus Oldfield, C.B., to resign his last command has, we regret to learn, terminated fatally. Captain Oldfield would probably have attained flag rank in the course of another year. By his death an appointment as Naval Aide-de-Camp to the Queen becomes vacant.

In the course of next week the Emerald, composite screw corvette of 1,864 tons displacement and engines working up to 2,100 horse power, will be moved from Pembroke to Devonport to be prepared for commission. She was launched in August last, and has thus far cost about £80,000. Her engines are by Thomson, a name which cannot be said to be well known in the Service, but it is to be hoped that this "gem" will not be as troublesome in her machinery department as some of her sisters have been.

Captain William James Scudamore, whose death is reported, entered the Navy in 1804 on board the Agamemnon, and after serving off Cadiz in Sir Robert Calder's action and in the Channel served in the West Indies and Mediterranean. He was promoted to Lieutenant in 1812, and while afterwards attached to the Termagant, 20, on the South Coast of Spain, commanded her boats at the capture and destruction of several forts and at the taking of Almeria. He also had the good fortune to save several inhabitants of the town of Xavier from being massacred by the French. In 1813-14 he witnessed the capture of Via Reggio and Genoa. In 1814 he was employed in command of a gunboat off Gibraltar and Cadiz. He commanded the Providence, revenue crusier, from 1818 until promoted to Commander, January 1, 1852. He served as an Acting Inspecting Commander of the Coastguard, and was promoted to retired Captain on August 1, 1860.

Admiral Sir Augustus Clifford, who had been lying dangerously ill for some time past, died on Thursday night at his official residence at the House of Lords. He entered the Navy in 1808, and saw some severe service, particularly off the coast of Egypt in 1809, when he served in the boats against some French vessels, defended by strong batteries, in the Bay of Rosas. Afterwards he was appointed to command the Cephalus sloop, 18 guns, in which vessel he contributed to the destruction of ten large armed feluccas on the beach near Cetraro, in the Gulf of Policustro. He was subsequently actively employed on the Italian coast, and had some severe fighting with the enemy until he obtained his post rank in July, 1812, during which period he rendered many important services. He returned to England with dispatches from Lord William Bentinck. He subsequently was appointed to the Bonne Citoyenne and Euryalus, and in 1826 was appointed to the command of the Herald yacht to attend the late Duke of Devonshire on his extraordinary embassy to Russia. For some time, as Captain Clifford, he was employed in attendance on the Lord High Admiral, William IV. He had not been actively employed since 1831. For a short time Sir Augustus sat in Parliament, and in 1832 was appointed Gentleman Usher of the Black Rod, an office he has held ever since. He was created a baronet of the United Kingdom in 1838. Admiral Sir Augustus Clifford was the senior officer on the Retired List, his commission as Captain dating from July 28, 1812; Rear-Admiral, March 23, 1848; Vice-Admiral, September 27, 1855; and Admiral, November 7, 1860.

Since our announcement of last week that a squadron of Egyptian cruisers, under the command of Admiral M'Killop Pacha, was about to proceed to the Red Sea to inquire into and check the reported slave trade, further particulars have been received by the *Standard*, from which we learn that the force will consist of the corvette Latif, the sloop Sinai, an unarmed vessel called the Negluileh, which is intended to be the flag-ship, and another steamer now on her way from Berbera. In addition to their regular crews the vessels will embark some soldiers, together with a suitable staff of medical and Commissariat officers. The correspondent of the *Standard* says:—"Of the chief of the expedition, M'Killop Pacha, who enjoys a more than European reputation, it is unnecessary to say more than a few words. Though but little past the prime of life, he is a Captain of nearly twenty years' standing in the British Navy, where he earned a character for courage and ability, which in the service of the Khedive he has fully maintained. His energetic character is fully recognised by the present ruler of Egypt, who, whenever a task of more than usual difficulty presents itself, invariably offers the post of honour to the English Pacha. One instance of this was afforded at the time of M. Lesseps' Suez Canal demonstration, and others have since occurred in connection with the Abyssinian and Zanzibar Expeditions. Indeed, so influential is the position occupied by Captain M'Killop in the councils of the Khedive, that the mere fact of his being connected with the present expedition gives it an importance which it would not otherwise possess."

It seems probable that the present Session of Parliament will be a warm one for the Admiralty, and several members have already intimated their desire of having a few words with the head of that department. The first effort to bring naval questions before the House of Commons will be made by a member on Tuesday next, when a motion will be made for a Select Committee to inquire into the present system of the administration of the naval and maritime resources of the country, and also into the administrative arrangements made by the First Lord of the Admiralty to secure the efficiency of the naval Services, on which depend the safety of the empire. Then on "an early day" Mr. E. J. Reed will come forward to demand another committee to inquire whether and to what extent the numerous defects found to have existed in her Majesty's ships are due, and how far they depend upon the relation that exists between the officials in her Majesty's dockyards. On March 26 Mr. Seely brings forward his important resolution declaring that the administration of the Admiralty should be vested in a Secretary of State, and that the Controller of the Navy and Superintendents of Dockyards should be persons with practical knowledge. On these matters there will doubtless be some spirited discussion.

Major-General Primrose, C.S.I., has arranged to leave England in the course of a few days for India, to assume command of the Poona Division of the Bombay Army, to which he was lately appointed.

It will be a source of satisfaction to many of those immediately affected to know that the Horse Guards authorities have it in contemplation to extend to the senior Infantry regiments in Ireland the boon granted last summer in the case of the 2nd Battalion 2nd, 2nd Battalion 8th, and 100th, and that some of the battalions which have been longest in that country are noted for removal to English stations to complete their tours of home service. The arrangements made last year was most popular, and is likely to prove advantageous as well; so that we are glad to hear it is the intention to extend it.

The officers of the Commissariat and Transport Department are not unnaturally anxious with regard to their future, which appeared gloomy enough before the rumours of changes in organization reached their ears. It occasions us no little pleasure, therefore, to be able to afford them some slight consolation. The Secretary of State for War, we are assured, will be much too busy with other matters of greater importance this Session to be able to spare time—if even he had the inclination—to engage in a wholesale confiscation. Besides, the failures scored by his predecessor have been such as would cause him to think twice ere he listened to the suggestions which, report says, he has had submitted for his consideration. Mr. Hardy is not immaculate, but he is very friendly disposed towards the officers of the Army; above all things he is cautious, and will lend himself to no sweeping reorganization until he has assured himself that such reorganization will prove of lasting benefit.

We would caution our readers against placing too implicit reliance on the stories which are in circulation as regards an unfortunate occurrence in a regiment in Ireland. The principal actor has, we believe, adopted such measures as will happily render any public exposure unnecessary.

Whatever steps the War Office may deem it desirable to take, in order to ensure a flow of promotion, it is unlikely that Parliament will be appealed to in the form which has been generally suggested. A Royal Warrant has been used once before, and there is nothing to prevent one being made use of again.

The following promotions result from the death of Lieutenant-General W. R. A. Freeman, Madras Infantry, which occurred on the 7th inst., viz.—Major-General C. Prior, Bengal Infantry, to be Lieutenant-General, and Colonel S. B. Faddy, Bengal Infantry, to be Major-General.

A Committee, consisting of Major-Generals G. Erskine and R. Y. Shipley, C.B., and Brigadier-General the Hon. F. A. Thesiger, C.B., is now sitting at the Horse Guards to consider the best system of attack formation. The only one of these officers to whom exception can be taken is Major-General Shipley, who is known to have a strong crotchet. But why should the Committee sit at the Horse Guards? It would surely have been more convenient for it to have assembled at Aldershot, for it could then have subjected the different plans to a practical test, and without unnecessary delay being caused.

Lieutenant J. H. Barnard, C.M.G., 19th Regiment, has been appointed Private Secretary and Aide-de-Camp to Sir John Glover, G.C.M.G., R.N., Governor of Newfoundland. Lieutenant Barnard served with the 19th Regiment in the Hazara campaign of 1868, including the expedition against the tribes on the Black Mountain (medal with clasp). Served as a volunteer under Sir John Glover in the Ashantee war of 1873-74, led the advanced guard at the capture of Abogoo, commanded for five days a detached force of 650 men which captured Jaashi, and commanded a detachment of 150 men which drove the enemy out of their camps on the north bank of the Anoom (mentioned in dispatches for great discretion and judgment, and on two occasions for gallant conduct, C.M.G., medal with clasp).

Major H. S. Palmer, Royal Engineers, acts temporarily as Aide-de-Camp to Captain G. C. Strahan, C.M.G., Royal Artillery, Governor of Barbadoes.

Captain A. E. Pearse, 76th Regiment, has been appointed Captain-Instructor at the School of Musketry, vice Captain T. F. Pardoe, 22nd Regiment, appointed a Deputy-Assistant Adjutant-General for Musketry.

Captain A. R. Saville, 18th Royal Irish, Garrison Instructor at Shorncliffe, has been granted an extension of Staff service for twelve months from the 14th ultimo, and Captain H. G. MacGregor, 29th Regiment, on the Staff of the Home District, a similar extension from the 25th ultimo.

The establishment of the Brigade Depôt at Guildford having rendered the services of such an officer unnecessary, Brevet Major T. Gardiner, Superintending Officer of Recruiting, has been removed from that place to the Staff of the Home District.

Brevet Lieutenant-Colonel A. Wright, half pay, late 81st Regiment, has been appointed Acting Staff Officer of Pensioners at Hull.

The suggestion of Dr. Lawrence Hamilton, that something should be done to render more attractive than they are at present the wards of hospitals, is worthy of the attention of the military authorities. A very slight outlay on prints, &c., would do much to cheer up the patients, and gratuitous contributions of the articles required would, were an appeal made to officers, flow in abundantly. Illustrated papers particularly would be willingly given, and among the many artists who wear her Majesty's uniform some would assuredly be found ready to and capable of ornamenting the walls with frescoes were sanction given. Flowers and plants, also, could no doubt be obtained, and the tending of them would afford an amusing occupation to convalescents. At all events, the idea, however worked out, is too good to be pooh-poohed.

The Blue-book published on crime in the Army and Militia, on the motion of Mr. John Holms, though admittedly imperfect, affords undoubted proof that we are yearly obtaining a larger number of recruits from the criminal classes. The evil will never be checked as long as we are unable to require proof of satisfactory antecedents before we enlist a man. At present the supply of good men is so very much smaller than the demand that we are obliged to content ourselves with physical fitness, and altogether to ignore moral qualifications. Nor is it to be wondered at that such should be the case, seeing that a London policeman on first admission to the force is more highly remunerated than a Sergeant in the Army. As to the Militia, several recent injudicious changes have rendered that branch of the land forces very unpopular. Indeed, we fear that the Militia is altogether in an unsatisfactory state, and that were all the regiments simultaneously mustered, the number wanting to complete would be infinitely larger than the War Office suspect.

The Duke of Cambridge four months ago declared that the latest tactical regulations required amendment, and we are now told that a new field exercise will shortly appear. Surely we have spent sufficient time on experiments, and ought to have made up our minds as to what, under the existing conditions of warfare, which have not changed for several years past, is the best method of delivering and receiving an attack. At present we alone of all the nations of Europe are without a definite system of tactics. Till this defect be remedied we cannot be considered ready for the field; yet at any moment we may be required to take it. It is well to be cautious and to avoid precipitation in adopting changes, but this wholesome principle may be carried too far. An indispensable preliminary in the adoption of any system of tactics is a decision as to what the future organization of battalions is to be. Perhaps it is because a decision on this point is pending that we have not as yet got beyond drill and scrambling.

In the course of a year or two a gymnasium will have been provided at every station in the United Kingdom where bodies of troops are stationed. Within the last few years buildings for the purpose of gymnastic exercise will have been built at a cost of considerably over £20,000. Among them may be mentioned those at Athlone, which cost about £2,650; Buttevant, about £2,270; Cork, £1,992; Kinsale, £2,850; Limerick, £2,420; Mullingar, £2,850; Portland, £2,650; Templemore, £2,500; and Tipperary, £2,850.

Two of the Militia regiments recommended by the Localization Committee to have second battalions added were the Royal Cornwall and the Royal Wilts. At the time the Committee sat, the former had an establishment of twelve, the latter of ten companies. Since that, both regiments have been brought down to an establishment of eight companies, and now there is a talk of the separation of companies and formation into battalions being carried out this year. Two companies are, it is said, to be added, and it will be called an augmentation (?)

The *Pioneer* says that it is settled that in future of the two British regiments forming part of the garrison of Peshawur one will be quartered at some more healthy spot, not too far from the frontier. The precise locality of the new station has not yet been decided on, but we would suggest that in the hills at no great distance from Peshawur there is a spot to which weakly men have been for years sent up to live in camp during the hot weather. It would not do to leave the most important station in India insufficiently provided with troops.

It is satisfactory to be assured that proposals for the conversion of any more Militia regiments into Rifle corps will meet with strong opposition at the War Office. We have far too many Rifles already among the Auxiliary Forces, and should it ever be our bad fortune to have to meet the attack of an invading army, it must be evident to all that serious difficulties would arise by reason of the predominance of the green tunic. Any measures, therefore, taken to reduce the number of Rifle regiments, either in the Militia or Volunteers, should meet with the most hearty co-operation. It has been contended that seventeen years ago, when the Volunteers came into existence, everybody was in favour of the adoption of black or grey tunics, and that there is inconsistency in a cry now being raised for scarlet in substitution of the once popular tints. Now, no argument could be more remarkable for the absence of reason. Black and grey twenty years ago were unquestionably the colours most suited to Volunteers. But events have occurred since 1860 which prove beyond doubt that the time has arrived for an organic change. Departments have been organised within the last few years in connection with the armies of leading military Powers, the special duties of the Staffs of which it is to keep themselves posted in every detail in respect to the forces of neighbouring States. Is it to be supposed for a moment that the Intelligence Bureau at Berlin is unaware of the fact that we have included in the home garrisons only four battalions of Regular Rifles—two of the 60th and two of the Rifle Brigade? Yet, if this is known, it is plain we are simply playing into the hands of those who, for aught we know, may one day be our enemies, by permitting half the force available for defence to be clothed in such a manner as to render the peculiarities of their service discernible at a distance of miles. To be of value, Auxiliaries should be dressed as like Regular troops as possible, and anything more suicidal than a policy allowing of such a diversity of opinion as that now unfortunately existing among the officers of one branch of the Auxiliaries it is impossible to conceive. These remarks refer principally to regiments wearing the black tunic, as for those in grey there is no single argument which can be used in their favour; indeed, dressed as they are at present, we doubt whether a General would not be very much better without than with them in face of an enemy.

ASSISTANT-PAYMASTERS, R.N.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—Will you kindly, on behalf of my class and brother officers, give the following space in your paper, in the hope that some person or persons in authority, and interested in the welfare of naval officers, may take the matter up with spirit, and use his or their interests in ameliorating the condition of a much-neglected and deserving body? I am an assistant-paymaster of over four years' standing, and my prospects are as I shall state hereafter without any exaggeration. I joined the Service when it was considered by experienced officers that eight years as a commissioned subordinate officer would see me promoted to the rank of paymaster. What a blight has since fallen on all my hopes, as easily seen by a glance at the "Navy List!" I will now show how utterly changed is my future. Their Lordships have considered it expedient for the requirements of the Service to reduce the establishment of paymasters by one hundred, and the probationary time (for it was considered such) to qualify young officers for the responsible appointment as paymaster has increased to over 13 years; nor is this the limit, for any thoughful person looking at the List must see that at the present rate of promotion some of the younger A. P.'s will be over 20 years, even if then promoted, as those being advanced to the position of paymaster are between 34 and 35 years of age, and will not be compelled to retire until 60. I shall then have to wait some 20 or 25 years for their vacancies, working on a pittance, without a cabin, in a position never altering, equal to a sub-lieutenant of 19 years of age; and should I marry and die in the Service, my wife would not be granted, even after that amount of service according to the present regulations, the same boon as the wives of other officers holding the same relative rank, or warrant officers, or the gratuity even granted to the wives of seamen. Moreover, have I any guarantee that on becoming 45 years of age, and not being promoted, their Lordships will not serve me in the same manner as lieutenants, and compel me to retire on the maximum present retirement of assistant-paymaster—namely, 6s per diem, when, after 30 years' sea service, I should be nearly incapable of obtaining employ on shore? Of course, not having entered into an engagement binding to myself and the Admiralty for a given number of years' service at a given salary, and promotion at a certain time, I have no redress, and the only course I can adopt is to supplicate the public on my behalf. If it would not be out of place, I would make a few suggestions which would, at only a trifling increase in the expense of the Navy, tend greatly to make the A. P.'s less discontented than they very reasonably are now. 1. Allow them the privilege of wearing another stripe, to assimilate their uniform with other officers of a like term of service on joining the ward-room mess. 2. Grant them the 9s. per diem on becoming entitled to the ward-room mess, as at present officers who have no friendly aid from home and a clamouring outfitter, find it impossible to join the mess, owing to their impecuniosity. 3. Permit the pay after 10 years' service as an assistant-paymaster to increase until a maximum of 12s. is reached. This would be a slight return for keeping them in a miserable position an unreasonable length of time. 4. To become entitled to cabins on joining the ward-room; he will be then probably older than a third, at least, of his new messmates; for it may well be imagined that when he sees, as the senior assistant-paymasters do, youngsters who come to sea from the Britannia when he was a commissioned officer, and surgeons and naval instructors junior to himself in age becoming entitled and enjoying this greatest of all boons on board ship—a place he can call his own, where he may find peace and quiet—he finds it galling to have still but his chest and hammock to call his own, and to be surrounded whilst washing, even, and dressing, as is often the case, by the crew washing the decks. 5. Their wives to become entitled to a widow's pension if they have served as commissioned officers over ten years, the same as other officers of a like standing. No one can say that these improvements, if carried out, would be more than just.—Yours, &c.,

HOPE DEFERRED.

China, December 15th, 1876.

The retirement from the purchase regiments of the Army, which at the latter end of 1876 had fallen to a very low ebb, became more numerous last month, and we understand that many of the senior regimental officers in the Cavalry and Infantry are leaving altogether or taking half pay. During January three lieutenant-colonels (one under the five years' rule), one major, and ten captains were gazetted out, giving so many steps in their respective regiments. Another lieutenant-colonel, Hamilton Smith, of the 80th, has fallen under the five years' rule, and another, Jerome, of the 86th, will become amenable to it on March 6. In addition to these two officers, Colonels Crompton-Stansfield, of the 2nd Batn. 11th, Bowles, of the 37th, Elkington, of the 2nd Batn. 6th, and Webb, of the 2nd Batn. 8th, are going on half pay, as well as some of the senior Cavalrymen. It is believed that the fact of so many retirements just now arises from uncertainty as to the intentions of the Government with regard to the adoption of the scheme of retirement recommended by the Royal Commission over which Lord Penzance presided, but it is to be remarked that, speaking generally, existing lieut.-cols. do not obtain better terms under the programme of that commission than under the regulations now in force.—*Times.*

At the last meeting of the Governors of the Drummond Institution for the orphan daughters of soldiers, the following subscriptions were acknowledged, viz.:—Gen. the Right Hon. Sir J. Michel, G.C.B., £5; Major-Gen. Wardlaw, £1; Lieut. Clarke, 7th Foot, £1 1s.; Col. the Hon. H. Crichton, 10th Hussars, £2 2s.; Lieut.-Gen. Sir R. Wilbraham, £1 1s.; Gen. Napier, £1; Col. A. F. Peyton, £1; Major-Gen. J. Hort, £1 1s.; Mrs. Jackson, £1; Col. T. Thornton, 10s. 6d.; Col. Crealock, £25; Capt. Terrot, 63rd Foot, £1 1s.; Mrs. Domville, for 1876 and 1877, £2 2s.; Royal Engineers Charitable Fund, for maintenance of Alice Henderson, £14; Col. Wynyard, subscription for 1876, £2; G. Burns, Esq., £3; Messrs. G. F. Brook and Son, £2; H. Brennen, Esq., £1; A. Thom, Esq., £2, and also for following sums, which were standing to creditors in Munster Bank—1866, Lord-Lieutenant, £3 15s.; 1866, H. S., £1; 1868, Nemo, £5; 1870, S. Hutchinson, Esq., £2; 1871, ditto, £3; 1871, ditto, £3; 1872, ditto, £3; 1873, ditto, £2; 1874, ditto, £2; 1875, ditto, £2. The Governors admitted, conditionally, Elizabeth, daughter of late Sergt. W. Johnston, 1st Batn. Rifle Brigade (she being a total orphan), also Emma Grace, daughter of the late Qrmr. Sergt. W. Walton, 43rd Foot. This will leave forty-nine girls in the institution.

The Army.

2ND LIFE GUARDS. Col. Stewart and the officers entertained Lieut.-Gen. H.R.H. Prince Christian and a large party at dinner at Windsor on Saturday evening last.

5TH DRAGOON GUARDS. Although Major Marsland obtains the command, the regiment is to be disappointed of the further steps, as an outsider has been named for the majority.

1ST (ROYAL) DRAGOONS. Capt. Worthington has withdrawn his application to retire, and exchanges to Infantry.

3RD HUSSARS. Col. (Brig.-Gen.) Howard-Vyse, commanding the Scinde District, who recently had symptoms of paralysis, was, we are glad to learn, much better when the mail left India, and was on the point of leaving for Upper Scinde on his annual tour of inspection. Private Chillock, who shot his wife dead on New Year's Day at Mhow, was not to be handed over to the civil powers for trial, but was to be tried by a general court-martial, which will shortly be convened at Mhow.

9TH LANCERS. The *Irish Times* says, "The numerous friends in Ireland of Lieut. Lord William Beresford, 9th Lancers, will be glad to learn that he is to be promoted to the troop left vacant by the death of Capt. Clayton. His lordship, who joined the Army June 8, 1867, is at present employed as aide-de-camp to Lord Lytton, the Governor-General of India, an appointment he assumed in April last."

15TH HUSSARS. We regret to learn that Lieut. Middleton fell from his horse and broke his leg while hunting near Delhi on the 6th ultimo.

ROYAL ARTILLERY.

The following officers of brigades in India have completed the long course at the School of Gunnery at Shoeburyness, which commenced Jan. 1, 1876, and terminated Dec. 31, viz:—Capts. G. J. Gillies, C. F. Dixon, J. F. Free, E. D. Shafto, F. E. B. Loraine, B. L. Tolner, and A. J. Pearson; Lieuts. F. H. French, E. Buckle, J. W. Yerburg, C. Russell, and E. M. Baker. The following form the class which has arrived from India to undergo the course, viz.:—Capts. O. F. Le Mottée, L. W. Taylor, J. F. Micklejohn, W. H. Wright, W. H. Hemans, and R. Corbett, and Lieuts. F. M. Robinson, J. P. Freeth, G. B. N. Martin, D. M. Waterfield, F. E. Water, and G. R. Price.

Lieut.-Col. A. H. Dawson, 6th Brig. (late Madras), has been assigned local rank as col. in India, with effect from Dec. 12 last; Major P. C. Anderson, 11th Brig. (late Bengal), as lieut.-col., with effect from Dec. 9; and Lieut. A. F. Fletcher, as capt., with effect from Dec. 16.

Vet.-Surg. J. B. W. Skoulding, F Brig. R.H.A., has been ordered to remain at Rawul Pindee, on the expiration of his leave of absence on medical certificate, for duty at that station.

Vet.-Surg. H. Thomson (doing duty with F Bat. 19th Brig.) has been directed to proceed from Cawnpore to Allahabad for duty with E Bat. 11th Brig.

Paymr. Capt. H. W. Feilden, who served as naturalist with the Arctic Expedition, has been appointed to the 1st Brig., and will join at Aldershot, on transfer from the 4th.

Capt. T. B. Tyler, from the 4th Brig., has been selected for appointment to the riding establishment at Woolwich, vice Capt. G. Best, appointed to D Brig. R.H.A.

Referring to the Artillery Brigade at Delhi, the *Times of India* says:—"Let us not forget the celebrated artillery which thundered forth its salutes from both flanks. There was the No. 7 Bat. of the 21st Brig. of the Royal Artillery. The men who this morning were sending forth from their guns the thunder of an Imperial salute know well that their predecessors fought, and fighting fell, in the wars with the French on the Continent of America, and that they showed the daring of the true British artillerymen at the capture of Quebec by General Wolfe. This company, too, enjoys the proud distinction of having been one of the five companies selected to represent the artillery at the siege of Gibraltar, and for its conduct there received several marks of official approbation. A half-company was with Abercrombie at the battle of Alexandria, and those who were with him had conferred upon them the privilege of wearing on the cap a sphinx and the word 'Egypt,' a privilege which died with the wearers. There again and again the salute is continued by the Bengal Horse Artillery, a troop formed from the Galloper guns raised at different periods between 1756 and 1800. To this regiment belongs the proud distinction of having originated Horse Artillery. The Bengal Horse Artillery was established in 1756; an example followed three years afterwards by Frederick the Great, who was the first to use them in actual war. It was said by Akbar Khan, chief of the Afghans, that had all the British fought like the 'red men' (an allusion to the red-flowing manes on the helmets of the troop) they would never have been driven from Cabul. The 'red men' have been true to their traditions, as Lucknow, Cawnpore, and Delhi can show. The Victoria Cross decorated one of its gunners and a rough rider for gallantry at the first place, and its appointments show 'Sphinx,' 'Egypt,' 'Bhurtpore' and 'Ava' as testimony of service rendered."

ROYAL ENGINEERS.

Capt. G. F. O. Boughey has been assigned local rank as capt. in India, with effect from June 25, 1874, and Lieut. A. Adwdry from Dec. 9.

1ST OR ROYAL SCOTS. Lieut. Smith is to be appointed instructor of musketry to the 2nd Batn., vice Kennedy, promoted.

4TH KING'S OWN. The Curragh correspondent of the *Irish Times* says:—"Intelligence has been received of the death of Surg.-Major Power, 2nd Batn., at Mannheim, in Germany, on Jan. 25. The officers of the garrison of Mannheim and the officers and soldiers of the 2nd Grenadier Regt. paid the last honours to the deceased officer, and informed the colonel of the 4th 'that the 2nd Grenadier Regt. would take the place of their distant comrades of the 4th English Regt., and follow the remains of their brother officer to the grave.'"

6TH REGIMENT. Col. Elkington, 2nd Batn., is mentioned as being on the point of retirement upon half pay.

8TH KING'S. The *Times* states that Lieut.-Col. Webb, 2nd Batn., is retiring.

11TH REGIMENT. The Aldershot correspondent of the *Morning Post* writes:—"The 2nd Batn. 11th Regt., strength about 26 officers, 50 sergeants, and 640 rank and file, left the camp this (Thursday) morning to embark in H.M.S. Serapis for conveyance to India. The following officers embarked with the battalion:—Major M'Causland (in command), Capts. Smyth, Vaughan, Street, Gibbons, Kemble, and Marriott; Lieuts. Kinder (adjt.), Vaughan, Yule, Coppinger, Lang, Yorke, Kelsall, Noon, Braithwaite, Harries, and Peters; Sub-Lieuts. Barton, Briggs, Stanley, Davies, and Cruise; Paymr. (major) Robinson, and Surg. Purefoy, M.D."

17TH REGIMENT. Lieut. Creasy, 1st Batn., has been granted leave from India to England on medical certificate. Lieut. Passy, 2nd Batn., has passed the lower standard examination in Hindostanee.

18TH ROYAL IRISH. Lieut. Simpson, a probationer, officiating adjutant of the Governor of Madras' Body Guard, is about to be admitted to the Madras S.C., with effect from Nov. 18, 1875.

37TH REGIMENT. Col. Bowles is said to be retiring upon half pay.

48TH REGIMENT. Major Trent has been assigned local rank as lieut.-col. in India, with effect from Sept. 18, 1875.

ROYAL MARINES.

Leave of absence has been granted the following officers, viz.:—Capt. R. Woollcombe, fourteen days in extension; Lieut. and Assist. Gunnery Instr. A. Allen, six weeks; Lieuts. H. W. Colvin, one month; W. T. Adair, fourteen days in extension; A. Brine, one month; Capts. St. A. St. John, one month in extension; and W. R. Triscott, one month.

The following gentlemen have been appointed (1st instant) to be lieutenants in the Corps of Royal Marines, viz.:—Lieut. H. B. Colvin, Chatham Division, and A. Brine, Portsmouth.

55TH REGIMENT. Lieut. MacMahon, a probationer, second wing subaltern 3rd Bombay N.I., is about to be admitted to the Bombay S.C., with effect from Dec. 20.

56TH REGIMENT had been ordered into camp at Kurrachee owing to an outbreak of cholera, and the move to Aden had been temporarily countermanded. The medal given to the most deserving soldier on the occasion of her Majesty assuming the title of Empress of India was awarded to Sergt.-Major R. Mann. This old "Pompadour" has served her Majesty for over a quarter of a century, and is about leaving to draw his pension, accompanied by the respect and best wishes of his fellow sergeants. On New Year's night the sergeants held their annual dinner in their mess-room. After the usual toasts, Qrmr.-Sergt. Robinson, in the name of the sergeants, presented the sergt.-major with a beautiful silver tea service in cutch work as a mark of esteem.

59TH REGIMENT. Brevet Major Lawson has been assigned local rank as lieut.-col. in India, with effect from Dec. 13 last.

62ND REGIMENT. A sad affair took place in the fort at Delhi on the 7th ult. The *Civil and Military Gazette* correspondent at Delhi states that "the hour when the crime was committed was that of tattoo; the men were assembling to answer their names; the man Ryley was left in the tent with one comrade, who was lying in his bed. Ryley blew out the lamp, loaded his rifle, went up to the man in bed, and shot him through the neck; he then reloaded and awaited the approach of his comrades. Of course, the report of the rifle brought some of the men to the tent. Two entered; the foremost was shot through the body and fell. A third shot was fired at the second intruder, who, however, was missed, and before the murderer could reload was successful in seizing the man and preventing further mischief. The man gives no reason for the murderous act, and seems to be utterly indifferent to his fate." Lieut. Williams has been appointed interpreter, vice Dennis, deceased—the appointment taking effect from Nov. 27, 1876.

70TH REGIMENT. Lieut. Freeman has been granted leave from India to England, on medical certificate.

77TH REGIMENT is to be moved at the end of the month from Cork to Newry, to replace the 94th.

80TH REGIMENT. Col. Smith is about to be placed upon half pay, under the provisions of the five years' tenure clause.

81ST REGIMENT. Lieut. Birdwood is a candidate for the Indian S.C., and has been appointed second wing subaltern of the 3rd Bombay N.I. on probation.

83RD REGIMENT. Writing from Deesa on the 5th ult., a correspondent says:—"The regiment on its way to Mandvie was, I am given to understand, splendidly treated to a feast at Radhanpore by his Highness the Nawab, in honour of the Queen's assumption of the Imperial title. The whole town was lighted, and the day was observed as a holiday by the people. The parading of the regiment and the playing of the band were sights the people had never witnessed before. In fact, some of the people—a greater portion—must never in their life have seen a British soldier, nor heard a single note of English music."

85TH LIGHT INFANTRY. Sub-Lieut. Sadler is retiring from the Service.

88TH CONNAUGHT RANGERS. Surg.-Major Heath is about to retire on half pay, the state of his health preventing his proceeding to India.

89TH PRINCESS VICTORIA'S. Capt. Harvest has been noted for appointment to a Militia adjutancy.

94TH REGIMENT. The regiment, the *Irish Times* states, will be removed from Newry to Fleetwood on the 22nd inst. Capt. Farrer has received instructions to attend before a board of officers in the Belfast District for the usual examination, with a view to his appointment to the adjutancy of the 1st Administrative Batn. Galloway Rifle Volunteers. Lieut. Grubb is retiring.

102ND FUSILIERS. We (*Irish Times*) hear that the appointment of garrison-instructor at Dublin is about to become vacant through the promotion of the present occupant, Capt. Duncan.

RIFLE BRIGADE. Capt. C. D. Broadbent, 4th Batn., died at Umballa on the 8th ultimo. The deceased entered the Army Nov. 30, 1855; became lieut., Nov. 19, 1858; and capt., Jan. 13, 1869. He served in the Indian campaign of 1857-58, including the siege and capture of Lucknow, battle of Koorsee and Nawab Gunge, and siege of Birwah (medal with clasp).

2ND WEST INDIA REGIMENT. Telegraphic intelligence has been received of the arrival of H.M.S. Simoom at Barbadoes on Sunday, the 21st ultimo, with the greater portion of the 2nd West India Regiment on board. She left again on the 26th for the West Coast of Africa, where she exchanges the 2nd for the 1st West India Regiment. Lieut.-Col. Webber, C.B., assumes command of the troops on the West Coast of Africa.

19th Brigade Depôt (Lichfield). Col. Manningham-Buller has been appointed to the command, vice Col. Peyton, appointed to the command at Shorncliffe.

34th Brigade Depôt (Exeter). The command, vacant by the promotion of Col. Hamilton, has been filled by the transfer of Col. Drewe, from Brecon.

Commissariat Department. Comy.-Gen. Robertson, C.B., has left Dublin on leave of absence. During his absence, Depty. Comy.-Gen. Crookshank, C.B., has assumed charge of the Commissariat Department and command of the Army Service Corps in Ireland, and Assist. Comy.-Gen. Hall will take charge of the commissariat duties of the Dublin district.

Medical Department. The *Medical Press and Circular* says:—"It is believed that of the total number of schedules applied for only twenty-four have been returned by intending candidates, and as fifty vacancies are offered for competition on the 12th inst., this result may be accepted as a complete failure. There will no doubt now be some mutual recrimination between the unificationists and the proposers of the short service scheme, each attributing to the other the source of the collapse. The former are, however, somewhat handicapped in the discussion by the fact that an examination had already failed to attract competitors before short service was adopted. It is a pity that the opinion of some ordinary executive medical officer of average intelligence is not asked, since the remedy is simple and economical enough, and perfectly obvious to any one unbiassed by preconceived theories."

THE AUXILIARY FORCES.

MILITIA.

1st Derby. After twenty-three years' service in command, Col. Coke has accepted the honorary colonelcy, and is to be succeeded as lieut.-col. by Major and Hon. Lieut.-Col. Mosley. Col. Mosley joined the regiment as major Sept. 16, 1852. He served with the 60th Rifles in Kaffirland in 1851-52, and was present in the operations in the Waterkloof in October, and passage of the Kei with Col. Eyre's column Dec. 4, 1851 (medal).

Huntingdon Rifles. Major H. G. Rooper, adjt. on the Retired List, was on Saturday elected chief constable of Huntingdonshire out of sixty-six candidates. The salary is £250 per annum, with £70 for expenses. Major Rooper was appointed adjt. Feb. 28, 1860, and retired last year. He served previously in the 85th Foot, which he left as capt.

Leicester. The majority vacant by Major Mowbray's retirement will, it is believed, be filled by the promotion of Capt. Pearson. Capt. Pearson served with the 95th Regt. in the Indian Mutiny campaign of 1858, including the siege and capture of Kotah, battle of Kota Ka Serai, general action resulting in the capture of Gwalior, siege and capture of Prowre. Acted as assist. field engineer, and mentioned in dispatches (medal with clasp).

2nd Royal Surrey. The records of the regiment, upon which Capt. Davis has been for three years engaged, will be in the hands of the booksellers on Monday. The publishers are Messrs. Marcus Ward, of Chandos-street.

South Wales Borderers. The permanent Staff, &c., of the Radnor Rifles, lately incorporated with the Brecon Rifles as the "South Wales Borderers," is vacating Presteigr for Brecon, which has been selected as the head-quarters of the regiment.

Royal Antrim Rifles. Capt. and Adjt. Hickman, of the Royal Monmouth Militia, has received directions to join at Antrim, to assume the duties of adjt. on the Monmouth regiment being converted into an Engineer corps.

North Cork Rifles. A report to the effect that the regiment will be trained at Mallow this year has occasioned great satisfaction in the neighbourhood.

Royal North Down Rifles. The regiment will train this year at the Curragh, much annoyance being occasioned in Newtownards in consequence.

Galway. Major Daly is named for the lieutenant-colonelcy, in succession to Lieut.-Col. the Earl of Clancarty, appointed honorary colonel. Major Daly has served for close upon twenty-five years in the regiment, and was embodied with it.

It is intended to reopen the school of instruction at Dublin on the 26th inst., provided a sufficient number of candidates come forward.

The following statement of facts may be taken as representing the case of the Militia surgeons, who, by the "clauses of a Royal Warrant, dated War Office, July 19, 1876," and the "instructions of the Secretary of State for War" thereon, are deprived of the larger proportion of the incomes derived from their appointments:—1. That they hold their commissions under an Act of Parliament. 2. That they were compelled originally to reside at the head-quarters of their regiments for certain purposes, viz., attending Staff and families, attending adjutant on recruiting service, and examining recruits at head-quarters. To these were added the examination of recruits for Line and Marines. For all these duties allowances are provided under the Act. Although in certain cases the restriction as to residence was withdrawn, believing that the emoluments of the appointment would remain intact, most of the surgeons continued to reside at head-quarters. 3. That for the performance of the above duties the pay and allowances vary, according to the size of the regiment and the means adopted for obtaining recruits, from £150 to £300 per annum. 4. For the above income, in addition to the duties detailed, the Militia surgeon held himself liable to be embodied with his regiment, sent hundreds of miles away from home, or to be sent annually to camp or manœuvres, to the detriment or entire loss of any private practice he might have. By the establishment of the Brigade Depôts, by the terms of the new Warrant, and the orders which have been issued with regard to recruiting in general, all the before-named sources of income particularised are withdrawn, and, in addition, by handing over the medical charge of the Militia recruits during their preliminary drill to the surgeon of the depôt, the regimental surgeon is deprived of a very large number of days' pay, and actually reduced to only twenty-seven days' pay during the year. For these twenty-seven days he is to receive an increase of pay of half-a-crown per diem, amounting to £3 7s. 6d., and this sum is to be received as a set-off against in many cases an actual loss of £200 per annum. This increase becomes reduced to *nil*, the fees from other sources, such as examination of recruits for the Line, &c., having been withdrawn. For this twenty-seven days' pay what are Militia surgeons asked to do under the new Warrant? To subject themselves to the risk of embodiment, to render themselves liable to be sent to camp, severed from home and practice, if any, for months or even years (this has happened twice during the last twenty-two years), and then to return without any claim for losses sustained or services rendered to head-quarters to make a fresh start in life. These are facts, and the actual requirements of the new Warrant for twenty-seven days' old pay, plus £3 7s. 6d., are identically the same as those under the Act by which a Militia surgeon has enjoyed an annual income of from £150 to £300—an income hitherto assured to him, and which he believed he would enjoy as long as he was physically fit and willing to perform all the duties required of him. There are men of over twenty years' service who have served during two lengthened periods of embodiment, who are sent annually to camp for training, and who have attended every annual muster; others whose opportunities for private practice have been blasted because they belonged to the public service, and who have been pronounced disqualified to hold civil public appointments for the same reason. For the sum of £40 per annum (minus mess and other incidental expenses) Militia surgeons are now asked to subject themselves to all the foregoing requirements of the Service, and, when they attain the age of sixty, are to be compelled to retire without pay or pension. So hardly have the new regulations already pressed upon some that they have had to break up their homes and seek for fresh openings for practice. Are Militia surgeons really in such a position that nearly the whole of their income can be taken from them without a word of compensation, and placed in a position worse than the lowest of civil servants? That they are deprived of a large proportion of their income under the terms of the new Warrant is allowed; that "cases of hardship will be fairly considered" has been promised by both Lord Cardwell and Mr. Hardy; but, in contradiction of a statement made by Mr. Hardy in the House of Commons, Aug. 7, 1876, in answer to Dr. Lyon Playfair, "that until Dec. 31 he could not form any definite opinion or give any pledge as to compensation," he distinctly refuses, in a letter dated Nov. 15, 1876, and emanating from the Financial Office, War Office, to bring forward a vote for compensation—treating the question collectively, and not individually—in the face of the numerous promises made by himself, Sir J. Pakington, and Lord Cardwell, that each case would be carefully considered on its own merits. The case is a narrow one, viz.—that, under the Act, Militia surgeons are entitled to certain advantages; that, by a Royal Warrant and War Office regulations, it is sought to deprive them of these, denying to them at the same time compensation for actual loss, such loss being admitted by the authorities and proved by returns of income from many of the surgeons in the Service to vary from £100 to £250 per annum. Taken upon an average of the last three years, of eighty returns already received, four are receiving £100 and under, thirteen from £100 to £150, thirty-eight from £150 to £200, thirteen from £200 to £250, eleven from £250 to £300, and one of over £300. Should the new regulations be carried out, £40 per annum will be the future income of the Militia surgeon, should allowances for lodging, messing, &c., be still continued to him. From the above returns the loss may easily be seen, and the Government actuaries could soon settle the question of compensation.

YEOMANRY.

The Secretary of State for War has issued a special Circular, in which he directs that every non-commissioned officer and private of the Yeomanry Cavalry must in future either ride his own horse, or one borrowed from some relative, friend, or employer, who shall engage, to the satisfaction of the commanding officer of the troop, that the horse shall be provided for the Yeoman's use whenever required. From April 1, 1877, no pay, contingent, or other allowances will be admitted for any Yeoman who does not fulfil these conditions, excepting in the case of men whose horses may have fallen sick immediately before, or during the time for which they may be required, such men being allowed, with authority of the officer commanding, to hire horses for the occasion. Horses may be hired for the use of the band, and the expense charged, in this case, but in no other, against the contingent fund of the regiment.

VOLUNTEERS.

10th Kent Artillery (Royal Arsenal). Lieut.-Col. Hozier, late capt. 3rd Dragoon Guards, having been appointed to the command, entertained the officers and men, to the number of more than 300, at a dinner in the Woolwich Skating Rink on Saturday evening. In proposing the toast of "The Honorary Staff," Lieut.-Col. Hozier said that their honorary colonel, Gen. Sir John Adye, had stood up for the Royal Arsenal against the world, and that it was in a great measure due to him that work was done in the Arsenal instead of being sent to private firms, the Government having been convinced that, having good workmen, unlimited resources, and no cash profit to look for, they ought to be able to compete successfully with the contractors. Sir John Adye had also warmly espoused the Woolwich system of gun construction against all the systems of the Continent, and against much opposition; and the result was that Great Britain had the finest artillery in the world. Capt. M'Caul proposed "The Health of Lieut.-Col. Hozier," and congratulated the corps on having a commander of a name so distinguished, and with a personal experience embracing all the principal battles of recent times.

7th Essex Rifles. Her Majesty has been pleased to approve of the disbandment of the company which has its head-quarters at Rochford, and to accept the resignation of the commissions held by the officers of the corps.

Galloway Rifles. Capt. H. Farrer is about to be appointed adjt.

Lord Ranelagh, Cols. Howard Vincent, Wilkinson, Vickers, Laurie, and Howard, and Major Edes, the officers appointed at the meeting last week to ascertain the most desirable site for the Volunteer Review next Easter Monday, have decided to recommend a piece of ground near Dunstable as the scene of operations.

According to the *Times*, the 81-ton gun will shortly be removed to Woolwich to be rechambered Immediately after this change some rounds will be fired from it before the fractured inner lining is removed.

THE INDIAN ARMY.

6th Bengal Cavalry. Lieut. C. W. Muir, who has been extra aide-de-camp to the Viceroy during the Imperial Assemblage, has been appointed to the adjutancy of the Body Guard in place of Capt. Dean, who goes to the Military Department of the Government of India as assistant secretary.

40th Bengal N.I. A correspondent writes:—"There is a strange rumour that a panic had seized the Europeans at Saugor in consequence of the report that the 40th Native Infantry, stationed there, were about to mutiny. Secret meetings of the sepoys were detected, and it was well known that they had sent away their wives and children. In consequence of these suspicious circumstances the troops were held in readiness to turn out at a moment's notice, night pickets were posted, and two alarm guns kept loaded for an emergency. By some mistake the latter were fired off without sufficient occasion. The most curious part, however, of the report is the 'explanation,' which, of course, is meant to allay the fears of those who might be the victims while giving time to the authorities to consider the matter after their own fashion. It is said that the sepoys in question have sent away their wives and children solely through scarcity of water, and that the 'secret meetings' were held for the purpose of making arrangements for bringing water for their own use from a distance. These explanations are, it must be owned, so absurd as to give the public a very unfavourable impression of the intelligence of the authorities who put them forward. No explanation would have been better than an explanation of so puerile a description. The matter may blow over, but, at the same time, it is clear enough that such suspicious circumstances and such precautions against an outbreak point to something more than a mere question of water supply to an exceptional regiment. On referring to 'Hart's Army List' for the present month, I find that the 40th Bengal Native Infantry is at present stationed at Garuckpore, where it arrived from Ferozepore. The 40th Madras Native Infantry is at Secunderabad, where it has been stationed since the beginning of 1873. There is no 40th Bombay Native Infantry."

1st Goorkas. Surg.-Major C. F. Oldham, officiating in medical charge, has been confirmed in the appointment, vice Carter, permitted to resign.

26th Madras N.I. The *Madras Times* says:—"The sudden illness and death at Trevandrum, on the 6th inst. (Jan.), of Lieut.-Col. R. Tait, second in command, at Quilon, who was on a visit at the Residency, Trevandrum, with many others who had been invited to take part in the Durbar and general rejoicings, threw a gloom over the whole station. Col. Tait was well beloved no less by his regiment than by all who had the pleasure of his acquaintance, and his very untimely and sudden death is deeply deplored by all who knew him; he was only forty years of age. He was out paying visits with a brother officer on the morning of Jan. 4, was suddenly seized with partial paralysis in the carriage on his way home, and was taken, in passing, into the house of Dr. Houston, the Durbar physician, where he received the most devoted and unremitting attention from Drs. Houston and Fry and his brother officers till the morning of the 6th, when he expired about 10 a.m., having never rallied, nor even recovered his consciousness. He was buried on the following morning at 7 o'clock, with all the military honours due to his rank, which were rendered by the Nair Brigade, with their band, under Majors Davidson and Thompson, and the Resident's escort from the 26th Regt., at Quilon."

38th Madras N.I. Major J. Litterdale, wing officer, has been granted leave to Europe for one year and four months.

3rd Bombay N.I. Lieut. W. S. Birdwood, 81st Foot, having become a candidate for the Indian S.C., has been appointed second wing subaltern.

INDIA.

The Commander-in-Chief in India has directed the republication of the following General Order by his Excellency the Commander-in-Chief, Bombay Army, No. 38, dated Jan. 22, 1876:—With the saction of Government, the Commander-in-Chief is pleased to notify that an officers' sanitarium is to be established at Colaba, and the following rules are laid down for the management of the institution: The sanitarium is to form a component part of the Colaba depôt, and is to be under the immediate control of the commandant. The medical officer of the Colaba depôt is to be *ex-officio* the medical officer in charge of the officers' sanitarium, for the medical management of which he will be held responsible. The sanitarium is to accommodate seven sick officers and one personal servant per officer, a margin being allowed for exceptional cases. A subordinate medical establishment of one dresser, one sweeper, and a house establishment of one butler or mess-man, one cook, two hamals will be allowed when deemed necessary. To meet the cost of this establishment monthly rent at the following rates will be charged—Field officers, 40 rupees; captains, 30 rupees; and subalterns, 20 rupees. Application for admission is to be made at least one week before arrival in Bombay, direct to the commandant Colaba sanitarium, who will inform the applicant at once whether or not he can be accommodated. In the event of accommodation being available, the sick officer is to proceed direct to the sanitarium, reporting himself on arrival to the commandant and to the medical officer for immediate medical treatment. Officers while resident in the sanitarium will be required strictly to conform to such rules and regulations as may be laid down from time to time for the proper management of the institution. No patient suffering from any form of mental aberration is to be admitted to the sanitarium, and residence is to be restricted to one month; except in special cases when the medical officer certifies that a longer stay is indispensably necessary, and in such cases the medical certificate is to be renewed weekly.

Major-Gen. J. A. Ewart, C.B., mentioned recently by the *Times* as likely to be selected, has been appointed to the command of the Division of the Bengal Army about to be vacated by Major-Gen. A. Macdonnell, C.B. Gen. Ewart served throughout the Eastern campaign of 1854-55; present with the 93rd Highlanders at the battle of Alma, and until after the occupation of Balaklava; appointed a D.A.Q.M.G. Sept. 26, 1854, and as such was present at the battles of Balalcava and Inkerman, and throughout the siege operations before Sebastopol up to Feb. 18, 1855, when he rejoined the 93rd on promotion; accompanied the expedition to the Sea of Azoff, and was at the capture of Kertch and Yenikali; afterwards present at the siege and fall of Sebastopol, and assaults on June 18 and Sept. 8 (medal and four clasps, brevet of major and lieut.-col., Knight of the Legion of Honour, Sardinian medal, and fifth class of the Medjidie). Served in Bengal during the Indian Mutiny; was at an engagement near Bunnee, and afterwards at the final relief of Lucknow; held for a short time a command consisting of three squadrons of Cavalry, five guns, and 500 Infantry (specially named in dispatches, and appointed a C.B.); and on Nov. 16 commanded the leading party of stormers at the assault of the Secunderbagh, on which occasion he personally captured a colour, receiving two sabre wounds in an encounter with the two native officers who were defending it; was again (very severely) wounded by a cannon shot (left arm carried away) when in action with the Gwalior rebels at Cawnpore, Dec. 1, 1857 (medal and clasp, Aide-de-Camp to the Queen, and colonel). He entered the Army July 27, 1838, and became major-gen. June 13, 1872.

The *Times of India* states that "the rumour that there is to be an expedition against the Afridis gains ground. Preparations for the assembly of a large force near the frontier are being made. A contemporary hears that the Commander-in-Chief and Sir Lewis Pelly, the new Chief Commissioner of the Frontier Province, are at this moment *en route* for Peshawur, or will be so very shortly. We have already indicated the cause, viz., that every preparation is being made in the neighbourhood for the assembly of a force for field service. Large quantities of ammunition are being sent up from the arsenals. The Commissariat Department is hard at work collecting supplies on a grand scale. Several regiments, both at Peshawur and Rawul Pindee, have been warned for field service. Among these are the 4th Hussars, the 12th Bengal Cavalry, the 4th Batn. Rifle Brigade, the 21st Bengal N.I., and the 5th Goorkhas. Several batteries of Artillery have also, it is said, received a similar warning."

The *Englishman* publishes the following special telegram from Delhi, Jan. 8:—"All officers commanding divisions and brigades have been directed to return to their respective commands. The Commander-in-Chief has published the following general orders:—The Commander-in-Chief in India desires to record his approbation of the soldier-like bearing of the force assembled at Delhi, the smartness and clean appearance of the guards and escorts, and their punctilious discharge of duty, which, together with their excellent conduct in the camp, is highly creditable to the troops. It was with feelings of pride that Sir Frederick Haines heard the Viceroy and Governor-General speak in terms of high eulogium of the appearance and admirable precision of the movements on parade of the forces on Jan. 5. To general officers commanding divisions and brigades his Excellency's thanks are due, as also to the officers, non-commissioned officers, and men for their successful endeavours in carrying out the orders of the Government in India. Credit is due to the several Administrative Departments and their assistants."

His Excellency the Governor-General in Council has been pleased to make the following promotions and appointments in the Department of the Military Secretariat of the Government of India, viz.:—Lieut.-Col. W. M. Lees, first assistant secretary, to be deputy secretary, vice Col. A. B. Johnson, nominated to be military secretary to the Council of India; Capt. E. H. H. Collen, second assistant secretary, to be first assistant secretary, vice Lieut.-Col. Lees; Capt. A. C. W. Crookshank, third assistant secretary, to be second assistant secretary, vice Capt. Collen. The above promotions will have effect from Dec. 25, 1876. Capt. T. Deane, Bengal S.C., Adjt. of the Governor-General's Body Guard, to be third assistant secretary, with effect from the date on which he may join and take up the duties of his appointment. Major C. E. Bates, wing officer, 32nd (Punjab) Native Infantry (Pioneers), will officiate as third assistant secretary, as a temporary arrangement.

The Madras Medical Fund Annuities for 1877 have been granted as follows, viz.:—To Retired Depty. Surg.-Gen. E. Dixon (a member on small annuity), a large annuity, from Jan. 1; to Retired Surg.-Major G. W. Walter (a member on small annuity). a large annuity, from Jan. 1; to Retired Surg.-Major J. L. Paul, M.D., a large annuity, from Jan. 1; to Retired Surg.-Major J. T. Williams the established small annuity, from the date of payment of minimum, provided the same is paid on or before March 1; to Surg.-Major J. A. Cox, M.D., a liberated small annuity, from the date of payment of minimum, or from the date of retirement from the Service, whichever may be the later, provided both events take place on or before March 1; to Retired Surg.-Major F. Day a liberated small annuity, from the date of payment of minimum, provided the same is paid on or before March 1.

The Afghans are said to be taking every opportunity of making friends with Russia, and of seconding the efforts of the Ameer to get a grand force in readiness for action. He has, according to report, twenty-eight regiments of Cavalry, each 600 strong, seventy-two regiments of Infantry, each 800 strong, four heavy batteries, seventeen small batteries, and five batteries of Horse Artillery. An Indian contemporary deems it most remarkable that the Foreign Office does not know whether these reports are correct or not. Why have we not an agent at Cabul to report? The rumours of misunderstandings with the Ameer culminate in a report that the British Ambassador has been instructed to withdraw.

Lieut.-Gen. W. R. A. Freeman, Madras Infantry, died at 62, Pembridge-villas, Bayswater, on the 7th inst., aged seventy years. He entered the Army Feb. 13, 1821; became lieut., Feb. 14, 1826; capt., Feb. 12, 1836; major, Jan. 23, 1846; lieut.-col., Nov. 15, 1853; col., Nov. 28, 1854; major-gen., Oct. 21, 1864; and lieut.-gen., Oct. 2, 1872.

The Government of Madras propose forming a relief encampment at the Red Hills, near the lake from which Madras draws its supply of drinking water. The medical authorities in Madras have unanimously condemned the proposal as likely to injuriously affect the purity of the water supply for the whole of Madras.

The *Academy* hears that Capt. H. C. Marsh, Bengal Cavalry, is contemplating a tour of exploration among the passes of the Himalayas.

It has been notified at the India Office that all officers who are entitled to an adjustment of their furlough pay at the rate of 2s. per rupee, and are now in India, should make application to the Government of their respective presidencies for the issue of the same to their agents in this country, should they desire the amount to be paid here.

Major J. D. W. Sewell, Madras S.C., Assistant Commissary-General, Trichinopoly, has given up secular life on retirement from the Service, and joined the priesthood.

The *Gazette of India* contains the formal announcement that ninety lieutenant-colonels will be permitted to retire from the three armies of India during the present year, in accordance with the usual provisions; for Bengal, 40; Madras, 30; and Bombay, 20.

The formation of a Volunteer rifle corps at Bellary has been sanctioned by the Government of India.

Brevet Major G. F. Beville, Bombay S.C., has been restored to full pay from the Half-Pay List.

Lieut.-Col. J. Harper, Bombay S.C., has been placed on general duty at Bombay.

THE DELHI SURVIVORS' DINNER.

Amongst the gatherings during the Proclamation week at Delhi, not the least interesting was that of the surviving members of the Delhi Field Force, who dined together in the camp of the Commander-in-Chief. The scene was appropriately cheered by the band of the 60th Rifles, a corps which is for ever identified with the defence of the Ridge. Major-Gen. Sir Henry Norman presided, the vice-chairs being filled by Major-Gen. Sir James Brind and Mr. Saunders, C.S.

After the usual toasts, Sir J. Brind gave the "Health of the Survivors of the Delhi Field Force." He dwelt on the single-minded service which was rendered by all its members, from the general to the drummer-boy, without hope of other reward than the approval of their country, every consideration having been made subservient to a stern and unflinching sense of duty. He warmly reprobated the sensational statement which Sir John Kaye had been led into making in his last volume of the History of the Sepoy War, as alike injurious and unfounded, unjust to himself and to those comrades by whom he was surrounded. He appealed to those present to say whether he had ever deserved the imputation of ungenerous conduct.

Sir H. Norman, in responding, gave a concise and able sketch of the operations before Delhi, with especial reference to those representative members of the force who were present.

Sir H. Daly proposed "The Health of Sir Henry Norman," dwelling on the earnest and useful services he had performed for a long series of years—services as thorough as they had been unassumingly rendered—and regretfully referring to the prospect of his early retirement, through which his talents would be lost to the Service.

Surg.-Gen. Innes, in alluding to those of their comrades who had fallen before Delhi, said that the very ground on which they stood was not only hallowed by ever-enduring memories, but was doubly sacred as that on which their blood had so freely flowed, and where so many had found their last resting-place. It was impossible not to view the vast assemblage in the midst of which they then stood, gathered together as it was to proclaim the consolidation of an Empire which had been saved in its hour of danger by their endurance, as the fruition of the sacrifice which they then so nobly made.

The honoured memory of the dead was then drunk in solemn silence.

The officers present were:—Major-Gens. Sir H. Norman, Sir J. Brind, Sir H. Daly, Donald Stewart, Roberts, and Rothney; Cols. Maunsell, R.E., Sibley (Commissariat Department), Angelo (Commanding at Delhi), Maisey (J. A. G.'s Department), Hills, V.C., Watson, V.C., Campbell, Fulton, Horsford, Dalmahoy, Gray, Justice, Ashburnham, Pemberton, Murray, Cadell, V.C., Fitzgerald, and Plowden; Surg.-Gen. Innes, M.D., C.B.; Majors Low and Fitzgerald; Surgs.-Major Smith, M.D., and Charles; and Messrs. Campbell and Saunders.

Brevet Major J. Addy, half pay, late Land Transport Corps, Dublin, on appointment as adjutant of a recruiting district has been posted to the Staff at Dublin.

The services of Major.-Gen. T. Ross, C.B., who was promoted on the 30th ult., being only briefly recorded in "Hart," a correspondent has sent us the following summary of them for publication:—Gen. Ross entered the Service in March, 1838, as ensign in the 90th Light Infantry, in which regiment he served sixteen years, when he exchanged into the 73rd as major. With the 73rd he landed in India early in 1858. On March 21, 1859, he took command of a force 700 strong, and marched thirty-six miles the same night to take possession of a bazaar and cut off the supplies of the rebels. On arrival there he attacked the rear-guard, about 800 strong, and made many prisoners, amongst them the Kutwal of Azimghur, who was known to have been foremost in massacreing Europeans and capturing the women. This man was well-mounted, but was taken personally by Col. Ross, and brought into camp after a chase of three or four miles. The next morning he marched with his men sixteen miles, attacked the main body of rebels, said to be 10,000 strong, under the Nana and Bala Rao, and drove them back on Botwol. Having sent a dispatch with this intelligence to Brigdr. Kelly, that officer was enabled to take them in flank and cut them up. So much importance was attached to Col. Ross's position that his force was now augmented to 3,000 strong, consisting of two guns Royal Artillery, Lahore Light Horse, 3rd Sikhs, 7th Punjabs, and eighty of the Jât Horse, with orders to hold the bazaar and prevent the rebels going southward. At the same time he received an order from Sir Hope Grant to allow them to pass westward, as there was a force there to engage them. For the success with which he accomplished this, Col. Ross was highly complimented by several general officers, especially by General Rowcroft, who, semi-officially, notified his satisfaction to Sir Hope Grant in the following terms: "Lieut. Col. Ross, by his active movements, assisted in hemming in the enemy; his movements when he came in contact with portions of the rebel forces were conducted with judgment and boldness, routing and driving in the enemy on their main bodies. His position and movements contributed to Col. Kelly's successes, &c., &c." H. E. the Commander-in-Chief, on the departure of the 73rd Regiment for England, issued an order, of which the following is an extract: "The wing of the regiment, under command of Lieut.-Col. Ross, made excellent use of the only opportunity the regiment had when, at Tilwara, by a skilful attack, planned by that officer, they assisted mainly in the subsequent and total defeat of the rebels by Sir R. Kelly." In 1860 Col. Ross was selected for particular service in Canada. On his return to England he was nominated to the command of the 2nd Batn. 24th Regt., then at Mauritius, which command he held for upwards of ten years, when he retired on half pay.

The Army Gazette.

◆

WAR OFFICE, FEBRUARY 9, 1877.

Where not otherwise specified, the following commissions and announcements bear date Feb. 10, 1877:—

1st Life Guards—Sub-Lieut. R. Brooke, from the 102nd Foot, to be Sub-Lieut., in succession to Lieut. I. C., Viscount Reidhaven, retired.

5th Dragoon Guards—Major W. E. Marsland to be Lieut.-Col., vice Brevet Col. R. T. Godman, retired on half pay; Jan. 31, 1877. Major M. P. Blake, from the 5th Lancers, to be Major, vice W. E. Marsland.

1st Dragoons—Capt. H. Tomkinson, from the 61st Foot, to be Capt., vice H. R. Worthington, who exchanges.

3rd Hussars—Lieut. G. C. Fuller has been appointed a Probationer for the Indian S.C.

10th Hussars—The commission of Lieut. E. M. L. Inman to bear date Sept. 11, 1875, and not Sept. 10, 1875, as stated in the *Gazette* of Jan. 30, 1877.

2nd Foot—Lieut. C. F. S. Alban has been appointed a Probationer for the Indian S.C.

9th Foot—Capt. J. C. T. Humfrey, from the 19th Foot, to be Capt., vice R. E. Huxham, who exchanges.

17th Foot—Capt. J. S. Smyth, from half pay, late 63rd Foot, to be Capt., vice D. Beaumont, whose restoration to full pay from half pay, late 80th Foot, has been cancelled. Sub-Lieut. E. H. Peacock, from the 87th Foot, to be Sub-Lieut., in succession to Lieut. S. L. Richards, promoted.

19th Foot—Capt. R. E. Huxham, from the 9th Foot, to be Capt., vice J. C. T. Humfrey, who exchanges.

20th Foot—Capt. G. G. Liddell, from half pay, late 23rd Foot, to be Capt., vice A. E. Beaumont, retired on temporary half pay.

24th Foot—Capt. E. H. B. Sawbridge retires from the Service, receiving the value of his commission.

31st Foot—Lieut. J. H. Jones, from the 1st West India Regt., to be Lieut., vice J. A. Duntze, who exchanges.

32nd Foot—Lieut. R. Phillipps to be Capt., vice A. E. Havelock, retired; Jan. 31, 1877.

44th Foot—Lieut. A. G. F. Browne has been appointed a Probationer for the Indian S.C.

46th Foot—Lieut. G. A. Ashby to be Adjt., vice Lieut. H. T. W. Allatt, promoted.

57th Foot—Capt. A. A. D. Weigall, from the 76th Foot, to be Capt., vice H. Burton, who exchanges. The commission of Lieut. C. W. Warden to bear date June 13, 1874, and not as stated in the *Gazette* of Oct. 27, 1876. Sub-Lieut. E. J. Sharpe, from the 23rd Foot, to be Sub-Lieut., in succession to Lieut. R. Calvert, deceased.

58th Foot—Capt. T. B. Eames, from half pay, late 54th Foot, to be Capt., vice Brevet Major F. J. Green, retired on half pay.

60th Foot—Sub-Lieut. R. C. A. B. Bewicke, from the 1st Foot, to be Sub-Lieut., in succession to Lieut. A. Pepys, promoted.

61st Foot—Capt. H. R. Worthington, from the 1st Dragoons, to be Capt., vice H. Tomkinson, who exchanges.

68th Foot—The undermentioned Sub-Lieuts. to be Lieuts.:—H. G. Way, dated Aug. 28, 1875, but his commission as Lieut. in the Army to bear date June 13, 1875; A. E. P. Burn, Sept. 21, 1875; and Sub-Lieut. W. K. Curling, from the 99th Foot, to be Sub-Lieut., in succession to Lieut. W. C. V. Burton, retired.

70th Foot—Sub-Lieut. R. L. C. Birch, from the 69th Foot, to be Sub-Lieut., in succession to Lieut G. E. Lloyd, transferred to the 51st Foot.

76th Foot—Capt. H. Burton, from the 57th Foot, to be Capt., vice A. A. D. Weigall, who exchanges.

81st Foot—Sub-Lieut. W. S. Birdwood to be Lieut., dated Aug. 28, 1875, but his commission as Lieut. in the Army to bear date Sept. 21, 1874.

83rd Foot—Capt. G. E. S. Cartwright retires from the Service, receiving the value of his commission. The commission of Lieut. H. B. Warden to bear date Sept. 21, 1875, and not as stated in the *Gazette* of Jan. 16, 1877. Lieut. G. H. J. Alexander, from the 58th Foot to be Lieut., vice H. Read, a Probationer for the Indian S.C.

The undermentioned officers have been appointed Probationers for the Indian S.C.:—Lieuts. H. E. W. Beville and H. B. Warden.

87th Foot—Lieut. J. L. Steavenson to be Instr. of Musketry, vice Lieut. H. Gardner, promoted; Sept. 27, 1876.

89th Foot—Sub.-Lieut. C. R. Rogers, from the 96th Foot, to be Sub.-Lieut., in succession to Lieut. M. J. Meade, a Probationer for the Indian S.C.

96th Foot—Lieut. H. C. Marryat, to be Capt., vice D. Du M. Gunton, retired; Jan. 31, 1877.

107th Foot—Lieut. R. Gore, from the 87th Foot, to be Lieut., vice E. Wardroper, promoted.

109th Foot—Lieut. A. B. Hibgame has been appointed a Probationer for the Indian S.C.

Rifle Brigade—Major and Brevet Lieut.-Col. A. H. Stephens to be Lieut.-Col., vice Brevet Col. E. M. Manningham-Buller, retired on half pay; Jan. 31, 1877. Capt. and Brevet Lieut.-Col. F. E. Sotheby to be Major, vice Brevet Lieut.-Col. A. H. Stephens; Jan. 31, 1877. Capt. and Brevet Major C. W. Cragg, from the Supy. List, to be Capt., vice Brevet Lieut.-Col. F. E. Sotheby; Jan. 31, 1877. Sub-Lieut. J. Sherston, from the 75th Foot, to be Sub-Lieut., in succession to Lieut. the Hon. H. O'C. Prittie, resigned.

1st West India Regiment—Sub-Lieut. A. G. Spratt to be Lieut.; May 23, 1876. Lieut. J. A. Duntze, from the 31st Foot, to be Lieut., vice J. H. Jones, who exchanges. Sub-Lieut. V. J. Garland, from the Supy. List, to be Sub-Lieut., in succession to Lieut. W. H. Knight, resigned.

Unattached—Sub-Lieut. R. L. Mosley resigns commission.

Medical Department—Depty. Surg.-Gen. T. Crawford, M.D., to be Surg.-Gen., vice H. C. Foss, retired upon half pay; Dec. 5, 1876. Surg.-Major J. Gibbons to be Depty. Surg.-Gen., vice T. Crawford, M.D.; Dec. 5, 1876. Surg. G. Duncan is placed on temporary half pay; Jan. 6, 1877.

Veterinary Department—Vet.-Surg. on Probation G. F. Davis to be Vet.-Surg., vice J. Hume, deceased.; Feb. 6, 1876.

Half Pay—Lieut. L. F. Knollys, from the 32nd Foot, to be Capt., in recognition of his distinguished services in quelling the recent disturbances in the Island of Fiji.

BREVET.

Lieut.-Col. F. R. S. Flood, 82nd Foot, to be Col.; Jan. 27, 1876.

MEMORANDUM.

The exchange between Lieut. S. L. M. Remmington, 49th Foot, and Lieut. E. S. Masters, 2nd West India Regiment, is cancelled.

The Militia Gazette.

South Cork—George Ralph Collier Westropp, gent., to be Sub-Lieut. (Supy.).

Royal North Down—Major J. T. Hall is granted the hon. rank of Lieut.-Col.

YEOMANRY CAVALRY.

Denbighshire—Oliver Ormrod, gent., to be Sub-Lieut. (Supy.).

Leicestershire—Lieut. S. W. Clowes resigns commission.

Westmoreland and Cumberland—Charles Henry Wilson, gent., to be Sub-Lieut. (Supy.).

The Executive Committee of the Corps of Commissionaires acknowledge the receipt of the following sums:—The officers 2nd Batn. 23rd Fusiliers, £25; Brigdr.-Gen. Seymour, C.B., £10; Col. H. J. Thomas (Woodstock), £5; Lieut.-Col. H. L. Evans, £10 10s.; Major H. S. Bates, 5th West York Militia, £10; Officer commanding D Bat. 8th Brig. R.A., £5; Capt. Hincks, £2; Mr. T. Donovan, £5; Miss H. Cockell, £1 1s.; W. R. M., £2.

The *Sanitary Record* states that "Sir William Jenner and his colleagues have completed the inspection of the War Office, which they were commanded by the Queen to make, in reference to the detailed report of its sanitary unfitness. They have paid many visits to the building, selecting those times when the clerks had occupied the rooms during the day and were leaving the office. They have had the basement examined, and have satisfied themselves as to the state of the ventilation, and of the sanitary arrangements generally. The report has, we understand, been placed by command in the hands of the Prime Minister, and is about to be brought before the Cabinet, as the necessary arrangements for finding a suitable home for the Staff of the War Department will require to be considered in the Estimates. The report is, for the present, confidential, but will be laid before both Houses as a parliamentary paper. It is not generally known, we believe, that not only was the War Office previously condemned on the report of the Army Sanitary Commission, which included at the time Capt. Galton, Sir Reynold Martin, Mr. Rawlinson, and Dr. Sutherland, but that a fiat was issued for removing the staff to the New India Buildings, now occupied by part of the staff of the Local Government Board and other departments, who are somewhat over-housed there. It was considered, however, that the appropriation in the Estimates was so definitely for the service of particular departments that the War Office could not be removed there without a special vote, which it was not expedient to take. In justice to the present War Office, it is right that we should state that Lord Eustace Cecil's private house having been examined, the sanitary state of the house has been found to be so bad as to leave it very doubtful whether his illness may not be attributable to that cause."

In consequence of his having received applications for payment of tradespeople's accounts, and also letters requesting information respecting the Ramblers' Club, we are requested by the Hon. Charles Lennox-Butler to state that he is not the person whose name appears as the Hon. C. Butler on the Committee of the new United Military and Naval Club, and that he has never been in any way connected with either of those clubs.

THE COMMISSARIAT.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—All Commissariat officers are much indebted to you for the insertion in your issue of the 3rd inst. of the communication signed "Commissary." Will you kindly insert in your next issue the following few observations upon the general subject from a special point of view? The right hon. gentleman who is now Secretary of State for War belongs to that great party which has hitherto offered an uncompromising resistance to all measures of confiscation. Let it be supposed that a proposal is suddenly put forward seriously for a distribution of all the land amongst the tenantry. Now, I think I can picture the indignation of the right hon. gentleman if such a proposal was referred for the consideration and report of a committee consisting of—First, the proposer of the scheme; secondly, two philosophical Radicals; thirdly, one of the class amongst whom it is proposed to distribute the land; fourthly, one outsider. Yet the consideration of proposals affecting the dearest interests of a large body of meritorious servants of the State has been referred to a committee constituted in a manner exactly similar to my imaginary committee. Thus, the Haliburton Committee consisted (or consists) of—First, the proposer of the scheme; secondly, two War Office clerks; thirdly, one combatant officer; fourthly, one Ordnance Store officer. The actual and imaginary cases are, therefore, almost exactly parallel. Thus: First, Mr. Haliburton is the proposer; secondly, the two War Office clerks represent the two philosophical Radicals, inasmuch as the War Office clerks have always, as a body, fostered and advocated schemes for the dismemberment of the Commissariat, just as the philosophical Radicals have always fostered and advocated schemes for the distribution of the land amongst the tenantry; thirdly, the combatant officer represents the class amongst whom it is proposed to distribute the land, inasmuch as it is proposed to confiscate the rights, privileges, and prospects of the present Commissariat officers, and hand them over to the combatants. Fourthly, the Ordnance Store officer, so far as the Commissariat is concerned, represents my imaginary outsider. If, in addition to such a constitution for my imaginary committee, its proceedings were held with closed doors, and if such witnesses only were examined as were known beforehand to be favourable to the proposed scheme, then the parallel as regards the Commissariat would be as exact as possible. Was there ever a more perfect illustration of the saying that "extremes meet?" Here we have a Conservative Government seriously entertaining proposals amounting to confiscation, and proceeding to condemn the persons primarily interested, without ever giving them an opportunity to defend themselves. If such an iniquitous scheme is carried out by a Conservative Government, it is to be hoped that its friends (of whom I am a very humble one) will cease abusing the Gladstone Government. *Quis tulerit Gracchos de seditione querentes?*—I am, Sir, &c.,

PHILALETHES.

SIR,—The announcement in the ARMY AND NAVY GAZETTE of Saturday, the 27th ult., that in the event of an expeditionary force proceeding to the East the appointment of Commissary-General would be given to a general officer, has put all our backs up. We Commissariat officers flatter ourselves that the Secretary of State for War would have less difficulty in finding in the ranks of the Commissariat Department a competent successor to the Duke of Wellington's *beau ideal* of a Commissary-General, the late Sir Robert Kennedy, than would be experienced in discovering a general fit to tread in the steps of Sir Robert's master—the great Duke. Where a general officer of administrative ability is really wanted is at the War Office, as Surveyor-General of the Ordnance. If Mr. Hardy were well advised he would have a lieutenant-general at the head of all the Departments of Supply, with a major-general of Royal Artillery as "Director of Ordnance," a commissary-general as "Director of Supplies and Transport," and a storekeeper-general as "Director of Stores." With a practical staff, as described, and an independent audit of all military expenditure, Mr. Hardy might face the House of Commons with reduced Estimates and a clear conscience.—Yours, &c.,

C. DE G.

The 2nd Batn. 11th Regt., embarking this week for Bombay, will complete the list of regiments proceeding on foreign service during the present relief season, and, excepting draughts, it is not likely that any troops will be sent abroad before the beginning of October. There are four Infantry battalions to return to this country in the course of the spring, viz., the 1st Batn. of the 10th, from Singapore; the 1st Batn. 11th, from India; the 32nd, from the Cape; and the 55th, from Aden. With reference to some statements which have been made as to the regiments for foreign service during the season 1877-78, we may say that there is no intention of sending out the 2nd Batn. 10th or the 2nd 24th for two years more; nor is there any probability of the 1st Batn. 1st Royal Scots being called upon to embark before the season 1878-79. Should six battalions be required for India and the Colonies during the next season, those told off for duty will be the 2nd Batns. 2nd, 8th, and 13th, the 1st Batn. 19th, the 88th, and 100th Regts. It does not, however, seem probable that more than one battalion from the Colonies will be relieved in addition to the usual four returning from India—2nd Batns. 12th, 45th, 56th, and 109th—in regular order, and hence there is some likelihood that not more than five of these battalions will proceed abroad before the autumn of 1878.—*Times*.

Major-Gen. Sir J. Adye, Governor of the Royal Military Academy, has announced that the prize offered for competition by Gen. Lord Napier of Magdala for the best essay on Military History has been awarded to Gentleman Cadet A. P. Codd, to whom the prize is accordingly presented. The subject given was "A Short Account of the Battle of Waterloo, viewed strategically," and there were ten competitors. All the essays are declared to be creditable compositions, and that of Gentleman Cadet Corporal W. H. Turton is noticed with special commendation. The committee of selection named by the governor consisted of Capt. Sladen, R.A., Capt. Lloyd, R.E., and Capt. Clayton, R.A.

Mr. Gatling has produced a new mitrailleuse, weighing only 97lb., and mounted on a carriage similar to that of a small field-piece. The weapon consists of five barrels embedded in bronze, the handle being affixed in such a manner as to produce a more regular and rapid movement. The gun it is stated will fire 300 rounds per minute.

THE QUARTERMASTERS.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—However pressing may have been the need of a "Commissary" (in your last week's issue) to defend his department from the reforming zeal of Mr. Haliburton, there seems to be no reason whatever for his sweeping condemnation of officers and others now serving, who, in common with the rest of her Majesty's subjects, claim—not unreasonably, I hope—the right of being considered honest and trustworthy, at least until proved to be the contrary. Had "Commissary" made good use of his undoubted leisure for observation and reflection, by a study of the past and present history of this and other countries, he would, perhaps, have arrived at the sad conclusion that incorruptibility belongs to no particular class of persons exclusively, from crowned heads downwards, commissaries themselves having had their moments of weakness, figuring as they do in very good company, on the long list of those who have from time to time yielded to temptation. Let me remind him, also, by way of example, that even judges here at home have not always been so far above reproach as they now happily are, and that abroad, at the present moment, it is notorious that "justice," or what sometimes goes by that name, is administered purely or the reverse in exact proportion to the position and emoluments enjoyed by holders of this high office. Poor human nature, then, being what it is, "very much of a muchness," all the world over, weak-kneed in its morality, so to say, and sadly in want of support, good administrators recognizing the fact, turn their attention to the system when things go wrong, to find, too often, I fancy, that the fault lies therein, rather more than with the men, who not unfrequently deserve commiseration as its miserable victims. Viewed in this light, then, I would ask whether it is not on the whole rather a matter for surprise that so few quartermasters have gone astray when the disabilities under which they labour, so obvious and hurtful, are taken into consideration? Their position is briefly this—A few shillings a day as pay, a family to bring up, and surrounded by various temptations to which no other officer in the regiment is exposed, at least, not in the same degree, no advancement whatever, however long and good the service, and all stimulus to pride studiously withheld! In the name of common sense, let me ask again is this right? Should such a state of things be allowed to continue in spite of every appeal and remonstrance? I was once told that matters are left as they are with the object of throwing discredit upon men promoted from the ranks, but anything of the kind is surely too monstrous for belief; such a scheme would have brought a blush to the cheek of Machiavelli himself. One fact, however, stands out very clearly. Had quartermasters been treated with the same consideration as others are, there would have been no need for those strongly-worded paragraphs in the Queen's Regulations which men like "Commissary" always quote when they wish to keep to themselves alone positions which could be more ably and economically filled by some, at least, of those whom they so unwarrantably and persistently traduce.—I am, &c.,

MILES.

MESS EXPENSES.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—While most officers will agree with the justice of your remarks on the "expenses of officers," in your issue of the 3rd inst., I fear increase of pay is a thing we cannot hope to get yet. Indirectly, however, the expenses of officers might be very considerably diminished if the messes could be found in a few plain articles of furniture, crockery, glass, and cooking utensils. All officers who have had charge of a mess will, I think, agree that the sum annually required from the mess funds for the above is very high; consequently, extra subscriptions from officers, called by different names in different regiments, are required to keep up the extra expenses. Then, in the last eight years the number of officers in regiments has decreased; therefore, the share of entertainments among individuals is greater. When will regiments give up asking each other to dinner in garrison towns? It is a bore to everybody, and, in large places, an enormous expense. I have known it to be as much as five pounds per officer in the course of a year. On arrival, every regiment should make use of the nearest mess as a right. It would not stop individual hospitality or *esprit de corps* a bit.—I am, &c.,

Feb. 6, 1877. P. M. C.

News is telegraphed from New York of the death of Admiral Wilkes. He will be chiefly remembered as Capt. Wilkes, who in 1861, when commanding the San Jacinto, boarded the British mail-steamer and took from that vessel Messrs. Slidell and Mason, the Confederate Commissioners. Although on the demand of the British Government those gentlemen were liberated, Congress passed a vote of thanks to Capt. Wilkes for his conduct in this matter, and he was otherwise honoured at various public meetings in the United States.

"The German Chancellery has, in fulfilment of one of the stipulations in the Frankfort Treaty, published a series of regulations as to the preservation in good order of the graves of the French officers and soldiers who died in captivity in 1870 and 1871. These regulations, the *Pall Mall Gazette* remarks, which have received the approval of the Confederate Government, and which are about to be put into execution in Prussia, are to the effect, first, that the large graves outside the cemeteries shall be preserved, and that the parts of them set aside for the burial of the French soldiers shall not be interfered with; second, that the graves existing in the cemeteries themselves, and surmounted by a tombstone, shall be preserved so long as the cemeteries exist, and that graves not marked by a tombstone shall be left untouched for the usual period, after which the remains will be placed in the large paupers' graves; third, that the graves shall be well kept, and the cemeteries in which there are any to be inspected periodically. The expense of keeping the graves in repair in the military cemeteries, or in ground belonging to the War Office, will be defrayed out of the military budget. In the same way the State will pay for the maintenance of the graves in ground belonging to the Crown. The greatest number of the French prisoners who died in Germany are interred in the ordinary cemeteries, and the parishes to which they belong are to keep the graves in order upon payment of a fixed sum from the State, which is estimated at £1,500.

W. HARLING BAYLIS, Proprietor.

BUTLER'S MILITARY BAND INSTRUMENTS are all guaranteed first-class, both as to Tone and Workmanship, at prices much under those usually charged.
Manufactory—29, HAYMARKET, LONDON,
And at ELLIS'S QUAY, DUBLIN.

NOTICES TO CORRESPONDENTS.

No communications can be published which are not accompanied by the name of the writer, given in confidence to the EDITOR.
Letters cannot be received in answer to Advertisements.
Remittances should be made payable to Mr. RICHARD JAMES WOOD, to whom all business communications should be addressed.

LIEUTENANT, R.N. College.—You are quite right in your supposition, and we are pleased to have had the opportunity of putting the right complexion on the case.

CAMBRIDGE.—There can be no objection to an officer being married in uniform if it so pleases him, but as naval full dress is only to be worn on State occasions, it is clear that it is wrong for a bridegroom to wear full dress although about to enter the "happy state."

A.B.—We quite agree with you, and wish there were more of your mind on the matter.

SEAMENS' WIDOWS' FUND.—You need not despair. There is no opposition to some scheme of this kind.

BOOKS RECEIVED FOR REVIEW.

Announcements of Births, Marriages, or Deaths	0	5	0

A line averages eight words

Across two columns, One Shilling and Sixpence per line, but no such Advertisement inserted under 1 1 0

Army & Navy Gazette.

LONDON, SATURDAY, FEBRUARY 10, 1877.

Ere long the country will be called upon to face a great difficulty, a difficulty which has already made itself felt, and which is increasing in dimensions every day. We refer to the scarcity of good non-commissioned officers. They were styled by the Duke of Wellington the backbone of the Army, and it is certain that an amount of excellence in the officers will compensate for the existence of an inferior class of Sergeants and Corporals. In our Service, at all events, officers must leave many important details to non-commissioned officers, and should the former attempt to perform the legitimate work of the latter, they would not only fail, but be lowered in the estimation of the men. In short, there must be an intermediate class between the officers and the men, and if that class be not of good quality discontent is sure to be rife and discipline is certain to suffer. The necessity of non-commissioned officers possessed of experience, tact, energy, and education being admitted, the question arises, are those we now possess equal to their predecessors, and likely to improve or deteriorate? All officers of any standing know that it is infinitely more difficult now to find men fit for, willing to take, and likely to retain the stripes than it was, say, fifteen years ago. It is true that some slight improvement has been made in the pay of non-commissioned officers by the best Minister of War that we have had for some time; but, apart from pay, the position is no better than it was, and, once a Colour-Sergeant, a man has but little to look forward to. Short service, also, tends to render men unwilling to accept the stripes. Anyone likely to be useful as a non-commissioned officer may extend his engagement, but no one can feel any certainty that he will not be sent about his business at the end of six years. Besides, soldiers' minds are unsettled by the knowledge that they can, if they choose, quit the Active Army when the period for which they enlisted has expired. We can easily imagine that, under such circumstances, very little will turn the scale, and that if the commanding officer, Adjutant, or Sergeant-Major is unpopular, men whom it might be desirable to retain will claim their discharges in shoals. If a man is made a Lance-Corporal in the first year or two of his service he is probably wanting in weight, and certainly in experience. He is apt either to harass the men or to be too weak with them, and can only in any case enforce his authority by punishment. If promotion be delayed, the man selected will in many cases deem it hardly worth while to accept a responsible and arduous position from which a trivial fault will degrade him, and which he may lose by discharge should he fail to satisfy any one of his many superiors. He will say to himself—"Why should I give myself extra work, for a mere trifle of extra remuneration, and incur unpopularity among men who may ere long be my fellow workmen? If I take my discharge at the end of my first engagement, I know that I can in civil life earn more than a Sergeant, and I shall have my liberty to boot." The authorities may be assured that reflections of this sort are not uncommon among soldiers, and the better educated the man, the less likely he is to regard with favour the idea of remaining in the Army. Formerly it was different. The wages of labour were lower, and enlistment being for ten, twelve, or twenty-one years, and *esprit de corps* cherished, men made up their minds to accept the Army as a career, and looked on the regiment as a home. This feeling has disappeared in consequence of Lord Cardwell's tampering with a delicate machine of which he knew nothing. Confidence in the good faith of the Government has been so rudely shaken that the soldier is suspicious, unsettled, and discontented. Hence the difficulty of getting good non-commissioned officers. Yet a remedy, or at least a palliative, is not far to seek. One very essential step is to put an end to the constant drain on regiments for Staff clerks, and non-commissioned officers for garrison employment. No sooner does a battalion arrive in new quarters than an immediate and peremptory demand is made for clerks for the different Staff officers—and only the best men will be accepted—for non-commissioned officers for employment in the military police, and for Sergeants of Orderlies, &c. Thus, scarcely has a Colonel with great difficulty obtained and trained a good non-commissioned officer than he is deprived of him. It would be much better to increase the strength of the corps of Staff clerks, and to form another corps for all garrison or extra regimental duties. The advantage of maintaining a larger number of permanent Staff clerks is obvious to all who have any practical acquaintance with the Staff. Owing to the inexperience of many of his subordinates, the highly and experienced trained Staff officer is obliged to perform himself much of the routine work, and to neglect those higher functions to which his attention should be mainly directed. There is also such a want of system, such constant changes in arrangement, that a Staff officer is overwhelmed with purely clerical labour. Returning to the regiment, we would suggest that in the first place additional privileges in the shape of leave should be granted to non-commissioned officers; that in the second place, by the introduction of summary punishments not extending to reduction, their position should be more assured; that in the third place every good non-commissioned officer should have, in addition to his pension, a civil Government appointment to look to on discharge; and that in the fourth place a large number of boys should be trained at the Duke of York's School and Kilmainham for the position of non-commissioned officers. Those lads from the above-mentioned establishments who enter the Army generally turn out extremely well. Unfortunately their number is too small, and they are for the most part trained as musicians. Surely it would be worth while to increase the number of pupils at these schools, and to supplement them by the formation of cadet corps in regiments. Good non-commissioned officers must be paid for in some form or another, and the money laid out as we have proposed would present fair chances of eventual reimbursement to the State in the shape of an element absolutely indispensable in an efficient army.

It would be unwise to conceal the fact that the army assembled at Delhi was not quite so well pleased with the proceedings as those in whom the Governor-General very properly delighted to honour. The extraordinary and almost offensive exclusion of the officers of the Army in India from the honours which were distributed may be explained, and, what is more, justified, on grounds of which we know nothing. It certainly would have, however, been politic to have brought the Army at Delhi a little more to the front, and, without any intrusion of them as the "be-all and end-all" of our own presence in India, to have given them at least the same attention as was accorded to the levies of the native Princes.

H.R.H. the Duke of Cambridge has been suffering from the effects of a severe cold for the last week, and has been unable to leave Gloucester House, but the Field-Marshal Commanding-in-Chief has not been prevented receiving visitors, and has transacted business connected with the Horse Guards. His Royal Highness was, we are glad to state, much better yesterday, and may be considered as quite convalescent.

General the Earl of Lucan has been for some days past confined to his house by a serious cold attended by feverish symptoms, which have caused some anxiety. The extraordinary strength of the gallant officer's constitution has hitherto been proof against indisposition of any kind, and has enabled him to disregard the vicissitudes of climate and the hardest trials of active service; and it now stands him in good stead. The latest accounts recorded a marked improvement in his lordship's health.

It has been suggested that some difficulty in the case of troubles which are not likely to arise would be met in dealing with certain great Chiefs who have lately accepted rank as British General officers. They would be liable to trial by courts-martial. The clever suggestion, however, has no real value. Not one of those Chiefs is likely ever to rebel, and if he did, and were taken "*en flagrant Delhi,*" it is very probable the processes of a court-martial would not be needed.

Under the head of "India" will be found an alarming sort of paragraph concerning Afghanistan. We allude to it only to express a belief, founded on very good information, that the relations of the Ameer with the Government of India are of a nature which gives the latter every satisfaction, and that the "Indian contemporary" who asks "why the Foreign Office does not know whether the reports" (very vague rumours and very harmless statements of well-known facts) "are correct or not" is very incorrect if it supposes there is not very accurate information on the subject. The question as to the "Agent at Cabul" is ludicrous. We are "all there."

Count Redern, late *Attaché* to the German Embassy, was entertained by his friends at the Marlborough Club on Wednesday evening, on his departure from England on promotion to Stockholm. He served on the Staff of the 1st Army Corps during the Franco-German war, and he made many friends in more peaceful fields during his residence in London.

Captain H. Knollys, R.A., has been taken on to the paid establishment of the Intelligence Department. This, however, is only a temporary measure, for as soon as Captain Boyle obtains his promotion Captain Knollys will probably succeed him as Brigade-Major of Artillery at Aldershot.

Not one word about the Report of the Royal Commission on Promotion and Retirement in the Qûeen's Speech! Not one reference to the state of the Army, or to the intentions of the Government in respect to it! It may be said that there was no remark about the Navy either, but the sister Service has not been subjected to a tremendous shock of a revolutionary character, and has not been made the victim of any crucial experiment—it has not been reported upon by a Royal Commission—and all its officers are not in a state of doubt and irritating uncertainty. The fact is that the Government—or Mr. Hardy—fears to meddle with the matter. Any plan to carry out the recommendations of the Commissioners must cost money, and there is a wholesome fear of the ungenerous use which could be made by so-called Liberals of any demand for money on the part of a Conservative Government. Therefore there will be only small measures—piece-work and patching—till the hand of the Government is forced by some over-zealous partizan. As far as our information goes, Mr. Hardy's policy just now is *quietos non movere*—which means "turn out the five years' men, and keep all quiet as long as we can."

The six Instructorships at Shoeburyness are reserved for Field Officers, yet the Brigade-Majorship is invariably filled by a Captain. It would surely be a better arrangement to reverse the order of things, and give the Instructorships to Captains and the Brigade-Majorship to a Major, more especially as the six Instructors are all borne on the strength of their regiment, and are nominally in command of batteries, though their duties are performed by officers of junior rank.

The Staff College graduates, we hear, are exercised considerably at finding Captain Goodeve, R.A., is to be the Brigade-Major of the School of Gunnery, an appointment which has for years past been filled by an officer holding the Staff College certificate. Captain Goodeve has made so excellent an Adjutant at Shoeburyness that his appointment may be accounted for in that way; but there certainly are several Artillery Captains with Staff College certificates on the look-out for employment.

The mobilization scheme, if it has done nothing else, has shown one respect in which we are lamentably deficient—*i.e.*, in the matter of Artillery. But this does not justify us in making it appear we possess more than we actually do. The garrison army of Jersey is represented as including five regiments of Militia Artillerymen, whereas the utmost limit to which the Island of Jersey can stretch its local gunners is one regiment. It has five regiments of Infantry, but the framers of the mobilization scheme would have us believe it has a force of Artillery of equal strength. There has been some error.

The *Standard* has very properly pilloried the exclusion of soldiers in uniform from the skating rink in the obscure town of Luton. It is really not to be wondered at that under such circumstances men-of-war's men on leave wish to wear mufti, and that few men of the lower middle-class enlist. If the country really wishes to raise the moral standard of the Army, public opinion ought to declare that steamboat companies, restaurants, and places of entertainment shall no longer be allowed to insult an honourable profession. Is a sergeant less respectable than a butler? Is a private soldier not as good as a potboy? Why, then, should he be looked upon and treated by the middle-classes as a social pariah? The middle-classes have heard that some three-quarters of a century ago the Army was recruited mainly from law-breakers, paupers, and vagabonds, and hence the phrase "a brutal and licentious soldiery." Hence, they look upon all soldiers as specimens of all that is basest, dissolute, and licentious. A party with a blind impatience of national insurance and utopian ideas of arbitration as a substitute for war foster these notions. In after-dinner speeches there is a good deal of insincere mouthing about the Army, but not one word of sympathy. Englishmen are grossly ungrateful to their soldiers. While they will subscribe liberally for all other purposes, every institution for the benefit of the Army is almost exclusively supported by the subscriptions of officers and their relations. When the country is in a fright there is much tall talk about "our noble Army," but, once secure, no one cares what becomes of "our gallant soldiers."

When danger's near and foes are nigh,
  God and the soldier is all our cry;
When the enemy's beat and danger righted,
  God is forgotten and the soldier slighted.

With reference to Major Buckle's case, it can only be said that there must have been an extra infusion of ruffianism in the crowd which was in St. Martin's-lane at the time. It is not possible, we hope, that the pitiful cowards who beset one man in the heart of London were fair specimens of ordinary Cockney wayfarers. But we should like to know where were the police—still more where were the respectable inhabitants? In the heart of the city which claims to be at once the largest and most civilized in the world Major Buckle, while performing an act of Christian charity, was set on and hunted for a considerable time by a gang of roughs. These roughs, forsooth, pretended that they were actuated by a zeal for "morality." That he was not seriously injured by the cowards who attacked him was only due to his own resolute conduct. Not one of the bystanders had the manliness to help him, or even to call for the police.

We are sorry to hear from Canada that Major-General Selby Smyth, commanding the Local Militia, continues to meet with opposition in the attempts he is making to reorganize the military establishments. The Canadian Parliament still denies the General the first requirement—properly qualified Adjutants—and it seems to prefer officers whom its Ministers can themselves select to those more able, who would have to be the nominees of others. Meanwhile General Smyth is endeavouring to make bricks without straw. It is up-hill work, but it is some satisfaction to know that the General is a man possessed of an abundance of determination. He is popular beyond measure.

REVIEWS.

The Two Americas. By Sir Rose Lambart Price, Bart. (Sampson Low and Co., London.)

The fault of most authors of books of travel is that they commence relating their experiences too early. They will tell you the old, old story of the albatross; the shark captured or not, as the case may be; of the sea breaking through the skylight of the cuddy; and a host of other insignificant details—all most interesting incidents, no doubt, to people cooped up on board ship, but scarcely so to those who have not the misfortune to be in that position. A good fourth part of this book might have been left out with advantage not only to the author, but to the reader as well. We own that in the commencement of it we were almost tempted to place it aside, merely giving a notice in our columns that it seemed to be the ordinary work of a traveller who felt bound to rush into print to record his experiences as soon as he returned to his native shores. We persevered, however, and we must confess that when we arrived at the middle portion of the book we were amply rewarded. The author went out with H.M.S. Rocket, a gunboat, to Rio Janeiro, thence to many ports in Mexico, visiting the Straits of Magellan, and numerous other seas, rivers, and harbours. We are all wearied of the continued accounts of bull fights, but the account of the one the author witnessed at Lima is interesting insomuch that it was conducted on a different system entirely to that pursued in Spain. The author makes a serious complaint of the manner that our men-of-war behave in the Mexican Seas, which we trust is exaggerated. He says:—"With a view to prohibit the enormous and continual drain of bullion from the country, the Mexicans have placed the crushing impost of 9 per cent. on all silver leaving their shores. To avoid this, the people having dollars or bars which they wish shipped, smuggle them on board our men-of-war, which—our diplomatic relations with the country having long ceased—seem to cruise in Mexican waters for no other purpose than that of aiding and abetting the subjects and residents in the country to break her laws." This is a grave accusation; and, coming from one who was actually on board one of her Majesty's ships, must be taken to be the truth. The author's description of the salmon and trout fishing on the McLeod and Sacramento rivers, if read by a keen fisherman, ought to make him pack up bag and baggage and be off to those favoured streams at once. Nothing that we have ever experienced in Norway can compare with the sport to be enjoyed in the neighbourhood of San Francisco, according to the author's statements. Taking this book altogether, to those who are fond of real sport with either the rifle, gun, or rod, we recommend its perusal heartily. The author has spun it out to at least three times its proper length; yet, notwithstanding this, the book is well and lightly written, and there is an absence of "I," which is somewhat a rarity in books of a similar kind.

Rosine. By J. G. Whyte-Melville. (Chapman and Hall, London.)

Rosine is a young and beautiful peasant girl, having the misfortune to dwell on the estate of a certain French Count, the usual good-looking and good-for-nothing Count of fiction. To escape from the Count's attentions, or rather persecutions, she flies to Paris accompanied by her betrothed husband. The wicked Count naturally follows her. The story then plunges into the anxious times previous to and during the commencement of the Revolution. The Count, once all-powerful at Court, offends Marie Antoinette, and is discovered cheating at cards; then, being beyond all hope disgraced, in despair joins the Revolutionists. Then follows much intrigue and adventure. Rosine finds favour with the Queen by disclosing a plot that by chance she overheard; she is, of course, happily united to her peasant lover, while the Count meets with his death at the hands of the populace he pretended to take such an interest in. The novel is interesting, as of course it must be, emanating from the pen of so accomplished a writer; yet it is difficult to realize that "Rosine" is written by the author of "Good-for-Nothing" and so many equally excellent novels.

Our Life in the Arctic Regions. By Captain A. H. Markham, R.N.

This is a series of chatty papers of the every-day doings of the late Arctic Expedition, the first number of which appears in *Good Words* for this month. Captain Markham has done wisely in determining to confine himself to giving a narrative of the daily life of himself and companions in these papers, and to avoid touching too much on the scientific results of the Expedition, for the public will have enough of that when the work now in the hands of Sir George Nares is published. Here we have a glimpse of the inner life of the officers and men lightly and pleasantly told.

The History of the Rifle Brigade. By Sir William Cope, Bart. (Chatto and Windus, Piccadilly. 1877.)

A bare record of the services of this distinguished regiment could not fail to interest the lovers of military literature; but it is a pity that so fruitful a theme should not have been better treated. The author has had every facility for the discharge of what is evidently a labour of love, but we are bound in honesty to say that the result is rather bald. The Rifle Brigade (Prince Consort's Own) grew out of "a corps of riflemen" formed at the beginning of 1800 by detachments of picked men and officers, furnished by seventeen regiments of the Line, but only temporarily detached. After a few months, during which the riflemen were blooded in Sir James Pulteney's fruitless expedition to Ferrol, the corps was broken up, but in the course of a few weeks reformed in a permanent manner, and styled "The Rifle Corps." In 1802 its appellation was changed to the 95th Regiment. In 1816 it was christened "The Rifle Brigade," and in 1862 the prefix of "Prince Consort's Own" was conferred upon it. During its seventy-six years of service it has served in every part of the globe, and invariably distinguished itself. It is singular, however, that though from an early period of its existence till 1818 it had three battalions—the 3rd Battalion was disbanded in that year—and has now for many years past had four, the list of casualties in action should be so small—namely, 58 officers and 902 men killed, and 200 officers and 2,748 men wounded—at least that is the recorded number. It will interest many to learn that when "the Corps of Riflemen" was first formed, a committee of field officers assembled at Woolwich to select a rifle. The principal gunmakers in England were invited to attend, and several rifles from foreign countries were also experimented with. The weapon eventually selected was one made by Ezekiel Baker, a London maker. It was 2 feet 6 inches long in the barrel, 7-grooved with a quarter turn. Needless to say it had a flint lock. It was only sighted up to 100 yards. A triangular sword-bayonet 17 inches long in the blade was fastened by a spring. The inventor boasted that at 200 yards 22 out of 34 shots fired struck the representation of a man. About 1838 the Brunswick rifle with percussion lock was substituted, and this continued in use till 1854, when the Minie rifle was issued. The weight of the Baker rifle was 9½ lbs., that of the Brunswick rifle 11 lbs. 5½ ozs. The book is enriched by well-executed plans of actions in which the Rifle Brigade has taken a prominent part, and by several coloured illustrations of the uniform at different periods.

What a chaos a new Parliament would be without our "Dod"! This issue for 1877 (the forty-fifth year of the Parliamentary Companion's life) shows that, unlike most things in this world, "Dod" improves with age, and we dread to think of the perfection it will, no doubt, attain to and the opinions it will attribute to M.P.'s in 1900. Sufficient to the Parliament is the "Dod" thereof, and none could be much better than this, in which one year's work has necessitated a complete revision.

THE MAGAZINES.

Fraser contains a touching account of Charles Kingsley, whose hand was ever as ready to assist "the least" of his fellow creatures as it was to take up the pen to expose hypocrisy. A true Christian, a thorough gentleman, the spirit of honour and chivalry which pervaded all his works have ever made them favourites with officers in both our Services.

We have received several publications from Messrs. Cassell and Co. which, for cheapness and for placing information in an attractive form before either young people or those who have not had the advantage of a high education, cannot be surpassed, notably the histories, which are published in numbers.

Colburn has an article on "The French and British Non-commissioned Officer," which, though written in a somewhat peculiar style, clearly demonstrates that the writer is acquainted with his subject so far as the British non-commissioned officer is concerned. The "History of the Indian Navy" is still "to be continued."

The Quarterly Review contains an amusing paper, "A Ramble Round the World," translated most ably by Lady Herbert of Lea from the French work of M. Le Baron de Hübner, entitled "Promenade Autour du Monde." "English Policy in South Africa" must necessarily command attention at the present anxious state of affairs at the Cape; while "Geographical and Scientific Results of the Arctic Expedition" will be read with interest. In fact the whole number is so good that all the articles are well worthy of perusal.

The Edinburgh commences with a long discussion on that vexed question as to the authorship of the Fourth Gospel. "Travels in Caucasus" just now will invite attention, while "Forel on the Ants of Switzerland" should be read by any one who has ever taken an interest in those wondrous insects, which appear, in lieu of instinct, to be possessed of reason, and that, too, of no mean order, and who actually in battle display some considerable strategical powers, acting in emergencies with a perception and rapidity truly marvellous.

Furnish on the New Hire System.—The "New Hire System is quite distinct from anything yet attempted. Houses furnished throughout. 20 Wholesale Houses to select goods from. "An excellent idea."—"Army and Navy Gazette." Prospectus, with Press opinions, post-free. General Furnishing Company—Offices. 9 Southampton-street, Strand.

Rossetter's Hair Restorer.—This unrivalled preparation has now been before the public for many years, and as its success has led to several spurious imitations, the public should be on their guard. Rossetter's preparation is the only one that will with certainty restore grey hair to its original colour, remove dandruff, prevent the hair from falling off, promote its growth, and give it the lustre of youth.

The Navy.

THE GAZETTE.

ADMIRALTY, February 6, 1877.

In accordance with the provisions of H.M.'s Order in Council of Feb. 22, 1870, Surg. D. J. Freeman has been placed on the Retired List from the 31st ult.

February 7 1877.

The following qualified candidates for the Naval Medical Service have been appointed to be Surgs. in H.M.'s Fleet, with seniority of Sept. 30, 1875:—J. D. Henwood, H. W. D. Walsh, M. O'C. McSwiny, H. B. Guppy, M.B., J. J. Connell, M.D., T. C. Mugliston, T. E. H. Williams, F. Williamson, R. Murdoch, M.B., W. M. Rae, G. W. F. Armstrong, M.D., L. H. Kellett, M.B., J. C. Dow, M.B., C. F. Newland, P. J. Barcroft, G. D. Twigg, G. J. Fogerty, W. J. B. Bookey, J. N. Browning, and L. W. Corcoran, M.B.

Royal Naval Artillery Volunteers—London Brigade.—Lieut. C. E. Bell, Retired List, N.R., to be Sub-Lieut.; Feb. 7, 1877.

Liverpool Brigade—Walter Glynn, Esq., to be Hon. Lieut.; Feb. 7, 1877. Dashper Edward Glynn, Esq., to be Hon. Lieut.; Feb. 7, 1877.

February 8, 1877.

The announcement contained in the *London Gazette* of Oct. 6, 1876, of the retirement of Lieut. S. B. Roupell, is to be considered as cancelled.

Royal Marines—The following named gentlemen have been appointed Lieuts. in the Royal Marine Light Infantry:—Herbert Wybault Colvin, and Arthur Brine; Feb. 1, 1877.

APPOINTMENTS.

Captains—M. A. S. Hare, to Eurydice, commissioned; and C. F. Hotham, to Royal Adelaide, additional, for Charybdis, when recommissioned at Hong Kong.

Lieutenants—B. R. Bradford, to Royal Adelaide; J. E. Blaxland, to Minotaur; F. H. Tabor, S. A. B. Burney, and W. E. Black, to Eurydice, commissioned; H. S. Clarke, to St. Vincent; R. B. Fulford and F. O. Thomas, to Audacious, additional, for Hart, when recommissioned; A. W. Moore, F. H. Harvey, H. B. Warren, and R. M. Bunbury, to Audacious, additional, for Charybdis, when recommissioned; F. D. S. Scott, to Audacious, additional; J. D. Nicholls, H. S. F. Niblett, and J. P. Pipon, to Audacious, additional, for Modeste, when recommissioned; C. B. Neate, to Endymion; and W. A. L. Q. Henriques, to Valiant.

Sub-Lieutenants—The Hon. E. R. Gifford and H. S. Edmunds, to Eurydice, commissioned; A. R. M. Creagh and F. H. Freeman, to Charybdis, when recommissioned; and E. J. Bain, and F. A. G. Dale, to Modeste, when recommissioned.

Alexandra, Capt. R. O'B. Fitzroy, flagship of Vice-Admiral Hornby, is ordered to leave Chatham on the 14th inst. for the Mediterranean, to relieve the Hercules. It is stated that H.R.H. the Princess of Wales, who named the ship, has expressed a wish to inspect her in sea-going trim, and will visit Chatham for that purpose in a few days.

Antelope, Lieut.-Com. J. C. Burnell, arrived on Jan. 27 at the Piræus with Sir H. Elliot, and left again to re-embark his Excellency at Corinth, for conveyance to Brindisi. She will then go to Malta.

Assistance, Capt. F. M. Prattent, has been delayed at Portsmouth, as the court of inquiry found it difficult to decide what to do with respect to her boilers, parts of which seem to be uncovered with water when the ship heels over five degrees, and when the water is half way up in the gauge glass. She sailed yesterday with supernumeraries for Lisbon and Gibraltar.

Audacious, Capt. P. H. Colomb, flagship of Vice-Admiral Ryder, was at Hong Kong on Dec. 21.

Avon, Com. L. C. Keppel, was at Loanda on Nov. 29, and would leave that day for the South with Mr. Consul Hopkins on board. She had before conveyed him to Ambrizette and Kinsembo.

Barracouta, Capt. C. E. Stevens, arrived on the evening of the 4th inst. at Gibraltar, all well. She would be coaled and provisioned, and will be ready to leave to-day.

Beacon, Com. H. Dunlop, was at Monte Video on Jan. 2.

Boxer, Com. A. H. Alington, is reported as completed for sea, her machinery having been repaired by the Keyham officials. During his recent official visit to Devonport the Controller of the Navy went on board the vessel and made various suggestions, which have been carried out.

Challenger, Capt. Hardinge, flagship *pro tem.* of Rear-Admiral Phillimore. A shocking accident has occurred on board a steam launch belonging to this ship, which was outside the harbour for practice. The boat's gun jumped out of the chock upon which it was resting, and, falling backwards, struck a seaman named Tyrrell, jamming his head against the boiler, and killing him instantly. The Penelope is to be completed by the end of June, and will then resume her station as guard ship of the naval reserve at Harwich, now temporarily occupied by the Challenger.

Charybdis, Capt. T. E. Smith, has been ordered to tow the Lapwing from Hope Sound to Shanghai, that she may be repaired after her recent grounding.

Cockatrice, Com. A. J. Musgrave, will be completed at Malta on Feb. 17.

Contest, Lieut.-Com. G. W. Allen, was off Jackin. She has been recalled to Whydah to coal.

Coquette, Lieut.-Com. W. E. Darwall, will be completed at Malta on March 31.

Cracker, Com. C. H. Hawkins, was sent to Buenos Ayres to relieve the Ready, on arrival of the Foam on Dec. 18.

Cygnet, Lieut.-Com. R. F. Hammick, has been sent to Jackin.

Devastation, Capt. F. W. Richards, arrived at Corfu on Jan. 21, and will rejoin the flag.

Egeria, Com. A. L. Douglas, returned to Hong Kong on Dec. 18, from the Sulu Sea.

Fox, Staff-Commander Joseph G. Dathan, arrived in Plymouth Sound during Tuesday night from Pembroke, and went into harbour. She was placed in the basin at Devonport Dockyard, and after unloading will take on board stores for the Eastern yards.

Foam, Lieut.-Com. Hope, arrived at Monte Video on Dec. 18.

Helicon, Lieut.-Com. R. W. Stopford, arrived at the Piræus on Jan. 26 from Malta with the Duke and Duchess of Edinburgh.

Hercules, Capt. Bowden-Smith, flagship of Admiral Sir James Drummond, was at the Piræus up to Jan. 28. She left Vourla Bay on Jan. 20 with the Triumph, Sultan, Monarch, Pallas, and Wizard, and arrived at Salamis Bay on Jan. 21. The correspondent of the *Times* with the Mediterranean Fleet writes:—"On leaving Vourla, the Triumph, which seems to have a run of ill-luck, nearly came again into collision with the Monarch, the former suddenly losing her steering way and falling across the bows of the latter. As both ships were moving very slowly, the Monarch was able to stop and go full speed astern in time to prevent an accident. It is said that a stoker belonging to the Triumph shut off by mistake the valve which gives steam communication to the steam steering gear from the boilers. The Rupert arrived yesterday from Malta with her starboard engine disabled." Vice-Admiral Sir J. C. D. Hay, M.P., writing to the *Times*, says:—"In justice to the officers of her Majesty's ship Triumph, whose narrow escape of collision is alluded to in your naval correspondence, it is fair to remark that the boilers of the Triumph are in so bad a condition, that it is impossible to maintain a sufficient head of steam to obtain anything like full speed, or to handle the ship with precision and safety." On Jan. 20, when well out at sea, the fleet being under all plain sail, a signal was made to reef topsails, as the wind was increasing. The evolution over, a man of the Hercules fell overboard from the mizentop rigging. Sails were backed, and boats manned and lowered immediately. Sergeant George Burnett, R.M.L.I., and a seaman named Ellis were at once overboard after their shipmate. A strong wind was blowing and a heavy sea running at the time. When the accident occurred the ship was under steam and sail, going at the rate of nine knots per hour. The men were soon far astern; but they were picked up by one of the boats. Sergeant Burnett and Ellis received the congratulations of both officers and men for the gallant attempt they made. Both the sergeant and the seaman have already distinguished themselves by former acts of bravery. Sergeant Burnett at present wears the medal for conspicuous gallantry in the field during the Ashantee war, and this is the third act of saving life at sea by Ellis. The Admiralty will, doubtless, recommend them for the Royal Humane Society's Medal."

Indus, Capt. Curme, flagship of Rear-Admiral Willes, is no longer to have drafts of Royal Marines embarking composed of selected men, the Admiralty having directed that in future the men required for duty in this ship are to be detailed from the roster.

Jumna, Capt. J. D'Arcy, arrived at Malta on Feb. 5, and sailed on the 6th for Bombay.

Kestrel, Com. C. B. Theobald, is ordered from Hankow to Ichang.

Lapwing, Com. Sir W. Wiseman, Bart., was to be towed from Hope Sound to Shanghai, about Dec. 17.

Magpie, Com. C. V. Anson, arrived at Singapore on Nov. 18, and would remain in the Straits of Malacca until further orders.

Mallard, Lieut.-Com. A. W. Warry, on her return to Ascension from St. Helena, would refit, and then go to the West Coast.

Minotaur, Capt. Lord W. Kerr, flagship of Vice-Admiral Seymour, C.B., has had a fatal drill accident on board, Robert Cutting falling from the mizentop-gallantyard to the deck, and being killed on the spot. He was buried in the English cemetery, and the funeral was attended by Vice-Admiral Seymour. Lieut. H. F. Kemble has been invalided home.

Monarch, Capt. Culme Seymour, conveyed Lord Salisbury to Kalimaki on Jan. 27.

Pallas, Capt. Beamish, arrived at Malta on Jan. 29 to have a spare tiller fitted, and would leave again, if possible, on Feb. 6, to rejoin the flag.

Pioneer, Lieut.-Com. E. Hotham, left Jackin on Dec. 21 for Monrovia, to await the arrival of the Spiteful.

Rapid, Com. A. A. F. FitzGeorge, left Vourla on Jan. 20 for the Dardanelles.

Ready, Com. S. Grove, reached Monte Video on Dec. 24. She was inspected on the 27th, and sailed on Dec. 30 for Gibraltar, with permission to call at Ascension and Cape de Verde if necessary. The Ready will have been nearly four years in commission when she reaches Gibraltar, having been commissioned at Chatham on April 15, 1873, and orders are waiting her at the Rock to proceed to England to be paid off.

Research, Capt. H. Earle, arrived at the Piræus on Jan. 26 from Salonica.

Ringdove, Com. U. C. Singleton, left Hong Kong for England on Dec. 19, *viâ* the Suez Canal.

Salamis, Com. F. W. Egerton, arrived at Lisbon yesterday.

Seagull, Com. F. W. Heron, was tried under steam at Plymouth on Thursday. The result was satisfactory.

Sealark, Lieut. F. H. Haygarth, arrived at Lisbon from Plymouth on Jan. 25. Her head knee has been found to be exceedingly rotten, but is being repaired by the artificers of the squadron. She will not proceed to Cape de Verde Islands, to follow the other brigs, but will go to Vigo and Gibraltar.

Serapis, Capt. G. D. Davidson, left Portsmouth with troops for Bombay early yesterday.

Shah, Capt. F. G. D. Bedford, arrived at St. Vincent, Cape de Verde, on the evening of the 3rd inst., all well, and would leave again on the evening of the 5th inst.

Sheldrake, Lieut.-Com. Haye, on her way from Singapore to Hong Kong, would visit Labuan for about a week.

Sirius, Capt. G. L. Salivan, senior officer on the west coast, was at Whydah up to Dec. 30.

Sultan, Capt. H.R.H. the Duke of Edinburgh, was at Piræus on Jan. 26, when his Royal Highness rejoined his ship, having arrived from Malta in the Helicon.

Supply, Staff Com. F. Inglis, was at Appi on Dec. 30.

Tamar, Capt. W. H. Liddell, has had her bottom on the port side coated with a layer of Peacock's anti-fouling cement; the starboard side has been prepared with a coat of Crease's dressing, to receive a layer of Cromond's British and Oriental ship-coating paint, so that the action of the water of the China seas upon the two compositions may be constrasted upon her return. She will be taken out of dock as soon as possible after the paint is put on.

Vestal, Com. H. Hand, was expected to arrive at Aden before the 17th inst. from the African coast.

Thetis, Capt. T. Le H. Ward, had left the East Indies Station before the 7th inst., and is now homeward bound.

Thunderer, Capt. J. C. Wilson. It is probable that a couple of months will elapse before this vessel is ready for sea. Some experiments are now being tried with dummy torpedoes, discharged against the torpedo nettings, with the object of ascertaining whether they can force the crinolines. The Thunderer is fitted with a torpedo net, which extends along the whole of her starboard side, and which is capable of being boomed out upwards of 30ft.

Triumph, Capt. G. H. Parkin, flagship of Rear-Admiral Rice, arrived at Salamis Bay on Jan. 21 from Vourla Bay.

Valorous, Capt. L. F. Jones, has towed the Trincomalee to Southampton and returned to Spithead.

Volage, Capt. H. Fairfax, senior officer, was at Monte Video up to Jan. 2. She would leave in a few days for Colonia, to clean her bottom. Afterwards, about Feb. 10, Capt. Fairfax will leave in the Volage for the Falkland Islands and Patagonia, returning to Monte Video towards the end of April, or before if necessary.

Vulture, Com. H. H. Washington, arrived in Plymouth Sound yesterday, *en route* to the East Indies.

Wye, Staff-Com. W. W. Vine, was leaving Malta on Jan. 30, to rejoin the flag at the Piræus; amongst those she brought to Malta were Lieut. C. V. le Strange, of the Sultan, on leave; Lieut. R. S. Lowry and Sub-Lieut. Murdoch, of the Swiftsure, and other invalids for the Royal Naval Hospital.

NAVAL PRIZE MONEY.

The *London Gazette* of Tuesday gives notice to officers, seamen, and Marines, and to all persons interested therein, that the distribution of the tonnage bounty, &c., awarded for three slave dhows, the Salama and two names unknown, captured on Feb. 9 and 10, 1876, by her Majesty's ship Flying Fish, will commence on Tuesday, the 13th inst., in the Prize Branch of the Department of the Accountant-General of the Navy and Controller of Navy Pay, Admiralty, New-street, Spring-gardens, S.W. The following are the shares due to an individual in the several classes:—Flag, £48 8s. 1d.; commander, £140 7s. 6d.; third class, £47 11s. 1d.; fourth class, £31 14s. 1d.; fifth class, £19 0s. 5d.; sixth class, £15 17s.; seventh class, £11 2s.; eighth class, £6 6s. 10d.; ninth class, £3 3s. 4d.; tenth class, £1 11s. 8d.

RAISING THE VANGUARD.

The following particulars respecting the intended operations at the Vanguard wreck are gathered from a statement made by Captain Coppin, Manager of the Steamship Salvage Association, and which has appeared in the *Daily Journal* of Londonderry. Captain Coppin said:—

I intend beaching her by the means of floats. I shall procure large pontoons and bring her close to the shore. They will measure one hundred and seventy-five feet in length, fifty feet in width, and will have a depth of eighteen feet each. The pontoons will be divided into compartments, measuring twelve feet six inches square. They will be made to lift seven thousand tons. The chief difficulty will be to calculate what various weights the different sized steel-wire ropes will bear. These pontoons will be constructed immediately in Glasgow, at a cost of £10,000 each, the four to cost £40,000. Well, I should say, off and on, about £60,000 will be the cost of raising the vessel. I have agreed to this. I raise the Vanguard and place her in one of the dry docks of the Government. I then offer the vessel to the Admiralty for the sum of £175,000. If they refuse to take her, they are then bound to sell her to me for £20,000. If she should not be floated, Government takes all the articles, or any portion of the ship from me at two-thirds its value. I would much rather the Government would allow me to buy her, but they won't. The Russian Government would buy her up at once. The Admiralty will pay me £175,000 if I float the Vanguard, but they would have paid me a great deal more before they would allow the vessel to pass into the hands of a foreign State. The Russian Government would have paid me a pretty high figure for her, and would have been glad to get her. Should I not be able to raise her I will break her to pieces. The guns in the batteries are worth £4,000 each, but Government only offer £250 each for their recovery. No person has been on the deck of the Vanguard yet. The pressure of the water is too great. I have, however, patent diving apparatus, by which divers could go down twice the depth of the vessel. I shall have steel-wire ropes passed under the bottom of the ship and attached to the pontoons. I then allow the air-tight compartments of the pontoons to fill with water, and sink them to a depth of a certain number of feet. While in that position I cause the steel-wire ropes to be made tight. Then with the aid of centrifugal pumps, capable of pumping 120 tons of water per minute, I pump the pontoons dry. Something must, of course, rise. The pontoons will come to the surface, and the Vanguard will be lifted a proportionate distance. In this position she is drifted towards the bank, and the operation repeated again and again until I have her in shallow water. The terms of the agreement stipulate that I must commence before the end of March. I will begin by removing all moveables about the vessel and the *débris*, which must have collected about her by this time. Failure from a financial point of view is an impossibility. I am the managing director of the Steamship Salvage Company, an association which has been formed in London for the object of raising sunken steamers. If the Vanguard cannot be lifted there are any number of wrecks along the coast to raise which, with the means at our disposal, would be comparatively easy.

The three men of the Dromedary who put off in the dingy in a heavy sea to endeavour to save one of the crew who fell overboard have received a communication from the Admiralty expressing their Lordships' admiration of their courageous conduct in making the attempt at saving the life of their shipmate.—*Hampshire Telegraph.*

A formidable Russian squadron, says the Berlin correspondent of the *Morning Post*, consisting mainly of ironclads, is to enter the Mediterranean in the spring. The Grand Duke Constantine will hold the chief command, with Admiral Popoff for his chief of the Staff.

To Those Abroad or About Going.—Advertiser desires to receive, especially from persons in isolated or hill districts, specimens of the different butterflies found in their neighbourhood, which can be collected and sent home (per parcels post) in cigar or cardboard boxes, not pinned, but merely folded up when caught in pieces of paper. Also beetles. Value remitted by return. Address, William Watkins Naturalist, 21, Caves Terrace, Shepherd's Bush, London, W.

STEAM PROPULSION.

The last lecture of the present course was delivered on Wednesday at the Royal Naval College, Greenwich, by Mr. W. H. White, Assistant Constructor of the Navy. Steam propulsion was the special subject of the discourse, the various rules by which the naval architect approximates to the engine-power required in a new design being explained and illustrated by examples. The efficiency of the screw, paddle, and water-jet as propellers was discussed and compared, interesting information being given of the recent trials with the jet-propeller in the Waterwitch. Economical propulsion, it was shown, had sometimes to be placed in a subordinate position because other conditions were more important, and this consideration justifies the adoption of shorter lengths and greater beam in ironclads of recent design than were adopted in the magnificent but unhandy vessels of the Warrior and Minotaur classes. The circular ironclads were mentioned as extreme forms; useful, perhaps, as floating fortresses possessing powers of independent locomotion, but not as types of seagoing ships intended to obtain a speed of 12 or 14 knots under steam. In fact, without vast increase in size and cost, a circular vessel possessing the steaming and fighting qualities of an Inflexible or Devastation could not be built, the ratio of power of engines for equal speeds being about five times as great in the circular ships as in the other vessels. Attention was also directed to the remarkable speed of 16 or 18 knots attained by the swift steam-launches of 50 to 100 feet in length, and it was shown that these vessels differed entirely from seagoing ships in build, engine construction, coal supply, and equipment. Hence, it cannot be fairly argued from their performances that corresponding results could be obtained in ships capable of keeping the sea, unless marine engineers altogether depart from their present practice and give a vastly greater power in proportion to the weights of their engines. Economical consumption of fuel in the launches is of no importance; in a seagoing ship it is all-important. Maintenance of speed at sea is also favoured by great size and length in ships, and this would tell against small vessels having great smooth-water speeds, even if there were no difficulties involved in their construction.

THE "NEWCASTLE" CATASTROPHE.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

Sir,—That you have, indeed, unfolded a "harrowing tale' in your leading article in last week's paper, treating of the unfortunate loss by drowning of Mr. Wingfield, midshipman, and three men of H.M.S. Newcastle, I would be the last to deny; but as one who has recently served in the Detached Squadron I ask your readers to suspend their judgment until an opportunity has been afforded to the captain of making known his version of the melancholy accident. Capt. R. Gordon Douglas is a personal friend of mine, and I ask leave to bear my individual testimony to his qualifications as an officer and a seaman, while I cannot believe that one who is endeared to his many friends by his peculiar sympathetic warm-heartedness can be capable of deserting any one in distress.—I remain, &c., E. R. Fremantle, Captain.

London, February 5.

[We gladly insert this letter, and while asking for a searching enquiry we felt it only just to state in giving the facts as they reached us, that "it is only fair to say that in the letters in which they are contained there is not any shadow of personal feeling against Capt. R. G. Douglas." We may further remark that we have not been alone in calling attention to the feeling prevailing on board the Newcastle, the matter having been referred to in papers published at Portsmouth and Plymouth.—Ed. A. and N. G.]

PROPOSED ATTACK FORMATION.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

Sir,—Some of the principal objections that have been raised as to the attack formation now in use are:—1. Different companies get mixed together. 2. The command is practically taken out of the hands of the lieutenant-colonel and given into those of the majors, who may, or may not, act in perfect concert together. 3. At the outset intervals are left between companies and half-battalions; consequently, supposing the skirmishers move straight to their front, when all the lines have closed up, they actually stand in a thinner line than in the old two-deep formation, even if no casualties have occurred during the advance. 4. It is necessary that the battalion should consist of eight or ten companies, six being unsuitable. I venture to propose an attack formation, for which I claim the following advantages:—1. The companies are not mixed. 2. The command remains with the lieutenant-colonel. 3. The line is not unduly extended, and, therefore, still remains within the reach of his voice. 4. It gives three or four lines of attack, as may be thought necessary. 5. It is suitable to a battalion of any number of companies, and, therefore, requires no change of organization. 6. It can be taught in one morning's drill to any battalion that has practised the present attack. The method is this. The battalions of the brigade having deployed into line beyond the zone of fire, the brigadier orders the brigade to form for attack, on which the lieutenant-colonels order their battalions to form fours-deep. At the order to advance in attacking order, the right files of the front rank move off as the first line, preserving their distances, and accompanied by such proportion of officers and non-commissioned officers as may be necessary. At 100 or 150 paces they are followed by the left files, front rank as a second line. If three lines are thought preferable, the rear rank men can then be brought up as "files in loose order," or, if four lines are needed, the right and left files can move off in succession, as was done by those of the front rank. During the advance, the second line will close on the first, the men entering the intervals on the left of their right files; the third and fourth lines closing up in turn, the battalion will eventually stand exactly as when it started (less casualties, of course). No companies will be mixed, and the lieutenant-colonel, assisted by his majors, will be able to superintend his battalion just as well as he has done at skirmishing drill for the last twenty years. In the case of a flank battalion, the outer half-battalion may be held back to cover the flank as at present. Alternate rushes of the front line may be made by companies or half-battalions.—I am, &c., G. H.

Aldershot, Jan. 26, 1877.

Sir,—There appeared lately in your paper an article, which served as the text for a leading article in the *Daily Tele-*

graph, in which it was stated that the formations for attack prescribed by G. O. 40 of 1876 have proved entire failures, and it was recommended that a battalion should in preparation for an attack be formed in fours deep, and that the four lines so formed should advance in succession. May I trespass so far on your courtesy as to ask for the insertion of a few words with reference to a subject of such great importance? In the first place, with regard to the proposed method of advancing to the attack, several difficulties at once show themselves. Who is to command each of the four lines of a battalion? With which of the four parts into which each company will be divided is the captain to be, and who are to be in charge of the other parts? The solution of these questions would present difficulties, though it cannot be said that they would be insurmountable. A more serious and it appears fatal objection to the scheme is, that it could not possibly effect the object which it is intended to secure except in the case of an attack over perfectly open, even ground, an extremely unlikely contingency under modern conditions of fighting. The object expected to be gained is the prevention of intermixture of companies when the rear lines join the first in the later stages of the attack. This object might be secured by the system in question if the advance was made direct to the front over open and even ground. But what would happen in the far more likely case of the attack being made over ground more or less broken, when the firing line swayed to one side or the other to find cover, or when from the attractive force of occupied localities the attack converged on certain points in the enemy's line? Under such circumstances it is scarcely conceivable that the parts of companies in the rear lines would be able to continue to cover their advanced portions, and still greater confusion would ensue than in the regulation formation in which the companies are kept together—at all events, for a considerable time. In fact, the regulation formation would tend to reduce the intermingling of companies to a minimum, for the reinforcement of the fighting line would, in reality, not usually take place by the bringing up of a fresh company immediately in rear of another and the dove-tailing of the men of the two companies together, but by the bringing up of the fresh company as a whole to extend the line to a flank, or to fill up a gap which has been formed by the natural tendency of men to converge to certain points which have to be carried, and to close in to one another as casualties occur. Therefore the fact of the second and third lines being composed of different companies from the first would tend to avoid confusion rather than to cause it. It must also be borne in mind that it will not always be possible to keep exactly to the normal course of action theoretically laid down. It may be necessary to use the rear lines not merely to strengthen the first line for its advance straight to the front, but also to extend the line to the right or left, to outflank the enemy, or to meet a counter-attack. Under these circumstances great advantages will ensue in having the rear lines formed of units distinct from those of the first line. On the whole, therefore, it appears as if the formation prescribed in the G. O. would be more suitable to all circumstances than the one four deep. And there seems no good reason why British soldiers should not learn to use it, although no doubt practice is required; in fact, it would probably not be so difficult to carry out as the advance of long thin lines, the slightest irregularity in which would infallibly cause the mixing up of companies it is intended to prevent.—I am, &c.,

E. CLAYTON, Capt. R.A.,
Professor of Military History, R.M.A.
R.M. Academy, Woolwich, Feb. 2, 1877.

ARMY MEDICAL DEPARTMENT.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—There are long-standing grievances unredressed, but the present feeling of deep and widespread discontent is of recent creation. It had its origin with the March Warrant of 1873, and supplementary Warrants since then have only aggravated the evil. There are those who would blame the "short service system," but the main cause of the unpopularity of the department is unification, and, depend upon it, the restoration of popularity will never be effected until regimentalism, in one form or another, is reintroduced. In practice, the unification of the department, in an Army constituted as ours is, is impracticable and unworkable. Of this, proof exists in the many changes resorted to since 1873 and the present attenuated ranks of the department. A steady process of declination set in shortly after the period mentioned, and it has ended in disorder and inefficiency. I would venture to suggest that if the following expedients were resorted to, men of high professional attainments and social status would be found in any number.—1. The appointment of a general officer to direct the department. 2. The division of executive medical officers into regimental and staff, each under a combatant head, to whom and through whom correspondence on sanitary and statistical matters should pass, the former to be dealt with locally, the latter to be collected and collated by the Local Government Board. Were this done, would there be any further necessity for the administrative grade of medical officers? If not, three very important desiderata would be secured.—I am, &c.,

POPULARITY, EFFICIENCY, AND ECONOMY.

SIR,—As you have opened your columns for an expression of opinion on the recent changes in the Army Medical Department, I should like, with your permission, to contribute a few remarks. The new system, with such minor modifications as may from time to time become necessary, will work well enough, and be a success if the following changes are introduced:—A popular designation for the department, in which should be contained in one corps the medical officers and hospital orderlies, in order that there may be an identity of interest and feeling. The same uniform should be worn, and the traditional scarlet of the hospital staff, now 216 years in existence, be retained. Short service should be abolished and retirement stimulated by offering increased inducements at twenty years' service to go on the Half-Pay List, and a bonus to officers of less service who may voluntarily wish to avail themselves of it, calculated at the estimated value of one shilling per diem for each year of service. An officer obliged to leave the Army at any time from ill-health contracted in and by the Service should be entitled to half pay. This alone will give a feeling of security against the risks of climate, which so many fall victims to. The age of the candidate should not exceed twenty-five years. All officers who entered under the Warrants of '58 and '67 should be assured in the terms of these Warrants, and the rate of pay and promotion of the last Warrant be made general. Promotion should be by seniority and the examination for promotion reintroduced. The authorities, by this and other practical tests, can keep the higher ranks as select as they please. It should also be intimated that only a certain number of trials would be allowed, failing which the officer would be barred from further advancement. After passing through the Medical School, young officers should go through a course of equitation and hospital drill at Aldershot. Officers of twenty years' service should be styled senior surgeons-major, and rank with other officers according to date of commission. The privilege which Staff surgeons have always held with other Staff, departmental, and educational officers of being entitled to the same quarters and allowances should be at once restored to them. A recent regulation on this subject has been universally and justly condemned as placing medical officers in a position of inferiority to all other Staff and departmental officers. As was the case in regiments, mounted officers should have the privilege of having a soldier-groom; without this privilege a horse is valueless. With regard to medical officers availing themselves of the mess, the arrangement might be left to the individuals themselves. If a medical officer expresses a wish to become an honorary member of the mess of the regiment of which he is in charge and does not make himself objectionable, I do not suppose there will be any difficulty on either side. I have never found any, nor the majority of Staff surgeons. A few extra Good Service Pensions might be given to surgeons-major who have been obliged to retire without being promoted to higher ranks if deserving. Reasonable exchanges should also be allowed, and the British and India Departments be amalgamated into one great professional Service, as was the English and Indian Artillery and Engineers, candidates at all future examinations being passed for the united corps.—I am yours, &c.,

X. Y. Z.

THE PREVENTION OF SCURVY.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—I have noticed several articles in the British newspapers and journals lately on the subject of scurvy among seamen, and Sir George Nares, since his return from the Arctic regions, has expressed a hope that the medical profession would discover some preventive. I believe a more certain and agreeable remedy, or rather preventive, than lime-juice may be found in the fruit of the tomato, which is largely grown, and is a favourite article of diet in this country. It has an acid flavour, which renders it very agreeable to many persons, and it promotes the action of the liver, which renders it valuable in tropical heat. It is used here both cooked and raw. Baked or stewed with bread crumbs at dinner, and raw with pepper and salt at other meals, even children become so fond of them that they eat them as they do apples. Of late years a plan has been adopted of preserving the tomato, during the season of its abundance, for winter use. It is partially cooked, the thin skin taken off, and then put up in tin cans hermetically sealed. It is so plentifully produced in this part of Canada, and with so little labour, that in the height of the season it is sold at a shilling sterling the bushel, and if put in large cans, say 50lbs. (which it might be for the use of the Navy, as it would require about that quantity at a meal for 200 men), it could be supplied at a moderate expense. Seamen would no doubt relish it greatly with salt meat, and prefer it to lime-juice, which, I believe, they greatly dislike. It would be a food and not a medicine, and, prepared with a proper proportion of broken biscuit, it would form a vegetable diet substantial as well as beneficial.—I am, &c.,

JOHN MACKELEAN, M.R.C.S. of London.
Hamilton, Ontario, Canada, Jan. 24, 1877.

THE BANDA AND KIRWEE PRIZE BOOTY.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—We send you some papers connected with the Banda and Kirwee Booty, and also the accounts showing a balance against the fund of 15,236rs. We have been exposed to much unjust and unfounded accusations, but if you will do us the favour to read the enclosed, you will, we think, admit that we have in every way in our power exerted ourselves to promote the interests of our comrades, which are, it is evident, identical with our own. The object of some parties is to make it appear that we, the Prize Agents, are answerable for the adverse decisions of the Government.—We remain, Sir, your obedient servants,

G. HOLMES, Colonel late R.E.
J. HORAN, Lieut-Col. late 43rd Lt. Infy.
Prize Agents Banda and Kirwee Booty.
Whithorne, Charlton Kings, near Cheltenham.
Jan. 27, 1877.

[The Prize Agents are certainly not blameable, and they have a just right to complain of the treatment they have met with. —ED. *A.* and *N. G.*]

HOW THE MONEY GOES.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—In the days of the Barrack Department, when charges for barrack damages were submitted against the troops, two War Office forms were used to recover the value of articles lost, damaged, or destroyed; articles for exchange were taken to the Barrack Stores, and others issued in lieu. But those days are gone. Of late years, both in the Control and Commissariat Department, five forms are submitted, each form being printed on a full sheet of paper. Can any of your military readers inform me what use is made of these forms? What department are they for? For what pigeon-hole are they destined? Whether the sums to be recovered are large or small, the same number of blank forms require to be filled in? Multiply every regiment, corps, brigade, or detachment by five, and again by twelve, this will give some idea as to how much the increased cost has become annually for recovering barrack damages. The Royal Engineer Department use only two forms to recover barrack damages, and an acknowledgment by the officer commanding for the amount due to the public.—I am, Sir, your obedient servant, ONE WHO KNOWS.

Feb. 1, 1877.

THROAT IRRITATION.—The throat and windpipe are especially liable to inflammation, causing soreness and dryness, tickling and irritation, inducing cough and affecting the voice. For these symptoms use glycerine in the form of jujubes. Glycerine, in these agreeable confections, being in proximity to the glands at the moment they are excited by the act of sucking, becomes actively healing. Sold only in 6d. and 1s. boxes (by post for 14 stamps), labelled "JAMES EPPS and CO., Homœopathic Chemists, 48, Threadneedle Street, and 170 Piccadilly, London."

THE EXTRA SHILLING.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—Seeing a letter from a "Poor Ranker" in the *Standard* of Feb. 5 relative to the allowing part of service in the ranks to count towards the extra shilling granted to subalterns after ten years' service, I fully coincide with him in everything he has put forward, and I can only surmise that the authorities must in some way or other have overlooked our claim, or else it has never been brought to their notice. Every one knows that the chance of getting promotion from the ranks is very small indeed, and that a non-commissioned officer who is fortunate enough to obtain a commission must be an intelligent man highly recommended by his colonel, and, in fact, must be far superior to the class of men now enlisting into the Service. It is also well known that an officer so promoted is generally the hard-working man of his regiment. To show you that our cause is not unworthy of your notice, I will instance a case I saw in the papers a short time since. In looking over the names of the non-commissioned officers and men who were granted good-conduct medals, I observed that of a sergeant in a certain distinguished regiment; a short time afterwards his promotion to a sub-lieutenancy appeared in the *London Gazette.* Now, he must have served eighteen years to obtain the good-conduct medal, and he must serve ten more as a commissioned officer under the present rule before he becomes entitled to the extra shilling—twenty-eight years altogether. Surely our case needs no comment from me. I trust you will take up the cause of the poor RANKER.

ARMY RETIREMENT.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—As an old—a very old—soldier born in the Service, I beg permission to say a few words in behalf of a class of deserving officers whose claims have never been fully considered. I allude to the old and poor subalterns, many of whom were jumped over twelve and thirteen times after they became the seniors of their grade by far junior officers who possessed the advantages represented by well-filled purses. As if the mortification of such supersession was not in itself sufficient, the recent Commission recommends that they be compulsorily retired after twenty years' service, while their former juniors should be allowed twenty-five years and other advantages. Why should not inducements be held out for voluntary retirement? It is preposterous to thrust men out of the Service, *nolens volens*, in the prime of life, and at an age when it is too late to enter other professions.

February, 1877. W. H. N.

MUSKETRY AT DELHI.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—With reference to a leading article in a recent impression on the effects of rifle shooting on dummies, as lately practised in India, showing such favourable results, I beg to state I recollect quite as good results in action, and with an inferior rifle, the Minie. At Inkerman the late Sir Thomas Trowbridge, 7th Fusiliers, was the field officer in command of the 5th Gun Battery in front of the Light Division. At about 10 o'clock he sent to the Victoria Redoubt for a company of the 7th Fusiliers to relieve a company of the 23rd Fusiliers in that battery who had fired away all their ammunition. It was this fresh company's firing that I particularly observed. The men at first lined the parapet and fired indiscriminately at all the Russians within view; but Sir Thomas ordered them to cease firing, and then pointed out a Russian field battery of six guns, unlimbered, and enfilading our battery, and told them to fire at the gunners of that battery of Artillery. The men, taking advantage of two traverses in the battery, and resting their rifles on the parapet, took steady aim at the Russian gunners at 700 yards. The effect after a few rounds was wonderful. The battery was silenced in less than five minutes, and then the horses were seen coming over the crest of the hill, and commenced dragging the three nearest guns to us away over the hill and out of sight. But they were not let off easily, and lost several of their horses and drivers in so doing. And again the same thing happened when they attempted to remove the remaining three guns. I was an eye-witness to the whole affair, and can therefore vouch for the accuracy of the above. —I am, &c., FUSILIER.

The *Times of India* thus pleads in favour of the purchase officers:—"They are brought face to face with this state of things. Their former investments are recognised by the Purchase Commissioners as having a certain value which they can realise if they like; but if they are killed in action, this money is forfeited to the State. As we have heard it put by a Cavalry colonel, the case stands this way:—'If my regiment charges an enemy, I ride forward, twelve paces in advance, with twelve thousand pounds of my children's money on the point of my sword. If I am killed, they lose that money irretrievably.' The situation is profoundly serious for many officers. Shall they disregard the interests of their children, or shall they take the intensely painful step of quitting the Service and claiming their money on the eve of a war? The refusal of the authorities at home to grant officers the privilege of bequeathing their claims on the Purchase Commission, is one which we can only explain on the assumption that the essential point of the case has been misunderstood. No fresh obligations would be undertaken by Government if that concession were made. The money claims of all officers have long been formulated, in principle, if not in every case in amount. Every officer with such claims would be privileged, if he chose, to send in his papers to-morrow, and demand his money, which Government would be bound to pay. How is it possible that Government can refuse when officers say—'Let us go into action and fight for our country, but give our money, which you now hold in trust, to our children if we are killed?'"

We (*Whitehall Review*) have reason to believe that further important changes in the formation of the Commissariat and Transport branches of the Army are contemplated by the War Office. It is understood that henceforth examinations for the Control will cease, and that all newly-appointed officers in the Supply and Transport Departments of the Army will be taken from the Line.

It is said that the scheme for the reorganisation of "The Indian Marine," which was drawn up by Capt. Bythesea, R.N., and submitted to the home authorities for approval, has arrived in Calcutta, and will, we presume, be made public at an early date.—*Bombay Gazette.*

LINE OF THE DANUBE.

The following, extracted from the *Revue Militaire de l'Etranger*, describes the relative importance of the several points at which the passage of the Danube might be effected, and will at this time no doubt be of interest to our readers:—

The right bank of the Danube from the confluence of the Timok to Rustchuk forms a continuous terrace without any great undulations, and only parted in places by the water channels formed by the streams which flow from the Balkans. This terrace is often terminated by steep slopes, washed at their feet by the Danube. The Roumanian bank is on the other land a low plain, formed of clayey soil and covered by large tracts of meadow land, which, when the water is high, are submerged by the streams which serpentine through them.

The first fortified town which is met with in descending the valley is Widin (about 30,000 inhabitants). Being placed close to the edge of the river, at a point where the high banks on the right bank fall away from it, it is on low and marshy soil. This situation enables it to command thoroughly the course of the river, and the islands on it, but, at the same time, it is itself commanded by the surrounding positions on the right and left bank of the river. In order to compensate for the natural weakness of the position, it has been necessary to accumulate artificial defences. On the land side Widin is enclosed by two concentric fortified *enceintes*: the first, which surrounds the old town and the new quarters, is only a simple earthern parapet 3 metres high and 4 metres thick; in front of it is a ditch 3 metres deep. This line is flanked by eleven redoubts, between 500 to 600 metres apart, and made each to receive six guns. The redoubts at either extremity of this line form the *points d'appui* of the *enceinte* on the Danube; they are of a stronger construction than the others, and possess a rivetted escarp. The second *enceinte*, which is in the shape of a half circle, the Danube forming the diameter, is, on the land side, composed of seven bastioned fronts, and on the river side of two parallel walls, near to each other, and traced *en crémaillère*. The bastioned fronts have in front of them a ditch, whose width before the bastions is about 17½ metres, and depth 5.60 metres. The escarp and counterscarp walls are 8 and 4 to 5 metres high. In front of the ditch is a covered way, with places of arms and a lunette in front of the four gates of Stamboul, Londze, Bazar, and Flortin. The wall of the *enceinte* on the side of the Danube is exposed to view for its entire height of 5 to 6 metres; its thickness is 3 to 4 metres. The interior wall, crenulated at the top, is 7 to 8 metres high. Posterns lead to five gates arranged at the foot of the rampart for sorties. Besides these two *enceintes* Widin possesses an old castle, which has in past times, acted as an interior redoubt, but which is now used as a magazine for war material. The armament of the place consisted, in last July, of 120 Paixhans cannons of 9, 11, and 17 inches; 12 Krupp guns of 3½ inches (field guns); 16 mortars, of which two are 26 inches. They were to be reinforced by twenty-four Krupp guns of 5 or 6 inches (?). According to a correspondent of the *National Zeitung* this armament had a little different composition, viz., sixty-two large Krupp guns, and eighty-five other pieces, total 147. Such is the character of this celebrated place Widin, named on all sides as one of the bulwarks of the Turkish Empire; able to oppose some resistance from an attack coming from the south, less on account of the strength than of the number of its defences, but perhaps able to be completely destroyed by batteries established on the other bank of the river at Kalafat. Widin without Kalafat is like a body without a head. From Widin starts a road which almost constantly keeps by the side of the river, and singularly facilitates the observation of its banks.

Fifteen miles south-east of Widin, near where the Lom River flows into the Danube, is Lom Palanka, a small town, but one of the most important stopping places of the Danube steamers. Lom Palanka is on the heights which command the course of the river, and possesses a "kaleh" or castle, occupied wholly by Turks and guarded by them. The parapet is earthen, but has a strong relief. In plan, the work is a square with sides 190 metres long; it has flanking towers at each angle armed with artillery. Besides this redoubt, which communicates with the town (to the south and west) by two gates, the Turks have recently erected three epaulements for batteries, in order to defend the passage of the river, and to cover the postal road to Pirot, the road by Berkowatz to Sofia, and the road to Wratza. These batteries could, if required, cover the passage to the left bank of a Turkish column ordered to take Kalafat in reverse. Kalafat is now occupied by three to four thousand Roumanian troops, who are actively engaged in placing it in a state of defence.

Lower down, opposite the confluence of the Schyl, is Rahova (3,600 inhabitants), a place formerly fortified, and from whence a road starts leading to Wratza and a country road to Plewna. A little further down is Ostrowa, the point of passage of the Russian Army in 1810. Are the Turks thinking of entrenching either of these positions? The *Journal de Génève* says batteries are being established by the Turks at Ostroveni (Ostroveni is on the Roumanian bank opposite Rahova; the correspondent therefore confuses the names). However, it must be said that the best point of passage between the confluence of the Schyl and the Aluta is the village of Celej, opposite to the mouth of the Isker, an affluent of the right bank.

In continuing the descent of the valley, Nicopolis is reached, an anciently fortified place dismantled by the Russians in 1811, and now possessing 8,000 souls. The heights on which the greater part of the place is built see into Islasch and Turnu (the old tête-du-pont of Nicopolis), and all the course of the Aluta, one of the most considerable affluents which fall into the Danube from the Roumanian side. This river passes Slatina, a station on the Bucharest-Severin line, and is navigable from this point, and thus could serve concurrently with the road from Slatina to Islasch, in transporting a pontoon train to the Danube. The breadth of the stream is here less than at any other part of its course. This points to its being the place of passage for either the Russians or Turks. If the Russians crossed here they could march on Sofia, Philipoppolis, or Kysanlyk. Although a good road leads from Sistowa to Turnow, the point where several roads leading across the Balkans unite, yet it is hardly to be thought that the Russians would invade Bulgaria from it. The left bank of the Danube, from Nicopolis to Rustchuk, presents the appearance of a vast marsh, and the difficulty they would have in crossing these inundated lands would be enhanced by the proximity of the fortress of Rustchuk.

Rustchuk forms part of the celebrated quadrilateral (Silistria, Varna, Schumla, Rustchuk) against which four times in the course of this century—1810, 1811, 1828, and 1853—the Russian efforts have been foiled. It is a town containing 40,000 inhabitants, and is situated at the confluence of the Lom with the Danube, and at the commencement of a plain which is raised 10 or 12 feet above the level of the river; this plain is at the foot of the heights, which here go backwards some miles from the edge of the Danube. The *enceinte* of the town is composed of a simple bastioned line, possessing a ditch and a counterscarp rivetted, except on the side of the river. It was formerly washed for a certain length by the Lom; but a little before the war of 1854 it was extended to the west, and now crosses the Lom, and occupies the point of the plateau comprised between the Danube and the left bank of its affluent. Thus modified, it nearly assumes the shape of a right-angled triangle of 60°, of which the hypotenuse, formed of six very irregular bastioned fronts, is washed by the Danube. The short side follows the edge of the heights, and the long side (the front, which would probably be attacked) looks over the plain. At the acute angles of this triangle are situated the western fort and the citadel, a bastioned work. The hypotenuse is broken outwards, and one of its bastions forms in the bed of the river a regular salient place of arms. In order to protect the *enceinte* there were formerly some small detached works, but which are now in ruins. In 1875 the Turks considered that new detached forts would be necessary to complete the defence of Rustchuk, but it was only last summer that they commenced constructing a polygonal fort on the road to Schumla, 1,500 paces from the *enceinte*, at the same time arming the western fort and the citadel with two Krupp 6-centimetre guns and reorganizing a small lunette on the plain half-way between the citadel and the heights. In October, however, they were still working at the piers of the bomb-proofs. They also talked of erecting two earthworks on the south side. Since then correspondents have often remarked upon the activity displayed in organizing the defence of the place. Time will alone show how much has been done and what has been left undone.

Totrokan is the next point of passage, and it has often been selected for this purpose in time of war. It is a small open town, situated opposite the mouth of the Argisch River, at a point where the Danube is separated by an island two miles long into two arms 170 and 535 metres wide. The site is, therefore, convenient for throwing a pontoon bridge across, but in summer only; for in the spring, when the inundations take place, the left bank of the river is absolutely impracticable. Totrokan had formerly an *enceinte*, but is too much dominated by the heights to be capable of offering any great resistance. The Turks, however, in 1854, erected a battery which commanded the left bank, and this, according to the *Journal de Génève*, is now being reconstructed.

(*To be continued.*)

THE ARMY MEDICAL SCHOOL.

The close of the 33rd session of the Army Medical School on Monday last was signalised by some little ceremony, Sir Garnet Wolseley, Sir William Muir (Director-General of the Army Medical Department), and Sir Joseph Fayrer (consulting physician to the India Office) being present, and giving to the proceedings some of that *éclat* the absence of which on previous occasions has always been felt by those connected with the institution at Netley as evincing on the part of the authorities a most discouraging lack of interest in the proceedings of the school and in the cause of military and naval medical education which it has so greatly elevated, to the benefit of the State no less than to that of our soldiers and sailors. There was a special reason for the attendance of Sir Garnet Wolseley, by whom the prizes were given away on Monday, as the representative of the India Office. The Secretary of State for War could not be present, Lord Salisbury had not returned from the East, and other prominent members of the Council of India were unable to leave London. But it was deemed expedient that one of that body should attend in recognition of this being the first occasion of the award of the Martin memorial prize. This prize, instituted by a number of those who were acquainted with his career and services in the advancement of sanitary medical science as a permament testimony to the professional renown of the late Sir Ranald Martin, consists of a gold medal, to be bestowed on the medical candidate of either Service who should display the greatest proficiency in military medicine, the subject on which Sir Ranald was so high an authority. Before handing the medal to the winner of it, Sir Garnet made a few preliminary and eminently practical observations to the young medical officers, urging on them that success or failure in life rested almost entirely with themselves. He strove to impress them with the conviction that each man might attain a certain degree of success, though all could not reach the top of the ladder of distinction, and to this end he exhorted them all to start with a fixed determination to be depressed by no failure, thwarted by no difficulties, remembering always that no success can be achieved except by energy and unremitting work. Adverting to his own career, Sir Garnet assured his hearers that he had entered on his profession with the resolve to use every talent he possessed; with all his bodily and mental powers to advance in it; to let no opportunity of service escape—in short, he was determined if possible to succeed. He then briefly reviewed Sir Ranald Martin's life and work, showing how much sanitary medicine owed to him, and then, after alluding more particularly to the importance of the duties of the medical officers of the public services, closed his remarks by pointing out how completely and pre-eminently satisfactory must be the retrospect of a medical officer who retires at the end of a career in which he has well and honestly performed his important duties to the benefit of the men of the Army and Navy, and consequently the welfare of the country. For another reason besides that already mentioned the past session is remarkable. It was the first since the constitution of the Medical Department was entirely altered by the substitution of a limited period of service of ten years, with a bonus at its termination, for the ordinary system of continued service terminable only by retirement, resignation, or the casualties of military life. The public are familiar with the various causes of dissatisfaction with the treatment of medical officers which brought the Medical Department of the Army so much into disfavour that at last no candidates would present themselves for examination. In this dilemma the Secretary of State for War, instead of trying to remove the grounds of complaint amongst officers already serving, and to attract young men of high professional and social qualifications, hit upon a rough-and-ready expedient for getting recruits by offering them an increased rate of pay (£250 per annum) for ten years, at the end of which time they were to return to civil life with a bonus of £1,000, and nothing more. This ingenious device, the fallacy of which was exposed at the time it was proposed, did not commend itself to the medical schools, and for fifty vacancies at the summer examination only thirty-three men competed, all of whom were accepted. Of these many have joined the Army in the belief that the regulation as to limited service will ere long be abolished as a failure, and they will be retained. It can only yet be conjectured whether that expected end will come, but it is extremely significant that a very small number of men have as yet intimated their intention of competing at the examination to be held next week for another fifty appointments. Meanwhile the Navy now gains many well-qualified men who would have chosen military service under the old system, but have no fancy for it under the new. The Indian Medical Department, though not so advantageous as formerly, always obtains the best men, to one of whom, as a rule, has always fallen, as on this occasion, the only prize to be gained before the institution of the Martin medal, viz., the Herbert medal, with £20 added. Both these medals were carried off this time by Mr. J. Moorhead, the gentleman at the head of the list of Indian medical candidates. The names of the successful gentlemen, the order in which they stand, and the number of marks obtained by each were announced by Surg.-Gen. Maclean, C.B., Professor of Military Hygiene, and are as follows:—

ARMY.—FEBRUARY, 1877.

	Marks.		Marks.
1. Allin, W. B.	5360	18. Laffan, G.	3402
2. Ryan, M. R.	4896	19. Bourke, U. J.	3397
3. Reynolds, E. O.	4570	20. Robinson, R.	3146
4. Robbins, H. J.	4546	21. Lamprey, J. J.	3072
5. Morris, G. G.	4474	22. Allen, W. H.	3050
6. Hayes, A. E.	4333	23. Gunning, R. C.	3010
7. Williamson, J. F.	4270	24. Russell, G. M.	2945
8. Carey, J. T.	4236	25. Cotton, H.	2910
9. Rainsford, W. J.	4183	26. Hunt, J. P.	2893
10. Boulger, J.	4105	27. Peyton, J. L.	2882
11. Tuthill, P. B.	4015	28. Carleton, A. W.	2878
12. Boyd, T.	3930	29. Hughes, G. A.	2866
13. Johnston, P. H.	3896	30. Keith, A. C.	2861
14. Murchison, F.	3625	31. Broodie, J.	2685
15. Emerson, J. B.	3482	32. Eagar, F. G. H.	2662
16. Hewett, A.	3480	33. Large, B. W.	2478
17. Roche, E. A.	3477		

NAVY.—FEBRUARY, 1877.

1. Kenwood, J. D.	4725	11. Armstrong, G. W.	3844
2. Walsh, H. W. D.	4657	12. Keelett, L. H.	3586
3. M'Swiny, M. O'C.	4571	13. Dow, J. G.	3422
4. Guppy, H. B.	4453	14. Newland, C. F.	3325
5. Connell, J. J.	4427	15. Barcroft, P. J.	3230
6. Mugliston, T. C.	4405	16. Twigg, G. D.	3197
7. Williams, T. E. H.	4045	17. Fogerty, G. J.	2960
8. Williamson, F.	3897	18. Bookery, W. J. B.	2810
9. Murdoch, R.	3880	19. Browning, J. N.	2707
10. Rae, W. M.	3850	20. Corcoran, L. W.	2460

INDIAN CANDIDATES, 1876-7.

*†1. Moorhead, J.	5638	7. Eaton, J. B.	4525
2. Beatson, C. H.	5393	8. Eyre, M. S.	4505
3. Owen, C. W.	5060	9. Channer, O. H.	4490
4. Griffiths, G. S.	5000	10. Young, E. W.	4465
5. Grant, P. M'P.	4966	11. M'Calman, H.	4350
6. Lee, W. A.	4934	12. Ross, D. R.	4308

* Gained the Herbert Prize for highest marks in combined London and Netley Examination.

† Gained also the Martin Memorial Medal for proficiency in military medicine.

It may be mentioned that Mr. Beatson, who stands second on the Indian List, is a son of the late Surg.-Gen. Beatson, C.B., whose highly distinguished career in the Army Medical Department was ended by his death at Simla in 1874, when he was serving as principal medical officer in India.

The proceedings of the day terminated with a lunch at the mess, after which Sir Garnet Wolseley and the other visitors, amongst whom were two sons and many personal friends of the late Sir Ranald Martin, returned to London.

UNQUALIFIED SUB-LIEUTS.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—About a year ago several sub-lieutenants, as you must know, were compelled to leave the Army owing to their having failed to pass the garrison class examination, although they were otherwise qualified to remain in the Service. Many of the officers who failed had had command of companies for different periods during their three years' service. By being compelled to leave the Service, at ages ranging from twenty-three to in many cases twenty-five years, they are utterly ruined, as they are too old for other occupations. Lieutenants who entered under the old system are allowed as many trials as they like to pass the special case Army examination, so it is evident that in this "what's sauce for the goose is not sauce for the gander," for an unfortunate sub-lieutenant failing to pass within three years is obliged to leave, thus losing all his prospects. The reason why sub-lieutenants who resigned last year are old, is, that they qualified for commissions by purchase, and were kept waiting until after its abolition. Surely the officers so deprived of their profession have been sufficiently punished? Would it be too much to ask Mr. Hardy to reconsider the case of these unfortunate young men, and gazette them back as junior lieutenants? Militia officers are being appointed in numbers.—I am, &c., SQUIB.

REGIMENTAL SUBSCRIPTIONS.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

Sir,—It is difficult to understand upon what principle generals who are appointed colonels of regiments are relieved of paying their share of the expenses which the band and mess of their regiments necessarily entail on those least able to bear the strain. As colonels they are paid £600 a-year. In consequence of the subscription not being obligatory, most of the colonels are said not to pay any subscriptions, though their names are at the head of the regiment for years. As the number of officers has of late years been reduced, the difficulty of keeping up the messes—as it is to be hoped they always will be kept up—has increased, and it would appear very desirable that generals who are colonels of regiments should be called upon to contribute something. The lieut.-col., who draws only £365 a-year, is charged twenty days' pay per annum—£17—for mess and band subscriptions, whereas the full colonel, who gets £600 a-year, need pay nothing whatever. I feel certain that the generals, who are always most anxious to get regiments, would be glad enough to pay towards the mess and band the same subscription as the lieut.-col., or any fixed sum, if it were made obligatory.—I am, &c., A POOR OFFICER.

ARMY SCHOOLMASTERS.

"Normal" writes:—"On looking over the list of Army schoolmasters, I find the names of more than twenty who have completed their full period of service—viz., twenty-one years. A few of these veterans have actually been schoolmasters since 1849. I allude more particularly to some of the old 1st and 2nd Class. The authorities appear to deal very tenderly with these men, and they are, for the most part, to be found comfortably located at depôts or other out-of-the-way places, where, as a rule, no great amount of work is expected from them. Meantime, promotion is at present entirely at a standstill, chiefly on account of the length of time the seniors are allowed to remain in the Service, contrary to 'the letter of the law.' A word on an entirely different matter will not be out of place. Army schoolmasters are now eligible for the good conduct medal, but, strange to say, without gratuity. Why is such a distinction made?"

SOLDIERS' INSTITUTE FOR GIBRALTAR.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—I see it is the wish of many to establish a Soldiers' Institute in Gibraltar. In no part of the world where the British soldier is stationed is an establishment of this kind more needed. Gibraltar teems with wine-shops, many of them being of a very low description, and every temptation is held out to the men off duty to frequent them. An opportunity now offers for philanthropic persons who are really and truly interested in the social well-being of those whose duty it is to shed their blood in the defence of their country to come forward and aid in promoting so praiseworthy an object as that of establishing a comfortable Soldiers' Home. In whatever is done by the public at any time for the welfare of the soldier a great benefit is conferred upon the country at large. Having been stationed on the solitary rock, I can can fully endorse whatever is stated in the circular as to the great want of a Soldiers' Institute there.—I am, &c., A SOLDIERS' WELL-WISHER.

AN APPEAL FOR A LIFEBOAT.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—I am humbly endeavouring to aid the Royal National Lifeboat Institution by raising a sufficient sum to establish a lifeboat to be called the "Oliver Goldsmith." My appeal for this good cause was only issued in November, but during this short period it has been generously responded to by donations to the amount of £150. This leads me to hope that in making my object known through your valuable paper many readers belonging to the sister Service and others would kindly give me their assistance to enable me to accomplish the undertaking I have so dearly at heart.—I am, &c., ADA GOLDSMITH TULLOH.

P.S.—Lieut.-Gen. A. T. Tulloh, C.B., R.A., of Taunachie, West Malvern, who is a member of the Committee of Management of the National Lifeboat Institution, is treasurer for the "Oliver Goldsmith" Lifeboat Fund, to whom subscriptions may be payable.

THEATRES.

DRURY LANE.—The excellence of the pantomime is fully shown by the crowds attending each performance. The Vokes family are as amusing as ever.

COVENT GARDEN.—The last two weeks of the pantomime are announced. There will be a morning performance this day.

HAYMARKET. — Mr. Buckstone appears nightly in his original character of Chrysos, in *Pygmalion and Galatea*.

ADELPHI.—The daily performances of *Little Goody Two Shoes* (the children's pantomime) have been discontinued, except on Wednesdays and Saturdays. The pantomime is played nightly, previous to the performance of the *Shaughraun*.

STRAND.—This theatre is crowded nightly with the admirers of Mr. John S. Clarke, who has been engaged for a limited number of nights.

GLOBE.—The revival of Mr. Planché's extravaganza *The Invisible Prince* is a great success. The old worn-out nigger melodies are replaced for the popular airs of the day, all of which are duly appreciated by the audience. The performance at this theatre is throughout most commendable.

LYCEUM.—Mr. H. Irving appears nightly as Richard the Third, and his impersonation of the character is marked by some excellent acting, of which a large audience fully demonstrates its appreciation.

DEATH.

BEAUMONT.—Feb. 3, at 28, Scarsdales Villas, Kensington, Captain Arthur Ernest Beaumont, of the 20th Regiment, in his 35th year.

Advertisements.

THEATRE ROYAL DRURY LANE.— Every evening, THE FORTY THIEVES. The Vokes Family. Premiere danseuse, Mdlle. Bossi. Double Harlequinade: Clowns, C. Lauri and F. Evans. Preceded by BOX AND COX. Marshall Hall, Esq., F.G.S., F.C.S., Barrister-at-Law, late Captain 1st (Royal East) Middlesex Militia.
The Rev. G. W. Kitchen, M.A., Censor of Unattached Students, and late Censor of Christ Church, Oxford.
Lieutenant-Colonel Loyd-Lindsay, V.C., M.P.
Major-General F. O. Salusbury, C.B.
Colonel E. Wray, C.B., R.A.

GOVERNOR.

Colonel J. Desborough, C.B., R.A.
Secretary to Governor and Director of Drills:—Major Graham.

HEAD-MASTER.

The Rev. Arthur H. Dyke Acland, M.A., Ch. Ch.

ASSISTANT MASTERS.

Cyril F. Ransome, Esq., M.A., late Postmaster of Merton.
Charles Hawkins, Esq., M.A., Corpus Christi College, Cambridge.
H. W. Cunningham, Esq., B.A., Brasenose College, Oxford.
W. F. Donkin, Esq., M.A., F.C.S., Lecturer in Chemistry at the University Museum.
Alexander Macdonald, Esq., Ruskin Teacher of Drawing in the University of Oxford.
Dr. Hamann, Taylorian Teacher of German in the University of Oxford.
Mons. A. F. P. Manier, Teacher of French.
Archibald Maclaren, Esq. (Gymnastics).

PHYSICIAN.

Richard Fernandez Freeborn, Esq., M.D., F.R.C.P.

THIS COLLEGE is intended:—

(1.) To provide the best possible Education for the Sons of Officers.
(2.) To train and prepare Candidates (whether Sons of Officers or not) for Commissions in the Military Service.
(3.) To enable its Senoir Pupils to enter as Unattached University Students, and to take degrees.

Two Scholarships, of £30 and £20 per annum respectively for two years, have been placed at the disposal of the Board of Management by a gentleman interested in the success of the College.

The competition for these Scholarships will take place on the 10th of April, 1877, and is open to Sons of Officers and all who are preparing for the Military Service, whether sons of officers or not.

Candidates must be between the ages of 13 and 15.

The subjects of the examination will be such as are included in an ordinary public school education.

Copies of the Prospectus may be obtained from the Bankers, Messrs. Cox and Co., Craig's Court, London, S.W.; from Mr. Henry Naidley, the Secretary of the Company, 35, Lincoln's Inn Fields, W.C.; or from the Governor, Military College, Cowley, Oxford, who will supply information as to the admission of Students and the competition for Scholarships.

WILLIAM NICHOLLS,
21, TICHBORNE STREET,
REGENT CIRCUS, PICCADILLY.
(Opposite the County Fire Office.)
BEDFORD CORD HUNTING BREECHES.
BUCKSKIN LEATHER HUNTING BREECHES.
LEATHER SHOOTING JACKETS and RIDING PANTALOONS.
Newmarket Breeches and Leggings.

WILLIAM NICHOLLS, 21, TICHBORNE STREET, REGENT CIRCUS, PICCADILLY.

THE DIRECTORS of the BRIGHTON LIVERY STABLES COMPANY, Limited, give notice that Prospectuses inviting application for the portion of unallotted Shares may be obtained from the Secretary at the Offices of the Company, to whom an early application should be made.
A. J. BODDINGTON, Secretary.
17 Prince Albert Street, Brighton.

DEPUTY GOVERNOR, County Gaol, Usk, WANTED.—The salary is £90 per annum, with an increase of £10 per annum after five years, and a further increase of £10 per annum after ten years. In addition, uniform, clothing, and boots are allowed annually, and a greatcoat every two years. Candidates must be fully competent to keep accounts, part of his duties being to act as clerk. Preference will be given to one who has had experience in industrial labour. Applications, with testimonials, to be sent to the Visiting Justices at the Gaol on or before Tuesday, the 20th inst., and candidates should state when they would be prepared to enter upon the duties of the office.
County Gaol, Usk, Monmouthshire,
3rd February, 1877.

RUPTURES (BY ROYAL LETTERS PATENT)
WHITE'S MOC-MAIN LEVER TRUSS is allowed by upwards of 200 medical gentlemen to be the most effective invention for the curative treatment of hernia. The use of a steel spring, so often hurtful in its effects, is here avoided, a soft bandage being worn round the body, while the requisite resisting power is supplied by the MOC-MAIN PAD and PATENT LEVER, fitting with so much ease and closeness that it cannot be detected, and may be worn during sleep. A descriptive circular may be had, and the Truss (which cannot fail to fit) forwarded by post, on the circumference of the body, two inches below the hips, being sent to the manufacturer,
MR. WHITE, 228, PICCADILLY, LONDON.
Price of a single truss, 16s., 21s., 26s. 6d., and 31s. 6d.; post free. Double ditto, 31s. 6d., 42s., and 52s. 6d.; post free. An umbilical ditto, 42s. and 52s. 6d.; post free. Post-Office Orders to be made payable to JOHN WHITE, Post Office, Piccadilly.
Every description of RIDING BELTS, ELASTIC STOCKINGS to draw on, and ELASTIC SILK SUSPENDERS, on new and improved principles.
JOHN WHITE, Manufacturer, 228, Piccadilly London.

NAVAL CADETS, ASSISTANT CLERKS,
HOPE HOUSE, SOMERSET-PLACE,
SOUTHSEA.
Principal—Mr. T. H. VICKERY.

In addition to the general course of study pursued at this long-established School, pupils are specially prepared for the examination required for the above.

At the competitive examination in November, 1875, and at the recent examination in June, of candidates for Assistant Clerkships, all the pupils sent up from this Establishment were successful.

TRURO SCHOOL. Founded A.D. 1549.—Special preparation of a limited number for Woolwich, the Line, Navy, and Cooper's Hill. Five experienced and energetic resident masters in mathematics and geometrical drawing, the classics, and English, French, science, and German; besides visiting masters in drawing and English composition.

NAVAL CADETSHIPS, &c. "EASTMAN'S" R.N. ACADEMY, SOUTHSEA. Principal, G. EASTCOTT SPICKERNELL, since 1860.

At the last two Naval Cadet Examinations pupils took the first place.

More than 1,000 pupils have entered H.M. Service. For every information address the Principal, Burgoyne House, Burgoyne Road, of late called Eastern Parade.

NEWTON COLLEGE, S. DEVON.—President of Council, EARL of DEVON.—This College is for gentlemen's sons only, on very moderate terms. Officer's nomination, £60 per annum. One Woolwich Scholarship of £20 per annum open this Christmas. Candidates under 15. Papers forwarded January 1st to boys' homes. The situation is healthy and elevated; gravel soil; good cricket ground; racquet and fives court, &c. Apply, Rev. G. TOWNSEND WARNER, Head Master.

CANTON de VAUD.—GENTLEMEN preparing for the Army or Navy, Universities, or Commercial life, can be RECEIVED into the family of an Oxford graduate on moderate terms, and can attend classes at a large college. Good boating; frequent walking excursions.—Apply, by letter, to "D. C. L., Oxon," care of Messrs. Dawson and Sons, 121, Cannon Street, London.

A CORRECT IMPRESSION

Prevails among the public that Silks are generally dearer, and that they cannot now be bought at former prices; but this idea will be removed, as far as MESSRS. JAY'S transactions are concerned, by an inspection and comparison of the undermentioned BLACK SILKS, which are:—

3s. 9d. per yard	worth 5s. 3d.
4s. 6d. "	worth 5s. 9d.
5s. 3d. "	worth 6s. 9d.
5s. 9d. "	worth 8s. 3d.
6s. 9d. "	worth 9s. 6d.

FOREIGN VELVETS, from 4s. 6d. per yard.

MESSRS. JAY, having had consigned to them before the rise in the price of Silk, a very large stock of these elegant Dress Materials, they are enabled to sell Black Foreign Velvets at 4s. 6d., 5s. 6d., 6s. 6d., and 7s. 6d. per yard. Patterns free.

JAY'S,

THE LONDON GENERAL MOURNING WAREHOUSE, REGENT STREET, W.

THE
COLONIAL PIANOFORTE.
With entire metal string-frame, full trichord scale, and check repeater action.

This Pianoforte is most strongly recommended for the families of Military gentlemen. Its construction is such that durability under adverse conditions of climate, &c., may be confidently relied upon, whilst its musical and artistic qualities are of the highest order. It is of small dimensions, and is sold at the moderate net price of £35.

W. HANSON,
FOREIGN PIANOFORTE COMPANY,
15, Lower Seymour Street, Portman Square,
London, W.

HAMBURGER, ROGERS, AND CO., GOLD AND SILVER LACE MANUFACTURERS by Appointment to her Majesty the Queen, and to H.R.H. the Prince of Wales. MILITARY CLOTHIERS, CAP, HELMET, SHABRACQUE, and CAVALRY ACCOUTREMENT MANUFACTURERS, with every description of UNIFORM, and Appointments for the Army and Navy, Yeomanry, Militia, &c., 30, KING STREET, COVENT GARDEN, LONDON, W.C.

GARDEN and SON, 200, PICCADILLY, EAST INDIA and GENERAL AGENTS, MANUFACTURERS of ACCOUTREMENTS, SADDLERY, HARNESS, &c., beg to notify that any commissions entrusted to them will be executed to the entire satisfaction of their correspondents.

Furlough Pay, Pensions, &c., drawn and remitted Passages secured; Baggage collected, shipped and cleared. Insurances effected.

HOLLOWAY'S PILLS.—The extraordinary range of temperature prevailing in our climate is extremely trying to the delicate-chested, the weak and nervous. All troubled by these afflictions should resolve to resort to this strengthening and regulating medicine immediately they perceive in themselves discomfort or that feeling of restlessness which betokens disordered digestion and defective secretion of bile. One of Holloway's Pills taken about noon, and followed at bed-time by a dose sufficiently large to act aperiently, will speedily recruit the faulty functions, and restore order throughout the whole system. A treatment so safe in operation and so successful in result should be known and practised, when, from cold and sundry other causes, disease is attempting to gain a vexatious footing.

LEFT OFF CLOTHES, Old Uniforms, Epaulettes, Books, Jewellery, Miscellaneous Property, &c., PURCHASED in any quantity or condition.

MR. J. NORTON,
5, WYCH STREET, STRAND
(Two doors from Olympic Theatre), and
2, Station-terrace, Croydon.

All letters punctually attended to.

Ladies waited on by Mrs. N.

N.B.—Mr. Norton has always on hand a large stock of present Regulation Uniforms, Patrol Jackets, Great Coats, &c., equal to new, at very low prices.

TO OFFICERS OF HER MAJESTY'S SERVICE.—LEWIS MOSES, of 464, New Oxford Street, the largest and most liberal buyer of officers' uniforms, ladies' and gentlemen's left-off clothes, &c., has on hand a large stock of the above. Parties waited on. Established 1798. Cash remittances for country parcels by return.

DINNEFORD'S FLUID MAGNESIA.

The best remedy for ACIDITY of the STOMACH, HEARTBURN, HEADACHE, GOUT, and INDIGESTION; and the safest aperient for delicate constitutions, ladies, children, and infants.

DINNEFORD & Co.,
172, New Bond Street, London, and all Chemists.

DIRECTORS.—Two VACANCIES in the Board of an established financial institution may be filled by gentlemen of position and influence. Qualification £200. Attendance fees liberal. Address "Manager," care of R. Watson, Contractor or Advertisements, 74, Fleet Street, E.C.

CHLORODYNE. — FREEMAN'S is the original and only true.—Lord Chancellor Selborne, Lord Justice James, and Lord Justice Mellish decided in favour of R. Freeman and against J. C. Browne and J. T. Davenport; see "Times" of July 24, 1873. Thousands of medical practitioners testify that there is no substitute for it in the treatment and cure of asthma, bronchitis, coughs, and other chest affections, neuralgia, fevers, cholera, dysentery, spasms, and all nerve pains. Bottles 1s. 1½d., 2s. 9d., 4s. 6d., 11s., and 20s. Sold by patent medicine dealers in all parts of the world. See that "Freeman's Original Chlorodyne" is engraved on the Government stamp.

ESTABLISHED 1864.

TIMEWELL,
SPECIAL TAILOR & MILITARY OUTFITTER
TO GENTLEMEN WHO REQUIRE NO CREDIT

LONDON, 40, CHARING CROSS.
DUBLIN, 83, GRAFTON STREET.

KINAHAN'S LL WHISKY.

KINAHAN & Co. finding that, through the recommendation of the Medical Profession, the demand for their CELEBRATED OLD LL WHISKY for purely medicinal purposes is very great, submit with pleasure the following ANALYSIS by DR. HASSALL:—

"I have very carefully and fully analysed Samples of this well-known and popular Whisky. The samples were soft and mellow to the taste, aromatic and ethereal to the smell. The Whisky must be pronounced to be pure, well-matured, and of very excellent quality. The medical Profession may feel full confidence in the purity and quality of this Whisky." 20, GT. TITCHFIELD ST., LONDON, W.

COLT'S NEW GOVERNMENT ARMY REVOLVER, after a severe competitive trial by the U. S. Ordnance Department in 1873 and 1876, has been exclusively adopted by the United States Government, and the whole of the United States Cavalry is now armed with them. It is now made to take the English Government Boxer cartridge. Length of barrel 5½ and 7½ inches.

In the trial of 1869, advertised by another maker, the Colt's pistol used was a muzzle-loader adapted to the use of metallic cartridges, which pistol has not been made or sold after that year.

ROYAL UNITED SERVICE INSTITUTION, Whitehall Yard. 1877.

EVENING MEETING, Monday, February 12.
The Chair will be taken at half-past Eight o'clock.
Major H. Le G. GEARY, R.A., Assistant Adjutant-General, Dublin.
On "The Employment of Boys in the Army."
LECTURE, Friday, February 16.
The Chair will be taken at Three o'clock.
Major-General T. B. COLLINSON, R.E.,
On "The present facilities for the invasion of England, and for the defence thereof." Part II.
To be followed by a discussion.
By order of the Council,
B. BURGESS, Capt., Secretary.

ROYAL SCHOOL for DAUGHTERS of OFFICERS of the ARMY.

The Daughters of all Officers in her Majesty's Army, inclusive of the Royal Marines, on full or half-pay, or who may have died in the Service, are eligible.

The ages of admission are from ten to fifteen.

The next ELECTION will take place on June 20, 1877.

Pupils elected by votes of Subscribers pay only £12 per annum.

With a view to afford the advantages of a good education to the daughters of officers of competent means at a moderate cost, and at the same time to aid the primary object of the Institution, a limited number of pupils are admitted on payment of £80 a year, which includes all extras.

Each Donation of £5 5s. entitles to one Life Vote.

Each Annual Subscription of 10s. 6d. entitles to one Vote at all elections during the current year.

Further contributions to meet the current expenses are earnestly solicited by the Committee.

By Order,
G. W. FORSTER, Secretary.
22 Cockspur Street, London.

MAJOR CREASE'S PATENT SELF-REGULATING, CLEANABLE

CHARCOAL FILTER

Has been universally adopted in the Royal Navy, East Indian and English Transport Services; the German, Russian, American, and Austro-Hungarian Navies;
ALSO BY
HER MAJESTY'S WAR DEPARTMENT,
For BARRACKS, HOSPITALS, CAMPS, &c., &c.

And for which Patents have been granted by the Governments of Great Britain, the United States of America, Italy, France, and Canada to Major Crease, Sole Patentee of the Self-regulating, Cleanable Filter.

The designs are of three classes—

1.—For dwelling rooms and halls. To suit different styles of furniture three types have been employed—the Classic, the Japanese, and the Mediæval. None of these forms have been before employed for Filters.
2.—Those of simpler and cheaper designs for kitchen use.
3.—Filters of galvanized iron, either to fix to mains or cisterns, which, being capable of being made of any size, can supply pure water in sufficient quantities for the largest hospital or hotel.

The Filters, being made of special sizes, all their parts are interchangeable.

Full particulars can be obtained on application to
MESSRS. GARDNER AND SONS,
Sole Manufacturers of the Land Filters,
453 & 454, STRAND; and 3 & 4, DUNCANNON STREET, LONDON.

HALL LINE.—STEAM from LIVERPOOL to BOMBAY, via SUEZ CANAL.—Average passage, 26 days, including all detentions. Sail punctually as advertised.

Passengers booked at through rate from London, via Genoa, Naples, and Alexandria, joining the steamer at Suez. Full particulars on application.

The magnificent fast steamship CHILDWALL HALL, 2,100 tons, 300 horse-power nominal, sailing 27th February. This steamer has been specially adapted for the East India trade. Her saloons and cabins are spacious and well-ventilated, and the accommodation is unsurpassed. Only first class passengers taken. Fare from Liverpool, 45 guineas. Surgeon and stewardess carried.

Succeeding steamers:—

Trentham Hall	13th March.
Branksome Hall	To follow.
City of Baltimore	To follow.

For passage apply in London to Henry S. King and Co., 65, Cornhill, and 45A, Pall Mall; or for freight and passage to ALEXANDER and RADCLIFFE, 8B, Liverpool and London Chambers, Exchange, Liverpool.

OVERLAND ROUTE and SUEZ CANAL. Under Contract for the conveyance of the Mails to the Mediterranean, India, China, Japan, and Australia. The Peninsular and Oriental Steam Navigation Company dispatch their Steamers from Southampton, *via* the Suez Canal, every Thursday; from Venice every Friday; and from Brindisi, with the Overland Mails, every Monday.

As we are within six weeks of the end of the financial year it may not be inopportune if we review how far the programme of work for 1876-7 relating to the repairing and fitting out of ships, as presented to Parliament, has been carried out in the home dockyards. To begin with Chatham. Here it was proposed to repair and refit the armour-plated ship Penelope and the unarmoured steam-vessels Fawn and Boxer; this programme has been fulfilled in the cases of the Fawn and Boxer. The Penelope will not be completed till July. At Sheerness the corvettes Wolverene, Spartan, and Blanche were to be fitted for reliefs, with the sloop Reindeer and the gun-vessels Shearwater and Vulture. Of these the Wolverene, Spartan, and Vulture have been dispatched abroad. The Reindeer has been broken up, the Blanche is partially refitted, and the Shearwater is not touched; in fact it is now decided that the Arctic ship Alert shall be substituted for her, and she will be broken up. At Portsmouth the armour-plated ships Lord Warden and Royal Alfred were to be repaired—the latter in part—with the Inconstant, composite frigate, the corvettes Danae and Dido, and the gun-vessels Plover, Ringdove, Swallow, Avon, and Elk; while the Shah, frigate, and the Lord Clyde and Urgent were to complete their fittings. Of these only the Lord Warden, Shah, Plover, and Avon have succeeded in getting out of the dockyard hands. Months will yet elapse before the Inconstant and Lord Clyde are ready. The Royal Alfred is not found worth the repairs contemplated, the Ringdove is not home, while the Dido, Swallow, and Elk have been scarcely touched. The case of the Urgent is most discreditable to someone. Some four years ago she was taken in hand, to be completed with all dispatch, to take the place of the Aboukir as receiving-ship at Jamaica, which ship had been condemned as unhealthy and rotten; yet, so variable are the orders of the Admiralty, that she will not be ready to proceed to her destination before next May. The Danae, after being completed for commission, had to be dismantled, in order to have the new Cochrane boilers taken out of her. We may well ask why such a comparatively large vessel was allowed for such an experiment, and why, after being so fitted, she was passed into the First Division of the Reserve without being fully tested? As it is, though commissioned in September five months ago, she is still at a home port. With this result of the Cochrane boiler, it is satisfactory to hear that the Penelope is not to be supplied with two of this pattern, as was intended. Lastly, in Devonport Dockyard we find that the programme of work provided for the refitting of the ironclads Agincourt and Invincible, the turret-ships Hecate and Cyclops, the Doris, wooden frigate, the corvettes Thetis and Briton, the gunvessels Magpie, Seagull, and Philomel, the troopship Tamar, the Liffey, and some small craft. Of these the Agincourt is practically complete, the Magpie has been sent to China, and the Seagull to the West Coast of Africa, and the two turret-ships have been repaired; but, on the other hand, the Doris has not been found worth repair. The Thetis and Philomel are still abroad, and the Tenedos and Briton are months off completion. The Invincible will not be ready till July, and the Liffey will not be sufficiently advanced to proceed to Coquimbo before June. From this it is manifest the programme of work in connection with the Navy Estimates is unreliable, and the dissatisfaction that exists in the Service at the length of time ships are kept on foreign stations is fully warranted by the difficulty the authorities find in completing ships as reliefs. But it is only fair to add that an exceptional amount of work, altogether unexpected at the time of framing the programme, has been thrown upon the home yards by the equipment of ships for service with the Mediterranean Squadron. On the completion of the Agincourt, Penelope, and Invincible, armour-plated ships, which are destined to take the place of the Aurora, Challenger, and Endymion, in the Coast-guard—that squadron will, the first time for many years past, present a force of nine serviceable ironclads which, though mostly of an old pattern, are at least as good as many possessed by foreign nations. We hope the Hercules, Monarch, and Triumph, ironclads in the Mediterranean, may be replaced and refitted, as the condition of their boilers is decidedly weak. Probably the Temeraire may replace the Monarch in July.

General Changarnier, who, previous to the days of the Second Empire, held such a prominent position in France, has just died at the age of eighty-five. A short while ago he had a slight attack of paralysis, and he only rallied from this for a short time. His name reminds us of many other deceased African Generals—of Bedean, the *père* Bugeaud, and Lamoriciere, and of other soldiers still alive who first won fame and rank in Algeria. Such are Marshal MacMahon, Marshal Canrobert, the Duc d'Aumale, who commands the 7th Army Corps, General Bourbaki, who commands the 14th Army Corps, and whose name still lives in the camp-fire songs of the Turcos. Changarnier just missed seeing service under the First Empire, for he only entered St. Cyr in 1815. When he obtained a Sub-Lieutenancy he joined the Royal Body Guard, and, when promoted, passed into the 60th of the Line. In this quality he served in the Spanish Campaign of 1823 under the Duc d'Angoulême; shortly afterwards he was nominated Captain in the Royal Guard. In 1830 came the revolution which upset the elder Bourbon branch; Charles X. was driven from the Throne, and Changarnier returned to the Line. He sailed with the 2nd Light Infantry for Algeria, and took part in all the expeditions which marked the first period of the French conquest. As Major he highly distinguished himself during the retreat from Constantine, when his courage and coolness is said to have saved the expeditionary army, which was severely harassed by Achmet Bey. Changarnier was charged to protect the rear of the retiring army, and he had to withstand the desperate assaults of an enemy flushed with success, and who saw his prey escaping. When the force which Changarnier had at his disposal had been reduced to 300 rank and file it was attacked vigorously by 6,000 Arabs. Changarnier formed his men into a square, and, encouraging them to take a steady aim, he beat off his assailants, who were on the point of breaking in amongst the limbers, on which the wounded were being conveyed. Having distinguished himself on other occasions, and after being severely wounded at Médeah, we find Changarnier made a General of Division in 1840, and appointed by the Duc d'Aumale, Governor-General of the colony, to the command of the Algiers district. In 1848, when, in their turn, the younger Bourbon branch was driven from the Throne and the second Republic proclaimed, General Changarnier offered his services to the Provisional Government, and demanded to be sent to the "most exposed frontier." After a short stay in France he returned to Algeria, where he replaced General Cavaignac; but, elected a member of the Constituent Chamber, he once more made his appearance in Paris, and was given the command of the National Guard. When Louis Napoleon was elected President he retained his command, and also had the Army of Paris, some 100,000 men, under his orders, but he very soon got into trouble with the President. Having issued an order of the day in which he reminded the troops who had cried "*Vive l'Empereur!*" at a review at Satory that they should remain silent under arms, he was disgraced, and on December 22 he was arrested, sent to Mazas, and then exiled. The exile did not last long, but during the whole period of the Second Empire General Changarnier took no part in public life, not until the Emperor took the command of the Army of the Rhine; then Changarnier went to him and offered his services, which were accepted. Matters, however, were soon beyond mending. The General had no chance of distinguishing himself; he was shut up in Metz with Bazaine and his army, and he became a prisoner of war. When released he was elected to the National Assembly, where he sat on the Conservative benches and strongly opposed the policy of M. Thiers. When the new Constitution came into force he was elected a Senator. The deceased General, in spite of a slightly pompous manner, was much liked by a large circle of friends. He was essentially an officer and a gentleman, and also a bit of a dandy. His well set-up, soldier-like figure will certainly be missed both in Paris and at Versailles. If African campaigning conduced to swagger and untidiness, General Changarnier escaped the general infection; he was almost as stiff as a Prussian.

Although much has been written and said against the administration of the present Board of Admiralty, there are few who do not believe that the First Lord is thoroughly honest in his intentions of doing that which is right and equally difficult to be persuaded to abandon an idea when he is of opinion that its adoption is necessary for the good of the Service. On accepting office he announced his intention of improving the state of the Navy so far as the ships were concerned, and he has stuck manfully to that determination until at this moment we have a stronger Fleet afloat than has been seen for many years, and ships in reserve which are fit for further sea service have been mostly prepared for. commission or are now in the hands of the dockyards. Dummies, such as obsolete and worn-out ironclads, have been removed from the active list, and a number of useful unarmoured cruisers have been added to the Navy. Thus far, then, the ships have been dealt with, and now the time has arrived for holding out some better prospects for our seamen, so as to induce them to continue serving. That the pay of the Fleet has not kept pace with the times there is no denying, for while the cost of uniform clothing served out to the men on board their ships and charged against their pay has been gradually increased almost year by year, and the expense of supporting their families on shore has been growing greater, the pay of the able seamen has remained unaltered. What wonder, then, that our best men should be eager to seek other employment as soon their first term of ten years' service expires, instead of remaining for a further term? So strong is the inducement to quit the Service that the men are content to leave after ten years, without any pension, rather than remain for twenty years and obtain higher ratings, and, ultimately, a very fair reward for their services. It has long been felt that some greater incentive to continue to serve must be held out if the best men, in the very prime of life and thoroughly trained, are to be retained. But the courage to suggest such an increase in the Navy Estimates has been wanting by late Admiralties, and the outcry raised against that "great spending department" by a portion of the Press has doubtless deterred the Board from asking that our seamen should be given the encouragement which is their due. And it is not merely a matter of sympathy for our seamen, to whom this country and her colonies have to look for their security, but it is a question almost of necessity if the thorough efficiency of our Fleet is to be maintained. Possibly some few years more might pass without the Fleet feeling the loss of her true bone and sinew to any serious extent, provided those were years of peace; but, at the same time, the reputation of the Navy as a profession for respectable lads to embark in must be materially lowered by such seeming neglect on the part of the country. There can be no doubt that those who find themselves compelled to give up their profession because it is not good enough, and throw away all the time they have served towards earning a pension because the pay is not sufficient to keep them and their families respectably, do not speak too kindly of that Service when they leave it, and this must ultimately tell seriously upon the number of entries. It is therefore with the greatest pleasure that we hear the Admiralty is earnestly endeavouring to obtain the sanction of the Treasury to an increase of pay to all men who re-engage for a second period of service, and we cannot but admire the spirit which induces the Board to consider the good of the Service and brave the probable outcry which will be raised by some false economists at this swelling of the Navy Estimates, rather than be content to let the matter pass until it forces itself upon the country by the appearance of evident signs of discontent in the Fleet. It will, moreover, be more fully appreciated by the seamen of our Navy on being granted because it is recognised as their due, instead of being wrung from the national purse when dissatisfaction has spread itself widely and the good name of the Service has in consequence suffered throughout the country.

By the death of Captain R. B. Oldfield, C.B., A.D.C., the Navy has lost a distinguished and popular officer. His early service in the Mæander, with Sir Henry Keppel, led Captain Oldfield to make his old chief to a great extent his model throughout his career, and to emulate him in a during at times almost approaching to rashness. This coupled with an untiring energy were the leading characteristics of the man. As Lieutenant he served in the Naval Brigade before Sebastopol, where his part in getting the siege guns to the front through the snow in the winter of 1854, and generally taking a large share of all hard work, gained him great credit, and earned for him his promotion. As Commander he had the Lyra and Ariel on the East Coast of Africa, and did good service against slave traders. He was posted in 1862, and in 1865 commissioned H.M.S. Malacca for the Pacific, and remained in her four years. Subsequently he commanded the Topaze in the first Flying Squadron, and the Achilles and Royal Alfred at Portland. He was appointed Superintendent of the Steam Reserve at Devonport in March, 1875, which he was obliged to resign in October last on the first appearance of the disease which has prematurely terminated his career. In the interval between the Malacca and the Topaze Captain Oldfield undertook an exploration of Siam for the Telegraph Construction and Maintenance Company, and it is probable that exposure and fatigue there, coupled with the five years on the East Coast of Africa, undermined his constitution and laid the seeds of disease. Though very many of his profession knew and loved him as Captain or comrade, comparatively few knew the amount of good he did in a quiet, unostentatious manner. He wore the Crimean medal and had also the decorations of Knight of the Legion of Honour and of the Medjidie of the 5th Class. Captain Oldfield was appointed Naval Aide-de-Camp to her Majesty in June, 1874, and was nominated a Companion of the Bath in May, 1875.

The loss of so popular an officer as Captain Hugh Campbell, of the Victoria and Albert, who succumbed on Monday last to the attack of typhoid fever from which he had for some time been suffering, will be severely felt by the Navy. Captain Campbell served under the Duke of Edinburgh as Commander of the Galatea during the first part of his cruise in that vessel, but left her on returning to Devonport from Australia in September, 1868. He was appointed to the Victoria and Albert as Commander January 1, 1869, and was posted January 1, 1872. He was Captain of the Royal Naval College at Greenwich from February, 1874, until March, 1875, when he was appointed to the Undaunted, 31, fitting at Sheerness, for the flag in the East Indies of Rear-Admiral R. J. Macdonald, and remained until October, 1875, and was Captain of the Bellerophon, 15, flagship on the North American and West India Station of Vice-Admiral Sir A. Cooper Key, K.C.B., from February 1 to August 31, 1876. The following appeared in the *Court Circular* of Monday:—"Her Majesty received this morning with deep regret the sad intelligence of the death from typhoid fever of Captain Hugh Campbell, who had only been appointed on January 1 as successor to Prince Leiningen in the command of her Majesty's yacht the Victoria and Albert."

The opponents of the Contagious Diseases Acts have met with a severe rebuff at Plymouth, thanks to the editor of the *Western Morning News*, who mounted their platform and upset their theories by stern facts. In ten minutes they were anxious that he should sit down, although opponents had spoken for an hour, but when he had finished the tone of the meeting was changed and those who had called it lost the day. The value of the Acts to the Services is too well known to call for remark here, but the opponents will not accept any statistics of the working of the Acts, as they assert that the figures are "cooked." It was therefore to the powers of checking vice that the editor of our contemporary had to confine himself, and even on that plea he was able to confound the enemies of the measure. He had traced the reclamation of no fewer than 579 patients in six years in the Plymouth district alone.

The Committee appointed to consider the best site for a College for Naval Cadets has decided that Dartmouth is the most suitable place for its erection. Portsmouth, Gosport, the Isle of Wight, Weymouth, and Dartmouth were visited, and, by the report of the Committee, Dartmouth is unhesitatingly recommended.

On Tuesday Captain Pim, R.N., M.P., will move for a Select Committee to inquire fully into the present Admiralty organization and its system of departmental and general administration of the affairs of the Navy, as well as into the actual condition of the Navy and maritime resources of the country, to ascertain how far they meet the requirements of the empire; and also into the administrative arrangements made by the First Lord of the Admiralty to ensure the efficiency of the naval Service. Should this motion be granted the work to be undertaken by the Committee will be one of great importance, and some good results cannot fail to follow so searching an enquiry.

Arctic literature will soon be abundant, for Sir George Nares, Captain Markham, Dr. Moss, Captain Fielden, and others of the late Expedition are busy preparing for the press.

It is evident that the Admiralty has no intention of permitting the Royal Naval College to be made a kind of lounge by officers waiting employment afloat. Being in the neighbourhood of London, and possessing a comfortable mess, library, billiard-rooms, &c., some may possibly look upon a term at Greenwich as a capital way of spending some idle time. But the Admiralty will not permit the time to be idly spent, and three Lieutenants have just been discharged for irregular attendance.

Lieutenant Henry Olive, R.M.L.I., who has been borne on the books of the Pearl since May, 1873, for Service in Fiji as Superintendent of Police, has now been placed on the Retired List, to enable him to retain the appointment he holds in the colony.

Mr. R. G. Forster, Engineer of the Pioneer, whose death is reported on board that ship, was waiting the arrival of the senior officer to order a medical survey, his health having entirely given way. Only a short time previously the Surgeon of the ship, Dr. Reed, had to leave her without being surveyed, such a step being the only prospect of preserving his life, but he died on his passage home.

The circumstance of the Admiralty having ordered the Admiral-Superintendent of the Dockyard at Devonport to proceed to Dartmouth to enquire into an alleged case of bullying on board the Britannia is enough to prove that their Lordships do not intend to allow anything of that nature to pass unheeded. But it is satisfactory to be able to add that there was little cause for any such a to-do, for at the enquiry that was held by Rear-Admiral Willes, we hear that it was found impossible to substantiate the charges or complaints made by the cadet who wrung the hearts of his parents by the touching narrative of his troubles on entering the service of his country. That there may have been some rough play there is no reason to doubt, but a youngster who makes serious complaints because he finds life in a training-ship not quite as gentle as being at home with his friends, will never be popular in the Britannia.

Captain Morgan Singer, R.N., and the Torpedo Committee have been engaged in preparing a set of instructions relative to the use of the Whitehead torpedo on board her Majesty's ships fitted with the means of discharging them.

By removing a quantity of ballast from a vessel and increasing her top-weight, it has been discovered by the dockyard authorities at Devonport that, when floated, she has a decided tendency to capsize. It was by this means that the Industry has been made to show a desire to turn turtle. Perhaps Devonport is to be congratulated on its discovery, but it is to be hoped that the clever heads and willing hands that have been the means of giving a proof of what was considered a well-known fact will not carry their experiments any further with the Industry, as she will be of greater service on the West Coast of Africa than floating bottom up in Hamoaze.

It is probable that Commander Cameron, C.B., will relieve Commander Hon. Archibald Hewitt, of the Aurora, on the latter officer being appointed to a sea-going ship.

Captain Baird has, we hear, designed a protective torpedo net, experiments with which are to be made on board the Thunderer.

It is rumoured that Captain Henry B. Woollcombe will commission the Temeraire.

The Helicon will shortly be recommissioned at Malta, but her Commander, Lieutenant Stopford, will be reappointed to her.

Mr. Francis Rowsell, Director of Navy Contracts, has been granted three months' leave of absence on account of the delicate state of his health.

Captain Edward Hardinge has been nominated to the post of Naval Aide-de-Camp to the Queen in the vacancy caused by the death of Captain Oldfield. Captain Montgomerie, A.D.C., obtains advancement to the Paid List.

Captain B. W. Bax, of the Sylvia, and Commander R. H. Napier, of the Nassau, will retain their commands on their ships being recommissioned on the China Station.

At last the long-looked for Report of the Boiler Committee is forthcoming, the 31st March having been named as the latest date for its delivery. As may be supposed, the evidence is voluminous in the extreme, and it is not proposed to print more than a limited number of copies.

We are informed that the Admiralty has called upon the Admiral in command of the Detached Squadron to report fully upon the circumstances attending the recent loss of life from the Newcastle, and we sincerely trust that the enquiry will be the means of dispelling the unpleasant feeling that has been created in naval circles by the tone of letters lately received from the squadron, and that Captain Douglas may be enabled to give such an explanation of the accident that will, once and for all, remove any doubts that may exist as to the action taken.

In addition to the "torpedo-ram" which, as announced by the *Standard*, will be laid down at Portsmouth during the coming financial year, we understand that another ironclad is to be commenced at Chatham.

We trust that Sir Henry Havelock's recommendation with regard to the Militia Reserve may meet with the consideration at the War Office that its importance undoubtedly deserves. The Militia Reserve is practically the only means we have of filling our skeleton battalions for active service in the field, and any steps taken with a view of providing for the better training of the men composing the force must commend themselves to all well-wishers of the Army; indeed, they are an absolute necessity, and thanks are due to Sir Henry Havelock for having brought the matter forward.

Captain W. A. Eardley-Wilmot, 5th Fusiliers, who passed from the Staff College in December, 1875, proceeds out to Ceylon as Brigade-Major, to relieve Captain W. P. Mortimer, 11th Regiment.

Captain W. T. Dooner, 108th Regiment, succeeds Captain G. J. Gilbard, 71st Highlanders, as Brigade-Major at Gibraltar. Captain Dooner accompanied Sir Garnet Wolseley to the Gold Coast in September, 1873, on special service; trained the Opobo Company of Russell's Regiment, and commanded it throughout the Ashantee war of 1873-74; also surveyed for the Intelligence Department a portion of the road between Cape Coast and the Prah (mentioned in dispatches, medal with clasp). He joined the Army January 30, 1863, passed from the Staff College in December, 1872, and became Captain March 24, 1875.

The Artillery Distinguished Service Reward left vacant by Lieutenant-General Sir J. W. Fitzmayer, K.C.B., on appointment as Colonel-Commandant of the 11th Brigade, has been divided into two sums, the pension of Major-General F. M. Eardley-Wilmot being raised from £91 5s. to £100 per annum, and the remainder being given to Colonel C. S. Henry, C.B. Colonel Henry served in the Crimean campaign of 1855, in the trenches with the siege train before Sebastopol (severely wounded), and at the bombardments of April 9, June 6 and 17 (medal with clasp, Brevets of Major and Lieutenant-Colonel, Sardinian and Turkish medals, 5th Class of the Medjidie, and C.B.). He joined the Army June 18, 1842.

Among the criticisms so constantly appearing on the subject of the localization system, it seems to us that one very forcible argument in favour of the arrangement is overlooked—that is the connection it has brought about between the Regulars and the Auxiliary Forces. When a Sub-District is commanded by a Lieutenant-Colonel, who is friendly-disposed towards the Militia and Volunteers—and this has to be considered the main qualification for the charge—the very best results must necessarily follow. Besides a friendly understanding being established, uniformity is produced in the matter both of drill and returns; and in numerous other respects does the arrangement operate for good.

The vacancy among the Militia Aides-de-Camp to the Queen, caused by the death of Colonel Clement Hemery, is to be filled, of course, by selection from among the officers of the Jersey Militia, and there is a strong feeling in Jersey in favour of Lieutenant-Colonel C. P. Le Cornu. Colonel Le Cornu succeeded the late Colonel Le Conteur on the Staff of the Local Militia as Adjutant-General, and has made many friends, all of whom testify to his assiduity.

So satisfied has Lord Carnarvon been with the zeal evinced by Captain Strahan, C.M.G., Royal Artillery, as Governor of the Gold Coast Colony, that the officer's return to regimental duty is rendered most improbable. Captain Strahan has lately entered upon his new duties as Governor of Barbados, which it is the intention he should continue to exercise for the full period of six years, after which his name will be retained on the books of the Colonial Office until further employment offers.

We are sorry to say that the practice of entrusting non-commissioned officers with large sums of money is still proving the ruin of many excellent soldiers. Captains of companies will not see that by giving their Pay-Sergeants amounts varying from £10 to £100 they place temptation in the way of men who may have served for years without a stain on their characters. It is not right that this want of consideration should be shown, and we would once more point to a sure remedy for the evil, which it is in the power of all officers to adopt.

The following promotions take place in consequence of the death, which occurred on the 7th instant, of General W. N. T. Smee, Bombay Infantry, viz.:—Lieutenant-General E. Messiter, Madras Infantry, to be General; Major-General C. Prior, Bengal Infantry, to be Lieutenant-General (instead of in succession to Lieutenant-General W. R. A. Freeman, as stated last week); and Colonel R. A. Doria, Madras Infantry, to be Major-General.

We would venture to express a hope that the Army Estimates for 1877-8 may contain some provision for the reimbursement of the heavy expenses to which mounted officers are subjected for the maintenance of the horses which they have to purchase and keep for the performance of their public duties. The present allowance for forage is 1s. 10d. per diem for each horse *bonâ fide* the officer's property and effective, an additional 6d. per diem being granted when the officer is unprovided with a stable in barracks. We commend these figures to the consideration of members of Parliament, £33 9s. 2d. per annum for forage and £9 2s. 6d. for stabling! Not only are these sums insufficient to meet the disbursements which they purport to cover, but no contribution is made in aid of any other of the necessary expenses connected with horse-keeping. A regimental or military Staff officer is, it is true, permitted to avail himself of the services of a soldier-groom, but this privilege is only really beneficial to the former, who has, besides, to give the groom from 1s. 6d. to 2s. 6d. per week as wages, and to provide him with suitable apparel. Should the Staff officer elect to take a soldier as groom, he is liable to have a new groom whenever there may be a change of regiments, and, further, the War Office immediately mulcts him in 1s. a-day, which is the allowance granted to all Staff and departmental officers without exception, whether mounted or not, in lieu of a soldier as a personal servant, not as groom. The Staff officer, who has no soldier-servant, and the departmental officer, who is not allowed one, have to pay, on a moderate estimate, 21s. a-week for a groom, to find him in livery, and, moreover, to pay for a male servant's licence. Thus officers of the Army are called upon to buy horses for the public service in the first instance, to replace them when worn out or disabled, to supplement the inadequate allowance for forage and stabling, to provide saddlery, clothing, and stable gear, to pay for shoeing and taxes, and when no military Veterinary-Surgeon is available, to defray out of their own pockets all the charges for civilian veterinary attendance. These figures and facts speak for themselves; but we may mention that the hardship of the position of mounted officers was greatly aggravated by the regulation in Clause 163 Army Circulars, December, 1875, which deprived officers of the privilege of drawing forage for horses which might not be their own property, a privilege they had long enjoyed, and which Mr. Hardy was mistaken in stating to have only recently been conceded, as War Office Circular 421, May 5, 1859, and form of certificate attached will, if turned to, at once show.

We are informed that Mr. Mudie has now taken as many as two thousand copies of Capt. Burnaby's "Ride to Khiva," which can lay claim to be considered the work of the season.

The Army.

2nd Dragoon Guards. Surg.-Major Moore has sailed for India in the Serapis for duty in that country on transfer to the Staff.

4th Hussars. Surg.-Major Jessop has been removed from the regiment and placed on the departmental list, and is to take up duty at a home station.

5th Lancers. Col. Massy and the officers entertained a number of guests in their mess-room at Aldershot on Monday evening. Among those invited were Lieut.-Gen. Sir Thomas and Lady Steele, Major-Gens. Sir T. M'Mahon, C.B., Wardlaw, C.B., Shipley, C.B., Anderson, Brigdr.-Gen. the Hon. F. A. Thesiger, C.B., and nearly the whole of the divisional Staff. The entertainment commenced with a concert by the minstrel troupe, under the direction of Mr. Frayling, bandmaster, the following being the programme:—Opening chorus, "Coon Hunt," the Company; ballad, "Old Black Joe," Sergt. Wilkins; comic song, "Family Troubles," Private Walker; ballad, "Take this Message to my Mother," Capt. Harvey; comic song, "Upidee," Sub.-Lieut. Tufton; ballad, "We Meet Again," Sergt. Wilkins; topical song, Capt. Moore; song, "Golden-locked Lassie," Sergt. Murray; buffo song, "I saw Esau," Private Ridley; ballad, "If in this Heart," Capt. Harvey; comic song, "Nigger's Jubilee," Sub.-Lieut. Tufton; banjo solo, Sub.-Lieut. Orde; comic duet, "The Two Obadiahs," Lieut. and Adjt. Fletcher and Sergt. White. The concert was followed by a dance, which was kept up to a late hour. Supper was laid in the ante-room. On the following day a large party assembled in the riding school to witness the non-commissioned officers go through the silent rides, plaiting the maypole, and the mounted quadrilles.

14th Hussars. Lieut.-Col. Arbuthnot has been granted leave from India to England for four months on private affairs.

16th Lancers. Surg.-Major Innes, M.D., has been removed from his regiment, and has been posted for duty to Shoeburyness on arrival from India.

17th Lancers. Whilst Capt. Cooke was hunting on Wednesday with the Cheshire hounds between Crewe and Nantwich, the mare which he rode bolted, pitching her rider over her head for a considerable distance, landing him in a bog. Assistance was at once rendered, and it was found that he was much injured. He was attended by Drs. Atkinson and Atthill, who found that his shoulder had been dislocated, besides having sustained other injuries. His arm having been set, Capt. Cooke was conveyed to the Crewe Arms Hotel, and after a little rest he was placed in a carriage and removed to Chester, where he is temporarily residing.

19th Hussars. Surg.-Major Burland, M.B., has left England for India on transfer to the Staff from medical charge.

Royal Artillery.

Major H. de G. Warter, 11th Brig. (late Bengal), has been granted leave from India to England, on private affairs.

Vet.-Surg. S. Gillespie, B Brig. R.H.A., has been transferred for duty from Lucknow to Meerut.

The following has appeared in the *Gazette of India*:—"The following appointments and promotions are made:—Quartermaster-General's Department—Capt. E. F. Chapman, Depty.-Assist. Qrmr.-Gen., to be an Assist. Qrmr.-Gen. to complete the establishment, vice Capt. L. A. Gregson, resigned, from Dec. 31, 1876; Capt. R. McG. Stewart, R.A., Officiating Depty.-Assist. Qrmr.-Gen., to be Depty.-Assist. Qrmr.-Gen. to complete the establishment, vice Capt. Chapman."

The following officers have sailed for India in H.M.S. Serapis, viz.:—Lieut.-Col. H. McLeod, 4th Brig. (late Madras); Major C. R. Buckle, 20th Brig. (late Madras); Capt. and Adjt. E. D. Shafto, 5th Brig.; and Lieuts. R. Purdy, F Brig. R.H.A.; E. Buckle, 8th Brig.; E. M. Baker, 6th Brig.; G. W. R. Howard-Vyse, 24th Brig.; H. O. Piers, 9th Brig.; A. L. Lane, 8th Brig.; and E. A. Lambart, 11th Brig.

The will, dated Aug. 10, 1868, of Gen. the Hon. W. Arbuthnott, lieut.-col. on the Retired Full-Pay List, late of No. 20, Gloucester-road, Regent's-park, who died on Dec. 14, was proved on the 19th ult., the personal estate being sworn under £50,000.

Royal Engineers.

The Chatham correspondent of the *Morning Post* writes:—"An order has been received at the School of Military Engineering from the War Office stating that recruiting for the Royal Engineers is to be entirely suspended for the present. The order has been given, as all vacancies have been filled. Recruiting has only been opened a few months, but during that time some hundreds of men have enlisted; in fact, at no time since the Crimean war have so many men offered themselves, scarcely a day being passed without several men joining the head-quarters from the various recruiting stations."

It is announced from Cairo that Gordon Pasha (Col. Gordon) has been appointed by the Khedive Governor of the Soudan, and that he will leave to-day for that province. By a telegram, dated Cairo, Feb. 15, we learn that Col. Gordon, by the terms of his appointment from the Khedive, is placed over all the other governors of the Soudan provinces. It is expected that he will thus be enabled to take effective measures for the repression of the slave trade.

Surg.-Major Fox, M.B., having been placed on the departmental list, has taken up duty at Gibraltar from Chatham.

1st or Royal Scots. The head-quarters of the 2nd Batn. are due at Jubbulpore on the 25th inst. The left-half battalion was due at Saugor on the 11th. Major Watts, 2nd Batn., has applied for leave from India to England, on medical certificate. Lieut. Gardner has been appointed assist.-instr. of musketry to the 2nd Batn., vice Lieut. Smith, appointed instructor.

2nd Queen's. Capt. Flood, 1st Batn., has sailed in H.M.S. Serapis for India, to rejoin from leave.

4th King's Own. Lieut. Chute has sailed for Gibraltar to join the 1st Batn. on appointment from the Royal Limerick Militia.

5th Fusiliers. Capt. Vincent, 1st Batn., has been granted leave from India to England for fifteen months, on private affairs.

6th Regiment. Surg.-Major Muir, M.D., 2nd Batn., has sailed for India to join the Staff.

7th Fusiliers. Capt. Beauchamp, 2nd Batn., has been relieved in his appointment as commandant of the Mount Aboo Sanitarium. Sub-Lieut. Chapman has left for India on appointment as a probationer for the Indian S.C.

8th King's. We (*Friend of India*) hear from the Punjab that the 1st Batn. has been ordered to remain at Peshawur until the spring. Capt. Wheeley, 1st Batn., has been granted leave from India to England for fifteen months, on private affairs. Lieut. Turner has been appointed assist. instr. of musketry to the 1st Batn., vice Lieut. Montresor, a probationer for the Indian S.C.

11th Regiment. The head-quarters and service companies of the 1st Batn. are under orders to leave Jubbulpore, where the left-half battalion will have joined from Saugor to-morrow *en route* to Bombay, to embark for England.

12th Regiment. Lieut. Cave has been appointed assist.-instr. of musketry of the 1st Batn. Surg.-Major Doherty, 2nd Batn., has been granted leave from India to England, on medical certificate.

14th Regiment. The head-quarters and right-half battalion of the 1st Batn. was to have left Seetapore on the 3rd inst., *en route* to Ranikhet, where the whole of the battalion is due on the 4th proximo. Surg.-Major Webb has taken up duty at Gibraltar on removal from the 2nd Batn.

15th Regiment. Capt. Thomas, 2nd Batn., has been appointed commandant of the Mount Aboo Sanitarium.

16th Regiment. Capt. Harden sailed for India on Thursday to join the 2nd Batn. on promotion from the 1st Batn.

17th Regiment. Capt. Lonsdale, 1st Batn., has taken passage to India in H.M.S. Serapis, to rejoin from depôt duty.

19th Regiment. Sir C. Russell asked the Secretary for War in the House of Commons on Thursday whether his attention had been called to a letter which appeared in the *Standard* of Jan. 22 signed "How to Spoil a Regiment," and also to a leading article in the same newspaper of the 24th ult. founded on the previous letter; and whether he could state if there was any truth in the allegations therein contained against a distinguished regiment of her Majesty's Service. Mr. Hardy was not surprised that his hon. and gallant friend had had his attention called to the letter and article in question, which evidently had reference to the 2nd Batn. 19th Regt. The attention of H.R.H. the Field-Marshal Commanding-in-Chief had been called to them, and Sir Hastings Doyle, the general officer commanding at Portsmouth, was ordered to inquire into the matter. This he did most fully, and reported that the distinguished officer (Col. Chippindall) had most ably defended himself from the vile assertions cast against his character as a commanding officer. His Royal Highness, after a full consideration of the circumstances, caused Sir Hastings Doyle to be informed that he entirely agreed with him that Col. Chippindall had conclusively disproved the scandalous accusations against him, and requested that that should be communicated to him.

21st Fusiliers. Capt. Douglass and Lieuts. Chapman and Carr, 1st Batn., have sailed in H.M.S. Serapis for India, to join head-quarters—Capt. Douglass on appointment from the Half-Pay List, Lieut. Chapman from the depôt, and Lieut. Carr on transfer from the 84th.

22nd Regiment. Capt. Pardoe has left England for Gibraltar, to take up his duties as D.A.A. and Q.M.G. for musketry at Gibraltar, which appointment he some time since received. Lieut. Hogge, 2nd Batn., a probationer, officiating wing officer 32nd Bengal N.I., is about to be admitted to the Bengal S.C., with effect from Dec. 30, 1875. Sub-Lieut. Hughes has sailed for India on appointment as a probationer for the Indian S.C.

24th Regiment. Capt. Tongue has vacated his appointment as D.A.A. and Q.M.G. for musketry at Gibraltar, on relief by Capt. Pardoe, of the 22nd, whose appointment was announced some time since. Lieut. Symons obtains the company vacant by Capt. Sawbridge's retirement.

25th Regiment. Lieut. Sinclair, 1st Batn., having become a candidate for the Indian S.C., has been appointed to the 27th Bombay N.I. on probation.

27th Inniskillings. The name of Surg.-Major Morphew has been removed from the regiment and placed on the Staff establishment at Malta.

30th Regiment. Surg.-Major Devlin has been removed from medical charge, and has been posted for duty to Sheerness.

39th Regiment was to have reached Jhansie and Nowgong on the 2nd and 9th inst., *en route* from the Delhi Camp.

43rd Light Infantry. Capt. Vesey, Lieuts. Curtis and Terry have sailed in the Serapis for India to join head-quarters—Capt. Vesey and Lieut. Curtis from the depôt, and Lieut. Terry on appointment from the 3rd Lancashire Militia.

45th Regiment. Lieut. Todd-Thornton has left England for India to join head-quarters on appointment from the Donegal Militia.

48th Regiment. Capt. Sedley has sailed for India in H.M.S. Serapis to rejoin head-quarters from the depôt.

49th Regiment. Surg.-Major d'Altera has been removed from his regiment and placed on the Staff establishment of his department.

Royal Marines.

Lieut.-Col. T. V. Cooke, R.M.L.I., barrack-master, Plymouth Division, has been ordered to attend at the office of the Accountant-General of the Navy, being a member of the committee appointed to establish a local audit of accounts and weekly payments at the several marine divisions.

Capt. E. F. Thompson, of the Portsmouth Division, died last week, after an illness of six weeks. His loss is much felt by his brother officers, amongst whom he was deservedly a great favourite. The sad event has thrown a gloom over the division.

The committee of the Bachelors' ball, given at the Philharmonic Rooms, Southampton, last week, have presented Mr. J. Winterbottom, the bandmaster of the Royal Marine Artillery, who conducted the band on the occasion, with a handsome ebony bâton, mounted with silver.

Detachments are under orders for embarkation in H.M.S. Tamar for passage to H.M.'s ships Charybdis, Hart, Modeste, Sylvia, and Nassau, on the China Station; and H.M.'s ships Antelope and Helicon on the Mediterranean Station. Lieut. A. M. E. Hayes will embark with the detachment for H.M.S. Charybdis. A detachment for the Island of Ascension will embark in H.M.S. Industry at Devonport for passage.

Lieut. R. W. J. H. Stephens will embark in H.M.S. Indus in place of Capt. W. T. Miller, promoted to that rank on the 8th inst.

51st Light Infantry. Capt. Nugent has sailed for India to rejoin head-quarters from depôt duty.

59th Regiment was to have arrived at Dugshai on the 1st instant from the Delhi Camp.

60th Rifles. The 3rd Batn. will shortly be moved from Winchester to Aldershot. Surg.-Major Oliver, M.D., on arrival from Nova Scotia, has been removed from the 1st Batn., and has taken over duty in Ireland.

63rd Regiment arrived at Mean Meer early last month from the Delhi Camp. Lieut.-Col. Hughes has obtained six months' leave from India to England, on urgent private affairs. Capt Stourton has been granted leave from India to England, on medical certificate.

65th Regiment. Capt. Wolseley, on return to India from leave in England, has taken up duty as brigade-major at Allahabad. Lieut. Whitaker has been appointed assist.-instr. of musketry, vice Capt. Luttman-Johnson.

68th Light Infantry. Major Shaw has left for India to join head-quarters on promotion after an absence of over six years.

69th Regiment. Lieut. Threshie has joined head-quarters at Gibraltar, on appointment from the Royal Jersey Militia.

70th Regiment has arrived at Mooltan from Nowshera, and taken over quarters. Capt. Gregson has vacated his appointment as assist. qrmr.-gen. on the Staff of the Bengal Army.

74th Highlanders. The Penang correspondent of the *Western Morning News* states that "the men of the regiment have been sent on detachment duty with no better protection from the sun than a glengarry."

81st Regiment. Surg.-Major Wood takes up duty at a home station on arrival in England from India on removal from his regiment.

83rd Regiment. Lieut.-Col. Meurant has sailed for India in the Serapis to resume command from leave. Lieut. Stewart is to be promoted to the company vacant by Capt. Cartwright's retirement. Lieut. Beville has passed the higher standard examination in Hindostanee.

89th Princess Victoria's. Lieut. Barker has left for India in H.M.S. Serapis to rejoin from depôt duty.

91st Highlanders. Surg.-Major Footner has left for India in the Serapis for duty in that country on transfer to the Staff.

92nd Highlanders. The head-quarters and right half-battalion were to have reached Seetapore on the 2nd inst. from the Delhi Camp; the left half-battalion will reach Benares on the 1st proximo.

93rd Highlanders. Surg.-Major Wright, after nine and a-half years in medical charge, has been placed on the Staff establishment of his department, and ordered to hold himself in readiness to embark for India.

101st Fusiliers. Capt. Mills has left England for Malta to take up duty with head-quarters.

103rd Fusiliers. Surg. Fishbourne has sailed in the Serapis for India to join the Staff on removal from the medical charge.

105th Light Infantry. The officers gave an amateur performance at the Colchester Theatre on Friday evening last. The curtain rose upon the famous comedy *The Rivals* a few minutes after eight o'clock, the following being the *dramatis personæ*:—Sir Anthony Absolute, Major Wilkinson; Capt. Absolute, Capt. Denshire (depôt 51st Light Infantry); Faulkland, Lieut. and Adjt. Hilliard; Bob Acres, Lieut. Graham, 105th; Sir Lucius O'Trigger, Capt. Davy, 105th; Fag, Sub-Lieut. Barter, 105th; David, Lieut. Adamson, 105th; Coachman, Capt. Symons, 105th; Mrs. Malaprop, the Hon. Mrs. G. Wrottesley; Lydia Languish, Mrs. Hunt-Foulston; Julia, Miss Graham; Lucy, Mrs. Meares; and Fag's Victim, Master Meares. The concluding piece, the farce of *Betsy Baker*, was thus cast:—Mr. Marmaduke Mouser, Capt. Darvill; Mr. Crummy, Capt. Davy; Mrs. Mouser, Mrs. Hunt-Foulston; and Betsy Baker, the Hon. Mrs. G. Wrottesley. Speaking of the performance a local paper says:—"It was unmistakeably one of the greatest successes achieved by amateurs that we have had to chronicle for many years, and while congratulating the gallant Thespians upon this satisfactory result of their efforts, we would thus early venture to express a hope that at no distant date they will favour the Colchester public with a reappearance on the boards."

Rifle Brigade. Speaking of the death of Capt. Broad bent, which occurred recently at Umballa, the *Times of India* states that "he took a month's leave in November on medical certificate, but getting no better was granted an extension. The deceased was suffering from heart disease, and was strongly recommended by his medical advisers to return to Europe." Lieut. Cockburn has sailed for Gibraltar to join the 2nd Batn. on appointment from the South Lincoln Militia.

Commissariat Department. In reply to Sir H. Havelock, Mr. Hardy said in the House of Commons on Monday that he had been told by the committee that in a very few days the report on the reorganization of the Commissariat Department would be ready, and he should take the earliest opportunity of considering the question. At the same time, until the Surveyor-General of Ordnance had returned from his leave of absence on the ground of ill-health, which he hoped would be very soon, it would be impossible for him to take the matter into consideration.

Medical Department. Mr. Hardy, in answer to Mr. Dunbar, stated in the House on Thursday that twenty-three candidates presented themselves at the examination now going on for admission to the Army Medical Department; that fifty appointments had been offered for competition; and that forty-nine candidates had offered themselves for the twenty-seven appointments in the Indian Medical Department. The following changes have been carried out, viz.:—Surgeons-Major A. H. Fraser, Bengal to Burmah; T. W. Fox, M.B., Royal Engineers, Chatham to Staff, Gibraltar; J. B. Cockburn, M.D., Shoeburyness to Madras; T. Wright, 93rd Highlanders, Dublin to Staff, and ordered to India; J. M. Hyde, Madras to England; S. Roch, Waterford to Canterbury; R. Webb, 2nd Batn. 14th Foot, Belfast to Staff, Gibraltar; J. Wood, 81st Foot, Bengal to England; W. H. Muschamp, 1st Dragoons, Norwich, to Staff, Bengal; W. G. N. Manley, V.C., Depôt Brigade Royal Artillery to Staff, Bengal; C. A. Innes, M.D., 16th Lancers, Shorncliffe to Staff, Shoeburyness; C. M. Jessop, 4th Hussars, Bengal to Staff, England; A. Morphew, 27th Foot, Malta, to Staff, Malta; M. Grant, M.D., Northampton to Straits Settlements; W. S. Chapman, from leave (late West Indies) to Dublin; J. Landale, M.D., 3rd Dragoon Guards, Dublin, to Staff, Madras; W. S. Oliver, M.D., 1st Batn. 60th Rifles, Portsmouth, to Staff, Kinsale; J. d'Altera, 49th Foot, Portsmouth, to Staff, Portsmouth; H. W. Devlin, 30th Foot, Chatham, to Staff, Sheerness; W. A. Gardiner, Devonport to Brecon; W. Graves, Bengal to Templemore; F. H. Welch, Netley to Madras; W. J. Wilson, M.D., 28th Foot, Hong Kong to Staff, Hong Kong; D. A. Leslie, M.D., Pembroke to Bristol; J. N. Stock, Fleetwood to Leeds; J. M. M'Lean, M.D., Perth to Hamilton; H. C. Gillespie, M.D., Bengal to England; and W. Ward, Dublin to Mullingar; and Surgs. H. T. Chapman, Maidstone to Shorncliffe; N. B. Major, Madras to Enniskillen; R. C. Parkinson, Bengal to Chatham; T. C. Tolmie, Birmingham to Sunderland; J. R. Croker, Newry to Dublin; C. F. Pollock, M.B., England to Hong Kong; J. H. Ussher, M.B., Portsmouth to Belfast; H. H. Burford, Portland to Portsmouth; P. T. Frazer, Chatham to Gravesend; D. Parke, Aldershot to Cork; A. H. Stokes, M.B., Madras to Cork; J. Scanlan, M.B., York to Burnley; J. A. M'Cracken, M.D., Bengal to Dublin; J. Coats, M.B., Bengal to England; W. E. Saunders, Bombay to England; W. Tobin, Madras to England; O. F. Molloy, Bombay to England; R. Exham, Bengal to Hounslow; J. B. Wilson, M.D., Bengal to England; G. D. N. Leake, Bengal to Naas; J. W. O'M. Martin, M.B., Bengal to Dublin; P. R. Gabbett, Madras to Edinburgh; and B. M. Tincler, Dublin to Newry.

Veterinary Department. Vet.-Surg. J. K. Grainger has applied for leave from India to England, on medical certificate. Vet.-Surg. G. F. Davis has sailed for India to join the Staff on appointment. Vet.-Surg. W. Walker has been transferred for duty from Umballa to Jubbulpore.

THE AUXILIARY FORCES.

MILITIA.

Cheshire. Lieut. P. H. B. Salisbury has received from the Servian War Minister, by order of Prince Milan, the Gold Cross of Takova and the gold medal for distinguished personal bravery in the field. Mr. Salisbury served as a volunteer on the Staff, and acted as aide-de-camp to Gen. Dochteroff during a considerable part of the late campaign. Of course, officers in the Militia are under the same rules as those which apply to all officers of the Services respecting the receipt and wearing of foreign orders and decorations.

Royal Glamorgan. The stores, &c., have been moved into the new Brigade Depôt barracks at Cardiff. The old buildings are to be dismantled and handed over to the county authorities.

3rd Royal Middlesex. Mr. W. Brain, late sergt.-major, and formerly colr.-sergt. 19th Regt., died at Warwick-road, Kensington, on the 5th inst., after a long and painful illness from heart disease and bronchitis, aged sixty-three years. The deceased joined the Army in 1833, and was discharged in the Tower of London in 1854. He served for ten years on the Permanent Staff of the 3rd Middlesex, and was discharged in 1864.

North York Rifles. Lieut. Whaley proceeds to the School of Musketry, Hythe, on the 28th inst., for two months, to qualify for the appointment of musketry instr.

Carlow Rifles. Lieut. Wolfe has sent in his resignation, being about to join the Royal Military Academy.

Royal Meath. Qrmr. T. Davidson joined at Armagh on the 14th inst., for duty with the 65th Brigade Depôt, on appointment.

Queen's County Rifles. The *Irish Times* hears that Qrmr. Murnane is to be appointed to the 67th Brigade Depôt as soon as the barracks at Birr are ready for occupation.

YEOMANRY.

Royal Bucks. Capt. and Adjt. Calvert was on Thursday appointed Chief Constable of Cambridgeshire. Capt. Calvert entered the Army as cornet by purchase Dec. 24, 1858; became lieut. by purchase, Sept. 21, 1860; capt. by purchase, June 20, 1865; and, retiring by sale of his commission, Oct. 12, 1867, was appointed adjt. of the Royal Bucks Sept. 23, 1868.

VOLUNTEERS.

10th Kent Artillery. The period of appointment of Capt. and Adjt. Deedes, which expired on the 31st ult., has been extended for five years.

1st London Artillery. The brigade, which had somewhat diminished in strength, has lately been extending its sphere in South London, where a battery is being raised in Peckham.

40th Middlesex Rifles. The name of Mr. R. C. F. Dallas, late lieut. and adjt. 98th Regt., has been submitted to the War Office for one of the vacant companies. Mr. Dallas joined the 98th as ensign June 5, 1866; became lieut., Dec. 22, 1869; was appointed adjt., Dec. 10, 1873; and retired by sale of his commission Jan. 5, 1875.

At a meeting of metropolitan commanding officers, held at the offices of the National Rifle Association, Pall-Mall East, on Wednesday, the sub-committee reported that the railway companies in the south of London declined to convey the Volunteers on Easter Monday; that the representatives of the London and North-Western, the Great Northern, and the Midland Railways had attended the sub-committee, and stated that they would convey the Volunteers to Dunstable or adjacent stations at the rates and under the conditions of the arrangements made with the London and North-Western Railway last year. Moved by Lord Ranelagh, seconded by Col. Vickers, that a field day be held at Dunstable on Easter Monday. Carried unanimously. The sub-committee was requested to communicate with the War Office and Horse Guards the opinion of the meeting as to holding a field day on Easter Monday. Moved by Col. Radcliffe, seconded by Col. Hope, that a deputation consisting of Lord Ranelagh, Lord Truro, Cols. Hope, Radcliffe, Kennard, Coles, Wilkinson, and Vickers, wait upon the Chief Commissioner of Woods and Forests relative to providing drill space for the Volunteers in the public parks. Carried *nem. con.*

It has been notified to officers commanding Volunteer corps that the observations made by his Royal Highness the Field-Marshal Commanding-in-Chief on the annual inspections reports are to be regarded as confidential, and will in no case be published in regimental orders, or copies supplied to any member of the corps or other person.

An exchange has been permitted between Lieuts. B. H. Pollard, Bengal S.C., and A. F. Cotton, Madras S.C.

THE INDIAN ARMY.

9th Bengal Cavalry. Capt. A. Battye, second in command, is about to be promoted a substantive major, with effect from the 6th ult.

13th Bengal Cavalry. Instead of awaiting relief by the 8th Bengal Cavalry, the 13th Bengal Lancers have (says the *Civil and Military Gazette*) been ordered to leave Mooltan as soon as possible for Rawul Pindee. This move has been necessitated by the hostile attitude of the Afridee tribes and the increasing troubles on the border. A military expedition against the offending tribes next spring has been definitely decided on.

9th Bengal N.I. Lieut.-Col. W. H. Hawes, commandant, is about to be promoted a brevet col., with effect from the 7th ult.

23rd Bengal N.I. Major H. Fellowes, second in command, is about to be promoted a substantive lieut.-col., with effect from the 11th ult.

32nd Bengal N.I. Lieut. C. Hogge, 22nd Foot, wing officer, is about to be admitted to the Bengal S.C., for which he is a probationer.

43rd Bengal N.I. Capt. H. M. Evans, wing commander, has been granted furlough to Europe for two years on private affairs.

3rd Punjab Cavalry. Col. L. B. Jones has returned to India and resumed command.

4th Punjab Cavalry. A squadron has been held in readiness to join Major Sandeman's escort to Khelat.

1st Goorkhas. Surg.-Major C. F. Oldham, who has been for some time officiating, has been confirmed in medical charge.

2nd Goorkhas. Surg.-Major W. Eddowes has been confirmed in medical charge.

3rd Punjab Infantry. Major P. C. Rynd has returned to India from England, and resumed command.

2nd Central India Horse. Major C. Martin, second in command, is about to return to India to resume duty from leave in England. Capt. M. G. Gerard has returned to India from European furlough, and resumed duty as squadron officer.

10th Madras N.I. Capt. C. T. P. Luxmore, wing officer, has been placed at the disposal of the Government of India for employment in the Military Account Department on probation.

32nd Madras N.I. Capt. R. T. Chapman, second wing subaltern, has resumed duty in India from European furlough.

1st Bombay Light Cavalry. Capt. W. S. Peat has been appointed third squadron officer, vice Capt. Currie, appointed commandant of the Governor of Bombay's Body Guard.

3rd Bombay N.I. Lieut. G. F. MacMahon officiates as adjt. during Capt. Heath's absence in England on furlough.

4th Bombay N.I. Lieut.-Col. A. P. Chesshyre, second in command, has applied for furlough to Europe.

5th Bombay N.I. Lieut.-Col. A. A. Des Vœux, second in command, is about to return to India to resume duty from furlough.

7th Bombay N.I. Capt. W. E. Morris, General List, has been transferred from the 8th N.I. as officiating qrmr.

13th Bombay N.I. Capt. R. J. Le P. Trench, qrmr., has been granted eighteen months' furlough to England.

26th Bombay N.I. Major T. E. Strong, Staff Corps, has been appointed to officiate as second wing commander, vice Major Kettlewell, on furlough. Major W. H. Ross has been appointed second wing commander. Major J. C. D. Moray, wing officer, was recently tried by general court-martial at Poona for making a false statement to his commanding officer. The court acquitted him, a decision with which the Commander-in-Chief of Bombay did not agree, and we now learn that Sir Charles Staveley has removed Major Moray from his appointment as wing officer, and has directed him to be placed on general duty at Ahmedabad.

27th Bombay N.I. Capt. F. S. Worthy, first wing subaltern, has leave to Bombay from March 1 to Aug. 31, to study the native languages. Lieut. A. L. Sinclair, 25th Foot, a candidate for the Indian S.C., has been appointed second wing subaltern on probation.

In reply to a question put by Mr. O. Lewis, Mr. Hardy said on Thursday in the House of Commons that since the report of the Commission on Army Promotion and Retirement had been made he had been engaged in carefully considering the whole question of Army promotion, and great progress had been made in a plan, which, however, he had not yet been able to submit to the Treasury. He might say generally that his view was, without pledging himself to details, to proceed on the lines recommended by the commission.

A Reuter's telegram from Paris states that Gen. Changarnier died on Wednesday. He was born at Autun in April, 1793, and had, therefore, nearly completed his eighty-fourth year. He was educated at the military school of St. Cyr, served in the campaign in Spain in 1823, and from 1830 to 1848 was employed in Algeria, where he took an active part in the various campaigns against the Arabs, and at the revolution of 1848 the Duc d'Aumale resigned the governorship of Algeria into his hands. When Gen. Cavaignac became chief of the Executive, he appointed Gen. Changarnier to the command of the Paris National Guards, and he held this post when Prince Louis Napoleon was elected President, when he was also appointed by the National Assembly Commander of the Army of Paris, then 100,000 strong. In 1851, having shown himself hostile to the policy of the President, he was deprived of his command, and at the *Coup d'Etat* he was arrested and banished from France. He resided at Mechlin until the general amnesty granted by Napoleon III., when he returned to his estate in the department of Saône-et-Loire. When war broke out in 1870 Changarnier offered his services to the Government, but they were declined. He was, however, afterwards more successful with the Emperor, with whom he had an interview at Metz. After Sedan he was shut up in Metz with Marshal Bazaine, and after the capitulation he remained in Germany for some time as a prisoner of war. In 1871 he was elected a member of the National Assembly, and on the formation of a Senate in 1875 he was elected a senator.

The Prussian War Office has given orders for the dismantlement of the fortress of Galatz, in Silesia.

The Army Gazette.

WAR OFFICE, February 13, 1877.

Where not otherwise specified, the following commissions and announcements bear date Feb. 14, 1877:—

Royal Artillery—Capt. A. J. Pearson, from the Supy. List, to be Capt., vice P. M. Rolland (late Madras), promoted; Dec. 24, 1876. Lieut. J. P. Ewing to be Capt., vice E. Baring, C.S.I., placed upon the Seconded List; Jan. 18, 1877. Lieut. F. H. Taylor to be Capt., vice C. B. Sandys, placed upon temporary half pay. Lieut. R. C. Corbett resigns commission. Qrmr.-Sergt. M. J. Rowan to be Qrmr., vice R. Woods, who retires upon half pay. The temporary commissions as Lieut. of the undermentioned officers to be made permanent, and to be antedated to Aug. 19, 1875, such antedate not to carry back pay, viz.:—H. P. Hickman, A. H. P. Turner, E. J. Garston, W. S. Churchward, K. S. Dunsterville, C. E. Walker, W. F. G. Moberly, A. Tracey, H. O. Piers, P. L. Williams, A. E. Russell, J. E. H. Orr, W. A. Smith, G. H. Bittleston, W. J. Hicks, C. A. Howard, A. Chambers, H. J. Croft, E. A. Burrows, C. H. Crofton, W. Hely-H. Waters, C. D. Cottrell, A. H. Carter, J. A. L. Coker, E. A. Lambart, C. E. Maturin, K. S. Davison, R. M. Crofton, C. H. Blount, C. F. Magrath, G. N. H. Barlow, F. H. M. Leader, G. M. Boothby, F. B. Elmslie, R. E. L. Dacres, F. C. D. Cornish, N. B. Inglefield, J. M. Gordon, A. D. Macdonald, H. S. Dawkins, H. C. L. Holden, N. Maxwell, and R. A. M. Henn. The undermentioned Capts. from the Supy. List to be Capts., dated Jan., 1877, viz.:—G. J. Gillies, C. F. Dixon, J. F. Free (late Bengal), E. D. Shafto, F. E. B. Loraine, and B. L. Tollner. The undermentioned Lieuts. from the Supy. List to be Lieuts., dated Jan. 1, 1877, viz.:—F. H. French, E. Buckle. J. W. Yerbury, C. Russell, and E. M. Baker. The undermentioned officers to be placed upon the Supy. List, but not to be succeeded while in their present rank, dated Jan. 1, 1877:—Capts. O. F. Le Mottée, L. W. Taylor (late Bengal), J. F. Meiklejohn (late Bengal), W. H. Wright, W. B Hemans, and R. Corbett; Lieuts. F. M. Robinson, J. P. Freeth, G. B. N. Martin, D. M. D. Waterfield, F. E. Walter, and G. R. Price.

BREVET.

Major H. D. Jackson, retired full pay (late Bengal) Artillery, to have the hon. rank of Lieut.-Col.; Oct. 21, 1876.

Qrmr. R. Woods, Royal Artillery, who retires on half pay, to have the hon. rank of Capt.

The undermentioned officers, having completed the qualifying service, to be Cols., viz.:—Lieut.-Cols. W. J. Bolton, C.M.G., Royal Artillery, Dec. 23, 1876; F. Close, Royal Artillery, Jan. 17, 1877; and H. V. Timbrell, Royal (late Bengal) Artillery, Jan. 21, 1877.

INDIA OFFICE, February 14, 1877.

Her Majesty has been pleased to approve of the following promotions and resignation amongst the officers of the Staff Corps and of her Majesty's Indian Military Forces made by the Governments in India:—

BREVET.

To be Major—Capt. De L. R. F. Woolbridge, Bombay S.C.; Nov. 21, 1876.

To be Capt.—Lieut. C. C. Dyce, Bengal S.C.; Dec. 23, 1876. Major H. P. Peacock, Bengal Cavalry, to rank from July 23, 1876, in succession to Gen. H. C. M. Cox, Bengal Infantry, deceased.

Substantive Promotions.

BENGAL STAFF CORPS.

To be Lieut.-Cols.—Majors G. C. Depree, H. R. Osborn, E. H. C. Simpson, and G. B. C. Simpson, dated Dec. 9, 1876; Brevet Lieut.-Col. J. H. Jenkins and E. C. Impey; Majors W. C. B. Ryan and L. H. Williams; dated Dec. 10, 1876; and Majors G. J. Pasley, J. V. Hunt, C. F. Sharpe, P. H. F. Harris, T. E. V. Gucht, and B. R. Chambers; dated Dec. 20, 1876.

To be Majors—Capts. A. D. Butter, dated Dec. 12, 1876; and L. Smith, R. C. R. Clifford, H. S. Jarret, L. J. H. Grey, E. Swetenham, W. C. Anderson, H. M. Pratt, and C. H. Cantor, dated Dec. 13, 1876; and H. B. Sanderson, C. O'Donel, H. C. Fagan, G. F. I. Graham, C. J. Gartin, A. Murray, and G. Atkins, dated Dec. 20, 1876.

BENGAL ARMY.

Late 1st European Cavalry—Brevet Major A. R. D. Mackenzie to be Major; Sept. 6, 1876.

MADRAS STAFF CORPS.

To be Major—Brevet Major W. S. Hunt; Nov. 30, 1876.

MADRAS ARMY.

Cavalry.

Brevet Col. C. R. Stainforth to be Col.; Nov, 30, 1876.

Alterations of Rank.

Cavalry.

Lieut.-Col. E. M. Dawford to rank from Nov. 26, 1875.

4th Light Cavalry—Major W. J. Morris to rank from Nov. 26, 1875.

7th Light Cavalry—Brevet Lieut.-Col. R. Caulfeild (retired), to rank from Nov. 26, 1875.

BOMBAY STAFF CORPS.

To be Lieut.-Cols.—Brevet Lieut.-Col. H. P. Close, and Majors A. Wardrop, T. Bell, S. Fellows, and A. Gayer, dated Dec. 10, 1876; and Major G. R. C. Westropp, dated Dec. 20, 1876.

To be Majors—Capts. C. F. James, Dec. 12, 1876; A. M. Shewell, J. S. Iredell, and G. A. Jacob, dated Dec. 13, 1876; and F. J. S. Adam and W. H. Wilson, dated Dec. 20, 1876.

To be Capts.—Lieuts. H. F. E. Lucas, Nov. 29, 1876; and Lieut. W. I. Le Breton, Dec. 23, 1876.

Resignation—Capt. E. Hughes, Bengal Infantry, dated Nov. 15, 1876.

Her Majesty has been pleased to approve of the removal of the name of the undermentioned officer from the list of the Army:—Capt. C. B. Norman, Bengal S.C.

The Militia Gazette.

WAR OFFICE, February 16, 1877.

Where not otherwise specified, the following commissions and announcements bear date Feb. 17, 1877:—

2nd Royal Cheshire—Capt. and Brevet Major F. J. Green, half-pay, late 58th Foot, to be Capt.; Jan. 31, 1877.

Royal Denbigh and Merioneth—Lieut. D. W. Kirby to be Capt.

Devon Artillery—Charles Edward Roberts Chanter, gent., to be Lieut. (Supy.).

Hampshire—William Henry Hennah, gent., to be Sub-Lieut. (Supy.).

West Kent—Edmund Gustavus Bloomfield Meade-Waldo, gent., to be Sub-Lieut. (Supy.).

Royal Elthorne, or 5th Middlesex—Edward David Durell Barclay, gent., to be Sub-Lieut. (Supy.).

The Duke of Edinburgh's Own Edinburgh Artillery—Sub-Lieut. C. H. Cox resigns commission.

Forfar and Kincardine Artillery—Major W. T. T. Blair-Imrie is granted the honorary rank of Lieut..Col.

The Highland Rifle—David Henderson Williamson, gent., to be Sub-Lieut. William Stirling, gent., to be Sub-Lieut. (Supy.). Sidney Wright, gent., to be Sub-Lieut. (Supy.).

1st Royal Lanark—Courtenay Robert Percy Vernon, gent., to be Sub-Lieut. Herbert Augustus Salwey, gent., to be Sub-Lieut.

Antrim—Capt. and Adjt. R. J. Hickman, from the Royal Monmouth Militia, to be Adjt.

Carlow—Lieut. R. Wolfe resigns commission.

Clare—John Armstead Braddell, gent., to be Sub-Lieut. (Supy.).

West Cork Artillery—Lieut. E. St. M. Nepean resigns commission.

Royal Cork City Artillery—Capt. the Hon. B. E. B. Fitz-Patrick resigns commission.

Kildare—Sub-Lieut. H. E. W. de Roebuck resigns commission.

Sligo—Sub-Lieut. A. E. H. Moore to be Lieut.; March 14, 1874. Sub-Lieut. J. D. Robinson to be Lieut; May 6, 1874.

Waterford Artillery—Lieut.-Col. L. G. F. Keane is granted the honorary rank of Col. Capt. and Hon. Major J. R. Mulcahy to be Major.

YEOMANRY CAVALRY.

Derbyshire—Major T. W. Evans to be Lieut.-Col., vice C. R. Colvile, resigned.

West Kent—Philip Green, Esq., late Capt. 5th Lancers, *to* be Lieut. (Supy.).

PROMOTION AND RETIREMENT.

Amongst the various suggestions made by the recent Royal Commission upon Promotion and Retirement in the Army is the following:—"We are also *of opinion* that when the Army shall have been brought to the standard rate of promotion which we have recommended, the practice of conferring brevet rank upon the senior major and captain in the Service upon a vacancy occurring on the fixed establishment of general officers may well be dispensed with." Now, is this to be read that, *immediately* upon such recommendation becoming law these promotions are to cease? Or is it meant that in due course of time, when the flow of promotion throughout all branches of the Service shall have been brought to an equality, as recommended, these brevet promotions shall cease? The latter seems, and, it is to be hoped, is the proper interpretation, as the Royal Commissioners in another part of their report allude to the supersession of old captains in the Line in the following words:—"We may mention, for example, the grievance felt by the colonels, &c. Again, the changes made in the organization of the Artillery were followed by the grant of brevet rank to some senior captains in the Line, which *lessened* in some degree the supersession of those officers of that rank through the conversion of the first captains of the Artillery into majors." It would be out of place to open this question of supersession, as it must be allowed by all that a battery command should be a field officer's; but all that the old Line captains want is to be put upon an equality in Army rank, as, indeed, it was deemed that they should be by the late Secretary of State for War; *vide* the brevet promotions of May, 1873, for a portion of those superseded. Now that an age retirement for general officers is proposed, which, if carried out, would remove a number from the fixed establishment, would it not be a good opportunity to promote an equal number of senior captains to brevet majorities? This would clear off a number of superseded captains, which, together with the further vacancies on the fixed establishment, for a short period would bring the even flow of promotion required. For the last three years the annual number of captains promoted brevet majors, in succession to vacancies on the fixed establishment, has been about thirty. The forty junior majors of the Royal Artillery have an average of twenty and three-quarter years' service, and have superseded all captains of the Line whose captains' commissions bear date previous to Dec., 1865, whilst the ten senior captains of the Royal Artillery have only an average of nineteen years and ten months' service. The supersession by the junior majors of the Royal (late Indian) Artillery, and by the Royal and late Indian Engineers, is still greater. It is a most significant fact that there are no brevet majors in the Royal Artillery and Engineers except for war services, thus showing the great disparity in the flow of promotion between those branches of the Service and the Line. The average length of service of the next thirty Line captains on the General List for promotion is twenty-one and three-quarter years, and by the time the junior of these is, under existing circumstances, promoted, he will have completed twenty-two and three-quarter years, and the date of the two last Line captains' commissions as captain who were last promoted brevet major is Nov., 1862.

The Woolwich correspondent of the *Morning Post* states:—"The Heavy Gun Committee having taken into consideration the result of the late trials of the 80-ton gun at Shoeburyness, have given directions to have the gun brought back to Woolwich in order that the powder chamber may be enlarged at the Royal Gun Factories. The defective tube will not be at present replaced, although the increased charge which will follow on the enlargement of the chamber will necessarily subject it to a heavier strain; but one round will probably be fired at the Woolwich butts to ascertain the velocity and pressures under the new conditions, and the great weapon will then be taken once more to Shooburyness for a second trial against the 32-inch iron target."

THE MILITARY STRENGTH OF RUSSIA.

The following notes on the numerical force, spirit, and condition of the Russian Army have been culled from recent German* works. The authors appear to have written with impartiality, and to have known what they were writing about. The numbers must, doubtless, be taken as approximations; but, even considered as such, these estimates of the Russian force and the aggressive power of Russia cannot fail to be interesting at the present time. The Infantry of the Russian Army consists of 48 divisions each of two brigades, each brigade comprising two regiments. In 10 of these divisions—viz., three of the Guard and the seven Caucasus divisions—the regiments have four battalions, in the remaining divisions the regiments have three battalions. There are, then, in all 616 Infantry battalions. The strength of each battalion on a war footing may be roughly stated at 1,000 men. In addition there are 32 Rifle battalions divided into eight brigades, and 34 so-called Line battalions. The total strength of the Regular Infantry is as follows:—616 Infantry battalions, 616,000 men; 32 Rifle battalions, 28,000 men; 34 Line battalions, 35,600 men—total, 682 battalions, 679,600 men. The above constitute the Infantry of the Active Regular Army. Of Irregular Infantry, the Russians have but little—some 11 battalions of Cossacks. When the Russian Army is mobilized, for each regiment of the Active Army a reserve battalion should be formed. This in time would supply an additional force of 160,000 men. Of this Infantry Reserve the cadres of the battalions of the Guard Corps only are kept up in peace time. When mobilization is decreed, each regiment forms its reserve battalion, and for this purpose appoints the commander, four officers, a *maitre d'armes*, and two clerks; the remaining officers and men are taken from the Ersatz Reserve, or, should this not suffice, from the Landsturm. These reserve battalions, when called out, are formed into brigades and divisions. The Ersatz Reserve is formed of men who are permitted to finish their period of service on furlough, but are at any time liable to be called to the ranks to complete the battalions to a war strength. In war time these battalions train the men required for the regiments in the field. Exactly as with the Reserve, one battalion is formed for each regiment, and the men are drawn from those on furlough, and, if necessary, from the first ban of the Landsturm. Every Russian male under the age of forty capable of bearing arms, and not forming part of the standing Army, is liable to be called out to serve with the Landsturm, "Opoltschenie." These men are called Ratniki, and are divided into two bans. The four last batches are received into the "Opoltschenie" form the first ban, the remainder the second ban. The Ratniki of the first ban are liable to be sent to join the Active Army in the field; the remainder are for home defence only. The Regular Cavalry consists of 56 regiments, each of four squadrons, and one reserve squadron. The strength of a squadron, which in war time does not vary from the peace establishment, is 16 non-commissioned officers, four trumpeters, 128 men (mounted), and the strength of a regiment, all told, is 629 men; this gives a *force of 35,224* men for the 56 regiments. To this force must be added 22 regiments of Cossacks, which are ranked as Regular Cavalry; these regiments number 1,134 men each; their united strength would be 20,148 men, making the total force of Regular Cavalry 55,372. This force is divided into 19 Cavalry divisions of four regiments each. Two of the Cossack regiments are not included in any division. By a recent order the strength of the Russian Cavalry division has been reduced from six regiments to four. In peace time no Cavalry is attached to the Infantry divisions. When summoned to the field the divisional Cavalry will be supplied by the Cossacks. In addition to the 22 regiments incorporated with the Cavalry divisions, there are 40 regiments of Don Cossacks; these regiments are only called out in war time, and from them it is intended that the Cavalry for the Infantry divisions should be drawn. Besides the Cossacks of the Don there are other Cossack regiments in the Russian Service. The following gives the total force of Cavalry, regular and irregular, at the disposal of the Czar:—Regular Cavalry, 35,000 men; Cossack regiments, with Regular Cavalry, 20,000; Don Cossacks, 36,000; other Cossacks, 35,000; total, 126,000 men. Of Artillery the Russians possess 288 field batteries, 2,304 guns, and 73,500 men; 34 horse batteries, 204 guns, 7,650 men; 24 Cossack batteries, 164 guns, 6,150 men—total, 346 batteries, 2,672 guns, and 87,300 men. The proportion to the other arms is about three guns per 1,000 men. To each Infantry division is attached an Artillery brigade of six batteries, numbering in all 48 guns. Of special corps, the Russians have five sapper brigades, comprising 11 sapper battalions, six pontoon half-battalions, two Engineer parks, two siege Engineer parks, nine telegraph, four reserve sapper battalions; in all 14,340 men. The following gives the total strength of the different arms on a war footing:—Infantry, 682 battalions, 679,600 men; Cavalry, 932 squadrons, 126,000 men; Artillery, 346 batteries, 37,000 men, 2,672 guns; Engineers, &c., 14,300 men; total strength of the Active Army, 907,000 men and 2,672 guns. Of local troops there is a force, including garrison Infantry and Artillery, of 254,000 men on a war footing. To these, in the event of war, would be confided the task of garrisoning the fortresses and maintaining order. Excepting, possibly, in Poland and the Caucasus, this force would amply suffice, and the main part of the Active Army would be free to operate beyond the frontier.

* "Die Land und See Macht Russlands."—Von Schnehen; Berlin, 1877. "Die Starke und der Zustand der Russichen Armee im falle einer Mobilisirung," by the Petersburg Correspondent of the "Militärischen Blätter," Vienna, 1876.—The "National Zeitung."

Arms and Equipment.—Although the issue of the Berdan rifle was commenced in 1869, the whole Army has not yet been supplied with it. The cause of the delay is this. The first supplies of the arm were obtained from America. Subsequently it was resolved that the rifles should be manufactured in the country itself, and three full years were occupied in erecting the necessary factories. There is, then, in the Russian Army this grave inconvenience, that not only do divisions of the same *corps d'armée* possess different weapons, but large numbers of the Reserve men have never been trained to the use of the Berdan rifle. The weapon itself is said to be an excellent military rifle, second to none in Europe. The soldier carries sixty rounds of ammunition in two pouches. Arrangements are made in the field that when a battalion comes under range of effective Artillery fire and deploys its companies, an ammunition cart shall follow it at a distance of about 1,000 paces. The Infantry do not carry intrenching tools, but a proportion is carried on the ammunition cart. The Cavalry, excepting Dragoon regiments, are armed as follows:—The front rank carry lance and revolver, the rear rank a carbine of the Berdan pattern. Every trooper carries a sword. The Cossacks carry lance, gun, and sword. Of the Russian Cavalry, then, about two-thirds carry the lance, the remainder having a long-range firearm. The field Artillery (designated 9-pounders and 4-pounders) consists mainly of bronze guns. The Artillery* of the Russians may be considered inferior to that of their neighbours.

The training of Infantry recruits, formerly conducted with the Reserve, is now carried on in the regiments of the Active Army. The recruits are brought in late in November or early in December, and trained through the winter, and in the spring are supposed to be ready to take their place in the ranks. The severity of the Russian winter offers great difficulties in the way of training men, and this, coupled with the shortness of time allowed, would account for the reported falling off of the Infantry in steadiness and drill. Great attention is paid to rifle shooting:—"Shooting is taught in a rational manner, viz., by a free expenditure of ball cartridges. As the Russian soldier is, moreover, endowed by nature with a calm temperament, it is not to be wondered at that he shoots excellently. Although the Russian soldier may manœuvre somewhat clumsily, he may be relied on to advance with undaunted resolution and confidence, following his leaders doggedly, and delivering his fire with great calmness. The enemy who has to deal with him will find him a terrible adversary."† The Cavalry more than the Infantry suffer from the short time devoted to their training; both in their riding and manœuvring this is reported as specially noticeable. The Russian Artillery is excellently horsed, and the guns well served. The employment of masses of Artillery does not appear, however, to have received due attention at their manœuvres.

Of late years much attention has been paid to the selection and education of officers. No officer can now enter the Army without having passed an examination. An excellent understanding is reported to exist between the officers and their men; the latter rely implicitly on their officers, and are ready to follow them anywhere. "These Russian battalions will be found far from easy to tackle."‡ To mobilise the Russian Army must occupy time, owing to the vast extent of the empire, the scanty communications, and the necessity of watching certain provinces, more especially Poland and the western frontier. From the fact of the greater portion of the Army being quartered in the western half of the empire, it is impossible for the different corps to draw their recruits and reserves from the neighbourhood in which they are quartered. The empire has, it is true, been divided into districts for this purpose. As, however, one-sixth of the whole army is quartered in Poland, from whence only one-tenth of the recruits for the Army are drawn, on the occasion of a mobilization a considerable movement of men in various directions must take place, and a certain derangement of the railway traffic becomes unavoidable. This is the unfavourable aspect of the Russian mobilization; otherwise, for them to pass from a peace to a war footing is simple enough. The difference between the two establishments is not very great. The Cavalry is kept at its full strength in peace time. The war strength of an Infantry company is 168 or 216 men, according as the regiment has three or four battalions. The peace establishment of all companies is 96 men; consequently, the larger number of companies in the Army require only 72 men to complete them to war strength. To place the Artillery on a war footing the field batteries require their number of men to be augmented by about a third, the horse batteries by about a fourth. To mobilise the 314 batteries some 40,000 horses would be needed. Arrangements have been made to meet this emergency. All horses fit for military service belonging to private individuals have been registered, and definite points selected, to which their owners would be required to send them. All those needed for the public service would then be selected, and the owners indemnified. It has been calculated that the entire mobilisation of the Russian Army could be effected in from four to five weeks. To form an estimate of the forces at the disposal of the Tsar to cope with Turkey and her allies, a deduction must be made of the troops required to keep the peace in Russia, and to guard her coasts. In Warsaw some two divisions must be left. For the protection of Finland and the Baltic coast two divisions would be necessary, and two divisions for Odessa and the shores of the Black Sea. The local troops would suffice to guard other parts of the empire. The following gives the muster of troops available for active operations in the field:—Three Infantry divisions of the Guard, 48,000; 32 Infantry divisions, 334,000; 24 Rifle battalions, 20,000; 52 Cavalry regiments, 33,000; 20 Cossack regiments, 20,000; 244 batteries 1,884 guns, 52,000 men—total, 557,000 men and 1,884 guns. These figures only give the actual combatants—the train, administrative departments, &c., are not included. For active operations at the same time in Asia Minor the following forces would be available. Allowing a force of two divisions to be left behind to keep order in the Caucasus there would remain for active operations across the frontier—Five Infantry divisions, 80,000; 4 Rifle battalions, 4,000; 7 Line regiments, 7,000; 4 Dragoon regiments, 2,500; 15 Cossack regiments, 12,000; 37 batteries and 296 guns, 7,000—total, 112,500 men and 296 guns. It is deemed that in Central Asia the local troops would suffice to keep in check the Mussulman population, reinforcements, if necessary, being obtained from Astrachan, Orenburg, and Siberia. The calling out of the Reserve would, after the lapse of some time, free the eight divisions left behind, which, if summoned to the front, would strengthen the Active Army by some 100,000 men and 400 guns. The *National Zeitung*, in October last, published the following as an approximate statement of the whole armed force of Russia, including Reserves and non-combatants:—Regular troops, 897,000; Irregular, 173,000; Reserve, 182,000; Ersatz, 319,000; local troops, 325,000; grand total, 1,900,000 men.

HOW THE MONEY GOES.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

Sir,—Allow me a short space in the Army and Navy Gazette to enlighten the ignorance of "One who Knows," who writes on the above subject in your issue of the 10th inst. 1. It is quite true that, in the days of the Barrack Department, only two reports were required for barrack damages; but it was found that this was not sufficient security against misappropriation of the amounts recovered from the troops. 2. Therefore at home stations the reports are now prepared in triplicate, the original being used as the Commissariat officer's voucher for striking off his charge the number and description of articles paid for by the troops, the duplicate being sent to the senior officer of the regiment, corps, detachment, or department, surcharged for the information of all concerned, and the triplicate being put up as a voucher with the cash account, in which the value of the articles paid for by the troops is credited to the public. 3. At foreign stations the procedure differs, in so far that five reports are required instead of three, which is caused by the necessity for keeping at the station a duplicate of every voucher that goes away with any account, so as to avoid the trouble, delay, and expense of sending the originals backwards and forwards between the War Office and the station if required for reference.—I am, &c., Philalethes.

Feb. 13, 1877.

THE ESTABLISHMENTS OF THE ARMY.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

Sir,—The establishments of the Army are now generally regulated by a General Order that is published at the beginning of each financial year. An examination of the Order regulating the regimental establishments from 1876-77 (dated April 1, 1876) shows that for Infantry corps there are now three different establishments, viz., of 820, 600, and 520 rank and file. With reference to this arrangement, can you or any of your readers give me information on the following points?—1st. What is the object of having establishments of three different strengths? I can understand the utility of two different establishments, viz., peace and war, or a home and a colonial establishment, but the object of the third is not very apparent. 2nd. How many Infantry corps are officially supposed to be kept up at their full strength? Has not this maintenance of a certain number of corps at their full strength been hitherto in many cases a purely official fiction? 3rd. As a consequence of this, have not very many regiments during recent years been obliged to embark when ordered on foreign service short of their established strength? Another point upon which I would be very thankful for information has reference to recruiting. Mr. John Holms, the member for Hackney, in a letter dated Jan. 10, which he addressed to the *Times*, asserted that the maximum limit of age for recruits had recently been extended from twenty-five to thirty years. Can you kindly inform me whether this is a fact?—I am, &c., Engineer.

SCARCITY OF DOMESTICS FOR THE NAVY.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

Sir,—In perusing your journal of the 3rd inst., I observe a paragraph complaining of the scarcity of domestics for our "ships of war," and that officers are invariably compelled to engage inefficient men as stewards, much to their disadvantage and discomfort. It is a fact, which is too well known amongst our naval officers, that practical and efficient men for stewards and cooks are rarely to be found, and this great disadvantage is equally shared from the admiral downwards. Now, the whole and sole cause of this scarcity is nothing more or less than from the want of a better position. If this request is only granted, you will soon find the supply of practical and efficient men to be equivalent to the demand. For instance, a man with the desired qualifications to fit him for an admiral's steward is a man who can gain employment and hold a far better position on shore than is given him on board, and these men invariably sacrifice the higher wages for the better position. Many of our large ships of the present day carry a ship's steward for general mess. This man is very properly given the rating of a chief petty officer, which enables him to command due respect from those in subjection to him. In order to obtain a more efficient class of domestics for the Service generally I would offer three suggestions, and in doing so I may say that I thoroughly believe my opinion will be found universal:—1st. That all admirals' stewards and cooks should be given the chief rate. If those two important people are not worthy of the rating of a chief petty officer, they are not worthy of their post as upper servants of an admiral's staff. 2nd. Post captains' stewards and cooks to be given a first class petty officer's rating; also ward-room stewards and cooks. 3rd. Gun-room stewards and cooks to be given the second class petty officer's rating. I feel sure that if the above suggestions were complied with our naval officers would no longer fail to obtain a class of men capable of discharging their duties in a creditable and satisfactory manner, and that admirals and captains would invariably meet with a man capable of discharging the duties (alternately) as his butler on shore and his steward on board.—I am, &c.,

Feb. 10, 1877. Pro Bono Publico.

THE ROYAL MILITARY ACADEMY.

The duty usually performed by the Duke of Cambridge at the periodical examination at the Royal Military Academy, Woolwich, devolved on Wednesday upon Major-Gen. Lysons, C.B., Qrmr.-Gen., owing to the unavoidable absence of his Royal Highness. There were likewise present the Earl of Lichfield, the Earl of Cavan, Gen. Sir Richard Davies, R.A., Major-Gen. D'Aguilar, R.A., commandant at Woolwich; Major-Gen. Sir John Adye, governor of the Academy, &c. The usual military exercises were first gone through on the parade in front of the building, and a series of repository drills were smartly performed on the ground in rear, after which the cadets were paraded in the School of Arms for the award of commissions and prizes, to witness which a great many ladies and gentlemen had assembled.

Lieut.-Col. Barker, Assistant Director of Military Education, reported that the first class of cadets, which had on this occasion been examined for commissions, consisted of thirty-eight gentlemen, thirty-six of whom had passed; seven of these would be recommended to her Majesty for commissions in the Royal Engineers, and the remainder for the Royal Artillery. He then read the reports of the following examiners, all being of a satisfactory character:—Major. Ford, R.A., and Capt. Jones, R.A., on the subject of Artillery; Major Betty, R.A., in Artillery exercises; Col. Wood, V.C., and Capt. Clark, R.A., in military history; Major-Gen. Scott, C.B., and Major Courtenay, R.A., in military drawing; the Rev. W. Kingsley, in landscape drawing; chemistry and physics, Dr. Noad, F.R.S.; Major Ward-Ashton, R.A., in riding and sword exercise; and Major Gildea, 21st Foot, in gymnastics.

Major-Gen. Sir John Adye reported that the thirty-six gentlemen who had been pronounced qualified for commissions by their studies were also, in his opinion, well fitted in all other respects to receive that honour. A considerable proportion of these cadets had availed themselves of the accelerated advancement offered to them in December, 1875, and would thus receive their commissions after a residence at the Academy of two years instead of the normal period of two years and a half. The course of instruction had been in their case modified to meet the requirements of the Service, and he believed that no disadvantage would result from shortening the term. The average age of the gentlemen cadets about to be commissioned was nineteen years and eleven months. The general conduct of the cadets had been uniformly good. The additional ground recently enclosed in front of the Academy would afford increased facilities for cricket, football, and other means of recreation within the place of so beneficial a character, and the new buildings now in course of erection would in the course of the present year enable each cadet to have a room to himself, thus supplying a want which had long been felt.

Major-Gen. Lysons said he was directed to express the regret of H.R.H. the Field-Marshal Commanding-in-Chief at his not being able to attend personally and distribute the rewards to the gentlemen cadets. The visit had afforded him (Gen. Lysons) the utmost interest and satisfaction, and he should have great pleasure in reporting to his Royal Highness not only the efficiency, but also the good conduct and discipline of the gentlemen cadets at Woolwich. He might say, for his Royal Highness, that this reflected the greatest credit upon the cadets themselves and all concerned in the regulation and instruction of this the most excellent of the national military establishments. From all that he had seen that day, as well as from what Sir John Adye had told him, he was satisfied that the race of British Engineers and Artillerymen was not likely to degenerate. (Applause.)

The following is the award of commissions:—

Royal Engineers.—W. H. Turton, 41,621 marks; G. H. B. Gordon, 36,783; T. De la H. Brotherton, 35.973; Geo. A. Carr, 35,479; J. A. Henderson, 35,332; A. T. Kelly, 34,717; E. C. Stanton, 33,523.

Royal Artillery.—H. T. Butcher, 28,010 marks; J. C. Bamfield, 27,864; H. B. Gundry, 27,226; H. W. Morrieson, 27,220; *W. H. Williams, 25,233; G. C. Simpson, 24,359; *H. L. Murray-Dunlop, 24,139; H. M. L. Rundle, 24,029; T. W. Powles, 23,892; H. F. Willis, 23,825; *H. M. Sandbach, 23,779; R. M. B. F. Kelly, 23,775; *Hon. G. A. Anson, 23,760; H. Montgomery-Campbell, 23,539; W. C. Pollard, 23,510; *J. D. Barry, 23,335; C. H. L. Mercer, 22,414; *F. E. Kent, 22,066; C. H. Alexander, 21,446; *J. J. Porteus, 21,425; *A. C. Burmester, 21,341; F. H. Ward, 21,028; H. E. F. Heneage, 19,823; H. Bruen, 19,558; *H. G. Pelly, 19,527; J. S. Minter, 19,046; *C. P. Triscott, 18,822; *E. Foord, 18,696; *J. Shiffner, 17,491.

---

* These cadets passed through the Academy in the shortened period of two years.

The following alterations took place among the officers of the Army last month, viz.:—Twenty-four gentlemen were appointed to commissions as lieuts., sub-lieuts., qrmrs., rdgmrs., &c.; seven capts. and four lieuts. retired, receiving the value of their commissions; Surg. G. A. Wilkinson commuted his retired allowance; four lieuts., three sub-lieuts., and one surg. resigned, and the deaths of one lieut.-gen., two major-gens., one col., one major, two capts., four lieuts., one qrmr., one depty.-comy., three surg.-majors, and one vet.-surg. were reported.

Mr. J. Holms has given notice that on an early day it is his intention to "call attention to the present state of the military forces, and move that in the opinion of that House the efficiency, economy, and administration of the British Army would be promoted if the men for home service were not retained in barracks a longer time than was necessary to render them efficient soldiers."

INDIA.

We (*Homeward Mail*) should like to ask the new Military Secretary at the India Office to consider the bad effects of the rule which requires officers to serve for three years in India at a stretch and spend their leave in the hills. When India was six months away from England, it was not unreasonable, but it would puzzle the ingenuity of the cleverest to learn why the restriction still exists. An officer will generally, during that time, take six months' leave. As the case stands, there is nothing in the rules to prevent his taking privilege or sick leave in each of the three years to be spent in India, but he must not go out of the country. When he gets his leave he may go up to the hills; he may go into Cashmere; he may go to any one of the many spots in the Empire which are beyond the reach of letter or telegram, but he must on no account go beyond the prescribed region. The reason doubtless is that officers should be within call if wanted for service; but the fact is that officers are often further removed from a call to duty in India than they would be in any spot almost in Europe. If an officer were at home the telegraph would summon him in three weeks to his post, whereas in the hills it would often be three weeks before it would be possible to reach him. And this is only half the mischief. Leave spent in India by men who are not hunting men too often leads to idle and vicious habits. There has been some talk lately of the growth of gambling among officers of the Indian Army, and other reports more or less injurious to the reputation of an officer and a gentleman from time to time appear. For much of this, we say unhesitatingly, Government has to answer, because it keeps men idling in an Indian climate, spending their months of leave oftentimes in a manner not congenial to their feelings, because they are cut off from the right to spend their leave elsewhere. On professional grounds alone it is a mistaken policy. What officer is there who loves his profession who would not, if he had the opportunity, run home once in a way to a camp of exercise, visit the German or French autumn manœuvres, or devote two or three months to gunnery practice, or to keeping pace with progress at home? For these and other reasons of a more private nature which will suggest themselves, officers in India would often find the highest privilege the right to spend the "general leave on private affairs and sick certificate" granted to them during service "in India"—where they pleased. So long as they returned to duty when their leave expired, and during absence provided means of recall, we do not see that there need be any restriction or abatement of pay and allowances. An officer is now entitled by the rules to two or three months' privilege leave, and is eligible "to take leave on private affairs or sick certificate anywhere in India for any period not exceeding six months," at the discretion of the Commander-in-Chief or of the Government. *He is*, during such period, entitled to his full pay and a moiety of his Staff salary. It *stands* that "leave taken under this rule forms no part of the eight years' aggregate furlough." All this, we think, should stand with the omission of the words "in India" after the word "anywhere." As a matter of fact, as we have said, an officer may be much further from recall in India than out of it; and at the time of the mutiny there were officers on leave in the hills who knew nothing of the trouble—did not hear a murmur of it—until they returned from their leave and found that the victory at Delhi had just completed the triumphs of the little army of Europeans. The danger had come and passed in their absence. We commend the subject with all seriousness to the military authorities. We are sure it would be a great boon conferred on officers, with no disadvantage whatever to the Service.

The *Times of India* says:—"The recent order granting an increase of pay to the Native Army will be welcome to the sepoys in many ways. The gift of 30 rs. which each recruit is to receive on enlistment, to enable him to provide a suitable kit, will be especially acceptable. This is practically equivalent to conceding that highly-prized boon, a 'free kit.' Until now, directly a young sepoy enlisted he was placed under stoppages to pay for his regimental necessaries, and the period during which he was thus on short commons frequently extended over a year. The young and growing recruit was deprived of a part of his pay, from two to three rupees at a time, when he was kept hard at work at drill, and when he wanted all his seven rupees to feed himself properly and enable him to develope into a strong and efficient soldier. Now recruits joining the Native Army will get their monthly pay without any deductions."

Capt. E. F. Chapman, Royal (late Bengal) Artillery, who has been employed since March 10, 1871, as an assist. qrmr.-gen., has been appointed a depty. qrmr.-gen. on the Staff of the Bengal Army, with effect from Dec. 31, 1867, vice Capt. L. A. Gregson, 70th Regt., resigned. Capt. Chapman served throughout the Abyssinian Campaign from Dec., 1876, having brought the B Bat. of mounted ordnance from England, and was most energetic in getting it into order previous to the arrival of No. 5 Bat. 21st Brig.; served with the battery until April 9, 1868, when he was appointed aide-de-camp to Brig.-Gen. Petrie, commanding the Royal Artillery, and was present at the action of Arogee and fall of Magdala (mentioned in dispatches and medal). He entered the Army June 12, 1858; became first lieut., Aug. 27, 1858; and capt., Jan. 21, 1872. He passed out of the Staff College in Dec., 1869.

Intelligence has reached England of the death of Major E. D. Gompertz, Madras S.C., which occurred suddenly at Bangalore on the 10th inst. The deceased officer, who was employed as depty.-insptr.-gen. of police in Mysore, entered the Indian Army Dec. 20, 1851; became lieut., Nov. 23, 1856; capt., Dec. 20, 1863; and major, Dec. 20, 1871. He served in the Burmese war in 1852-53 (medal with clasp for Pegu); also with the Saugor Field Division in quelling the mutiny in India in 1857-58, and was present at the affair of Kobrai, battle of Banda, action near Chitero Role, action near Punghauttee, and action at Kurreareeh; served in Bundlecund in 1859.

The reports of a military expedition against the Ameer of Cabul are modified. The Government were, however, taking precautions to guard the frontier, in the event of a European war, and an expedition against the Afridees is considered certain. The Cabul Prime Minister and the British Agent are expected at Peshawur. The Ameer, it is said, demands aid or the separation of his connection with the British Government, and remonstrates against the measures respecting Khelat.

The following appeared in yesterday's *Morning Post*:—"Some reports have been circulated of the death of Lieut.-Gen. Sir Neville Chamberlain, G.C.B., G.C.S.I., the Commander-in-Chief at Madras, but we have authority to state that, although Sir Neville has been seriously ill with cholera, the last telegram received announced that he was convalescent."

The *Civil and Military Gazette* hears of a proposal which is on foot to invite Major-Gen. Reynell Taylor, C.B., C.S.I., Bengal S.C., to a public dinner on his retirement from the Punjab Commission—a compliment well deserved, and in which many will be glad to join to this popular officer.

Gen. W. N. T. Smee, Bombay Infantry, died at Oakfield House, Reigate, on the 7th inst., aged seventy-five years. The deceased officer entered the Army June 18, 1819; became lieut., May 4, 1820; capt., June 5, 1829; major, July 6, 1839; lieut.-col., Jan. 21, 1846; col., June 20, 1854; major-gen., Oct. 13, 1867; lieut.-gen., Jan. 2, 1870; and gen., Nov. 26, 1875.

On arrival in India from England, Deputy Surgeon-Gen. M. F. Manifold has been posted to Mhow for duty; Depty. Surg.-Gen. A. Smith, M.D., to Rawul Pindee; Depty. Surg.-Gen. T. C. O'Leary, M.B., to Secunderabad; and Depty. Surg.-Gen. N. H. Stewart, M.D., to Mean Meer.

Major-Gen. Sir E. B. Johnson, K.C.B., Royal (Bengal) Artillery, has embarked this week at Venice *en route* to India, to enter upon the duties of his new appointment as Military Member of the Council of the Governor-General of India.

Col. C. C. Johnson, Bengal S.C., left England a few days since for India, to resume duty as depty. qrmr.-gen. from furlough.

Col. S. Mainwaring, Madras S.C., has obtained permission to reside and draw pay in Europe.

Lieut.-Cols. H. A. Prinsep and L. H. Williams, Bengal S.C., have applied for furlough to Europe on medical certificate.

Lieut.-Col. A. B. Cumberlege, Madras S.C., has obtained eight months' furlough to Europe, on private affairs.

Major G. F. M. Lane, Madras S.C., has been granted furlough from India to Australia for six months, on medical certificate.

THE BOMBAY ARMY.

The following statement showing the dates on which the following Regimental Lieut.-Colonels of the Bombay Army will attain to their Colonel's allowances has been published by the *Times of India*:—

Col. R. Phayre, Jan. 26, 1877.

THE INDIAN RETIREMENT SCHEME.

The following statement, which we take from the *Homeward Mail*, shows the effect of the retiring scheme on the Infantry field officers of the three Presidencies:—

	Colonels with off-reckoning.	Regimental Lieut.-Cols.	Regimental Majors.
Bengal.			
1875	78	398	187
1876	86	377	196
1877	94	356	205
Madras.			
1875	71	288	142
1876	85	274	149
1877	85	255	160
Bombay.			
1875	35	185	91
1876	37	170	94
1877	40	153	100

The figures are taken from the January "Army Lists" of the three Presidencies for the years given, and include both the local and Staff Corps Infantry field officers. It is believed only sixteen lieutenant-colonels of the Madras Army retired last year, so that four steps have to be distributed between the Bengal and Bombay Presidencies.

THE UNIFORM QUESTION.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

Sir,—Every true lover of coat armour must have strongly entered into the righteous condemnation exhibited in a leading article in your valuable journal of Jan. 27 of the conduct of some petty officers and seamen of the Royal Navy in recently demurring to an official order, that when on leave they are to wear the uniform of the Royal Navy, and not civilian dress. Great censure and blame must be attached to our petty officers and seamen for showing such a disrespectful spirit towards the proudest Service in the universe; but far greater censure and blame ought to be cast upon those officers of the Royal Navy who set such an example to their inferiors by their infringement in their person of all rules of the Service, and when on shore at times, when they ought to be rigged according to the custom and rules laid down upon the subject, either appear in a meaningless kind of dress, or else on occasions when their full dress ought to be worn appearing in the extreme undress, almost, of shipboard. If such an example as this is shown by the officers of the Royal Navy, who can wonder that so bad an effect is produced and copied by the petty officers and men serving under them? It is a fact which cannot be denied by any of your readers, that on those frequent occasions when the naval hospital officers who are on full pay there and on special services accept the hospitality of the Royal Artillery mess at Woolwich, they invariably appear in mufti. Times are changed, and the naval officer of the present day cannot be considered the innocent pet on shore of the past. The age of steam, of iron, and engine-driving has made our salts quite worldly-wise men; and there is no excuse for their not knowing how to dress themselves, nor are their voyages so long now-a-days as to cause them to forget the standing orders for clothing ashore. It is very much to be lamented that the same spirit in a small degree exists in the sister Service, the Army, the great desire being to wear civilian disguises; and this may be evidenced in the rank and file by the number of furlough men to be seen in London at all times of the year wearing either comforters round the neck or civilian greatcoats over the uniform, and this most noticeably in most Cavalry regiments. Every lover of the Services must be glad to read your valuable leader condemning this state of things, and must join you, sir, in saying that that man who is ashamed of wearing the Queen's livery is not worthy to be enrolled among the servitors to be paid by his country. Apologising for troubling you, I am, &c.,

Feb. 1, 1877. Kismet La Mort.

[Our correspondent may not be aware that the Navy has no regular mess dress, and full dress is only allowed to be worn on State occasions, and not at balls, &c., as with the Army.—Ed. A. and N. G.].

ARMY PROMOTION.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

Sir,—The officers of the Army are again indebted to your valuable paper for pointing out the omission from the Queen's Speech of any reference to them at the opening of Parliament, from which it may be conjectured that they will receive no further attention from the Secretary of State for War this Session. It is unnecessary to point out that this is a sad disappointment after waiting so long in expectation of some result following the report of the Royal Commission. Are they to be satisfied with the five-year rule being applied to regimental lieutenant-colonels, to accelerate promotion? It requires no elaborate calculation to prove that its effect is somewhat analagous to "a drop added to the ocean." I would suggest a slight addition to this—a beginning—until the War Secretary sees his way to a more satisfactory solution of the question, viz.:—1. Optional full-pay retirements after twenty-eight years' service, with the regulation price of commission held at the date of Mr. Cardwell's Warrant. 2. Compulsory retirement with said regulation price after thirty years' service without having attained the rank of regimental lieutenant-colonel. Abolish the Purchase Commissioners, whose pay is great and duties nominal, and thus far the only gainers by the abolition of purchase. Sufficient retirements in all ranks and regiments, by sale, must have taken place ere this to enable the Secretary of State for War to dispense with their services, knowing as we do that a line has been drawn (however unjustly) at the rank held on Oct. 1, 1871. On the principle that "half a loaf is better than no bread" this would assist, although to a limited extent only, in relieving the present mortifying and deplorable

Feb. 14, 1877. Stagnation.

It is announced by the *Morning Post* that "Mr. R. T. Goldsworthy, C.M.G., President of Nevis, succeeds the Hon. F. P. Barlee as Colonial Secretary in Western Australia." Mr. Goldsworthy only recently went out to Nevis, having been selected for the presidency in recognition of his services with Sir John Glover's expedition during the Ashantee war.

At the annual meeting of the London and County Plate Glass Insurance Company, Limited, held yesterday at the offices, 4, St. Paul's Churchyard, E.C., a dividend of 6 per cent. per annum was declared.

APOLLINARIS.

Across two columns, One Shilling and Sixpence per line, but no such Advertisement inserted under	1	1	0

Army & Navy Gazette.

LONDON, SATURDAY, FEBRUARY 17, 1877.

What is "The Treasury"? We ask the question because it would really seem that it is not a division or bureau for the conduct of affairs—not a part of the Government of the country—but that it is some despotic organization quite apart from and independent of the Ministry of the day. When the Secretary of State for War, a great officer of State and member of the Cabinet, tells the House of Commons that the War Office have decided on certain matters connected with the efficiency and contentment of the Army, and needing immediate attention, but that he cannot answer for the course "the Treasury" will take in reference to these proposals, he would lead a person who was ignorant of the constitution of the Government to suppose that there was some autocratic department independent of and superior to the Government which exercised supreme control over the action of all branches of the Administration. But the Treasury is like the War Office itself—or like the Admiralty, or the Home or Colonial Office—or any other of the great bureaux. It is a Committee of Administration, and if the Cabinet decide on any question, "The Treasury" can no more refuse their approval than Lord Beaconsfield, as Lord Privy Seal, could refuse to recognize the decisions of his own Cabinet, presided over by Lord Beaconsfield himself. It is true that the Chancellor of the Exchequer may object to expense, and that the Lords of the Treasury may raise formidable opposition to measures laid before them by other bureaux, but these can only be as points of detail once the Cabinet have agreed on the necessity of coming to the Parliament for a grant of money for an object of national importance. The Royal Commission on Promotion and Retirement have made a report of which Mr. Hardy gives us to understand he approves the recommendations. If he, as Secretary of State, takes the sense of the Cabinet in the propriety of carrying out these proposals and secures their approval, it seems ludicrous to say that the "Treasury" can interpose, with endless delay, tantamount to absolute refusal. The Treasury consists of Lord

Beaconsfield, First Lord, and of three Junior Lords, Viscount Crichton, Mr. Winn, and Sir J. Elphinstone. There are two "Joint Secretaries" (as they are inelegantly termed, as though they had been cut off some animal by the butcher); and there "the Treasury" begins and ends. Does it not look very like the old "Dodson and Fogg" trick that a Secretary of State should say, "I would do it in a moment, you know, but there is that terrible partner of mine!" We really, without the smallest feeling or desire to cause needless annoyance, would press on members of the House to put question after question till the Government says what are its intentions in reference to this most important question. As long as it is unsettled the vast mass of officers will be in a state which cannot tend to the efficiency of the Army, and which it is cruel and wrongful to perpetuate.

The Military Secretary will hold a levée at the Horse Guards, Whitehall, every Tuesday at one o'clock. Officers are requested, when possible, to notify at least one day previously their wish to attend; and should the levée be postponed they will be informed accordingly.

We learn that his Royal Highness the Duke of Cambridge, who was unable to attend the levée on Thursday through indisposition, is slightly better.

The latest accounts of Lord Lucan's health were that he had passed a quiet night, but had not materially improved.

The Chinese Embassy will leave Waterloo Station to-day at 10.30 a.m., by special train, to inspect the two new gunboats built for their Government, of which an account recently appeared in the *Times*. The gunboats will proceed to China with the crews which took out those already dispatched there, of which they speak in the highest terms.

The late Colonel of the 10th Hussars, Valentine Baker, leaves Constantinople immediately on an important duty. The rank he holds is provisional, but we understand he is likely soon to obtain a Staff appointment.

The accounts of the sufferings of the Turkish soldiery and of their patience read at Stafford House are confirmed by our private letters.

"A Poor Captain," in another column, looks at the "Medical Question" from quite a new point of view, and his letter may be taken, we believe, as representing the feelings of the combatant ranks. But Lord Cardwell's idea is not likely to be tested further, for after Mr. Hardy's admission on Thursday in the House of Commons it would be impossible to continue to enforce regulations which have proved so damaging to the interests of the Service. If the old system is not returned to in its entirety, it may be regarded as certain that the present arrangement will be subjected to very considerable modification.

In a recent number we called attention to statements affecting the professional reputation of an officer of long and most meritorious service which had been published in the *Standard*, and expressed a strong opinion that the truth of the allegations respecting the condition of the battalion of the regiment which that officer has just brought home from India should be investigated. An inquiry has been instituted, and the result has been the complete vindication of the conduct of Colonel Chippindall and of the state of his distinguished regiment from the charges so recklessly made by the correspondents of our contemporary. Sir Hastings Doyle has expressed his complete satisfaction with the discipline and efficiency of the 19th Foot, and the Horse Guards are quite content with the manner in which Colonel Chippindall has exercised the duties of commanding officer. We trust the *Standard* did not print the letters which conveyed such grave charges without some inquiry into the *boná fides* of the writers. At all events, they prove to have been utterly untrustworthy.

The Council of the Royal Naval School, New Cross, have admitted upon the foundation one of the sons of the late Captain R. A. Gorges, R.M.A. (who was drowned in her Majesty's ship Captain), without election by the subscribers. This is a very becoming act, and is indicative of views on the part of the Council which deserve the support of the Service.

Captain Singleton, 92nd Highlanders, on being removed from the Adjutancy of the Galloway Volunteers at the end of his five years' tenure of office, applied to be allowed to rejoin his regiment. To his astonishment he was informed that, as he was seconded, he must remain on half pay till the vacancy was absorbed. If this regulation were generally known few officers, we fancy, would care to accept Adjutancies of the Auxiliary Forces. That it is not generally known is certain.

To those who know Mr. Roger Goldsworthy, and are aware how devotedly he laboured for many years to promote the efficiency of the Houssa Force on the West Coast of Africa, the announcement of the *Morning Post* that he is to be transferred from his appointment of President of Nevis to that of Colonial Secretary of Western Australia will have occasioned great satisfaction. Mr. Goldsworthy was informed when he left for the West Indies that he was to regard the Presidency he had accepted in the light of a stepping-stone. It is satisfactory to find that promises have been so soon fulfilled, for by his appointment to Western Australia he has been moved another step onwards towards the Colonial Governorship, for which he is destined after a brief period of probationary service. Mr. Goldsworthy is succeeded, we understand, at Nevis, by Captain A. E. Havelock, who has just retired from the 32nd Light Infantry. Captain Havelock goes out with good credentials, he having lately been provisionally employed as Colonial Secretary in Fiji, a position in which he evinced great aptitude.

The officers of the Commissariat and Transport Department have again to submit to a trial of their patience, already somewhat sorely tested, Mr. Hardy having stated, in reply to Sir Henry Havelock's further inquiry respecting their grievances, his inability to reply until the recovery from his present illness of the Surveyor-General of the Ordnance, Lord Eustace Cecil. We cannot but deeply sympathise with the very painful position Mr. Hardy was placed in on Monday, when he announced to the House of Commons the condition of our Commissariat. Can it be possible that these services are only just being organized? The critical state of foreign affairs would surely demand not only that they should be thoroughly organized, but ready to take the field at a moment's notice. What are we to understand from so singular a statement?

The *Italia Militair* states that a thirteenth fort is to be added to the twelve detached forts which are being constructed to cover Strasburg. This fort will be placed near Altenheim, in order to close the access in this direction towards Fort Werder, which is constructed near the village of Grafenstaden.

By a decree dated December 26, 1876, the whole Veterinary Department of the French Army has been reorganized and placed on a more effective basis.

With reference to an article which we lately published on the dearth of non-commissioned officers, a correspondent well qualified to give an opinion proposes that a certain number of extra intelligent non-commissioned officers should be employed to enlist young men of superior position and intelligence, such as the sons of farmers and well-to-do tradesmen, as Corporals. These Corporals should be given a year as probationary service, and at the end of that time be required to pass before a board a qualifying examination as to their fitness to be non-commissioned officers. If from the result of the examination, or from other reasons, they should be found unfit, they should be discharged from her Majesty's Service. A large percentage of the commissions which are given to non-commissioned officers should be reserved for those who actually enlisted as such. If this idea were tried, the young men enlisted might at first be attached to the Guards, and when qualified posted to different regiments. Our correspondent considers that a large number of young men of the positions named above would be glad to enlist as non-commissioned officers who would not on any consideration enlist as privates. The advantages of this plan, if successful, would, it is believed, be that a superior class of non-commissioned officers would be obtained, and a class of society hitherto unapproachable except in a small degree by the Army would be reached. There would then be three classes represented in the Army, viz:—1. The officers—that is, those who joined as such. 2. Non-commissioned officers. 3. Privates. Among the non-commissioned officers there wolud still be a considerable number who had joined as privates, but as a class the officer, non-commissioned officer, and private would be distinct. The advantage that would, it is believed, be found would be that the new class of non-commissioned officers would be more likely to treat the men much in the same way as the officers treat them, and consequently we should not hear of so many cases of insubordination and striking non-commissioned officers, who, in a great many instances, have, in consequence of their manner, irritated the man into what he has done.

The post of Staff Officer of Pensioners, Aberdeen, has become vacant owing to the resignation of Captain Blair, Adjutant 3rd Administrative Battalion Aberdeenshire Volunteers, who has hitherto performed the duties in addition to his regular work.

It appears that, after a good deal of delay, the report on the Permanent Staff of the French Army is about to be laid before Parliament. The report has been drawn up by General Pourcet, a Senator who, it will be remembered, played a prominent part in the prosecution of ex-Marshal Bazaine. He recommends the doing away with of the special Staff Corps, which is to be replaced by a Staff open to officers of all branches of the Service. The Staff in time of peace will see that everything is ready for war, and in time of war it will assume the general direction of military operations. There is to be a Chief of the Staff of the Army, but this officer will be under the orders of the Minister of War. To gain admission to the Superior Military School, which is to furnish Staff officers, it will be necessary to pass an examination before a committee presided over by the Chief of the Staff of the Army. There is to be a central and permanent commission of geographical works. On the peace establishment the Staff will comprise twenty Colonels, twenty-five Lieutenant-Colonels, ninety Majors, and 130 Captains. In the geographical section, three Colonels, four Lieutenant-Colonels, nine Majors, and eighteen Captains. No limits are fixed for the war establishment. The number of officers to be admitted each year is not to be inferior to seventy-five; the Infantry and Cavalry officers will remain in the Superior School three years, the Artillery and Engineer officers two years. At the end of the first and of the second year the officers will undergo a fresh examination, and be sent back to their corps unless they pass. At the end of the third year, on passing their final examination, they receive their commissions. Such, we believe, will be found to be the principal points of the new Bill.

The troubles caused by the repeated strikes among the workmen engaged upon the splendid block of barracks which has been for some time past in course of erection at Glasgow have necessarily delayed their completion, but recent reports to the War Office state operations to have been progressing most favourably since the Royal Engineers took the work into their own hands. The amount expended over the original estimate, which was £120,000, has been something formidable, amounting to over £50,000; but this is due entirely to the strikes which have all along so impeded operations. The barracks will be finished about the end of next year, it is hoped.

Deputy Surgeon-General J. M. S. Fogo, from the Half-Pay List, is about to be restored to full pay, and will assume the duties of Principal Medical Officer of the Northern District, vice Deputy Surgeon-General H. L. Cowen, retiring upon half pay.

Alterations are continually being introduced in the dress of our soldiers which are not necessary. Why is not attention turned to changes which are? He would be a wise individual who could distinguish a man of the 4th, 7th, 8th, 10th, 14th, 18th, 19th, or 20th Hussars, walking in the street, from one of the 21st. The men of the 3rd Hussars are known by their scarlet collars, those of the 11th by their crimson overalls, those of the 13th by their buff collars, and those of the 15th by their scarlet caps. In the other cases the uniforms are precisely similar, there not being even as much as a difference in the device on the button to render the several corps distinguishable.

The War Office has not yet taken any steps for abolishing those regimental committees which have existed all these years as a thorn in the side of every right-thinking Volunteer. Meanwhile, the non-commissioned officers and men included in the organization of one committee have been disputing the right, not only of company officers, but also their own Lieutenant-Colonel, to call them to account for disrespectful utterances whilst sitting as members of that committee in what they are pleased to term their "civil capacity." So long as the present regulations continue to receive official sanction it is not in any way surprising that there should be a marked absence of desirable candidates for Volunteer commissions. English gentlemen may be inspired with the strongest feelings of patriotism, but it is too much to expect that they will submit to the indignity of finding their acts questioned by their own subordinates, and this because certain civilian officials of the War Office are unable to appreciate the evils bound to follow upon an arrangement which might have been sensible when Volunteers claimed a vested right, but which is utterly indefensible now that the force receives a capitation grant from the State, and is no longer self-supporting.

In a private letter, addressed to a relative in England, which has been placed at our disposal, a subaltern of the 2nd West India Regiment writes from Fort Cairns, British Honduras, on December 10:—"In a former letter I told you the Major had granted permission for us to remove the remains of those who fell in the last raid to within the enclosure of the fort. I am pleased to say we had the gratification of erecting the monument to their memory. I made a careful drawing of it, to be hung up in the orderly-room. Mr. Ohlaffen and I carried out the arrangements. On the morning of November 19 at 6.30 I superintended the removal of the remains of Captain Gould, of the 4th West India Regiment, who died here, Mr. Ohlaffen and Captain Rutherford being present. The detachment paraded in full dress at five p.m. on November 20 for the interment of the mortal remains in their final resting-place, the flag covering the coffin, which was placed on one of the howitzer carriages. When the body had been lowered into the grave the men fired three volleys into the air, presented arms, and marched back to barracks, all feeling happier for having done a soldier's duty to their comrades, who had nobly died in doing theirs in front of the enemy. Friends in England will be glad, no doubt, to learn what has been done."

REVIEWS.

Russian Wars with Turkey. By Major Frank S. Russell, 14th Hussars. (Henry S. King and Co., London.)

Not a few of the most interesting works that have lately been placed before the public have emanated from the pen of military men. In support of this statement we have only to mention Captain Burnaby's "Ride to Khiva" and Captain Hozier's "Invasions of England," both of which works have met with the success which they well deserve. In noticing Major Russell's short volume, we cannot but regret that our limited space precludes our following him through his careful and studied account of the wars in which Turkey has been engaged from time to time. The origin of many of these wars, as Major Russell clearly demonstrates, has been the result of pure obstinacy, combined with a tranquil belief in the infallibility of the wisdom of their councils and their prowess in the field—both of which suppositions indisputably *have* been, but are now as certainly a thing of the past as that the Ottoman Power is built on the sands, and has no real foundation whatever. Major Russell puts before us lucidly the blundering errors the Turks have perpetrated in their campaigns, and almost leads us to infer that they went out of their way to adhere to preconceived ideas and strategic plans, when sudden alterations in the enemy's tactics should have cancelled them. He devotes some considerable portion of his book to the contemplation of both the Russian and Turkish force available in case of war; and this he does with a keen and critical eye. He clearly points out Austria's inability to remain a disinterested "party" to the quarrels of Turkey and Russia, and tells us what, of course, everyone is aware of, viz., the supremacy that the former country would maintain over the latter on the seas. Turkey is, doubtless, possessed of a fine Navy; but whether, in case of war breaking out, she would utilise that Navy to any extent, is doubtful. As Major Russell observes, perchance some future Gibbon may devote himself to telling us the story of the decline and fall of the Ottoman Power. Were this to come to pass, we can scarcely imagine a work being placed before us more brimful of interest. When we take into consideration that the Turks made their way by sheer force of arms and indomitable courage into at one time all but the heart of Europe, conquering almost invariably wherever they sought to plant their crescent and faith, it is almost as great a collapse for them in the state in which they are now of impending dissolution as it was with the Romans when they were overrun by the barbaric hordes led by Attila, who swept away the Empire. This work of Major Russell's is from beginning to end interesting. It bears on its face not only that it is written by an able officer, but from the easy yet polished style of the author, together with the perfect *English* preserved throughout, it is evident that Major Russell possesses advantages which, by this able little work of his, he gives fair promise to turn to good account.

The Amalgamation of the British Army. By Robert G. Webster. (Hardwicke and Bogue, London.)

This little book, or rather pamphlet, brings the unpalatable fact home to us for the hundredth time that were we to come into collision with any of the great Continental Powers, in the event of a failure of diplomacy smoothing matters over, we should be placed in an awkward, ludicrous position. And not only does it do this, but it holds out suggestions that are well worthy of consideration. In the introduction the author quotes the Duke of Wellington:—"Everybody appears to be convinced of the necessity of having an army, but nobody appears to be inclined to adopt the measures which are necessary for that purpose. The same little temporary measures are adopted that have been before practised, and they will equally fail." These words are as pregnant with truth to-day as they were seventy-three years ago. The author proceeds to point out, from our experiences in the Crimean war, the folly of neglecting to maintain a sufficient Reserve, and remarks that, during that war, "at home all was alarm and excitement; any amount of money was unhesitatingly voted; but soldiers, not money, were wanted, and no amount of money could buy them." Want of space, however, precludes our entering in this present number upon a full consideration of the author's proposals. We must meantime refer our readers to the book, with the promise that their time will be by no means wasted.

Historical Records of the 2nd Royal Surrey, or 11th Regiment of Militia. By John Davis. (Marcus Ward and Co., London.)

This book contains many curious facts as to the origin and development of the Militia. The author deserves no little praise for the pains-taking manner in which he has placed before his readers the history of the regiment of Militia to which he belongs. Such works open no field for brilliant writing, but we congratulate Captain Davis on the clear and concise manner in which he has strung together facts which will greatly interest those for whose instruction the volume has been specially compiled, the officers and late officers of the 2nd Surrey, and which recommends it also to all who take an interest in the Militia Service generally. Officers who, like Captain Davis, devote their leisure moments to the preparation of standing records of their regiments, perform services which, we fear, are not at all times requited. The task is an endless one, and it is only those who have themselves engaged in such work who can form any idea of the exertion it entails. Of all the Militia histories we have seen, there is only one which can be said to compare with the one before us; that is Captain Raikes' work on the 3rd West York.

An Essay on New South Wales. By G. H. Reid (Richards, Sydney. Trübner and Co., London and New York.)

There is a great deal of useful information contained in this essay, showing that the author has taken considerable pains to collect not only the statistics he produces, but also the intelligence he so freely gives of the welfare of the mother colony of the Two Australias. This essay is well worth the attention of those who take an interest in that rapidly-developed country.

The Navy.

GAZETTE.

Admiralty, February 10, 1877.

In accordance with the provisions of H.M.'s Order in Council of Feb. 22, 1870, Lieut. Clifton Lewes has been this day placed on the Retired List.

APPOINTMENTS.

Capt. E. Hardinge, to be Aide-de-Camp to the Queen, vice Oldfield, deceased.

Lieutenants—Arthur Havergal, to the Audacious, for the Sylvia; Claude H. Millett, to the Daring; John G. Haggard, to the Duke of Wellington; Sidney M. Eardley-Wilmot, to the Vernon; Alexander J. Ballantyne, to the Pallas, as gunnery-lieutenant; and J. Godfrey, to the Hector, as gunnery-lieutenant.

Navigating-Lieutenant—Richard G. Roe and John G. Scott, to the Audacious.

Sub-Lieutenants—Arthur J. Loane and F. W. Keary, to the Audacious, for the Sylvia.

Midshipmen—George Couper, to the Pallas; Charles T. Gimlett, Houston S. J. Phillips, and Richard H. Peirse, of the Minotaur, to the Charybdis, when recommissioned.

Paymasters—Alfred De Denne, Norcott D. Roberts, and Edmund Hickson, to the Audacious; Henry B. Robinson, to the Royal Adelaide.

Assistant-Paymaster—D. J. Thomson, to the Hart, in charge.

Active, Com. Sir William N. W. Hewett, was in Simon's Bay up to Jan. 15. No news.

Alacrity, Lieut.-Com. W. U. Moore, arrived at Sydney on Dec. 10, and was refitting. She will return to her surveying duties in the Fiji Group early in March, after being re-commissioned at Sydney. She would pay off on Dec. 31.

Albatross, Com. E. Rice, has been ordered to Central America.

Alexandra, Capt. R. O'B. Fitzroy, flagship of Vice-Admiral Hornby, left Chatham on Wednesday. H.R.H. the Princess of Wales has intimated her intention of presenting a full-length portrait of herself to be hung in the ward-room, in commemoration of her launching that vessel at Chatham on April 7, 1875. It is expected that the presentation of the portrait to the officers will be made by her Royal Highness in person, on board the Alexandra at Portsmouth, the Prince and Princess of Wales having expressed their desire to inspect the vessel before she takes her departure for the Mediterranean. On Monday the Right Hon. G. W. Hunt, M.P., accompanied by Admirals Sir H. R. Yelverton and Lord Gilford, the Hon. A. F. Egerton, M.P., Rear-Admiral R. Hall, Admiral Lord C. Paget, Rear-Admiral Stewart, and Mr. N. Barnaby inspected the vessel. On Saturday the ship was inspected by the Right Hon. G. J. Goschen, M.P., the Earl of Denbigh, Viscount Feilding, the Right Hon. S. Cave, M.P., and other distinguished visitors. The Alexandra represents the favourite type of ironclads. Her armament consists of two 25-ton and ten 18-ton guns, carried partly in a central battery and partly on the upper deck. By this means the disadvantages of the broadside system are minimized, while all its advantages are secured. Her armour is exceptionally thick for her class. Outside an iron skin 1½in. thick is a teak backing of 12in. thick, to which a solid iron plating 12in. thick is attached at some parts, otherwise the armour is only 10in. thick. In spite of her being, as might be supposed, overweighted and heavily handicapped for speed, she has shown her power of justifying the favourable expectations formed of her. In November last, when she made her official trial on the measured mile off the Maplin Sands, she reached the extraordinary speed of 16 knots an hour. Each screw is driven by an independent set of engines. There are twelve boilers, which are worked at a pressure of 60lb. on the inch. The safety-valve question which the Thunderer explosion raised has been taken into account; and, in addition to the ordinary safety-valves, each boiler is provided with a supplementary or auxiliary test-valve, which is loaded with a lever and weight, and placed on the front of the boilers. Each boiler is also provided with two pressure-gauges. The Alexandra has been provided with torpedoes. Recently two additional store-rooms were fitted for stowing the new Whitehead torpedo, which will be supplied to her in considerable numbers. Fore and aft torpedo tubes have been fitted for firing these weapons.

Amethyst, Capt. A. J. Chatfield, arrived on Jan. 3 at Valparaiso, all well, having left Esquimalt on Nov. 7. She would join the flag at Coquimbo.

Antelope, Lieut.-Com. J. C. Burnell, arrived at Malta on Feb. 4 from Syracuse and Constantinople, and would leave on the 7th for Syracuse. She would return with mails on Feb. 9, and then be inspected.

Arab, Com. F. S. Broughton, remains at Port Blair, Andaman Islands.

Assistance, Capt. F. M. Prattent, sailed from Plymouth on the 10th inst. for Gibraltar. Her sailing orders are to call at Lisbon with supernumeraries for the Channel Squadron, which will await her arrival. On receiving the time-expired men, invalids, prisoners, &c., from the squadron, she will proceed to Gibraltar, and on embarking military invalids and discharged men will immediately return to Portsmouth.

Barracouta, Capt. C. E. Stevens, arrived at Gibraltar on the 4th inst., and as she had called at Sierra Leone for coal, and came direct from that place with no bill of health, the conditions of quarantine were enforced, and the vessel was only permitted to receive provisions under the proper supervision, &c., of the health guard. She arrived at Spithead on Thursday afternoon, having been allowed to sail from Gibraltar on the 8th to work out her quarantine on her voyage home. A court of inquiry will, it is stated, be held on Capt. Stevens, respecting the Samoa affair, in which several seamen and Marines were killed and wounded.

Bellerophon, Capt. F. T. Thomson, flagship of Vice-Admiral Sir A. C. Cooper Key, was at Barbados on Jan. 29. He left Antigua on Jan. 16, with the Eclipse, Encounter, and Dryad in company; visited Dominica and Martinique, and arrived at Barbados on Jan. 20. He would leave with the above-named ships on Jan. 20 for St. Vincent and Trinidad. The Governor of Barbados entertained the officers of the Bellerophon and ships in company with the flag at a ball on the 24th ult., and the officers of the garrison gave another ball on the 26th, and entertained the officers at dinner on the 27th. The admiral gave a dance on board on the afternoon of the 29th, and there have been two cricket matches between the officers of the fleet and garrison. The probable route of the flagship is St. Vincent, Trinidad, La Guayra, Jamaica, Havana, and Bermuda, arriving at the last place about the middle of March. Letters for the Bellerophon and ships in company with the flag should be sent by the fortnightly Halifax mail, addressed Bermuda, *viâ* Halifax.

Bittern, Com. G. J. Anstruther, was at Constantinople on Feb. 4.

Black Prince, Capt. T. B. Lethbridge, was at Lisbon on Feb. 10. Letters may be sent to Gibraltar daily, overland, up to March 8; seamen's letters by P. and O. steamer, Feb. 22 and March 1 and 8.

Boxer, Com. A. H. Alington, has completely broken down in her machinery, both crank shafts being so badly cracked that it is thought new ones will have to be made before she can proceed to sea. This will detain her for nearly another month at Devonport. Mr. Bannister, engineer assistant at the Admiralty, and Mr. Eames, chief engineer at Chatham, arrived at Devonport on Wednesday to inquire into the cause of the accident to her machinery.

Charybdis, Capt. T. E. Smith, has arrived at Shanghae with the Lapwing, having accomplished the passage from the Gulf of Pechili with apparently little difficulty. The hull of the Lapwing is somewhat damaged, and she will go into dock.

Cockatrice, Com. A. J. Musgrave, will be out of the hands of Malta Dockyard on Feb. 20.

Conflict, Lieut.-Com. W. M. Carey, arrived at Sydney on Dec. 24, and would be paid off on Dec. 31.

Coquette, Lieut.-Com. W. E. Darwall, was in dock at Malta on Feb. 6.

Daphne, Com. G. B. Evans, was undocked at Bombay on Jan. 16, and would be ready for her new crew due at Bombay on Feb. 1.

Daring, Com. J. G. Hanmer. According to the *Panama Star and Herald* of Jan. 21, this vessel received orders by cable on the evening of the 19th inst. to sail immediately for Realejo, Nicaragua. The mission of the Daring to Realejo is, we understand, to inquire into the outrages recently committed in Leon on the person of Mr. Eissenstuck, of the firm of Eissenstuck and Co. Mr. Eissenstuck is a native of Germany, but the German Government, having no vessels of war on the coast, applied to the English Government for assistance in the matter, which seems to have been very promptly granted. The Daring was at Panama on Dec. 9. She would visit Mexican ports, and then go to Esquimalt.

Decoy, Lieut.-Com. J. Hayes, arrived at Plymouth on the 10th inst. from the West Indies, and was inspected by Capt. Hopkins and came into Hamoaze on the 13th inst., to prepare for paying off. She will be ready to pay off on Wednesday, Feb. 28.

Defence, Capt. R. P. Cator, was at Lisbon on Feb. 10. Letters may be sent to Gibraltar daily, overland, up to March 8; seamen's letters by P. and O. steamer, Feb. 22 and March 1 and 8.

Dryad, Com. R. D. King, was to leave Barbados on Jan. 20 for St. Vincent and Trinidad.

Eclipse, Capt. J. E. Erskine, was to leave Barbados on Jan. 20 for St. Vincent and Trinidad.

Enchantress, Staff Com. E. H. Hills, now under repair at Portsmouth, is to be ready for the Board to embark for the annual visit to the ports in August. She requires new boilers and a thorough overhaul, the cost of the work being estimated at £25,000.

Encounter, Capt. R. Bradshaw, was to leave Barbados on Jan. 2 for St. Vincent and Trinidad, in company with the flagship.

Euphrates, Capt. Cuming, has made a two hours' trial of her engines at Portsmouth, after having had them opened out by the contractors, Messrs. Laird, of Birkenhead. She was afterwards swung for the adjustment of her compasses, and will leave Portsmouth with details for India on the 23rd inst.

Fantome, Com. T. M. Maquay, was at Honolulu on Nov. 4.

Fawn, Com. W. J. L. Wharton. The surrender of a fugitive slave who had taken refuge on board this ship having been brought before the House of Commons by Sir G. Campbell, the following statement has been made by Mr. Bourke. The Government have heard, through the Admiralty, of this case, although they have not yet received any consular report upon it. Rear-Admiral Macdonald, writing from her Majesty' ship Fawn, Jeddah, Dec. 12, 1876, on this subject, says:—"I have the honour to inform you that early on the morning of the 10th inst., while the ship was lying in the harbour o. Jeddah, in the Turkish waters, a negro swam alongside, and coming on board stated through the interpreter that he was a slave and had run away from his master. Having ascertained that the fugitive was in no bodily fear whatever, I took him to the British Consulate, where on the following day he was examined in my presence by the Acting Consul, Mr. J. Oswald, with the following results:—That he had been stolen from his home in Nubia some years since, and after an indefinite time had been taken from Berber, on the Nile, to Kosair, and thence brought in a dhow with eight other slaves to Jeddah, where he was sold a few months ago to one Ibrahim Ijalan, a landowner, who employed him in his boats. He was well treated and never beaten. Having been latterly employed in digging sand for ballast on the reefs, he complained to his master that it was too cold for working in the water (N.B., the minimum temperature of the sea water has been 78 degrees), and that he wanted more clothes, and he eventually refused to work and ran away, swimming off to this ship. As there is no treaty against slaves, and there was no ground for complaint of ill-usage, it was decided to hand the fugitive over to the Governor of Jeddah, the Acting Consul undertaking that he should not be ill-used in consequence of his endeavour to escape." These are the facts of the case as far as we know them. We have not yet received the report of the Consul, and until we have, it would be premature to say what should be done in the matter. Sir G. Campbell gave notice that he would take the earliest opportunity of drawing attention to the case.

Fox, Staff-Com. J. G. Dathan, arrived at Portsmouth on the 14th inst.

Hercules, Capt. Bowden-Smith, flagship of Admiral Hon. Sir J. Drummond, was at the Pirœus on Feb. 4. The Admiral shifted his flag to the main on Jan. 30, and will leave for Malta on 20th inst.

Himalaya, Capt. E. White, arrived at Hong Kong on Feb. 14.

Hotspur, Capt. T. M. Jones, was at Smyrna on Feb. 4.

Industry, now being prepared for commission at Devonport, was the scene of some excitement on Wednesday when she was floated after being on the docking tray. As the water rose, says the *Western Morning News*, the fore part of the Industry began to float off the sunken tray, but directly the stern began to rise the vessel gave a sudden lurch to port, and heeled over so much that the men at work on board rushed upon deck in a state of great alarm. Fortunately they ran to the starboard side, for had they gone down the incline the ship would probably have heeled over altogether, causing the loss of several lives, and involving much trouble in righting her. A similar result, too, might have followed had there been one of those stiff south-west gales that are prevalent at this season; but, as it was, the breeze was light, and the vessel was safely removed into the basin—although it is doubtful whether any ship has ever before been put out of dock at a Government yard with so considerable a "list" to either side. The cause of this untoward occurrence was, without doubt, excessive top-weight. When the Industry was placed upon the tray many tons of ballast were taken from her hold, and this was not replaced, although in the meantime the top-weight had been considerably increased by masts and spars, guns and fittings on the upper deck, and stores of various descriptions.

Jackal, Lieut.-Com. H. A. Digby, left Greenock yesterday for St. Kilda to relieve the inhabitants of that island, and to take off the crew of the Austrian vessel lost there on Jan. 17. The shipwrecked mariners will be landed at Belfast.

Jumna, Capt. J. D'Arcy, arrived at Port Said on the 10th inst., and left Suez on the 12th for Bombay.

Kestrel, Com. C. B. Theobald, was under orders on Dec. 23 to proceed at once to Ichang with Mr. W. King, H.B.M.'s Consul at Kiukiang, provided she could do so without danger of running aground. The *Celestial Empire* says:—"The river is so shallow that it was thought advisable to put off the expedition until next year, when the water begins to rise. It is said that in one place between this and Ichang there is no more than three feet of water."

Liberty, Lieut.-Com. C. Johnstone, arrived at St. Vincent. Cape de Verde, on Jan. 27.

Magpie, Com. C. V. Anson, left Penang on Jan. 11 to assist in relieving troops quartered in the Malay Peninsula.

Malabar, Capt. E. Kelly, arrived at Bombay on the 12th inst.

Martin, Lieut.-Com. E. Hicks, arrived at St. Vincent, Cape de Verde, on Jan. 28.

Minotaur, Capt. Lord W. Kerr, flagship of Vice-Admiral Seymour, was at Lisbon on Feb. 10. Letters may be sent to Gibraltar daily, overland, up to March 8; seamen's letters by P. and O. steamer, Feb. 22 and March 1 and 8. After the arrival of the Assistance the squadron would cruise towards Gibraltar, and remain there a week, and then cruise towards Cadiz.

Myrmidon, Com. the Hon. R. Hare, left Coquimbo on Jan. 3 for Valparaiso, to meet the Amethyst. She will come to Spithead, calling at Rio de Janeiro.

Newcastle, Capt. R. G. Douglas. A question in reference to the recent loss of life on board this ship was asked in the House of Commons on Friday, last week, when Mr. W. Hunt read a report from the rear-admiral commanding the Flying Squadron. It is stated that Miles, the seaman, was seen to throw up his arms, and Mr. Wingfield struggling to support him, at a distance from the buoy, and were then seen no more; that two other men who also jumped overboard did not reach the buoy, and were never seen again. The lifeboat failed to find them, and after an hour he ordered the recall to be hoisted. The squadron was under orders for home, and he (Mr. W. Hunt) was unable to say whether an inquiry had taken place; but if one had not been held, he should certainly order it.

Nymphe, Capt. S. P. Townsend, arrived at Sydney on Dec. 13 from Fiji, and was refitting.

Opal, Capt. F. C. Robinson, arrived at Coquimbo on Dec. 28 from Valparaiso. She would go to the coast of Peru.

Osborne, Com. H. L. Pearson, has been ordered to be completed for sea by March 1, and a number of men have been taken from other work to get her ready. It is supposed that the Osborne will proceed to Malta to embark the Duchess of Edinburgh for passage to England.

Orontes, Capt. E. H. Seymour, arrived at Penang from Trincomalee on Jan. 8, and thus far her passage has been all one could wish. The 10th Regt. embarks at Penang, and the Orontes will pick up four companies of the 80th at Ding. Dings and Malacca. She would reach Singapore about Jan. 18, and would leave about the 28th for Mauritius and the Cape, arriving in England about the end of April. Richard Lukehurst, seaman of the Orontes, died on the morning of the 10th from the effects of exposure to the sun at Trincomalee.

Pallas, Capt. Beamish, would be ready to leave Malta about Feb. 9.

Pearl, Com. Hoskins, was at Sydney on Dec. 25 awaiting the arrival of the Wolverene.

Pert, Com. H. C. Aitchison, will go to Port Royal on being relieved at Nassau.

Plover, Com. B. H. Stewart, returned to Port Royal on Jan. 23, and would be sent to Carthagena, and return to Port Royal about Feb. 15.

Rapid, Com. A. A. F. FitzGeorge, arrived at the Pirœus on Jan. 31.

Renard, Lieut.-Com. H. J. Pugh, arrived at Auckland on Dec. 21. She was available for service in the islands.

Repulse, Capt. F. W. Wilson, flagship of Rear-Admiral de Horsey, was at Coquimbo up to Jan. 4. She left Valparaiso on Dec. 16, with the Myrmidon in company, and reached Coquimbo on Dec. 18. She is refitting for passage home, and would be ready for sea in a few days.

Resistance, Capt. C. W. Hope, was at Lisbon on Feb. 10. Letters may be sent to Gibraltar daily, overland, up to March 8; seamen's letters by P. and O. steamer, Feb. 22 and March 1 and 8.

Salamis, Com. F. W. Egerton, will remain at Lisbon for a few days, and then rejoin Admiral Seymour. Letters may be sent to Gibraltar daily, overland, up to March 8; seamen's letters by P. and O. steamer, Feb. 22 and March 1 and 8.

Sapphire, Capt. E. H. Murray, arrived at Auckland, N.Z., on Dec. 21, and would not leave again before the Pearl arrived there on her way home.

Sappho, Com. Noel N. S. Digby, was to leave Launceston, Tasmania, on Dec. 23, for Sydney.

Seagull, Com. Heron, left Plymouth Sound early on Wednesday, and proceeded for the West Coast of Africa.

Seaflower, Lieut.-Com. R. H. Eyre, arrived at St. Vincent, Cape de Verde, on Jan. 28.

Sealark, Lieut. F. H. Haygarth, returned to the Tagus on Feb. 10, to land a man, and sailed again.

Shah, Capt. F. G. D. Bedford, arrived at St. Vincent, Cape de Verde, on Feb. 3, and was to leave on Feb. 5 for Monte Video.

Simoom, Capt. R. G. S. Pasley, arrived at Barbados on Jan. 21 from Port Royal, and sailed on Jan. 26 for Sierra Leone. She is due at Barbados again early in May, whence she will come to England.

Squirrel, Lieut.-Com. R. N. Hamond, arrived at St. Vincent, Cape de Verde, on Jan. 28.

Swiftsure, Capt. J. K. Baird, was at Salonica on Feb. 4.

Thetis, Capt. T. Le H. Ward, left Aden for Suez on Feb. 1.

Undaunted, Capt. H. W. Brent, flagship of Vice-Admiral Sir R. Macdonald, was at Bombay on Jan. 22.

Valorous, Capt. L. F. Jones, was on Friday ordered to fill up with coals and provisions and proceed to the North Sea to look after and relieve the fleet of fishing boats adrift and disabled since the gales of the previous week. When these orders were received the Valorous had just hoisted her anchor at Spithead, and was under weigh for Plymouth. She was brought into harbour and coaled up to midnight, and on Saturday morning was taking in her provisions, and by three o'clock was ready to go out of harbour and proceed. She left Yarmouth Roads at daylight on Monday for Texel, where she will commence her search for the fishing craft missing from Yarmouth. There are six smack masters on board the Valorous who have volunteered their services.

Valiant, Capt. N. Salmon, V.C., arrived at Tarbert on the 12th inst., having left Foynes that morning; a gale was blowing from the west.

Vestal, Com. H. Hand, is ordered to take provisions for the Fawn from Aden to Massowa.

Vulture, Com. H. H. Washington, sailed on the 11th inst. from Plymouth for Aden, *viâ* the Suez Canal, calling at Gibraltar, Malta, and the ports in the Red Sea.

Wye, Staff-Com. W. W. Vine, sailed from the Pirœus on 15th inst. for Malta.

Zephyr, Lieut.-Com. W. G. Le Cocq, arrived at Jamaica on Jan. 15, was inspected on the 24th, and sailed at once for Nassau to relieve the Pert.

COLLISIONS WITH HER MAJESTY'S SHIPS.

The following Admiralty Circular has been issued:—"An instance has lately occurred in which the damage done to the hull of an iron vessel by collision was not considered at the time by the officer in charge sufficiently serious to necessitate a special report of the fact being made in accordance with Art. 25, Chap. 43, p. 334, of the 'Queen's Regulations;' but upon the vessel being docked some time after the collision it was found that she had sustained considerable damage. My Lords Commissioners of the Admiralty therefore direct that all cases in which iron vessels come into contact with floating or sunken objects, or with wharfs and piers, shall be at once reported, and the facts fully stated, with a view to the plating being very carefully examined in wake of the part struck or rubbed."

Sir George Campbell intends to ask the First Lord of the Admiralty on Monday whether there will be any objection to lay upon the table the correspondence between Capt. Hobart, the Admiralty, and the Foreign Office, with reference to that officer's removal from and restoration to the Navy, and to any intermediate applications from him; and also whether the calculation of his service for retired pay will be given.

The Seamen's Hospital has been removed from the Dreadnought to the Infirmary at Greenwich. The year 1876 left the society with a debt of £1,539. The Duke of Northumberland advocates the claims of the hospital upon the support of the public in a letter to the papers stating that 170,000 patients have been relieved, and that to maintain the institution in a state of efficiency the annual subscription list needs increasing from its present amount of £2,500 to £6,000.

Sir William Hamilton, who for upwards of half a century was her Majesty's Consul at Boulogne-sur-Mer, died on Wednesday. Sir William entered the Navy in 1803; was a prisoner of war in France from 1805 to 1814; was appointed Vice-Consul at Flushing and Middleburg in 1817; at Antwerp, and afterwards at Ostend, in 1818; at Nieuport, in 1820; and at Boulogne in 1822. He was appointed Consul there in 1826, and retired on a pension in 1873, and was knighted for his long official services the same year.

Rossetter's Hair Restorer.—This unrivalled preparation has now been before the public for many years, and as its success has led to several spurious imitations, the public should be on their guard. Rossetter's preparation is the only one that will with certainty restore grey hair to its original colour, remove dandruff, prevent the hair from falling off, promote its growth, and give it the lustre of youth.

NAVAL ARCHITECTURE.

Mr. E. J. Reed, C.B., M.P., in lecturing at the South Kensington Museum on naval architecture, as illustrated by the plans and models exhibited in the loan collection of the museum, remarked that the use of iron had led to the length of ships being greatly increased without proportionate enlargement of the breadth, and in this there lay a great danger. According to "Lloyd's Register" there were at present no less than thirty-six ships of 400ft. and upwards in length, the length of some of them being eleven times their breadth, and sixteen times greater in many instances than the depth. From a series of experiments he had made, he found that the tendency of a ship 400ft. long to break in two when riding over the hollow of two waves was fearfully great. No doubt this remark applied chiefly to merchant ships, for in many of these vessels which he had examined he found that their breaking strain, instead of being at least four or five times greater than that likely to be thrown upon them, was, in fact, very much less. Indeed, there could be no doubt that, in this matter, we were trespassing very closely upon the margin of safety which was considered essential even in armed structures. As a striking contrast in the other direction, Mr. Reed pointed to the Russian circular ironclad Popoffka, which is a vessel no longer than its breadth. The result of the investigation which had been made was that no more vessels of the type of the Minotaur, which is a very long ship, had since been built for war purposes either by this or any other country. He next contrasted the effects of the "compressive strain," which tended to crush in the top or bottom of a vessel, according as she was on the crest or in the hollow of a wave, with the "tensile strain," which would be likely to make her break in two, and said that, bearing these circumstances in mind, too many ships were strengthened in the wrong place. But (continued Mr. Reed) it was in the Mercantile Marine that such things were so numerous, because in so many instances strength was sacrificed to gain speed and cargo capacity, but he contended that when people produced ships of great carrying power, and obtained that capacity by enormous length, they were bound to introduce enormous strength as a compensating element. Reverting to the question of ships of war, the lecturer denounced long ships as being entirely out of place in these days of rams and torpedoes. The Bellerophon's offensive and defensive conditions were precisely similar to those of the Minotaur, but the former was 100ft. shorter, cost about £130,000 less to build, and was in truth a far more useful fighting ship than the latter vessel. Mr. Reed then explained the scientific principles brought to bear in the construction of circular ironclads, and by some simple but lucid illustrations demonstrated that their shape was not nearly so detrimental to the attainment of speed as was popularly supposed. Great efforts were made to discover the "solid of least resistance," and when that discovery had been absolutely attained, it might be, said the hon. gentleman, that we should have a ship capable of going through the water at a tremendous rate, without the aid of machinery, and only requiring the exercise of engine power in order to bring her to a standstill.

MARINES v. LINE.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

Sir,—Allow me to bring to notice the following facts on a subject which seems to me to be well deserving the attention of the Lords Commissioners of the Admiralty, and also those members of the *House of Commons* who have given support to our corps. In the first place, what is a Marine? He is both a soldier and sailor—a machine, in a common sense of the word—in complete working order, ready at any time to perform duties when called upon by a naval or military superior. His duties at home, as to parades, field days, &c., are under the immediate orders of the general commanding the district in which he may be serving. During his stay in barracks he is placed in the same position as a soldier of the Line. The difference between the Marine and the soldier is this: From the date of his enlistment up to the time of discharge the soldier performs his daily routine with the same non-commissioned officers, finally leaves the Service well known to his comrades, he having day by day and year by year enjoyed the comforts of a regular, steady, attentive, and studious life, possessed of one great advantage—that of having one set of superiors in the non-commissioned grades during his whole time of service. As we have many men in our branch of the Service who have enlisted under different forms of Government, they are most anxious that some honourable members may, during the next Session, give vent to their feelings. We are a distinguished body, never failing to perform our duties, either military or naval, both at home and abroad, and surely can hope that assistance may be forthcoming, and that an increase of pay may be placed on the Estimates, whilst an alteration is prescribed in our uniform, the present issue being all very well for appearance when in barracks, but quite inadequate for the requirements of sea service. To be continually at work by night and day on deck in a scarlet tunic, cloth trousers, and at another time exposed in boats to salt water similarly "got up" is absurd. The Marines as a body are, and have been, harshly dealt with, and what they ask is not much—that their position may be altered, with a view of their prospects being improved.
—I am, &c.,

A Royal Marine,
Mediterranean Squadron.

Admiral Sir Edward Sotheby, Vice-President of the Royal Marine Society, Capt. Adeane, R.N., and Lord Ashley have completed an inspection of the new Warspite (late Conqueror, formerly Waterloo), training ship, which, after the expenditure of £8,000 in alterations and fittings, is now one of the finest training ships afloat.

The Chatham Dockyard Branch Railway was opened for traffic yesterday morning, and a service of goods trains will now run daily between the dockyard and Chatham Station.

Epps's Cocoa — Grateful and Comforting. — "By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.* Made Simply with Boiling Water or Milk.—Sold only in Packets labelled—"James Epps & Co., Homœopathic Chemists, London."

LINE OF THE DANUBE.

(*Continued.*)

In continuing the descent of the Danube, Silistria is next reached, renowned for the sieges it sustained in 1773, 1809, 1828, 1829, and 1853, succumbing only in 1809 and 1829 to its assailants.

Silistria contains 10,000 inhabitants, and is situated on the right bank of the Danube, at a place where the river narrows to a width of only 770 metres, enlarging, however, directly the town is passed, into a wide stream, separated into four arms by three islands. Silistria bars the navigation of the river, and the point of passage below it, which is made very practicable by the existence of the three islands, and by the lowness of the right bank, which is here only two or three metres high. Its importance is further increased in consequence of the existence, opposite to it, of a good place for crossing the marshes, which, on the left bank, are impracticable as far as Rassowa. Silistria taken, access is gained to one of the great roads which lead from the interior of Roumania, across the little Balkan, to Constantinople.

These considerations have led to its being fortified, and to its establishment on the little plain which descends in a point towards the river and narrows it. But the neighbourhood of the heights on the right bank and the proximity of the left bank have, on several occasions, peculiarly favoured the attack on the place. At the present time, the possession of the opposite bank is necessary in order to prevent the town from being bombarded. The range of the Russian artillery enables not only the town to be bombarded, but prevents free movement within the greater part of the entrenched camp, and between the forts and the place.

The heights, admitting that the Turks have neither augmented the number or increased the strength of the defences of the place—and all reports point to an opposite conclusion—are covered with the line of detached works which existed at the time of the last siege in 1853. At that time four of them were armed with six guns, and one, Medjidie-Tabia, with twenty-six.

The *enceinte* which encloses the town is in trace like a half-circle, whose diameter is 600 metres. It is formed of ten bastioned fronts without outworks. Four fronts, of which three are nearly in a straight line, are covered by the Danube and joined to it by several works; three fronts are partially protected by a bend in the river, and the remaining three are completely commanded by the heights south of them.

The following figures will give an idea of the value of this *enceinte*:—Length of faces of bastions, 40 metres; length of flanks of bastions, 14 metres; mean length of curtains, 260 metres; width of ditch at salient of bastions, 11 metres; width of ditch in front of curtain, 21 metres; revetted height of counterscarp, 3·75 metres; height of wall of escarp, 4·15 metres; command, 4·60 to 5 metres; thickness of parapet, 4 metres.

Below Silistria, as far as Rassowa, and even further, there is no favourable site for crossing. On the left bank, owing to the immense marshes, access to a bridge can only be gained by passing through long defiles; on the right side steep banks, ten to fifteen metres high, in clayey soil, and wooded hills close to the edge of the stream, render the enterprise very difficult.

Rassowa is situated where the river bends sharply to the north. Near to it is Trajan's Wall, now completely in ruins. Beyond Rassowa the valley increases gradually in width, the arms of the river become more numerous, while the current at the same time diminishes in strength. The passage of the Danube in consequence becomes almost impossible, except at three points where the banks approach each other at Hirsowa, Gura-Jalomica, and at Braïla.

Hirsowa commands only one arm of the river, and from the island to the west of it, it can be completely destroyed. The old ramparts, long since abandoned, are tumbling to pieces. It is, however, stated that some field works are to be erected here. Below Hirsowa for a few miles the Danube flows in one stream, but soon separates into two arms, that of Braila and Matschin, both navigable.

Matschin, dismantled in 1829, was refortified in 1853; it can, however, now have little influence on the course of the operations. At the most, it can but shelter a small force, and serve as the *point d'appui* for a Turkish corps stationed in the mountainous region which exists at the end of the Dobrudscha peninsula. This corps could be employed either to menace Braïla and Galatz, towns of 50,000 and 80,000 inhabitants, or to hinder the landing of the Russians in the northern portion of the peninsula.

In this lower part of the Danube, the possible points of passage are very few. From Galatz, where a passage was effected in 1854, all the left bank of the river is low and marshy; it is only during the summer, when these marshes are covered with large reed-grass, that the soil is sufficiently solid to bear waggons. The right bank is also bordered with marshes and covered with reed-grass during almost its entire length. Near the town of Isakca, however, the hills gently slope down to the edge of the river, and extend for two or three miles to the east of this little straggling village, thus affording firm ground on which to organize the troops that have crossed the river. It was here that the Russians crossed in 1828.

From Isakca to the commencement of the nothern branch which flows past Ismail the two banks remain low and marshy. A little above the point from which the Sulina and St. George's branches diverge is Tultcha, another favourable place for crossing. Thus, except at Isakca and Tultcha, the feet of the Dobrudscha heights are covered by marshes. The papers have announced that the Turks intend to erect field works at these two places. This is a wise precaution, as the Russians in the winter of 1854-55 took Tultcha without striking a blow, the town being held at the time by 300 Ottoman troops.

If the Russians renounce the attempt of penetrating into Dobrudscha, they must construct some batteries near Braila to defend the passage of the Danube. The site is well adapted for fortifications; the course of the river being here narrowed, and the left bank having a command of 20 to 30 metres over it.

One must notice the floods to which the Danube is liable before leaving the subject. These floods take place twice in the year—at the commencement of the spring and in the months of July or August. The first are due to the spring rains and to the melting of the ice and snow on the lands watered by the affluents. They often give rise to inundations, in which the greater number of the islands and all the lower part of the river on the Roumanian side are covered with a sheet of water. The second, which are less considerable, result from the melting of the snow in the mountainous regions in which the affluents of the Danube take their rise.

To sum up, in the words of Baron Beaujour, "the line of the Danube is bordered with too many fortresses, and almost all these fortresses are badly constructed." They are all more or less exposed to a bombardment, yet most probably will be valiantly defended by the Turks. Nevertheless, they will hardly be able to prevent the Russian Army penetrating into Bulgaria, the points of passage being too numerous to be efficiently watched.

Four lines are available for the Russian Army. It could advance through Dobrudscha as in 1828, throw itself into the interior of the Bulgarian quadrilateral, and strike at Schumla, take for its objective Turnow, or, passing between Nicopolis and Widin, march on Sofia.

On the other hand, the Turks, who possess a numerous flotilla, could throw troops into Roumanian territory either to assume the offensive, and threaten Bucharest, or to form *têtes-de-pont* at Calafat, Turnu, Margureli, Giurgevo, and Oltenitza, before transporting the theatre of hostilities into Roumania. VIGILANS.

THE ARMY MEDICAL DEPARTMENT.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—With reference to the concluding remarks in your leader of the 27th ult. on the unification system—viz., that the medical officers "were silent on the subject"—you must be labouring under misapprehension, or cannot have seen the numerous complaints against it in the columns of a contemporary. There may be reasons why they are naturally reluctant to express their opinions more openly, lest they might subject themselves to official displeasure. Allow me to assure you that in questions where they are not afraid to express their convictions, for fear of injuring their prospects, they are anything but favourable to the system forced on the department, which it has ruined and reduced to its present deplorable state. In these days of military reform in the whole Army, the medical regimental system doubtless required to be modified to meet the changes produced by modern warfare; but this is a very different thing from sweeping it away altogether merely to gratify the hobby of a few men who have benefitted by the change and in a manner regardless of all vested interests that would not have been tolerated in any other branch of the Service—the Engineers and Artillery, for instance. This injudicious step has been further aggravated by the arbitrary and unfeeling mode in which it has been effected, and the want of respect and official courtesy shown to the oldest officers in the Service, few of whom ever venture within the precincts of Whitehall-yard. This is a matter of notoriety, and forms an exception to every other branch of the Service. There can be no greater proof of the unpopularity of this system than the deficiency of candidates and the resort to the unmilitary and unusual practice of hiring civilians for temporary military service. If a service is worth accepting at all, it is surely worth being made a profession for life. It does not require much wisdom to see that men so employed are never likely to identify themselves with the public interests, and that the soldier and the Service must be the sufferers. There is no reason why the Medical Department should not be treated like the rest of the Army. This is all they have ever asked for, and have been denied, because they have no aristocratic or political interest. In conclusion, I venture to predict that it will not even be necessary to go to war to discover the absurdity of a system that has taken three years during profound peace to inaugurate, which is still imperfect and unpopular, is inapplicable to India and the Guards, and can never be anything but a failure.—I am, &c., ONE OF THE OLD REGIME.

London, Feb. 13, 1877.

SIR,—The unification system, as applied to the Army Medical Department, has been given a lengthy trial, extending over four years, and any merits the principle possesses have been afforded ample time for showing themselves. But, as a combatant officer, in no way interested in the grievances the members of the department are boasting as a result of the change of system, I may be allowed to say that a more complete failure recent years have not witnessed, not even in connection with Army administration, and we all know (many of us to our cost) how large the number of failures has been since Parliament took the Service in hand under Lord Cardwell's guidance. But there is one aspect with regard to the unification question which I have never seen put forward. Yet it is one which is a stronger argument against it than any one of those which have been adduced. I allude to the working of the present regulations and the additional expense they entail upon married officers. Formerly, when each regiment had its two or three doctors, the officers looked upon the medical men as friends and companions. Now there is no tie between them, and the doctor is even considered an interloper. The result of this is, that when any member of an officer's family falls ill, the first thing that the officer does is to call in the nearest civilian practitioner, for whose services he, of course, has to pay heavily. It is idle to suppose that any officer will allow himself to be treated by an Army surgeon who is a complete stranger to him, and who may at any moment be called away to another station. In the regiment to which I belong, we have had about twenty medical officers attached in as many months, and the antagonism to the new system is becoming so pronounced, that when a soldier is sent into hospital it is deemed almost a miracle among his comrades if he appears among them alive again. The authorities in Whitehall-yard can have no idea how deep-rooted is the antagonism with which the present regulations are viewed; if they had, I am sure they would not force them upon the Service any longer. Seeing how underpaid the British officer is, it is a most cruel thing that he should be compelled to provide from his slender purse the medical advice required by himself and his family. In just over a year, I myself have paid away something like £40 under this head, whereas, but for the change of system, I should have had within call a medical man whom I knew, and could have trusted. In the interests of poor officers with families, I trust you will aid in bringing about the destruction of a system which entails extra expenses which, in some cases, can ill be borne.—I am, &c., A POOR CENTURION.

SIR,—The thanks of the department are due to you for the able leading article contained in your impression of the 20th ult., and which represented with great clearness and exactness the main features of the unhappy condition of affairs as they at present prevail in that section of the Service. It is strange how crows like "Satis" will be found in every age and line of life; but, notwithstanding what he sycophantly asserts from his snug nest, the various phases and injustices we, his brother officers, have been subjected to during the past three years are the cause of undisguised and universal disgust, distrust, and discontent amongst the entire executive branch of the medical officers of the Army, and are already known to be most injurious to our department and prejudicial to its interests and the Service at large. Dissatisfaction reigns supreme in our department. If there is any doubt in the minds of those in authority about it, let them only inquire of those who have a thorough knowledge from daily experience of the matter, viz., commanding officers of regiments and the principal medical officers of the home districts, and they will soon be put in possession of the facts. We are rendered silent on the subject, not from a sense of insensibility as to wrongs received, but from a feeling of utter hopelessness that they will be redressed or rectified. And I can assure you that this state of things is creating and engendering in our minds a similar sense of callous indifference regarding other matters connected with our daily military life, which, if not checked by the timely introduction of just and judicious measures of improvement in our condition, will be seriously detrimental to the soldier, the Service, and the public purse. Evils enough have been inflicted on us by the late Warrants; but, as if they did not suffice in injustice and unpleasantness, the flames of discontent and distrust which they originated are now kept further daily fanned by a constant issue of unwelcome "Circulars" which are replete with further breaches of faith and further curtailments of the rights, privieges, and conditions under which we entered the Service. Not content with depriving us of our rank, status, and regiments, one "Circular" comes removing our forage. Another forbids us the right of exchange. When we were lately removed from our regiments (uncompensated likewise for loss of money sunk in their funds and exchanges, uniform, &c.) we were graciously informed that we were transformed into purely Staff and departmental officers; but another of those pleasant "Circulars" has recently informed us that, though we are Staff and departmental officers, we shall not in future receive the only departmental allowance worth having, viz., "lodging allowance," but only be entitled to regimental quarters and one shilling per diem servant's allowance, thereby depriving any of us who are supposed to rank as field officers of over £80 a-year of our pay, and obliging us with the one shilling per diem to procure the services of a civilian servant at a salary of at least £30 a-year. And to ensure this serious loss of lodging allowance to all officers, or as many as possible, of the executive grades, the one medical officer who up to this period was left "attached" to a regiment is now to be removed from it, and our numbers at each station are to be so reduced that one or two barrack rooms, according to our rank, can be placed at our disposal in every station, and, whether we happen to be married or single, or in charge of the station hospital or otherwise, we are to be directed in orders to inhabit them, and so deprived of from £54 to £80 a-year. I need not tell you, sir, that to married officers with a family this in many instances simply means ruination, for it is utterly impossible for him, even as a surgeon-major, to house his wife, children, and servants in even two barrack rooms, and he is of necessity compelled, in addition to losing his lodging allowance, to procure a furnished house for them in the adjoining town at an additional privation of from £60 to £90 a-year. It is a grave error, too, to fancy that our labours are at all diminished by this new system; nothing is diminished by it but our pay, privileges, and numbers. Regiments being now deprived of not only the two, but the one medical officer lately "attached" to them, the entire of the regimental duties (which already were sufficiently onerous for one medical man) are in future to devolve, where such is possible, on the wretched (generally senior) officer in charge of the station hospital, overwhelming him with an amount of work—clerical, administrative, executive, sanitary, regimental, recruiting, Control, and medical—which renders it perfectly impracticable and impossible for him to perform any of them efficiently, and must lead to great loss of public property, and be of serious detriment to the soldier's welfare, the Service, and the Army Medical Department.—I am, &c., OBLIGATUS.

It is said to be in contemplation to remove the Arsenal at Ferozepore to a position on the line of the Scinde, Punjab and Delhi Railway.

FURNISH ON THE NEW HIRE SYSTEM.—The "New Hire System" is quite distinct from anything yet attempted. Houses furnished throughout. 20 Wholesale Houses to select goods from. "An excellent idea."—"Army and Navy Gazette." Prospectus, with Press opinions, post-free. General Furnishing Company—Offices, 9, Southampton-street, Strand.

THE COMMISSARIAT DEPARTMENT.

The following statement has been prepared with the object of presenting in a comprehensive form the grievances of which the officers of the old Commissariat complain, and which they desire to bring under the personal cognizance of the Secretary of State for War. These grievances are here detailed and numbered consecutively with special reference to their intensity:—

1. The abrogation of the Royal Warrant of Oct. 28, 1858, which the officers of the Commissariat regarded as their charter, and which was the result of a most elaborate enquiry by a committee under the chairmanship of Gen. Sir G. Brown, G.C.B., K.H., composed of distinguished and experienced officers, including representatives of the Indian Commissariat. Copy of the report of that committee is attached, and particular attention is solicited to its terms.

2. The disregard of the vested interests of the officers of the Commissariat under the Warrant of 1858, evinced in arranging their position in the Control Department. The superior grades of the Commissariat Department in common with those of other departments of the Army were converted into Control appointments, and thrown open to Staff and regimental officers, and to officers of the Military Store, Purveyor's, and other Departments, while the number of these appointments was decreased below the establishment of corresponding ranks in the old Commissariat alone.

3. The injury to the prospects of the senior officers of the Commissariat involved in the nomination to the higher appointments of the Control Department of officers younger than many of those over the heads of whom they were brought in.

4. The injustice of giving these appointments to Staff and regimental officers; and during the existence of the Control Department, of appointing to them officers of other departments junior in rank to the officers of the Commissariat over whom they were promoted.

5. The painful loss of standing occasioned to officers of the commissioned ranks of assistant commissary-general and deputy-assistant commissary-general, by their having been deprived of those titles, and supplied in their stead with designations held by Warrant officers of the Indian Army.

6. The hardship of treating alike officers who had been subjected to a strict educational test, and those who have not been required to undergo a similar examination.

7. The reduction of the establishment in the higher grades and the introduction of a distinct extra rank, whereby the promotion and prospects of the junior officers have been materially injured and delayed.

8. In the Royal Warrant of October, 1858, it was laid down that the department should be ruled at the War Office by an officer with the title of commissary-general-in-chief, selected from the senior officers on the Active List. The absence of a similar provision in the Warrant of Nov., 1875, is viewed with grave misapprehension.

The above grievances existed under the Control Warrant. When, however, it was announced that the Control system was to be abolished and the Commissariat and Military Store Departments revived, the officers of the Commissariat naturally looked forward to a restoration of their old privileges and establishment. Yet, although the total number of officers in the Commissariat and Transport Department exceeds considerably the establishment of the Commissariat, gazetted on the promulgation of the Royal Warrant of October, 1858, the number of appointments in the higher ranks is smaller. In addition to this, while the duties of the late Purveyor's Department have been almost entirely transferred to the Medical Department, the whole of the officers who performed those duties have been appointed to the Commissariat, and the senior commissary-general is an officer who was purveyor-in-chief, and whose past service with the Army dates from the year 1855, whereas the senior deputy commissaries-general of Commissariat origin were serving abroad before the year 1840.

PROMOTION AND RETIREMENT.

1. The Royal Warrant of October, 1858 (forming the late Commissariat Department), was based upon the report of a committee ordered to enquire into the organization of that department. The committee after making sundry recommendations which would improve the position of the Commissariat officers, and thus increase their efficiency, pointed out that "the improved position and increased responsibility consequent upon the adoption of these recomendations appear to call for additional care in making appointments to the commissioned ranks of the Commissariat," and it further recommended, "with a view to raising the department in the eyes of the Army, that the position of the officers be improved by conferring on them increased relative rank," as follows:—Commissary-general as major-general; deputy commissary-general, of five years' standing, as colonel; deputy commissary-general, under five years' standing, as lieut.-colonel; assistant commissary-general, as major; deputy-assistant commissary-general, as captain; acting deputy-assistant commissary-general, as lieutenant in the Army.

2. This recommendation was brought into effect by the Royal Warrant of October, 1858, and the following establishment was gazetted:—1 commissary-general-in-chief, 3 commissaries-general, 15 deputy commissaries-general, 60 assistant commissaries-general, and 120 deputy-assistant commissaries-general, which gave every prospect of fair promotion. This expectation was borne out by the fact that during the years from date of Warrant until 1868, the average service of an officer as deputy-assistant commissary-general on promotion to assistant commissary-general was under 11 years.

3. The department was to be recruited as far as possible by volunteers from the officers of the Army of not less than two years' service, who were to undergo a strict examination as to educational fitness. Under the inducements and on the faith of this liberal Warrant, a large number resigned the prospects of a regimental career, and joined the department.

4. The officers had every reason to be satisfied with their prospects and their position, which only required the corresponding military titles to establish their status in the estimation of the other branches of the Army. They were a united body, and proud of the Service to which they belonged.

5. This satisfactory state of the department continued until its absorption into the Control Department in 1870.

6. By the Control Warrant of 1869, the position and prospects of the officers of the Commissariat were in many cases seriously impaired, but the recent change has considerably increased the disadvantages of their position under the Control Warrant. The following table of the composition of the four higher ranks of the Commissariat and Transport Department will clearly prove this, as compared with above table of old Commissariat establishment:—

Appointed from	Commissary General.	Deputy Commissary General.	Assistant Commissary General.	Commissary.	Total.
Commissariat.........	1	10	17	29	57
Barrack	—	—	2	3	5
Purveyors	1	—	3	5	9
Military Train	—	—	1	3	4
Staff & Regimental..	—	—	2	—	2
Total.........	2	10	25	40	77

Twenty-six of these 77 are supernumerary to the establishment, thereby diminishing the chances of promotion for the junior ranks.

7. The foregoing table shows but 57 Commissariat officers holding these higher appointments. The numbers in the three higher grades of the late Commissariat alone were 79; it therefore follows that 22 steps of rank which would have fallen under the Warrant of 1858 to Commissariat officers have been lost to them, and not only so, but their future promotion has been further retarded by the fact that many of the officers from other branches of the Service with whom they have been associated were at the date of the amalgamation junior in age and service not only to those officers of the Commissariat with whom they have been classed, but also to very many of those still in the lower ranks, over whom they have been promoted.

8. Thus, not only the immediate prospects of promotion, but also the chance of attaining a higher position before retirement, have been lost to the officers of the old department; for in a few years the rank of deputy commissary-general at least will be entirely filled with these younger officers, who not only may be unwilling to retire, but will be unable to do so for many years, through not having completed the required service, while the old Commissariat officers will be compelled to retire in the lower ranks.

9. A still further stoppage of promotion may be therefore anticipated, and this state of things has only to be contrasted with the prospects of the officers of the late Commissariat, where every officer had a fair chance of attaining the rank of deputy commissary-general before completing thirty years' service, to prove how seriously the interests of these officers have been compromised.

10. The following tables show to what extent the Commissariat officers have lost in chances of promotion, in great measure to the advantage of the officers of the Military Store and Purveyor's Departments.

Number of officers in each rank, taken from "Army List" of Jan. 1, 1868 (before Control):—

	Commissariat.	Military Store.	Purveyor.
HIGHER RANKS.			
Officers ranking as General Officers...	4	—	—
Ditto as Field Officers ...	78	27	12
Total	82	27	12
LOWER RANKS.			
Officers ranking as Captains	106	43	18
Ditto as Subalterns	7	114	56
Total	113	157	74

The proportion of higher to lower ranks (*i.e.*, the relative chance of promotion) was, as calculated from above table—Commissariat, per cent., 72·64; Military Store, per cent., 17·31; Purveyor, 16·16.

Number of officers in each rank taken from Estimates for 1876-7. The supernumeraries in each rank are included in next lower rank. *Vide* note at head of Commissariat List in "Army List" for Feb., 1876:—

	Commissariat and Transport.*	Ordnance Store Department.
HIGHER RANKS.		
Officers ranking as General Officers...	2	1
Ditto as Field Officers......	54	33
Total	56	34
LOWER RANKS.		
Officers ranking as Captains	67	39
Ditto as Subalterns..........	154	87
Total	221	126

* Including Barrack, Purveyors, Military Train, Commissariat, and other officers.

The proportion of higher to lower ranks, as calculated from this table, is—Commissariat and Transport, 25·39 per cent.; Ordnance Store, 26·98 per cent. Consequently each junior Commissariat officer has lost 47·25 per cent. of chances of promotion, whereas each junior Military Store officer has gained 9·67 per cent., and each junior officer of the Purveyor's Department has gained 9·23 per cent.; and although there can be no doubt that the improvement in the chances of promotion of the officers of the Military Store and Purveyor's Department is a move in the right direction, yet it must be admitted that the officers of the old Commissariat have a just cause of complaint, in that their chances of promotion have been thereby diminished by nearly two-thirds.

POSITION, &C.

1. One of the objects of the Royal Warrant of 1858 was to improve the position of the officers of the Commissariat; this was reversed by the Royal Warrants of 1869 and 1875.

2. The number of commissaries-general, deputy commissaries-general, and assistant commissaries-general, including those taken from other branches of the Service, and supernumeraries, amounts to but thirty-seven in all in the new department, and all the remaining officers are styled commissaries, deputy-commissaries, or assistant-commissaries. It is very strongly felt that these titles are derogatory to officers holding her Majesty's commission, and that they virtually annul to a great extent the military and social advantages of those commissions, as they are titles borne by the Warrant officers of the Indian Commissariat, who form a sub-department of that Service, and who are not in the line of promotion to the commissioned ranks thereof.

3. When it is considered how large a proportion of the Army is employed in India, it is no wonder that on the return of officers from that country they should continue to regard the officers whom they find in England bearing the title of Commissary, deputy-commissary, &c., as occupying the same position as Warrant officers in India holding the same titles.

4. That the Commissariat Department has experienced a fall in the public military and civil estimation in consequence of the recent changes is but too evident, and if proof be necessary the following fact will suffice. One or more of the chief military clubs decided that "officers of the Control Department are not eligible for membership." To these clubs officers of the old Commissariat were eligible. This alone augments the difficulties inherent to the discharge of the onerous and varied public duties entrusted to the Commissariat.

It is earnestly hoped that, with a view to a comprehensive and satisfactory settlement of the grievances complained of, the Secretary of State for War may be pleased to appoint a committee, similar to that of 1858, composed of experienced military and Commissariat officers on the Active List, to take the evidence of officers of various ranks and to examine and report on the numerous representations recently submitted to him.

The foregoing statement purports to be merely an outline of the grievances under which the officers of the Commissariat are at present suffering. Details and instances which can be readily furnished have necessarily been omitted.

PARLIAMENT.

HOUSE OF COMMONS.—FRIDAY, Feb. 16.

CONDITION OF THE WAR OFFICE.

Sir Wm. Frazer gave notice that on going into Committee of Supply he would call the attention of the House to the measures taken by the Committee of 1875 in reference to the condition of the War Office.

THE WORKS DEPARTMENT OF THE ADMIRALTY.

Mr. Baxter asked the First Lord of the Admiralty if it was intended to carry out the recommendations of the Select Committee on the Purchases of Public Departments, by placing the purchases of the Works Department of the Admiralty under the control of the Purchase Department.

Mr. Ward Hunt said that it was the intention of the Admiralty to carry out the recommendation of the Committee referred to, but the matter was of such small importance that it was not necessary to press the matter on rapidly.

ARMY PROMOTION AND RETIREMENT.

Major O'Gorman, who had a notice on the paper to ask the Secretary of State for War when the officers of the Army might look for a settled programme of promotion and retirement, said he could hardly expect an answer to his question; but he should be obliged if the right hon. gentleman could inform him when the report of the Royal Commissioners would be in the hands of the Treasury.

Mr. Hardy assured the hon. and gallant member that he was as much interested in the settlement of the question as he could himself be, and that he would do everything he could to expedite the matter.

AMBULANCE PRACTICE INSTRUCTION.

Mr. Herbert asked whether it was the intention of the Secretary of State for War to grant the request of the surgeons of the Volunteer Force, and give them the instructions necessary to enable them to teach a certain number of men of their respective regiments the difficult duty of carrying sick and wounded men in case of war; and whether such instructions are carried on in the Army generally.

Mr. Hardy replied that the subject had not come before him yet, but he understood it was under consideration at the War Office, and that department would have to report upon it before it came into his hands. As regarded the last part of his question, he had to state that at Aldershot a few men were instructed in this practice, but that there was no general instruction of the kind given throughout the Army.

THE ARCTIC EXPEDITION.

Captain Pim asked the First Lord of the Admiralty if he would state to the House why the officers and men of the late Arctic Expedition were granted six weeks' full pay leave, after they had previously been granted three weeks' leave with double pay, the regulations of the Service only allowing six weeks' leave after two years' foreign service, the Arctic Expedition not having been absent eighteen months from England. And, whether he had any objection to place upon the table of the House the Admiralty minute granting six weeks' full pay leave to the officers.

Mr. Ward Hunt said that in consequence of the exceptional character of the expedition and the fact that during their absence from England no leave could be given to the officers and men, the Admiralty had granted them three weeks' extra leave on full pay, and he believed that neither the House nor the country would grudge them this little indulgence. (Hear, hear.)

VOLUNTEER SICK-BEARERS.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—I have the pleasure to inform you that an answer has been received from the War Office, dated Feb. 12, stating that the question of training the medical officers and a certain number of men belonging to the Volunteer Force in the important and humane duty of attending to sick and wounded in the field is being duly considered by the Secretary of State for War, and I can only add that I trust that Mr. Hardy will sanction the scheme, and thereby secure a cheap and thoroughly efficient body of trained men ready for any emergency.—I am, &c., A. MACLURE, jun., Hon. Sec.

The importance of having Bermuda connected by telegraph with our nearest possessions has been engaging attention for some time past, and we hear that it is not improbable that a Government telegraph cable will be laid between Bermuda and Halifax.—*Standard.*

The Hon. Secretary of the United Military and Naval Club writes to us as follows:—"Having observed in your last issue a disclaimer of any connection with this club from the Hon. Charles Lennox Butler, I have much pleasure in hereby confirming his statement, and beg to state that the gentleman on the committee is the Hon. Charles Danvers Butler, late 9th Regt."

INVASION AND DEFENCE OF ENGLAND.

In delivering his second lecture at the Royal United Service Institution yesterday, on "The Present Facilities for the Invasion of England, and for the Defence thereof," Major-General T. B. Collinson, R.E., first pointed out the general success of all disembarkations of our forces upon foreign shores. In alluding to the gunboats for the imaginary invasion of England, he pointed out the probable force of such vessels that the combination of any two of the three great maritime powers would be able to bring with their Armada. France has seventy-eight, Germany twenty-two, and Russia in the Baltic alone has fifty-five. Hence we may conclude that the expedition would be accompanied by twenty or thirty gunboats. In the British Service it appears by the table in the previous chapter that we have sixty-six gunboats altogether, but not half of those are in commission, and of these latter only twelve are in the home seas, available for home defence. These vessels are skirmishers of marine defensive position; they keep under the shelter of shallow water, and with their long-range guns check the advance of all unarmoured vessels. But to be of much value in such cases, two conditions are indispensable. First, they must be there, and, second, they must be there in considerable numbers: if the invading fleet might appear off any part of a coast, without notice, within an hour's steaming of it, the naval skirmishers must be so located in such numbers that they can also assemble a force equal to the enemy's in an hour's steaming. All the gunboats in the British service would not be enough to guard our south and east coasts, were they all commissioned, and available; and are all the gunboats to be commissioned in the first fortnight of war, as well as all the ironclads, and other war vessels? We have no doubt abundance of small passenger steamers in our rivers and harbours, which might be utilised towards the defence of our coasts, but we have apparently no sort of organisation by which, on declaration of war, they would be at once applicable for the purpose, and be immediately manned and armed and proceed to their pre-determined stations. A Marine Militia is also advocated by Gen. Collinson. We have a large seafaring population; by the census of 1871, we have in the United Kingdom, independent of seamen employed in our ocean-going mercantile marine, about 100,000 men, fishermen, river and coast navigators, and others connected with the shipping interest. But apparently we have no sort of organisation for utilising them in any way towards the defence of our coasts in war time. In 1805 there were about 26,000 sea-fencibles employed on the coasts of the United Kingdom in thirty-two districts, and having about 3,000 boats. This branch of our seafaring population and sea-faring business must have more than doubled since that time: therefore we could well afford to double the number of sea-fencibles. What we appear to require for the maritime defence of our coasts is an organisation similar to, and in connection with, that which has been lately inaugurated under the *mobilisation scheme* for the land defence. The whole coast line, or at least that part of it liable to such attacks, should be apportioned in districts based like those of the mobilisation scheme on the coast guard districts; and certain specified men of the Naval Reserve, and of the Naval Volunteers, should be told off to each district; and from the above-mentioned sections of the seafaring population a marine militia should be formed, which should be also told off to these districts; certain of the armoured and unarmoured gunboats should likewise be so distributed. If all this was done during peace time, as is now proposed to be done for the land defences, then on declaration of war it would only be necessary to give the order for the respective men and vessels to proceed to their districts, and to appoint naval officers to command each district. But no such organisation exists at present; if any does exist of any kind, it would, I think, tend to the security of our shores if it was made public to both friends and enemies. After pointing out the accessible portion of the coast, the mode of landing troops, the force available for reaching the landing, the coast defences required, and railway transport, Gen. Collinson, in conclusion, recapitulated several new elements of danger to our island fortress, which have arisen in the course of the last generation:—1. The immense size of modern armies, giving continental nations the power of striking a sudden decisive blow. 2. The number of great merchant steamers, which bridges that streak of silver sea on which we have so long depended for security from war—in numbers sufficient to ensure at any time transport for enough men to alarm us, and large enough to enable a military genius to apply strategy to the sea with more certainty than to the land. 3. The few ironclads possible, owing to the enormous expense. Hence those away defending our interests, or drawn off by a false scent, reduce the home guard in a greater proportion; a disaster of any kind, wilful or accidental, reduces it also in greater proportion, and is less quickly remedied. 4. The absence of coast defence in England; and 5. The paucity of reserves.

ARMY MEDICAL ADMINISTRATORS.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—The compact between the finance and army medical administrators has failed, although the former may claim economy and the latter full power and patronage over their juniors. The wide-spread discontent will no doubt be made public before long. Sir William Muir has been able to persuade the Indian Government, for the present, to accept surgeons major instead of surgeons for juniors' duties, the pay of the former being about three times that of the latter! As the Indian Government can get plenty of surgeons to fill their ranks (the Indian Medical Service), it seems strange that they do not place the whole of the troops in charge of their own medical officers, who are first-class doctors and men of experience in the country—this would relieve them of keeping up a double staff of medical administrators. The present system of two deputy surgeon generals in each circle is a ridiculous farce, and an expensive one. Everyone who knows anything of their duties is well aware that the dodo-like creature the P.M.O. is utterly useless—and the duties consist of transmitting a few returns to head quarters. If the Indian Government will take over charge of our troops in India, Mr. Hardy will have no trouble with the growling discontented A.M.D., as he can allow a doctor to each regiment in England, and have the sick treated in station or civil hospitals.—I am, &c., X.

London, Feb. 14.

THE THUNDERER RELIEF FUND.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—When perusing your issue of this date, my eye was attracted by column 3, page 94, giving in alphabetical order the service subscriptions to the Thunderer Relief Fund. May I put the following questions and replies before your readers: 1. How did the accident happen? 2. Who is responsible for it? 3. Who ought to pay for it? Answer to No 1: I say is—from unforeseen circumstances, blame attached to nobody. To No. 2—The Government. To No. 3—The country. As in the Captain's case, so in the Thunderer's. It is an iniquitous thing to allow generous individuals to pay for what undoubtedly is a national debt. There are many accidents occur that individuals may be expected to provide for—say a colliery explosion, where the owners have not the funds to do it; to provide for the widow and children of a man who is accidentally killed in the streets. But I maintain that in a national calamity—such as those before mentioned—Parliament should ask for a special vote, and there is no doubt it would be given at once. Will not one of our naval representatives—say the gallant young Commander of the Thunderer—bring the case before the House?—I am, &c., J. T. WALLACE HOARE,

Feb. 10, 1877. Retired Paymaster, R.N.

PERFECT COMBUSTION.—We think it worth while to reproduce the following letters from the *Times* of January 25th and 30th, as the subject is one of general interest and importance. The firm referred to is the well-known house of Barnard, Bishop and Barnards, of the Norfolk Iron Works, Suffolk.

SLOW COMBUSTION STOVES.—GRATES.—Mr. J. Mechi, of Tiptree Hall, Kelvedon, Essex, writes:—"Some time ago your correspondent, 'Another Country Parson,' suggested a reform in fire-grates, and gave details of his experience. I have adopted his suggestion with very great comfort to myself and family, and think his system worthy of general use. Although very different from the fire-grate portion of ordinary stoves, it does not necessitate any alteration in the stove itself, so far as regards outward ornamentation. I have referred to 'Wye Williamson Combustion,' and 'Dr. Ure on Heating Apartments,' and find that their theories of perfect combustion are consistent with your correspondent's system, which is that air should not rush rapidly through the fire from beneath the grate, but that it should only pass in freely, but gradually, between the front bars, which are only half an inch thick and 1¼ inch from bar to bar. The fire rests on fire brick, level with the floor, and is enclosed in a trough (with fire brick sides and back) 16 inches deep and 14 inches wide, 4½ inches from back to front at bottom, and 5½ inches at top. We have thus a thin vertical fire, in which the air can circulate freely, presenting a frontage of fire 16 inches by 14 inches. I should be happy to forward printed details to any gentleman requiring them."—*Times*, January 25th.

GRATES.—Mr. Mechi, of Tiptree Hall, Kelvedon, writes to us:—"'Another Country Parson's' fire-grate has excited much attention, for I have received in two days more than 200 letters on the subject, to which printed replies will be sent in a few days. Many of these letters are from hospitals, public schools, military and other public institutions, and I am indebted to Colonel Feilding for the following interesting confirmation:—'107, Queen's Gate, London,—With reference to your letter in the *Times* of to-day, I write to say that some three or four years ago I noticed in that paper the letter about grates, signed "Another Country Parson." I had three grates made at my country house, in Wilts, exactly in accordance with the instructions, and found them excellent in every way. I have since had several similar grates put into the hospital of the Coldstream Guards, of which I am Colonel, and my object in troubling you with this note is simply to say that if any of your friends in London would wish to see the grates they can do so at any time by going to the Coldstream Guards' Hospital, in Vincent Square, as I have instructed the Steward to show them to any one mentioning your name. Messrs. ———, of Norwich, construct grates on exactly the same principles. I have just put 20 of them into this house. Please let me know for what sum you have been able to put up the parson's grates, as I have found it impossible here or in Wilts to get them for anything like the sum mentioned by the parson."—*Times*, January 30th. Messrs. Barnard, Bishop and Barnards have issued a descriptive catalogue, which they send on application.

THEATRES.

DRURY LANE.—Mdme. Beaumont (who succeeded the late Mdme. Jullien) announces her benefit on the evenings of Wednesday, the 28th inst., and Thursday, 1st March. The pantomime of the *Forty Thieves*, in which the Vokes Family will appear, will be performed each evening.

OLYMPIC.—*The Queen of Connaught* has been produced at this theatre with marked success, and will probably have a lengthy run. The scenery is excellent.

STRAND.—Mr. John S. Clarke will be unable to appear for some days, in consequence of sudden indisposition. A new comedy will be played on Monday next by Mr. Tom Taylor, entitled *Babes and Beetles*.

ROYALTY.—A new piece, *The Three Conspirators*, in which Miss Kate Santley appears, has been produced here. Several songs are introduced, which certainly do not add to its success.

QUEEN'S.—The new opera, *Biorn*, is increasing nightly in public estimation. Mdme. Fitzinman Marshall has recovered from her recent indisposition.

CRITERION.—*On Bail* is the name of the last production at this house, and is a success.

It is proposed to raise a memorial over the graves of those killed by the Thunderer explosion at Haslar Cemetery. Upwards of £120 has been raised by subscriptions at Portsmouth. The form of the memorial has not yet been determined, being dependent upon the amount contributed.

BIRTHS.

ANTHONY.—Jan. 12, at the Fort, Agra, India, the wife of Mark Anthony, M.D., Surgeon Royal Artillery, and daughter of Barry Delany, M D., Medical Superintendent District Asylum, Kilkenny, of a daughter.

BALLY.—Jan. 9, at Wellington, Madras, the wife of Captain Bally, 33rd (Duke of Wellington's) Regiment, of a son.

GRIFFITHS.—Feb. 11, at the Royal Marine Barracks, Plymouth, the wife of R. S. P. Griffiths, Surgeon R.M.L I., of a son.

MARRIAGE.

BRADDELL—DENNY.—Feb. 13, at St. Thomas' Church, Portman Square, by the Rev. Henry Geary, Thomas Braddell, Esq., Captain 17th Regiment, son of Thomas Braddell, Esq., of Coolmelagh, County Wexford, to Mary, only daughter of the late A. C. C. Denny, Esq., Lieutenant R.N., of 15, Cambridge Road, Brighton.

DEATH.

SPRY.—Jan. 26, at Clevedon, Helena, eldest daughter of the late Captain Henry Spry, Royal Marines, and niece of the late Joseph Hume Spry, M.D., of Bath.

Advertisements.

RUPTURES (BY ROYAL LETTERS PATENT)
WHITE'S MOC-MAIN LEVER TRUSS is allowed by upwards of 200 medical gentlemen to be the most effective invention for the curative treatment of hernia. The use of a steel spring, so often hurtful in its effects, is here avoided, a soft bandage being worn round the body, while the requisite resisting power is supplied by the MOC-MAIN PAD and PATENT LEVER, fitting with so much ease and closeness that it cannot be detected, and may be worn during sleep. A descriptive circular may be had, and the Truss (which cannot fail to fit) forwarded by post, on the circumference of the body, two inches below the hips, being sent to the manufacturer,

MR. WHITE, 228, PICCADILLY, LONDON.

Price of a single truss, 16s., 21s., 26s. 6d., and 31s. 6d.; post free. Double ditto, 31s. 6d., 42s., and 52s. 6d.; post free. An umbilical ditto, 42s. and 52s. 6d.; post free. Post-Office Orders to be made payable to JOHN WHITE, Post Office, Piccadilly. Every description of RIDING BELTS, ELASTIC STOCKINGS to draw on, and ELASTIC SILK SUSPENDERS, on new and improved principles.

JOHN WHITE, Manufacturer, 228, Piccadilly London.

HOLLOWAY'S PILLS.—Good Spirits.—Every one has frequently experienced sudden personal changes from gaiety to gloom. The wind and weather oftentimes receive the blame when a faulty digestion is alone the cause of the depression. Holloway's Pills can be honestly recommended for regulating a disordered stomach and improving digestion. They entirely remove the sense of fulness and oppression after eating. They clear the furred tongue, and act as a wholesome stimulant to the liver, and as a gentle aperient to the bowels. They healthfully rouse both body and mind. Holloway's Pills are the best known antidotes for want of appetite, nausea, flatulency, heartburn, languor, depression, and that apathy so characteristic of chronic derangement of the digestion.

WILLIAM S. BURTON,
39, OXFORD STREET, W.

THE PERFECT SUBSTITUTE FOR SILVER.—The REAL NICKEL SILVER introduced more than thirty years ago by WILLIAM S. BURTON, when plated by the patent process of Messrs. Elkington and Co., is the best article next to silver that can be used as such, either usefully or ornamentally, as by no test can it be distinguished from real silver.

Patterns.	Fiddle or Old Silver	Bead or Thread	King's or Shell.
	£ s. d.	£ s. d.	£ s. d.
Table Forks or Spoons, per doz.	1 10 .	2 1 .	2 5 .
Dessert do., per doz.	1 2 .	1 9 .	1 11 .
Tea Spoons "	. 14 .	1 . .	1 2 .

These are as strongly plated, and are in every respect at least equal to what other houses are selling as their first quality at very much higher prices.

A second quality of Fiddle Pattern:—Table Spoons and Forks, 23s. per doz.; Dessert, 17s. per doz.; Tea Spoons, 12s. per doz.

Tea and Coffee sets, in white metal, from £3 15s. to £7 7s.; Dish Covers, beaded pattern, £11; Ditto, ditto, fluted. £15; from £9 to £24 the set of four; Corner Dishes, from £7 10s. to £18 18s. the set of four; Warmers, £7 2s. 6d. to £15 15s.; Biscuit Boxes, 14s. to £5 10s.; Cruet and Liquor Frames, &c., at proportionate prices.

The largest stock in existence of Plated Dessert Knives and Forks, and Fish-eating Knives and Forks, and Carvers.

All kinds of re-plating done by the patent process.

WILLIAM S. BURTON, General Furnishing Ironmonger, by appointment to H.R.H. the Prince of Wales, sends a Catalogue, containing upwards of 850 Illustrations of his unrivalled Stock, with Lists of Prices and Plans of the 30 large Show-Rooms, post free.—39, Oxford-street, W.; 1, 1A, 2, 3, and 4, Newman-street; 4, 5, and 6, Perry's-place; and 1, Newman-yard; Manufactories, 84, Newman-street and Newman Mews, London, W.

DR. J. COLLIS BROWNE'S
CHLORODYNE.
THE ORIGINAL AND ONLY GENUINE,
Which is admitted by the Profession to be the *most* wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.
CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever Croup, and Ague.
CHLORODYNE acts like a charm in Diarrhœa, and is the *only specific* in Cholera and Dysentery
CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.
CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout Cancer, Toothache, &c.

From Lord FRANCIS CONYNGHAM, Mount Charles, Dec. 11, 1868.

Lord Francis Conyngham, who this time last year bought some of Dr. J. Collis Browne's Chlorodyne from Mr. Davenport, and has found it a most wonderful medicine, will be glad *to have half-a-dozen bottles* sent at once to the above address.

⁂ Earl Russell communicated to the College of Physicians that he had received a despatch from her Majesty's Consul at Manilla, to the effect that Cholera has been raging fearfully, and that the ONLY remedy of any service was CHLORODYNE.—See *Lancet*, Dec. 31, 1864.

CAUTION.—BEWARE of PIRACY and IMITATIONS.

CAUTION.—Vice-Chancellor Sir W. Page Wood stated that Dr. J. COLLIS BROWNE was, undoubtedly the INVENTOR of CHLORODYNE; that the *story* of the Defendant, Freeman, was deliberately untrue, which, he regretted to say, had been sworn to.—See *Times*, 13th July, 1864.

Sold in Bottles, at 1s. 1½d., 2s. 9d., and 4s. 6d. None is genuine without the words "Dr. J. COLLIS BROWNE'S CHLORODYNE" on the Government stamp. Overwhelming Medical Testimony accompanies each bottle.

ST. LAWRENCE-ON-SEA, NEAR RAMSGATE.

THE "GRANVILLE" HOTEL.

THE "GRANVILLE" PRIVATE SPECIAL EXPRESS TRAINS to ST. LAWRENCE-ON-SEA, near Ramsgate, in two hours. Departures every Friday, from Charing Cross at 3.45, and Cannon Street at 3.50 p.m. (see bills.)

THE "GRANVILLE" HOTEL. The "Morning Post" says:—"Nowhere in England can a series of baths such as that at the 'Granville' be seen."

THE "GRANVILLE" HOTEL. The "Globe" says:—"As a residential hotel during winter, the 'Granville' is second to none."

TAE "GRANVILLE" HOTEL. The "Saturday Review" says:—"The scenery, the air, the accommodation for visitors were described as of the most perfect kind; and we could not help wondering how it was that this place, which had been in existence in a quiet way for several years, had suddenly, like Byron, gone to bed and awoke famous."

THE "GRANVILLE" HOTEL. "Land and Water" says:—"The 'Granville' Hotel is likely to become a popular winter resort, not only for invalids, but also for those seeking a few days' relaxation from work."

THE "GRANVILLE" HOTEL. "Mayfair" says:—"The proprietor of the hotel, which has carried the name of St. Lawrence-on-Sea to the utmost ends of the earth, has energetically and judiciously lavished a fortune, first in making the 'Granville' Hotel one of the most charming seaside residences in the Kingdom, and next in bringing the fact under the notice of the public."

THE AGRA BANK (LIMITED)

Estblished in 1833.—Capital £1,000,000.

HEAD OFFICE.
Nicholas-lane Lombard-street, London.

Branches in Edinburgh, Calcutta, Bombay, Madras Kurrachee, Agra, Lahore, Shanghai, Hong Kong.

CURRENT ACCOUNTS are kept at the Head Office on the terms customary with London bankers, and interest allowed when the credit balance does not fall below £100.

DEPOSITS received for fixed periods on the following terms, viz.:—

At 5 per cent. per annum, subject to 12 month's notice of withdrawal.

For shorter periods Deposits will be received on terms to be agreed upon.

BILLS issued at the current exchange of the day on any of the Branches of the Bank free of extra charge; and approved Bills purchased or sent for collection.

SALES and PURCHASES effected in British and Foreign Securities, in East India Stock and Loans, and the safe custody of the same undertaken.

Interest drawn, and Army, Navy, and Civil Pay and Pensions realised.

Every other description of Banking Business and Money Agency, British and Indian, transacted.

J. THOMSON, Chairman.

CIVILIANS and MILITARY OFFICERS proceeding abroad can effect Assurances and Loans in connection therewith, on moderate Terms, with the

STANDARD LIFE ASSURANCE COMPANY,

by applying at the Offices of the Company in London, Edinburgh, and Dublin.

H. J. WILLIAMS, Gen. Sec. for England, 82, King William Street.
JOHN O'HAGAN, Res. Sec., 3, Pall Mall East.
Edinburgh, 3 and 5, George Street.
Dublin, 66, Upper Sackville Street.
JOHN O'HAGAN, Res. Sec.

ACCIDENTS BY FLOOD AND FIELD

ACCIDENTS OF ALL KINDS
May be provided against by a Policy of the

RAILWAY PASSENGERS' ASSURANCE COMPANY,

HON. A. KINNAIRD, M.P., Chairman.

SUBSCRIBED CAPITAL, £1,000,000.

ANNUAL INCOME, £205,000.

£1,120,000 have been paid as COMPENSATION.

A fixed sum in case of Death by Accident, and a Weekly Allowance in the event of Injury, may be secured at moderate Premiums.

Bonus Allowed to Insurers of Five Years' Standing.

Apply to the Clerks at the Railway Stations, the Local Agents, or
64, CORNHILL, LONDON.
WILLIAM J. VIAN, Secretary.

THE DIRECTORS of the BRIGHTON LIVERY STABLES COMPANY, Limited, give notice that Prospectuses inviting application for the portion of unallotted Shares may be obtained from the Secretary at the Offices of the Company, to whom an early application should be made.

A. J. BODDINGTON, Secretary.
17 Prince Albert Street, Brighton.

TWO NEW MILITARY WORKS.

RUSSIAN WARS WITH TURKEY.

BY MAJOR FRANK S. RUSSELL, 14TH HUSSARS,
Formerly of Balliol College, Oxford, and of the Staff College.

A summary is here given of the various wars that have occurred between Russia and Turkey in the last 150 years, with the 1828 and 1829 campaigns in detail, and Count Moltke's views on their strategy. The present situation is politically and strategically considered.

CROWN 8vo, CLOTH, PRICE 6s.

"Full of valuable information, enlightening public opinion upon . . . the hitherto inscrutable Eastern Question."—"United Service Gazette."

HISTORY OF THE BENGAL ARTILLERY:

ITS ORGANIZATION, EQUIPMENT, AND WAR SERVICES.

BY MAJOR FRANCIS W. STUBBS, Royal (late Bengal) Artillery.

Compiled from Published Works, Official Records, and various private sources.

WITH NUMEROUS MAPS AND ILLUSTRATIONS, 2 VOLS., DEMY 8vo, CLOTH, PRICE 32s.

The work is a complete and minute history of the distinguished corps to which the author belongs. Though in form a military record, it incidentally becomes, in a large measure, the account of some of the most interesting episodes in the English rule in British India.

"It is written in a free, modest, and soldier-like manner."—"United Service Gazette."

HENRY S. KING AND CO., LONDON.

WANDERERS' CLUB, PALL MALL.

COMMITTEE.

Lord Brougham and Vaux.
D. P. Blaine, Esq.
Canon Tristram, M.A., LL.D., F.R.S.
Lord Graves, R.N.
Colonel the Hon. A. W. N. Hood, M.P.
Major-General J. A. Raines, C.B.
Colonel Sir Francis Festing, K.C.M.G., C.B.
Captain R. Wallen Jones.
Major E. C. Shepard.
Surgeon-Major C. McD. Cuffe.
T. W. Lewis, Esq.
Sir John G. S. Sebright, Bart.
Captain W. J. Oughton Giles.
Purvis Russell, Esq.
Captain A. H. Markham, R.N.
The Hon. C. Allanson Winn.
William H. Cutler, Esq.

Members joining this Club on and after the 15th December will be admitted on payment of ONE-HALF the Annual Subscription, which extends to the 1st May, 1877.

At a Meeting of the Committee, held on the 20th November, Lord Brougham and Vaux in the Chair, the Report stated that since the issue of the Annual Report in May last, 160 New Members had joined the Club, and that the total strength is now 1,302, as follows:—

Town Members	426
Country Members	663
Officers on Foreign Service	104
Members Resident Abroad	109
	1,302

There now remain about 200 vacancies to fill up, when the strength of the Club will be completed, and the Entrance Fee, which is now Ten Guineas, will then be raised.

The Annual Subscription is—

Town Members	Eight Guineas.
Country Members	Four Guineas.
Officers on Foreign Service......	One Guinea.
All members resident abroad ...	Two Guineas.

For all further information, address to
Major T. H. P. KENNAN, Secretary.
Pall Mall, S.W.

ROYAL ARTILLERY AND ROYAL ENGINEER CLUB,

3, PALL MALL EAST.

	£	s.
Annual Subscription	3	3
Abroad	1	1
Entrance Fee	5	5

UNITED MILITARY AND NAVAL CLUB.—Temporary Offices, 17, St. James's Place, St. James's Street, S.W. For gentlemen who hold or have held her Majesty's Commission in the Army, Navy, Royal Marines, or the various branches of the Reserve Forces. A few members admitted without entrance fee. Subscriptions:—Town, £4 4s.; country, £3 3s.; abroad, £1 1s. For prospectus, &c., apply to the Hon. Secretary.

ARMY AND NAVY CO-OPERATIVE SOCIETY, LIMITED.

Established for the advantageous supply of
PROVISIONS AND GOODS OF ALL KINDS
TO ITS MEMBERS,
Comprising
Officers and Non-Commissioned Officers serving, or who have served,
The Widows, Sons, and Daughters of Officers, and Friends introduced by the above;
Also, the Secretaries of Naval and Military Clubs, and the Representatives of Regimental and Naval Messes and Canteens.

For further particulars address the Secretary, 117, Victoria-street, Westminster, S.W.

RODRIGUES. — MONOGRAMS, ARMS, CRESTS, and ADDRESSES Designed, and Steel Dies Engraved as Gems.

RUSTIC, GROTESQUE, and ECCENTRIC MONOGRAMS artistically designed for any combination of letters.

NOTE PAPER and ENVELOPES stamped in colour, relief, and brilliantly illuminated in gold, silver, and colours, in the highest style of art.

A VISITING CARD-PLATE, ELEGANTLY ENGRAVED, and 100 SUPERFINE CARDS PRINTED for 4s. 6d.

BAND CARDS, BALL PROGRAMMES, and DINNER CARTES of new designs arranged, printed, and stamped with Arms, Crests, or Address in the latest fashion.

At HENRY RODRIGUES', Heraldic Stationer to the Royal Family, 42, PICCADILLY, LONDON, W

HORSES EXAMINED.—GENTLEMEN PROFESSIONALLY ASSISTED in the SELECTION of HORSES. Examined as to soundness. Tattersall's and other sales attended by WILLIAM SEWELL, M.R.C.V.S., 53, Elizabeth Street, Eaton Square, London, S.W.

BREECH-LOADERS

BY

LANG, LANCASTER, PURDEY,
BOSS and GRANT.

CENTRAL-FIRE.
200 ALWAYS IN STOCK.
FROM £7 7s., WARRANTED.

SECOND HAND.
DOUBLE and SINGLE RIFLES,
EXPRESS, and every description.

Catalogue and Price List, 3 stamps.
MUZZLE-LOADERS bought for CASH, or taken in EXCHANGE.

E. WHISTLER,
11, STRAND, LONDON.

COLT'S NEW GOVERNMENT ARMY REVOLVER,

after a severe competitive trial by the U. S. Ordnance Department in 1873 and 1876, has been exclusively adopted by the United States Government, and the whole of the United States Cavalry is now armed with them. It is now made to take the English Government Boxer cartridge. Length of barrel 5½ and 7½ inches.

In the trial of 1869, advertised by another maker, the Colt's pistol used was a muzzle-loader adapted to the use of metallic cartridges, which pistol has not been made or sold after that year.

COLT'S NEW 41-CAL. FIVE-SHOT DERINGER REVOLVER,
Weight 12 ozs.

COLT'S NEW 38-CAL. POLICE REVOLVER,
Weight 14½ ozs.

COLT'S DERINGER FOR THE VEST POCKET,
Weight 6½ ozs.

PRICE LISTS FREE.

ADDRESS—COLT'S FIREARMS MANUFACTURING COMPANY,
14, PALL MALL, LONDON, S.W.

H.M. TROOPSHIPS, PORTSMOUTH DOCKYARD

OFFICERS' BAGGAGE cleared through Customs, Warehoused, Shipped or Forwarded, by CURTISS and SONS, Railway and Shipping Agents, 88 to 94, Broad Street, Portsmouth.

Letters and telegrams for passengers promptly delivered free of charge.

CURTISS and SONS' rates for Warehousing or removing Furniture, &c., are exceedingly low.

OFFICERS' BAGGAGE, &c.—Officers are respectfully informed that Baggage, Luggage, and all kinds of Personal Property are stored at most moderate charges at the
STORE WAREHOUSES, BAKER STREET BAZAAR, W.

The warehouses having been built expressly for the safe keeping of goods, are peculiarly convenient, and are kept warm at an even temperature during the winter. Removals effected.

Separate lock-up rooms for large or small quantities.

JOHN HANES, Manager.
Store Warehouses Baker Street Bazaar, W.

THOMAS D. MARSHALL and BURT'S WATERPROOF SHOOTING BOOTS, 42s.

EMANUEL,
3, THE HARD, PORTSEA,

By appointment to H.R.H. the Duke of Clarence, 1827; H.R.H. the Duke of Edinburgh, 1872.

New Designs in High Class Jewellery at Moderat Prices.
Bridesmaids' Lockets from Three Guineas.
Bracelets from Five Guineas.
English and Foreign Watches and Clocks.
Regimental, Presentation, and Prize Plate.
Old Plate, Jewels, Epaulets, &c., bought.
Foreign Money exchanged.
Miniature Copies of all Medals and Decorations.
Field, Race, and Opera Glasses, and Nautical Instruments.
Rare China, Bronzes and Curios.
Collections Valued and Purchased.
Cheques payable to EMANUEL EMANUEL

SOLE ADDRESS, 3, THE HARD, PORTSEA.

LAWRANCE D. PHILLIPS AND CO.,

MILITARY, COURT, AND GENERAL TAILORS AND OUTFITTERS,
13, GEORGE STREET, HANOVER SQUARE, LONDON, W

Established for upwards of half a century on the Credit System, but now conducted exclusively for Ready-Money Payment and supplying

UNIFORMS AND MUFTI

Of precisely the same high-class quality as heretofore

AT GREATLY REDUCED PRICES.

ESTIMATES ON APPLICATION.

MAJOR CREASE'S PATENT SELF-REGULATING, CLEANABLE

CHARCOAL FILTER

Has been universally adopted in the Royal Navy, East Indian and English Transport Services; the German, Russian, American, and Austro-Hungarian Navies;

ALSO BY

HER MAJESTY'S WAR DEPARTMENT,

For BARRACKS, HOSPITALS, CAMPS, &c., &c.

And for which Patents have been granted by the Governments of Great Britain, the United States of America, Italy, France, and Canada to Major Crease, Sole Patentee of the Self-regulating, Cleanable Filter.

The designs are of three classes—

1.—For dwelling rooms and halls. To suit different styles of furniture three types have been employed—the Classic, the Japanese, and the Mediæval. None of these forms have been before employed for Filters.
2.—Those of simpler and cheaper designs for kitchen use.
3.—Filters of galvanized iron, either to fix to mains or cisterns, which, being capable of being made of any size, can supply pure water in sufficient quantities for the largest hospital or hotel.

The Filters, being made of special sizes, all their parts are interchangeable.

Full particulars can be obtained on application to

MESSRS. GARDNER AND SONS,

Sole Manufacturers of the Land Filters,
453 & 454, STRAND; and 3 & 4, DUNCANNON STREET, LONDON.

HALL LINE.—STEAM from LIVERPOOL to BOMBAY, via SUEZ CANAL—Average passage, 26 days, including all detentions. Sail punctually as advertised.

Passengers booked at through rate from London, via Genoa, Naples, and Alexandria, joining the steamer at Suez. Full particulars on application.

The magnificent fast steamship CHILDWALL HALL, 2,100 tons, 300 horse-power nominal, sailing 27th February. This steamer has been specially adapted for the East India trade. Her saloons and cabins are spacious and well-ventilated, and the accommodation is unsurpassed. Only first class passengers taken. Fare from Liverpool, 45 guineas. Surgeon and stewardess carried.

Succeeding steamers:—

Trentham Hall	13th March.
Branksome Hall	To follow.
City of Baltimore	To follow.

For passage apply in London to Henry S. King and Co., 65, Cornhill, and 45A, Pall Mall; or for freight and passage to
ALEXANDER and RADCLIFFE, 8B, Liverpool and London Chambers, Exchange, Liverpool.

OVERLAND ROUTE and SUEZ CANAL. Under Contract for the conveyance of the Mails to the Mediterranean, India, China, Japan, and Australia. The Peninsular and Oriental Steam Navigation Company dispatch their Steamers from Southampton, *via* the Suez Canal, every Thursday; from Venice every Friday; and from Brindisi, with the Overland Mails, every Monday.

Offices—122, Leadenhall-street, E.C., and 25, Cockspur-street, S.W.

☞ *It is particularly requested that applications for copies of the* Army and Navy Gazette, *and Advertisements, should* not *be sent to the Editor, but to* Mr. Richard James Wood, AT THE OFFICE, 16, WELLINGTON STREET, STRAND, W.C., *to whom all business communications should be addressed and remittances made payable.*

The subscription to the paper is 7s. per quarter, or 28s. per annum payable in advance, *inclusive of postage to any part of the United Kingdom; to India, £1 10s. 4d. per annum; viâ Brindisi, £1 14s. 8d*

As we have persistently called attention to real cases of defective machinery on board her Majesty's ships, and have not sought to screen where faulty workmanship or inefficiency has been the cause of break-downs, we may be permitted to call attention to the unfairness displayed by a contemporary in stringing a number of old machinery "accidents" together and serving them up as the result of "one week's" information. Accepting this statement as fact, a weekly journal made it the subject of an article on "Our Phantom Navy," and thus the mischievous sensational paragraph becomes magnified. So far from the Navy being a phantom, it is shown by Mr. Shaw-Lefevre, in a paper in *Macmillan*, to be stronger than ever. Mr. Lefevre traces the history of modern naval construction, and the conclusion he arrives at is that never before was the British Navy so strong, positively and relatively, as it is at this moment. Taking the system of calculation of M. Marchal, of the French Admiralty, and supposing the force and value of the Inflexible to be represented by 100, the Italian Duilio at 92, the Ajax at 75, the Foudroyant (French), 72, Dreadnought, 72, the Russian Peter the Great, 71, and so on, the values of all vessels of countries give the following results:—England, 1,112; France, 853; Germany, 372; Italy, 284; Turkey, 215; Russia, 153; and Austria, 134; and in fighting vessels of the second class the relative superiority of our Navy to that of other countries is greater than it ever was. But to return to the list of break-downs of "one week." Amongst the ships named is the Supply, a vessel which has completed her term of service and is ordered home, and is defective simply because her boilers are worn out. They were put on board as long ago as 1868, and she was repaired in 1873 at a small cost to do three years' duty as storeship on the West Coast of Africa. This is put forward as a break-down; but we would ask what the country would say if the Admiralty made no attempt at taking the money's worth out of the ships of the Royal Navy and laid them up and gave them new boilers immediately those on board showed signs of weakness? Those who now cite these cases as showing the inability of the Admiralty would then be amongst the first to raise a cry against such proceedings, and rightly too. The Pioneer is undoubtedly a hideous failure. If we are correctly informed, the weight of the engines of this vessel was to have been rather under one hundred tons, whereas they weigh nearly fifty tons in excess of that, and we cannot but think the responsible officer who accepted them on behalf of the Admiralty committed an error. The Vulture, reported to be delayed on account of inefficient ventilation, made no complaint on this head on her trial trip, and it was only because the Admiralty desired the ventilation of the stoke-hole should, if possible, be improved by the adoption of some suggestions made by the officers of the Seagull, another of the so-called broken-down, that directions were given for her to be detained. But this consideration on the part of the Admiralty is brought against them as a crime by those who write with only a superficial knowledge of what they are writing about. The Danae is dragged in amongst the week's failures as though her experimental boilers had not done duty as a subject for condemnatory paragraphs for the past three months. And now while they are actually being replaced by others this diligent assailant of the Admiralty harks back to his old cry. The Coquette is also a matter of surprise because she is undergoing an overhaul at Malta. The critic is probably unaware that she left England in March, 1872, and first served on a station where there was no possibility of taking defects in hand as on the home station. She was recommissioned on joining the Mediterranean Fleet in 1875, and after five years' continuous running it is not surprising that an overhaul should be necessary. New ships are also included because they do not prove unqualified successes on the trial of their machinery. But we would like to know whether any engines capable of developing some thousand horse-power were ever erected in any factory and found to go without a hitch. When the Alexandra met with temporary disablement on her trial trip, energetic correspondents at Chatham telegraphed to the evening papers an account of the break-down of the ship, and when a small portion of her propeller was cut away, owing to its having been damaged, much was said of her "mutilated screw;" yet in the face of all adverse criticism, she attained a speed of sixteen knots on the measured mile. So much for sensational rumours. There may be much to complain of as regards the machinery of some of our ships, and we never stay our hand when we see good reason for such complaint. But when we find people writing of machinery as though the largest bit of mechanism they were acquainted with was their clock at home, and that nothing more was needed than to wind up our tremendous engines once in seven days to keep them going in perfect order, we feel constrained to come forward to awaken some naval critics to the fact hat all they say cannot be accepted as gospel.

* * *

Something was done last year to improve the condition of the non-commissioned officer. Much, however, still remains to be accomplished, more especially in providing employment for him when pensioned off. But, pending this great amelioration of prospects, it would be well to study a smaller matter which lies close to our doors and which is capable of being remedied without costing the country a single penny. We allude to a change in the nature of punishments awarded for the lesser offences which bring occasionally some of the best non-commissioned officers into trouble. At present if a non-commissioned officer commits an offence it lies absolutely in the hands of his commanding officer either to reprimand him or to try him by court-martial. Now the former must be admitted to be a very light punishment; the latter, if the offender is convicted, entails a very heavy one, viz., reduction to the ranks, irrespective, in too many cases, of length of service or character. The result of this system is twofold, depending in a large measure on the leniency or otherwise of an individual. Supposing the commanding officer to be not over strong-minded, the temptation arises to administer a reprimand for an offence which requires a heavier punishment, in order to avoid trying the offender by court-martial, which entails a totally disproportionate one. On the other hand, a strict officer has no alternative but to order the trial of a non-commissioned officer when he is of opinion that a reprimand does not meet the case. Hence arises the often-seen anomaly that in one corps a non-commissioned officer is tried and reduced for an offence which in another is visited by a reprimand. Regulations which admit of such divergent readings and consequent injustice cannot be defended, and call for immediate revision, for non-commissioned officers now feel that their positions are insecure, depending as they do entirely on the disposition of one man. Assuming that sufficient has been said to prove the necessity of some change in the method of punishment, we will briefly indicate the direction it might take. The problem is surrounded with considerable difficulty, since the punishment awarded has to be reconciled with the maintenance of authority over inferiors, and with the continued performance of the duties of a position to which are attached great responsibilities. The following punishments (of which *b* and *c* are borrowed from the Austrian Regulations) are suggested as offering a means by which a commanding officer can punish a non-commissioned officer for an offence which demands a greater punishment than a "reprimand" and a lesser one than "reduction." They should, in our opinion, be made applicable to Sergeants, Corporals, and Lance-Corporals:—*a.* To be passed over for promotion to the next rank up to twelve months, separate awards to be cumulative. *b.* Confinement to barracks or quarters after retreat up to twenty-eight days. *c.* Confinement to barracks or quarters, after a fixed hour before retreat, up to twenty-eight days. *d.* Performance of extra duties out of turn. Having thus called attention to a matter in which those who are most closely connected with the maintenance of discipline consider a change desirable, we leave the subject in the hands of the military authorities, trusting that our efforts may produce some useful result.

* * *

The trite Latin adage which tells us of the expediency of comparing small things with great occurs to us as we hear of H.M.S. Eurydice being commissioned as a sea-going training-ship for our seamen. It is a step in the right direction, and would that we could believe that it would be followed up systematically; but with our recollection of the sea-going training ships for cadets and other attempts of a similar nature to the present we dare not hope for more thorough action from the Admiralty. It is, however, something to have an undoubted evil acknowledged by those in authority, and this has been done by the step now taken. Although we have now only some 12,000 able-bodied seamen in our Fleet, which is surely an attenuated force for "the first naval Power in Europe," we have not, according to Captain J. C. Wilson, nearly "the requisite tonnage at sea to salt our youths properly." That the Eurydice will "salt" some 260 of our young sailors is an important point, and at first sight it would seem as if the only thing required would be to commission more of these sea-going training-ships. Such a course would, no doubt, give us young seamen; but we want gunnery and discipline as well as seamanship, and even if we could afford to keep all our reserves afloat in a squadron of Eurydices such a course would scarcely be advisable. We have already quoted Captain J. C. Wilson, R.N., on this subject, and we commend his lectures at the United Service Institution to more general attention. He tells us that we must not be deceived by the "good conduct" of our men, which is very different from a sound discipline, and he holds that the exigencies of a ship life do not allow of that exact routine being carried out on which true discipline depends. At present we train boys for the Navy at great expense, we then demoralize them by keeping them for six months or a year in the depôt ships at the home ports, after which they go to sea at haphazard in accordance with the requirements of the Service. That under such a system our desertions are numerous, being between 800 and 1,000 yearly, is not extraordinary, and it is most important that everything should be done to check it. The question of pay we do not now enter upon, but some increase in pay after every five years' service is clearly advisable, to retain those whom we have trained at great expense. Captain Wilson tells us that there can be no systematic gunnery drills and no seamanship instruction whatever in the home reserve ships, and he strongly advocates naval barracks, which he believes to be an "imperative necessity," without which our seamen can never attain that high state of efficiency which the country has a right to expect. Naval officers are all agreed that when our young ordinary seamen are drafted on board a newly-commissioned ship, they appear at first entirely out of hand and undisciplined. With properly-constituted naval barracks this should not be the case. Men would then march on board in a high state of discipline and gunnery efficiency, and their whole time might be devoted to seamanship and the ship duties. That steps should be immediately taken to build naval barracks at Portsmouth and Plymouth we hold with Captain Wilson to be an "imperative necessity," but we can well understand the difficulty in which every First Lord finds himself of proposing such a vote. A commencement was made at Sheerness more than twenty years ago, and we do not see why land should not be bought and some steps at once taken at Portsmouth or Plymouth. Our old hulks are being used up, and even if this were not the case we have the authority of Mr. Shaw-Lefevre, "from the point of view of an economist," that "nothing is more expensive than a floating house." We are promised, during the present Session, some sharp discussions on the state of the Navy; we shall have the old party and dockyard squabbles and the infinite variety of comparisons between our Navy and that of foreign nations. But though much may be learnt by these time-honoured controversies, we are inclined to share the opinion of the late Commodore Goodenough, that "they divert the proper attention of the friends of the Navy from the real needs of the Service, and cause those disquieting leaps in naval policy which are barren of result."

The words Honorary Colonelcies have the effect of a red flag on a bull when spoken in the hearing of some Army reformers. The only two gentlemen in the Army who may fairly be designated as Honorary Colonels are H.R.H. the Prince of Wales and H.R.H. the Duke of Cambridge, the former being Colonel-in-Chief of the Rifle Brigade and the latter Colonel-in-Chief of the 17th Lancers and 60th Rifles. There are, however, many General officers who are Colonels of regiments, and, as such, receive an emolument which may justly be termed a pension. The amount of these pensions was fixed by a Committee of the House of Commons in 1833, and has remained the same to the present day, with the exception of the emolument for Colonels of Cavalry regiments, which Lord Cardwell reduced by a Warrant, but which reduction the late Royal Commission on Promotion, &c., has reported requires no modification. The questions we should like to put to those who desire such appointments to be abolished are—Do you object to the custom of making General officers Colonels of regiments, a system that exists not only here, but in most foreign armies? Or do you object to the pension? If the objection is only to the practice of giving General officers the position of Colonels of regiments, it is not of much force; if it is, however, to the pension attached to the position, then we are desirous of pointing out the claim the Army have to such pensions, and the injustice that would be done by their abolition. Colonels of regiments are known only in those portions of the Service lately purchase corps, such as Guards, Cavalry, and Infantry of the Line, and if these pensions were put an end to there would, roughly speaking, be no retirement at all for the successful officers of these arms; for as purchase officers on attaining the rank of Major-General have to abandon to the State the value of their Lieutenant-Colonel's commission—viz., £4,500—unless in the receipt of a Good Service Pension of £100 a-year, they would receive nothing during their lives but the interest of their own money. To do away with such rewards to these particular branches of the Service would be tantamount to saying, "You shall never receive any pension or retirement at all beyond your chance of obtaining £100 a-year as Good Service Pension." But let us look into the question further. Is it the wish of these Army reformers to limit the abolition of these pensions to the old purchase corps, or to abolish them throughout the military forces of the Queen? Are the Army reformers aware that these military pensions exist in all portions of her Majesty's Army—in the Artillery, Engineers, and Marines under the term of Colonel-Commandant, and in the Indian Army under the designation of off-reckonings and Colonels' allowances—to at least double the extent as in that portion of the Army especially designated as Imperial? Is it, then, the desire to do away with all pensions in all portions of the Queen's Army, or is it merely a vendetta against the purchase officers, who alone receive no remuneration from the State when their active career is finished until they become Colonels of regiments? We should like much to see these questions answered.

Some changes for the better have just been made in the pay of French officers, which is still, however, very inadequate, seeing how few men with any private fortune make the Army a profession. The pay of a Marshal has been raised from 30,000fr. to 30,122fr. 45c. —an increase hardly needed, especially as far as the 45c., or twopence halfpenny, is concerned. The pay of Generals of Division is increased by about 25s. a-year, and 4½d.; that of Brigadier-Generals by about £1. Colonels and Lieutenant-Colonels are, however, to draw about £26 extra, Majors nearly £20, and Captains over £10. The above concerns the permanent Staff. It would be tedious to go through the list of all the various branches of the Service, suffice it to say that the Colonels, Lieutenant-Colonels, Majors, and Captains of Infantry are to get about £12, and the Lieutenants about £10 more than before. By the way, the increase in the pay of First Lieutenants of Artillery and Artillery Train is only 8fr. 37c. a-year. There are a few reductions, as in the case of all the officers engaged in the purchase of horses for the Army. The Colonel *de Remonte* suffers a reduction of £45 a-year. Some propositions have been made in France for the introduction of unification of pay, with the view of making accounts more simple, and also because it is held in some quarters that the only difference made in pay should be between the officer who is mounted and the officer who is not. The French Pay List, which we have before us, shows that there are no less than 167 different categories in the Army. We commence with Marshals and the Staff; then comes the Intendance, Artillery Staff, Engineer Staff, Medical Staff, Artillery, Artificers, Engineers, Staff of fortified places, Artillery Guards, &c., divided into fourteen classes all differently paid; Engineer ditto, twelve classes; Chaplains, Interpreters, Infantry, Cavalry, Archivists, Military Prisons, Military Train, Recruiting Officers, Vetinaries, Officers of "Remount," and Colonial Officers.

The Admiralty has grown quite tired of ordering trials of the Turquoise, they have so generally ended in failure. With a slight touch of sarcasm their Lordships have now called upon the building and engineering firm responsible for the ship to take prompt measures for placing the engines and boilers in a fit and proper state for trial. That was just what the firm reported it had done weeks ago.

The accident which occurred to the engine for working the capstan of the Shannon has not been allowed to pass unnoticed by the Admiralty. An inquiry into the matter was ordered to be held at the time, and now the Admiral Superintendent at Devonport has received a communication naming those who, in their Lordships' opinion, are responsible for the accident, which was clearly preventible.

Captain Henry B. Phillimore, C.B., had arrived at Ascension on February 1 to assume command of the establishment, and Captain East, having turned over the command, returns to England by the next mail.

In another column will be found an interesting report upon the Naval Reserves, which was drawn up by Vice-Admiral Sir Walter Tarleton before being relieved of his appointment as Superintendent of the Reserves. From the number of years with which Admiral Tarleton was connected with the Reserves no one could be better able to give an opinion as to their value and position, and it is eminently gratifying to find that the Navy has so reliable a force to fall back upon when it may become necessary to expand our Fleet.

We hear that Captain Arthur, of the torpedo school-ship Vernon, is about to visit the Whitehead torpedo works at Fiume. It will be remembered that during the recent visit of Captain Fisher to the Continent he took the opportunity of paying a call at these works, and of inspecting torpedoes in course of construction for the Admiralty.

Whoever the naval writer in the *Saturday Review* may be, his qualifications for the post appear to be about on a par with those supposed to be required for a First Lord of the Admiralty in *Happy Land*. He is, we must admit, a good hand with the scissors, but he combines his information in the same manner and with much the same result as that in which the celebrated gentleman in "Pickwick" wrote his Chinese metaphysics. In a review of the year we are told that the "wanton loss" of the Tenedos and Windsor Castle are the culminating points which show how disgracefully the Navy is mismanaged! Yet the Tenedos lies safely moored in Devonport Harbour, and the Windsor Castle was owned by a private firm. In another article, speaking of the loss of the transport St. Lawrence, it is gravely explained that, though she did not happen to be a man-of-war, she was commanded by a naval officer! This, of course, is untrue. Not content with these men in buckram, in a series of clippings, headed "Our Phantom Navy," we are called upon to notice the inefficiency of H.M.S. Thunderer, which is illustrated by a letter attributed to Vice-Admiral Lord John Hay about the Triumph, while Sir W. King Hall's letter to the *Times* about the dockyards is put down to a certain Vice-Admiral King, who is unknown to the "Navy List." The Navy "seems to be becoming a hollow mockery," says the writer, and such articles as the above, where we have the Triumph and Thunderer, Admirals Lord John Hay and Sir John Hay, and Admirals Sir George King and Sir W. King Hall confounded in endless confusion make us almost believe him. These may be, of course, simply slips of the pen, but we may suggest that such lapses of memory are frequently the premonitory symptoms of "a species of softening of the brain," which we have been told by the *Saturday* is a disease to which naval officers of the present day are peculiarly liable.

The ancient order of Assistant-Paymasters may rejoice. Though less demonstrative than some other branches of the Service, they have not been forgotten by Mr. Ward Hunt. Two weeks since we alluded to the scheme for the improvement of the prospects of Assistant-Paymasters which we presumed must be forthcoming, and we were right in our presumption. The injustice of dealing with the grievances of the Marines and Engineers and leaving the Assistant-Paymasters out in the cold was too pointed, and it now gives us much pleasure to learn that a scheme for removing some of the disadvantages under which these officers have long suffered is actually under consideration. Truly, there is balm in Gilead yet.

It will be seen by a letter, which will be found under the name of the Britannia, that the father of the naval cadet who complained of being grievously bullied by his brother cadets on board that ship is by no means satisfied at the result of the inquiry into the matter which was conducted by Admiral Willes. With all deference to the feelings of a father, we cannot but think that justice has been done, and those who know Admiral Willes will feel that no desire to hide what would be considered a scandal would induce him to lean towards the many youngsters who are alleged to have set upon a boy junior to themselves. The greatest possible attention was given to the case, and the Admiral was assisted by an officer who has frequently acted as Deputy Judge-Advocate at courts-martial, and we see no reason for doubting that the decision is entirely in accord with the evidence. But the father neither believes in the evidence or the decision, but seems rather of opinion that the young gentlemen with whom his son has been associated have but the very slightest regard for the truth. This argument might be read another way, especially as the charges have not been proved, but it is only natural that a parent should have the fullest faith in his own boy even at the expense of the sons of other people.

Lord George Campbell and Mr. Spry are both in error in their accounts of the cruise of the Challenger in claiming for their ship the honour of being the first English man-of-war to visit Humboldt Bay, New Guinea. Captain Moresby's book, published a year ago, shows that the Basilisk's visit preceded that of the Challenger by nine months. The Basilisk anchored in Humboldt Bay on May 25, 1874, in eight fathoms, and held friendly communications with the natives.

It is evident that exploration by no means deprives naval officers of a sailor-like bluntness of speech, for Mr. Young, R.N., in spite of the recent indignant denials of Portuguese authorities, more than substantiates in the plainest language the charges of aiding and abetting in slavery brought by Commander Cameron against persons serving under the Portuguese flag. At the evening meeting of the Royal Geographical Society on Monday, at the University of London, a paper will be read "On his Recent Journey to Lake Nyassa" by Mr. Young.

We regret to hear that ill-health has obliged Commander Cyprian Bridge to apply to be superseded from the Audacious. Commander Parr, of the late Arctic Expedition, has been selected for this appointment.

Captain Arthur Cecil Curtis, who has just obtained post rank, entered the Navy in 1848, became Lieutenant in 1857, and Commander in 1866. Of the twenty-nine years he has been in the Navy, only about four have been passed on half pay. He has held a command at sea, and has seen some active service, and wears three medals and two clasps. At the age of forty-one years he has become a Captain, leaving behind him a dozen less fortunate men, upon whom the choice of their Lordships has not yet rested. Still more fortunate is Captain Richard

Duckworth King, who entered the Navy in 1852, was promoted to Lieutenant in 1860, and Commander seven years later. During his twenty-four years' service he has scarcely drawn any half pay, and now, while yet on the sunny side of thirty-six, he has been safely landed on the Captains' List, passing over the heads of a score of the senior Commanders. He wears two medals and four clasps. The Lieutenants who have been promoted to the vacancies on the Commanders' List are Colin Dundas, who has been in constant employment during the fifteen years he has been a Lieutenant, and Charles E. Read, who has been fourteen years on the same list. Both these officers entered the Navy in 1855, and have become Commanders before reaching thirty-five years of age.

The 5th March has now been named as the probable date of sailing of the Tamar with officers and crews to recommission the Helicon and Antelope on the Mediterranean Station, and the Charybdis, Nassau, Sylvia, Hart, and Modeste on the China Station.

Rear-Admiral Willes will return to Devonport from leave on the 24th instant.

Her Majesty has been pleased to direct, by Order in Council, that the regulations under which half pay is drawn by naval and Marine officers shall be assimilated to those in force in the Army.

We commend to the attention of the authorities, both at Whitehall and Greenwich, a letter, which appears in another column, from an officer who has passed some time at the College. That the costly establishment, commonly known as "The Workhouse," should be a place for working and not for idling all must acknowledge. But officers who have left the gun-room and have reached man's estate should scarcely be treated as mere children and be called upon for "reasons in writing" if they are not at their studies punctually at nine o'clock.

We regret to hear that Lieutenant James B. Fellowes, who was appointed to the Wolverene in August, 1876, for service on the Australian Station, has died at Ascension.

In making some remarks on the recent promotions of flag officers we alluded to Sir James Drummond's prospects under the impression that he had elected to remain under former regulations. We find that this is not the case, and the Active List will consequently lose this popular officer in September next, when he reaches the age of sixty-five years.

The United States of America have lost no time in deciding on another Arctic Expedition, for it is reported that the Government has already been authorised to order the necessary preparations.

Vice-Admiral Sir Charles T. Shadwell, K.C.B., has been awarded the Good Service Pension which became available by the promotion of Admiral Sir Henry Codrington.

Mr. Allen Young, of the Arctic yacht Pandora, has been asked to render an account of the money placed at his disposal when employed to endeavour to keep up communication with the Arctic Expedition, as it is desired to prepare an official statement of the total cost of the late Arctic voyage.

We notice that the very disagreeable subject, the invasion of England, has again been attracting attention. We say disagreeable, as we are well aware that on many points we are sadly deficient of the means for offering suitable welcome to an unforeseen visitor. The first Napoleon planned the most complete arrangement for a visit. However, for the relief of emotions which may have been excited by the recent discussion, we offer as a fair modicum of comfort the opinion of its author:—"Si j'avais réussi, c'eût été en faisant tout le contraire de ce qu'on attendait." It is, however, but fair to add that in 1803 "le bateau à vapeur" was unknown.

We are requested by a personal friend of Brigadier-General Howard Vyse, 3rd Hussars, to state that, though the General had some time ago a slight attack of illness, there is no prospect whatever of his sending in the resignation of his brigade command, and that it is improbable he will require leave for England.

It seems to us that the services of an officer of Royal Engineers who holds a certificate from the Staff College might be more profitably employed than as Aide-de-Camp to a General Officer. Lieutenant Pilkington, R.E., as we stated recently, has left for India to join the Staff of Lieutenant-General Sir Charles Staveley, Commander-in-Chief at Bombay; so that the country has educated this young officer at considerable expense at the Staff College that he may be given an appointment the duties of which, it is not unreasonable to expect, could be equally well performed by any officer who has not so qualified.

The announcement we made last week with regard to Captain Singleton, 92nd Highlanders, has produced a sensation among those who have accepted Adjutancies of Auxiliary Forces. Captain Singleton was removed from his appointment under the five years' rule. It would have been bad enough to have deprived the officer of his full pay had he voluntarily withdrawn, but seeing that he was deprived, *nolens volens*, of his employment, it can only be regarded as want of faith. Not one single word do we find in the Warrant which would lead an officer to believe that he was to be thus summarily dealt with.

Before long we may expect to hear what the future arrangements are to be as regards Army Paymasters. Though many inquiries have been made from time to time in the House they have invariably met a stereotyped reply, that many of the present Paymasters have so deep an interest in the late purchase system that, pending the appearance of the Report of Lord Penzance's Royal Commission, it was undesirable to introduce any organic change. But the document having appeared, steps should be taken for tranquillizing the minds of officers who have heard numerous disquieting reports, and are naturally anxious. Lord Penzance and his colleagues were evidently of opinion that the present system should not be materially altered, and more than once is it pointed out in the Report how Paymasterships may be made to help on regimental promotion.

The removal of the 2nd West India Regiment from the West Indies to the West Coast of Africa, in relief of the 1st West India Regiment, which has completed its three years' service on the Coast, seems to favour the impression that the withdrawal of the West Indian troops will not be carried out, notwithstanding the assurances of Lord Carnarvon that the Colonial Office had it in contemplation to entrust the Houssas with the defence of the settlements. The present would assuredly be a most inopportune moment for recalling the West Indian regiment, and we are glad that the Colonial Office has followed the course which has been pressed on it through our columns by more than one officer intimately acquainted with Western Africa and our requirements there.

Surgeon-Major Samuel Rowe, C.M.G., African Medical Department, who is now in England on leave, will shortly proceed out to assume the Governorship of the entire British settlements in Western Africa. Though his name still appears in the "Army List" among the members of the African Medical Service, Dr. Rowe is unlikely to return to military duty, as the Colonial Office intends to keep his name permanently on its books.

That the subject of regimental mess expenditure should have been recently attracting attention cannot be deemed unnatural, as it involves an element for which there are no governing laws, nor do we see how such could be framed so as to produce a perfect, universal, and equitable system. We are not aware that the profession of arms has any speciality of restriction for its candidates contrary to those of any of its sister professions in which abundance or the reverse stand on the same footing. To debar those with means from entering the Army, which would virtually be the case provided regulations were enacted compelling them to restriction of expenditure, would be as manifestly unfair as regulations for those in the reverse position. That the Army should be deprived of its share of wealthy retainers few would care to advocate, and although there may be instances where the effect of such has been untoward, we are happy to add that gentle generosity has been the more marked. Personal exertions on the part of commanding officers for the control of the mess expenditure are highly to be commended, but we could hardly depend upon these for universal practice. The system of regimental messes has always been out of favour in Continental armies, but they are composed of races of greater gregarious tendencies, and consequently these appertain to their officers. We must admit, however, that the officers of the three arms see more of one another than is customary on this side of *la Manche*. The late Emperor Napoleon III. was certainly in favour of the regimental mess, and instituted such in his Imperial Guard; but, like most transplantations, it was never healthy.

So under-manned is the Army Medical Staff at the present moment, that in a case which has just come under our notice a Surgeon-Major had to leave the bedside of his wife who was supposed to be on the point of death, all appeals for an extension of leave having failed, it being represented that his return to duty was an absolute necessity. In many instances lately officers have been obliged to embark for foreign stations without even a day's leave to visit their friends. It is plain that something must be done to popularize the Service. To offer money inducements is no use at all; what is causing the mischief is the present most objectionable system, which has met with disapproval from one end of the Army to the other.

We can understand in a comparative degree the necessity for the "brusquerie" of Mr. Hardy's reply on Thursday week to the interpellation relative to the progress made in carrying out the recommendations of the recent Royal Commission on Promotion and Retirement. When closely engaged in the contemplation of an abstruse subject, it cannot but be most disagreeable to be interrupted. We are by the circumstance strongly reminded of the anecdote of the great Greek scholar, Dean Gaisford, of Christ Church, Oxford, who, on a pertinacious visitor insisting on an interview, received him in the College library, where, mounted on a ladder, the great Dean stood busily engaged. "I wish to see the Dean of Christ Church," demanded the visitor. "You've seen him," was the Dean's reply, and thus ended the interview. But still we are aware that pertinacious enquiry has occasionally borne excellent fruit.

It having been decided to arm Lancer regiments with carbines, they will have to be put through an annual course of musketry, and they are to be given Musketry Instructors, the same as other Cavalry regiments, but the officers will not hold commissions as such, nor will they be denoted in the "Army List." Though why they should not be, the same as the Infantry Instructors are, we do not pretend to know.

The report we published many weeks ago as to the proposed closer connection of the Line and Militia battalions under the Brigade Depôt system has been confirmed, and we publish elsewhere an extract from the *Times* giving details of the new titles to be borne by the regiments of the Line should the suggestion be acted upon. Anything more calculated to stamp out for ever that *esprit de corps*, which has won us many and many a battle could not possibly have been conceived, and it would be satisfactory to know from whom the idea emanated. Interference with cherished titles is just the thing that is wanted now to crown the many needless innovations recent years have witnessed; but we never expected to find this sweeping change recommended at so early a date—and for the consideration, too, of a Conservative Minister.

ARMY RECRUITING.

The Report of the Inspector-General of Recruiting upon recruiting for the Regular Army for the year 1876 has been published. The Inspector-General, Major-General E. A. Whitmore, says he so recently assumed the duties of his office that he can hardly enter so fully into the subject as his predecessor has done in former Reports; but the facts which are given connected with the Service will show the state of recruiting at the close of the year 1876 as compared with the preceding twelve months, and the result cannot but be considered very satisfactory. The number of recruits raised in 1876 has been exceptionally large, and amounted to 29,370—a larger number than had been obtained since 1858. In 1875 the number raised was only 18,494, thus showing an increase in the year of 10,876 men enlisted into the Service. The result has been that, on Dec. 31, 1876, the establishment of the Army wanted only 552 rank and file to complete. The recruiting for the Army appears to have received a very considerable impetus in the last few months, attributable, doubtless, in a measure, to decreased employment in civil life, in consequence of the depressed state of trade; but it is reasonable to believe that there are other causes which have contributed to increase the number of men who have offered themselves for enlistment, and that the most noteworthy of these is to be found in the improved condition of the soldier and the advantages which he derives from recent legislation in his behalf. The increase of pay to the non-commissioned officer, and the right to deferred pay given to every soldier by the Royal Warrant of April, 1876, and the improved conditions as to pensions by the Royal Warrant of Sept. 6, 1876, are, doubtless, taken into account by those who are disposed to enter the Army, and will tend, it is hoped, to induce a better class of men to join the ranks. The reduction of the standard of height by half an inch to 5ft. 4½in. has also helped to increase the number of men who have enlisted; and, notwithstanding this reduction, Major-Gen. Whitmore observes that the medical reports from the various districts, on the recruits enlisted during the year, are, on the whole, very satisfactory. There is, not unnaturally, a tendency on the part of commanding officers to take exception to these small men from the strong desire to command battalions composed of taller and more showy soldiers; but, notwithstanding this disposition, few complaints on this score have been made. Instances have occurred, of course, of recruits having been objected to by commanding officers on the score of physical unfitness, and wherever these objections have been supported by the medical authorities prompt attention has been paid, and the recruits have been released from their engagements. It is to be hoped that the present satisfactory condition of recruiting may continue, for the wants of the Army are not likely to decrease in the future, but will become more urgent as the men are drawn from it to the Reserve. It is to be deplored that the loss to the Army, caused by desertion from its ranks, still unfortunately prevails to a considerable degree. The evil is a most serious one, and, without a safeguard of some kind, such as that in former years, appears to baffle all efforts to check it. In considering the number of cases of desertion, however, it must be borne in mind that in many instances the same individual is counted more than once, as there are men who make a habit of deserting and re-enlisting again and again within very short periods, and, although the number of cases may not bear a very great proportion to the gross total of desertions in the year, still it must not be lost sight of as in reality lessening the actual number of deserters, which in the last year amounted to 4,878. Major-Gen. Whitmore adds that the number of deserters recovered to the Army during the period was 2,063, leaving a net loss of 2,815. Although the number of desertions in 1876 is in excess of that in 1875, it is not unreasonable to assume that it may be accounted for by the very large increase of recruits who have entered the Army in the year; and it is among this class of soldiers principally that this crime prevails. These two years show a marked diminution as compared with the three preceding ones, as shown in the following statement:—There deserted in 1872 5,861; in 1873, 5,702; in 1874, 5,582; in 1875, 4,373; in 1876, 4,878. Deducting those who rejoined from desertion in each of these years, the net loss was—in 1872, 4,006; in 1873, 3,917; in 1874, 3,530; in 1875, 2,429; and in 1876, 2,815.

MILITARY CORRESPONDENCE OF NAPOLEON.

M. Plon, of Paris, continues the publication of the military correspondence of Napoleon, which is replete with interest. We have already passed in rapid review the first four volumes. The fifth, which is now before us, finds the great Captain at the summit of his glory, and about to embark on that fatal Peninsular campaign which Napoleon himself condemned when a prisoner at St. Helena. The first "note" in this volume is addressed to Marshal Massena, and dated Finkenstein, May 17, 1807. The Emperor was then in Poland, where he discovered a fifth element—mud. It is wonderful to remark the composition of the Army by means of which Napoleon held Europe in subjection. In some instructions addressed to Marshal Berthier, he writes:—"If you see no inconvenience you can send the Dutchmen to Holland, and order the Spaniards to go to Hamburg where they will form the nucleus of the Army of Bernadotte. The Army of Marshal Brune will be composed in this wise—1st. The Italian Division, commanded by General Pino, and three regiments of Italian Cavalry. 2nd. Four French regiments, &c., &c. Total, 16,000 French Infantry, 1,000 horse; 6,000 Italian Infantry, 1,000 horse; 2,000 Bavarian Infantry, 1,500 horse; 4,000 Baden Infantry, 500 horse; allied troops, 6,000—grand total, 38,000. Send back the Polish regiment to Kalish. Marshal Bernadotte will find himself at the head of 15,000 Spaniards. The 15,000 Dutchmen will assemble at Oldenburg," &c. In September Napoleon was at Rambouillet, and we find him writing dispatch after dispatch to his stepson, Eugene Beauharnais, Viceroy of Italy. In one of his letters he says:—"Your Aide-de-Camp, Bataille, has lost your dispatches. He deserves to be punished; put him under arrest for some days. An Aide-de-Camp may lose his breeches on the road, but he should lose neither his dispatches nor his sword. Your packets were not so large but they might have been placed inside the carriage, and then they would not have been lost. All those fellows are popinjays." The son of this careless Aide-de-Camp is the present distinguished Commander of the 5th Army Corps; head-quarters, Orleans. In October we come upon a series of dispatches to Junot, whose acquaintance we afterwards make in Portugal. Junot had been an old comrade of Napoleon; they had served together in the battery *sans peur*, when the English were forced to relinquish Toulon, and when Bonaparte got a slight prod from a British bayonet. Junot afterwards became Duke of Abrantes, and the Duchess has left some very lively memoirs which are well worth consulting. Evil tongues say Napoleon admired her grace, and have compared Junot to Uriah. In October the Emperor wrote to Junot, who was marching through Spain on his way to Portugal: "You are marching in sixteen columns —that is to say, your first column left Bayonne on October 19, and the sixteenth will only leave on October 25. I do not approve of this. You should have marched in three columns. By this means my army would have been at Salamanca by November 10 or 12. You let the Artillery march at four days and the Cavalry at fifteen days from your divisions. . . . The English are leaving Copenhagen in force, and you must not allow them to be beforehand with you. . . . From Bayonne to Lisbon the distance is 200 leagues; to-day this is a very ordinary march for our troops, and it ought to be done in thirty-five days. On arriving at Lisbon you will encamp on the heights which command the city. My troops encamped at Boulogne all the winter round for several years." A few days later his Majesty wrote to Junot ordering him to raise a regiment of Portuguese, to be commanded by French officers, and he added:—"The English merchandise should be seized, and the Englishmen arrested and sent to France; all English property should be confiscated in my name—houses, vineyards, land, &c. The merchandise captured should be sold, half to go to the Privy Purse, and half to the Army. I reiterate to you to behave well, and to give an example of the greatest purity. It is better to have a fortune nobly acquired, and which you are not ashamed to acknowledge, than an illegitimate and shameful one. It appears that you will not reap much military glory in Portugal, and you should therefore acquire that of an honest and irreproachable administrator. The chief of your Staff is not a very delicate man; he took a good deal of money at Fulda. Impose upon him a scrupulous law. Let it be known that I shall punish anyone who steals. . . . All the precious objects that you take should be packed in cases and sent to the Amortizement Office. I will tell you what to do with them in another letter." It is difficult to read these instructions with a serious countenance, especially when one remembers how they were carried out. A year afterwards Napoleon was in Spain; he arrived at Burgos on the 11th November, where he met his brother, King Joseph. The aspect of the "great city" is thus described by Count Miot de Melito:—"The houses were almost all deserted and pillaged; broken furniture was piled in heaps in the mud; one quarter was on fire; a frantic soldiery broke open doors and windows, breaking and destroying everything; the churches were stripped, the streets encumbered with the dead and dying; in fact, all the horrors of a city taken by assault, although Burgos was not defended! The Chartreuse and the principal convents were sacked, and the graves violated." King Joseph protested against these scandalous acts, but Napoleon refused to interfere. What more need we say? When the French Army, under Junot, left Portugal, after the capitulation of Cintra, it embarked laden with spoil, Southey says on this subject, that when the French Generals entered Portugal they had to borrow linen. Soon, without having received supplies from France, they were splendidly attired, and sent home large remittances in bills, money, and effects, especially in cotton. Fourteen cartloads of church plate fell into the hands of the invaders, and "Junot fitted himself out with the spoils of Guelez, while Soison had shirts made out of the cambric sheets belonging to the Royal Family." In March the Emperor wrote to Junot:—"I see that the Portuguese are not entirely disarmed. It was an act of madness to publish my decree levying 100,000,000 francs before being master of the country. If you read over my letters you will see that you have not attended to any of my desires since you entered Portugal. . . The first thing you have to do is to send the Portuguese troops to France. . . I don't know what you mean by the 'Portuguese Army' which will join the English directly they disembark. I did not think you so wanting in politics and foresight. You are, to a degree of which I have never seen another example." On April 1, 1808, we find the Emperor writing in the following grand style to the Grand Duke of Berg, better known to us as Murat. Letter from St. Cloud:—"My Guard is marching on Madrid, where I suppose it will arrive about the 10th. My horses, the detachment of my household, of my mouth (*id est*, cooks, &c.), ought also to have started for Madrid. You must place 'all that' where I am to lodge. I do not know if the Prado, which is a country-house of the King of Spain, is large enough for me. If it be not large enough it will, perhaps, be more suitable for me to go to the Escurial." On April 6 Napoleon was at Bordeaux, on the 15th at Bayonne, where he remained till July 22 busily engaged in organization. Then he returned to Paris in very bad humour. Dupont had capitulated with 18,000 men at Baylen, and Junot had been beaten at Vimeiro. It was only in October, after the Treaty of Erfurth, that Napoleon could find time to venture into Spain. In May the Viceroy of Italy got rapped over the knuckles for not sending in proper returns; his returns were scouted as ridiculous. His Majesty could not see how many men had been detached for service in Spain. "For my Army in France," continued the Emperor, "the War Minister sends me in twice a month eighteen volumes in 12mo. and in 4to., which represent the state of the army in all points of view. Send me the returns I demand." On the 21st his Majesty wrote another letter to his stepson, one filled with the most minute instructions for the defence of the Piava. The Viceroy was to go to Asolo and to follow the windings of the Piava, to erect a battery here, to take advantage of rising ground at one place, and of a marsh at another, to throw a bridge over the river near Conegliano, "where, if my memory serves me right, there is a mountain which dominates the place, and below Asolo I think the river might be forded;" and so on for pages. On October 19 the Emperor wrote to Junot (after Cintra) saying—"You have done nothing dishonourable. You bring back my troops, my eagles, and my guns," and something else besides. "This convention, you have gained it by your courage, not by your dispositions, and the English are quite right to complain of their General for having signed it." Wellington did better afterwards. The letter terminated in this bombastic style—"A man like you ought to die, or only return to Paris master of Lisbon. Besides, you shall have the advanced guard, and I shall be behind you. Do not lose a moment; press on the organization of your (honest) administration; jump over all difficulties," &c. On Nov. 14 the Emperor wrote to the War Minister as follows:—"I have received your report to the effect that I have 83,000 pairs of shoes at Bayonne, 140,000 shirts, 23,000 knapsacks, 39,000 shakos. These are tales fit for children. I have nothing. I am naked. My Army is in want, and your bureaux laugh at me. The contractors are robbers. All your clothing service is rotten. Those at the head of it are fools or rogues. Never has anyone been so badly served and betrayed." The capitulation of General Dupont calls for some special notice. We had beaten French troops at Maida and before Acre, but Baylen was the first serious disaster which had overtaken the troops of Napoleon. There, when the Imperial sky seemed cloudless, 18,000 men laid down their arms and surrendered at discretion. On May 20 Madrid had received the news that Napoleon had wrung from Charles IV. and Ferdinand VII. a double abdication, and that he had given the Spanish Crown to his brother Joseph. The whole nation rose to fight for its independence. Oviedo gave the signal for resistance, and in ten days Leon, Arragon, and Andalusia were in a blaze. The Emperor, who was at Bayonne, and who had indulged in the hope of a pacific occupation, at once issued orders for the energetic repression of the insurrection. Marshal Moncey was ordered to operate in the North, and General Dupont was charged to reduce Andalusia to obedience. Pierre Dupont de l'Etang was then forty-three years of age; he had distinguished himself at the Argonne, at Marengo, Austerlitz, Jena, and Friedland, and was in high favour with the Emperor. Besides being a soldier, he was a gentleman and a poet, and was gifted with great powers of conversation. He was General of Brigade in '93 and General of Division in '97, and but for Baylen he would have gained his bâton of Marshal. Who was to blame for Baylen? Some authorities say Napoleon, who would insist upon directing operations from Bayonne, and who would reinforce Bessières instead of Dupont. It was not until it was too late that Napoleon changed his tone and comprehended the difficulties with which Dupont was beset. He wrote in July—"It is Bessières who must receive all the reinforcements of which you can dispose. It is he who covers Madrid. Everything is there. Should Dupont experience a check, it will be of no consequence, but if Bessières were to receive a blow it would go to the heart of the Army, which would suffer from tetanus." Savary presumed to remonstrate, and Napoleon replied, "Dupont has a larger force than is necessary. The true manner to reinforce Dupont is to send troops to Bessières." The Emperor when he wrote in this strain had little idea of the character of the Spanish nation and the indomitable resistance about to be opposed to his victorious legions. As a French historian has remarked:—"A wild and disinterested fanaticism, a fit of heroic madness seized upon the whole country, and this was a moral phenomenon beyond the comprehension of Napoleon . . . who could not imagine simple peasants and inoffensive citizens, without being forced or paid, dying for their country and for liberty." On July 14 Bessières beat Cuesta at Medina de Rio Seco, only losing 370 men killed and wounded, whilst he slaughtered over 4,000, and put 25,000 to flight. Napoleon considered the conquest of Spain finished, but King Joseph and his Generals were not deceived. On the day that Dupont capitulated, the Emperor wrote from Bayonne:—"There is nothing to fear to the north of Castille, nor in Aragon; Saragossa will fall sooner or later. . . . General Dupont alone is menaced, but he has 21,000 men," &c. Dupont, in fact, had been charged to defend a most exposed position in an unhealthy country; he had 18,000 men, nearly all conscripts, and who had been living on half rations. Opposed to him was Castanos with 35,000 of the best troops in Spain. On July 7 he received a reinforcement of nearly 5,000 men, but he had to disseminate his troops to keep up his communications, always menaced by the guerillas. He had to defend a front fifteen leagues in extent, and to guard a defile twenty leagues long in his rear. On July 15 Castanos commenced operations with his two Lieutenants—Reding, a Swiss, and the Marquis de Coupigny, a French *emigré*. Dupont, alarmed at the strength of the forces opposed to him, sent to General Vedel ordering him to send him a battalion, and in case he had few troops in front of him, a brigade. The next day Vedel, hearing a heavy cannonade, dispatched a division, and Reding at once forced the passage of the Guadalquiver, and drove the detachment opposed to him back upon Baylen. General Gobert, who had rushed to the rescue with his division, was killed. Some more errors of a similar kind rendered the position of Dupont desperate, and he made an attempt to escape in the night of the 18th. His march, however, was embarrassed by a file of 800 carts carrying his sick, wounded, and baggage. He was opposed by Reding early on the morning of the 19th, and by 10 o'clock had carried nearly all the positions. The French, who had marched seven leagues in heat and dust without a drop of water, were thoroughly exhausted and discouraged. Fifteen hundred men had fallen, General Dupont was wounded, the neighbouring heights were crowded with armed peasants, and the Swiss soldiers, unwilling to fight against their compatriots, deserted. With a demoralized army, worn out with fatigue, and surrounded on all sides, Dupont was obliged to capitulate. Art. 11 stipulated that the officers were to keep their baggage, Art. 15 that the Generals were to take the necessary steps to find and restore the sacred vessels carried off from different places, and especially from Cordova. Napoleon was himself to blame for the disaster of Baylen, for refusing to allow the Army of Andalusia to repass the Sierra Morena, as both Savary and Dupont had demanded. Napoleon, when he received the news of the capitulation, launched into a torrent of invective against Dupont, and he issued a decree depriving him of his military rank, his decorations, his title of Count, his coat of arms, and his pension. His name was erased from the catalogue of the Legion of Honour, and he was sent to a State prison. Four years afterwards General Dupont was tried by court-martial, and condemned to perpetual imprisonment; and when Napoleon was himself a prisoner at St. Helena, General Comte Pierre Dupont de l'Etang was War Minister to his Most Christian Majesty Louis XVIII.

Capt. H. Cowper, half pay, late 7th King's German Legion, died on the 21st inst., aged ninety years. The deceased officer served in the expedition to Sweden with Sir John Moore in 1808; in the same year he went to Portugal, where he served until July, 1811; thence to Malta, Sicily, and Genoa, until the peace. He received the war medal with two clasps for Talavera and Fuentes d'Onor, also the medal bestowed by the King of Hanover upon every officer, non-commissioned officer, and soldier of the German Legion, in commemoration of the services of the corps. At Talavera he acted as extra aide-de-camp to Gen. Sherbrook. He subsequently was for many years her Majesty's Consul at Pernambuco and Carthagena.

The Army.

1st (King's) Dragoon Guards. Paymr. (Major) W. Smith died at Manchester on the 16th inst. The deceased served with the regiment in the Crimean campaign from Aug. 16, 1855, including the siege and fall of Sebastopol (medal with clasp and Turkish medal). He was promoted to the quartermastership April 23, 1852, and became paymr. July 13, 1855. The remains of the deceased were interred in Salford Cemetery on Wednesday. The funeral took place at half-past ten, and was conducted with military honours. All the officers and men attended under command of Lieut.-Col. Alexander. Major-Gen. Sir Henry De Bathe, commanding the district, with Staff and the officers of the 38th Regt., were also present. The band, reinforced by the band of the 38th, headed the procession. The burial service was read by the Rev. Canon Crane, incumbent of St. George's, Hulme. The firing party consis'ed of 200 men, under the command of Capt. Thompson. By the death of Major Smith, Qrmr. Murphy becomes the oldest member of the regiment, being now in the thirty-fourth year of his service.

9th Lancers. We take the following from the monthly magazine published by the regiment:—"It is our sad lot to have to record the deaths at polo of Capt. Clayton and Sergt. Mercer. As a fuller account will be found in another page of this journal, we will simply add an extract from regimental orders and the letter from his Excellency the Viceroy informing the regiment of their great loss. Extract of regimental orders by Lieut.-Col. Marshall.—Sialkot, Dec. 27, 1876. No. 4—It is with deep regret that the commanding officer has to announce to the regiment the death of Capt. W. C. Clayton from an accident at polo. To know the late Capt. Clayton was to like and respect him; his genial, social, and kind-hearted manner made him universally popular, and endeared him to all ranks. The zeal and energy of the late Capt. Clayton for the good of everyone and the general welfare and interest of the regiment to which he was so proud to belong has secured him a place in the affections of every officer, non-commissioned officer, and private in the 9th Lancers. The commanding officer feels certain the late Capt. Clayton would have risen in his profession, as he was a thorough soldier, and his sad and sudden death has left a gap which will remain long unfilled. As a mark of respect to the memory of the late Capt. Clayton, the officers of the regiment are requested to wear mourning for one month from this date. By order, E. B. McInnis, Lieut., Acting Adjt., 9th Lancers. Viceroy's Camp, Delhi, Dec. 28, 1876.—Dear Sir,—News of the death of Capt. Clayton, of your regiment, will already have been communicated to you by telegraph, but I also wish to express to you, and through you to your regiment, my deep personal sorrow for the sad accident which has deprived his comrades and his country of this most gallant officer. I share the loss your regiment has sustained; for, during the short time that Capt. Clayton was on my personal Staff he greatly endeared himself to all my family and circle, and although the continuous obligations of those public ceremonials in which all my time is now unavoidably engaged have placed it out of my power to testify as publicly as I wished to do, and should otherwise have done, my sorrow for his death and my great and affectionate respect for his memory, yet I trust that every friend of Capt. Clayton will believe how truly he is mourned by myself, Lady Lytton, and all my Staff. I shall feel gratified if you can find an opportunity to make known to the officers and men of your regiment, by all of whom he was, I know, greatly beloved, these imperfect expressions of my deep sympathy with them in the sad loss they have sustained.—Believe me, my dear sir, yours faithfully, Lytton." The numerous friends of the deceased officer will read with pleasure the following *In Memoriam* which appears in the number of the regimental magazine in which his death is announced:—"The regiment has indeed had its Christmas Day overshadowed by death, and affliction reached its deepest on that evening in the sudden loss of one whom we all admired and loved—Capt. W. C. Clayton. He was taken from us by an accident while playing polo at Delhi. It is a very proper wish to say all that is good of a man when he is silent for ever, but the eulogies which the character of our lamented brother officer demands were never better deserved. We who knew him require no panegyric to remind us of his sterling worth. He was every inch a soldier—a first-rate horseman, a keen sportsman, and a thorough gentleman, a cricketer, a racquet player, and devoted to that game which robbed us and his of one whose cheering countenance and genial manner will never be forgotten. He unceasingly identified himself with the initiation and development of all that went on in the regiment. Possessed of indomitable pluck, energy, and manifold resources, nothing daunted him, no trouble was too great, no obstacle baulked him. His distinguishing characteristics were those most eminently to be desired in a soldier, and which, had opportunity occurred, would have doubtless proved him a hero. He was, indeed, a noble example, the labour to imitate which would be an excellent training. We learn that every honour possible was shown to his mortal remains, not only by those friends at the Camp—not a few—as he was rapidly gaining an esteem in this country which bade fair to rival the good name he left in old England, but also by the highest representatives of Government in India. Naturally, it was a subject of deep regret to many of his brother officers who were not at Delhi that they were unable to see him once more, and to lend their hand in laying him to rest. But in India the distances are so great that but the few brother officers who were on the spot could possibly be present, and we must console ourselves that no single officer was absent from choice, but of necessity. He sleeps where his regiment has fought and bled, surrounded by many a gallant soldier, and next to an officer of the 9th who fell during the memorable events of 1857. Capt. Clayton was educated at Harrow, and entered the Army in the 84th Regt., of which he became adjt., and exchanged as a capt. to the 9th Lancers June 8, 1867. He was acting as extra aide-de-camp to his Excellency the Viceroy when he was called away in the full stream of energy, enthusiasm, and freshness of spirits, which make life itself a joy, and from those honours which he deserved so well, and which were probably then in some measure about to reward him. We cannot conclude without expressing that feeling which is uppermost in our hearts. He was one from whom his seniors and his juniors may well take a moral. The extraordinary esteem, elevating influence, and affection which he inspired and we all felt were the results of thorough sincerity of heart, earnestness of purpose, singleness of tongue, and the very essence of manly bearing, and as we look back upon his life we may each one of us exclaim, 'Go thou and do likewise.' The memory of such an officer will be ever cherished in the 9th Lancers." We (*Morning Post*) are requested to state, with reference to the proposed memorial to the late Capt. Clayton, that the committee—of which the Marquis of Waterford is president—are unable to decide at present what form the memorial shall take until the amount of the subscriptions shall be approximately ascertained. Intending subscribers are therefore invited to make known their views and intentions to Messrs. Cox and Co., Craig's-court, S.W., who are now prepared to receive contributions.

10th Hussars. Capt. Gough has been appointed aide-de-camp to the Governor-General of India.

11th Hussars. Capt. Rivett-Carnac has been appointed aide-de-camp to the Hon. Sir R. Temple, Bart, K.C.S.I., on a special mission to the Madras and Bombay Presidencies.

14th Hussars. Lieut.-Col. Arbuthnot and Lieut. the Hon. H. G. Gough have been granted certificates as instructors in army signalling.

15th Hussars. Capt. Luck has been appointed a member of the Indian Annual Remount Allotment Committee, of which Major-Gen. Sir S. J. Browne, K.C.S.I., is president. Lieut. Daly, a probationer, squadron officer 2nd Central India Horse, is about to be admitted to the Bengal S.C., with effect from Oct. 12, 1875.

ROYAL ARTILLERY.

Lieut. F. J. Murphy, 4th Brig., has been granted leave from India to England from Dec. 11 to June 10 next, on medical certificate.

Major H. Le G. Geary has vacated his post as Assist. Adjt.-Gen. of the Royal Artillery in Ireland, having completed his five years' Staff service.

Surg.-Major W. R. Steuart, F Brig. R.H.A., has been appointed to the medical charge of the Dalhousie Convalescent Depôt, with effect from March 1.

Lieut.-Col. A. A. Bayly (late Bombay) has been assigned local rank as colonel in India, with effect from Dec. 13, 1876.

Lieut. J. Bent, 21st Brig., has passed the lower standard examination in Hindostanee.

The Queen has presented to the Royal Horse Artillery a handsome black charger to carry the drummer at the head of the mounted band. The horse, which has arrived at Woolwich from the Royal mews, is undergoing a course of training for its new duties.

ROYAL ENGINEERS.

A telegram has been received in England from Col. Gordon, under date Cairo, the 17th inst. He expected to start from Suez, *viâ* Massowah, for the Soudan on the following day. He states that the Firman has been signed, and that the Khedive has given him the old Province of the Equator, the whole of the Soudan, and the littoral of the Red Sea. No one could be invested with greater powers. All financial and other affairs have been placed in his hands. He says it will be his fault now if slavery does not cease, but that, of course, time will be required.

Lieut.-Col. D. A. Frazer has been appointed commanding R.E. at Cork, vice Lieut.-Col. A. W. Durnford, removed in a similar capacity to Dublin.

The 23rd Compy. arrived at Chatham on Saturday last from Cork, where it has been stationed. The company only consisted of eight of all ranks—two officers, one company sergeant-major, one sergeant, two sappers, and two buglers. All the other non-commissioned officers and men had previously been transferred to other companies at Cork, and transfers are now being made from the depôt companies at head-quarters to bring the 23rd up to its proper strength again.

Scots Fusilier Guards. The 2nd Batn. gave a farewell amateur performance at the Tower on Monday, Tuesday, and Wednesday, the farces of *Old Goosebury* and *Domestic Economy* being performed. The men of the battalion owe a debt of gratitude to Lieut. Hay, Sergt.-Major Gordon, and Drum-Major Bull for their efforts in producing amusements during the long winter nights. Bayonet contests, under the management of Lieut.-Col. Stracey and Capt. Montgomery, have taken place during the week among the companies of the battalion for prizes varying from £2 to 2s. 6d. The battalion moves on the 1st prox. to Wellington Barracks (new wing).

4th King's Own. On arrival in Dublin from the Curragh the 2nd Batn. is expected to occupy Beggars Bush Barracks, to be vacated by the 93rd.

7th Fusiliers. Capt. Beauchamp, 2nd Batn., is expected to take leave to England, on medical certificate.

12th Regiment. Lieut. Kennedy, 2nd Batn., has been appointed assist.-instr. of musketry.

14th Regiment. Sub-Lieuts. Ansley and Thurston, 1st Batn., have passed the lower standard examination in Hindostanee.

15th Regiment. Paymr. (Major) Hopson, 2nd Batn., has applied for leave from India to England.

17th Regiment. Lieut. Liardet, 1st Batn., has been appointed adjt. and qrmr. of the left-half battalion at Rawul Pindee.

18th Royal Irish. Surg.-Major Curtis, 1st Batn., has passed the lower standard examination in Hindostanee.

21st Fusiliers. The *Irish Times* hears that the title of the Scots Fusilier Guards which has been so long borne by the 3rd Regiment of Foot Guards is to be changed to that of "Scots Guards," and that the 21st Royal North British Regiment will assume the title of "Scots Fusiliers." To Col. Collingwood, of the 2nd Batn., is due the credit of bringing about the changes mentioned.

25th Regiment. Surg.-Major Gibbon, 1st Batn., has passed the lower standard examination in Hindostanee.

32nd Light Infantry. The *Irish Times* states that "Capt. Knollys is to retain his appointment as aide-de-camp to Sir Arthur Hamilton-Gordon, K.C.M.G., Governor of Fiji, on promotion to an unattached company from the 32nd Light Infantry."

33rd Regiment. Capt. Bally is detailed to proceed to England from India for depôt duty.

40th Regiment. Lieut. and Adjt. Brougham has been granted leave from India to England, on medical certificate. Lieut. Mansel has been appointed to officiate as adjt. during his absence.

43rd Light Infantry. Capt. Wilson has been appointed commandant of the Ramandroog Convalescent Depôt.

44th Regiment. Lieut. Browne, a probationer for the Indian S.C., has been transferred from the 2nd to the 3rd Goorkhas for duty.

ROYAL MARINES.

A court-martial was opened on Wednesday morning at the Royal Marine Barracks, Forton, for the trial of Capt. Augustine Evans, R.M.L.I., on the following charges:—1st. Conduct unbecoming the character of an officer and a gentleman in having, on Jan. 31, been drunk in the officers' mess establishment, Forton Barracks; 2nd. Conduct to the prejudice of good order and military discipline in having, at Forton on the same day, been incapacitated by drunkenness from the performance of a duty for which he was detailed in divisional orders as visiting officer to Priddy's Hand Guard. Prisoner pleaded guilty to the first charge, and not guilty to the second. The principal witness against the prisoner was Col. Richards. Fleet-Surg. Morton examined the prisoner, and pronounced him intoxicated, and he did not go on duty that night. The case for the prosecution having been closed, the Court allowed prisoner until yesterday to prepare his defence.

A commitee, consisting of the Depty. Adjt.-Gen. of the Royal Marines, Mr. James, of the Naval Branch, Admiralty, and Mr. Weltby, of the Treasury, has been appointed to examine and report upon the question of improving the position of the officers of the Royal Marines.

Medals for long service and good conduct have been awarded to Colr.-Sergt. G. F. Ball, 40th Comp.; Sergt. J. Robinson, 41st Comp.; Musician T. Rogers, 9th Comp.; and Sergt. O. Walker, 18th Comp.

Lieut. William Greet, R.M.L.I., having been reported unfit for further service on account of chronic sea sickness, has been placed on the Retired List and granted the half pay he has earned by service.

51st Light Infantry. The name of Capt. and Brevet Lieut.-Col. Trydell has been withdrawn from the list of officers detailed for depôt duty. Lieut. Boxall has been appointed station Staff officer at Cherat.

56th Regiment. The Kurrachee correspondent of the *Times of India*, writing on Jan. 5, says:—"The account which has crept into print in regard to the recent accident which Major Hill, of the 56th Pompadours, met with, is somewhat exaggerated. On the evening of Dec. 26 Major Hill was on horseback, and was crossing from the magazine to the Arsenal Guard, and entering the arsenal enclosure by a small gate at the north corner, in front of which a small grip has been cut, leaving a narrow path as a passage across. He turned his horse rather sharply on to this pathway just as another horse galloped by, which attracted the animal's attention and caused him to slip into the ditch. In endeavouring to recover himself the horse rolled over, bringing Major Hill's head against the gate, and damaging his shoulder. The gate was fortunately a light one, and the blow was trifling. No bones were broken, and though the major's shoulder was swollen and stiff, he did not consider the injury so severe as to necessitate his going on the sick list, and was able to go his rounds as field officer on duty on the following Thursday." The women and children have had their treat, given them by Col. Berry and the officers. Major and Mrs. Hill, Lieut. and Adjt. Newbury, and Qrmr. Leech were present to see that no one was neglected.

60th Rifles. On arrival at Aldershot from Winchester, the 3rd Batn. will take over the quarters in the North Camp lately vacated by the 2nd Batn. 11th. Lieut. Hope obtains the appointment of instructor of musketry of the 3rd Batn., vice Lieut. Okeden, resigned the appointment.

68th Light Infantry. Capt. Bolden has been assigned local rank as major in India, from Feb. 27, 1876.

79th Highlanders are expected to proceed in May to Ireland from Edinburgh.

86th Regiment is likely to move either to Dublin or Belfast very shortly. Since 1842 it has only served in the Great Britain for thirteen months—the remainder of the time either abroad or in Ireland. It will be a great boon to one and all in the regiment to be moved to England (as is anticipated) next autumn. Good shooting and judging distance prizes to the amount of £71 have been accorded. Major Adams has rejoined from leave, and assumed command.

88th Connaught Rangers. Surg.-Major Heath, on leaving the regiment at Athlone on Saturday last, after a service in it of sixteen years, received a most enthusiastic ovation, the band turning out and accompanying him and Mrs. Heath to the railway station. Dr. Heath has obtained leave until gazetted to half pay, and has proceeded to the Continent for the benefit of his health.

89th Princess Victoria's. Lieut. Brown has been appointed acting adjt. of the left half-battalion at Tonghoo, vice Lieut. McMurray, appointed adjt. to the regiment.

92nd Highlanders. Lieut. Douglas has been recommended for the adjutancy. Surg.-Major Roe, M.B., has been appointed to the medical charge of the Darjeeling Convalescent Depôt, with effect from the 1st proximo.

93rd Highlanders are to be moved from Dublin to the Curragh Camp for the drill season.

94th Regiment. The name of Capt. Pope has been noted at the War Office for an adjutancy in the Auxiliary Forces.

99th Regiment. Mr. J. Taylor, late hospital-sergeant, has been granted an annuity of £10, together with a silver medal, as a reward for his long and highly meritorious service.

100th Roayl Canadians. In the absence of Major Pitt, R.A., on sick leave, Capt. Dawes is doing duty as a garrison instr. at Aldershot.

109th Regiment. Lieut. Peile, a probationer, officiating wing officer, 2nd Bengal N.I., is about to be admitted to the Bengal S.C., with effect from Oct. 12, 1875.

Medical Department. Surg.-Major J. B. Hamilton, M.D., has carried off the gold medal of the India Rifle Association, with the title of "Champion of India." The competition took place on Dec. 26, 27, 28, and 29 at various stations in the North of India. The cup given by the Governor-General and other prizes have also been won by Dr. Hamilton. Surg.-Major G. Whitla has been granted leave from India to England, on medical certificate. Surg. W. B. Slaughter has been granted leave to remain in England from India from Dec. 8

to June 7 next, on medical certificate. The *Tatler* says: "The unification scheme has caused the greatest discontent in the Army. Very poor at all times have been the inducements held out to temptable men, who have adopted medicine as their profession, to enter the Army as surgeons. Still, many have done so from a liking for that *camaraderie* which so happily exists in most regiments, and to which the doctors have invariably been freely admitted. The case will be very different now. A surgeon must needs stand always staff in hand, and with his loins girded, for he cannot tell whether he may not be sent off to India or to any of our stations abroad with but a brief notice. The combatant officers of regiments will scarcely trouble themselves to make the acquaintance even of the doctors, who are here to-day and gone to-morrow; while they, on their part, will have but a thankless task in attending to their duties, for which in all probability their successors will reap many kudos that may have been justly merited through their zealous attention to the sanitary arrangements of the barracks, and to treatment of disease?"

THE AUXILIARY FORCES.

MILITIA.

3rd West York. Orders are issued for the regiment to assemble for training on June 4. It will encamp, as usual, on the race-course at Doncaster.

Royal Cork City Artillery. The hon. coloneley is vacant by the death of the Earl of Bandon, which occurred on Saturday at his lordship's Irish seat. His lordship was born in Jan., 1810, was appointed col. of the regiment Sept. 5, 1846, and became hon. col. Nov 12, 1873. His lordship is succeeded in the title by his son, Viscount Bernard, at present major of the regiment.

Galway Artillery. In answer to Mr. Morris, Mr. Hardy said:—The Galway Artillery regiment has not been formed because the Infantry regiment was unable to complete its establishment of ten companies. It has now been reduced to six companies, and the establishment is nearly complete. If on the expiration of the ensuing training the full number of men present themselves, there will be no objection to form the Artillery regiment.

Kildare Rifles. The place for the preliminary drill, commencing on the 5th prox., has been changed from Naas to the Curragh for want of barrack accommodation at the former place.

South Mayo Rifles. The change of head-quarters from Westport to Castlebar is not expected to take place before next year.

Mr. Sullivan will ask the Secretary of State for War on Monday if he will inform the House how many recruits were obtained for the Militia during the year 1876, and what is the maximum age at which they are usually taken.

YEOMANRY.

Royal Wilts. Capt. the Hon. P. Herbert has been returned to Parliament for Wilton, in the Conservative interest.

VOLUNTEERS.

15th Middlesex (London Scottish) Rifles. The annual presentation of prizes and winter inspection took place in Westminster Hall on Saturday evening. Col. Lord Abinger, Scots Fusilier Guards, inspected the regiment, under the command of Major Sir H. C. Pelly, Bart., in the absence of Lieut.-Col. Lord Elcho. Lady Pelly undertook the presentation of prizes. At the conclusion of the inspection Sir Henry Pelly expressed regret at the absence of Lord and Lady Elcho, from domestic affliction, and the still greater regret of his lordship that the same cause had determined him on retirement. He had been in negotiation with a distinguished officer of the Regular Army to succeed him, but on account of being on full pay he would be unable to take command before next June. Lord Elcho had, however, lost none of his interest in the London Scottish, and hoped to be their honorary colonel till his death. The total strength of the regiment is 521, against 485 the previous year, of whom 436 were efficients.

40th Middlesex Rifles. A majority is vacant consequent upon the retirement of Major Were, who is leaving the regiment after sixteen years' service, with permission to retain his rank and wear the uniform. Major Were's retirement is greatly regretted by all ranks, he having laboured most assiduously to promote their interests and the welfare of the corps. The vacancy is to be reserved for a half pay or retired officer. The 40th, since Col. Vincent's assumption of command, has made steady headway.

3rd Adm. Batn. Aberdeen Rifles. Capt. and Adjt. Blair is about to exchange his military for a civil appointment, and is expected to be succeeded by an officer of the 56th Brigade.

THE INDIAN ARMY.

7th Bengal Cavalry. The furlough to Europe granted to Brevet Major T. C. Graham, squadron commander, has been cancelled.

15th Bengal Cavalry. Lieut. S. D. Turnbull, adjt., is about to be promoted capt., with effect from the 3rd inst.

17th Bengal Cavalry. Capt. E. G. Newnham, squadron commander, has been granted leave to England for one year on private affairs.

19th Bengal Cavalry. Col. W. Fane, C.B., commandant, has been granted an extension of leave from India for six months.

2nd Bengal N.I. Lieut. S. C. F. Peile, officiating wing officer, is about to be admitted to the Bengal S.C., for which he is a probationer, with effect from Oct. 12, 1876.

8th Bengal N.I. Lieut.-Col. B. W. Ryall, commandant, has qualified for promotion as full col., with effect from the 14th ult.

12th Bengal N.I. Capt. A. Oldham, adjt., has arrived home from India on furlough.

40th Bengal N.I. Lieut.-Col. E. Dandridge, commandant, has qualified for promotion as full colonel, with effect from the 14th ult.

2nd Central India Horse. Lieut. E. D. H. Daly, squadron officer, is about to be admitted to the Bengal S.C., for which he is a probationer, with effect from Oct. 12, 1875.

3rd Hyderabad Infantry. Lieut.-Col. D. Shaw, wing commander 11th Madras N.I., and officiating commandant 1st Madras N.I., has been appointed wing commander, vice Lieut.-Col. Pedler, appointed to the 4th Hyderabad Infantry.

4th Hyderabad Infantry. Lieut.-Col. J. P. Pedler, wing commander 3rd Hyderabad Infantry, has been confirmed in his officiating appointment as commandant of the 4th, vice Col. W. Weldon.

3rd Goorkhas. Lieut.-Col. W. A. Garden, lately officiating commandant, has been appointed to do general duty at Meerut. Lieut. A. G. F. Browne, 44th Foot, has been transferred from the 2nd Goorkhas as officiating second wing subaltern on probation.

4th Punjab Cavalry. Capt. T. Shepherd, squadron commander, has been granted furlough to England for one year on private affairs.

1st Punjab Infantry. Lieut. T. C. Pears, second wing subaltern 3rd Punjab Infantry, on probation, has been appointed to officiate as second wing subaltern from Dec. 1, 1876, vice Lieut. D. A. A. Macpherson, appointed to the Military Accounts Department.

Corps of Guides. Capt. R. C. Hutchinson, second squadron officer, has resumed duty in India from furlough in Europe.

4th Madras Cavalry. Col. A. H. Hope, commandant, has arrived home from India on furlough.

4th Madras N.I. Col. C. E. Bates has been appointed second in command, vice Col. J. M. Grant, transferred to the 24th N.I.

10th Madras N.I. Capt. C. T. P. Luxmore, wing officer, has been appointed an assistant military accountant on probation, with effect from the 10th inst.

22nd Madras N.I. Col. S. Mainwaring, commandant, has arrived home from India on furlough. Col. W. C. Rich, now in Europe, from commandant 24th N.I., has been appointed commandant of the 22nd, Col. E. N. Norton, second in command, officiating for him.

24th Madras N.I. Col. J. M. Grant, officiating in command, has been confirmed in his appointment, vice Col. Rich, transferred to the 22nd N.I.

1st Bombay Light Cavalry. Surg. J. F. Keith has been appointed to the medical charge, vice Surg. M'Alister.

12th Bombay N.I. The services of Capt. J. L. Fagan, qrmr., have been placed at the disposal of the Government of India for employment in the Commissariat Department.

24th Bombay N.I. Major G. S. Hawthorn, wing commander, resumed duty in India on Jan. 18, from leave in England. Surg. J. A. Howell, from medical charge of the 29th N.I., has been appointed to the medical charge.

26th Bombay N.I. Col. A. Becher, commandant, has applied for furlough to England.

29th Bombay N.I. Capt. Cuningham, wing subaltern, has been placed on the establishment of brigade-majors of the Bombay Army.

THE "TERRITORIAL REGIMENTS."

The *Times* gives the designations which the Committee on Brigade Depôts propose for the 1st and 2nd Battalions of a "Territorial Regiment," of which the Militia of the Sub-District and the Brigade Depôt will form the other battalions:—

The 16th Regt. becomes the Bedfordshire Regiment; 49th and 66th, Royal Berkshire Regiment; 34th and 55th, Royal Cumberland and Westmoreland Regiment; 22nd, the Cheshire Regiment; 32nd and 46th, Duke of Cornwall's Light Infantry; 54th and 95th, Royal Derbyshire Regiment; 11th, the Devonshire Regiment; 39th and 75th, Royal Dorsetshire Regiment; 68th and 106th, Royal Durham Light Infantry; 44th and 56th, the Royal Essex Regiment; 28th and 61st, Royal Gloucestershire Regiment; 37th and 67th, Hampshire Regiment; 3rd Buffs, the Kentish Buffs; 50th and 97th, Royal West Kent Regiment; 4th, the King's Own Lancashire Regiment; 47th and 81st, Royal North Lancashire Regiment; 8th, the King's Lancashire Regiment; 40th and 82nd, the Queen's Lancashire Regiment; 30th and 59th, West Lancashire Regiment; 20th, the Lancashire Fusiliers; 63rd and 96th, the Royal South Lancashire Regiment; 17th and 45th, the Royal Leicestershire and Notts Regiment (Sherwood Foresters); 10th, the Leicestershire Regiment; 60th Rifles, King's Own Royal Rifles; Rifle Brigade, the Rifle Brigade; 7th Fusiliers, the Royal Fusiliers; 57th and 77th, the Royal Middlesex Regiment; 9th, the Norfolk Regiment; 48th and 58th, Royal Northampton and Rutland Regiment; 5th Fusiliers, Northumberland Fusiliers; 52nd and 85th, Royal Oxford and Bucks Light Infantry; 43rd and 53rd, Shropshire and Monmouth Light Infantry; 13th, Prince Albert's Light Infantry; 38th and 80th, the King's Staffordshire Regiment; 64th and 98th, the Queen's Staffordshire; 12th, the Suffolk Regiment; 31st and 70th, Royal Surrey Regiment; 2nd, the Queen's Own Surrey Regiment; 35th and 107th, Royal Sussex Regiment; 6th, Royal Warwickshire Regiment; 62nd and 99th, Duke of Edinburgh's Wiltshire Regiment; 29th and 36th, Worcester and Hereford Regiment; 15th, the East York Regiment; 19th, the North York Regiment (Princess of Wales's Own); 25th, King's Own Borderers; 14th, the Prince of Wales's Yorkshire Regiment; 51st and 105th, the King's Own Light Infantry; 65th and 84th, Royal West York; 33rd and 76th, Duke of Wellington's Yorkshire; 23rd, Royal Welsh Fusiliers; 24th, Royal South Wales (Regiment) Borderers; 41st and 69th, Prince of Wales's Light Infantry; 92nd and 93rd, Gordon and Sutherland Highlanders; 21st, Royal North British Fusiliers; 1st, The Royal Scots; 71st and 78th, Highland Light Infantry; 26th and 74th, Cameronian Highlanders; 73rd and 90th, Royal Lanark Light Infantry; 42nd and 79th, The Queen's Own Royal Highlanders; 72nd and 91st, Argyllshire Highlanders; 83rd and 86th, The Royal Ulster Fusiliers; 89th and 94th, Princess Victoria's Irish; 100th and 109th, the Prince of Wales's Leinster Regiment; 18th, the Royal Irish; 87th and 88th, the Royal Connaught Fusiliers; 102nd and 103rd, the Royal Dublin Regiment (Fusiliers); 27th and 108th, Royal Inniskilling Regiment; 101st and 104th, the Royal Munster Fusiliers.

The arrangement regarding facings appears to be that in cases where two battalions with different facings are amalgamated blue shall be the colour, and that as regards the present double battalion regiments the facings will remain as at present. The result would be that all (existing) Infantry regiments would have blue except the following:—3rd, 5th, 9th, 10th, 11th, 12th, 14th, 15th, 16th, 17th, 19th, 20th, 22nd, 24th, 37th, 67th, 71st, 72nd, 78th, 91st, 92nd, and 93rd, which would retain the present facings in each case The uniform of the 3rd and 4th (Militia) and the 5th (Brigade Depôt) battalions would be as nearly as possible similar to that of the Line battalions in each case. The arrangements for localization are intended to remain very much as at present; but the 60th Rifles and the Rifle Brigade, together with the 7th Fusiliers and 57th and 77th Regiments, would form the metropolitan sub-districts.

A NEW BREECH-LOADER.

Sir W. G. Armstrong and Co. have recently completed a breech-loading gun weighing a little over 39 tons (but called for convenience a 40-ton gun), which is by far the largest breech-loader hitherto constructed in this country. This weapon has just been the subject of trials at the proof-ground belonging to the Elswick firm, situated some forty miles north of Newcastle. The experiment attracted a large number of British and foreign artillerists. There were present Gen. Campbell, the Director-General of Artillery and Stores; Col. Younghusband, Superintendent of the Royal Gun Factories; Viscount de la Tour de Pin, French Naval Attaché; Baron Spaun, Austrian Naval Attaché; Gen. Gorloff, Russian Naval Attaché; Capt. Labrano, Italian Naval Attaché; Capt. da Motta, Brazilian Naval Attaché; Capt. Jessen, Danish Director of Naval Ordnance; and Capt. Mullertz, specially sent by the Danish Government; also Capt. Garcia, of the Spanish Naval Commission, and several other foreign officers. According to the *Times* this new 40-ton breech-loader is constructed upon the coil system, and is of 12in. calibre. The breech mechanism follows generally the French pattern—that is to say, it consists of a removable breech screw, so cut away in the thread as to take its full hold by being turned through one-sixth of a revolution. This screw draws back upon a hinged shelf, on which it swings back clear of the breech. But though the gun is similar to the French breech-loaders so far as the screw is concerned, it is altogether different in the mode of stopping the gas. This is done by using a steel cup resting upon a slightly convex surface on the head of the breech screw. The edge of the cup is pressed by the screw against a step or shoulder in the gun, so that when screwed up the base of the cup is forced to take the form of the convex head on which it rests, and thus the lip is expanded against the circular surface which surrounds it. When the breech screw is opened the cup recovers its form by its elasticity, and thereby releases its hold, and comes out on the screw with perfect freedom. The Elswick firm have made several smaller guns upon this principle, one of which fired upwards of 500 rounds in Italy with such excellent results that the Italian Government adopted the pattern, and ordered a very considerable number of these guns, many of which have been already supplied and are now in use. The experiments on the present occasion commenced with the trial of a breech-loader of this description, weighing 26 cwt. and of 4¾in. calibre. This gun was fired with charges of from 7¾lb. to 8½lb. of pebble powder. The breech was opened after each round by the officers present with the utmost facility, and the stoppage of the gas was seen to be absolutely perfect. The mean velocity obtained with the lowest charge (viz. 7¾lb.) was 1,491 ft. per second; with the 8lb. charge it was 1,543ft., and with 8¼lb. it was 1,555ft. With the highest charge the velocity instruments unfortunately failed to act. But the chief attraction of the day was, of course, the firing of the 40-ton breech-loader. This was fired with a projectile weighing 700lb., and with charges commencing at 160lb. of pebble powder and increasing by steps of 10lb. to 180lb. The velocities attained were very high, being 1,564ft. per second with 170lb., and 1,615ft. with 180lb. The last-named velocity was the lowest indication given by the two instruments used, but taking the average of both instruments, and including the observations with the same charge on a previous day, the velocity for a charge of 180lb., with this gun, is about 1,650ft. per second. The highest pressure in the bore was about 19 tons per square inch. The stoppage of gas was just as perfect in the large gun as in the smaller one, and the breech was easily and rapidly opened and closed by one man accustomed to the work, and by the mere application of his hands, without using any tool whatever. The projectiles are of the simplest description, being neither leaded nor studded, but acquiring rotation by a copper band at the base which is forced into the grooves. At this trial the projectiles were fired into a deep bank of sand so as to be recovered after firing. On examination after recovery the copper band was found to have acted perfectly.

Gentlemen who propose to be candidates for cadetships in the Royal Military College at the examination to be held in July, 1877, will be permitted to present themselves for "preliminary examination" either on the 5th and 6th of April or on the 3rd and 4th of May, but not on more than one of these occasions. These examinations will be held in Edinburgh and Dublin as well as in London. Such extra preliminary examinations will not be reckoned in the number of trials allowed by the 8th paragraph of the Regulations, and a candidate who fails at one of them will not be thereby precluded from presenting himself again at the ordinary preliminary examination in July. Gentlemen who wish to be examined in April or May should apply direct to the Civil Service Commissioners, so that their applications may be received not later than March 15 for the examination of April, and not later than April 12 for the examination of May. Their application should specify the place in which they wish to be examined and the modern language which they select. Candidates for admission by competition who may pass one of these two examinations must understand that they will not be admitted to the further examination in July, unless the papers sent in by them to the Military Secretary on or before May 15, as required by Regulation 13 (G. O. 88 of 1876), prove satisfactory.

The *Standard* says:—"It having been decided to show in the forthcoming Estimates a considerable reduction under the head of warlike stores and manufacturing establishments, an extensive discharge of workmen at the Royal Arsenal is expected about the end of March."

An experiment is being tried at Woolwich in feeding the horses of the Army Service Corps upon maize and oil cake instead of the ordinary feeds of corn and chaff. As the horses of this corps are daily employed in the Royal Arsenal, the conditions will nearly approximate to the circumstances of actual service.

The Army Gazette.

WAR OFFICE, February 20, 1877.

Royal Engineers—The retirement upon a pension of Major J. L. Watts (late Bengal) to be antedated to Aug. 29, 1876. The dates of promotion of the following officers to be altered as stated against their names, viz.:—Major O. B. C. St. John (late Bengal), to Aug. 29, 1876, vice J. L. Watts; Major H. R. Thuillier (late Bengal), to Oct. 7, 1876, vice W. R. Tucker (late Bengal), promoted; Capt. D. O'Brien, to Oct. 7, 1876, vice R. L. Thuillier (late Bengal); Capt. C. de B. Carey, to Oct. 27, 1876, vice J. A. Millar, deceased; Capt. B. Lowsley, to Dec. 8, 1876, vice J. Pennycuick (late Madras) promoted. The transfer of Capt. W. Shepherd (late Bengal) from the Seconded to the Supy. List to be antedated to Aug. 29, 1876, vice O. B. C. St. John, promoted. The temporary commissions as Lieuts. of the following officers to be made permanent, and antedated to Feb. 12, 1874, such antedate not to carry back pay, viz.:—H. M. Sinclair, E. R. Kenyon, S. C. N. Grant, C. McGuire Bate, M. Elrington, J. C. Middlemass, and F. Peel.

BREVET.

The hon. rank of Lieut.-Col. granted to Major J. L. Watts, Royal (late Bengal) Engineers, upon retirement, to be antedated to Aug. 29, 1876.

WAR OFFICE, February 23, 1877.

Where not otherwise specified, the following commissions and announcements bear date Feb. 24, 1877:—

Lieut.-Col. and Brevet Col. E. Seager, from half pay, late 4th Dragoon Guards, to be Inspecting Officer of Yeomanry Cavalry in Great Britain.

2nd Life Guards—Lieut. H. R. Toler retires from the Service, receiving the value of a Cornetcy and Sub-Lieutenancy.

4th Dragooon Guards—Lieut.-Col. and Brevet Col. E. Seager retirea on half pay. Sub-Lieut. F. Penton to be Lieut; April 23, 1873.

2nd Dragoons—Capt. G. T. Scott retires from the service, receiving the value of his commission.

5th Lancers—The date of resignation of commission of Lieut. E. H. R. Crofton, which appeared in the *Gazette* of May 16, 1876, is May 17, 1876, and not as therein stated.

6th Dragoons—Lieut. H. J. Peareth retires from the Service, receiving the value of his commission.

9th Lancers—Lieut. Lord W. L. De La P. Beresford to be Capt., vice W. C. Clayton, deceased; Dec. 27, 1875.

10th Hussars—Capt. W. Yeldham retires on temporary half pay.

16th Lancers—Capt. and Brevet Major R. W. Renshaw retires from the Service, receiving the value of his commission.

Grenadier Guards—Sub-Lieut. Sir H. C. Bacon, Bart., to be Lieut.; Feb. 3, 1875.

Coldstream Guards—Sub-Lieut. G. V. Boyle to be Lieut.; March 18, 1876. Sub-Lieut. J. G., Viscount Lambton to be Lieut.; April 29, 1876.

1st Foot—Lieut. A. Smith to be Instr. of Musketry, vice Lieut. W. C. Kennedy, *promoted*; Dec. 4, 1876.

4th Foot—Sub-Lieut. A. S. Brunskill to be Lieut.; Feb. 28, 1876.

6th Foot—Lieut.-Col. and Brevet Col. J. H. F. Elkington retires on half pay.

8th Foot—Sub-Lieut. C. B. Porter to be Lieut.; Feb. 11, 1875. Sub-Lieut. H. A. Fletcher to be Lieut.; Nov. 12, 1875.

10th Foot—Capt. E. H. Vaughton retires from the Service, receiving the value of his commission.

13th Foot—Lieut. W. E. Gaskell retires from the Service, receiving the value of an Ensigncy.

16th Foot—Lieut. L. C. Grubbe to be Instr. of Musketry, vice Lieut. F. J. Harden, promoted; Feb. 13, 1877.

17th Foot—Sub-Lieut. C. G. Whitby to be Lieut.; Feb. 11, 1875.

19th Foot—Capt. C. Skinner retires from the Service, receiving the value of his commission.

29th Foot—Capt. J. Bourke retires from the Service, receiving the value of his commission.

37th Foot—Lieut.-Col. and Brevet Col. V. H. Bowles retires on half pay.

38th Foot—Capt. P. Morrisey retires on half pay; Jan. 31, 1877.

60th Foot—Lieut. F. A. Beauclerk retires from the Service, receiving the value of an Ensigncy.

65th Foot—Sub-Lieut. P. G. Dwyer, from the 105th Foot, to be Sub-Lieut., in succession to Lieut. A. G. A. Durand, a Probationer for the Indian S.C.

66th Foot—Lieut. E. H. Fosbery retires from the Service, receiving the value of an Ensigncy.

83rd Foot—Lieut. J. M. Johnstone, from the 64th Foot, to be Lieut., vice H. B. Warden, a Probationer for the Indian S.C.

85th Foot—Sub-Lieut. R. H. H. Sadler resigns commission.

96th Foot—Lieut. the Hon. A. Hay, from the Royal Guernsey Artillery Militia, to be Second Lieut., in succession to Lieut. H. C. Marryat, promoted.
